And now for the bone-chilling tale of the day: Mr. Speaker, we have agreed to sell to the Red Chinese nuclear technology, and it was reported in the news today that they have been selling nuclear technology to Iran. The Ayatollah Khomeini, one of the leading advocates of terrorism in the world, is going to get from our friend, Red China, nuclear technology. Can you imagine that? I certainly cannot. There are two things that come to mind when I think about this: No. 1, we sure need the strategic defense initiative. If Ayatollah Khomeini gets a delivery system and has nuclear technology and can develop a nuclear bomb, he can launch it whenever he wants to with his terrorist ideas at the United States of America. So we need the strategic defense initiative. Second, we should reevaluate our policy of doing business with the Red Chinese, especially where nuclear technology is concerned, if they are going to be selling that same technology to terrorists.

□ 1015

FIRST COLUMBUS LANDING ON U.S. TERRITORY

(Mr. DE LUGO asked and was given permission to address the House for 1 minute.)

Mr. DE LUGO. Mr. Speaker, I will bet that many of my colleagues would be hard pressed to tell you where the first Columbus landing took place—on territory that is now under the U.S. flag. But any U.S. Virgin Islander would be proud to inform you that our islands hold that distinction.

During the second voyage to the New World, on November 14, 1493, Columbus landed on the island of St. Croix. He was sailing on the ship *Mariagalante* along with 16 other vessels. He named the island "Santa Cruz," now known as St. Croix, after the Feast Day of the Holy Cross. There Columbus found a settlement of several hundred native Indians, known to us as the Caribs.

The people of the U.S. Virgin Islands take great pride in this historic encounter. In preparation for the quincentennial celebration planned for 1992, the Christopher Columbus Jubilee Committee was formed in St. Croix this year to bring national attention to our role in the Columbus discoveries. The committee has already petitioned for a commemorative stamp and coin to mark the occasion.

I share their enthusiasm because a greater understanding of all of the U.S. territories and their role in this Nation's history is needed. Any commemorative marking of the St. Croix landing would serve as an excellent educational vehicle in chronicling the role of the West Indies in the discovery of the New World. It would also serve, just as importantly, to bring attention to the strategic importance the Virgin Islands maintain as a democratic role model for this Nation in the Caribbean Basin.

THE GRAMM-MACK PROPOSAL

(Mr. MONSON asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. MONSON. Mr. Speaker, although balancing the budget is not a new idea, legislation which forces discipline on Congress is a new idea.

As a CPA, I am shocked by the Federal Government's budgeting practices. They ignore the most basic, commonsense accounting principles. There is simply no correlation between how much money is taken in and how much is spent. I would be willing to bet that nearly every family in this country has better sense than the Federal Government when it comes to watching pennies and balancing a budget. In fact, if a family followed Congress' example, their finances would be in the worst state of turmoil imaginable.

The Gramm-Mack proposal is one big step toward revamping the budget process. It may help put some new words into the congressional vocabulary. Such words as "restraint," "discipline," "reason," and perhaps a new definition of the word "budget." The word "budget" in Congress has never

meant balancing debits and credits. I'm not convinced Congress has ever understood that definition.

We need a balanced budget. We need fiscal discipline. We must enact the Gramm-Mack proposal immediately. And we must follow that up with a balanced budget amendment for future generations as well.

THE PROPOSED ARMS SALE TO JORDAN

(Mr. TRAFICANT asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. TRAFICANT. Mr. Speaker, on May 14, 1948, Jordan joined Syria and four other Arab countries in a combined attack against Israel. Since 1948, Jordan has taken some form of military action against Israel five additional times.

Technically, Israel and Jordan are still at war.

Today I rise to express my strong opposition to the administration's proposed arms sale to Jordan. This is one crazy way to try and deal with our trade problem. I do so because I believe it harms both the United States and Israel interests in the Middle East.

It reduces the incentives for King Hussein to enter the peace process. It escalates an already staggering arms race in the region and increases the likelihood of another conflict. Until the King makes peace with Israel, a Jordanian arms buildup adds to the threat to the Jewish state. The King has moved away from the idea for direct negotiations between Jordan and Israel, and instead is proposing negotiations between the United States and the PLO.

Finally, the King's emphasis on this policy is additional evidence that he is not ready for face-to-face negotiations with Israel at all.

I believe with these conditions in place we cannot provide Jordan with any additional arms until real and meaningful dialog for peace is underway.

Again, this is one crazy way to look at our trade problem.

THE GRAMM-RUDMAN-MACK DEFICIT REDUCTION PROPOSAL

(Mr. KOLBE asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. KOLBE. Mr. Speaker, it was inevitable. The vigorous counterattack against enactment of the Gramm-Rudman-Mack deficit reduction plan is underway.

Letters, mailgrams and phone calls from interest groups are pouring in. The media has weighed in with a hand-wringing editorial campaign against its enactment. Even the administration has said that it is not sure it likes Gramm-Rudman-Mack because of the limits it could put on the needed defense buildup.

There is just one group that remains to be heard from: The American people. They know we're spending too much. They know we have demonstrated an uncontrollable urge to spend even more. And they want something done to stop it.

In my own State of Arizona in 1980, the people adopted strict limitations on spending and taxation. They put a stop to a government whose spending habits were growing faster than their earning abilities. And it works.

Gramm-Rudman-Mack isn't perfect. It doesn't solve all problems and those it does tackle, it doesn't do perfectly. But it does give us a chance to curb spending. It gives hope to our children and grandchildren that we won't spend them into oblivion.

Mr. Speaker, I hope the conference committee will very soon report strong measures to curb spending and cure our deficits.

YOUTH UNEMPLOYMENT OPPORTUNITY WAGE ACT OF 1985

(Mr. OXLEY asked and was given permission to address the House for 1 minute.)

Mr. OXLEY. Mr. Speaker, ask any teenager: Would you rather have a job paying about a dollar an hour less than the minimum wage or no job at all?

Having a job comes out on top every time.

Unemployment for those age 16 to 19 has been consistently higher than the overall unemployment rate. To encourage employers to hire youth age 19 and under from May 1 to September 30, I urge my colleagues to support H.R. 1811, the Youth Employment Opportunity Wage Act of 1985, introduced by the gentleman from Mississippi, Mr. TRENT LOTT.

The U.S. Labor Department has estimated that up to half a million new jobs would be created for unemployed youth if this proposal to reduce the minimum wage during the summer were implemented.

Youth unemployment is a national concern and we must work toward making Government-created wage rates more flexible to enable young people to find jobs and gain valuable work experience. Congressman LOTT's bill will achieve this purpose.

The status quo has failed miserably. Let's give youth opportunity wage a chance.

UNITED STATES-JAPANESE TRADE

(Mr. RICHARDSON asked and was given permission to address the House for 1 minute.)

Mr. RICHARDSON. Mr. Speaker, this week at the United Nations another summit meeting is scheduled between the President and Prime Minister Nakasone of Japan. Like most summits, that our two leaders have had, once again there will be smiles and promises—and on the Japanese side, no action.

Mr. Speaker, for 2 years the Prime Minister of Japan has promised to "Buy America"; he has promised export reductions; access to Japanese markets. He has made many promises that he failed to deliver on. He has made promises on better treatment of U.S. wood products, pharmaceuticals, telecommunications and many other items, and he has not delivered. Lots of promises, and smoke and mirrors, but no concrete action except smiles and rhetoric.

Last week our negotiators on telecommunications were rebuffed by the Japanese in Tokyo. Japan is a friend and ally, but once again we must stop and say: How many more times are we going to get smiles and promises from Mr. Nakasone and Japan? The Congress waits and waits—if this wait continues and there is no action on the Japanese side, Mr. Nakasone's smiles will soon turn to frowns.

MEMBERS URGED TO VOTE FOR LATTA AMENDMENT TO H.R. 3500

(Mr. SNYDER asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. SNYDER. Mr. Speaker, yesterday during general debate of the Reconciliation Act, the leadership of the Public Works Committee recommended strongly a vote against both the Latta amendment and the Fazio amendment on the basis of the fact that the Latta amendment took the trust funds for highways and aviation that we were proposing to take out of the unified budget and leave them in the unified budget.

Earlier today, by unanimous consent, the gentleman from Ohio changed his amendment so that the trust funds will come out of the unified budget beginning in fiscal year 1989.

As far as I am concerned, that takes away any objection that I have to the Latta amendment, and I would urge our Republican members of the Public Works Committee who had committed to a vote against Latta for that reason to now support the Latta amendment but to vigorously oppose the Fazio amendment.

I yield to the gentleman from New Jersey [Mr. HOWARD].

Mr. HOWARD. I thank the gentleman for yielding.

Mr. Speaker, I will like to say that we spent the last several days urging the members to oppose the Latta amendment and the Fazio amendment based on this highway trust fund and airway and transit trust fund provision that we have, and we do find that that has been amended satisfactorily in the Latta amendment. Now, there may be many reasons that many of us on both sides of the aisle would want to oppose the Latta amendment but not on the Public Works position; however, we would urge Members to still strongly oppose the Fazio amendment should that come up during the deliberations.

TERRORISM MUST NOT BE TOLERATED

(Mr. BRYANT asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. BRYANT. Mr. Speaker, every American is justifiably appalled by the repeated acts of terrorism directed at our citizens, allies, and other innocent people around the world by international criminals. The latest of these barbarous acts—the sea-jacking of a cruise ship and the indefensible murder of a defenseless American citizen confined to a wheelchair demanded swift and effective response.

Our immediate strong pursuit and capture of these criminals by air was justified, effective, and long overdue. But we must do more still to stop terrorism.

The four terrorists responsible for this heinous crime have been apprehended and will be brought to justice. This will, I hope, send a clear signal to others who have planned and executed such terrorist acts that the United States—and presumably her allies—will not tolerate bombings, hijackings, kidnapings, or killings such as those we have witnessed in recent years without an immediate response.

Bringing a handful of terrorists to justice and insuring that the punishment they receive fits the dastardly crimes they committed, however, is not enough.

Those who masterminded this awful plot against all civilized morality remain free and are no doubt plotting terrorist acts of retribution for America's unified strong stand against these four international criminals.

We must take even stronger and more far-reaching action still to help insure that terrorists can have no place to hide. We must make certain that those nations which aid and abet their efforts—whether through fear or complicity—know that we in America mean business.

Not only am I in support of the action we took in capturing these hijackers, despite the considerable risks involved, but I have also joined with several of my colleagues in the Congress in working to increase our ability to fight terrorism.

I have cosponsored legislation to terminate all forms of U.S. assistance to any nation that has an opportunity to prosecute international terrorist acts, but fails to do so. The legislation also directs the President to develop a plan, in cooperation with our Western allies, to respond swiftly and certainly to terrorist incidents, to obtain and distribute accurate intelligence concerning terrorists threats, resolve any crises resulting from terrorist incidents.

So long as there is one nation on Earth where terrorists are safe to pursue their madness, no individual, group, or country is secure. So I also propose that, in concert with the civilized nations of the world, we offer a sizable reward for the apprehension, prosecution, and conviction of any person involved in the planning or execution of any terrorist act.

International terrorism constitutes one of the gravest and most serious threats to free and open societies. Not only must we begin taking the strong steps necessary to protect our own people, but we must let the world know that we regard failure to act against terrorism and its perpetrators as an act of hostility toward civilization.

PERSONAL EXPLANATION

Mr. ST GERMAIN. Mr. Speaker, in the October 23, 1984, issue of the CONGRESSIONAL RECORD I am recorded as having missed rollcall No. 368 on the Health Research Extension Act. I know full well I put my card in and went over to the Senate for a meeting, but unfortunately it did not record. I just want it noted in the RECORD that I did vote for it, I thought. But that is the electronic voting for you.

THE LATTA AMENDMENT TO H.R. 3500

Mr. ST GERMAIN. Mr. Speaker, I am very disappointed in what happened a little earlier today. I am disappointed that the leadership could not have alerted us to the fact that it was going to happen. I am chagrined to hear that since Public Works now has been taken out of the Latta amendment that the members of the Public Works Committee might well go the other way. We will be watching the vote very closely, those of us on the Banking Committee, and we hope that the people on Public Works will not forget what almost happened to them and not do it to us and not allow us to have a housing bill to go to the Senate so that the Senate will indeed consider a total housing bill. We will discuss this a little further in the debate on the Latta amendment.

□ 1030

UNEMPLOYMENT AMONG OUR YOUNG AMERICANS REMAINS A SERIOUS PROBLEM

(Mr. BILIRAKIS asked and was given permission to address the House for 1 minute and to extend his remarks.)

Mr. BILIRAKIS. Mr. Speaker, in March of this year President Reagan urged the Congress to enact H.R. 1811, the Youth Employment Opportunity Wage Act of 1985. I share the President's opinion that providing adequate employment opportunities for our young people is a longstanding problem. In these times of economic prosperity, we tend to forget that unemployment among young Americans, particularly blacks and Hispanics, remains a serious problem.

The minimum wage has most hurt unskilled youth by pricing them out of the job market, at a time when they need to learn good work habits, responsibility, and acquire skills that will help them become upwardly mobile. H.R. 1811 would create a youth minimum wage effective for the months of May through September. During this period employers may not fire or demote other employees to take advantage of the special minimum wage level, and the Secretary of Labor would be required to monitor the program and report to the Congress on its effectiveness.

Our young people would learn the basic ingredients of success through the development of job skills. Their contributions will help insure the continued strength of our economic and political system, a system which requires the participation of all Americans. I feel that our young people are in need of this opportunity, and the Congress is in a position to make it possible.

REJECTION OF THE LATTA AMENDMENT URGED

(Mr. GRAY of Pennsylvania asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. GRAY of Pennsylvania. Mr. Speaker, unfortunately something has taken place this morning which I think really is not fair and does not serve the process of this House well.

There were going to be amendments that were offered during the reconciliation process which have been decided upon by the Rules Committee, but unanimous-consent was requested to take the trust funds and put them off budget in 1989, as I understand it, as a part of the Latta amendment.

I would like to say that if I had been present and on the floor, I would have objected to that, and therefore, I will urge Members of this body to oppose Latta, if they are serious about budgeting, if they are serious about keeping everything in the budget. How can you take off three major trust funds? And if you take those off, you better be prepared to take the rest of the trust funds off of the budget as well.

I am extremely disappointed that the Member who made that unanimous-consent request, who is also a member of the Budget Committee, never conferred with the Chair to find our position. So therefore I am forced to oppose that unanimous consent request by urging the rejection of the amendment which will be offered later by the gentleman from Ohio, the Latta amendment.

Mr. HOWARD. Mr. Speaker, will the gentleman yield?

Mr. GRAY of Pennsylvania. I yield to the gentleman.

Mr. HOWARD. I thank the gentleman for his statement, and I have stated myself that does not mean the Members of the Public Works Committee are automatically going to be supporting the Latta amendment, including myself.

I would just like to ask the gentleman one question: Is it not true that the Budget Committee, having received from the Public Works Committee the provision that takes trust funds off budget, did submit the reconciliation bill to the Rules Committee with no recommendations one way or the other concerning the trust fund?

Mr. GRAY of Pennsylvania. The Budget Committee voted 22 to 7, including the Member who made the unanimous-consent request this morning, to submit as the Budget Act calls for, the entire reconciliation package. The Budget Committee does not have the ability to offer anything submitted by the committees under reconciliation.

We have a ministerial duty which passes it to Rules. Rules then decided whether or not to allow amendments. The Rules Committee in its wisdom decided to allow three amendments. There would be ample opportunity to debate the question of new authorizations. There would be an opportunity to debate the question of keeping the trust funds on. There would also be an opportunity to debate the Amtrak reauthorization.

I think what we have seen here today through this unanimous-request and by the combining of the new authorizations with the issue of the trust funds is an unfortunate thing that therefore means that we ought to all vote against the Latta amendment.

THE ISSUE OF THE TRUST FUND AND THE HOUSING FUND SHOULD BE SEPARATE ISSUES

(Mr. BARTLETT asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. BARTLETT. Mr. Speaker, I thank my colleagues for allowing me to go a bit out of order, but to follow up on what the chairman of the Budget Committee said just a minute ago, I would call the House's attention to several facts on the Latta amendment.

First of all, the Fazio amendment is still in order, and that is on a freestanding basis the House will be able to decide what to do with the highway and the airport trust fund, and that is the way it should be, a freestanding basis. It should come as no surprise that many of us had long advocated the opportunity to vote on the housing bill and those reauthorizations separately. In fact, I testified before the Rules Committee to ask that such a thing be put in order.

The Fazio amendment, in my judgment, should never have been included in the Latta amendment in the first place. They are two separate issues. Now the House will have the opportunity to vote simply on the reauthorization issues of legislative issues, primarily the extension of the housing bill, within the context of a freestanding vote up or down.

We will urge that the Latta amendment be adopted on its own so the House then can consider the housing bill on its own merits.

Mr. SCHUMER. Mr. Speaker, will the gentleman yield?

Mr. BARTLETT. I yield to the gentleman.

Mr. SCHUMER. Mr. Speaker, I thank the gentleman from Texas.

A question just comes to mind if the other side was so eager to see things voted separately then why did the chairman, the ranking minority of the Budget Committee combine them all in one amendment?

Mr. BARTLETT. Reclaiming my time, I appreciate the gentleman's question because I do not know why. I have long urged the ranking member, Mr. LATTA, of the Budget Committee to separate the amendments, and I testified to that effect in the Rules Committee, and I would simply urge that the issue of the trust fund and the issue of the housing bill could be two separate issues and should be considered that way.

Mr. SCHUMER. If the gentleman would yield further, there are five items still attached in Latta. Why did he just choose one? I would urge the gentleman and I would wager to the gentleman that if the other side was serious about budget deficit reduction instead of just making what we used to call in the legislature a "rain dance," they would have separated them all or put them all together. There are a lot of games going on here.

THE TRUE COLORS OF THE OTHER SIDE HAVE BEEN REVEALED

(Without objection, Mr. SCHUMER was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. SCHUMER. Mr. Speaker, I would like to say to my colleagues that what happened on the floor a few minutes ago reveals the seriousness of the other side about deficit reduction.

When it comes to a program like low-income housing, they are very serious about deficit reduction. When it comes to highways or airports or offshore oil, they are not very serious about deficit reduction.

The gentleman from Ohio has now exempted probably the No. 1 area of deficit reduction. Removing the airport and highway trust funds from the budget increases the deficit by more than anything that exists in the Latta amendment. I would just say before I yield to my good frined, the gentleman from Texas, that the true colors of the other side have been revealed. Let us make a few headlines, let us make a little noise, but let us not really reduce the deficit across the board.

Mr. BARTLETT. Mr. Speaker, will the gentleman yield?

Mr. SCHUMER. I yield to the gentleman.

Mr. BARTLETT. I assume then that the gentleman will vote for the Fazio amendment as will I vote against it. I testified openly, publicly, privately in every capacity that the public works amendment and the housing amendment should be separate amendments, and I am glad that the gentleman from Ohio has done that this morning.

SUPPORT URGED FOR THE LATTA AMENDMENT

(Mr. RIDGE asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. RIDGE. Mr. Speaker, as a Member who has been interested in reform of the Urban Development Action Grant Program these past several years to make it more responsive to worthy and two needed projects across the country, I thought this House was going to have a chance soon to work its will on the UDAG Program when we opened floor consideration of H.R. 1, the housing bill.

Now I find that the housing bill has been deftly tucked into the budget reconciliation measure, and those of us who are interested in UDAG and other HUD programs important to our dis-

tricts will have to vote either up or down this entire lengthy bill without having a chance to get it explained or modify it.

Slipping this HUD authorization into a deficit reduction bill is, I can only suspect, some artful legislative sleight of hand which will deprive the Members of this House from having any say on one of our major economic development programs.

I urge my colleagues to join me in supporting the Latta amendment, which would permit us all to have a fair look at the housing bill under regular order that every other major authorization bill must endure.

□ 1040

THE GOOD NEWS AND THE BAD NEWS ON THE LATTA AMENDMENT

(Mr. FRANK asked and was given permission to address the House for 1 minute.)

Mr. FRANK. Mr. Speaker, the advice of my predecessor at the microphone would make a great deal of sense if Members have had a great hungering once again to participate in a model United Nations, because you could have the authorization come to the floor and you could debate it and vote on it and amend it, and it would die, it would go no further.

The reason the housing bill is in reconciliation is that the other body has refused to act on a housing bill. There was a meeting being held that was not going well. It got adjourned.

There ought to be some changes in UDAG. The gentleman from Pennsylvania alluded to changes in UDAG. There is a compromise whereby Members from the Northeast have supported broadening UDAG so it is more available in the South and the Southwest. That is in this authorization.

Defeat that piece. Vote for the Latta amendment, and UDAG will stay as it is, primarily a Northeastern program, for which I thank you in this specific. But I do not think it is good overall because we have no willingness on the part of the other body to act.

Yes, it would be good for Members to have a chance to vote. You can vote, you can dance, you can sing, you can do up-and-down and feel good, but the thing will die.

If you want to seriously legislate in the housing area, the only option we have been given by the other body is to do it in this way and send it to a conference.

So the good news is if you vote for the Latta amendment, you will get to make yourself look good by voting on the housing bill. The bad news is that it will not do you any good whatsoever because the other body will not act on it.

Mr. Speaker, this is the only way to act. It is a responsible bill. It is below budget. It has some new programs in it because it replaces some old programs at less money.

THE GRAMM-RUDMAN AMENDMENT

(Mr. GROTBERG asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. GROTBERG. Mr. Speaker, the Federal Government has been ringing the budget deficit register for far too long now. We have a Bureau of Public Debt with about 2,400 employees and a $200 million budget just to manage the debt load. It's time to put a stop to the seemingly endless cycle of deficits and high interest payments taking money away from American citizens and businesses.

For a long time, the President and the Congress have been talking about reducing and eliminating the Federal deficit. Despite good intentions, efforts to cut the deficit beast down to size have been unsuccessful. Now an amendment known as Gramm-Rudman is pending in a House-Senate conference committee which would set mandatory deficit reduction goals for Congress and the President to follow. I strongly support the Gramm-Rudman amendment and I intend to vote for it if it is reported out of the conference committee intact. The Federal Government must begin doing what every American must do each day—live within its means.

The United States is nearing a $2 trillion deficit. A pile of $1,000 bills stacked 134 miles tall equals $2 trillion. Such an image well illustrates the dangerous implications of a high debt; $2,000,000,000,000—$2 trillion—is simply too much. Some economists fear that in the near future, interest payments on the Federal debt will actually exceed the budget deficit.

I urge my colleagues to support Gramm-Rudman so we never see the terrible results.

TRIAL OF LEONID VOLVOVSKY

(Mr. LEVIN of Michigan asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. LEVIN of Michigan. Mr. Speaker, this morning our President has been addressing the United Nations about Soviet-United States relations. At the same time Leonid "Ari" Volvovsky stands in a Soviet courtroom on trial for so-called slandering the Soviet State.

What evidence have the Soviets produced for their charge? A single witness has claimed that Volvovsky gave her a copy of the book, "Exodus," and, therefore, he has engaged in distributing anti-Soviet material with the intention of slandering the Soviet Union.

The Government has not allowed Volvovsky's wife and daughter to attend the trial. In fact, the Soviets have named his wife as a prosecution witness to deny her the right to observe the trial.

Mr. Speaker, this is certainly not the climate that the U.S. Congress and the U.S. Government expects from the Gorbachev regime less than a month before the November summit. If the Russians are serious about progress at Geneva, they should drop their unsubstantiated charges against Leonid Volvovsky.

TRANSPORTATION TRUST FUND

(Mr. GINGRICH asked and was given permission to address the House for 1 minute.)

Mr. GINGRICH. Mr. Speaker, I think there is a great deal of confusion and to some extent misinformation about the Fazio amendment and about what has happened this morning.

The wording of the Latta request in the amendment which the gentleman from Ohio [Mr. LATTA] put in reduces the deficit on balance. The way it is worded, the trust funds will stay on budget for the next 2 years when it helps the deficit and go off budget at precisely the point to continue helping the deficit. To vote for Fazio would mean, according to the Congressional Budget Office, that the deficit will be larger by $80 million in 1989 and by $230 million in 1990.

The fact is that a Fazio vote is a pro-larger deficit vote. Furthermore, the argument that the trust funds going off budget will in any way hurt the social programs can only be true if you intend to steal from the people who pay the taxes directly, that is, the people who drive cars and pay gas tax, the people who fly airplanes and pay a passenger tax. Those taxes are in trust funds, and those trust funds are deficit proof. They cannot spend any more than they get in. They receive no general funds.

What we have been doing in the last few years is in a sense cheating the people who pay in order to build a better transportation system to buy up Government bonds instead of building the construction that is supposed to be built.

NO NEED FOR DISCHARGE PETITION

(Mr. SMITH of Florida asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. SMITH of Florida. Mr. Speaker, I urge my colleagues not to sign the discharge petition on S. 49, the Firearms Owners Protection Act.

The Subcommittee on Crime, on which I serve, will be holding two hearings next week on a plethora of gun-related bills. The legislative process is working.

Furthermore, discharging the committee from further consideration of S. 49 would preclude the House's being able to correct language in that bill which would make it easier for guns to get into the hands of the criminal element.

Sarah Brady, wife of White House Press Secretary James S. Brady, has written that "we must take steps to ensure that criminals and other irresponsible persons cannot have free and easy access to these potentially deadly weapons."

If you want to stand on the side of James and Sarah Brady, law enforcement officers across the country, and the vast majority of the American people, then do not sign the discharge petition on S. 49.

APPOINTMENT OF ADDITIONAL CONFEREES ON H.R. 2419, INTELLIGENCE AUTHORIZATION ACT FOR FISCAL YEAR 1986

Mr. WRIGHT. Mr. Speaker, I ask unanimous consent that the Speaker be authorized to appoint five additional conferees on the bill (H.R. 2419) to authorize appropriations for fiscal year 1986 for intelligence and intelligence-related activities of the U.S. Government, the Intelligence Community Staff, and the Central Intelligence Agency Retirement and Disability System, and for other purposes.

The SPEAKER pro tempore (Mr. SLATTERY). Is there objection to the request of the gentleman from Texas? The Chair hears none, and, without objection, appoints the following conferees:

Additional conferees for matters within the jurisdiction of the Committee on the Judiciary under clause 1(m) of House rule X: Mr. RODINO and Mr. LUNGREN; and

Additional conferees for matters within the jurisdiction of the Committee on Armed Services under clause 1(c) of rule X: Messers. ASPIN, STRATTON, and DICKINSON.

There was no objection.

EFFORTS TO REDUCE UNEMPLOYMENT

(Mr. SHUMWAY asked and was given permission to address the House for 1 minute.)

Mr. SHUMWAY, Mr. Speaker, high unemployment is one of the most serious economic problems facing our Nation today, and is particularly acute among our Nation's youths. Currently, the teenage unemployment rate is 18.9 percent, and minority youth unemployment is 42 percent. These are sobering statistics which should be seriously addressed by this body.

Without question, minimum wage laws have created many of our youth unemployment problems. Employers are reluctant to invest limited resources to employ unskilled and inexperienced workers at the mandatory minimum wage. The Minimum Wage Commission reported that increases in the minimum wage have led to decreases in youth employment. A 1982 study by economist Robert H. Meyer and David A. Wise, who are associated with the National Bureau of Economic Research, indicated that employment in the 1970's would have been 7.1 percent higher for teenagers and 2.2 percent higher for the 20-24 age group had there been no minimum wage.

In response, Congress currently has before it proposals which would expand employment opportunities for young people by creating new incentives for summer youth employment. Among these is the subminimum wage proposal, which would allow employers to hire youth at about 75 percent of the minimum wage for summertime employment. Unlike make-work programs which do little to prepare individuals for placement in the job market, the subminimum wage provides incentive for employers to hire youth to do needed work, and make a valuable contribution to the job market. By encouraging employers to hire young people through the subminimum wage, unemployment among youth will be reduced and young people will be given a start in the job market. In the short run, an estimated 400,000 summer jobs will be added to the private sector in a wide variety of industries; in the long run, youth will gain experience which will lead to more substantial and responsible work in later years.

There is broad-based support for subminimum wage, including the Boys Clubs of America, the National Coalition of Hispanic Mental Health and Human Services Organizations, the Fraternal Order of Police, National Association of Minority Contractors, and the National Conference of Black Mayors to name a few. In light of this support in the private sector, and inasmuch as provisions of pending legislation prohibit the displacement of adults and already-employed youth, I urge strong House support for subminimum wage legislation.

TODAY'S WASHINGTON POST LEAD EDITORIAL

(Mr. SHAW asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. SHAW. Mr. Speaker, this morning we are greatly indebted to—of all things—the Washington Post for its lead editorial today which very neatly demolished the argument of those who oppose taking self-financed transportation trust funds off budget.

It is not that that was the Post's intent. Indeed, our friends at the Post are frantic at the idea of moving the highway, transit, and aviation trust funds off budget. But by inadvertence, the Post helped make our case.

□ 1050

The Committee on Public Works and Transportation has been arguing that there is no real justification for keeping these funds in the unified budget because the revenues are so distinct in terms of origin and in terms of end use, so thoroughly subject to congressional controls, that on-budget status is neither necessary, desirable, nor is it honest.

More specifically, the committee has argued that the principal rationale for keeping them in the unified budget is one of shabby deception at odds with the principles of honest budgeting and honest accounting; namely, to make the general fund deficit look smaller and therefore make a little more room for deficit spending programs.

Now comes the Post supporting our contention, if not our case. "The present unified budget," reads the editorial, "in which all funds are combined, was adopted in the Johnson administration. (President Johnson liked the idea because the surplus in the Social Security fund made the general fund deficit look smaller.)"

Thank you, Washington Post. The former President liked that sort of budget gimmick. That's not news. And so does the Office of Management and Budget today. And a lot of people on the Budget Committee, and the Appropriations Committee, and Mr. FAZIO. That doesn't make it any more honest today than it was in the late 1960's.

I urge my colleagues to vote "no" on Fazio and to support the Latta amendment.

SEPARATE VOTE ON FAZIO AND LATTA AMENDMENTS

(Mr. PACKARD asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. PACKARD. Mr. Speaker, I am particularly delighted that we have been able to separate the major issues involved in the voting today.

The Fazio amendment addresses the issue of the trust funds, and the Latta amendment addresses primarily issues of deficit reduction. To join those two together will prohibit the Members of this body from being able to vote on those two issues separate and apart. Now we have that opportunity, and I applaud the action taken that allows this.

There is inherent within the reconciliation bill an automatic raise for the Members of Congress. Some of us violently object to that provision and want to vote against it. But at the same time, there are many of us who are very concerned about putting the trust funds within the unified budget. This will allow us now to vote separately on these issues, which I think this body has a right to do. I certainly support the Latta amendment in the present form and would encourage this body to oppose the Fazio amendment which would put the trust funds in the unified budget.

YOUTH EMPLOYMENT OPPORTUNITY WAGE

(Mr. LAGOMARSINO asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. LAGOMARSINO. Mr. Speaker, one of this Nation's most serious longstanding problems is providing adequate employment opportunities for our young people. Teenage unemployment has been historically two to three times that of adult unemployment rates. The impact of these unemployment figures on our Nation's youth are not only economic but social. Inadequate work opportunities act as a disincentive for many youth to continue their education and shifts their attention to less desirable pursuits, such as crime and delinquency. A great deal of Federal Manpower Training and Antipoverty Programs has been extended to improve this group's employment situation, with little success. The youth unemployment opportunity wage would be a much more effective strategy of combating youth unemployment and would help ease Federal budgetary pressures. The Labor Department has estimated that a youth subminimum wage would create 400,000 new jobs and the total could reach 640,000 if States with their own laws implement a similar program.

Mr. Speaker, the concept of a youth employment opportunity wage has attracted a broad coalition of support from such diverse groups as the National Conference of Black Mayors, the U.S. Chamber of Commerce, and the American Farm Bureau. I urge my colleagues to support the youth employment wage proposal because a job paying $2.50 per hour sure beats no job at all.

GRAMM-RUDMAN-MACK

(Mr. BOULTER asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. BOULTER. Mr. Speaker, I rise in support of the Gramm-Rudman-Mack bill.

One of the strongest points of the bill is the beneficial effect it is likely to have on interest rates. As most of you know, real interest rates have been at a near historic high, despite most economic indicators being positive.

Unquestionably, the main reason for such excess caution in the financial markets is that we have sent no meaningful signals that we intent to do anything about the deficit. There is no reason for the markets to believe we are not going to let the Federal debt continue spiraling out of control, moving like a destructive hurricane across the economic landscape.

Gramm-Rudman-Mack gives them that reason. Its passage would show that we, in Congress, are committed to getting our fiscal house in order. It would nullify the fears of inflation caused by the prospect of continually larger deficits.

It would, without a doubt, bring down interest rates and generate economic growth. This increased growth would expand the tax base, generating additional revenue that will help narrow the deficit and lessen the need for draconian budget cuts.

CALL OF THE HOUSE

Mr. GRAY of Pennsylvania. Mr. Speaker, I move a call of the House.

A call of the House was ordered.

The call was taken by electronic device, and the following Members responded to their names:

□ 1115

The SPEAKER pro tempore. On this rollcall, 410 Members have recorded their presence by electronic device, a quorum.

Under the rule, further proceedings under the call were dispensed with.

OMNIBUS BUDGET RECONCILIATION ACT OF 1985

The SPEAKER pro tempore. Pursuant to House Resolution 296 and rule XXIII, the Chair declares the House in the Committee of the Whole House on the State of the Union for the further consideration of the bill, H.R. 3500.

□ 1118

IN THE COMMITTEE OF THE WHOLE

Accordingly the House resolved itself into the Committee of the Whole House on the State of the Union for the further consideration of the bill (H.R. 3500) to provide for reconciliation pursuant to section 2 of the first concurrent resolution on the budget for the fiscal year 1986, with Mr. DE LA GARZA in the chair.

The Clerk read the title of the bill.

The CHAIRMAN. When the Committee of the Whole rose on Wednesday, October 23, 1985, all time for general debate had expired.

Pursuant to the rule, the bill is considered as having been read for amendment under the 5-minute rule, an amendment to strike lines 8 through 10 on page 15 and insert in lieu thereof the following: "Which become available during fiscal year 1986, the Secretary shall, to the extent approved in appropriations acts, reserve authority to enter into obligations aggregating," shall be considered as having been adopted.

The text of the bill, as amended by an amendment considered as having been adopted pursuant to House Resolution 296, is as follows:

H.R. 3500

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Omnibus Budget Reconciliation Act of 1985".

SEC. 2. TABLE OF CONTENTS.

Title IX—Committee on Small Business.
Title X—Committee on Veterans' Affairs.

TITLE I—COMMITTEE ON ARMED SERVICES

SEC. 1101. COLLECTION BY THE UNITED STATES OF MEDICAL AND DENTAL COSTS INCURRED ON BEHALF OF CERTAIN PERSONS.

(a) IN GENERAL.—(1) Chapter 55 of title 10, United States Code, is amended by adding at the end thereof the following new section:

"§1095. Collection from third-party payers of reasonable medical and dental care costs incurred on behalf of retirees and dependents

"(a)(1) In the case of a person who is covered by section 1074(b), 1076(a), or 1076(b) of this title, the United States shall have the right to collect from a third-party payer the reasonable costs of medical and dental care incurred by the United States on behalf of such person through a facility of the uniformed services to the extent that the person would be eligible to receive reimbursement or indemnification from the third-party payer if the person were to incur such costs on the person's own behalf. If the insurance, medical service, or health plan of that payer includes a requirement for a deductible or copayment by the beneficiary of the plan, then the amount that the United States may collect from the third-party payer is the reasonable cost of the care provided less the appropriate deductible or copayment amount.

"(2) A person covered by section 1074(b), 1076(a), or 1076(b) of this title may not be required to pay an additional amount to the United States for medical and dental care by reason of this section.

"(b) No provision of any insurance, medical service, or health plan contract or agreement having the effect of excluding from coverage or limiting payment of charges for certain care if that care is provided through a facility of the uniformed services shall operate to prevent collection by the United States under subsection (a).

"(c) Under regulations prescribed under subsection (g), records of the facility of the uniformed services that provided medical or dental care to a beneficiary of an insurance, medical service, or health plan of a third-party payer shall be made available for inspection and review by representatives of the payer from which collection by the United States is sought.

"(d) Notwithstanding subsections (a) and (b), collection may not be made under this section in the case of a plan administered under title XVIII or XIX of the Social Security Act (42 U.S.C. 1395 et seq.).

"(e)(1) The United States may institute and prosecute legal proceedings against a third-party payer to enforce a right of the United States under this section.

"(2) The administering Secretary may compromise, settle, or waive a claim of the United States under this section.

"(f) Sums collected pursuant to this section shall be credited to the appropriation from which the costs of the care were paid.

"(g) The Secretary of Defense, in consultation with the other administering Secretaries, shall prescribe regulations for the administration of this section. Such regulations shall provide for computation of the reasonable cost of medical and dental care. Computation of such reasonable cost may be based on—

"(1) per diem rates; or

"(2) such other method as may be appropriate.

"(h) In this section, 'third-party payer' means an entity that provides an insurance, medical service, or health plan by contract or agreement.".

(2) The table of sections at the beginning of such chapter is amended by adding at the end thereof the following new item:

"1095. Collection from third-party payers of reasonable medical and dental care costs incurred on behalf of retirees and dependents.".

(b) EFFECTIVE DATE.—Section 1095 of title 10, United States Code, as added by subsection (a), shall apply with respect to health care provided on or after the date of the enactment of this Act, but only with respect to an insurance, medical service, or health plan agreement entered into, amended, or renewed on or after that date.

TITLE II—COMMITTEE ON BANKING, FINANCE AND URBAN AFFAIRS

SECTION 2001. SHORT TITLE AND TABLE OF CONTENTS.

(a) SHORT TITLE.—This title may be cited as the "Housing Act of 1985".

(b) TABLE OF CONTENTS.—

Sec. 2001. Short title and table of contents.
Sec. 2002. Findings and purpose.
Sec. 2003. Congressional policy regarding aggregate budget authority.
Sec. 2004. Regulatory authority.
Sec. 2005. Collection of certain data.

Subtitle A—Housing Assistance

PART 1—PROGRAMS UNDER UNITED STATES HOUSING ACT OF 1937

Sec. 2101. Lower income housing authorization.
Sec. 2102. Tenant rental contributions.
Sec. 2103. Grants for public housing development.
Sec. 2104. Public housing child care grants.
Sec. 2105. Additional public housing provisions.
Sec. 2106. Section 8 assistance.
Sec. 2107. Voucher demonstration program.
Sec. 2108. Payments for operation of lower income housing projects.
Sec. 2109. Grants for comprehensive improvement assistance.
Sec. 2110. Additional comprehensive improvement assistance program provisions.
Sec. 2111. Public housing comprehensive grants.
Sec. 2112. Income eligibility for assisted housing.
Sec. 2113. Rental development program.
Sec. 2114. Rental rehabilitation program.

PART 2—MULTIFAMILY HOUSING MANAGEMENT AND PRESERVATION

Sec. 2121. Prepayment of mortgages.
Sec. 2122. Management and preservation of HUD-owned multifamily housing projects.
Sec. 2123. Acquisition of insured multifamily housing projects.
Sec. 2124. Tenant participation in multifamily housing projects.
Sec. 2125. Troubled multifamily housing projects.
Sec. 2126. Inapplicability of certain income eligibility restrictions to property disposition contracts.

PART 3—OTHER HOUSING ASSISTANCE PROGRAMS

Sec. 2141. Housing for the elderly and handicapped.
Sec. 2142. Housing for the handicapped.
Sec. 2143. Congregate services.
Sec. 2144. Section 235 homeownership program.
Sec. 2145. Task Force on Family Housing Needs.
Sec. 2146. Energy conservation in assisted housing.

Sec. 2147. Annual report on characteristics of families in assisted housing.
Sec. 2148. Procedures and policies for mandatory meals programs in assisted housing for the elderly.
Sec. 2149. Modification of restriction on use of assisted housing.
Sec. 2150. Exclusion of housing assistance as income.
Sec. 2151. Use of certain excess rental charges for assistance for troubled multifamily housing projects.
Sec. 2152. Housing demonstration project.
Sec. 2153. Flexible subsidy assistance for certain housing projects for elderly or handicapped families.
Sec. 2154. Housing assistance technical amendments.

Subtitle B—Rural Housing

Sec. 2201. Program authorizations.
Sec. 2202. Income levels for family eligibility.
Sec. 2203. Plans for allocation of financial assistance.
Sec. 2204. Rural housing escrow accounts.
Sec. 2205. Rural housing guaranteed loans.
Sec. 2206. Study of procedures for appeals of adverse decisions.
Sec. 2207. Use of fee inspectors and appraisers.
Sec. 2208. Loans for rehabilitation of rural rental housing.
Sec. 2209. Management of insured and guaranteed loans.
Sec. 2210. Definition of rural area.
Sec. 2211. Rural housing preservation grant program.
Sec. 2212. Limitation on restrictions on tax-exempt financing.
Sec. 2213. Task Force on Housing Needs of Rural America.
Sec. 2214. Rural housing technical amendments.

Subtitle C—Program Amendments and Extensions

PART 1—FEDERAL HOUSING ADMINISTRATION MORTGAGE INSURANCE PROGRAMS

Sec. 2301. Extension of Federal Housing Administration mortgage insurance programs.
Sec. 2302. Amount to be insured under National Housing Act.
Sec. 2303. Negotiated interest rates on mortgages insured by Federal Housing Administration.
Sec. 2304. Study of voluntary standards for modular homes.
Sec. 2305. Limitation on certain premium charges.
Sec. 2306. Mortgages on Hawaiian home lands and Indian lands to be obligations of General Insurance Fund.
Sec. 2307. Repeal of requirement to publish prototype housing costs for 1- to 4-family dwelling units.
Sec. 2308. Authority for increased mortgage limits for multifamily projects in high-cost areas.
Sec. 2309. Permissible annual interest rate adjustment for adjustable rate mortgages.
Sec. 2310. Double damages remedy for unauthorized use of multifamily housing project assets and income.
Sec. 2311. Administrative improvements in single-family mortgage insurance program.
Sec. 2312. Refinancing mortgage insurance for hospitals, nursing homes, intermediate care facilities, and board and care homes.
Sec. 2313. Mortgage insurance for nursing homes, intermediate care facilities, and board and care homes.
Sec. 2314. Requirement of State approval for mortgage insurance for hospitals.
Sec. 2315. Mortgage insurance technical amendments.

PART 2—FLOOD AND CRIME INSURANCE PROGRAMS

Sec. 2321. Flood insurance.
Sec. 2322. Crime insurance.
Sec. 2323. Flood and crime insurance technical amendments.

PART 3—SECONDARY MORTGAGE MARKET PROGRAMS

Sec. 2341. Government National Mortgage Association mortgage-backed securities program.
Sec. 2342. Prohibition of certain fees.
Sec. 2343. Secondary mortgage market technical amendments.

PART 4—REGULATORY AND OTHER PROGRAMS

Sec. 2361. Solar Energy and Energy Conservation Bank.
Sec. 2362. Counseling.
Sec. 2363. Home mortgage disclosure.
Sec. 2364. Research authorization.
Sec. 2365. Timely payment of subcontractors.
Sec. 2366. Median area income.
Sec. 2367. Manufactured housing construction and safety standards.
Sec. 2368. Removal of maximum fee for interstate land sales registration.
Sec. 2369. Preventing fraud and abuse in Department of Housing and Urban Development programs.
Sec. 2370. Fair housing initiatives program.
Sec. 2371. Lead-based paint poisoning prevention.
Sec. 2372. Regulatory and other programs technical amendments.

PART 5—COMMUNITY AND NEIGHBORHOOD DEVELOPMENT AND CONSERVATION PROGRAMS

Sec. 2381. Community development block grant metropolitan city and urban county classifications.
Sec. 2382. Statement of activities and review.
Sec. 2383. Housing assistance plans.
Sec. 2384. Limited new construction of housing under community development block grant program.
Sec. 2385. Community development block grant public service activities.
Sec. 2386. State certifications for receiving community development block grants for nonentitlement areas.
Sec. 2387. Discretionary fund.
Sec. 2388. Community development block grant loan guarantees.
Sec. 2389. Urban development action grant selection criteria.
Sec. 2390. Prohibition on use of urban development action grants for business relocations.
Sec. 2391. Consideration of certain counties as cities under urban development action grant program.
Sec. 2392. Urban development action grant loan guarantees.
Sec. 2393. Urban homesteading.
Sec. 2394. Rehabilitation loans.
Sec. 2395. Neighborhood Reinvestment Corporation.
Sec. 2396. Neighborhood development demonstration program.
Sec. 2397. Use of urban renewal land disposition proceeds.
Sec. 2398. Limitation on recapture of certain reservations of assistance.
Sec. 2399. Community development authorizations of appropriations.
Sec. 2399A. Community development technical amendments.

Subtitle D—Shelter Assistance for the Homeless and Displaced

PART 1—NATIONAL BOARD OF CHARITIES PROGRAM

Sec. 2401. Authorization of appropriations.
Sec. 2402. Eligible activities.

PART 2—SECOND STAGE HOUSING FOR THE HOMELESS AND DISPLACED

Sec. 2411. Establishment of demonstration program.
Sec. 2412. Assistance to nonprofit organizations.
Sec. 2413. Program requirements.
Sec. 2414. Regulations.
Sec. 2415. Reports to Congress.
Sec. 2416. Definitions.
Sec. 2417. Limitation on budget authority.

PART 3—EMERGENCY SHELTER GRANTS

Sec. 2421. Grant assistance.
Sec. 2422. Allocation and distribution of assistance.
Sec. 2423. Eligible activities.
Sec. 2424. Responsibilities of grantees.
Sec. 2425. Homeless Assistance Council.
Sec. 2426. Administrative provisions.
Sec. 2427. Definitions.
Sec. 2428. Authorization of appropriations.

Subtitle E—Nehemiah Housing Opportunity Grants

Sec. 2501. Statement of purposes.
Sec. 2502. Definitions.
Sec. 2503. Assistance to nonprofit organizations.
Sec. 2504. Use of assistance.
Sec. 2505. Program requirements.
Sec. 2506. Terms and conditions of assistance.
Sec. 2507. Program selection criteria.
Sec. 2508. Distribution of assistance to nonprofit organizations.
Sec. 2509. Nehemiah Housing Opportunity Fund.
Sec. 2510. Annual report.
Sec. 2511. Regulations.
Sec. 2512. Authorization of appropriations.

Subtitle F—Multifamily Housing Preservation Loans

Sec. 2601. Purpose.
Sec. 2602. Definitions.
Sec. 2603. Authority to provide loans.
Sec. 2604. Eligibility for loans.
Sec. 2605. Amount and conditions of loans.
Sec. 2606. Multifamily Housing Preservation Fund.
Sec. 2607. Regulations.
Sec. 2608. Authorization of appropriations.

Subtitle G—Enterprise Zone Development

Sec. 2701. Designation of enterprise zones.
Sec. 2702. Evaluation and reporting requirements.
Sec. 2703. Interaction with other Federal programs.
Sec. 2704. Waiver or modification of certain agency rules in enterprise zones.
Sec. 2705. Coordination of housing and urban development programs in enterprise zones.

SEC. 2002. FINDINGS AND PURPOSE.

(a) FINDINGS.—The Congress hereby finds that—

(1) for the past 50 years, the Federal Government has taken the leading role in enabling the people of the Nation to be the best housed in the world;

(2) the efforts of the Federal Government have included a system of specialized lending institutions, favorable tax policies, construction assistance, mortgage insurance, loan guarantees, secondary markets, and interest and rental subsidies, that have enabled people to rent or buy affordable, decent, safe, and sanitary housing;

(3) at no time since the Great Depression has the shortage of housing been more severe, and, unless actions are taken to increase the production of moderately priced homes and affordable rental units, the housing crisis of persons of low and moderate income will deepen;

(4) the tragedy of homelessness in urban and suburban communities across the Nation, involving a record number of people, dramatically demonstrates the lack of affordable residential shelter;

(5) people living on the economic margins of our society (the elderly, the working poor, and the deinstitutionalized) have few available alternatives for shelter;

(6) due to high interest rates and construction costs, the cherished dream of becoming a homeowner is fading for many Americans;

(7) a combination of direct subsidies and beneficial tax expenditures for homeowners and renters has resulted in the Federal Government providing an average to each household of more than 4 times the amount of Federal assistance to households with annual incomes above $50,000 than to households with annual incomes below $20,000; and

(8) continued large Federal Government deficits are anti-housing and such large Federal Government deficits tend to keep interest rates high, thereby denying many otherwise eligible homebuyers the opportunity to own a home.

(b) PURPOSE.—The purpose of this title, therefore, is—

(1) to reaffirm the principle that decent and affordable shelter is a basic necessity, and the general welfare of the Nation and the health and living standards of its people require the addition of new housing units to remedy a serious shortage of housing units for all Americans, particularly for persons of low and moderate income;

(2) to make the distribution of direct and indirect housing assistance more equitable by providing Federal assistance for the less affluent people of the Nation;

(3) to provide needed housing assistance for homeless people and for persons of low and moderate income who lack affordable, decent, safe, and sanitary housing;

(4) to reform existing programs to ensure that such assistance is delivered in the most efficient manner possible; and

(5) to provide opportunities through lower Federal expenditures and lower Federal budget deficits, and the resulting lower interest rates, for more Americans to realize the dream of owning their own home.

SEC. 2003. CONGRESSIONAL POLICY REGARDING AGGREGATE BUDGET AUTHORITY.

(a) FINDINGS.—The Congress hereby finds that—

(1) the congressional budget process for fiscal year 1986 has not been completed;

(2) in its consideration of this title, the Committee on Banking, Finance and Urban Affairs of the House of Representatives has been required to operate under new principles of budget accounting, including the inclusion of off-budget accounts;

(3) this title establishes a new direct capital grant program to finance public housing that generates substantial savings in budget authority but has no net effect on the Federal budget, since the new method of financing merely cancels numerous intragovernmental transfers that occur under the current financing system; and

(4) the Congress has established a policy of freezing authorizations of appropriations for fiscal year 1986 at the actual level of appropriations for fiscal year 1985.

(b) POLICY.—It is, therefore, the policy of the Congress that the aggregate amount of funds authorized in this title for any fiscal year not exceed the total amount of funds approved in appropriation Acts for similar programs for fiscal year 1985.

SEC. 2004. REGULATORY AUTHORITY.

(a) DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT.—Section 7(o) of the Department of Housing and Urban Development Act is amended by adding at the end thereof the following new paragraphs:

"(7) The Secretary shall, on a quarterly basis, transmit to both Committees a summary (or, upon the request of the Chairman of either Committee, a copy) of each notice or handbook to be issued by the Secretary not less than 15 days before the date of such issuance.

"(8) The Secretary shall include with each rule or regulation, notice, or handbook required to be transmitted to the Committees under this subsection a detailed summary of all changes required by the Office of Management and Budget that prohibit, modify, postpone, or disapprove such rule or regulation, notice, or handbook in whole or part.".

(b) FARMERS HOME ADMINISTRATION.—Section 534 of the Housing Act of 1949 is amended by adding at the end thereof the following new subsections:

"(d) The Secretary shall, on a quarterly basis, transmit to both Committees referred to in subsection (b) a summary (or, upon the request of the Chairman of either Committee, a copy) of each notice or handbook to be issued by the Secretary under this title not less than 15 days before the date of such issuance.

"(e) The Secretary shall include with each rule or regulation, notice, or handbook required to be transmitted to the Committees under this section a detailed summary of all changes required by the Office of Management and Budget that prohibit, modify, postpone, or disapprove such rule or regulation, notice, or handbook in whole or part.".

SEC. 2005. COLLECTION OF CERTAIN DATA.

The Secretary of Housing and Urban Development and the Secretary of Agriculture shall each collect data on the racial and ethnic characteristics of persons eligible for, assisted, or otherwise benefiting under the community development, housing assistance, and mortgage and loan insurance programs administered by such Secretary.

Subtitle A—Housing Assistance

PART 1—PROGRAMS UNDER UNITED STATES HOUSING ACT OF 1937

SEC. 2101. LOWER INCOME HOUSING AUTHORIZATION.

(a) AGGREGATE BUDGET AUTHORITY.—Section 5(c)(6) of the United States Housing Act of 1937 is amended by adding at the end thereof the following new sentence: "The aggregate amount of budget authority that may be obligated for contracts for annual contributions for assistance under section 8, for contracts referred to in paragraph (7)(A)(iv), and for grants for public housing and comprehensive improvement assistance, is increased by $9,179,498,000 on October 1, 1985.".

(b) UTILIZATION OF BUDGET AUTHORITY.—Section 5(c)(7) of the United States Housing Act of 1937 is amended to read as follows:

"(7)(A) Using the additional budget authority provided under paragraph (6) and the balances of budget authority which become available during fiscal year 1986, the Secretary shall, to the extent approved in appropriations Acts, reserve authority to enter into obligations aggregating—

"(i) for public housing grants under subsection (a)(2), $418,000,000, of which amount $108,000,000 shall be available for Indian housing;

"(ii) for assistance under section 8(b)(1), not less than $4,830,592,000, of which amount $43,776,000 shall be available only for use in connection with the Park Central New Community Project;

"(iii) for assistance under section 8(e)(2), not less than $542,748,000;

"(iv) for assistance under section 8 in connection with projects developed under section 202 of the Housing Act of 1959, not less than $1,775,280,000, of which amount not more than $290,400,000 may be made available for entering into contracts under section 202(h)(4) of such Act; and

"(v) for comprehensive improvement assistance grants under section 14(k), $1,132,000,000, of which amount $200,000,000 shall be available only for use with respect to vacant uninhabitable dwelling units in public housing projects and $50,000,000 shall be available only for purposes of assisting public housing agencies to reduce the hazards of lead-based paint in public housing in accordance with the lead-based paint poisoning prevention procedures established by the Secretary under section 302 of the Lead-Based Paint Poisoning Prevention Act.

"(B)(i) Any amount available for Indian housing under subsection (a) that is recaptured may be used only for such housing.

"(ii) Any amount available for the conversion of a project to assistance under section 8(b)(1), if not required for such purpose, shall be used for assistance under section 8(b)(1).".

SEC. 2102. TENANT RENTAL CONTRIBUTIONS.

(a) PUBLIC HOUSING ECONOMIC RENT.—Section 3(a) of the United States Housing Act of 1937 is amended—

(1) by inserting "(1)" after "(a)";

(2) in the last sentence, by striking out "A" and inserting in lieu thereof the following: "Except as provided in paragraph (2), a";

(3) by redesignating paragraphs (1) through (3) as subparagraphs (A) through (C), respectively; and

(4) by adding at the end thereof the following new paragraph:

"(2) Any public housing agency may provide that each family residing in a public housing project owned and operated by such agency shall pay as monthly rent an amount determined by such agency to be appropriate that does not exceed a maximum amount that—

"(A) is established by such agency and approved by the Secretary;

"(B) is not more than the amount payable as rent by such family under paragraph (1); and

"(C) is not more than (i) the average monthly amount of debt service and operating expenses attributable to dwelling units

of similar size in public housing projects owned and operated by such agency; or (ii) the fair market rentals established in the housing area for projects under section 8(b)(1).".

(b) ADJUSTED INCOME.—Section 3(b)(5) of the United States Housing Act of 1937 is amended—

(1) by striking out "and" at the end of subparagraph (C);

(2) by striking out the period at the end of subparagraph (D) and inserting in lieu thereof "; and"; and

(3) by adding at the end thereof the following new subparagraph:

"(E) 10 percent of the earned income of the family, in the case of a family in which any member pays taxes imposed under chapter 2 or 21 of the Internal Revenue Code of 1954.".

(c) UTILITY ALLOWANCE.—Section 3(c) of the United States Housing Act of 1937 is amended by adding at the end thereof the followng new paragraph:

"(4) The term 'rent' means—

"(A) the amount payable by a family to a public housing agency for shelter; and

"(B) in any case in which a family is required to make a separate payment to a public housing agency or a utility supplier based on actual utility consumption, an allowance established annually based on actual utility consumption (excluding telephone service) for each size and type of dwelling unit.".

(d) PUBLIC HOUSING RENT PHASE-IN.—Section 3 of the United States Housing Act of 1937 is amended by adding at the end thereof the following new subsection:

"(d) In any case in which the obtaining of employment by a resident of a public housing project will result in an increase in the rent payable by the family of such resident under subsection (a), the public housing agency involved may provide for a gradual increase in such rent to the full amount during a period of not more than 6 months.".

SEC. 2103. GRANTS FOR PUBLIC HOUSING DEVELOPMENT.

(a) AUTHORITY TO PROVIDE GRANTS.—Section 5(a) of the United States Housing Act of 1937 is amended to read as follows:

"(a)(1) The Secretary may make annual contributions to public housing agencies to assist in achieving and maintaining the lower income character of their projects. The Secretary shall embody the provisions for such annual contributions in a contract guaranteeing their payment. The contribution payable annually under this section shall in no case exceed a sum equal to the annual amount of principal and interest payable on obligations issued by the public housing agency to finance the development or acquisition cost of the lower income project involved. Annual contributions payable under this section shall be pledged, if the Secretary so requires, as security for obligations issued by a public housing agency to assist the development or acquisition of the project to which annual contributions relate and shall be paid over a period not to exceed 40 years.

"(2) The Secretary may make contributions (in the form of grants) to public housing agencies to cover the development cost of public housing projects. The contract under which such contributions shall be made shall specify the amount of capital contributions required for each project to which the contract pertains, and that the terms and conditions of such contract shall remain in effect for a 40-year period.

"(3) The amount of contributions that would be established for a newly constructed project by a public housing agency designed to accommodate a number of families of a given size and kind may be established under this section for a project by such public housing agency that would provide housing for the comparable number, sizes, and kinds of families through the acquisition and rehabilitation, or use under lease, of structures that are suitable for lower income housing use and obtained in the local market.".

(b) CANCELLATION OF OUTSTANDING LOANS AND OBLIGATIONS.—Section 4 of the United States Housing Act of 1937 is amended by adding at the end thereof the following new subsection:

"(c)(1) At such times as the Secretary may determine, and in accordance with such accounting and other procedures as the Secretary may prescribe, each loan made by the Secretary under subsection (a) that has any principal amount outstanding or any interest amount outstanding or accrued shall be forgiven; and the terms and conditions of any contract, or any amendment to a contract, for such loan with respect to any promise to repay such principal and interest shall be canceled. Such cancellation shall not affect any other terms and conditions of such contract, which shall remain in effect as if the cancellation had not occurred. This paragraph shall not apply to any loan the repayment of which was not to be made using annual contributions, or to any loan all or part of the proceeds of which are due a public housing agency from contractors or others.

"(2)(A) On the date of the enactment of the Housing Act of 1985, or on September 30, 1985, whichever occurs later, each note or other obligation issued by the Secretary to the Secretary of the Treasury pursuant to subsection (b), together with any promise to repay the principal and unpaid interest that has accrued on each obligation, shall be forgiven; and any other term or condition specified by each such obligation shall be canceled.

"(B) On September 30, 1986, and on any subsequent September 30, each such note or other obligation issued by the Secretary pursuant to subsection (b) during the fiscal year ending on such date, together with any such promise to repay, shall be forgiven; and any other term or condition specified by each such obligation shall be canceled.".

(c) CONFORMING AMENDMENTS.—

(1) Section 5 of the United States Housing Act of 1937 is amended—

(A) by striking out "ANNUAL" in the section heading; and

(B) by striking out "annual" in subsection (e)(2).

(2) Section 6 of the United States Housing Act of 1937 is amended by striking out "annual" the first place it appears in the first sentence of subsection (g), and each place it appears in subsection (d) and the first sentence of each of subsections (a), (b), and (c).

(3) Section 7 of the United States Housing Act of 1937 is amended by striking out "annual" in the proviso in the first sentence.

(4) Section 9(a)(2) of the United States Housing Act of 1937 is amended—

(A) by striking out "being assisted by an annual contributions contract authorized by section 5(c)" and inserting in lieu thereof the following: "one developed pursuant to a contributions contract authorized by section 5"; and

(B) by striking out "any such annual" and inserting in lieu thereof "any such".

(5) Section 12 of the United States Housing Act of 1937 is amended by striking out "annual".

(6) Section 14 of the United States Housing Act of 1937 is amended—

(A) by striking out "receive assistance under section 5(c)" in subsection (c)(2) and inserting in lieu thereof "assisted under section 5"; and

(B) by striking out "annual" in each of paragraphs (2) and (4)(C) of subsection (d).

(7) Section 15 of the United States Housing Act of 1937 is amended by striking out "with loans or debt service annual contributions" in clause (2).

(8) Section 16(b) of the United States Housing Act of 1937 is amended by striking out "annual".

(9) Section 18(c) of the United States Housing Act of 1937 is amended by striking out "annual contributions authorized under section 5(c)" and inserting in lieu thereof "contributions authorized under section 5".

SEC. 2104. PUBLIC HOUSING CHILD CARE GRANTS.

(a) PROGRAM AUTHORITY.—

(1) The Secretary of Housing and Urban Development shall, to the extent approved in appropriation Acts, carry out a demonstration program of making grants to public housing agencies to assist such agencies in providing child care services for lower income families who reside in public housing.

(2) The Secretary shall design the program described in paragraph (1) to determine the extent to which the availability of child care services in lower income housing projects facilitates the employability of the parents or guardians of children residing in public housing.

(3) The program described in paragraph (1) shall be in addition to any demonstration program carried out under section 222 of the Housing and Urban-Rural Recovery Act of 1983.

(b) ELIGIBILITY FOR ASSISTANCE.—The Secretary may make a grant to any public housing agency under this section only if—

(1) prior to receipt of assistance under this section, such public housing agency does not have a child care services program in operation in the project for which such assistance is requested;

(2) such public housing agency agrees to provide suitable facilities for the provision of child care services;

(3) the child care services program of such public housing agency will serve preschool children during the day, elementary school children after school, or both, in order to permit the parents or guardians of such children to obtain, retain, or train for employment;

(4) the child care services program of such public housing agency is designed, to the extent practicable, to involve the participation of the parents of children benefiting from such program;

(5) the child care services program of such public housing agency is designed, to the extent practicable, to employ in part-time positions elderly individuals who reside in the lower income housing project involved; and

(6) the child care services program of such public housing agency complies with all applicable State and local laws, regulations, and ordinances.

(c) ALLOCATION OF ASSISTANCE.—In providing grants under this section, the Secretary shall—

(1) give priority to lower income housing projects in which reside the largest number of preschool and elementary school children of lower income families;

(2) seek to ensure a reasonable distribution of such grants between urban and rural areas and among lower income housing projects of varying sizes; and

(3) seek to provide such grants to the largest number of lower income housing projects practicable, considering the amount of funds available under this section and the financial requirements of the particular child care services programs to be developed by the applicant public housing agencies.

(d) ADMINISTRATIVE PROVISIONS.—

(1) Applications for grants under this section shall be made by public housing agencies in such form, and according to such procedures, as the Secretary may prescribe.

(2) Any public housing agency receiving a grant under this section may use such grant only for operating expenses and minor renovations of facilities necessary to the provision of child care services under this section.

(3) The Secretary shall conduct periodic evaluations of each child care services program assisted under this section for purposes of—

(A) determining the effectiveness of such program in providing child care services and permitting the parents or guardians of children residing in public housing to obtain, retain, or train for employment; and

(B) ensuring compliance with the provisions of this section.

(4) Nothing in this section may be construed as authorizing the Secretary to establish any health, safety, educational, or other standards with respect to child care services or facilities assisted with grants received under this section.

(e) REPORT TO CONGRESS.—Not later than the expiration of the 3-year period following the date of the enactment of this Act, the Secretary shall prepare and submit to the Congress a detailed report setting forth the findings and conclusions of the Secretary as a result of carrying out the demonstration program established in this section. Such report shall include any recommendations of the Secretary with respect to the establishment of a permanent program of assisting child care services in lower income housing projects.

(f) DEFINITIONS.—For purposes of this section:

(1) The term "lower income families" has the meaning given such term in section 3(b)(2) of the United States Housing Act of 1937.

(2) The terms "lower income housing project" and "public housing" have the meanings given such terms in section 3(b)(1) of the United States Housing Act of 1937.

(3) The term "public housing agency" has the meaning given such term in section 3(b)(6) of the United States Housing Act of 1937.

(4) The term "Secretary" means the Secretary of Housing and Urban Development.

(g) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated to carry out the provisions of this section $15,000,000 for fiscal year 1986. Any amount appropriated under this subsection shall remain available until expended.

SEC. 2105. ADDITIONAL PUBLIC HOUSING PROVISIONS.

(a) LIMITATION ON RECAPTURE OF FUNDING RESERVATIONS.—Section 5 of the United States Housing Act of 1937 is amended by adding at the end thereof the following new subsection:

"(j) After the reservation of public housing development funds to a public housing agency, the Secretary may not recapture any of the amounts included in such reservation due to the failure of a public housing agency to begin construction or rehabilitation, or to complete acquisition, during the 30-month period following the date of such reservation. During such 30-month period, the public housing agency shall be permitted to change the site of the public housing project or reformulate the project, if not less than the original number of dwelling units are to be constructed, rehabilitated, or acquired. There shall be excluded from the computation of such 30-month period any delay in the beginning of construction or rehabilitation of such project caused by (1) the failure of the Secretary to process such project within a reasonable period of time; (2) any environmental review requirement; (3) any legal action affecting such project; or (4) any other factor beyond the control of the public housing agency.".

(b) NEW CONSTRUCTION.—Section 6(h) of the United States Housing Act of 1937 is amended—

(1) by inserting before "is" the following: "in the neighborhood where the public housing agency determines the housing is needed"; and

(2) by inserting "in such neighborhood" after "rehabilitation".

(c) PUBLIC HOUSING AGENCY RECEIVERSHIP.—Section 6 of the United States Housing Act of 1937 is amended—

(1) by redesignating subsection (g) as subsection (f); and

(2) by inserting after such subsection (f) the following new subsection:

"(g)(1) Notwithstanding any other provision of this Act or of any contract for contributions, upon the occurrence of events or conditions that constitute a substantial default in respect to the covenants or conditions to which the public housing agency is subject, the Secretary or a tenant of the public housing agency may petition for the appointment of a receiver (which may be a private management corporation) of the public housing agency to any district court of the United States or to any court of the State in which the real property of the public housing agency is situated that is authorized under the laws of such jurisdiction to appoint a receiver for the purposes and having the powers prescribed in this subsection. The court shall order appropriate notice of such petition to the tenants of such public housing agency and shall permit the intervention of 1 or more classes of tenants in the proceedings.

"(2) Upon a determination that such a substantial default has occurred, and without regard to the availability of alternative remedies, the court shall appoint a receiver to conduct the affairs of the public housing agency in a manner consistent with this Act and in accordance with such further terms and conditions as the court shall provide. The court shall have power to grant appropriate temporary or preliminary relief pending final disposition of the petition by the Secretary.

"(3) The appointment of a receiver pursuant to this subsection may be terminated upon the petition of any party or when the court determines that all defaults have been cured and that the projects of the public housing agency will thereafter be operated by the public housing agency in accordance with the covenants and conditions to which the public housing agency is subject.".

(d) DEMOLITION AND DISPOSITION.—

(1) Section 18(a)(1) of the United States Housing Act of 1937 is amended by striking out "or" after "purposes," and inserting in lieu thereof "and".

(2) Section 18(b) of the United States Housing Act of 1937 is amended—

(A) by striking out "and" at the end of paragraph (1);

(B) by striking out the period at the end of paragraph (2) and inserting in lieu thereof "; and"; and

(C) by adding at the end thereof the following new paragraph:

"(3) the public housing agency has developed a plan for the addition of public housing dwelling units in an aggregate number equal to the number of such units proposed to be demolished or disposed under such application, and the Secretary has agreed to provide funding for such plan if necessary, except that (A) such 1-for-1 replacement requirement shall not apply if there is no local need for low-income housing; and (B) if necessary funding for public housing dwelling units is not available, project-based dwelling units assisted under section 8 may be substituted.".

(e) TRANSFERS OF PROPERTY UNDER INDIAN MUTUAL HELP HOMEOWNERSHIP OPPORTUNITY PROGRAM.—Each homebuyer under the Indian Mutual Help Homeownership Opportunity Program established by the Secretary in subpart D of part 905 of title 24, Code of Federal Regulations, shall be entitled to transfer the dwelling unit involved to any person who complies with the eligibility requirements of such program and will reside in such dwelling unit.

(f) PUBLIC HOUSING MANAGEMENT AND FUNDING REPORT.—Not later than the expiration of the 2-year period following the date on which the public housing profession institutes voluntary professional performance standards for certifying public housing agencies as efficient and well managed, the Secretary of Housing and Urban Development shall prepare and submit to the Congress a report evaluating the feasibility of establishing a system under which public housing agencies are permitted to certify compliance with such standards and with other requirements established by the Secretary for purposes of substantially simplifying the procedure for receiving assistance under section 9 or 14 of the United States Housing Act of 1937.

SEC. 2106. SECTION 8 ASSISTANCE.

(a) CONTRACTS FOR EXISTING DWELLING UNITS.—The first sentence of section 8(b)(1) of the United States Housing Act of 1937 is amended by inserting ", which shall be for 15 years," after "annual contributions contracts".

(b) USE OF ASSISTANCE IN CONNECTION WITH RENTAL REHABILITATION.—Section 8(b) of the United States Housing Act of 1937 is amended by adding at the end thereof the following new paragraph:

"(2) Assistance payments may also be made under this subsection for a family residing in a project being rehabilitated under section 17 that is determined to be a lower income family at the time it initially receives assistance and whose rent after rehabilitation would exceed 30 percent of the monthly adjusted income of the family.".

(c) PUBLIC HOUSING AGENCY FEES.—

(1) Section 8(b) of the United States Housing Act of 1937, as amended by subsection (b), is amended by adding at the end thereof the following new paragraph:

"(3) The method of calculation, the preliminary fee, and the percentage established

for administrative fees paid to a public housing agency administering a contract under this subsection shall be the method of calculation, the preliminary fee, and the percentage established by the Secretary before January 1, 1985, and in effect on such date.".

(2) The amendment made by this subsection shall be applicable to administrative fees payable with respect to the administrative activities of a public housing agency after December 31, 1984.

(d) FAIR MARKET RENTALS.—Section 8(c)(1) of the United States Housing Act of 1937 is amended by inserting before the last sentence the following new sentence: "Each fair market rental in effect under this subsection shall be adjusted to be effective on October 1 of each year to reflect changes, based on the most recent available data trended so the rentals will be current for the year to which they apply, of rents for existing or newly constructed rental dwelling units, as the case may be, of various sizes and types in the market area suitable for occupancy by persons assisted under this section.".

(e) SHARED HOUSING.—Section 8(p) of the United States Housing Act of 1937 is amended by adding at the end thereof the following new sentence: "Such standards may not require any person residing in a 1-bedroom dwelling to accept another person to share such dwelling, to move to a smaller dwelling, or to pay additional rent due to a refusal to accept another person to share such dwelling or to move to a smaller dwelling.".

(f) PORTABILITY OF CERTIFICATES AND VOUCHERS.—Section 8 of the United States Housing Act of 1937 is amended by adding at the end thereof the following new subsection:

"(q) Any family assisted under subsection (b) or (o) may continue to receive such assistance when such family moves to another eligible dwelling unit—

"(1) if such dwelling unit is within the same metropolitan statistical area as the dwelling unit from which the family moves; and

"(2) notwithstanding that such dwelling unit is not within the area of jurisdiction of the public housing agency having jurisdiction in the area of the dwelling unit from which the family moves.".

SEC. 2107. VOUCHER DEMONSTRATION PROGRAM.

(a) OPERATION OF PROGRAM.—Section 8(o) of the United States Housing Act of 1937 is amended—

(1) in the first sentence of paragraph (1), by striking out "In" and all that follows through ", the" and inserting in lieu thereof "The";

(2) by striking out paragraph (4);

(3) by redesignating paragraphs (5) through (8) as paragraphs (4) through (7), respectively; and

(4) in paragraph (5), as so redesignated by this subsection, by striking out "an initial" and inserting in lieu thereof "a".

(b) USE OF VOUCHERS IN CONNECTION WITH RENTAL REHABILITATION.—The first sentence of section 8(o)(3) of the United States Housing Act of 1937 is amended—

(1) by striking out "or" before "(C)"; and

(2) by inserting before the period at the end thereof the following: ", or (D) a family residing in a project being rehabilitated under section 17 that is determined to be a lower income family at the time it initially receives assistance and whose rent after rehabilitation would exceed 30 percent of the monthly adjusted income of the family".

(c) ADMINISTRATIVE EXPENSES.—Section 8(o) of the United States Housing Act of 1937, as amended by subsection (a), is amended by adding at the end thereof the following new paragraph:

"(8) The assistance under this subsection that is retained by public housing agencies for administrative expenses shall be equal to the assistance under section 8(b) that is retained by such agencies for such expenses.".

(d) STUDY.—Section 8(o) of the United States Housing Act of 1937, as amended by subsections (a) and (c), is amended by adding at the end thereof the following new paragraph:

"(9) For purposes of facilitating congressional consideration of the appropriateness of additional funding for assistance under this subsection, the Secretary shall prepare and submit to the Congress a report comparing the impact of assistance under this subsection with assistance under subsection (b)(1). Such report shall include comparisons with respect to—

"(A) the percentage of income paid by assisted families after receiving assistance for a 3-year period;

"(B) the financial characteristics of assisted families;

"(C) the extent to which rents paid by assisted families exceed 30 percent of adjusted income;

"(D) the security deposits required to be paid by assisted families and the impact of such deposits on the cost of housing for such families;

"(E) the accounting systems used by public housing agencies and the impact of such systems on the administrative costs incurred by such agencies;

"(F) the amount of time needed by assisted families to obtain dwelling units;

"(G) the extent to which families requiring dwelling units with 3 or more bedrooms are able to obtain such dwelling units;

"(H) the characteristics of assisted families, including information with respect to family size, age, race, and sex;

"(I) the extent to which assisted families move to other dwelling units; and

"(J) the extent of improvement in the physical condition of dwelling units occupied by eligible families as a result of assistance.".

SEC. 2108. PAYMENTS FOR OPERATION OF LOWER INCOME HOUSING PROJECTS.

(a) PERFORMANCE FUNDING SYSTEM.—Section 9(a) of the United States Housing Act of 1937 is amended—

(1) by striking out the last sentence of paragraph (1); and

(2) by adding at the end thereof the following new paragraph:

"(3)(A) For purposes of making payments under this section, the Secretary shall utilize a performance funding system that is substantially based on the system defined in regulations and in effect on November 30, 1983 (as modified by this paragraph), and that establishes standards for costs of operation and reasonable projections of income, taking into account the character and location of the project and the characteristics of the families served, in accordance with a formula representing the operations of a prototype well-managed project. Such performance funding system shall be established in consultation with public housing agencies and their associations, be contained in a regulation promulgated by the Secretary prior to the start of any fiscal year to which it applies, and remain in effect for the duration of such fiscal year without change.

"(B) Under the performance funding system established under this paragraph—

"(i) changes to the allowable expense level shall be made annually to reflect actual inflation rates for the most recent year for which data is available;

"(ii) in the first year that the reductions occur, any public housing agency shall share equally with the Secretary any cost reductions due to the differences between projected and actual energy rates attributable to actions taken by the agency which lead to such reductions;

"(iii) funds received by any public housing agency from sources other than tenant rents or other tenant payments, investment income, or income earned from commercial leases or receipts, including any amounts recovered through litigation, shall not be counted as income in computing the allowable subsidy nor shall prior receipt of any such funds affect the allowable expense level;

"(iv) payments to public housing agencies may only be ratably reduced if sufficient funds are not available, and, if excess funds are available, they shall be retained by the Secretary for use in the next fiscal year;

"(v) there shall be a formal review process for the purpose of providing such increases to the allowable expense level of a public housing agency as necessary—

"(I) to correct inequities and abnormalities that exist in the base year expense level of such public housing agency;

"(II) to reflect changes in operating circumstances since the initial determination of such base year expense level; and

"(III) to ensure that the allowable expense limit accurately reflects the higher cost of operating the project in an economically distressed unit of local government;

"(vi) public housing agencies shall be reimbursed for costs incurred that were beyond their control and the full extent of which were not taken into consideration in the original distribution of funds for the fiscal year involved;

"(vii) subsidy eligibility shall be calculated on the basis of 97 percent occupancy rate, except that a lower occupancy rate shall be permitted if—

"(I) it is due to vacant units in projects funded for modernization activity that is on schedule; or

"(II) it is acceptable to the Secretary as part of the plan of the public housing agency to achieve not less than a 97 percent occupancy rate over a reasonable period of years;

"(viii) public housing agencies shall maintain reasonable operating reserves similar to those established by well-managed, privately owned rental property;

"(ix) the estimate of the rental income for the next fiscal year of a public housing agency shall be based on the actual rent for the fourth, fifth, or sixth month prior to the beginning of the new fiscal year of the public housing agency;

"(x) any revenues resulting from rental income or other income (excluding investment income) in excess of estimated revenues from such items may not be recaptured, used, or computed to reduce assistance provided under this section, unless such estimate—

"(I) was unreasonable according to regulations in effect when the estimate was made; or

"(II) was fraudulent and deceptive; and

"(xi) estimated investment income may be recomputed and appropriate adjustments may be made at the end of the fiscal year to reflect actual average cash availability and average interest rates during such year.".

(b) AUTHORIZATION OF APPROPRIATIONS.—Section 9(c) of the United States Housing Act of 1937 is amended—

(1) by striking out "not" the first place it appears and all that follows through ", and by"; and

(2) by inserting before the period at the end thereof the following: ", and $1,279,000,000 for fiscal year 1986 (of which amount not more than $100,000,000 shall be made available for purposes of clauses (v) and (vi) of subsection (a)(3)(B))".

(c) TIME OF PAYMENT.—Section 9 of the United States Housing Act of 1937 is amended by adding at the end thereof the following new subsection:

"(e) Assistance to be provided to any public housing agency under this section for any fiscal year of such agency shall commence not later than the 1st month of such fiscal year, and shall be paid in equal monthly or quarterly installments or in accordance with such other payment schedule as may be agreed upon by the Secretary and such agency.".

SEC. 2109. GRANTS FOR COMPREHENSIVE IMPROVEMENT ASSISTANCE.

(a) AUTHORITY TO PROVIDE GRANTS.—Section 14 of the United States Housing Act of 1937 is amended by adding at the end thereof the following new subsection:

"(k) The Secretary may make contributions (in the form of grants) to public housing agencies under this section. The contract under which such contributions shall be made shall specify the amount of contributions required for each project to which the contract pertains, and that the terms and conditions of such contract shall remain in effect for a 20-year period.".

(b) CONFORMING AMENDMENTS.—

(1) Section 14(e) of the United States Housing Act of 1937 is amended by striking out "annual".

(2) Section 14 of the United States Housing Act of 1937 is amended by inserting "or (k)" after "subsection (b)" each place it appears in subsections (c), (d), (e), (g), (h), and (i).

SEC. 2110. ADDITIONAL COMPREHENSIVE IMPROVEMENT ASSISTANCE PROGRAM PROVISIONS.

(a) PURPOSES.—Section 14(a) of the United States Housing Act of 1937 is amended—

(1) by redesignating paragraphs (1) and (2) as paragraphs (2) and (3), respectively; and

(2) by inserting before paragraph (2), as so redesignated, the following new paragraph:

"(1) to maintain the marketability of existing public housing projects and contribute to their long-term viability;".

(b) ADVANCE ARCHITECTURAL ENGINEERING AND PLANNING.—Section 14(e)(3) of the United States Housing Act of 1937 is amended by inserting after "(d)(4)" the following: "(including any such cost incurred in any year before the year in which the application of the public housing agency under subsection (d) is approved)".

(c) VACANT UNIT SET-ASIDE.—Section 14 of the United States Housing Act of 1937 is amended by inserting after subsection (e) the following new subsection:

"(f) Any amount available for financial assistance under subsection (b) or (k) for improving the physical condition of vacant uninhabitable dwelling units in public housing projects shall be made available in a manner to ensure the long-term viability of such dwelling units as public housing.".

(d) REHABILITATION STANDARDS.—

(1) Section 14(j)(2) of the United States Housing Act of 1937 is amended by adding at the end thereof the following new sentence: "Notwithstanding any other provision of this section, the Secretary shall provide assistance under this section in accordance with rehabilitation standards established by the Secretary under this paragraph and in effect on June 1, 1984.".

(2) Section 14(j) of the United States Housing Act of 1937 is amended by adding at the end thereof the following new paragraph:

"(3) Not later than the expiration of the 6-month period following the date of the enactment of the Housing Act of 1985, the Secretary shall issue regulations that establish a system for allocating and distributing assistance under this section.".

(e) REPORTS.—

(1) Section 14 of the United States Housing Act of 1937, as amended by section 2109, is amended by adding at the end thereof the following new subsection:

"(l) The Secretary shall include in the annual report under section 8 of the Housing and Urban Development Act a description of the allocation, distribution, and use of assistance under this section on a regional basis.".

(2) Not later than the expiration of the 12-month period following the date of the enactment of this Act, the Secretary of Housing and Urban Development shall prepare and submit to the Congress a report evaluating the comprehensive improvement assistance program under sections 14 and 20 of the United States Housing Act of 1937. Such report shall include—

(A) an analysis of the current physical condition of public housing projects;

(B) an estimate of the amount of assistance necessary under such sections to improve the physical condition of such projects and to upgrade the management and operation of such projects;

(C) a proposal for the creation of a replacement reserve account for major and nonroutine repairs of public housing projects, and a formula for such replacement reserve;

(D) an evaluation of the feasibility of incorporating such replacement reserve account into the performance funding system under section 9 of the United States Housing Act of 1937;

(E) an estimate of the total annual cost of such replacement reserve account; and

(F) an analysis of the feasibility for distribution of funds under such sections on a formula basis, a description of criteria for such a formula, and an estimate of the amount that each public housing agency with more than 500 dwelling units in public housing could be expected to receive under such formula distribution.

(f) RESIDENT MANAGEMENT IN PUBLIC HOUSING.—Section 14 of the United States Housing Act of 1937, as amended by subsection (e), is amended by adding at the end thereof the following new subsection:

"(m) During fiscal year 1986, the Secretary may make available up to $1,500,000, from amounts otherwise available during such fiscal year for purposes of this section, for assistance to public housing agencies that obtain, by contract or otherwise (not exceeding $100,000 per project), technical assistance for the development of resident management entities, including (but not limited to) formation of such entities, development of the management capability of newly formed or existing entities, and identification of project social support needs and securing such support.".

SEC. 2111. PUBLIC HOUSING COMPREHENSIVE GRANTS.

(a) FINDINGS.—The Congress hereby finds that—

(1) the condition of public housing projects financed under the United States Housing Act of 1937 is in some cases substandard, forcing many dwelling units to remain vacant, forcing many lower income families to live in substandard or dangerous living conditions, and preventing many others from obtaining decent, safe, and sanitary rental housing at an affordable rent as provided for under such Act;

(2) the Federal Government has a responsibility to help ensure the maintenance of public housing dwelling units in decent, safe, and sanitary condition, and to provide public housing agencies with funds sufficient to carry out such maintenance;

(3) the current comprehensive assistance improvement program has not provided public housing agencies the flexibility and responsibility essential for establishing priorities for capital improvement expenditures, assessing the relative needs of all public housing projects, and evaluating the relative advantages of repair, major maintenance, and capital replacement;

(4) the current comprehensive assistance improvement program has made it difficult for public housing agencies to plan capital improvements on a multiyear basis; and

(5) the current comprehensive assistance improvement program has resulted in unnecessary paperwork and delay, thereby increasing costs for capital improvements.

(b) PURPOSE.—It is the purpose of the amendments made by this section—

(1) to provide assistance on a reliable basis to public housing agencies to enable them to operate, upgrade, modernize, and rehabilitate public housing projects financed under the United States Housing Act of 1937 to ensure their continued availability as decent, safe, and sanitary rental housing at rents affordable to lower income families;

(2) to increase the reliability of Federal assistance for capital improvements in public housing projects;

(3) to significantly deregulate the program of Federal assistance for capital improvements in public housing projects;

(4) to provide increased opportunities and incentives for more efficient management of public housing projects; and

(5) to afford public housing agencies greater control in planning for the maintenance and improvement of public housing projects.

(c) COMPREHENSIVE GRANT PROGRAM.—The United States Housing Act of 1937 is amended by adding at the end thereof the following new section:

"COMPREHENSIVE GRANT PROGRAM

"SEC. 20. (a) PURPOSE.—It is the purpose of this section to provide assistance to improve the physical condition of existing public housing projects and to upgrade their management and operation in order to contribute to their long-term physical and social viability and their continued availability to provide decent, safe, and sanitary living conditions for lower income families.

"(b) AUTHORITY TO PROVIDE FINANCIAL ASSISTANCE.—The Secretary may make available, and contract to make available, financial assistance to public housing agencies in accordance with the provisions of this sec-

tion with respect to public housing (as defined in section 3(b)(1)) owned or operated by such agencies.

"(c) COMPREHENSIVE PLAN.—No financial assistance may be made available to a public housing agency under this section unless the Secretary approves a 5-year comprehensive plan submitted by the public housing agency on a date determined by the Secretary, except that the Secretary may provide such assistance if it is necessary to correct conditions that constitute an immediate threat to the health or safety of tenants. The comprehensive plan shall contain—

"(1) a comprehensive assessment of—

"(A) the current physical condition of each public housing project owned or operated by the public housing agency;

"(B) the physical improvements necessary for each such project to permit the project to be rehabilitated to a level at least equal to the minimum property standards established by the Secretary and in effect at the time of the preparation of the comprehensive plan; and

"(C) the replacement needs of equipment systems and structural elements that will be required to be met (assuming routine and timely maintenance is performed) during the 5-year period covered by the comprehensive plan;

"(2) a comprehensive assessment of the improvements needed to upgrade the management and operation of the public housing agency and of each such project so that decent, safe, and sanitary living conditions will be provided such projects, which assessment shall include at least an identification of needs related to—

"(A) the management, financial, and accounting control systems of the public housing agency that are related to such projects;

"(B) the adequacy and qualifications of personnel employed by the public housing agency (in the management and operation of such projects) for each category of employment; and

"(C) the adequacy and efficacy of—

"(i) tenant programs and services in such projects;

"(ii) the security of each such project and its tenants;

"(iii) policies and procedures of the public housing agency for the selection and eviction of tenants in such projects; and

"(iv) other policies and procedures of the public housing agency relating to such projects, as specified by the Secretary;

"(3) an analysis, made on a project-by-project basis in accordance with standards and criteria prescribed by the Secretary, demonstrating that completion of the improvements and replacements identified under paragraphs (1) and (2) will reasonably ensure the long-term physical and social viability of each such project at a reasonable cost;

"(4) an action plan for making the improvements and replacements identified under paragraphs (1) and (2) that are determined under the analysis described in paragraph (3) to reasonably ensure long-term viability of each such project at a reasonable cost, which action plan shall include at least a schedule, in order of priority, of the actions that are to be completed over a period of not more than 5 years from the date of approval of the comprehensive plan by the Secretary and that are necessary—

"(A) to make the improvements and replacements identified under paragraph (1) for each project expected to receive capital improvements or replacements; and

"(B) to upgrade the management and operation of the public housing agency and its public housing projects as described in paragraph (2);

"(5) a statement, to be signed by the chief local government official (or Indian tribal official, if appropriate), certifying that—

"(A) the comprehensive plan was developed by the public housing agency in consultation with appropriate local government officials (or Indian tribal officials, if appropriate) and with tenants of the housing projects eligible for assistance under this section, which shall include not less than 2 public hearings (i) at least 1 of which shall be held prior to the initial adoption of any plan by the public housing agency for use of such assistance, and afford tenants and interested parties an opportunity to summarize their priorities and concerns, to ensure their due consideration in the planning process of the public housing agency; and (ii) at least 1 of which shall be held prior to final submission of the plan to the Department of Housing and Urban Development for its approval, to provide tenants and other interested parties an opportunity to comment on the plan of action proposed by the public housing agency in its submission; and

"(B) the comprehensive plan is consistent with the assessment of the community of its lower income housing needs and that the unit of general local government (or Indian tribe, if appropriate) will cooperate in the provision of tenant programs and services (as defined in section 3(c)(2));

"(6) a statement, to be signed by the chief public housing official, certifying that the public housing agency will carry out the comprehensive plan in conformity with title VI of the Civil Rights Act of 1964, title VIII of the Act of April 11, 1968 (commonly known as the Civil Rights Act of 1968), and section 504 of the Rehabilitation Act of 1973;

"(7) a preliminary estimate of the total cost of the items identified in paragraphs (1) and (2), including a preliminary estimate of the costs that will be incurred during each year covered by the comprehensive plan; and

"(8) such other information as the Secretary may require.

"(d) REVIEW OF COMPREHENSIVE PLANS.—

"(1) STANDARD FOR APPROVAL.—The Secretary shall approve a comprehensive plan unless—

"(A) the comprehensive plan is incomplete;

"(B) on the basis of available significant facts and data pertaining to the physical and operational condition of the public housing projects of the public housing agency or the management and operations of the public housing agency, the Secretary determines that the identification by the public housing agency of needs is plainly inconsistent with such facts and data;

"(C) on the basis of the comprehensive plan, the Secretary determines that the action plan described in subsection (c)(4) is plainly inappropriate to meeting the needs identified in the comprehensive plan, or that the public housing agency has failed to demonstrate that completion of improvements and replacements identified under paragraphs (1) and (2) of subsection (c) will reasonably ensure long-term viability of 1 or more public housing projects to which they relate at a reasonable cost; or

"(D) there is evidence available to the Secretary that tends to challenge in a substantial manner any certification contained in the comprehensive plan.

"(2) SCHEDULE FOR APPROVAL.—The comprehensive plan shall be considered to be approved, unless the Secretary notifies the public housing agency in writing within 75 calendar days of submission that the Secretary has disapproved the comprehensive plan as submitted, indicating the reasons for disapproval and modifications required to make the comprehensive plan approvable.

"(e) ANNUAL STATEMENT.—

"(1) Each public housing agency receiving assistance under this section shall submit to the Secretary, at a date determined by the Secretary, an annual statement of the activities and expenditures projected to be funded, in whole or in part, by such assistance during the immediately following fiscal year of the public housing agency. The annual statement shall include a certification by the public housing agency that the proposed activities and expenditures are consistent with the approved comprehensive plan of the public housing agency. The annual statement also shall include a certification that the public housing agency has provided the tenants of the public housing and other interested parties the opportunity to review the annual statement and comment on it, and that such comments have been taken into account in formulating the annual statement as submitted to the Secretary.

"(2) A public housing agency may propose an amendment to its comprehensive plan under subsection (c) in any annual statement. Any such proposed amendment shall be reviewed in accordance with subsection (d), and shall include a certification that (A) the proposed amendment has been made publicly available for comment prior to its submission; (B) tenants and other interested parties have been given sufficient time to review and comment on it; and (C) such comments have been taken into consideration in the preparation and submission of the amendment.

"(3) The Secretary shall approve the annual statement unless the Secretary determines that it is inconsistent with the comprehensive plan. The annual statement shall be considered to be approved, unless the Secretary notifies the public housing agency in writing before the expiration of the 75-day period following submission of the annual statement that the Secretary has disapproved the annual statement as submitted, indicating the reasons for disapproval and the modifications required to make the annual statement approvable. The annual statement shall be approved before the public housing agency receives any assistance under this section for the fiscal year to which the annual statement relates.

"(f) ANNUAL PERFORMANCE REPORTS; REVIEWS AND AUDITS.—

"(1) PERFORMANCE AND EVALUATION REPORTS.—Each public housing agency receiving assistance under this section shall submit to the Secretary, on a date determined by the Secretary, a performance and evaluation report concerning the use of funds made available under this section. The report of the public housing agency shall include an assessment by the public housing agency of the relationship of such use of funds made available under this section, as well as the use of other funds, to the needs identified in the comprehensive plan of the public housing agency and to the purposes of this section. The public housing agency shall certify that the report has been made available for review and comment by tenants and other interested parties prior to its submission to the Secretary.

"(2) REVIEWS BY SECRETARY.—The Secretary shall, at least on an annual basis, make

such reviews as may be necessary or appropriate to determine whether each public housing agency receiving assistance under this section—

"(A) has carried out its activities under this section in a timely manner and in accordance with its comprehensive plan;

"(B) has a continuing capacity to carry out its comprehensive plan in a timely manner;

"(C) has satisfied, or has made reasonable progress towards satisfying, such performance standards as shall be prescribed by the Secretary, which shall include at least that the public housing agency shall—

"(i) maintain all occupied dwelling units in public housing projects eligible for assistance under this section at levels at least equal to the housing quality standards established by the Secretary under section 8(o)(6);

"(ii) maintain at least a 97-percent occupancy rate for all dwelling units in such projects; and

"(iii) maintain an operating reserve, as authorized under section 9(a), equal to at least 20 percent of the routine expenses in the operating budget of each year; and

"(D) has made reasonable progress in carrying out modernization projects approved under the provisions of section 14.

"(3) AUDITS OF FINANCIAL TRANSACTIONS.—Recipients of assistance under this section shall have an audit made in accordance with chapter 75 of title 31, United States Code. The Secretary, the Inspector General of the Department of Housing and Urban Development, and the Comptroller General of the United States shall have access to all books, documents, papers, or other records that are pertinent to the activities carried out under this section in order to make audit examinations, excerpts, and transcripts.

"(4) CORRECTIVE ACTION.—The comprehensive plan, any amendments to the comprehensive plan, and the annual statement shall, once approved by the Secretary, be binding upon the Secretary and the public housing agency. The Secretary may order corrective action only if the public housing agency does not comply with paragraph (1) or (2) or if an audit under paragraph (3) reveals findings that the Secretary reasonably believes require such corrective action. The Secretary may withhold funds under this section only if the public housing agency fails to take such corrective action after notice and a reasonable opportunity to do so. In administering this section, the Secretary shall, to the greatest extent possible, respect the professional judgment of the administrators of the public housing agency.

"(g) ELIGIBLE COSTS.—A public housing agency may use financial assistance received under subsection (b) only—

"(1) to undertake activities described in its approved comprehensive plan under subsection (c) or its annual statement under subsection (e);

"(2) to correct conditions that constitute an immediate threat to the health or safety of tenants, whether or not the need for such correction is indicated in its comprehensive plan or annual statement;

"(3) to prepare a comprehensive plan under subsection (c), including reasonable costs that may be necessary to assist tenants in participating in the planning process in a meaningful way, an annual statement under subsection (e), an annual performance and evaluation report under subsection (f)(1), and an audit under subsection (f)(3); and

"(4) to operate public housing projects consistent with the requirements that apply to amounts provided under section 9, except that not more than 20 percent of the funds secured under this section may be used for such purposes.

"(h) ALLOCATION OF ASSISTANCE.—The system for allocating assistance under section 14 in effect on May 21, 1985, shall remain in effect until the Congress, by law, establishes criteria for a formula or other allocation method to be used by the Secretary under this section in determining—

"(1) for each public housing agency, the amounts that are necessary to address current needs for capital improvements;

"(2) for each public housing agency, the amounts that are necessary to address the future needs for capital improvements through a replacement reserve; and

"(3) the relative needs of public housing agencies of different sizes for the amounts described in paragraphs (1) and (2).

"(i) ANNUAL REPORT.—The Secretary shall include in the annual report under section 8 of the Department of Housing and Urban Development Act a description of the allocation, distribution, and use of assistance under this section on a regional basis.

"(j) AUTHORIZATION OF APPROPRIATIONS.—

"(1) CURRENT NEEDS.—

"(A) There are authorized to be appropriated under this section to provide assistance for the current needs for capital improvements of public housing agencies such sums as may be necessary for fiscal years 1987, 1988, and 1989.

"(B) Of the amounts appropriated under subparagraph (A), 3 percent shall be reserved by the Secretary to provide assistance to correct conditions in public housing agencies that constitute an immediate threat to the health or safety of tenants.

"(2) REPLACEMENT RESERVE.—There are authorized to be appropriated under this section to provide assistance for the future needs for capital improvements in replacement reserves for public housing agencies such sums as may be necessary for fiscal years 1987, 1988, and 1989.

"(3) AVAILABILITY.—Any amount appropriated under this subsection shall remain available until expended.

"(k) REGULATIONS.—The Secretary may issue such regulations as are necessary to carry out the provisions of this section.".

(d) USE OF OPERATING ASSISTANCE.—Section 9(a)(1) of the United States Housing Act of 1937 is amended by inserting after the first sentence the following new sentence: "A public housing agency may also use any available amounts provided under this section in accordance with the purpose and requirements of section 20.".

(e) ASSISTANCE FOR PREPARATION OF COMPREHENSIVE PLANS.—Of the amounts approved in appropriation Acts for fiscal year 1986 for financial assistance under section 14 of the United States Housing Act of 1937, the Secretary shall, not later than November 1, 1985, provide such sums as may be reasonable and necessary to public housing agencies that request funds to prepare comprehensive plans under section 20(c) of the United States Housing Act of 1937, as added by this section.

(f) APPLICABILITY.—

(1) IN GENERAL.—The amendments made by subsections (c) and (d) shall be applicable in fiscal year 1987 and succeeding fiscal years, but in no event before the date of the enactment of the law referred to in section 20(h) of the United States Housing Act of 1937, as added by this section. Except as provided in paragraph (2), the provisions of section 14 of the United States Housing Act of 1937 shall continue to apply to amounts appropriated for any prior fiscal year to carry out such section 14.

(2) TRANSITION PROVISION.—Any amount obligated by the Secretary of Housing and Urban Development to a public housing agency under section 14 of the United States Housing Act of 1937 from amounts appropriated for any fiscal year beginning on or before the date of the enactment of the law referred to in section 20(h) of the United States Housing Act of 1937, as added by this section, shall be used for the purposes for which such amount was provided, or for purposes consistent with a comprehensive plan submitted by the public housing agency and approved by the Secretary under such section 20 as added by this section, as the public housing agency considers appropriate.

SEC. 2112. INCOME ELIGIBILITY FOR ASSISTED HOUSING.

The United States Housing Act of 1937 is amended by striking out section 16.

SEC. 2113. RENTAL DEVELOPMENT PROGRAM.

(a) BUDGET AUTHORITY.—Section 17(a) of the United States Housing Act of 1937 is amended by adding at the end thereof the following new paragraph:

"(4) ADDITIONAL AUTHORIZATION.—There are authorized to be appropriated not to exceed $150,000,000 for fiscal year 1986 for development grants.".

(b) PROGRAM REQUIREMENTS.—Section 17(d)(4) of the United States Housing Act of 1937 is amended—

(1) in subparagraph (E)—

(A) by inserting "(i)" after the subparagraph designation;

(B) by striking out "lower income families" and inserting in lieu thereof the following: "families who are lower income families on the date of initial occupancy";

(C) by adding "and" at the end of clause (i), as so redesignated by this paragraph; and

(D) by adding at the end thereof the following new clause:

"(ii) a family shall be considered to meet the requirements of clause (i) until it pays a rent equal to the lowest rent for a unit of the same size in the same project that is occupied by a family that does not meet the requirements of clause (i);";

(2) by striking out "and" at the end of subparagraph (G);

(3) by striking out the period at the end of subparagraph (H) and inserting in lieu thereof "; and"; and

(4) by adding at the end thereof the following new subparagraph:

"(I) the owner of each assisted structure agrees to comply with the provisions of paragraph (8) until the 20-year period specified in paragraph (7) has ended.".

(c) RENT PROVISIONS.—Section 17(d)(8)(A) of the United States Housing Act of 1937 is amended—

(1) in the first sentence by striking out "lower income families" and inserting in lieu thereof the following: "families that meet the requirements of paragraph (4)(E)"; and

(2) in the second sentence, by striking out "30" and all that follows through "families" and inserting in lieu thereof the following: "the amount permitted under section 3(a) for lower income families".

(d) ENFORCEMENT OF PROGRAM REQUIREMENTS.—Section 17(d)(7)(A) is amended by striking out the penultimate sentence.

SEC. 2114. RENTAL REHABILITATION PROGRAM.

(a) ELIGIBLE PROPERTY.—Section 17(a)(1)(A) of the United States Housing Act of 1937 is amended by inserting after "property" the following: ", or of real property that will be privately owned upon the completion of rehabilitation,".

(b) AVAILABILITY OF AMOUNTS.—Section 17(a)(3)(A) of the United States Housing Act of 1937 is amended by inserting before the semicolon the following: "(and such amounts may be permitted by appropriation Acts to remain available until September 30, 1987)".

PART 2—MULTIFAMILY HOUSING MANAGEMENT AND PRESERVATION

SEC. 2121. PREPAYMENT OF MORTGAGES.

Section 250(a)(1) of the National Housing Act is amended by striking out "or" and all that follows through "needs" the last place it appears.

SEC. 2122. MANAGEMENT AND PRESERVATION OF HUD-OWNED MULTIFAMILY HOUSING PROJECTS.

(a) GOALS.—Section 203(a) of the Housing and Community Development Amendments of 1978 is amended by striking out "(a)" and all that follows through the semicolon at the end of paragraph (1) and inserting in lieu thereof the following:

"(a) The Secretary of Housing and Urban Development (hereafter in this section referred to as the 'Secretary') shall manage and dispose of multifamily housing projects that are owned by the Secretary, or whose mortgages are held by, assigned to, or being foreclosed upon by the Secretary, in a manner that is consistent with the National Housing Act and this section and that will, in the least costly fashion among the reasonable alternatives available, further the goals of—

"(1) preserving so that they are available to and affordable by low- and moderate-income persons—

"(A) all units in multifamily housing projects that are formerly subsidized projects; and

"(B) in all other multifamily housing projects, at least those units that are, on the date of assignment, occupied by low- and moderate-income persons or vacant;".

(b) MANAGEMENT SERVICES.—Section 203(b)(2) of the Housing and Community Development Amendments of 1978 is amended by striking out ", owned by the Secretary" and inserting in lieu thereof "to which subsection (a) applies".

(c) MAINTAINING OF PROJECTS.—Section 203(c) of the Housing and Community Development Amendments of 1978 is amended to read as follows:

"(c) The Secretary shall—

"(1) to the greatest extent possible, maintain all occupied multifamily housing projects to which subsection (a) applies in a decent, safe, and sanitary condition;

"(2) to the greatest extent possible, maintain full occupancy in all such projects; and

"(3) maintain all such projects for purposes of providing rental or cooperative housing for the longest feasible period.".

(d) FINANCIAL ASSISTANCE.—Section 203 of the Housing and Community Development Amendments of 1978 is amended—

(1) by redesignating subsections (d) through (g) as subsections (e) through (h), respectively; and

(2) by inserting after subsection (c) the following new subsection:

"(d) In carrying out the goals specified in subsection (a)(1) the Secretary shall, to the extent provided in appropriation Acts, take one or both of the following actions:

"(1) Enter into contracts under section 8 of the United States Housing Act of 1937 with owners of multifamily housing projects that are acquired at foreclosure or after sale by the Secretary. Such contracts shall be attached to the project involved for a period of not less than 15 years and shall be sufficient to assist all units that are occupied by lower income families eligible for assistance under such section 8 at the time of foreclosure or sale, as the case may be, or that are vacant at such time (which units shall forthwith be made available for such families). In order to make available to families any units that are occupied by persons not eligible for assistance under such section 8, but that subsequently become vacant, the contract shall also provide that when any such vacancy occurs the owner involved shall apply to the Secretary for additional assistance to the project involved under the same terms as the original assistance. The Secretary shall provide such contracts at fair market rents that, consistent with subsection (a), provide for the rehabilitation of such project and do not exceed the most recently adjusted fair market rents for substantially rehabilitated units published by the Secretary in the Federal Register. Such contracts shall not be subject to section 16 of the United States Housing Act of 1937.

"(2) Provide purchase-money mortgages to the owners of multifamily housing projects that are acquired at foreclosure or after sale by the Secretary on terms that will ensure that the project will remain available to and affordable by low- and moderate-income persons for a period of not less than 15 years.".

(e) PARTIAL CLAIM PAYMENTS.—Section 203(e)(1) of the Housing and Community Development Amendments of 1978, as so redesignated in this section, is amended by striking out "owned by the Secretary" and inserting in lieu thereof "to which subsection (a) applies".

(f) LIMITATIONS ON CERTAIN TRANSFERS.—Section 203 of the Housing and Community Development Amendments of 1978 is amended—

(1) by redesignating subsections (g) and (h), as so redesignated in this section, as subsections (h) and (i); and

(2) by inserting before such subsection (h) the following new subsection:

"(g)(1) The Secretary may not approve the transfer of any mortgage insured by the Secretary on any formerly subsidized project unless such transfer is made as part of a transaction that will ensure that such project will continue to operate at least until the maturity date of such mortgage in a manner that will provide rental housing on terms at least as advantageous to existing and future tenants as the terms required by such mortgage.

"(2) The Secretary may not approve a transfer of the physical assets of any formerly subsidized project subject to a mortgage held or insured by the Secretary unless the proposed owner agrees to maintain the low- and moderate-income character of such project for a period of not less than the remaining term of such mortgage.".

(g) FORMERLY SUBSIDIZED PROJECTS.—Section 203(h) of the Housing and Community Development Amendments of 1978, as so redesignated in this section, is amended—

(1) by inserting "(1)" after the subsection designation; and

(2) by adding at the end thereof the following new paragraph:

"(2) For the purpose of this section, the term 'formerly subsidized project' means a multifamily housing project receiving any of the following assistance immediately prior to the assignment of the mortgage on such project to, or the acquisition of such mortgage by, the Secretary:

"(A) below market interest rate mortgage insurance under the proviso of section 221(d)(5) of the National Housing Act;

"(B) interest reduction payments made in connection with mortgages insured under section 236 of the National Housing Act;

"(C) rent supplement payments under section 101 of the Housing and Urban Development Act of 1965;

"(D) direct loans at below market interest rates, made under section 202 of the Housing Act of 1959 or section 312 of the Housing Act of 1964; or

"(E) housing assistance payments made under section 23 of the United States Housing Act of 1937 (as in effect before January 1, 1975) or section 8 of the United States Housing Act of 1937 (other than subsection (b)(1) of such section).".

SEC. 2123. ACQUISITION OF INSURED MULTIFAMILY HOUSING PROJECTS.

Section 207(k) of the National Housing Act is amended by inserting after the second sentence the following new sentence: "In determining the amount to be bid, the Secretary shall act consistently with the goal established in section 203(a)(1) of the Housing and Community Development Amendments of 1978.".

SEC. 2124. TENANT PARTICIPATION IN MULTIFAMILY HOUSING PROJECTS.

(a) APPLICABILITY.—Section 202(a) of the Housing and Community Development Amendments of 1978 is amended by inserting before the period at the end thereof the following: "or section 202 of the Housing Act of 1959".

(b) NOTICE AND COMMENT.—Section 202(b)(1) of the Housing and Community Development Amendments of 1978 is amended—

(1) by striking out "or" the third place it appears;

(2) by inserting after "alterations," the following: "transfer of physical assets, or application for capital improvements loan,"; and

(3) by striking out "and the Secretary deems it appropriate" and inserting in lieu thereof the following: "or where the Secretary proposes to sell a mortgage securing a multifamily housing project".

(c) NONDISCRIMINATION AGAINST SECTION 8 CERTIFICATE HOLDERS.—Section 202(b)(2) of the Housing and Community Development Amendments of 1978 is amended by inserting before the semicolon at the end thereof the following: ", and such owners agree not to refuse unreasonably to lease any vacant dwelling unit in the project that rents for an amount not greater than the fair market rent for a comparable unit, as determined by the Secretary under section 8 of the United States Housing Act of 1937, to a holder of a certificate of eligibility under such section solely because of the status of such prospective tenant as a holder of such certificate".

SEC. 2125. TROUBLED MULTIFAMILY HOUSING PROJECTS.

Section 201(d)(1) of the Housing and Community Development Amendments of 1978 is amended by inserting before the semicolon at the end thereof the following: "and to apply for sufficient assistance under this section, section 8 of the United States Housing Act of 1937, or any other appropriate housing assistance program to permit the

owner to maintain both the financial soundness and the low- and moderate-income character of the project, except that such agreement shall also provide that the agreement of the owner to maintain the low- and moderate-income character of the project for such period shall be binding only as long as such sufficient assistance is available and offered and the project receives such sufficient assistance".

SEC. 2126. INAPPLICABILITY OF CERTAIN INCOME ELIGIBILITY RESTRICTIONS TO PROPERTY DISPOSITION CONTRACTS.

Section 16 of the United States Housing Act of 1937 is amended by adding at the end thereof the following new subsection:

"(c) Subsections (a) and (b) shall not be applicable to contracts entered into under section 8 of the United States Housing Act of 1937 with owners of multifamily housing projects that are acquired at foreclosure or after sale by the Secretary under section 203 of the Housing and Community Development Amendments of 1978.".

PART 3—OTHER HOUSING ASSISTANCE PROGRAMS

SEC. 2141. HOUSING FOR THE ELDERLY AND HANDICAPPED.

(a) BUDGET AUTHORITY.—

(1) The first sentence of section 202(a)(4)(B)(i) of the Housing Act of 1959 is amended—

(A) by striking out "and" the first place it appears; and

(B) by inserting after "1984," the following: "and to such sums as may be approved in an appropriation Act on October 1, 1985,".

(2) Section 202(a)(4)(C) of the Housing Act of 1959 is amended by adding at the end thereof the following new sentence: "Not more than $601,000,000 may be approved in appropriation Acts for such loans for fiscal year 1986.".

(b) INTEREST RATE LIMITATION.—Section 223(a)(2) of the Housing and Urban-Rural Recovery Act of 1983 is amended by striking out "October 1, 1984" and inserting in lieu thereof "October 1, 1986".

(c) COMMUNITY PARTICIPATION.—

(1) Section 202(a) of the Housing Act of 1959 is amended by adding at the end thereof the following new paragraph:

"(8) To the maximum extent practicable, the Secretary shall encourage each corporation to provide for appropriate community participation in the development of the housing project assisted under this section.".

(2) Section 202(d)(2)(B) of the Housing Act of 1959 is amended to read as follows:

"(B) that owns and is responsible for the operation of the housing project assisted under this section; and".

SEC. 2142. HOUSING FOR THE HANDICAPPED.

(a) FINDINGS AND PURPOSE.—

(1) The Congress hereby finds that—

(A) housing for nonelderly handicapped families is assisted under section 202 of the Housing Act of 1959 and section 8 of the United States Housing Act of 1937;

(B) the housing programs under such sections are designed and implemented primarily to assist rental housing for elderly and nonelderly families and are often inappropriate for dealing with the specialized needs of the physically impaired, the developmentally disabled, and the chronically mentally ill;

(C) the development of housing for nonelderly handicapped families under such programs is often more expensive than necessary, thereby reducing the number of such families that can be assisted with available funds;

(D) the program under section 202 of the Housing Act of 1959 can continue to provide direct loans to finance group residences and independent apartments for nonelderly handicapped families, but can be made more efficient and less costly by the adoption of standards and procedures applicable only to housing for such families;

(E) the use of the program under section 8 of the United States Housing Act of 1937 to assist rentals for housing for nonelderly handicapped families is time consuming and unnecessarily costly and, in some areas of the Nation, prevents the development of such housing;

(F) the use of the program under section 8 of the United States Housing Act of 1937 to assist rentals for housing for nonelderly handicapped families should be replaced by a more appropriate subsidy mechanism;

(G) both elderly and handicapped housing projects assisted under section 202 of the Housing Act of 1959 will benefit from an increased emphasis on supportive services and a greater use of State and local funds; and

(H) an improved program for nonelderly handicapped families will assist in providing shelter and supportive services for mentally ill persons who might otherwise be homeless.

(2) The purpose of this section is to improve the direct loan program under section 202 of the Housing Act of 1959 to ensure that such program meets the special housing and related needs of nonelderly handicapped families.

(b) HOUSING FOR HANDICAPPED FAMILIES.—

(1) Section 202(h) of the Housing Act of 1959 is amended to read as follows:

"(h)(1) Of the amounts made available in appropriation Acts for loans under subsection (a)(4)(C) for any fiscal year commencing after September 30, 1985, not less than 15 percent or $100,000,000, whichever amount is greater, shall be available for loans for the development costs of housing for handicapped families. If the amount required for any such fiscal year for approvable applications for loan under this subsection is less than the amount available under this paragraph, the balance shall be made available for loans under other provisions of this section.

"(2) The Secretary shall take such actions as may be necessary to ensure that—

"(A) funds made available under this subsection will be used to support a variety of methods of meeting the needs primarily of nonelderly handicapped families by providing a variety of housing options, ranging from small group homes to independent living complexes; and

"(B) housing for handicapped families assisted under this subsection will provide families occupying units in such housing with an assured range of services specified in subsection (f), will provide such families with opportunities for optimal independent living and participation in normal daily activities, and will facilitate access by such families to the community at large and to suitable employment opportunities within such community.

"(3)(A) In allocating funds under this subsection, and in processing applications for loans under this section and assistance payments under paragraph (4), the Secretary shall adopt such distinct standards and procedures as the Secretary determines appropriate due to differences between housing for handicapped families and other housing assisted under this section.

"(B) The Secretary may, on a demonstration basis, determine the feasibility and desirability of reducing processing time and costs for housing for handicapped families by limiting project design to a small number of prototype designs. Any such demonstration shall be limited to the 3-year period following the date of the enactment of the Housing Act of 1985, may only involve projects whose sponsors consent to participation in such demonstration, and shall be described in a report submitted by the Secretrary to the Congress following completion of such demonstration.

"(4)(A) The Secretary shall, to the extent approved in appropriation Acts, enter into contracts with owners of housing for handicapped families receiving loans under, or meeting the requirements of, this section to make monthly payments to cover any part of the costs attributed to units occupied (or, as approved by the Secretary, held for occupancy) by lower income families that is not met from project income. The annual contract amount for any project shall not exceed the sum of the initial annual project rentals for all units and any initial utility and services allowances for such units, as approved by the Secretary. Any contract amounts not used by a project in any year shall remain available to the project until the expiration of the contract. The term of a contract entered into under this subparagraph shall be 240 months. The annual contract amount may be adjusted by the Secretary if the sum of the project income and the amount of assistance payments available under this subparagraph are inadequate to provide for reasonable project costs. In the case of an intermediate care facility in which there reside families assisted under title XIX of the Social Security Act, project income under this subparagraph shall include the same amount as if such families were being assisted under title XVI of the Social Security Act.

"(B) The Secretary shall approve initial project rentals for any project assisted under this subsection based on the determination of the Secretary of the total actual necessary and reasonable costs of developing and operating the project, taking into consideration the need to contain costs to the extent practicable and consistent with the purposes of the project and this section.

"(C) The Secretary shall require that, during the term of each contract entered into under subparagraph (A), all units in a project assisted under this subsection shall be made available for occupancy by lower income families, as such term is defined in section 3(b)(2) of the United States Housing Act of 1937. The rent payment required of a lower income family shall be determined in accordance with section 3(a) of such Act, except that the gross income of a family occupying an intermediate care facility assisted under title XIX of the Social Security Act shall be the same amount as if the family were being assisted under title XVI of the Social Security Act.

"(D) The Secretary shall coordinate the processing of an application for a loan for housing for handicapped families under this section and the processing of an application for assistance payments under this paragraph for such housing.".

(2) Section 202(d) of the Housing Act of 1959 is amended by adding at the end thereof the following new paragraphs:

"(9) The term 'housing for handicapped families' means housing and related facilities to be occupied by handicapped families

who are primarily nonelderly handicapped families.

"(10) The term 'nonelderly handicapped families' means elderly or handicapped families, the head of which (and spouse, if any) is less than 62 years of age at the time of initial occupancy of a project assisted under this section.".

(3) Section 202(c)(3) of the Housing Act of 1959 is amended by inserting after "section" the following: "and designed for dwelling use by 12 or more elderly or handicapped families".

(c) SUPPORTIVE SERVICES FOR ELDERLY AND HANDICAPPED FAMILIES.—Section 202(f) of the Housing Act of 1959 is amended—

(1) by inserting "(1)" after the subsection designation; and

(2) by adding at the end thereof the following new paragraph:

"(2) Each applicant for a loan under this section for housing and related facilities shall submit with the application a supportive services plan describing—

"(A) the category or categories of families such housing and facilities are intended to serve;

"(B) the range of necessary services to be provided to the families occupying such housing;

"(C) the manner in which such services will be provided to such families; and

"(D) the extent of State and local funds available to assist in the provision of such services.".

(d) TERMINATION OF SECTION 8 ASSISTANCE.—On and after the first date that amounts approved in an appropriation Act for any fiscal year become available for contracts under section 202(h)(4)(A) of the Housing Act of 1959, as amended by subsection (b) of this section, no project for handicapped (primarily nonelderly) families approved for such fiscal year pursuant to section 202 of such Act shall be provided assistance payments under section 8 of the United States Housing Act of 1937, except pursuant to a reservation for a contract to make such assistance payments that was made before the first date that amounts for contracts under such section 202(h)(4)(A) became available.

(e) IMPLEMENTATION.—Not later than the expiration of the 120-day period following the date of the enactment of this Act, the Secretary of Housing and Urban Development shall, to the extent amounts are approved in an appropriation Act for use under section 202(h)(4)(A) of the Housing Act of 1959 for fiscal year 1986, publish in the Federal Register a notice of fund availability to implement the provisions of, and amendments made by, this section. The Secretary shall issue such rules as may be necessary to carry out such provisions and amendments for fiscal year 1987 and thereafter.

(f) EFFECTIVE DATE AND APPLICABILITY.—

(1) The provisions of, and amendments made by, this section shall become effective on October 1, 1985.

(2)(A) Except as otherwise provided in this section, the provisions of, and amendments made by, this section shall not apply with respect to projects with loans or loan reservations under section 202 of the Housing Act of 1959 using authority approved in appropriation Acts for fiscal years beginning before October 1, 1985.

(B) Notwithstanding subparagraph (A), the Secretary may apply the provisions of, and amendments made by, this section to any project in order to facilitate the development of such project in a timely manner.

SEC. 2143. CONGREGATE SERVICES.

Section 411(a) of the Congregate Housing Services Act of 1978 is amended—

(1) by striking out "and" at the end of paragraph (5);

(2) by striking out the period at the end of paragraph (6) and inserting in lieu thereof "; and"; and

(3) by adding at the end thereof the following new paragraph:

"(7) for fiscal year 1986, not to exceed $8,000,000.".

SEC. 2144. SECTION 235 HOMEOWNERSHIP PROGRAM.

(a) CONTRACT AUTHORITY.—The second sentence of section 235(h)(1) of the National Housing Act is amended—

(1) by striking out "and" the last place it appears; and

(2) by inserting before the period at the end thereof the following: ", and by $7,500,000 on October 1, 1985".

(b) BUDGET AUTHORITY.—Section 235(h)(1) of the National Housing Act is amended by inserting after the third sentence the following new sentence: "The aggregate amount that may be obligated over the duration of the contracts entered into with the authority provided on October 1, 1985, may not exceed $75,000,000.".

(c) ASSISTANCE PAYMENTS AUTHORITY.—Section 235(h)(1) of the National Housing Act is amended by striking out "September 30, 1985" in the last sentence and inserting in lieu thereof "September 30, 1986".

(d) INSURANCE AUTHORITY.—Section 235(m) of the National Housing Act is amended by striking out "September 30, 1985" and inserting in lieu thereof "September 30, 1986".

(e) HOUSING STIMULUS AUTHORITY.—Section 235(q)(1) of the National Housing Act is amended by striking out "September 30, 1985" in the last sentence and inserting in lieu thereof "September 30, 1986".

SEC. 2145. TASK FORCE ON FAMILY HOUSING NEEDS.

(a) ESTABLISHMENT.—There hereby is established a task force to be known as the Task Force on Family Needs in Assisted Housing (hereafter referred to in this section as the "task force"), which shall examine—

(1) the problems of families with children living in highrise buildings assisted by the Secretary of Housing and Urban Development (hereafter referred to in this section as the "Secretary");

(2) the problems of such families who are on waiting lists for housing assistance provided by, or housing assisted by, the Secretary; and

(3) the need for construction of additional dwelling units for such families.

(b) MEMBERS.—

(1) The task force shall consist of not less than 20 members appointed by the Secretary as follows:

(A) 5 members appointed from persons who are officials of the Department of Housing and Urban Development;

(B) 5 members appointed from persons who are public housing agency directors;

(C) 5 members appointed from persons who are representatives of tenants in assisted housing; and

(D) 5 members appointed from persons who are representatives of units of general local government.

(2) Each member of the task force shall serve without pay, allowances, or benefits by reason of such service. Each such member shall be reimbursed for actual expenses, including travel expenses, incurred in the course of performing the duties vested in the task force.

(c) MEETINGS.—The task force shall meet as necessary to carry out the purposes of this section, at the call of the Secretary.

(d) STAFF AND OFFICES.—The Secretary shall provide the task force with such staff and office facilities as the Secretary, following consultation with the task force, considers necessary to permit the task force to carry out its functions under this section.

(e) REPORT.—Not later than the expiration of the 1-year period following the date of the enactment of this Act, the task force shall submit to the Secretary and the Congress a report setting forth its findings as a result of its study under subsection (a). Such report shall include any recommendations of the task force for actions to resolve the problems identified in such study.

SEC. 2146. ENERGY CONSERVATION IN ASSISTED HOUSING.

(a) IN GENERAL.—Any housing project, for which development is assisted under the United States Housing Act of 1937 or section 202 of the Housing Act of 1959 and commences after the 1-year period following the date of the enactment of this Act, shall be developed in accordance with life-cycle cost-effective energy conservation performance standards established by the Secretary of Housing and Urban Development and designed to ensure the lowest total construction and operating costs over the estimated life of the building.

(b) CONSTRUCTION COST LIMITS.—The Secretary shall revise the cost limits applicable to the development of housing assisted under the United States Housing Act of 1937 and section 202 of the Housing Act of 1959 for purposes of taking into consideration life-cyle costs of the structure and major energy consuming heating and cooling systems.

(c) REGULATIONS.—The Secretary of Housing and Urban Development shall, not later than the expiration of the 1-year period following the date of the enactment of this Act, issue regulations establishing the standards referred to in subsection (a) and revising the cost limits referred to in subsection (b).

SEC. 2147. ANNUAL REPORT ON CHARACTERISTICS OF FAMILIES IN ASSISTED HOUSING.

(a) IN GENERAL.—The Secretary of Housing and Urban Development shall include in the annual report under section 8 of the Housing and Urban Development Act descriptions of the characteristics of families assisted under each of the following programs of assistance: public housing, section 8 of the United States Housing Act of 1937 (other than subsection (o) of such section), section 8(o) of the United States Housing Act of 1937, and section 202 of the Housing Act of 1959.

(b) SPECIFIC REQUIREMENTS.—The descriptions required in subsection (a) shall include information with respect to—

(1) family size, including the number of children;

(2) amount and sources of family income;

(3) the age, race, and sex of family members; and

(4) whether the head of the family (or the spouse of such person) is a member of the armed forces.

SEC. 2148. PROCEDURES AND POLICIES FOR MANDATORY MEALS PROGRAMS IN ASSISTED HOUSING FOR THE ELDERLY.

(a) IN GENERAL.—The Secretary of Housing and Urban Development (hereafter referred to in this section as the "Secretary"),

in consultation with owners, managers, and tenants of housing projects for the elderly that are assisted under section 202 of the Housing Act of 1959, section 236 of the National Housing Act, and section 8 of the United States Housing Act of 1937 and that have mandatory meals programs, shall develop and implement within 1 year following the date of the enactment of this Act procedures and policies governing the operation of such programs to facilitate the sound and equitable administration of all such programs and to ensure that meals provided under such programs are at the least possible cost to all tenants.

(b) SPECIFIC REQUIREMENTS.—Procedures and policies prescribed by the Secretary under subsection (a) shall include rules to—

(1) require sponsors of mandatory meals programs to accept food stamps toward payment for meals;

(2) require, when the lease is renewed or within 12 months of the date of the enactment of this Act, whichever occurs earlier, the contract for any meals service to be separate from the lease for the housing unit and to prohibit the eviction of any tenant for nonpayment of the meals service contract;

(3) require exceptions from participation in mandatory meals programs where such programs cannot satisfactorily accommodate the special dietary or health needs of a tenant, as certified by the tenant's physician, or the special diet or food practice tenets of a tenant's religion, or where such programs substantially interfere with a tenant's employment;

(4) require sponsors of mandatory meals programs to provide refunds or otherwise excuse tenants from payment for meals not eaten during periods of temporary absence from a housing facility due to confinement in a hospital, nursing home, or other health care or rehabilitative facility, or, where prior notification is provided to the sponsor by tenants, during periods of extended absence from the facility; and

(5) encourage sponsors of mandatory meal programs to make meals available to tenants who are confined to units within the facility due to illness or other temporary incapacitation that prevents participation in congregate dining or otherwise to compensate tenants for meals not eaten during such temporary incapacitation.

(c) LIMIT ON TENANT PAYMENTS.—

(1) The Secretary shall prescribe rules requiring sponsors of mandatory meals programs to exempt from participation in such programs tenants for whom participation in such programs constitutes an unbearable financial hardship, especially for the very lowest income tenants, or to provide such tenants with financial assistance toward the cost of participation in such programs.

(2) In determining unbearable financial hardship under paragraph (1), the Secretary shall take into consideration the cost to tenants of meals not covered by the program and other necessary living costs remaining after payment of charges for the mandatory meals program.

(d) STUDY.—For purposes of facilitating congressional consideration of the appropriateness of mandatory meals programs in assisted housing projects for the elderly, the Secretary shall, not later than the expiration of the 18-month period following the date of the enactment of this Act, submit to the Congress a report reviewing the operation of mandatory meals programs and actions of the Department of Housing and Urban Development implementing the provisions of this section. Such report shall include information with respect to—

(1) the cost effectiveness of mandatory meals programs in comparison to comparable meals programs offered on a voluntary basis;

(2) the benefits to tenants provided by mandatory participation in meals programs;

(3) the extent of compliance among sponsors of mandatory meals programs with rules required by this section;

(4) the extent to which tenants of assisted housing projects with mandatory meals programs have been required to participate in such programs against their wishes due to limited availability of alternative assisted housing projects for the elderly; and

(5) the availability of funding under the Congregate Housing Services Act of 1965, title III of the Older Americans Act of 1965, or other Federal programs for facilitating the conversion of current mandatory meals programs to voluntary participation by tenants.

(e) MORATORIUM ON NEW MANDATORY MEAL PROGRAMS.—During the 18-month period following the date of the enactment of this Act, the Secretary—

(1) shall permit the establishment of only voluntary meals programs in assisted housing projects for the elderly with respect to which funds for assistance are reserved by the Secretary after September 30, 1985; and

(2) shall not permit the conversion of a voluntary meals program in existence as of September 30, 1985, to a mandatory meals program.

SEC. 2149. MODIFICATION OF RESTRICTION ON USE OF ASSISTED HOUSING.

(a) IN GENERAL.—Section 214 of the Housing and Community Development Act of 1980 is amended to read as follows:

"RESTRICTION ON USE OF ASSISTED HOUSING

"SEC. 214. (a) Notwithstanding any other provision of law, the Secretary of Housing and Urban Development may not make financial assistance available for the benefit of any nonimmigrant student-alien.

"(b) For purposes of this section:

"(1) The term 'financial assistance' means financial assistance made available pursuant to the United States Housing Act of 1937, section 235 or 236 of the National Housing Act, or section 101 of the Housing and Urban Development Act of 1965.

"(2) The term 'nonimmigrant student-alien' means—

"(A) any alien who—

"(i) has a residence in a foreign country that such alien has no intention of abandoning;

"(ii) is a bona fide student qualified to pursue a full course of study; and

"(iii) is admitted to the United States temporarily and solely for purposes of pursuing such a course of study at an established institution of learning or other recognized place of study in the United States, particularly designated by such alien and approved by the Attorney General after consultation with the Department of Education of the United States, which institution or place of study shall have agreed to report to the Attorney General the termination of attendance of each nonimmigrant student (and if any such institution of learning or place of study fails to make such reports promptly the approval shall be withdrawn); and

"(B) the alien spouse and minor children of any alien described in subparagraph (A), if accompanying such alien or following to join such alien.".

(b) CONFORMING AMENDMENT.—The Housing and Community Development Amendments of 1981 is amended by striking out section 329(b).

SEC. 2150. EXCLUSION OF HOUSING ASSISTANCE AS INCOME.

Notwithstanding any other provision of law, the value of any assistance paid with respect to a dwelling unit under the United States Housing Act of 1937, the National Housing Act, section 101 of the Housing and Urban Development Act of 1965, or title V of the Housing Act of 1949 may not be considered as income or a resource for the purpose of determining the eligibility of, or the amount of benefits payable to, any person living in such unit for assistance under any State program receiving payments under part A of title IV of the Social Security Act.

SEC. 2151. USE OF CERTAIN EXCESS RENTAL CHARGES FOR ASSISTANCE FOR TROUBLED MULTIFAMILY HOUSING PROJECTS.

Section 236(f)(3) of the National Housing Act is amended by striking out "1985" and inserting in lieu thereof "1986".

SEC. 2152. HOUSING DEMONSTRATION PROJECT.

(a) REPORT.—Section 225(h) of the Housing and Urban-Rural Recovery Act of 1983 is amended—

(1) by striking out paragraph (1);

(2) by redesignating paragraph (2) as paragraph (1);

(3) by striking out "October 1, 1985" and inserting in lieu thereof "October 1, 1986"; and

(4) by adding at the end thereof the following new paragraph:

"(2) The report required in paragraph (1) shall include an analysis of the condition in urban areas commonly known as roving slums. Such analysis shall evaluate in particular—

"(A) the extent to which such condition is affected by—

"(i) a lack of coordination between housing assistance programs administered by the Secretary and shelter allowances provided to families receiving public assistance payments under programs administered by the Secretary of Health and Human Services; and

"(ii) the manner in which such housing assistance and shelter allowances are provided; and

"(B) possible approaches to eliminating or reducing such condition through improved coordination between the programs referred to in subparagraph (A)(i).".

(b) AUTHORIZATION OF APPROPRIATIONS.—Section 225(i) of the Housing and Urban-Rural Recovery Act of 1983 is amended to read as follows:

"(i) There is authorized to be appropriated to carry out this section $10,000,000 for fiscal year 1986. Any amount appropriated under this subsection shall remain available until expended.".

SEC. 2153. FLEXIBLE SUBSIDY ASSISTANCE FOR CERTAIN HOUSING PROJECTS FOR ELDERLY OR HANDICAPPED FAMILIES.

(a) PURPOSES.—Section 201(a) of the Housing and Community Development Amendments of 1978 is amended by inserting "the Housing Act of 1959," after "1937,".

(b) ELIGIBILITY FOR ASSISTANCE.—Section 201(c)(1)(A) of the Housing and Community Development Amendments of 1978 is amended by inserting before the semicolon at the end thereof the following: ", or received a loan under section 202 of the Housing Act of 1959 before October 1, 1970".

SEC. 2154. HOUSING ASSISTANCE TECHNICAL AMENDMENTS.

(a) RENTAL HOUSING FOR LOWER INCOME FAMILIES.—The last sentence of section 236(i)(1) of the National Housing Act is amended by striking out "(h)" and inserting in lieu thereof "(f)(4)".

(b) DEFINITION OF DISABILITY.—Section 3(b)(3)(A) of the United States Housing Act of 1937 is amended—

(1) by striking out "or" the first place it appears and inserting in lieu thereof a comma; and

(2) by striking out "or in section 102 of the Developmental Disabilities Services and Facilities Construction Amendments of 1970" and inserting in lieu thereof the following: ", has a developmental disability as defined in section 102(7) of the Developmental Disabilities Assistance and Bill of Rights Act (42 U.S.C. 6001(7))".

(c) LOWER INCOME HOUSING CONTRACT PROVISIONS.—The first sentence of section 6(a) of the United States Housing Act of 1937 is amended by inserting "The" before "Secretary".

(d) HOUSING DEVELOPMENT GRANTS.—Section 17(d)(7)(A) of the United States Housing Act of 1937 is amended by striking out "title" and inserting in lieu thereof "subsection".

(e) HOUSING FOR THE ELDERLY AND HANDICAPPED.—

(1) The third sentence of section 202(d)(4) of the Housing Act of 1959 is amended by striking out "is a developmentally disabled individual as defined in section 102(5) of the Developmental Disabilities Services and Facilities Construction Amendments of 1950" and inserting in lieu thereof the following: "has a developmental disability as defined in section 102(7) of the Developmental Disabilities Assistance and Bill of Rights Act (42 U.S.C. 6001(7))".

(2) Section 202(f) of the Housing Act of 1959 is amended by striking out "section 134" and inserting in lieu thereof "section 133".

(3) Section 202(l) of the Housing Act of 1959 is amended by striking out "difference" and inserting in lieu thereof "different".

(f) RENT SUPPLEMENTS.—Section 101(j)(1)(D) of the Housing and Urban Development Act of 1965 is amended by striking out "divided" and inserting in lieu thereof "dividend".

Subtitle B—Rural Housing

SEC. 2201. PROGRAM AUTHORIZATIONS.

(a) INSURANCE AND GUARANTEE AUTHORITY.—Section 513(a)(1) of the Housing Act of 1949 is amended to read as follows:

"(a)(1) The Secretary may, to the extent approved in appropriation Acts, insure and guarantee loans under this title during fiscal year 1986 in an aggregate amount not to exceed $2,266,000,000 as follows:

"(A) for insured or guaranteed loans under section 502 on behalf of borrowers receiving assistance under section 521(a)(1) or receiving guaranteed loans pursuant to section 502(f), $1,328,000,000;

"(B) for loans under section 504, $17,000,000;

"(C) for insured loans under section 514, $20,000,000;

"(D) for insured loans under section 515, $900,000,000; and

"(E) for site loans under section 524, $1,000,000.".

(b) AUTHORIZATION OF APPROPRIATIONS.—Section 513(b) of the Housing Act of 1949 is amended to read as follows:

"(b) There are authorized to be appropriated for fiscal year 1986, and to remain available until expended—

"(1) for grants under section 504, $20,000,000;

"(2) for purposes of section 509(c), $2,000,000;

"(3) such sums as may be necessary to meet payments on notes or other obligations issued by the Secretary under section 511 equal to—

"(A) the aggregate of the contributions made by the Secretary in the form of credits on principal due on loans made pursuant to section 503; and

"(B) the interest due on a similar sum represented by notes or other obligations issued by the Secretary;

"(4) for financial assistance under section 516, $15,000,000;

"(5) for grants under section 523(f), $15,000,000;

"(6) for grants under section 533, $20,000,000; and

"(7) such sums as may be necessary for the Secretary to administer the provisions of sections 235 and 236 of the National Housing Act and section 8 of the United States Housing Act of 1937.".

(c) RENTAL ASSISTANCE PAYMENT CONTRACTS.—Section 513(c) of the Housing Act of 1949 is amended to read as follows:

"(c) The Secretary, to the extent approved in appropriation Acts for fiscal year 1986, may enter into rental assistance payment contracts under section 521(a)(2)(A) aggregating $198,000,000. Such authority as is approved in appropriation Acts shall be used by the Secretary to renew rental assistance payment contracts that expire during such fiscal year and to make additional rental assistance payment contracts for existing or newly constructed dwelling units.".

(d) RENTAL HOUSING LOAN AUTHORITY.—Section 515(b)(4) of the Housing Act of 1949 is amended by striking out "September 30, 1985" and inserting in lieu thereof "September 30, 1986".

(e) MUTUAL AND SELF-HELP HOUSING GRANT AND LOAN AUTHORITY.—

(1) Section 523(f) of the Housing Act of 1949 is amended by striking out "September 30, 1985" and inserting in lieu thereof "September 30, 1986".

(2) Section 523(g) of the Housing Act of 1949 is amended by striking out "fiscal year 1985" and inserting in lieu thereof the following: "fiscal years 1985 and 1986, respectively".

SEC. 2202. INCOME LEVELS FOR FAMILY ELIGIBILITY.

(a) IN GENERAL.—Section 501(b)(4) of the Housing Act of 1949 is amended by adding at the end thereof the following new sentence: "Notwithstanding the preceding sentence, the maximum income levels established for purposes of this title for such families and persons in the Virgin Islands shall not be less than the highest such levels established for purposes of this title for such families and persons in American Samoa, Guam, the Northern Mariana Islands, and the Trust Territory of the Pacific Islands.".

(b) APPLICABILITY.—The amendment made by subsection (a) shall be applicable to any determination of eligibility for assistance under title V of the Housing Act of 1949 made on or after the date of the enactment of this Act.

SEC. 2203. PLANS FOR ALLOCATION OF FINANCIAL ASSISTANCE.

Section 501 of the Housing Act of 1949 is amended by adding at the end thereof the following new subsection:

"(h) Not later than 30 days after the allocation to any State office of any financial assistance available under this title, there shall be made available to the public in each State, county, and district office in such State a statement of the amount of such assistance that will be available for each program under this title within the area of jurisdiction of such office.".

SEC. 2204. RURAL HOUSING ESCROW ACCOUNTS.

(a) ESCROW PROCEDURES.—Section 501(e) of the Housing Act of 1949 is amended by striking out the first sentence and inserting in lieu thereof the following: "The Secretary shall, not later than 60 days after the date of the enactment of the Housing Act of 1985, establish procedures under which borrowers under this title shall make periodic payments for the purpose of taxes, insurance, and such other necessary expenses as the Secretary determines to be appropriate.".

(b) PREPAYMENT OF TAXES AND OTHER EXPENSES.—Section 502(a)(1) of the Housing Act of 1949 is amended by striking out the last sentence and inserting in lieu thereof the following: "The borrower shall prepay to the Secretary as escrow agent, on terms and conditions prescribed by the Secretary, such taxes, insurance, and other expenses as are required in accordance with section 501(e).".

SEC. 2205. RURAL HOUSING GUARANTEED LOANS.

Section 502 of the Housing Act of 1949 is amended by adding at the end thereof the following new subsection:

"(f)(1) Of the total loans under this section for any fiscal year beginning after September 30, 1985, the following percentage shall be guaranteed loans in accordance with this section, section 517(d), and the last sentence of section 521(a)(1)(A):

"(A) for fiscal year 1986, 10 percent;

"(B) for fiscal year 1987, 20 percent; and

"(C) for fiscal year 1988 and each succeeding fiscal year, 30 percent.

"(2) Loans guaranteed pursuant to this subsection shall be made only to borrowers with moderate or above-moderate incomes that do not exceed 115 percent of the median income of the area, as determined by the Secretary with adjustments for smaller and larger families.".

SEC. 2206. STUDY OF PROCEDURES FOR APPEALS OF ADVERSE DECISIONS.

Not later than 180 days after the date of the enactment of this Act, the Secretary of Agriculture shall study, and submit to the Congress a report evaluating, the procedures established by the Secretary under section 510(g) of the Housing Act of 1949. Such study and report shall include (1) an analysis of the advantages of providing that any appeal of an adverse decision shall be heard by an impartial person disinterested in the result of such appeal; and (2) any additional recommendations of the Secretary for improving such procedures.

SEC. 2207. USE OF FEE INSPECTORS AND APPRAISERS.

(a) IN GENERAL.—Section 510(j) of the Housing Act of 1949 is amended by inserting after "grant applications" the following: "(as determined by the Secretary under section 532(c))".

(b) DETERMINATION OF SECRETARY.—Section 532 of the Housing Act of 1949 is

amended by adding at the end thereof the following new subsection:

"(c)(1) Each county or district office shall immediately notify the Secretary in any case in which such office is unable to process any loan or grant application before the expiration of the 30-day period following the receipt of such application. Such notification shall include a statement of the reason for such delay in application processing.

"(2) Upon the receipt of any notification under paragraph (1), the Secretary shall determine whether the delay in application processing by the county or district office involved is likely to continue without the use of the services of fee inspectors and fee appraisers, as provided in section 510(j). If the Secretary determines that such delay is likely to continue without the use of such services, the Secretary shall require the use of such services by such office until such office is able to expeditiously process loan and grant applications without such services.".

SEC. 2208. LOANS FOR REHABILITATION OF RURAL RENTAL HOUSING.

Section 515(l) of the Housing Act of 1949 is amended—

(1) by inserting "(1)" after the subsection designation; and

(2) by adding at the end thereof the following new paragraph:

"(2) The Secretary shall, not later than the expiration of the 90-day period following the date of the enactment of the Housing Act of 1985, issue regulations to establish the standards required in paragraph (1).".

SEC. 2209. MANAGEMENT OF INSURED AND GUARANTEED LOANS.

(a) SALE OF INSURED AND GUARANTEED LOANS TO PUBLIC.—Section 517(c) of the Housing Act of 1949 is amended by adding at the end thereof the following new sentence: "Any loan made and sold by the Secretary under this section after the date of the enactment of the Housing Act of 1985 (and any loan made by other lenders under this title that is insured or guaranteed in accordance with this section, is purchased by the Secretary, and is sold by the Secretary under this section after such date) shall be sold to the public and may not be sold to the Federal Financing Bank, unless such sale to the Federal Financing Bank is required to service transactions under this title between the Secretary and the Federal Financing Bank occurring on or before such date.".

(b) INTEREST SUBSIDY ON INSURED AND GUARANTEED LOANS OFFERED FOR SALE TO PUBLIC.—Section 517(d) of the Housing Act of 1949 is amended—

(1) by inserting "(1)" after the subsection designation; and

(2) by adding at the end thereof the following new paragraph:

"(2) Each loan made by the Secretary or other lenders under this title that is insured or guaranteed in accordance with this subsection shall, when offered for sale to the public, be accompanied by an agreement by the Secretary to pay to the holder of such loan (through an agreement to purchase such loan or through such other means as the Secretary determines to be appropriate) the difference between the rate of interest paid by the borrower of such loan and the market rate of interest (as determined by the Secretary) on obligations having comparable periods to maturity on the date of such sale.".

(c) PROTECTION OF BORROWERS UNDER LOANS SOLD TO PUBLIC.—Section 517(d) of the Housing Act of 1949, as amended by subsection (b) of this section, is amended by adding at the end thereof the following new paragraph:

"(3) Each loan made by the Secretary or other lenders under this title that is insured or guaranteed in accordance with this subsection shall, when offered for sale to the public, be accompanied by agreements for the benefit of the borrower under the loan that provide that—

"(A) the purchaser or any assignee of the loan shall not diminish any substantive or procedural right of the borrower arising under this title;

"(B) upon any default of the borrower, the loan shall be assigned to the Secretary for the purpose of avoiding foreclosure; and

"(C) following any assignment under subparagraph (B) and before commencing any action to foreclose or otherwise dispossess the borrower, the Secretary shall afford the borrower all substantive and procedural rights arising under this title, including consideration for interest subsidy, moratorium, reamortization, refinancing, and appeal of any adverse decision to an impartial officer.".

(d) USE OF RURAL HOUSING INSURANCE FUND.—Section 517(j) of the Housing Act of 1949 is amended—

(1) by striking out "and" at the end of para-graph (4);

(2) by striking out the period at the end of paragraph (5) and inserting in lieu thereof "; and"; and

(3) by adding at the end thereof the following new paragraph:

"(6) to make payments and take other actions in accordance with agreements entered into under paragraphs (2) and (3) of subsection (d).".

(e) ELIGIBILITY FOR GUARANTEED LOANS.—Section 517 of the Housing Act of 1949 is amended by striking out subsection (n).

(f) REGULATIONS.—Section 517(o) of the Housing Act of 1949 is amended—

(1) by inserting "(1)" after the subsection designation; and

(2) by adding at the end thereof the following new paragraph:

"(2) Not later than the expiration of the 90-day period following the date of the enactment of the Housing Act of 1985, the Secretary shall issue regulations to facilitate the marketability in the secondary mortgage market of loans insured or guaranteed under this section. Such regulations shall ensure that such loans are competitive with other loans and mortgages insured or guaranteed by the Federal Government.".

SEC. 2210. DEFINITION OF RURAL AREA.

The last sentence of section 520 of the Housing Act of 1949 is amended by striking out "through" and inserting in lieu thereof the following: "until determined to no longer be such an area on the basis of data obtained in a decennial census conducted after".

SEC. 2211. RURAL HOUSING PRESERVATION GRANT PROGRAM.

Section 533(h) of the Housing Act of 1949 is amended—

(1) by inserting "(1)" after the subsection designation; and

(2) by adding at the end thereof the following new paragraph:

"(2) The Secretary shall, not later than the expiration of the 90-day period following the date of the enactment of the Housing Act of 1985, issue regulations to carry out the program of grants under subsection (a)(2).".

SEC. 2212. LIMITATION ON RESTRICTIONS ON TAX-EXEMPT FINANCING.

Title V of the Housing Act of 1949 is amended by adding at the end thereof the following new section:

"LIMITATION ON RESTRICTIONS ON TAX-EXEMPT FINANCING

"SEC. 536. In addition to the limitations established in section 817 of the Housing and Community Development Act of 1974, the Secretary may not issue any regulation or take any other action that may have the effect of prohibiting or preventing the issuance of tax-exempt bonds or other obligations to provide financing for use in connection with assistance provided under this title.".

SEC. 2213. TASK FORCE ON HOUSING NEEDS OF RURAL AMERICA.

(a) ESTABLISHMENT.—There hereby is established a task force to be known as the Task Force on Housing Needs in Rural America, which shall examine—

(1) the problems of supplying low and moderate income families in rural areas with adequate housing through existing Federal programs;

(2) the access to affordable credit for housing for low and moderate income families in rural areas;

(3) the availability of housing stock in rural areas suitable for rehabilitation;

(4) the feasibility of assisting low and moderate income families in rural areas with existing programs, new programs, or a combination of such programs; and

(5) the need for new construction and additional dwelling units for low and moderate income families in rural areas.

(b) MEMBERS.—

(1) The task force shall consist of not less than 8 members appointed by the Secretary of Agriculture as follows:

(A) 2 members appointed from persons who are officials of the Department of Agriculture;

(B) 2 members appointed from persons representative of for-profit and non-profit organizations and agencies engaged in housing development in rural areas;

(C) 2 members appointed from persons who reside in rural housing assisted under title V of the Housing Act of 1949; and

(D) 2 members appointed from persons who are representatives of units of general local government in rural areas.

(2) Each member of the task force shall serve without pay, allowances, or benefits by reason of such service. Each such member shall be reimbursed for actual expenses, including travel expenses, incurred in the course of performing the duties vested in the task force.

(c) MEETINGS.—The task force shall meet as necessary to carry out the purposes of this section, at the call of the Secretary.

(d) STAFF AND OFFICES.—The Secretary shall provide the task force with such staff and office facilities as the Secretary, following consultation with the task force, considers necessary to permit the task force to carry out its functions under this section.

(e) REPORT.—Not later than the expiration of the 1-year period following the date of the enactment of this Act, the task force shall submit to the Secretary and the Congress a report setting forth its findings as a result of its study under subsection (a). Such report shall include any recommendations of the task force for actions to resolve the problems identified in such study. The

task force shall cease to exist after filing such report.

(f) DEFINITIONS.—For purposes of this section:

(1) The term "rural area" has the meaning given such term in section 520 of the Housing Act of 1949.

(2) The term "Secretary" means the Secretary of Agriculture.

(3) The term "task force" means the Task Force on Housing Needs in Rural America established in subsection (a).

SEC. 2214. RURAL HOUSING TECHNICAL AMENDMENTS.

(a) DEFINITIONS.—Section 501(b)(3) of the Housing Act of 1949 is amended by striking out "is a developmentally disabled individual as defined in section 102(7) of the Development Disabilities Services and Facilities Construction Act" and inserting in lieu thereof the following: "has a developmental disability as defined in section 102(7) of the Developmental Disabilities Assistance and Bill of Rights Act (42 U.S.C. 6001(7))".

(b) FARM LABOR HOUSING.—Section 514(f)(1) of the Housing Act of 1949 is amended by striking out "and" at the end thereof.

(c) HOUSING FOR ELDERLY FAMILIES.—Section 515(o)(1) of the Housing Act of 1949 is amended by striking out "effective".

(d) LOANS TO LOW- AND MODERATE-INCOME FAMILIES.—Section 521(a)(1)(A) of the Housing Act of 1949 is amended by striking out ", except" and all that follows through "charges".

(e) HOUSING FOR RURAL TRAINEES.—Section 522(a) of the Housing Act of 1949 is amended by striking out the comma after "Health".

(f) CONDOMINIUM HOUSING.—

(1) Section 526(a) of the Housing Act of 1949 is amended by striking out "and" the first place it appears.

(2) Section 526(c) of the Housing Act of 1949 is amended by striking out "and" the first place it appears.

(g) HOUSING PRESERVATION GRANTS.—

(1) Section 533(e)(1)(B)(iii) of the Housing Act of 1949 is amended by inserting "to" before "refuse".

(2) Section 533(g) of the Housing Act of 1949 is amended by striking out "persons of low income and very low-income" and inserting in lieu thereof "low income families or persons and very low-income families or persons".

Subtitle C—Program Amendments and Extensions

PART 1—FEDERAL HOUSING ADMINISTRATION MORTGAGE INSURANCE PROGRAMS

SEC. 2301. EXTENSION OF FEDERAL HOUSING ADMINISTRATION MORTGAGE INSURANCE PROGRAMS.

(a) TITLE I INSURANCE.—Section 2(a) of the National Housing Act is amended by striking out "October 1, 1985" in the first sentence and inserting in lieu thereof "October 1, 1986".

(b) GENERAL INSURANCE.—Section 217 of the National Housing Act is amended by striking out "September 30, 1985" and inserting in lieu thereof "September 30, 1986".

(c) LOW AND MODERATE INCOME HOUSING INSURANCE.—Section 221(f) of the National Housing Act is amended by striking out "September 30, 1985" in the fifth sentence and inserting in lieu thereof "September 30, 1986".

(d) CO-INSURANCE.—

(1) Section 244(d) of the National Housing Act is amended by striking out "September 30, 1985" and inserting in lieu thereof "September 30, 1986".

(2) Section 244(h) of the National Housing Act is amended by striking out "October 1, 1985" in the last sentence and inserting in lieu thereof "October 1, 1986".

(e) GRADUATED PAYMENT AND INDEXED MORTGAGE INSURANCE.—Section 245(a) of the National Housing Act is amended by striking out "September 30, 1985" in the last sentence and inserting in lieu thereof "September 30, 1986".

(f) ARMED SERVICES HOUSING INSURANCE.—

(1) Section 809(f) of the National Housing Act is amended by striking out "September 30, 1985" in the last sentence and inserting in lieu thereof "September 30, 1986".

(2) Section 810(k) of the National Housing Act is amended by striking out "September 30, 1985" in the last sentence and inserting in lieu thereof "September 30, 1986".

(g) LAND DEVELOPMENT INSURANCE.—Section 1002(a) of the National Housing Act is amended by striking out "September 30, 1985" in the last sentence and inserting in lieu thereof "September 30, 1986".

(h) GROUP PRACTICE FACILITIES INSURANCE.—Section 1101(a) of the National Housing Act is amended by striking out "September 30, 1985" in the last sentence and inserting in lieu thereof "September 30, 1986".

SEC. 2302. AMOUNT TO BE INSURED UNDER NATIONAL HOUSING ACT.

Section 531 of the National Housing Act is amended by striking out "and 1985" and inserting in lieu thereof the following: ", 1985, and 1986".

SEC. 2303. NEGOTIATED INTEREST RATES ON MORTGAGES INSURED BY FEDERAL HOUSING ADMINISTRATION.

(a) NURSING HOME FIRE SAFETY EQUIPMENT INSURANCE.—Section 232(i)(2)(B) of the National Housing Act is amended to read as follows:

"(B) bear interest at such rate as may be agreed upon by the mortgagor and the mortgagee;".

(b) ARMED SERVICES HOUSING INSURANCE.—The first sentence of section 810(h) of the National Housing Act is amended—

(1) by striking out "(exclusive of" and all that follows through "207" and inserting in lieu thereof the following: "at such rate as may be agreed upon by the mortgagor and the mortgagee"; and

(2) by striking out before the period at the end thereof the following: ", and shall bear interest at not to exceed the rate applicable to mortgages insured under section 203".

SEC. 2304. STUDY OF VOLUNTARY STANDARDS FOR MODULAR HOMES.

(a) IN GENERAL.—In order to facilitate the construction of less costly housing, the Secretary of Housing and Urban Development shall prepare and submit to the Congress not later than 6 months after the date of the enactment of this Act a report describing feasible alternative systems for implementing a voluntary preemptive national code for modular housing, including the method for inspecting the structures to ensure compliance with the recommended code. Such code shall provide for the development of modular housing standards for construction, design, and performance that ensure quality, durability, and safety and are in accordance with life-cycle cost-effective energy conservation standards established by the Secretary of Housing and Urban Development and designed to ensure the lowest total construction and operating costs over the estimated life of such housing.

(b) DEFINITION.—For purposes of this section, the term "modular housing" means factory-built single-family housing not subject to the requirements of the National Manufactured Housing Construction and Safety Standards Act of 1974.

SEC. 2305. LIMITATION ON CERTAIN PREMIUM CHARGES.

Section 530 of the National Housing Act is amended—

(1) by inserting "(a)" after the section designation; and

(2) by adding at the end thereof the following new subsection:

"(b) Notwithstanding any other provisions of this Act, no loan or mortgage insurance premium charge pursuant to subsection (a)(1) may exceed 3.8 percent of the principal obligation of the loan or mortgage involved.".

SEC. 2306. MORTGAGES ON HAWAIIAN HOME LANDS AND INDIAN LANDS TO BE OBLIGATIONS OF GENERAL INSURANCE FUND.

(a) MORTGAGES ON HAWAIIAN HOME LANDS.—Section 247 of the National Housing Act is amended by adding at the end thereof the following new subsection:

"(d) Notwithstanding any other provision of this Act, the insurance of a mortgage using the authority contained in this section shall be the obligation of the General Insurance Fund created pursuant to section 519 of this Act. The mortgagee shall be eligible to receive the benefits of insurance as provided in section 204 of this Act with respect to mortgages insured pursuant to this section, except that all references in section 204 to the Mutual Mortgage Insurance Fund or the Fund shall be construed to refer to the General Insurance Fund, and all references in section 204 to section 203 shall be construed to refer to the section under which the mortgage is insured.".

(b) MORTGAGES ON INDIAN RESERVATIONS.—Section 248 of the National Housing Act is amended—

(1) by redesignating subsections (f), (g), and (h) as subsections (g), (h), and (i), respectively;

(2) by inserting after subsection (e) the following new subsection:

"(f) Notwithstanding any other provision of this Act, the insurance of a mortgage using the authority contained in this section shall be the obligation of the General Insurance Fund created pursuant to section 519 of this Act. The mortgagee shall be eligible to receive the benefits of insurance as provided in section 204 of this Act with respect to mortgages insured pursuant to this section, except that all references in section 204 to the Mutual Mortgage Insurance Fund or the Fund shall be construed to refer to the General Insurance Fund, and all references in section 204 to section 203 shall be construed to refer to the section under which the mortgage is insured."; and

(3) in the last sentence of subsection (g)(3) and the first sentence of subsection (g)(5), as so redesignated by paragraph (1), by striking out "insurance fund" each place it appears and inserting in lieu thereof "General Insurance Fund".

SEC. 2307. REPEAL OF REQUIREMENT TO PUBLISH PROTOTYPE HOUSING COSTS FOR 1- TO 4-FAMILY DWELLING UNITS.

The Housing and Community Development Act of 1977 is amended by striking out section 904.

SEC. 2308. AUTHORITY FOR INCREASED MORTGAGE LIMITS FOR MULTIFAMILY PROJECTS IN HIGH-COST AREAS.

Section 207(c)(3), the second proviso of section 213(b)(2), the first proviso of section 220(d)(3)(B)(iii), section 221(d)(3)(ii), section 221(d)(4)(ii), section 231(c)(2) and sec-

tion 234(e)(3) of the National Housing Act are each amended by striking out "not to exceed 75 per centum" and all that follows through "involved) in such an area" and inserting in lieu thereof the following: "not to exceed 110 percent in any geographical area where the Secretary finds that cost levels so require and by not to exceed 140 percent where the Secretary determines it necessary on a project-by-project basis, but in no case may any such increase exceed 90 percent where the Secretary determines that a mortgage purchased or to be purchased by the Government National Mortgage Association in implementing its special assistance functions under section 305 of this Act (as such section existed immediately before November 30, 1983) is involved".

SEC. 2309. PERMISSIBLE ANNUAL INTEREST RATE ADJUSTMENT FOR ADJUSTABLE RATE MORTGAGES.

The last sentence of section 251(a) of the National Housing Act is amended by striking out "1 percent" and inserting in lieu thereof "2 percent".

SEC. 2310. DOUBLE DAMAGES REMEDY FOR UNAUTHORIZED USE OF MULTIFAMILY HOUSING PROJECT ASSETS AND INCOME.

(a) ACTION TO RECOVER ASSETS OR INCOME.—

(1) The Secretary of Housing and Urban Development (hereafter referred to in this section as the "Secretary") may request the Attorney General to bring an action in a United States district court to recover any assets or income used by any person in violation of (A) a regulatory agreement that applies to a multifamily project whose mortgage is insured or held by the Secretary under title II of the National Housing Act; or (B) any applicable regulation. For purposes of this section, a use of assets or income in violation of the regulatory agreement or any applicable regulation shall include any use for which the documentation in the books and accounts does not establish that the use was made for a reasonable operating expense or necessary repair of the project and has not been maintained in accordance with the requirements of the Secretary and in reasonable condition for proper audit.

(2) For purposes of a mortgage insured or held by the Secretary under title II of the National Housing Act, the term "any person" shall mean any person or entity which owns a project, as identified in the regulatory agreement, including but not limited to any stockholder holding 25 percent or more interest of a corporation that owns the project; any beneficial owner under any business or trust; any officer, director, or partner of an entity owning the project; and any heir, assignee, successor in interest, or agent of any owner.

(b) INITIATION OF PROCEEDINGS AND TEMPORARY RELIEF.—The Attorney General, upon request of the Secretary, shall have the exclusive authority to authorize the initiation of proceedings under this section. Pending final resolution of any action under this section, the court may grant appropriate temporary or preliminary relief, including restraining orders, injunctions, and acceptance of satisfactory performance bonds, to protect the interests of the Secretary and to prevent use of assets or income in violation of the regulatory agreement and any applicable regulation and to prevent loss of value of the realty and personalty involved.

(c) AMOUNT RECOVERABLE.—In any judgment favorable to the United States entered under this section, the Attorney General may recover double the value of the assets and income of the project that the court determines to have been used in violation of the regulatory agreement or any applicable regulation, plus all costs relating to the action, including but not limited to reasonable attorney and auditing fees. Notwithstanding any other provision of law, the Secretary may apply the recovery, or any portion of the recovery, to the project or to the applicable insurance fund under the National Housing Act.

(d) TIME LIMITATION.—Notwithstanding any other statute of limitations, the Secretary may request the Attorney General to bring an action under this section at any time up to and including 6 years after the latest date that the Secretary discovers any use of project assets and income in violation of the regulatory agreement or any applicable regulation.

(e) CONTINUED AVAILABILITY OF OTHER REMEDIES.—The remedy provided by this section is in addition to any other remedies available to the Secretary or the United States.

SEC. 2311. ADMINISTRATIVE IMPROVEMENTS IN SINGLE-FAMILY MORTGAGE INSURANCE PROGRAM.

The National Housing Act is amended by inserting after section 532 the following new section:

"ADMINISTRATIVE IMPROVEMENTS IN MORTGAGE INSURANCE PROGRAM

"SEC. 533. (a) ANNUAL REPORT.—The Secretary shall annually prepare and submit to the Congress a comprehensive report regarding the non-subsidized single-family mortgage insurance programs carried out by the Secretary under title II in metropolitan cities and urban counties. Each such report shall describe the types of dwellings insured, the individual income eligibility, the delinquency in foreclosure rates, the condition of the dwellings, and the status of the homeowners (including whether such homeowners are first-time homeowners or single-parent families). Each such report shall be made available to the public in all regional and local offices of the Secretary.

"(b) SPECIAL OVERSIGHT.—The Secretary shall establish procedures to analyze in detail and conduct scrutinized oversight of the single-family mortgage insurance operations of the Department of Housing and Urban Development under title II, with specific attention to Milwaukee, Camden, and other cities having recent single-family mortgage foreclosure difficulties.

"(c) FEE APPRAISAL STANDARDS.—The Secretary shall review the fee appraisal standards used under title II with respect to single-family dwellings, and shall develop a higher standard of appraisal with respect to such dwellings for fee appraisers in predominately low and moderate income neighborhoods.

"(d) FEE APPRAISERS.—The Secretary may not use the services of fee appraisers who are not employees of the Federal Housing Administration for purposes of appraising single-family dwellings subject to mortgages insured under title II and located in any metropolitan city or urban county.

"(e) COORDINATION OF ACTIVITIES WITH PUBLIC HOUSING AGENCIES AND COMMUNITY GROUPS.—The Secretary shall require each regional and local office of the Department of Housing and Urban Development to provide on a priority basis, to public housing agencies and community advocacy groups located within the area of its jurisdiction, adequate and timely information regarding the single-family mortgage insurance activities of such office under title II.

"(f) PUBLICIZING OF AVAILABILITY OF MORTGAGE INSURANCE.—The Secretary shall take such actions as may be necessary, including improved marketing and advertising practices, to publicize the availability of single-family mortgage insurance under title II.".

SEC. 2312. REFINANCING MORTGAGE INSURANCE FOR HOSPITALS, NURSING HOMES, INTERMEDIATE CARE FACILITIES, AND BOARD AND CARE HOMES.

(a) STATE CERTIFICATION REQUIREMENT.—Section 223(f)(4)(D) of the National Housing Act is amended to read as follows:

"(D) such existing hospital has received such certification from the State in which the hospital is located as is comparable to the certification required for hospitals under section 242.".

(b) REFINANCING INSURANCE FOR NURSING HOMES, INTERMEDIATE CARE FACILITIES, AND BOARD AND CARE HOMES.—Section 223(f) of the National Housing Act, as amended by subsection (a), is amended—

(1) in paragraph (1), by inserting after "existing hospital" the following: ", existing nursing home, existing intermediate care facility, or existing board and care home"; and

(2) in paragraph (4)—

(A) by inserting after "existing hospital" each place it appears the following: ", existing nursing home, existing intermediate care facility, or existing board and care home";

(B) by inserting after "the hospital" the following: ", nursing home, intermediate care facility, or board and care home"; and

(C) by inserting after "section 242" the following: "or for nursing homes, intermediate care facilities, or board and care homes insured under section 232, as the case may be".

(c) REGULATIONS.—The Secretary of Housing and Urban Development shall issue such regulations as may be necessary to carry out the amendments made by this section by not later than the expiration of the 90-day period following the date of the enactment of this Act.

SEC. 2313. MORTGAGE INSURANCE FOR NURSING HOMES, INTERMEDIATE CARE FACILITIES, AND BOARD AND CARE HOMES.

(a) INSURANCE FOR PUBLIC NURSING HOMES.—Section 232(b)(1) of the National Housing Act is amended by inserting "public facility," before "proprietary".

(b) REQUIREMENT OF STATE APPROVAL.—Section 232(d)(4)(A) of the National Housing Act is amended by striking out "(i)" and all that follows through "(ii)" and inserting in lieu thereof the following: "(i) the facility has received such approval as the State in which the facility is located requires for the facility, and (ii)".

(c) REGULATIONS.—The Secretary of Housing and Urban Development shall issue such regulations as may be necessary to carry out the amendments made by this section by not later than the expiration of the 90-day period following the date of the enactment of this Act.

SEC. 2314. REQUIREMENT OF STATE APPROVAL FOR MORTGAGE INSURANCE FOR HOSPITALS.

(a) IN GENERAL.—Section 242(d)(4) of the National Housing Act is amended by striking out "(A)" and all that follows through "(B)" and inserting in lieu thereof the following: "(A) the facility has received such approval as the State in which the facility is located requires for the facility, and (B)".

(b) REGULATIONS.—The Secretary of Housing and Urban Development shall issue such regulations as may be necessary to carry out the amendment made by this section by not

later than the expiration of the 90-day period following the date of the enactment of this Act.

SEC. 2315. MORTGAGE INSURANCE TECHNICAL AMENDMENTS.

(a) ADMINISTRATIVE PROVISIONS.—The second sentence of section 1 of the National Housing Act is amended by striking out the last comma.

(b) APPLICABILITY.—Section 9 of the National Housing Act is amended by inserting the following section heading:

"APPLICABILITY"

(c) CO-INSURANCE.—Section 244(h) of the National Housing Act is amended by striking out "coinsurance" each place it appears and inserting in lieu thereof "co-insurance".

(d) INSURANCE ON HAWAIIAN HOME LANDS.—Section 247(a)(2) of the National Housing Act is amended by striking out "Mortgagor" and inserting in lieu thereof "mortgagor".

PART 2—FLOOD AND CRIME INSURANCE PROGRAMS

SEC. 2321. FLOOD INSURANCE.

(a) GENERAL AUTHORITY.—Section 1319 of the National Flood Insurance Act of 1968 is amended by striking out "September 30, 1985" and inserting in lieu thereof "September 30, 1986".

(b) EMERGENCY IMPLEMENTATION.—Section 1336(a) of the National Flood Insurance Act of 1968 is amended by striking out "September 30, 1985" and inserting in lieu thereof "September 30, 1986".

(c) AUTHORIZATION OF APPROPRIATIONS FOR STUDIES.—Section 1376(c) of the National Flood Insurance Act of 1968 is amended to read as follows:

"(c) There are authorized to be appropriated for studies under this title $36,902,000 for fiscal year 1986. Any amount appropriated under this subsection shall remain available until expended.".

(d) FLOOD INSURANCE PREMIUMS.—The premium rates charges for flood insurance under any program established pursuant to the National Flood Insurance Act of 1968 may not be increased during the period beginning on the date of the enactment of this Act and ending on September 30, 1986.

(e) PREMIUM RATES FOR COMMUNITY MAKING ADEQUATE PROGRESS.—For purposes of the determination of premium rates under the National Flood Insurance Act of 1968, the flood protection system in Winfield, in the State of Kansas, shall be considered to comply with the requirements and conditions of section 1307(e) of such Act.

SEC. 2322. CRIME INSURANCE.

(a) GENERAL AUTHORITY.—Section 1201(b)(1) of the National Housing Act is amended in the matter preceding subparagraph (A)—

(1) by striking out "parts A, C, and D" and inserting in lieu thereof "part A"; and

(2) by inserting after "1985," the following: "and parts C and D shall terminate on September 30, 1986,".

(b) CONTINUATION OF EXISTING CONTRACTS.—Section 1201(b)(1)(A) of the National Housing Act is amended by striking out "September 30, 1986" and inserting in lieu thereof "September 30, 1987".

(c) CRIME INSURANCE PREMIUMS.—The premium rates charged for crime insurance under any program established pursuant to part C of title XII of the National Housing Act may not be increased during the period beginning on the date of the enactment of this Act and ending on September 30, 1986.

SEC. 2323. FLOOD AND CRIME INSURANCE TECHNICAL AMENDMENTS.

(a) CRIME INSURANCE PROGRAM AUTHORITY.—Section 1201(b) of the National Housing Act is amended—

(1) by striking out paragraphs (2) and (3);

(2) by striking out "(b)(1)" and inserting in lieu thereof "(b)"; and

(3) by redesignating subparagraphs (A) through (C) as paragraphs (1) through (3), respectively.

(b) REINSURANCE AGREEMENTS.—Section 1222(c) of the National Housing Act is amended by striking out "section 3679(a) of the Revised Statutes of the United States (31 U.S.C. 665(a))," and inserting in lieu thereof "section 1341(a) of title 31, United States Code,".

(c) NATIONAL INSURANCE DEVELOPMENT FUND.—Section 1243(d) of the National Housing Act is amended by striking out "by law (sections 102, 103, and 104 of the Government Corporation Control Act (31 U.S.C. 847-849))" and inserting in lieu thereof "by sections 9103 and 9104 of title 31, United States Code,".

(d) NATIONAL FLOOD INSURANCE FUND.—Section 1310(e) of the National Flood Insurance Act of 1968 is amended by inserting a comma after "Code".

(e) FEMA TREASURY BORROWINGS.—The third sentence of section 15(e) of the Federal Flood Insurance Act of 1956 is amended by inserting a comma after "Code".

PART 3—SECONDARY MORTGAGE MARKET PROGRAMS

SEC. 2341. GOVERNMENT NATIONAL MORTGAGE ASSOCIATION MORTGAGE-BACKED SECURITIES PROGRAM.

Section 306(g)(2) of the Federal National Mortgage Association Charter Act is amended by striking out "and 1985" and inserting in lieu thereof the following: ", 1985, and 1986".

SEC. 2342. PROHIBITION OF CERTAIN FEES.

(a) FEDERAL NATIONAL MORTGAGE ASSOCIATION.—Section 304 of the Federal National Mortgage Association Charter Act is amended by adding at the end thereof the following new subsection:

"(f) Except for fees paid pursuant to section 309(g), no fee or charge may be assessed or collected by the United States (including any executive department, agency, or independent establishment of the United States) on or with regard to the purchase, acquisition, sale, pledge, issuance, guarantee, or redemption of any mortgage, asset, obligation, trust certificate of beneficial interest, or other security by the corporation. No provision of this subsection shall affect the purchase of any obligation by the Secretary of the Treasury pursuant to subsection (c).".

(b) GOVERNMENT NATIONAL MORTGAGE ASSOCIATION.—Section 306(g) of Federal National Mortgage Association Charter Act is amended by adding at the end thereof the following new paragraph:

"(3) No fee or charge may be assessed or collected by the United States (including any executive department, agency, or independent establishment of the United States) on or with regard to any guarantee under this subsection, unless such fee or charge is not more than the applicable percentage amount in effect on June 1, 1985.".

(c) FEDERAL HOME LOAN MORTGAGE CORPORATION.—Section 306 of the Federal Home Loan Mortgage Corporation Act is amended by adding at the end thereof the following new subsection:

"(i) Except for fees paid pursuant to section 303(c), no fee or charge may be assessed or collected by the United States (including any executive department, agency, or independent establishment of the United States) on or with regard to the purchase, acquisition, sale, pledge, issuance, guarantee, or redemption of any mortgage, asset, obligation, or other security by the Corporation.".

SEC. 2343. SECONDARY MORTGAGE MARKET TECHNICAL AMENDMENTS.

Section 482 of the Housing and Urban-Rural Recovery Act of 1983 is amended by striking out "such Act" and inserting in lieu thereof "the National Housing Act".

PART 4—REGULATORY AND OTHER PROGRAMS

SEC. 2361. SOLAR ENERGY AND ENERGY CONSERVATION BANK.

Section 522(a) of the Solar Energy and Energy Conservation Bank Act is amended by inserting before the period at the end thereof the following: "and $15,000,000 for fiscal year 1986".

SEC. 2362. COUNSELING.

Section 106(a)(3) of the Housing and Urban Development Act of 1968 is amended by inserting before the period in the first sentence the following: ", and for fiscal year 1986 there is authorized to be appropriated not to exceed $4,000,000 for such purposes".

SEC. 2363. HOME MORTGAGE DISCLOSURE.

(a) APPLICABILITY TO MORTGAGE BANKING AFFILIATES.—

(1) Section 303(2) of the Home Mortgage Disclosure Act of 1975 is amended—

(A) by striking out "or" the first place it appears; and

(B) by inserting before the semicolon at the end thereof the following: ", mortgage banking subsidiary of a bank holding company or savings and loan holding company, or savings and loan service corporation that originates or purchases mortgage loans".

(2) Section 304 of the Home Mortgage Disclosure Act of 1975 is amended by adding at the end thereof the following new subsection:

"(g) The requirements of subsections (a) and (b) shall not apply with respect to mortgage loans that are—

"(1) made by any mortgage banking subsidiary of a bank holding company or savings and loan holding company or by any savings and loan service corporation that originates or purchases mortgage loans; and

"(2) approved by the Secretary for insurance under title I or II of the National Housing Act.".

(3) The first sentence of section 311 of the Home Mortgage Disclosure Act of 1975 is amended by inserting after "306(b)" the following: "(and for each mortgagee making mortgage loans exempted under section 304(g))".

(4) The amendments made by this subsection shall be applicable to calendar years beginning after December 31, 1985.

(b) RECORDS ON MORTGAGE LOANS SECURED BY PROPERTY OUTSIDE METROPOLITAN STATISTICAL AREAS.—Section 304(a)(2)(B) of the Home Mortgage Disclosure Act of 1975 is amended by inserting ", by State," after "paragraph (1)".

(c) AVAILABILITY OF DISCLOSURE STATEMENTS.—Section 304(f) of the Home Mortgage Disclosure Act of 1975 is amended by adding at the end thereof the following new sentence: "Disclosure statements shall be made available to the public at such central depository of data not later than June 1 of the year following the calendar year on which the statements are based.".

(d) EXTENSION OF GENERAL AUTHORITY.—The Home Mortgage Disclosure Act of 1975 is amended by striking out section 312.

(e) STUDY OF DATA COLLECTION REQUIREMENTS.—

(1) The Federal Financial Institutions Examination Council shall conduct a study to assess the following:

(A) the estimated cost incurred by depository institutions for the preparation and dissemination of disclosure reports pursuant to the requirements of the Home Mortgage Disclosure Act of 1975, based upon the results an independent analysis of the actual costs incurred by a representative sample of such institutions located in at least 3 and not more than 6 metropolitan statistical areas;

(B) the estimated usage of the data available to the public pursuant to the Home Mortgage Disclosure Act of 1975, based upon the results of a survey of both direct and indirect usage of such data over a 12-month period following the date of the enactment of this Act; and

(C) the obstacles to the usage by the public of the data made available pursuant to the Home Mortgage Disclosure Act of 1975 and recommendations for action to be taken by the Federal financial institutions regulatory agencies to increase public awareness about the availability of such data.

(2) The Council shall submit a report on the results of such a study to the Congress not later than 36 months following the date of the enactment of this Act.

SEC. 2364. RESEARCH AUTHORIZATION.

The second sentence of section 501 of the Housing and Urban Development Act of 1970 is amended—

(1) by striking out "and" the last place it appears; and

(2) by inserting before the period at the end thereof the following: ", and $17,000,000 for fiscal year 1986".

SEC. 2365. TIMELY PAYMENT OF SUBCONTRACTORS.

It is the policy of the United States that each prime contractor of the Department of Housing and Urban Development should establish procedures to ensure the timely payment of amounts due pursuant to the terms of the subcontracts of such prime contractor.

SEC. 2366. MEDIAN AREA INCOME.

For purposes of calculating the median income for any area that is not within a metropolitan statistical area (as established by the Office of Management and Budget) for programs under title I of the Housing and Community Development Act of 1974, the United States Housing Act of 1937, the National Housing Act, or title V of the Housing Act of 1949, the Secretary of Housing and Urban Development or the Secretary of Agriculture (as appropriate) shall use whichever of the following is higher:

(1) the median income of the county in which the area is located; or

(2) the median income of the entire nonmetropolitan area of the State.

SEC. 2367. MANUFACTURED HOUSING CONSTRUCTION AND SAFETY STANDARDS.

Not later than the expiration of the 6-month period following the date of the enactment of this Act, the Secretary of Housing and Urban Development shall submit to the Congress a detailed report describing the fees collected by the Secretary during the 4-year period preceding the date of the enactment of this Act in connection with inspection of manufactured homes under section 614 of the National Manufactured Housing Construction and Safety Standards Act of 1974. Such report shall include the amount of such fees collected, the allocation of expenses, the costs of the program, and any available reserves.

SEC. 2368. REMOVAL OF MAXIMUM FEE FOR INTERSTATE LAND SALES REGISTRATION.

Section 1405(b) of the Interstate Land Sales Full Disclosure Act is amended by striking out "a fee, not in excess of $1,000" and inserting in lieu thereof "a reasonable fee".

SEC. 2369. PREVENTING FRAUD AND ABUSE IN DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT PROGRAMS.

(a) DISCLOSURE OF SOCIAL SECURITY ACCOUNT NUMBER.—As a condition of initial or continuing eligibility for participation in any program of the Department of Housing and Urban Development involving loans, grants, interest or rental assistance of any kind, or mortgage or loan insurance, and to ensure that the level of benefits provided under such programs is proper, the Secretary may require that an applicant or participant (including members of the household of an applicant or participant) disclose his or her social security account number or employer identification number to the Secretary.

(b) VERIFICATION OF INFORMATION.—As a condition of initial or continuing eligibility for participation in any program of the Department of Housing and Urban Development involving initial and periodic review of the income of an applicant or participant, and to ensure that the level of benefits provided under such programs is proper, the Secretary may require that an applicant or participant (including members of the household of an applicant or participant) sign a consent form approved by the Secretary authorizing (1) the Secretary, or the public housing agency or owner responsible for determining eligibility or level of benefits, to verify the information furnished by the applicant or participant, and (2) any Federal, State, or local agency or private person or entity to release information related to the determination of eligibility and benefit level. The information may include, but is not limited to, data concerning wages (not including return information as defined in section 6103(b)(2) of title 26, United States Code), unemployment compensation, benefits made available under the Social Security Act, and veterans benefits under title 38, United States Code. Any individually identifiable information received by the Secretary under this section shall be subject to the requirements of section 552a of title 5, United States Code. An applicant or participant shall have the right to obtain, examine, and correct any information that the Secretary, public housing agency, or owner responsible for determining eligibility or level of benefits has received under this section before the Secretary, public housing agency, or owner takes any action on the basis of such information, unless a criminal investigation is pending. An applicant or participant shall also have the right to file a statement disputing or augmenting any such information and to have such statement included in any records of such information.

(c) DEFINITIONS.—For purposes of this section:

(1) The terms "applicant" and "participant" shall have such meanings as the Secretary by regulation shall prescribe. Such terms shall not include persons whose involvement is only in their official capacity, such as State or local government officials or officers of lending institutions.

(2) The term "public housing agency" means any agency described in section 3(b)(6) of the United States Housing Act of 1937.

(3) The term "Secretary" means the Secretary of Housing and Urban Development.

SEC. 2370. FAIR HOUSING INITIATIVES PROGRAM.

(a) IN GENERAL.—The Secretary of Housing and Urban Development (hereafter referred to in this section as the "Secretary") may make grants to, or enter into contracts or cooperative agreements with, State or local governments or their agencies, public or private nonprofit organizations or institutions, or other public or private entities that are formulating or carrying out programs to prevent or eliminate discriminatory housing practices, to develop, implement, carry out, or coordinate—

(1) programs or activities designed to obtain enforcement of the rights granted by title VIII of the Act of April 11, 1968 (commonly referred to as the Civil Rights Act of 1968), or by State or local laws that provide rights and remedies for alleged discriminatory housing practices that are substantially equivalent to the rights and remedies provided in such title VIII, through such appropriate judicial or administrative proceedings (including informal methods of conference, conciliation, and persuasion) as are available therefor; and

(2) education and outreach programs designed to inform the public concerning rights and obligations under the laws referred to in paragraph (1).

(b) PROGRAM ADMINISTRATION.—

(1) Not less than 30 days before providing a grant or entering into any contract or cooperative agreement to carry out activities authorized by this section, the Secretary shall submit notification of such proposed grant, contract, or cooperative agreement (including a description of the geographical distribution of such contracts) to the Committee on Banking, Housing, and Urban Affairs of the Senate and the Committee on Banking, Finance and Urban Affairs of the House of Representatives.

(2) The Secretary shall provide to the Committee on Banking, Housing, and Urban Affairs of the Senate and the Committee on Banking, Finance and Urban Affairs of the House of Representatives a quarterly report that summarizes the activities funded under this section and describes the geographical distribution of grants, contracts, or cooperative agreements funded under this section.

(c) REGULATIONS.—

(1) The Secretary shall issue such regulations as may be necessary to carry out the provisions of this section.

(2) Such regulations shall include provisions governing applications for assistance under this section, and shall require each such application to contain—

(A) a description of the assisted activities proposed to be undertaken by the applicant, together with the estimated costs and schedule for completion of such activities;

(B) a description of the experience of the applicant in formulating or carrying out programs to prevent or eliminate discriminatory housing practices;

(C) available information, including studies made by or available to the applicant, indicating the nature and extent of discriminatory housing practices occurring in the general location where the applicant proposes to conduct its assisted activities, and the relationship of such activities to such practices;

(D) an estimate of such other public or private resources as may be available to assist the proposed activities;

(E) a description of proposed procedures to be used by the applicant for monitoring conduct and evaluating results of the proposed activities; and

(F) any additional information required by the Secretary.

(3) Regulations issued under this subsection shall not become effective prior to the expiration of 90 days after the Secretary transmits such regulations, in the form such regulations are intended to be published, to the Committee on Banking, Housing, and Urban Affairs of the Senate and the Committee on Banking, Finance and Urban Affairs of the House of Representatives.

(4) The Secretary shall not obligate or expend any amount under this section before the effective date of the regulations required under this subsection.

(d) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to carry out the provisions of this section, including any program evaluations, $10,000,000 for fiscal year 1986. Any amounts appropriated under this section shall remain available until expended.

SEC. 2371. LEAD-BASED PAINT POISONING PREVENTION.

(a) LEAD-BASED PAINT POISONING PREVENTION PROCEDURES.—Section 302 of the Lead-Based Paint Poisoning Prevention Act is amended—

(1) in clause (1) of the second sentence, by inserting after "exposed" the following: ", including intact lead-based paint on the interior and exterior surfaces of such housing";

(2) by striking out the third sentence;

(3) by inserting "(a)" after the section designation; and

(4) by adding at the end thereof the following new subsections:

"(b) The Secretary shall make a periodic determination of whether housing constructed during or after 1950 presents hazards of lead-based paint. The Secretary shall apply the procedures established under this section to housing constructed during or after 1950 if such housing presents immediate hazards of lead-based paint.

"(c) The Secretary shall take such actions as may be necessary to ensure that each public housing agency owning or operating housing assisted under the United States Housing Act of 1937 complies with the procedures established by the Secretary under this section.".

(b) REGULATIONS.—Not later than the expiration of the 90-day period following the date of the enactment of this Act, the Secretary of Housing and Urban Development shall issue such regulations as may be necessary to carry out the amendments made by this section.

SEC. 2372. REGULATORY AND OTHER PROGRAMS TECHNICAL AMENDMENTS.

(a) HUD ADMINISTRATIVE PROVISIONS.—

(1) Section 502(a) of the Housing Act of 1948 is amended by striking out the fourth sentence.

(2) Section 502(b) of the Housing Act of 1948 is amended—

(A) by striking out "United States Housing Authority" each place it appears and inserting in lieu thereof "Secretary of Housing and Urban Development"; and

(B) by striking out "the Authority" each place it appears and inserting in lieu thereof "the Secretary of Housing and Urban Development".

(3) Section 502(c)(2) of the Housing Act of 1948 is amended by adding "and" at the end thereof.

(b) ANNUAL REPORT OF SECRETARY.—Section 802 of the Housing Act of 1954 is amended by inserting the following section heading:

"ANNUAL REPORT OF SECRETARY".

(c) ENERGY CONSERVATION IN NEW BUILDINGS.—Section 303(11) of the Energy Conservation Standards for New Buildings Act of 1976 is amended by striking out "Secretary of Housing and Urban Development" and inserting in lieu thereof "Secretary of Energy".

(d) WEATHERIZATION ASSISTANCE.—Section 412(9)(G) of the Energy Conservation in Existing Buildings Act of 1976 is amended by striking out the first comma after "determine".

(e) SOLAR ENERGY AND ENERGY CONSERVATION BANK.—Sections 506(f)(1), 509(b)(2)(E), 515(b)(1)(A)(iii), 515(b)(1)(B), 515(b)(1)(C)(ii), 515(b)(1)(D), and 515(b)(2) of the Solar Energy and Energy Conservation Bank Act are amended by striking out "38" and "44C" each place they appear and inserting in lieu thereof "23" and "38", respectively.

(f) NATIONAL INSTITUTE OF BUILDING SCIENCES.—Section 809(g)(4) of the Housing and Community Development Act of 1974 is amended by striking out "and its" and inserting in lieu thereof "of its".

PART 5—COMMUNITY AND NEIGHBORHOOD DEVELOPMENT AND CONSERVATION PROGRAMS

SEC. 2381. COMMUNITY DEVELOPMENT BLOCK GRANT METROPOLITAN CITY AND URBAN COUNTY CLASSIFICATIONS.

(a) CENTRAL CITIES.—Section 102(a)(4) of the Housing and Community Development Act of 1974 is amended by adding at the end thereof the following new sentence: "Any city classified as a metropolitan city under clause (A) of the first sentence for purposes of assistance under any section of this title shall retain such classification until such city is determined to no longer qualify as a metropolitan city on the basis of data obtained in a decennial census conducted after the end of fiscal year 1985.".

(b) OTHER CITIES.—Section 102(a)(4) of the Housing and Community Development Act of 1974, as amended by subsection (a), is amended by adding at the end thereof the following new sentence: "Any city classified as a metropolitan city under clause (B) of the first sentence for purposes of assistance under any section of this title shall retain such classification notwithstanding a decrease in population below 50,000 if the population of such city is not measured by 2 consecutive decennial censuses (including the 1980 census) to be below 50,000.".

(c) URBAN COUNTIES.—Section 102(a)(6) of the Housing and Community Development Act of 1974 is amended by inserting before the period at the end of the first sentence the following: ", or (D) has a current population in excess of 177,000, with more than 50 percent of the housing units of the area unsewered and with the unsewered housing units contributing to the degradation of an aquifer that has been declared a sole source aquifer by the Environmental Protection Agency".

SEC. 2382. STATEMENT OF ACTIVITIES AND REVIEW.

Section 104(a)(1) of the Housing and Community Development Act of 1974 is amended by striking out the last sentence.

SEC. 2383. HOUSING ASSISTANCE PLANS.

Section 104(c)(1)(A) of the Housing and Community Development Act of 1974 is amended—

(1) in the second parenthetical phrase, by inserting "homeless persons," after "assistance,"; and

(2) in the last parenthetical phrase, by inserting "and homeless persons" after "persons".

SEC. 2384. LIMITED NEW CONSTRUCTION OF HOUSING UNDER COMMUNITY DEVELOPMENT BLOCK GRANT PROGRAM.

Section 105(a) of the Housing and Community Development Act of 1974 is amended—

(1) by striking out "and" at the end of paragraph (17);

(2) by striking out the period at the end of paragraph (18) and inserting in lieu thereof "; and"; and

(3) by adding at the end thereof the following new paragraph:

"(19) provision of assistance to facilitate new construction or substantial reconstruction in instances in which persons of low and moderate income own and occupy a home that the grantee determines is not suitable for rehabilitation.".

SEC. 2385. COMMUNITY DEVELOPMENT BLOCK GRANT PUBLIC SERVICE ACTIVITIES.

Section 105(a)(8) of the Housing and Community Development Act of 1974 is amended—

(1) by inserting "(A)" after "paragraph unless"; and

(2) by inserting before the semicolon at the end thereof the following: "; or (B) the Secretary authorizes such unit of general local government to use more than 15 percent (but not more than the highest amount permitted to be used under subparagraph (A) by another unit of general local government located in the same metropolitan area) of the assistance received under this title for such activities following (i) a determination by such unit of general local government that the activities carried out using the amounts authorized under this subparagraph are appropriate to support proposed community development activities; and (ii) submission to the Secretary of a request for such authorization by such unit of general local government".

SEC. 2386. STATE CERTIFICATIONS FOR RECEIVING COMMUNITY DEVELOPMENT BLOCK GRANTS FOR NONENTITLEMENT AREAS.

Section 106(d)(2) of the Housing and Community Development Act of 1974 is amended—

(1) in subparagraph (C), by striking out "the Governor must certify that the State" and inserting in lieu thereof "the State must certify that it"; and

(2) in subparagraph (D), by striking out "the Governor of each State" and inserting in lieu thereof "the State".

SEC. 2387. DISCRETIONARY FUND.

Section 107(a) of the Housing and Community Development Act of 1974 is amended by adding at the end thereof the following new sentence: "Of the amount set aside for grants under subsection (b) for fiscal year 1986, not more than $5,000,000 shall be made available by the Secretary for purposes of grants under subsection (b)(1) for the Park Central New Community Project.".

SEC. 2388. COMMUNITY DEVELOPMENT BLOCK GRANT LOAN GUARANTEES.

(a) MORATORIUM FOR FISCAL YEAR 1986.—Section 108(a) of the Housing and Community Development Act of 1974 is amended by

striking out the last sentence and inserting in lieu thereof the following: "The Secretary may not enter into any commitment to guarantee a note or obligation under this section during fiscal year 1986.".

(b) PROHIBITION ON FEES.—Section 108 of the Housing and Community Development Act of 1974 is amended by adding at the end thereof the following new subsection:

"(1) No fee or charge may be assessed or collected by the Secretary or any other Federal agency on or with respect to a guarantee made by the Secretary under this section.".

SEC. 2389. URBAN DEVELOPMENT ACTION GRANT SELECTION CRITERIA.

(a) SELECTION FOR 40 PERCENT OF FUNDS BASED ON PROJECT QUALITY.—Section 119(d)(1) of the Housing and Community Development Act of 1974 is amended—

(1) by inserting "(A)" after "(d)(1)";

(2) by inserting before the first comma the following: "or as otherwise provided in subparagraph (B)";

(3) by redesignating subparagraphs (A) through (C) as clauses (i) through (iii), respectively; and

(4) by adding at the end thereof the following new subparagraph:

"(B)(i) Of the aggregate amount awarded for grants for any fiscal year under this paragraph, 40 percent shall be awarded for grants made solely on the basis of the selection criteria established by the Secretary under subparagraph (A)(iii).

"(ii) In evaluating applications for grants under this paragraph, the Secretary shall first evaluate such applications in accordance with the provisions of this subparagraph. The Secretary shall then evaluate the applications that are not to be selected under such provisions under the selection criteria established under subparagraph (A).".

(b) MODIFICATIONS IN SELECTION CRITERIA RELATING TO PROJECT QUALITY.—

(1) Section 119(d)(1)(A)(iii) of the Housing and Community Development Act of 1974, as so redesignated by subsection (a), is amended by inserting before the last semicolon the following: "; the failure of the city or urban county to receive a preliminary grant approval under this section on or after December 21, 1983".

(2) Section 119(d)(1) of the Housing and Community Development Act of 1974, as amended by subsection (a), is amended by adding at the end thereof the following new subparagraph:

"(C) In determining the score to be awarded each of the criteria under subparagraph (A)(iii) for applications for grants for housing activities, the Secretary shall compare such applications only with other applications for grants for housing activities. For purposes of this subparagraph, an application shall be considered an application for a grant for housing activities if such application proposes that—

"(i) not less than 51 percent of all funds available for the project shall be used for dwelling units and related facilities; and

"(ii) not less than 20 percent of all funds used for dwelling units and related facilities shall be used for dwelling units to be occupied by persons of low and moderate income, or not less than 20 percent of all dwelling units made available for occupancy using such funds shall be occupied by persons of low and moderate income, whichever results in the occupancy of more dwelling units by persons of low and moderate income.".

(3) Section 119(r) of the Housing and Community Development Act of 1974 is amended by striking out "In" and inserting in lieu thereof the following: "Except as provided in subsection (d)(1)(C), in".

(c) MODIFICATIONS IN SELECTION CRITERIA RELATING TO URBAN COUNTIES.—Section 119(d)(1) of the Housing and Community Development Act of 1974, as amended by subsections (a) and (b), is amended by adding at the end thereof the following new subparagraph:

"(D) In determining the score to be awarded each of the criteria under clauses (i), (ii), and (iii) of subparagraph (A) for applications for grants for urban counties, the Secretary shall compare such applications only with other applications for grants for urban counties.".

(d) NUMBER OF COMPETITIONS FOR GRANTS.—Section 119(d) of the Housing and Community Development Act of 1974 is amended by adding at the end thereof the following new paragraph:

"(3)(A) For each fiscal year, the Secretary shall hold—

"(i) 3 competitions for grants under paragraph (1) for cities not described in the first sentence of subsection (i) (relating to small cities) and urban counties; and

"(ii) 3 competitions for cities described in the first sentence of subsection (i) (relating to small cities).

"(B) Each competition for grants described in any clause of subparagraph (A) shall be for an amount equal to the sum of—

"(i) approximately ⅓ of the funds available for such grants for the fiscal year;

"(ii) any funds available for such grants in any previous competition that are not awarded; and

"(iii) any funds available for such grants in any previous competition that are recaptured.".

(e) REPORTS TO CONGRESS.—

(1) Not later than the expiration of the 6-month period following the date of the enactment of this Act and each year thereafter, the Secretary of Housing and Urban Development shall prepare and submit to the Congress a comprehensive report evaluating the eligibility standards and selection criteria applicable under section 119 of the Housing and Community Development Act of 1974. Such report shall evaluate in detail the standards and criteria specified in such section that measure the level or comparative degree of economic distress of cities and urban counties. Such report shall also evaluate in detail the extent to which the economic and social data utilized by the Secretary in awarding grants under such section is current and accurate, and shall compare the data used by the Secretary with other available data. The Secretary shall make recommendations to the Congress on whether or not other data should be collected by the Federal Government in order to fairly and accurately distribute grants under such section based on the level or comparative degree of economic distress. The Secretary shall also make recommendations on whether or not existing data should be collected more frequently in order to ensure that timely data is used to evaluate grant applications under such section. Such report shall also describe in detail the standards and criteria utilized by the Secretary to evaluate project quality under section 119(d)(1)(A)(iii) of such Act.

(2) Not later than the expiration of the 3-month period following the date of the final competition for grants for fiscal year 1986 under section 119 of the Housing and Community Development Act of 1974, the Secretary of Housing and Urban Development shall prepare and submit to the Congress a comprehensive report describing the effect of the amendments made by this section on—

(A) the targetting of grant funds to cities and urban counties having the highest level or degree of economic distress;

(B) the distribution of grant funds among regions of the United States;

(C) the number and types of projects receiving grants; and

(D) the per capita funding levels for each city, urban county, or identifiable community described in subsection (p), receiving assistance under this section.

(f) REGULATIONS.—The Secretary shall issue such regulations as may be necessary to carry out the amendments made by this section. Such regulations shall be published for comment in the Federal Register not later than 60 days after the date of the enactment of this Act.

(g) APPLICABILITY.—The amendments made by this section shall be applicable to the making of urban development action grants that have not received the preliminary approval of the Secretary of Housing and Urban Development before the date on which final regulations issued by the Secretary under subsection (f) become effective. For the fiscal year in which the amendments made by this section become applicable, such amendments shall only apply with respect to the aggregate amount awarded for such grants on or after such date.

SEC. 2390. PROHIBITION ON USE OF URBAN DEVELOPMENT ACTION GRANTS FOR BUSINESS RELOCATIONS.

Section 119(h) of the Housing and Community Development Act of 1974 is amended—

(1) by inserting after the subsection designation the following: "(1) SPECULATIVE PROJECTS.—";

(2) by adding at the end of paragraph (1), as so redesignated, the following new sentence: "The provisions of this paragraph shall apply only to projects that do not have identified intended occupants."; and

(3) by adding at the end thereof the following new paragraphs:

"(2) PROJECTS WITH IDENTIFIED INTENDED OCCUPANTS.—No assistance may be provided or utilized under this section for any project with identified intended occupants that is likely to facilitate—

"(A) a relocation of any operation of an industrial or commercial plant or facility or other business establishment—

"(i) from any city, urban county, or identifiable community described in subsection (p), that is eligible for assistance under this section; and

"(ii) to the city, urban county, or identifiable community described in subsection (p), in which the project is located; or

"(B) an expansion of any such operation that results in a reduction of any such operation in any city, county, or community described in subparagraph (A)(i).

"(3) SIGNIFICANT AND ADVERSE EFFECT.—The restrictions established in paragraph (2) shall not apply if the Secretary determines that the relocation or expansion does not significantly and adversely affect the employment or economic base of the city, county, or community from which the relocation or expansion occurs.

"(4) DEFINITION.—For purposes of this subsection, the term 'operation' includes any plant, equipment, facility, position, em-

ployment opportunity, production capacity, or product line.

"(5) REGULATIONS.—The Secretary shall issue such regulations as may be necessary to carry out the provisions of this subsection. Such regulations shall include specific criteria to be used by the Secretary in determining whether there is a significant and adverse effect under paragraph (3).".

SEC. 2391. CONSIDERATION OF CERTAIN COUNTIES AS CITIES UNDER URBAN DEVELOPMENT ACTION GRANT PROGRAM.

Section 119(n)(1) of the Housing and Community Development Act of 1974 is amended by adding at the end thereof the following new sentence: "Such term also includes the counties of Kauai, Maui, and Hawaii in the State of Hawaii.".

SEC. 2392. URBAN DEVELOPMENT ACTION GRANT LOAN GUARANTEES.

Section 119 of the Housing and Community Development Act of 1974 is amended by adding at the end thereof the following new subsection:

"(s)(1) The Secretary shall, to the extent provided in appropriation Acts, guarantee (in accordance with the provisions of this subsection), the repayment of loans made to neighborhood-based nonprofit organizations.

"(2) Such guarantees may be made only if—

"(A) the organization is based in a neighborhood in which activities financed with funds from a grant under this section are being or will be carried out;

"(B) the funds from the loan are to be used to finance neighborhood revitalization activities that are designed to meet housing and other related needs of persons of low and moderate income in the neighborhood and that have been developed with the approval of the city or urban county receiving the grant described in subparagraph (A);

"(C) the amount guaranteed at any time does not exceed 90 percent of the outstanding unpaid principal balance of the loan;

"(D) the amount of the loan does not exceed 95 percent of the cost of the neighborhood revitalization activities financed by the loan;

"(E) the organization meets requirements established by the Secretary;

"(F) there is reasonable assurance of repayment of the loan;

"(G) the guarantee is requested by a financial institution in the manner and form required by the Secretary;

"(H) the loan is not available from financial institutions without the guarantee; and

"(I) the guarantee meets terms and conditions prescribed by the Secretary with respect to the interest rate and amortization of the loan, security required for the loan, proceedings in the event of default, and other matters defined by the Secretary.

"(3) In making available guarantees under this subsection, the Secretary shall give a priority to assisting neighborhood revitalization activities designed primarily to mitigate the displacement of persons of low and moderate income that is likely to occur as a result of commercial or other activities in the neighborhood.

"(4) The aggregate amount of loans that may be guaranteed under this subsection during fiscal year 1986 may not exceed an amount equal to 10 percent of the amount approved in appropriation Acts for urban development action grants during such fiscal year.

"(5) The full faith and credit of the United States is pledged to the payment of all guarantees made under this subsection. Any such guarantee made by the Secretary shall be conclusive evidence of the eligibility of the loan for such guarantee, and the validity of any such guarantee so made shall be incontestable in the hands of a holder of the guaranteed loan.

"(6) With respect to any proceedings conducted in connection with the default of any loan guaranteed under this subsection, the Secretary shall have the authority described in paragraphs (3) through (8) of section 402(c) of the Housing Act of 1950.".

SEC. 2393. URBAN HOMESTEADING.

(a) CONVEYANCES OF PROPERTY BY STATE AND LOCAL GOVERNMENTS FOR CONSIDERATION.—Section 810 of the Housing and Community Development Act of 1974 is amended—

(1) in subsection (b)(1), by inserting after "consideration" the following: "in the case of a lower income family or individual, or for such consideration (if any) as may be agreed upon by the entity and the family or individual in the case of a family or individual that is not a lower income family or individual";

(2) by striking out "and" at the end of subsection (b)(3)(C);

(3) by inserting "and" after the semicolon at the end of subsection (b)(3)(D);

(4) by adding at the end of subsection (b)(3) the following new subparagraph:

"(E) pay the agreed upon consideration (if any) for the property, in the case of a family or individual that is not a lower income family or individual;";

(5) in subsection (b)(5), by inserting after "consideration" the following: "in the case of a lower income family or individual, or for such consideration (if any) as may be agreed upon by the entity and the family or individual in the case of a family or individual that is not a lower income family or individual,";

(6) in subsection (b)(7)—

(A) by striking out "and" at the end of subparagraph (B);

(B) by striking out the period at the end of subparagraph (C) and inserting in lieu thereof a semicolon; and

(C) by adding at the end thereof the following new subparagraphs:

"(D) prohibits the unit of general local government, State, or public agency designated by a unit of general local government or a State, from considering the amount of consideration it desires to charge for a property, if such charge results in excluding any prospective recipient qualified for the special priority under subparagraph (A); and

"(E) prohibits the conveyance of any property under this section to a family or individual that is not a lower income family or individual, if there is a qualified applicant who is a lower income family or individual.";

(7) by adding at the end of subsection (b) the following new sentences: "Any unit of general local government, State, or public agency designated by a unit of general local government or a State, that receives consideration in connection with the conveyance of a property to an individual or family under this section shall remit to the Secretary any amount received, in such manner and at such time as the Secretary may prescribe. The Secretary shall deposit any amount remitted under the preceding sentence in the miscellaneous receipts of the Treasury of the United States."; and

(8) in subsection (h)(3), by striking out "subsection and subsection (i)" and inserting in lieu thereof "section".

(b) INCREASED ASSISTANCE FOR COMMUNITIES HAVING HIGH RATES OF FORECLOSURES.—Section 810 of the Housing and Community Development Act of 1974 is amended—

(1) by redesignating subsection (k) as subsection (l); and

(2) by inserting after subsection (j) the following new subsection:

"(k)(1) Any unit of general local government in which the rate of foreclosure on mortgages on single-family dwellings insured under title II of the National Housing Act exceeds by more than 20 percent such rate of foreclosure in such unit of general local government during the preceding year may apply to the Secretary for an increase in its assistance under this section.

"(2) Any unit of general local government applying for an increase in assistance under this subsection shall provide the Secretary with documentation describing the rate of foreclosure referred to in paragraph (1), the administrative capacities of the homestead program of such unit of general local government, and the likely effect of the use of additional assistance under this subsection on such rate of foreclosure.

"(3) The Secretary may not approve an increase in assistance under this subsection that exceeds an amount equal to 50 percent of the assistance requested by the unit of general local government under this section in its original application.".

(c) AUTHORIZATION OF APPROPRIATIONS.—The first sentence of section 810(l) of the Housing and Community Development Act of 1974, as so redesignated by subsection (b), is amended—

(1) by striking out "and" the last place it appears; and

(2) by inserting before the period at the end thereof the following: ", and $12,000,000 for fiscal year 1986".

SEC. 2394. REHABILITATION LOANS.

(a) LOAN AUTHORITY.—Section 312(h) of the Housing Act of 1964 is amended—

(1) by striking out "September 30, 1984" and inserting in lieu thereof "September 30, 1986"; and

(2) by striking out "October 1, 1984" and inserting in lieu thereof "October 1, 1986".

(b) PROHIBITION OF FEES ON REHABILITATION LOANS.—Section 312(g) of the Housing Act of 1964 is amended by adding at the end thereof the following new sentence: "No risk premium or loan fee may be assessed or collected by the Secretary or any other Federal agency on or with respect to a loan made by the Secretary under this section.".

SEC. 2395. NEIGHBORHOOD REINVESTMENT CORPORATION.

Section 608(a) of the Neighborhood Reinvestment Corporation Act is amended—

(1) by striking out "and" the last place it appears; and

(2) by inserting before the period at the end thereof the following: ", and $15,500,000 for fiscal year 1986".

SEC. 2396. NEIGHBORHOOD DEVELOPMENT DEMONSTRATION PROGRAM.

Section 123(g) of the Housing and Urban-Rural Recovery Act of 1983 is amended by inserting before the period at the end thereof the following: ", and not to exceed $10,000,000 for fiscal year 1986".

SEC. 2397. USE OF URBAN RENEWAL LAND DISPOSITION PROCEEDS.

Notwithstanding any other provision of law or other requirement, the City of Boston in the State of Massachusetts is authorized to retain any land disposition proceeds from the financially closed-out Government Center Urban Renewal Project

(NO. MASS. R-35) not paid to the Department of Housing and Urban Development, and to use such proceeds in accordance with the requirements of the community development block grant program specified in title I of the Housing and Community Development Act of 1974. The City of Boston shall retain such proceeds in a lump sum and shall be entitled to retain and use all past and future earnings from such proceeds, including any interest.

SEC. 2398. LIMITATION ON RECAPTURE OF CERTAIN RESERVATIONS OF ASSISTANCE.

After the reservation of assistance for any person or governmental entity under section 312 of the Housing Act of 1964 or section 810 of the Housing and Community Development Act of 1974, the Secretary of Housing and Urban Development shall not recapture any of the assistance included in such reservation due to the failure of such person or governmental entity to utilize, obligate, or expend such assistance during the fiscal year in which such amount is received or during the succeeding fiscal year.

SEC. 2399. COMMUNITY DEVELOPMENT AUTHORIZATIONS OF APPROPRIATIONS.

(a) COMMUNITY DEVELOPMENT BLOCK GRANT PROGRAM.—Section 103 of the Housing and Community Development Act of 1974 is amended by striking out the second sentence and inserting in lieu thereof the following: "There is authorized to be appropriated for purposes of assistance under sections 106 and 107 not to exceed $2,980,000,000 for fiscal year 1986.".

(b) URBAN DEVELOPMENT ACTION GRANT PROGRAM.—Section 119(a) of the Housing and Community Development Act of 1974 is amended by striking out the second and third sentences and inserting in lieu thereof the following: "There is authorized to be appropriated to carry out the provisions of this section not to exceed $352,000,000 for fiscal year 1986. Any amount appropriated under this subsection shall remain available until expended.".

SEC. 2399A. COMMUNITY DEVELOPMENT TECHNICAL AMENDMENTS.

Section 123(e)(3) of the Housing and Urban-Rural Recovery Act of 1983 is amended by striking out "Act" and inserting in lieu thereof "section".

Subtitle D—Shelter Assistance for the Homeless and Displaced

PART 1—NATIONAL BOARD OF CHARITIES PROGRAM

SEC. 2401. AUTHORIZATION OF APPROPRIATIONS.

There are authorized to be appropriated to the Federal Emergency Management Agency to carry out an emergency program equivalent to the emergency food and shelter program established in the Second Supplemental Appropriations Act, 1984 (98 Stat. 1382), $66,000,000 for fiscal year 1986. Any amount appropriated under this section shall remain available until expended.

SEC. 2402. ELIGIBLE ACTIVITIES.

Any amount appropriated under section 401 may be used for the activities carried out under the emergency food and shelter program referred to in such section, other than renovation of buildings to be used as emergency shelters.

PART 2—SECOND STAGE HOUSING FOR THE HOMELESS AND DISPLACED

SEC. 2411. ESTABLISHMENT OF DEMONSTRATION PROGRAM.

(a) IN GENERAL.—The Secretary shall carry out a demonstration program in accordance with the provisions of this part to determine the effectiveness of assisting nonprofit organizations in providing housing and supportive services for homeless persons.

(b) PURPOSES.—Such demonstration program shall be designed to determine—

(1) the cost of acquisition, rehabilitation, or acquisition and rehabilitation of existing structures for the provision of housing for homeless persons;

(2) the cost of operating such housing and providing supportive services to the residents of such housing;

(3) the social, financial, and other advantages of such housing and supportive services as an alternative to continued institutionalization of handicapped persons; and

(4) the social, financial, and other advantages of such housing and supportive services as a means of assisting homeless persons.

SEC. 2412. ASSISTANCE TO NONPROFIT ORGANIZATIONS.

(a) IN GENERAL.—The Secretary may provide the following assistance to any eligible nonprofit organization under the demonstration program established in this part:

(1) a non-interest-bearing advance equal to the aggregate cost of acquisition, rehabilitation, or acquisition and rehabilitation of an existing structure for use in the provision of housing and supportive services for homeless persons;

(2) annual payments for operating expenses of such housing, not to exceed 80 percent of the annual operating expenses of such housing; and

(3) technical assistance in establishing and operating such housing and providing supportive services to the residents of such housing.

(b) NONREPAYMENT OF ADVANCES.—Any advance provided under subsection (a)(1) shall not be required to be repaid if the nonprofit organization involved utilizes the structure for which such advance is made as housing for homeless persons in accordance with the provisions of this part for not less than the 10-year period following initial occupancy of such housing.

(c) ASSISTANCE CONTRACTS.—The Secretary shall, to the extent approved in appropriation Acts, enter into a contract with each nonprofit organization receiving annual payments under subsection (a)(2) to provide for the making of such payments for not more than a 10-year period.

SEC. 2413. PROGRAM REQUIREMENTS.

(a) APPLICATIONS.—Applications for assistance under this part shall be made in such form and in accordance with such procedures as the Secretary shall establish.

(b) SELECTION CRITERIA.—In selecting nonprofit organizations for assistance under this part, the Secretary shall consider—

(1) the ability of such nonprofit organization to develop and operate housing for homeless persons and to provide or coordinate supportive services for the residents of such housing;

(2) the need for such housing and supportive services in the area to be served; and

(3) such other factors as the Secretary determines to be appropriate for purposes of carrying out the demonstration program established in this part in an effective and efficient manner.

(c) REQUIRED AGREEMENTS.—Each nonprofit organization receiving assistance under this part shall agree, with respect to each structure for which such assistance is provided—

(1) to conduct an assessment of the supportive services required by the residents of such structure;

(2) to employ a full-time residential supervisor with sufficient expertise to provide, or supervise the provision of, supportive services to the residents of such structure;

(3) to utilize such structure as housing for homeless persons in accordance with the provisions of this part for not less than the 5-year period following initial occupancy of such housing; and

(4) to comply with such other terms and conditions as the Secretary may establish for purposes of carrying out the demonstration program established in this part in an effective and efficient manner.

(d) OCCUPANT RENT.—Each homeless person residing in housing assisted under this part shall pay as rent an amount determined in accordance with the provisions of section 3(a) of the United States Housing Act of 1937.

SEC. 2414. REGULATIONS.

(a) IN GENERAL.—Not later than the expiration of the 180-day period following the date of the enactment of this Act, the Secretary shall issue such regulations as may be necessary to carry out the provisions of this part.

(b) ADVANCE CONSULTATION.—Before issuing regulations under this section, the Secretary shall consult with persons and entities having expertise with respect to the problems and needs of homeless persons or experience in providing housing or supportive services for such persons.

SEC. 2415. REPORTS TO CONGRESS.

The Secretary shall submit to the Congress—

(1) not later than 3 months after the end of fiscal year 1986, an interim report summarizing the activities carried out under this part during such fiscal year and setting forth any preliminary findings or conclusions of the Secretary as a result of such activities; and

(2) not later than 6 months after the end of fiscal year 1987, a final report summarizing all activities carried out under this part and setting forth any findings, conclusions, or recommendations of the Secretary as a result of such activities.

SEC. 2416. DEFINITIONS.

For purposes of this part:

(1) The term "elderly person" means an individual who is not less than 62 years of age.

(2) The term "handicapped person" means an individual having a physical, psychological, or other impairment that substantially impedes the ability of such individual to live independently without supportive services.

(3) The term "homeless person" means an individual who—

(A) is a lower income person, elderly person, or handicapped person;

(B) lacks permanent housing; and

(C) cannot live independently without supportive services.

(4) The term "housing for homeless persons" means a single- or multifamily structure suitable for the provision of housing and supportive services for not more than 12 homeless persons.

(5) The term "lower income person" means an individual whose income does not exceed 80 percent of the median income of the area involved.

(6) The term "nonprofit organization" means any governmental or private nonprofit entity that is approved by the Secretary as to financial responsibility.

(7) The term "operating costs" means expenses incurred by a nonprofit organization

operating housing for homeless persons under this part with respect to—

(A) the administration, maintenance, repair, and security of such housing;

(B) utilities, fuel, furnishings, and equipment for such housing;

(C) the conducting of the assessment required in section 413(c)(1); and

(D) the provision of supportive services to the residents of such housing.

(8) The term "Secretary" means the Secretary of Housing and Urban Development.

(9) The term "supportive services" means assistance in obtaining permanent housing, medical and psychological counseling and supervision, employment counseling, nutritional counseling, and such other services essential for maintaining independent living as the Secretary determines to be appropriate. Such term includes the provision of assistance to residents of housing for homeless persons in obtaining other Federal, State, and local assistance available for such persons, including mental health benefits, employment counseling, and medical assistance.

SEC. 2417. LIMITATION ON BUDGET AUTHORITY.

The aggregate amount of non-interest bearing advances and annual payments for operating expenses made by the Secretary under this part in fiscal year 1986 may not exceed $50,000,000. Such amount shall remain available until expended.

PART 3—EMERGENCY SHELTER GRANTS

SEC. 2421. GRANT ASSISTANCE.

The Secretary of Housing and Urban Development shall, to the extent of amounts approved in appropriation Acts, make grants to States and units of local government (and to private nonprofit organizations providing assistance to the homeless, in the case of grants made with reallocated amounts) in order to carry out activities described in section 423.

SEC. 2422. ALLOCATION AND DISTRIBUTION OF ASSISTANCE.

(a) IN GENERAL.—The Secretary shall allocate assistance under this part to metropolitan cities, urban counties, and States (for distribution to units of general local government in the States) in a manner that ensures that the percentage of the total amount available under this part for any fiscal year that is allocated to any State, metropolitan city, or urban county is equal to the percentage of the total amount available for section 106 of the Housing and Community Development Act of 1974 for such fiscal year that is allocated to such State, metropolitan city, or urban county.

(b) MINIMUM ALLOCATION REQUIREMENT.—If, under the allocation provisions applicable under this part, any metropolitan city or urban county will receive a grant of less than $30,000 for any fiscal year, such amount shall instead be allocated to the State in which such city or county is located and shall be included in the amount available for distribution to units of general local government in the State.

(c) DISTRIBUTIONS TO NONPROFIT ORGANIZATIONS.—Any unit of general local government receiving assistance under this part may distribute all or a portion of such assistance to private nonprofit organizations providing assistance to the homeless.

(d) REALLOCATION FUNDS.—

(1) The Homeless Assistance Council established in section 425 shall, not less than twice during each fiscal year, reallocate any assistance provided under this part that is unused or returned to the Secretary.

(2) The Council shall provide such reallocation funds—

(A) to units of general local government demonstrating extraordinary need or large numbers of homeless individuals;

(B) to private nonprofit organizations providing assistance to the homeless; and

(C) to meet such other needs consistent with the purposes of this part.

SEC. 2423. ELIGIBLE ACTIVITIES.

Assistance provided under this part may be used for the following activities relating to emergency shelter for the homeless:

(1) renovation of buildings to be used as emergency shelters;

(2) provision of essential services, including services concerned with employment, health, drug abuse, or education, if—

(A) such services have not been provided by the unit of general local government during any part of the immediately preceding 12-month period; and

(B) not more than 15 percent of the amount of any assistance to a unit of general local government under this part is used for activities under this paragraph; and

(3) maintenance, operation (other than staff), utilities, and furnishings.

SEC. 2424. RESPONSIBILITIES OF GRANTEES.

(a) SUBMISSION OF HOMELESS ASSISTANCE PLAN.—Following notification by the Secretary of eligibility for assistance under this part, each State, metropolitan city, and urban county shall submit to the Secretary a plan describing the proposed use of such assistance. The Secretary shall provide the appropriate amount of assistance to such State, metropolitan city, or urban county before the expiration of the 60-day period following the date of the submission of such plan, unless the Secretary determines before the expiration of such period that such plan is not in compliance with this part.

(b) MATCHING AMOUNTS.—

(1) Each grantee under this part shall be required to supplement the assistance provided under this part with an equal amount of funds from sources other than this subtitle. Each grantee shall certify to the Secretary its compliance with this paragraph, and shall include with such certification a description of the sources and amounts of such supplemental funds.

(2) In calculating the amount of supplemental funds provided by a grantee under this part, a grantee may include the value of any donated material or building, the value of any lease on a building, any salary paid to staff to carry out the program of the grantee, and the value of the time contributed by volunteers to carry out the program of the grantee (calculated at a rate of $5 per hour).

(c) ADMINISTRATION OF ASSISTANCE.—Each grantee shall act as the fiscal agent of the Secretary with respect to assistance provided to such grantee.

(d) CERTIFICATIONS ON USE OF ASSISTANCE.—Each grantee shall certify to the Secretary that—

(1) it will maintain as a shelter for the homeless for not less than a 3-year period any building for which assistance is used under this part, or for not less than a 7-year period if such assistance is used for the substantial rehabilitation of such building;

(2) any renovation carried out with assistance under this part shall be sufficient to ensure that the building involved is safe and sanitary; and

(3) it will assist homeless individuals in obtaining—

(A) appropriate supportive services, including permanent housing, medical and mental health treatment, counseling, supervision, and other services essential for achieving independent living; and

(B) other Federal, State, local, and private assistance available for such individuals.

(e) USE OF INTEREST ON ASSISTANCE.—Any interest received by any grantee under this part on assistance provided under this part shall be used in accordance with this part or returned to the Secretary for reallocation.

SEC. 2425. HOMELESS ASSISTANCE COUNCIL.

(a) ESTABLISHMENT.—There hereby is established a commission to be known as the Homeless Assistance Council.

(b) MEMBERSHIP.—The Council shall be composed of 9 members as follows:

(1) the Secretary of Housing and Urban Development, or the designee of the Secretary;

(2) the Secretary of Health and Human Services, or the designee of the Secretary;

(3) 1 individual appointed by the Secretary of Housing and Urban Development from individuals recommended jointly by the National League of Cities, the National Conference of Mayors, the National Association of Counties, and the National Association of Towns and Townships;

(4) 1 individual appointed by the Secretary of Housing and Urban Development from individuals who are representative of the providers of services to the homeless;

(5) 3 individuals appointed by the Secretary of Housing and Urban Development from individuals who are members of, and are recommended by the members of, the national board of charities constituted under the emergency food and shelter program established in the Second Supplemental Appropriations Act, 1984 (98 Stat. 1382);

(6) 1 individual appointed by the Secretary of Housing and Urban Development from individuals recommended by the Speaker of the House of Representatives; and

(7) 1 individual appointed by the Secretary of Housing and Urban Development from individuals recommended by the Majority Leader of the Senate.

(c) TERM OF MEMBERSHIP.—

(1) Each member of the Council described in paragraphs (3) through (7) of subsection (b) shall be appointed for a term of 2 years.

(2) Any vacancy in the Council occurring before the expiration of a term shall be filled in the manner in which the original appointment was made. Any member appointed to fill such a vacancy shall be appointed only for the remainder of such term.

(d) MEMBERS NOT FEDERAL EMPLOYEES.—The members of the Council shall not, by reason of their membership on the Council, be considered to be officers or employees of the Federal Government.

(e) PAY AND EXPENSES.—

(1) Each member of the Council shall serve without pay, allowances, or benefits by reason of such service.

(2) Each member of the Council shall, while attending meetings of the Council or while engaged in duties relating to such meetings or in other activities of the Council under this part, be allowed (except in the case of members of the Council who are Members of Congress or officers or employees of the Federal Government) travel expenses while away from their homes or regular places of business, including per diem in lieu of subsistence, equal to that authorized by section 5703 of title 5, United States Code, for persons in the Government service employed intermittently.

(f) POWERS.—The powers of the Council are—

(1) to review plans submitted by recipients of emergency shelter grants;

(2) to reallocate unexpended emergency shelter grant funds in accordance with section 422(d);

(3) to recommend to the Secretary that action be taken against recipients of emergency shelter grants who use such grants improperly;

(4) to call meetings of the Council, elect a chairperson of the Council, and to empower the chairperson to convene the Council; and

(5) to request additional temporary staff from the Secretary.

SEC. 2426. ADMINISTRATIVE PROVISIONS.

(a) REGULATIONS.—Not later than the expiration of the 30-day period following the date of the enactment of this Act, the Secretary shall by notice establish such requirements as may be necessary to carry out the provisions of this part. Such requirements shall not be subject to section 553 of title 5, United States Code, or section 7(o) of the Department of Housing and Urban Development Act. The Secretary shall issue regulations based on the initial notice before the expiration of the 12-month period following the date of the enactment of this Act.

(b) INITIAL ALLOCATION OF ASSISTANCE.—Not later than the expiration of the 30-day period following the date of the enactment of a law providing appropriations to carry out this part, the Secretary shall notify each State, metropolitan city, and urban county of its allocation of assistance under this part. Such assistance shall be allocated and may be used notwithstanding any failure of the Secretary to issue regulations under subsection (a).

(c) STAFF AND OFFICES OF COUNCIL.—The Secretary shall provide the Council with such staff and office facilities as the Secretary, following consultation with the Council, considers necessary to permit the Council to carry out its functions under this part.

(d) RECAPTURE OF UNUSED ASSISTANCE.—The Secretary shall recapture any assistance provided under this part that is not used by the grantee within a reasonable period of time.

SEC. 2427. DEFINITIONS.

For purposes of this part:

(1) The term "Council" means the Homeless Assistance Council established in section 425.

(2) The term "Secretary" means the Secretary of Housing and Urban Development.

SEC. 2428. AUTHORIZATION OF APPROPRIATIONS.

There are authorized to be appropriated to carry out the provisions of this part $100,000,000 for fiscal year 1986 and such sums as may be necessary for fiscal year 1987. Any amount appropriated under this section shall remain available until expended.

Subtitle E—Nehemiah Housing Opportunity Grants

SEC. 2501. STATEMENT OF PURPOSE.

It is the purpose of this subtitle—

(1) to encourage homeownership by families in the United States who are not otherwise able to afford homeownership;

(2) to undertake a concentrated effort to rebuild the depressed areas of the cities of the United States and to create sound and attractive neighborhoods; and

(3) to increase the employment of neighborhood residents.

SEC. 2502. DEFINITIONS.

For purposes of this subtitle:

(1) The term "Fund" means the Nehemiah Housing Opportunity Fund established in section 509(a).

(2) The term "home" means any 1- to 4-family dwelling. Such term includes any dwelling unit in a condominium project or cooperative project consisting of not more than 4 dwelling units, any town house, and any manufactured home.

(3) The term "lower income families" has the meaning given such term in section 3(b)(2) of the United States Housing Act of 1937.

(4) The term "metropolitan statistical area" means a metropolitan statistical area as established by the Office of Management and Budget.

(5) The term "nonprofit organization" means a private nonprofit corporation, or other private nonprofit legal entity, that is approved by the Secretary as to financial responsibility.

(6) The term "Secretary" means the Secretary of Housing and Urban Development.

(7) The term "State" means each of the several States, the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, Guam, American Samoa, the Northern Mariana Islands, the Trust Territory of the Pacific Islands, and any other territory or possession of the United States.

(8) The term "substantial rehabilitation" means—

(A) rehabilitation involving costs in excess of 60 percent of the maximum sale price of a home assisted under this subtitle in the market area in which it is located; or

(B) the rehabilitation of a vacant, uninhabit- able structure.

(9) The term "unit of general local government" means any borough, city, county, parish, town, township, village, or other general purpose political subdivision of a State.

SEC. 2503. ASSISTANCE TO NONPROFIT ORGANIZATIONS.

(a) IN GENERAL.—The Secretary may provide assistance to nonprofit organizations to carry out Nehemiah housing opportunity programs in accordance with the provisions of this subtitle. Such assistance shall be made in the form of grants.

(b) APPLICATIONS.—Applications for assistance under this subtitle shall be made in such form, and in accordance with such procedures, as the Secretary may prescribe.

SEC. 2504. USE OF ASSISTANCE.

(a) IN GENERAL.—Any nonprofit organization receiving assistance under this subtitle shall use such assistance to provide loans to families purchasing homes constructed or substantially rehabilitated in accordance with a Nehemiah housing opportunity program approved under this subtitle.

(b) SPECIFIC REQUIREMENTS.—Each loan made to a family under this section shall—

(1) be secured by a second mortgage held by the Secretary on the property involved;

(2) be in an amount not exceeding $15,000;

(3) bear no interest; and

(4) be repayable to the Secretary upon the sale or other transfer of such property.

SEC. 2505. PROGRAM REQUIREMENTS.

(a) IN GENERAL.—Assistance provided under this subtitle may be used only in connection with a Nehemiah housing opportunity program of construction or substantial rehabilitation of homes.

(b) FAMILY NEED.—Each family purchasing a home under this subtitle shall—

(1) have a family income on the date of such purchase that is not more than whichever of the following is higher:

(A) 115 percent of the median income for a family of 4 persons in the metropolitan statistical area involved; or

(B) the national median income for a family of 4 persons; and

(2) not have owned a home during the 3-year period preceding such purchase.

(c) DOWNPAYMENT.—

(1) Each family purchasing a home under this subtitle shall make a downpayment of not less than 10 percent of the sale price of such home, or of such greater amount determined by the nonprofit organization involved to be appropriate.

(2) Any downpayment made under this subsection shall accrue interest from the date on which such downpayment is made through the date of settlement, at a rate not less than the passbook rate. Such interest shall be paid by the nonprofit organization involved to the family purchasing the home for which such downpayment was made.

(d) LEASING PROHIBITION.—No family purchasing a home under this subtitle may lease such home.

SEC. 2506. TERMS AND CONDITIONS OF ASSISTANCE.

(a) LOCAL CONSULTATION.—No proposed Nehemiah housing opportunity program may be approved by the Secretary under this subtitle unless the nonprofit organization involved demonstrates to the satisfaction of the Secretary that—

(1) it has consulted with and received the support of residents of the neighborhood in which such program is to be located; and

(2) it has the approval of each unit of general local government in which such program is to be located.

(b) PROGRAM SCHEDULE.—Each nonprofit organization applying for assistance under this subtitle shall submit to the Secretary an estimated schedule for completion of its proposed Nehemiah housing opportunity program, which schedule shall have been agreed to by each unit of general local government in which such program is to be located.

(c) MINIMUM PARTICIPATION.—No nonprofit organization receiving assistance under this subtitle may commence any construction or substantial rehabilitation (except with respect to homes to be constructed or substantially rehabilitated for the purpose of display) until not less than 25 percent of the homes to be constructed or substantially rehabilitated are contracted for sale to purchasers who intend to live in such homes and the required downpayments are made.

(d) FINANCIAL FEASIBILITY.—The Secretary may not provide any assistance under this subtitle to any nonprofit organization unless such nonprofit organization demonstrates the financial feasibility of its proposed Nehemiah housing opportunity program, including the availability of non-Federal public and private funds.

(e) HOME QUALITY AND LOCATION.—A Nehemiah housing opportunity program may be approved under this subtitle only if it provides that—

(1) the number of homes to be constructed or substantially rehabilitated under such program will not be less than whichever of the following is less:

(A) the greater of (i) 50 homes; or (ii) 0.25 percent of the number of existing dwelling units in the unit of general local government that provides the most assistance to such program; or

(B) 250 homes;

(2) each home constructed or substantially rehabilitated under such program will comply with—

(A)(i) applicable local building code standards; or

(ii) in any case in which there is not an applicable local building code, a nationally recognized model building code mutually agreed upon by the sponsoring nonprofit organization and the Secretary; and

(B) the energy performance requirements established under section 526 of the National Housing Act;

(3) all homes constructed or substantially rehabilitated under such program will be located in census tracts, or identifiable neighborhoods within census tracts, in which the median family income is not more than 80 percent of the median family income of the area in which such program is to be located, as such median family income and area are determined for purposes of assistance under section 8 of the United States Housing Act of 1937;

(4) all homes constructed or substantially rehabilitated under such program will be concentrated in a single neighborhood and located on contiguous parcels of land, except that if the unit of general local government in which the project is located certifies that such land cannot be made available for a program of the size required by subsection (e)(1), homes may be constructed in a single identifiable neighborhood if the program provides for construction or substantial rehabilitation of homes on not less than 20 percent of the lots in such neighborhood; and

(5) sales contracts entered into under such program will contain provisions requiring repayment of any loan made under this subtitle upon the sale or other transfer of the home involved, unless the Secretary approves a transfer of such home without repayment (in which case the second mortgage held by the Secretary on such home shall remain in force until such loan is fully repaid).

SEC. 2507. PROGRAM SELECTION CRITERIA.

(a) IN GENERAL.—In selecting Nehemiah housing opportunity programs for assistance under this subtitle from among eligible programs, the Secretary shall make such selection on the basis of the extent to which—

(1) non-Federal public or private entities will contribute land necessary to make each program feasible;

(2) non-Federal public and private financial or other contributions (including tax abatements, waivers of fees related to development, waivers of construction, development, or zoning requirements, and direct financial contributions) will reduce the cost of homes constructed or substantially rehabilitated under each program;

(3) each program will produce the greatest number of units for the least amount of assistance provided under this subtitle, taking into consideration the cost differences among different market areas;

(4) each program is located in a neighborhood of severe physical and economic blight (and, in determining the degree of physical blight, the Secretary shall consider the condition (but not age) of the housing, other buildings, and infrastructure, in the neighborhood of the proposed program);

(5) each program uses construction methods that will reduce the cost per square foot below the average construction cost in the market area involved; and

(6) each program provides for the involvement of local residents in the planning, and construction or substantial rehabilitation, of homes.

(b) EXCEPTION.—To the extent that non-Federal public entities are prohibited by the law of any State from making any form of contribution described in paragraph (1) or (2) of subsection (a), the Secretary shall not consider such form of contribution in evaluating such program.

SEC. 2508. DISTRIBUTION OF ASSISTANCE TO NONPROFIT ORGANIZATIONS.

(a) RESERVATION OF AMOUNTS.—Following the selection of any Nehemiah housing opportunity program for assistance under this subtitle, the Secretary shall reserve sufficient amounts in the Nehemiah Housing Opportunity Fund for such assistance.

(b) DISTRIBUTION OF ASSISTANCE.—Following the sale of any home constructed or substantially rehabilitated under a Nehemiah housing opportunity program selected for assistance under this subtitle, the Secretary shall provide to the sponsoring nonprofit organization an amount equal to the amount of the loan made to the family purchasing such home. Such amount shall be provided not more than 30 days after the sale of such home.

(c) MAXIMUM ASSISTANCE.—The assistance provided to any nonprofit organization under this subtitle may not exceed $15,000 per home.

SEC. 2509. NEHEMIAH HOUSING OPPORTUNITY FUND.

(a) ESTABLISHMENT.—There hereby is established in the Treasury of the United States a revolving fund, to be known as the Nehemiah Housing Opportunity Fund. The Fund shall be available to the Secretary, to the extent approved in appropriation Acts, for purposes of providing assistance under section 503.

(b) ASSETS.—The Fund shall consist of—

(1) any amount appropriated under section 512;

(2) any amount received by the Secretary under section 504(b)(4); and

(3) any amount received by the Secretary under subsection (c).

(c) ADMINISTRATION.—Any amount in the Fund determined by the Secretary to be in excess of the amount currently required to carry out the provisions of this subtitle shall be invested by the Secretary in obligations of, or obligations guaranteed as to both principal and interest by, the United States or any agency of the United States.

SEC. 2510. ANNUAL REPORT.

The Secretary shall annually prepare and submit to the Congress a comprehensive report setting forth the activities carried out under this subtitle. Such report shall include—

(1) an analysis of the characteristics of the families assisted under this subtitle during the preceding year, including family size, number of children, family income, sources of family income, race, age, and sex;

(2) an analysis of the market value of homes purchased under this subtitle during the preceding year;

(3) an analysis of the non-Federal public and private financial or other contributions made during the preceding year to reduce the cost of homes constructed or substantially rehabilitated under each program;

(4) an analysis of the sales prices of homes under this subtitle during the preceding year;

(5) an analysis of the amounts of the grants made to programs under this subtitle during the preceding year; and

(6) any recommendations of the Secretary for modifications in the program established by this subtitle in order to ensure the effective implementation of such program.

SEC. 2511. REGULATIONS.

The Secretary shall issue such regulations as may be necessary to carry out the provisions of this subtitle. Any such regulations shall be issued in accordance with section 553 of title 5, United States Code, notwithstanding the provisions of subsection (a)(2) of such section.

SEC. 2512. AUTHORIZATION OF APPROPRIATIONS.

There is authorized to be appropriated to carry out the provisions of this subtitle $100,000,000 for fiscal year 1986. Any amount appropriated under this section shall be deposited in the Nehemiah Housing Opportunity Fund, and shall remain available until expended.

Subtitle F—Multifamily Housing Preservation Loans

SEC. 2601. PURPOSE.

The purpose of this subtitle is to provide loans to the owners of certain multifamily housing projects assisted by the Secretary of Housing and Urban Development to permit such owners to make capital improvements required to maintain such projects as decent, safe, and sanitary housing and to maintain the low- and moderate-income character of such projects.

SEC. 2602. DEFINITIONS.

For purposes of this subtitle:

(1) The term "capital improvement" means any major repair or replacement of a capital item in a multifamily housing project, including any such repair or replacement required as a result of deferred or inadequate maintenance. Such term does not include maintenance of any such item.

(2) The term "Fund" means the Multifamily Housing Preservation Fund established in section 606.

(3) The term "lower income families" has the meaning given such term in section 3(b)(2) of the United States Housing Act of 1937.

(4) The term "low- and moderate-income character" means the character of a multifamily housing project with respect to tenant admission and rental charges that have been agreed to by the owner of such project and the Secretary in connection with assistance or insurance provided by the Secretary.

(5) The term "Secretary" means the Secretary of Housing and Urban Development.

SEC. 2603. AUTHORITY TO PROVIDE LOANS.

(a) IN GENERAL.—The Secretary may provide and, to the extent approved in appropriation Acts, contract to provide loans to owners of rental or cooperative housing projects meeting the requirements of this subtitle for purposes of assisting such owners to make capital improvements required to maintain such projects as decent, safe, and sanitary housing and to maintain the low- and moderate-income character of such projects.

(b) APPLICATIONS.—Applications for loans under this subtitle shall be made in such form, and in accordance with such procedures, as the Secretary may prescribe.

SEC. 2604. ELIGIBILITY FOR LOANS.

(a) PROJECT REQUIREMENTS.—The owner of any rental or cooperative housing project shall be eligible for a loan under this subtitle only if such project—

(1)(A) is assisted under section 236 of the National Housing Act, the proviso of section 221(d)(5) of the National Housing Act, or section 101 of the Housing and Urban Development Act of 1965, without regard to

whether such project is insured under the National Housing Act;

(B) is assisted under section 8 of the United States Housing Act of 1937 following conversion to such assistance from assistance under section 236(f)(2) of the National Housing Act or section 101 of the Housing and Urban Development Act of 1965;

(C) is assisted under section 23 of the United States Housing Act of 1937, as in effect before January 1, 1975; or

(D) was a project described in subparagraph (A) before the acquisition of such project by the Secretary, and has been sold by the Secretary subject to an agreement that provides that the low- and moderate-income character of such project will be maintained; and

(2) meets such other requirements consistent with the purposes of this subtitle as the Secretary may prescribe.

(b) LOAN AND BORROWER REQUIREMENTS.—No loan may be provided under this subtitle to the owner of any rental or cooperative housing project unless the Secretary determines that—

(1) such loan, when considered with other resources available to and financially feasible for such project, is necessary for such owner to make capital improvements with respect to capital items that have failed, or are likely to seriously deteriorate or fail in the near future, in such project;

(2) the owner of such project agrees to contribute assistance to such project in such amounts, from such sources, and in such manner as the Secretary determines to be appropriate, except that—

(A) such contribution shall not be less than 20 percent of the total estimated cost of the capital improvements involved, unless the Secretary, upon application of the owner, determines that such contribution is financially infeasible and waives or reduces such contribution to the extent necessary;

(B) the Secretary may not require an amount to be contributed, from the reserve funds established by the owner of such project for the purpose of making capital improvements, in excess of 50 percent of the amount of such reserve funds on the date of such loan; and

(C) the Secretary shall waive the requirements of this paragraph if such owner is a private nonprofit corporation or association;

(3) the owner of such project agrees to maintain the low- and moderate-income character of such project for a period of not less than the remaining term of the project mortgage;

(4) the management of such project is conducted by persons who meet levels of competency and experience prescribed by the Secretary and are approved by the Secretary;

(5) such project is structurally sound, or will be made structurally sound as a result of the capital improvements involved, as determined on the basis of information obtained as a result of an onsite inspection of such project;

(6) such loan, when considered with other resources available to and financially feasible for such project, will maintain the financial soundness of such project;

(7) such project is operated and managed in accordance with a management improvement and operating plan that has been determined to be necessary and approved by the Secretary and that includes the following:

(A) a detailed maintenance schedule;

(B) a schedule for correcting past deficiencies in maintenance, repairs, and replacements;

(C) a plan to upgrade the capital items being improved, and any other capital items determined by the Secretary to be associated with such capital items being improved and to require upgrading, to meet cost-effective energy efficiency standards prescribed by the Secretary;

(D) a plan to improve or maintain financial and management control systems;

(E) a detailed annual operating budget taking into account such standards for operating costs in the area as may be determined by the Secretary to be appropriate; and

(F) such other items as the Secretary may determine to be appropriate;

(8) the reserve funds established by the owner of such project for the purpose of making capital improvements are insufficient to finance both the capital improvements for which such loan is requested and other capital improvements that are reasonably expected to be required in the near future, and such insufficiency is not the result of the failure of such owner to comply with any standard established by the Secretary for management of such reserve funds; and

(9) such loan will be less costly to the Federal Government than other reasonable alternatives available to the Secretary for maintaining the low- and moderate-income character of such project.

(c) PRIORITIES IN PROVIDING LOANS.—In providing, and contracting to provide, loans under this subtitle, the Secretary shall give priority to—

(1) the extent to which the capital improvements for which such loans are requested are immediately required;

(2) the extent to which the projects for which such loans are requested serve as the residences of lower income families, and the extent to which other suitable housing is unavailable for such families in the areas in which such projects are located;

(3) the extent to which the capital improvements for which such loans are requested involve the life, safety, or health of the residents of the projects or involve major capital improvements in the projects; and

(4) projects that demonstrate the greatest financial distress, while continuing to meet the requirements of subsection (b)(6).

SEC. 2605. AMOUNT AND CONDITIONS OF LOANS.

(a) PRINCIPAL AMOUNT OF LOANS.—Subject to section 604(b)(2), the principal amount of any loan provided under this subtitle to the owner of any project shall not exceed 80 percent of the sum of—

(1) the amount determined by the Secretary to be necessary for such owner to make capital improvements with respect to capital items that have failed, or are likely to seriously deteriorate or fail in the near future, in such project;

(2) the amount determined by the Secretary to be necessary to carry out a plan to upgrade the capital items being improved, and any other capital items determined by the Secretary to be associated with such capital items being improved and to require upgrading, to meet cost-effective energy efficiency standards prescribed by the Secretary; and

(3) the amount determined by the Secretary to be necessary to comply with the requirements of section 504 of the Rehabilitation Act of 1973 (29 U.S.C. 794).

(b) CONDITIONS OF LOANS.—

(1) The term of any loan provided under this subtitle shall not exceed the remaining term of the mortgage on the project with respect to which such loan is provided.

(2) Subject to subsection (c), each loan provided under this subtitle shall bear interest at a rate determined by the Secretary to be appropriate, except that such rate shall not be less than 6 percent or more than the rate determined under section 221(d)(5)(B) of the National Housing Act.

(3) Each loan provided under this subtitle shall be considered to be a liability of the project involved, and shall not be dischargeable in any bankruptcy proceeding under section 727, 1141, or 1328(b) of title 11, United States Code.

(4) The Secretary may establish such additional conditions on loans provided under this subtitle as the Secretary determines to be appropriate.

(5) The Secretary may provide more than one loan to any project under this subtitle, if each such loan complies with the provisions of this subtitle.

(c) MINIMIZATION OF RENT INCREASES.—In order to minimize any increases in rental payments that may occur as a result of the debt service and other expenses of a loan provided under this subtitle, and that would be incurred by residents of the project involved whose rental payments are, or would as a result of such expenses be, in excess of the amount allowable if section 3(a) of the United States Housing Act of 1937 were applicable to such residents, the Secretary may take any or all of the following actions:

(1) Provide assistance with respect to such project under section 8(b)(1) of the United States Housing Act of 1937, to the extent amounts are available for such assistance and without regard to section 16 of such Act.

(2) Reduce the rate of interest charged on such loan to a rate of not less than 1 percent.

(3) Increase the term of such loan to a term that does not exceed the remaining term of the mortgage on such project.

(4) Increase the amount of assistance to be provided by the owner of such project under section 604(b)(2), if applicable, to an amount not to exceed 30 percent of the total estimated cost of the capital improvements involved.

SEC. 2606. MULTIFAMILY HOUSING PRESERVATION FUND.

(a) ESTABLISHMENT OF FUND.—For purposes of carrying out the provisions of this subtitle, there hereby is established in the Treasury of the United States a revolving fund, to be known as the Multifamily Housing Preservation Fund. The Fund shall, to the extent approved in appropriation Acts, be available to the Secretary for purposes of carrying out the provisions of this subtitle.

(b) ASSETS OF FUND.—The Fund shall consist of (1) any amount appropriated under section 608; (2) any amount repaid on a loan provided under this subtitle; and (3) any other amount received by the Secretary under this subtitle.

(c) MANAGEMENT OF FUND.—Any amounts in the Fund determined by the Secretary to be in excess of the amounts currently required to carry out the provisions of this subtitle shall be invested by the Secretary in obligations of, or obligations guaranteed as to both principal and interest by, the United States or any agency of the United States.

SEC. 2607. REGULATIONS.

The Secretary shall, not later than the expiration of the 180-day period following the date of the enactment of this Act, issue such regulations as may be necessary to carry out the provisions of this subtitle.

SEC. 2608. AUTHORIZATION OF APPROPRIATIONS.

There is authorized to be appropriated to carry out the provisions of this subtitle $60,000,000 for fiscal year 1986. Any amount appropriated under this section shall be deposited in the Fund and shall remain available until expended.

Subtitle G—Enterprise Zone Development

SEC. 2701. DESIGNATION OF ENTERPRISE ZONES.

(a) DESIGNATION OF ZONES.—

(1) DEFINITION.—For purposes of this section, the term "enterprise zone" means any area that—

(A) is nominated by 1 or more local governments and the State or States in which it is located for designation as an enterprise zone (hereafter in this section referred to as a "nominated area"); and

(B) the Secretary of Housing and Urban Development designates as an enterprise zone, after consultation with—

(i) the Secretaries of Agriculture, Commerce, Labor, and the Treasury; the Director of the Office of Management and Budget; and the Administrator of the Small Business Administration; and

(ii) in the case of an area on an Indian reservation, the Secretary of the Interior.

(2) LIMITATION ON DESIGNATIONS.—

(A) PUBLICATION OF REGULATIONS.—Before designating any area as an enterprise zone, the Secretary of Housing and Urban Development shall prescribe by regulation not later than 4 months following the date of the enactment of this Act, after consultation with the officials described in paragraph (1)(B)—

(i) the procedures for nominating an area under paragraph (1)(A);

(ii) the parameters relating to the size and population characteristics of an enterprise zone; and

(iii) the manner in which nominated areas will be compared based on the criteria specified in subsection (d) and the other factors specified in subsection (e).

(B) TIME LIMITATIONS.—The Secretary of Housing and Urban Development shall designate nominated areas as enterprise zones only during the 36-month period beginning on the later of—

(i) the 1st day of the 1st month following the month in which the effective date of the regulations described in subparagraph (A) occurs; or

(ii) July 1, 1985.

(C) NUMBER OF DESIGNATIONS.—

(i) IN GENERAL.—The Secretary of Housing and Urban Development may not designate more than 75 nominated areas as enterprise zones during the period beginning with the 1st day of the 36-month period described in subparagraph (B).

(ii) MINIMUM DESIGNATION IN RURAL AREAS.—Of the areas designated under clause (i), at least 1/3 must be areas that—

(I) are within a local government jurisdiction or jurisdictions with a population of less than 50,000 (as determined under the most recent census data available) and are determined by the Secretary of Housing and Urban Development, after consultation with the Secretary of Commerce, to be rural areas; or

(II) are outside of a metropolitan statistical area (as designated by the Director of the Office of Management and Budget).

(D) PROCEDURAL RULES.—The Secretary of Housing and Urban Development shall not make any designation under paragraph (1) unless—

(i) the local governments and the State in which the nominated area is located have the authority—

(I) to nominate such area for designation as an enterprise zone;

(II) to make the State and local commitments under subsection (d); and

(III) to provide assurances satisfactory to the Secretary of Housing and Urban Development that such commitments will be fulfilled;

(ii) a nomination therefor is submitted in such a manner and in such form, and contains such information, as the Secretary of Housing and Urban Development shall by regulation prescribe;

(iii) the Secretary of Housing and Urban Development determines that any information furnished is reasonably accurate; and

(iv) the State and local governments certify that no portion of the area nominated is already included in an enterprise zone or in an area otherwise nominated to be an enterprise zone.

(3) NOMINATION PROCESS FOR INDIAN RESERVATIONS.—In the case of a nominated area on an Indian reservation, the reservation governing body (as determined by the Secretary of the Interior) shall be deemed to be both the State and local governments with respect to such area.

(b) PERIOD FOR WHICH DESIGNATION IS IN EFFECT.—

(1) IN GENERAL.—Any designation of an area as an enterprise zone shall remain in effect during the period beginning on the date of the designation and ending on the earliest of—

(A) December 31 of the 24th calendar year following the calendar year in which such date occurs;

(B) the termination date designated by the State and local governments as provided for in their nomination pursuant to subsection (a)(2)(D)(ii); or

(C) the date the Secretary of Housing and Urban Development revokes such designation under paragraph (2).

(2) REVOCATION OF DESIGNATION.—The Secretary of Housing and Urban Development, after consultation with the officials described in subsection (a)(1)(B), may revoke the designation of an area if the Secretary of Housing and Urban Development determines that the local government or the State in which it is located is not complying substantially with the State and local commitments pursuant to subsection (d).

(c) AREA AND ELIGIBILITY REQUIREMENTS.—

(1) IN GENERAL.—The Secretary of Housing and Urban Development may make a designation of any nominated area under subsection (a)(1) only if it meets the requirements of paragraphs (2) and (3).

(2) AREA REQUIREMENTS.—A nominated area meets the requirements of this paragraph if—

(A) the area is within the jurisdiction of the local government;

(B) the boundary of the area is continuous; and

(C) the area—

(i) has a population, as determined by the most recent census data available, of at least—

(I) 4,000 if any portion of such area (other than a rural area described in subsection (b)(2)(C)(ii)(I)) is located within a metropolitan statistical area (as designated by the Director of the Office of Management and Budget) with a population of 50,000 or greater; or

(II) 1,000 in any other case; or

(ii) is entirely within an Indian reservation (as determined by the Secretary of the Interior).

(3) ELIGIBILITY REQUIREMENTS.—For purposes of paragraph (1), a nominated area meets the requirements of this paragraph if the State and local governments in which it is located certify and the Secretary of Housing and Urban Development, after such review of supporting data as he deems appropriate, accepts such certification, that—

(A) the area is one of pervasive poverty, unemployment, and general distress;

(B) the area is located wholly within the jurisdiction of a local government that is eligible for Federal assistance under section 119 of the Housing and Community Development Act of 1974, as in effect on the date of the enactment of this Act; and

(C) 1 of the following criteria is met:

(i) the unemployment rate, as determined by the appropriate available data, was at least 1.5 times the national unemployment rate for that period;

(ii) the poverty rate (as determined by the most recent census data available) for each populous census tract (or where not tracted, the equivalent county division as defined by the Bureau of the Census for the purpose of defining poverty areas) within the area was at least 20 percent for the period to which such data relate;

(iii) at least 70 percent of the households living in the area have incomes below 80 percent of the median income of households of the local government (determined in the same manner as under section 119(b)(2) of the Housing and Community Development Act of 1974); or

(iv) the population of the area decreased by 20 percent or more between 1970 and 1980 (as determined from the most recent census data available).

(d) REQUIRED STATE AND LOCAL COMMITMENTS.—

(1) IN GENERAL.—No nominated area shall be designated as an enterprise zone unless the local government and the State in which it is located agree in writing that, during any period during which the area is an enterprise zone, such governments will follow a specified course of action designated to reduce the various burdens borne by employers or employees in such area.

(2) COURSE OF ACTION.—The course of action under paragraph (1) may be implemented by both such governments and private nongovernmental entities, may be funded from proceeds of any Federal program, and may include, but is not limited to—

(A) a reduction of tax rates or fees applying within the enterprise zone;

(B) an increase in the level of efficiency of local services within the enterprise zone, such as crime prevention (particularly through experimentation with providing such services by nongovernmental entities);

(C) actions to reduce, remove, simplify, or streamline governmental requirements applying within the enterprise zone; and

(D) involvement in the program by private entities, organizations, neighborhood associations, and community groups, particularly those within the nominated area, including a commitment from such private entities to provide jobs and job training for, and technical, financial, or other assistance to, employers, employees, and residents of the nominated area.

(e) PRIORITY OF DESIGNATION.—In choosing nominated areas for designation, the Secretary of Housing and Urban Development shall give special preference to the areas with respect to which the strongest and highest quality contributions described in subsection (d)(2) have been promised as part of the course of action, taking into consideration the fiscal ability of the nominat-

ing State and local governments to provide tax relief. The Secretary shall also give preference to—

(1) the nominated areas with respect to which the strongest and highest quality contributions other than those described in subsection (d)(2) have been promised as part of the course of action;

(2) the nominated areas with respect to which the nominating State and local governments have provided the most effective and enforceable guarantees that the proposed course of action under subsection (d) will actually be carried out during the period of the enterprise zone designation;

(3) the nominated areas with high levels of poverty, unemployment, and general distress, particularly the areas—

(A) that are near areas with concentrations of disadvantaged workers or long-term unemployed individuals; and

(B) with respect to which there is a strong likelihood that residents of the area described in subparagraph (A) will receive jobs if the area is designated as an enterprise zone;

(4) the nominated areas the size and location of which—

(A) will primarily stimulate new economic activity; and

(B) minimize unnecessary tax losses to the Federal Government;

(5) the nominated areas with respect to which private entities have made the most substantial commitments in additional resources and contributions, including the creation of new or expanded business activities; and

(6) the nominated areas that best exhibit such other factors determined by the Secretary of Housing and Urban Development as are—

(A) consistent with the intent of the enterprise zone program; and

(B) important to minimizing the unnecessary loss of tax revenues to the Federal Government.

(f) DEFINITIONS.—For purposes of this section:

(1) GOVERNMENT.—If more than 1 government seeks to nominate an area as an enterprise zone, any reference to, or requirement of, this section shall apply to all such governments.

(2) LOCAL GOVERNMENT.—The term "local government" means—

(A) any county, city, town, township, parish, village, or other general purpose political subdivision of a State;

(B) any combination of political subdivisions described in subparagraph (A) recognized by the Secretary of Housing and Urban Development; and

(C) the District of Columbia.

(3) STATE.—The term "State" includes Puerto Rico, the Virgin Islands, Guam, American Samoa, the Northern Mariana Islands, and any other possession of the United States.

SEC. 2702. EVALUATION AND REPORTING REQUIREMENTS.

Not later than the close of the 4th calendar year after the year in which the Secretary of Housing and Urban Development first designates areas as enterprise zones, and at the close of each 4th calendar year thereafter, the Secretary of Housing and Urban Development shall prepare and submit to the Congress a report on the effects of such designation in accomplishing the purposes of this subtitle.

SEC. 2703. INTERACTION WITH OTHER FEDERAL PROGRAMS.

(a) TAX REDUCTIONS.—Any reduction of taxes under any required program of State and local commitment under section 701(d) shall be disregarded in determining the eligibility of a State or local government for, or the amount or extent of, any assistance or benefits under any law of the United States.

(b) COORDINATION WITH RELOCATION ASSISTANCE.—The designation of an enterprise zone under section 701 shall not—

(1) constitute approval of a Federal or federally assisted program or project (within the meaning of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (42 U.S.C. 4601)); or

(2) entitle any person displaced from real property located in such zone to any rights or any benefits under such Act.

(c) COORDINATION WITH ENVIRONMENTAL POLICY.—Designation of an enterprise zone under section 701 shall not constitute a Federal action for purposes of applying the requirements of the National Environmental Policy Act (42 U.S.C. 4341) or other provisions of Federal law relating to the protection of the environment.

SEC. 2704. WAIVER OR MODIFICATION OF CERTAIN AGENCY RULES IN ENTERPRISE ZONES.

(a) IN GENERAL.—Upon the written request of the governments that designated and approved an area that has been designated as an enterprise zone under section 701, an agency is authorized, in order to further the job creation, community development, or economic revitalization objectives of the zone, to waive or modify all or part of any rule that it has authority to promulgate, as such rule pertains to the carrying out of projects, activities, or undertakings within the zone.

(b) LIMITATION.—Nothing in this section shall authorize an agency to waive or modify any rule adopted to carry out a statute or Executive order that prohibits, or the purpose of which is to protect persons against, discrimination on the basis of race, color, religion, sex, marital status, national origin, age, or handicap.

(c) SUBMISSION OF REQUESTS.—A request under subsection (a) shall specify the rule or rules to be waived or modified and the change proposed, and shall briefly describe why the change would promote the achievement of the job creation, community development, or economic revitalization objectives of the enterprise zone. If a request is made to an agency other than the Department of Housing and Urban Development, the requesting governments shall send a copy of the request to the Secretary of Housing and Urban Development at the time the request is made.

(d) CONSIDERATION OF REQUESTS.—In considering a request, the agency shall weigh the extent to which the proposed change is likely to further job creation, community development, or economic revitalization within the enterprise zone against the effect the change is likely to have on the underlying purposes of applicable statutes in the geographic area that would be affected by the change. The agency shall approve the request whenever it finds, in its discretion, that the public interest that the proposed change would serve in furthering such job creation, community development, or economic revitalization outweighs the public interest that continuation of the rule unchanged would serve in furthering such underlying purposes. The agency shall not approve any request to waive or modify a rule if such waiver or modification would—

(1) directly violate a statutory requirement (including any requirement of the Fair Labor Standards Act of 1938 (29 U.S.C. 201 et seq.)); or

(2) be likely to present a significant risk to the public health, including environmental health or safety, such as a rule with respect to occupational safety or health, or environmental pollution.

(e) NOTICE OF DISAPPROVAL.—If a request is disapproved, the agency shall inform the requesting governments in writing of the reasons therefor and shall, to the maximum extent possible, work with such governments to develop an alternative, consistent with the standards contained in subsection (d).

(f) PERIOD FOR DETERMINATION.—Agencies shall discharge their responsibilities under this section in an expeditious manner, and shall make a determination on requests not later than 90 days after their receipt.

(g) APPLICABLE PROCEDURES.—A waiver or modification of a rule under subsection (a) shall not be considered to be a rule, rulemaking, or regulation under chapter 5 of title 5, United States Code. To facilitate reaching its decision on any requested waiver or modification, the agency may seek the views of interested parties and, if the views are to be sought, determine how they should be obtained and to what extent, if any, they should be taken into account in considering the request. The agency shall publish a notice in the Federal Register stating any waiver or modification of a rule under this section.

(h) EFFECT OF SUBSEQUENT AMENDMENT OF RULES.—In the event that an agency proposes to amend a rule for which a waiver or modification under this section is in effect, the agency shall not change the waiver or modification to impose additional requirements unless it determines, consistent with standards contained in subsection (d), that such action is necessary.

(i) EXPIRATION OF WAIVERS AND MODIFICATIONS.—No waiver or modification of a rule under this section shall remain in effect for a period longer than the period for which the enterprise zone designation remains in effect for the area in which the waiver or modification applies.

(j) DEFINITIONS.—For purposes of this section:

(1) AGENCY.—The term "agency" means the Department of Housing and Urban Development and, with respect to any rule issued under title V of the Housing Act of 1949, the Department of Agriculture.

(2) RULE.—The term "rule" means (A) any rule as defined in section 551(4) of title 5, United States Code; or (B) any rulemaking conducted on the record after opportunity for an agency hearing pursuant to sections 556 and 557 of such title 5.

SEC. 2705. COORDINATION OF HOUSING AND URBAN DEVELOPMENT PROGRAMS IN ENTERPRISE ZONES.

Section 3 of the Department of Housing and Urban Development Act is amended by adding at the end thereof the following new subsection:

"(d) The Secretary shall—

"(1) promote the coordination of all programs under the jurisdiction of the Secretary that are carried on within an enterprise zone designated pursuant to section 701 of the Housing Act of 1985;

"(2) expedite, to the greatest extent possible, the consideration of applications for programs referred to in paragraph (1)

through the consolidation of forms or otherwise; and

"(3) provide, whenever possible, for the consolidation of periodic reports required under programs referred to in paragraph (1) into 1 summary report submitted at such intervals as may be designated by the Secretary.".

TITLE III—COMMITTEE ON EDUCATION AND LABOR

Subtitle A—Amendments to the Higher Education Act of 1965

PART 1—AMENDMENTS RELATING TO FEDERALLY INSURED AND GUARANTEED STUDENT LOANS

SEC. 3101. RECOVERY OF OUTSTANDING ADVANCES TO GUARANTY AGENCIES.

Section 422 of the Higher Education Act of 1965 (hereafter in this subtitle referred to as "the Act") is amended by adding at the end thereof the following new subsection:

"(d)(1) Notwithstanding any other provision of this section, advances made by the Secretary under this section shall be repaid in accordance with this paragraph and shall be deposited in the fund established by section 431. The Secretary shall, in accordance with the requirements of paragraph (2), recover (and so deposit) an amount equal to $50,000,000 during fiscal year 1988.

"(2) In determining the amount of advances which shall be repaid by a State or nonprofit private institution or organization under paragraph (1), the Secretary—

"(A) shall consider the solvency and maturity, as determined by the Comptroller General, of the reserve and insurance funds of the State or nonprofit private institution or organization assisted by such advances; and

"(B) shall not seek repayment of such advances from any State described in subsection (c)(5)(B) during any year of its eligibility under such subsection.".

SEC. 3102. DISBURSEMENT OF STUDENT LOANS TO INSTITUTIONS REQUIRED.

(a) FISL LOANS REQUIREMENT.—Section 427(a)(2)(I) of the Act is amended to read as follows:

"(I) the funds borrowed by a student are disbursed to the institution by check or other means that is payable to and requires the endorsement or other certification by such student, except nothing in this subparagraph shall be interpreted to allow the Secretary to require checks to be made copayable to the institution and the borrower or to prohibit the disbursement of loan proceeds by means other than by check; and".

(b) GSL LOANS REQUIREMENT.—Section 428(b)(1)(O) of the Act is amended to read as follows:

"(O) provides that funds borrowed by a student are disbursed to the institution by check or other means that is payable to and requires the endorsement or other certification by such student, except nothing in this subparagraph shall be interpreted to allow the Secretary to require checks to be made co-payable to the institution and the borrower or to prohibit the disbursement of loan proceeds by means other than by check;".

(c) CONFORMING AMENDMENT.—Section 433A(a) of the Act is amended by striking out "to a borrower" in the first sentence.

SEC. 3103. NEED REQUIREMENTS AND SCREENING OF PELL GRANT—ELIGIBLE STUDENTS.

(a) REQUIREMENT THAT FISL AND GSL BORROWERS FIRST OBTAIN PELL GRANT ELIGIBILITY DETERMINATION.—Section 428(a)(2)(A) of the Act is amended—

(1) by striking out "and" at the end of clause (i);

(2) by striking out the period at the end of clause (ii) and inserting in lieu thereof "; and"; and

(3) by adding at the end thereof the following new clause:

"(iii) in the case of any student other than a graduate or professional student (as defined in regulations of the Secretary), have obtained a determination of eligibility or ineligibility for a grant under subpart 1 of part A of this title.".

(b) NEED ANALYSIS REQUIRED FOR ALL FISL AND GSL BORROWERS.—Section 428(a)(2)(B) of the Act is amended to read as follows:

"(B) For the purposes of clause (ii) of subparagraph (A), a student shall qualify for a portion of an interest payment under paragraph (1) if the eligible institution has provided the lender with a statement evidencing a determination of need for a loan and the amount of such need, subject to the provisions of subparagraph (F).".

SEC. 3104. MULTIPLE DISBURSEMENTS OF STUDENT LOANS REQUIRED.

(a) REPEAL OF INCENTIVES TO LENDERS TO MAKE MULTIPLE DISBURSEMENTS.—Section 428(a) of the Higher Education Act of 1965 (20 U.S.C. 1078(a)) is amended by striking out paragraph (8).

(b) MULTIPLE DISBURSEMENT REQUIRED IN FISL PROGRAM.—Section 427(a) of the Act is amended—

(1) by striking out "and" at the end of paragraph (1);

(2) by striking out the period at the end of paragraph (2) and inserting in lieu thereof "; and"; and

(3) by adding at the end thereof the following:

"(3) in the case of a loan made for any period of enrollment of more than six months, one semester, two quarters, or 600 clock hours and for an amount of $1,000 or more, the proceeds of the loan will be disbursed directly by the lender in two or more installments, none of which exceeds one-half of the loan, with the interval between the first and second installment being not less than one-third of such period.

For purposes of paragraph (3), all loans issued for the same period of enrollment shall be considered as a single loan.".

(c) MULTIPLE DISBURSEMENTS REQUIRED IN GSL PROGRAM.—Section 428(b)(1) of such Act is amended—

(1) by redesignating subparagraph (P) as subparagraph (Q); and

(2) by inserting after subparagraph (O) the following new subparagraph:

"(P) provides that the proceeds of any loan made for any period of enrollment of more than six months, one semester, two quarters, or 600 clock hours and for an amount of $1,000 or more—

"(i) will be disbursed directly by the lender in two or more installments, none of which exceeds one-half of the loan, with the interval between the first and second installment being not less than one-third of such period, or

"(ii) will be disbursed in such installments pursuant to the escrow provisions of subsection (i) of this section,

but all loans issued for the same period of enrollment shall be considered as a single loan for purposes of this subparagraph; and".

(d) ORIGINATION FEE TO BE DEDUCTED PROPORTIONATELY FROM EACH INSTALLMENT.—Section 438(c)(2) of the Act is amended by striking out "which may be deducted from the proceeds of the loan prior to payment to the borrower" and inserting in lieu thereof "which shall be deducted proportionately from each installment payment of the proceeds of the loan to the borrower".

(e) CONFORMING AMENDMENTS.—(1) Section 425(a)(1) of the Act is amended—

(A) by inserting "and" at the end of subparagraph (A), by striking out subparagraph (B), and by redesignating subparagraph (C) as subparagraph (B); and

(B) by striking out the last sentence.

(2) Section 428(a)(3)(A) of the Act is amended—

(A) by striking out "Except as provided in paragraph (8) and subject" and inserting in lieu thereof "Subject"; and

(B) by striking out "but, except as provided in paragraph (8) of this subsection, such portion" and inserting in lieu thereof "but such portion".

(3) Section 428(b)(1)(A) of such Act is amended—

(A) by inserting "and" at the end of division (i);

(B) by striking out division (ii) and by redesignating division (iii) as division (ii); and

(C) in the matter following such division, by striking out "annual limit," and all that follows and inserting in lieu thereof "annual limit;".

SEC. 3105. INSURANCE PREMIUM.

Section 428(b)(1)(H) of the Act is amended to read as follows:

"(H) provides for collection of an insurance premium equal to 3 per centum per loan, by deduction proportionately from each installment payment of the proceeds of the loan to the borrower, and insures that the proceeds of the premium will not be used for incentive payments to lenders;".

SEC. 3106. AGREEMENT FOR AUDITS.

Section 428(b)(2) of the Act is amended—

(1) by striking out "and" at the end of subparagraph (B);

(2) by striking out the period at the end of subparagraph (C) and inserting in lieu thereof "; and"; and

(3) by inserting after such subparagraph the following:

"(D) provide for—

"(i) conducting, except as provided in clause (ii), financial and compliance audits of the guaranty agency at least once every two years and covering the period since the most recent audit, conducted by a qualified, independent organization or person in accordance with standards established by the Comptroller General for the audit of governmental organizations, programs, and functions, and as prescribed in regulations of the Secretary, the results of which shall be submitted to the Secretary; or

"(ii) with regard to a guaranty program of a State which is audited under chapter 75 of title 31, United States Code, deeming such audit to satisfy the requirements of clause (i) for the period of time covered by such audit.".

SEC. 3107. PRECLAIM COLLECTION ACTIVITIES.

(a) DELAY REQUIRED BEFORE SUBMISSION OF CLAIMS BY GUARANTY AGENCIES.—Section 428(c)(1)(A) of the Act is amended by adding at the end thereof the following new sentence: "In no case shall a State or nonprofit private institution or organization with which the Secretary has an agreement pursuant to subsection (b) file a claim for such reimbursement with respect to such losses prior to 210 days after the loan becomes delinquent with respect to any installment thereon.".

(b) SUPPLEMENTAL PRECLAIMS ASSISTANCE.—Section 428(c)(6) of the Act is amended—

(1) in subparagraph (A), by inserting after "assistance for default prevention," the following: "the administrative costs of supplemental preclaims assistance for default prevention,";

(2) in such subparagraph, by striking out "as such terms are defined in subparagraph (B)" and inserting in lieu thereof "as such terms are defined in subparagraph (B) or (C)"; and

(3) by adding at the end thereof the following new subparagraph:

"(C)(i) For purposes of this paragraph, 'administrative costs of supplemental preclaims assistance' means (subject to divisions (ii) through (iv)) any administrative costs—

"(I) incurred by a guaranty agency in connection with a loan on which the guarantor has exercised preclaims assistance required or permitted under sections 428(c)(2)(A) and 428(f)(2), and which has been in delinquent status for at least 120 days; and

"(II) which are directly related to providing collection assistance to the lender on a delinquent loan, prior to a claim being filed with the guaranty agency,

including the attributable compensation of appropriate personnel (and in the case of personnel who perform several functions, only the portion of compensation attributable to the collection assistance), fees paid to locate a missing borrower, postage, equipment, supplies, telephone, and similar charges, but does not include overhead costs.

"(ii) The administrative costs for which reimbursement is authorized under this subparagraph must be clearly supplemental to the preclaim assistance for default prevention which the guaranty agency is required or permitted to provide pursuant to section 428(c)(2)(A) and section 428(f)(2) of this Act.

"(iii) The services associated with carrying out this subparagraph may be provided by the guaranty agency directly or under contract, except that such services may not be carried out by an organization or entity (other than the guaranty agency)—

"(I) that is the holder or servicer of the loan or an organization or entity that owns or controls the holder or servicer of the loan; or

"(II) that is owned or controlled by the same corporation, partnership, association, or individual that owns or controls the holder or servicer of the loan.

"(iv) The costs for each delinquent loan associated with carrying out this subparagraph may not exceed 2 per centum of the outstanding principal balance of each such loan subject to the supplemental preclaims assistance authorized by this subparagraph or $100, whichever is less.".

SEC. 3108. STATUTE OF LIMITATIONS.

Section 428(d) of the Act is amended—

(1) by redesignating clauses (A) and (B) of paragraph (2) as clauses (i) and (ii), respectively;

(2) by redesignating paragraphs (1) and (2) as subparagraphs (A) and (B), respectively;

(3) by inserting "(1)" before "No provision of any law"; and

(4) by adding at the end thereof the following new paragraphs:

"(2) Notwithstanding any provision of State law that would set an earlier deadline for filing suit—

"(A) a guaranty agency which has an agreement with the Secretary under subsection (c) may file suit for collection of the amount due from a borrower on a loan made under this part during a period of time extending at least until a date six years (exclusive of periods during which the State statute of limitations period otherwise applicable to the suit would be tolled under State law) after the date such guaranty agency reimburses the previous holder of the loan for its loss on account of the default of the borrower; and

"(B) subject to the provisions of section 2416 of title 28 of the United States Code, the Attorney General may file suit for collection of the amount due the Secretary from a borrower pursuant to subsection (c)(2)(D) of this section until six years following the date on which the loan is assigned to the Secretary under this part.".

SEC. 3109. ADMINISTRATIVE COST PAYMENTS.

Section 428(f) of the Act is amended—

(1) by striking out "is authorized to make payments" each place it appears in the first sentence of paragraphs (1) and (2) and inserting in lieu thereof "shall make payments";

(2) by striking out "shall not exceed" each place it appears in the second sentence of such paragraphs and inserting in lieu thereof "shall be equal to"; and

(3) by striking out the third and fourth sentences of each such paragraph.

SEC. 3110. RECOVERY OF COSTS.

Section 430(b) of the Act is amended—

(1) by striking out "(b)(1)" and inserting in lieu thereof "(b)";

(2) by striking out "(including reasonable administrative costs)" and inserting in lieu thereof the following: "(including reasonable administrative and collection costs, to the extent set forth in regulations issued by the Secretary)"; and

(3) by striking out paragraph (2).

SEC. 3111. CREDIT BUREAU REPORTS.

Part B of the Act is amended by adding immediately after section 430 the following new section:

"REPORTS TO CREDIT BUREAUS AND INSTITUTIONS OF HIGHER EDUCATION

"SEC. 430A. (a) For the purpose of promoting responsible repayment of loans covered by Federal loan insurance pursuant to this part or covered by a guaranty agreement pursuant to section 428, the Secretary, and each guaranty agency having a guaranty agreement with the Secretary under section 428, shall enter into agreements with credit bureau organizations to exchange information concerning student borrowers, in accordance with the requirements of this section. For the purpose of assisting such organizations in complying with the Fair Credit Reporting Act, such agreements may provide for timely response by the Secretary, concerning loans covered by Federal loan insurance, or by a guaranty agency, concerning loans covered by a guaranty agreement, to requests from such organizations for responses to objections raised by borrowers. Subject to the requirements of subsection (c), such agreements shall require the Secretary or the guaranty agency, as appropriate, to disclose to such organizations, with respect to any loan under this part—

"(1) the date of disbursement and the amount of the loan;

"(2) information concerning the date of any default on the loan and the collection of the loan, including information concerning the repayment status of any defaulted loan on which the Secretary has made a payment pursuant to section 430(a) or the guaranty agency has made a payment to the previous holder of the loan; and

"(3) the date of cancellation of the note upon completion of repayment by the borrower of the loan or payment by the Secretary pursuant to section 437.

"(b) Such agreements may also provide for the disclosure by such organizations to the Secretary or a guaranty agency, whichever insures or guarantees a loan, upon receipt of a notice under subsection (a)(2) that such a loan is in default, of information concerning the borrower's location or other information which may assist the Secretary, the guaranty agency, the eligible lender, or the subsequent holder in collecting the loan.

"(c) Agreements entered into pursuant to this section shall contain such provisions as may be necessary to ensure that—

"(1) no information is disclosed by the Secretary or the guaranty agency unless its accuracy and completeness have been verified and the Secretary or the guaranty agency has determined that disclosure would accomplish the purposes of this section;

"(2) as to any information so disclosed, such organizations will be promptly notified of, and will promptly record, any change submitted by the Secretary or the guaranty agency with respect to such information, or any objections by the borrower with respect to any such information, as required by section 611 of the Fair Credit Reporting Act (15 U.S.C. 1681i);

"(3) no use will be made of any such information which would result in the use of collection practices with respect to such a borrower that are not fair and reasonable or that involve harassment, intimidation, false or misleading representations, or unnecessary communication concerning the existence of such loan or concerning any such information; and

"(4) with regard to notices of default under subsection (a)(2) of this section, except for disclosures made to obtain the borrower's location, the guaranty agency, eligible lender, or subsequent holder (A) shall not disclose any such information until he has notified the borrower that such information will be disclosed to credit bureau organizations unless the borrower enters into repayment of his loan, but (B) shall, if the borrower has not entered into repayment within a reasonable period of time, but not less than thirty days, from the date such notice has been sent to the borrower, disclose the information required by this subsection.

"(d) A guaranty agency or credit bureau organization which discloses or receives information under this section shall not be considered a Government contractor within the meaning of section 552a of title 5, United States Code.

"(e) The Secretary and each guaranty agency, eligible lender, and subsequent holder of a loan are authorized to disclose information described in subsections (a) and (b) concerning student borrowers to the eligible institutions such borrowers attend or previously attended.

"(f) Notwithstanding paragraphs (4) and (6) of subsection (a) of section 605 of the Fair Credit Reporting Act (15 U.S.C. 1681c(a)(4), (a)(6)), a consumer reporting agency may make a report containing information received from the Secretary or a guaranty agency, eligible lender, or subsequent holder regarding the status of a borrower's account on a loan guaranteed under this part until—

"(1) seven years from the date on which the Secretary or the agency paid a claim to the holder on the guaranty, or

"(2) with regard to an account on a loan on which the Secretary or the guaranty agency has paid a claim but not reported the account to a consumer reporting agency on or before October 1, 1985, seven years from that date.".

SEC. 3112. CIVIL PENALTIES.

Section 432 of the Act is further amended by adding at the end thereof the following new subsection:

"(f)(1) Upon determination, after reasonable notice and opportunity for a hearing on the record, that a lender or a guaranty agency—

"(A) has violated or failed to carry out any provision of this part or any regulation prescribed under this part, or

"(B) has engaged in substantial misrepresentation of the nature of its financial charges,

the Secretary may impose a civil penalty upon such lender or agency of not to exceed $25,000 for each violation, failure, or misrepresentation.

"(2) No civil penalty may be imposed under paragraph (1) of this subsection unless it is determined that the violation, failure or substantial misrepresentation referred to in that paragraph resulted from—

"(A)(i) a clear and consistent pattern or practice of violations, failures, or substantial misrepresentations in which the lender or guaranty agency did not maintain procedures reasonably adapted to avoid the violation, failure, or substantial representation;

"(ii) gross negligence; or

"(iii) willful actions on the part of the lender or guaranty agency; and

"(B) the violation, failure, or substantial misrepresentation is material.

"(3) A lender or guaranty agency has no liability under paragraph (1) of this subsection if, prior to the institution of an action under that paragraph, the lender or guaranty agency cures or corrects the violation or failure or notifies the person who received the substantial misrepresentation of the actual nature of the financial charges involved.

"(4) For the purposes of paragraph (1) of this subsection, violations, failures, or substantial misrepresentations arising from a specific practice of a lender or guaranty agency shall be deemed to be a single violation, failure, or substantial misrepresentation even if the violation, failure, or substantial misrepresentation affects more than one loan or more than one borrower, or both, and the Secretary may only impose a single civil penalty for each such violation, failure, or substantial misrepresentation.

"(5) If a loan affected by a violation, failure, or substantial misrepresentation is assigned to another holder, the lender or guaranty agency responsible for the violation, failure, or substantial misrepresentation shall remain liable for any civil money penalty provided for under paragraph (1) of this subsection, but the assignee shall not be liable for any such civil money penalty.

"(6) Until a matter is referred to the Attorney General, any civil penalty under paragraph (1) of this subsection may be compromised by the Secretary. In determining the amount of such penalty, or the amount agreed upon in compromise, the appropriateness of the penalty to the resources of the lender or guaranty agency subject to the determination; the gravity of the violation, failure, or substantial misrepresentation; the frequency and persistence of the violation, failure, or substantial misrepresentation; and the amount of any losses resulting from the violation, failure, or substantial misrepresentation shall be considered. The amount of such penalty, when finally determined, or the amount agreed upon in compromise, may be deducted from any sums owing by the United States to the lender or agency charged (unless the lender or agency has in the case of a final agency determination commenced proceedings for judicial review within 90 days of the determination, in which case the deduction may not be made during the pendency of the proceeding).".

SEC. 3113. INDEBTEDNESS OF STUDENT LOAN MARKETING ASSOCIATION.

Section 439(h)(1) of the Act is amended by adding at the end thereof the following new sentence: "To the extent that the average outstanding amount of the obligations owned by the Association pursuant to the authority contained in subsection (d)(1)(B) of this section and as to which the income is exempt from taxation under the Internal Revenue Code of 1954 does not exceed the average stockholders' equity of the Association, the interest on obligations issued under this paragraph shall not be deemed to be interest on indebtedness incurred or continued to purchase or carry obligations for purposes of section 265 of the Internal Revenue Code of 1954.".

SEC. 3114. EXTENSION OF PROGRAM.

(a) EXTENSION OF AUTHORITY.—Part B of title IV of the Act is amended—

(1) in section 424(a)—

(A) by striking out "1986" and inserting in lieu thereof "1988";

(B) by striking out "1990" and inserting in lieu thereof "1992";

(2) in section 428(a)(5)—

(A) by striking out "1986" and inserting in lieu thereof "1988";

(B) by striking out "1990" and inserting in lieu thereof "1992"; and

(3) in section 439(l), by striking out "1988" and inserting in lieu thereof "1990".

(b) EXTENSION OF FAMILY CONTRIBUTION SCHEDULES.—Section 9 of the Student Financial Assistance Technical Amendments Act of 1982 is amended—

(1) in subsection (a), by striking out "and from July 1, 1986, through June 30, 1987," and inserting in lieu thereof "from July 1, 1986, through June 30, 1987, from July 1, 1987, through June 30, 1988, from July 1, 1988, through June 30, 1989, and from July 1, 1989, through June 30, 1990,"; and

(2) in subsection (c)—

(A) by striking out "and" at the end of paragraph (3);

(B) by striking out the comma at the end of paragraph (4) and inserting in lieu thereof a semicolon; and

(C) by inserting after such paragraph the following new paragraphs:

"(5) April 1, 1987, for the period of instruction from July 1, 1987, through June 30, 1988;

"(6) April 1, 1988, for the period of instruction from July 1, 1988, through June 30, 1989; and

"(7) April 1, 1989, for the period of instruction from July 1, 1989, through June 30, 1990,".

PART 2—AMENDMENTS RELATING TO THE NATIONAL DIRECT STUDENT LOAN PROGRAM

SEC. 3121. ASSIGNMENT AND REFERRAL OF LOANS FOR COLLECTION.

Section 463(a)(5) of the Act is amended to read as follows:

"(5) provide that where a note or written agreement evidencing a loan has been in default despite due diligence on the part of the institution in attempting collection thereon—

"(A) if the institution has knowingly failed to maintain an acceptable collection record with respect to such loan, as determined by the Secretary in accordance with criteria established by regulation, the Secretary may—

"(i) require the institution to assign such note or agreement to the Secretary, without recompense; and

"(ii) apportion any sums collected on such a loan, less an amount not to exceed 30 per centum of any sums collected to cover the Secretary's collection costs, among other institutions in accordance with section 462; or

"(B) if the institution is not one described in clause (A), the Secretary may allow it to refer such note or agreement to the Secretary, without recompense, except that any sums collected on such a loan, less an amount not to exceed 30 per centum of any sums collected to cover the Secretary's collection costs, shall be repaid to such institution and treated as if a part of Federal capital contributions from funds appropriated under section 461;".

SEC. 3122. REPORTING BY CONSUMER REPORTING AGENCY.

Section 463(c) of the Act is amended by adding the following new paragraph:

"(3) Notwithstanding paragraphs (4) and (6) of subsection (a) of section 605 of the Fair Credit Reporting Act (15 U.S.C. 1681c(a)(4), (a)(6)), a consumer reporting agency may make a report containing information received from the Secretary regarding the status of a borrower's account on a loan made under this part until—

"(A) seven years from the date on which the Secretary accepted an assignment or referral of a loan, or

"(B) seven years from the date the Secretary first reports the account to a consumer reporting agency, if that account has not been previously reported by any other holder of the note.".

SEC. 3123. DEFAULT PENALTY.

Section 463A(a)(7) of the Act is amended by inserting immediately before the semicolon at the end thereof the following: "and a description of any penalty imposed as a consequence of default, such as liability for expenses reasonably incurred in attempts by the Secretary or institutions to collect on a loan".

SEC. 3124. STUDENT LOAN AGREEMENTS.

(a) CHARGES FOR LATE PAYMENTS.—Section 464(c)(1)(H) of the Act is amended to read as follows:

"(H) pursuant to regulations of the Secretary, shall provide for an assessment of a charge with respect to the loan for failure of the borrower to pay all or part of an installment when due, which shall include the expenses reasonably incurred in attempting collection of the loan, to the extent permitted by the Secretary, except that no charge imposed under this clause shall exceed 20 per centum of the amount of the monthly payment of the borrower; and".

(b) CONFORMING AMENDMENT.—Section 464(c)(4) of the Act is amended to read as follows:

"(4) The institution may elect—

"(A) to add the amount of any charge imposed under paragraph (1)(H) to the principal amount of the loan as of the first day after the day on which the installment was due and to notify the borrower of the assessment of the charge; or

"(B) to make the amount of the charge payable to the institution not later than the due date of the next installment.".

SEC. 3125. REFERRAL FOR COLLECTION.

Section 467(a) of the Act is amended—

(1) by inserting immediately after "attempt to collect" a comma and "by any means authorized by law, including referral to the Attorney General for litigation, for collecting claims of the United States"; and

(2) by striking out the comma after "any loan".

SEC. 3126. FEDERAL COLLECTION PROCEDURE.

Section 467(b) of the Act (20 U.S.C. 1087gg(b)) is amended to read as follows:

"(b) The Secretary shall continue to attempt to collect any loan referred or assigned under section 465(a)(5) or (6) until all appropriate collection efforts, as determined by the Secretary, have been expended.".

SEC. 3127. STATUTE OF LIMITATIONS.

Part E of title IV of the Act is amended by adding immediately after section 467 the following new section:

"STATUTE OF LIMITATIONS

"SEC. 467A. Notwithstanding any provision of State law that would set an earlier deadline for filing suit—

"(1) an institution which has an agreement with the Secretary pursuant to section 463(a) may file suit for collection of the amount due from a borrower on a loan made under this part during a period of time extending at least until a date six years (exclusive of periods during which the State statute of limitations period otherwise applicable to the suit would be tolled under State law) after the date of the default of the borrower with respect to that amount; and

"(2) subject to the provisions of section 2416 of title 28 of the United States Code, the Attorney General may file suit for collection of the amount due from a borrower on a loan made under this part until six years following the date on which the loan is assigned or referred to the Secretary under this part.".

PART 3—AMENDMENTS RELATING TO STUDENT ASSISTANCE GENERALLY

SEC. 3131. EXCLUSION OF LIQUIDATION PROCEEDS FROM FAMILY CONTRIBUTION COMPUTATIONS.

Section 482 of the Act is amended by adding at the end thereof the following new subsection:

"(f) The Secretary shall, within 30 days after the date of enactment of this subsection, promulgate special regulations to permit, in the computation of family contributions for the programs under subpart 1 of part A and part B of this title for any academic year beginning on or after July 1, 1985, the exclusion from family income of any proceeds of a sale of farm or business assets of that family if such sale results from a voluntary or involuntary foreclosure, forfeiture, or bankruptcy.".

SEC. 3132. STUDENT ELIGIBILITY.

Section 484(a) of the Act is amended—

(1) by striking out the word "such" each place it appears in paragraph (4) and inserting in lieu thereof "any"; and

(2) by striking out "(which need not be notarized)" in paragraph (5) and inserting in lieu thereof "(which need not be notarized but which shall include such student's social security number or, if the student does not have a social security number, such student's student identification number)".

SEC. 3133. STATUTE OF LIMITATIONS.

Part F of title IV of the Act is amended by adding immediately after section 484 the following new section:

"STATUTE OF LIMITATIONS

"SEC. 484A. (a) Notwithstanding any provision of State law that would set an earlier deadline for filing suit—

"(1) an institution which receives funds under this title may file suit for collection of a refund due from a student on a grant made or work assistance awarded under this title during a period of time extending at least until a date six years (exclusive of periods during which the State statute of limitations period otherwise applicable to the suit would be tolled under State law) after the date the refund first became due; and

"(2) subject to the provisions of section 2416 of title 28 of the United States Code, the Attorney General may file suit for payment of a refund due from a student on a grant made under this title until six years following the date on which the refund first became due.

"(b) Notwithstanding any provision of State law to the contrary, a borrower who has defaulted on a loan made under this title shall be required to pay, in addition to other charges specified in this title, reasonable collection costs.".

SEC. 3134. PROGRAM PARTICIPATION AGREEMENTS.

(a) USE OF INTEREST ON FUNDS RECEIVED.—Section 487(a)(1) of the Act is amended to read as follows:

"(1) The institution will use funds received by it for any program under this title and any interest or other earnings thereon solely for the purposes specified in and in accordance with the provision of that program.".

(b) AUDIT AND RECOVERY OF FUNDS.—Section 487(b)(1) of the Act is amended by striking out subparagraph (A) and inserting in lieu thereof the following:

"(A)(i) except as provided in clause (ii), a financial and compliance audit of an eligible institution, with regard to any funds obtained by it under this title or obtained from a student or a parent who has a loan insured or guaranteed by the Secretary under this title, at least once every two years and covering the period since the most recent audit, conducted by a qualified, independent organization or person in accordance with standards established by the Comptroller General for the audit of governmental organization, programs, and functions, and as prescribed in regulations of the Secretary, the results of which shall be submitted to the Secretary; or

"(ii) with regard to an eligible institution which is audited under chapter 75 of title 31, United States Code, deeming such audit to satisfy the requirements of clause (i) for the period covered by such audit;".

PART 4—EFFECTIVE DATES

SEC. 3141. EFFECTIVE DATES.

(a) IN GENERAL.—Except as provided in subsections (b), the amendments made by this subtitle shall take effect on October 1, 1985.

(b) EXCEPTIONS.—(1) The amendments made by sections 3102, 3123, and 3124 shall apply to loans to cover the cost of attendance for any period of enrollment beginning on or after July 1, 1986.

(2) The amendments made by sections 3103(a) and 3104 of this Act shall take effect on July 1, 1986.

(3) The amendment made by section 3105 shall take effect on October 1, 1986.

(4) The amendments made by sections 3106, 3108, 3110, 3111, 3112, 3121, 3122, 3125, 3126, and 3127 shall apply to all loans, including loans made before the enactment of this Act, and shall take effect ninety days after the date of enactment of this Act.

(5) The amendment made by section 3109 shall apply to any fiscal year beginning after September 30, 1984.

(6) The amendment made by section 3132 shall apply to grants, loans, or work assistance to cover the cost of attendance for any period of enrollment beginning on or after July 1, 1986.

(7) The amendment made by section 3133 shall apply to all grants, including grants awarded before the enactment of this Act, and shall take effect ninety days after the date of enactment of this Act.

(8) The amendment made by section 3134 shall apply to all grants, loans, or work assistance, including such assistance awarded before the date of enactment of this Act, and shall take effect ninety days after the date of enactment of this Act.

Subtitle B—Single-Employer Plan Termination Insurance Premiums

SEC. 3201. SHORT TITLE.

This subtitle may be cited as the "Single-Employer Pension Plan Termination Insurance Premium Act of 1985".

SEC. 3202. PREMIUM INCREASE.

(a) GENERAL RULE.—Section 4006(a)(3)(A)(i) of the Employee Retirement Income Security Act of 1974 (29 U.S.C. 1306(a)(3)(A)(i)) is amended by striking out, "for plan years beginning after December 31, 1977, an amount equal to $2.60" and inserting in lieu thereof "for plan years beginning after December 31, 1985, an amount equal to $8.50".

(b) CONFORMING AMENDMENT WITH RESPECT TO PLAN YEARS AFTER 1977.—Section 4006(c)(1) of such Act (29 U.S.C. 1306(c)(1)) is amended by striking out subparagraph (A) and inserting in lieu thereof the following new subparagraph:

"(A) in the case of each plan which was not a multiemployer plan in a plan year—

"(i) with respect to each plan year beginning before January 1, 1978, an amount equal to $1 for each individual who was a participant in such plan during the plan year, and

"(ii) with respect to each plan year beginning after December 31, 1977, an amount equal to $2.60 for each individual who was a participant in such plan during the plan year, and".

SEC. 3203. INCORPORATION OF CERTAIN FORMER PROVISIONS IN LIEU OF CROSS REFERENCE THERETO.

Section 4006(a) of the Employee Retirement Income Security Act of 1974 (29 U.S.C. 1306(a)) is amended—

(1) in paragraph (1), by striking out the last sentence; and

(2) by adding at the end thereof the following new paragraph:

"(6)(A) In carrying out its authority under paragraph (1) to establish premium rates and bases for basic benefits guaranteed under section 4022 with respect to single-employer plans, the corporation shall establish such rates and bases in coverage schedules in accordance with the provisions of this paragraph.

"(B) The corporation may establish annual premiums for single-employer plans composed of the sum of—

"(i) a charge based on a rate applicable to the excess, if any, of the present value of the basic benefits of the plan which are

guaranteed over the value of the assets of the plan, not in excess of 0.1 percent, and

"(ii) an additional charge based on a rate applicable to the present value of the basic benefits of the plan which are guaranteed.

The rate for the additional charge referred to in clause (ii) shall be set by the corporation for every year at a level which the corporation estimates will yield total revenue approximately equal to the total revenue to be derived by the corporation from the charges referred to in clause (i) of this subparagraph.

"(C) The corporation may establish annual premiums for single-employer plans based on—

"(i) the number of participants in a plan, but such premium rates shall not exceed the rates described in paragraph (3),

"(ii) unfunded basic benefits guaranteed under this title, but such premium rates shall not exceed the limitations applicable to charges referred to in subparagraph (B)(i), or

"(iii) total guaranteed basic benefits, but such premium rates shall not exceed the rates for additional charges referred to in subparagraph (B)(ii).

If the corporation uses two or more of the rate bases described in this subparagraph, the premium rates shall be designed to produce approximately equal amounts of aggregate premium revenue from each of the rate bases used.

"(D) For purposes of this paragraph, the corporation shall by regulation define the terms 'value of assets' and 'present value of the benefits of the plan which are guaranteed' in a manner consistent with the purposes of this title and the provisions of this section.".

SEC. 3204. APPROVAL BY JOINT RESOLUTION OF RECOMMENDATIONS OF THE PENSION BENEFIT GUARANTY CORPORATION.

Title IV of the Employee Retirement Income Security Act of 1974 is amended as follows:

(1) The last sentence of subsection (a)(2) of section 4006 (29 U.S.C. 1306(a)(2)) is amended by striking out "the Congress approves such revised schedule by a concurrent resolution" and inserting in lieu thereof "a joint resolution approving such revised schedule is enacted".

(2) Subsection (a)(4) of section 4006 (29 U.S.C. 1306(a)(4)) is amended by striking out "approval by the Congress" and inserting in lieu thereof "the enactment of a joint resolution".

(3) Subsection (b)(3) of section 4006 (29 U.S.C. 1306(b)(3)) is amended by striking out "concurrent" and inserting in lieu thereof "joint", by striking out "That the Congress favors the" and inserting in lieu thereof "The", and by inserting "is hereby approved" before the period preceding the quotation marks.

(4) Subsection (f)(2)(B) of section 4022A (29 U.S.C. 1322a(f)(2)(B)) is amended by striking out "Congress by concurrent resolution" and inserting in lieu thereof "the enactment of a joint resolution".

(5) Subsection (f)(2)(C) of section 4022A (29 U.S.C. 1322a(f)(2)(C)) is amended by striking out "approved" and inserting in lieu thereof "so enacted".

(6) Subsection (f)(3)(B) of section 4022A (29 U.S.C. 1322a(f)(3)(A)) is amended by striking out "Congress by a concurrent resolution" and inserting in lieu thereof "enactment of a joint resolution".

(7) Subsection (f)(4)(A) of section 4022A (29 U.S.C. 1322a(f)(4)(A)) is amended by striking out "concurrent" and inserting in lieu thereof "joint".

(8) Subsection (f)(4)(B) of section 4022A (29 U.S.C. 1322a(f)(4)(B)) is amended by striking out "concurrent" each place it appears and inserting in lieu thereof "joint", by striking out "That the Congress favors the" and inserting in lieu thereof "The", and by inserting "is hereby approved" immediately before the period preceding the quotation marks.

(9) Subsection (g)(4)(A)(ii) of section 4022A (29 U.S.C. 1322a(g)(4)(A)(ii)) is amended by striking out "concurrent" and inserting in lieu thereof "joint", and by striking out "adopted" and inserting in lieu thereof "enacted".

(10) Subsection (g)(4)(B) of section 4022A (29 U.S.C. 1322a(g)(4)(B)) is amended by striking out "concurrent" each place it appears and inserting in lieu thereof "joint", by striking out "That the Congress disapproves the" and inserting in lieu thereof "The", and by inserting "is hereby disapproved" immediately before the period preceding the quotation marks.

SEC. 3205. EFFECTIVE DATES.

(a) GENERAL RULE.—Except as provided in subsection (b), the amendments made by this subtitle shall be effective for plan years commencing after December 31, 1985.

(b) SPECIAL RULE.—The amendments made by section 3203 shall be effective as of the date of the enactment of the Multiemployer Pension Plan Amendments Act of 1980.

Subtitle C—Single-Employer Plan Termination Insurance System Amendments

SEC. 3301. SHORT TITLE AND TABLE OF CONTENTS.

This subtitle may be cited as "Single-Employer Pension Plan Amendments Act of 1985".

TABLE OF CONTENTS

Sec. 3301. Short title and table of contents.
Sec. 3302. Findings and declaration of policy.
Sec. 3303. Amendment of the Employee Retirement Income Security Act of 1974.
Sec. 3304. Definitions.
Sec. 3305. Clarification of authority to freeze plans.
Sec. 3306. General requirements relating to termination of single-employer plans by plan administrators.
Sec. 3307. Standard termination of single-employer plans.
Sec. 3308. Distress termination of single-employer plans.
Sec. 3309. Termination proceedings; duties of the corporation.
Sec. 3310. Amendments to liability provisions; liabilities relating to benefit entitlements in excess of benefits guaranteed by the corporation.
Sec. 3311. Distribution to participants and beneficiaries of liability payments to section 4049 trustee.
Sec. 3312. Treatment of transactions to evade liability; effect of corporate reorganization.
Sec. 3313. Additional enforcement authority relating to terminations of single-employer plans.
Sec. 3314. Security for waivers of minimum funding standard and extensions of amortization period.
Sec. 3315. Conforming, clarifying, technical, and miscellaneous amendments.
Sec. 3316. Effective date.

SEC. 3302. FINDINGS AND DECLARATION OF POLICY.

(a) FINDINGS.—The Congress finds that—

(1) single-employer defined benefit pension plans have a substantial impact on interstate commerce and are affected with a national interest;

(2) the continued well-being and retirement income security of millions of workers, retirees, and their dependents are directly affected by such plans;

(3) the existence of a sound termination insurance system is fundamental to the retirement income security of participants and beneficiaries of such plans; and

(4) the current termination insurance system in some instances encourages employers to terminate pension plans, evade their obligations to pay benefits, and shift unfunded pension liabilities onto the termination insurance system and the other premium-payers.

(b) ADDITIONAL FINDINGS.—The Congress further finds that modification of the current termination insurance system—

(1) is desirable to increase the likelihood that full benefits will be paid to participants and beneficiaries of such plans; and

(2) is desirable to provide for the transfer of liabilities to the termination insurance system only in cases of severe hardship, and to keep the premium costs of such system at a reasonable level.

(c) DECLARATION OF POLICY.—It is hereby declared to be the policy of this Act—

(1) to foster and facilitate interstate commerce,

(2) to encourage the maintenance and growth of single-employer defined benefit pension plans,

(3) to increase the likelihood that participants and beneficiaries under single-employer defined benefit pension plans will receive their full benefits, and

(4) to provide for the transfer of unfunded pension liabilities onto the single-employer pension plan termination insurance system only in cases of severe hardship, and to keep the premium costs of such system at a reasonable level.

SEC. 3303. AMENDMENT OF THE EMPLOYEE RETIREMENT INCOME SECURITY ACT OF 1974.

Whenever in this subtitle an amendment is expressed in terms of an amendment to a section or other provision, the reference is to a section or other provision of the Employee Retirement Income Security Act of 1974, unless otherwise specified.

SEC. 3304. DEFINITIONS.

Section 4001(a) (29 U.S.C. 1301(a)) is amended—

(1) by striking out paragraph (2) and inserting in lieu thereof the following new paragraph:

"(2) 'substantial employer', for any plan year of a single-employer plan, means one or more persons—

"(A) who are contributing sponsors of the plan in such plan year,

"(B) who, at any time during such plan year, are members of the same affiliated group (within the meaning of subsection (a) of section 1563 of the Internal Revenue Code of 1954, determined without regard to subsections (a)(4) and (e)(3)(C) of such section), and

"(C) whose required contributions to the plan for each plan year constituting one of—

"(i) the two immediately preceding plan years, or

"(ii) the first two of the three immediately preceding plan years,
total an amount greater than or equal to 10 percent of all contributions required to be paid to or under that plan for such plan year;";

(2) in paragraph (11), by striking out "and";

(3) in paragraph (12), by striking out "corporation." and inserting in lieu thereof "corporation;" and

(4) by adding after paragraph (12) the following new paragraphs:

"(13) 'contributing sponsor', of a single-employer plan, means a person—

"(A) who is responsible for meeting the funding requirements under section 302, or

"(B) who is a member of the controlled group of a person described in subparagraph (A), has been responsible for meeting such funding requirements, and has employed a significant number (as may be defined in regulations of the corporation) of participants under such plan while such person was so responsible;

"(14) in the case of a single-employer plan—

"(A) 'controlled group' means, in connection with any person, a group consisting of such person and all other persons under common control with such person; and

"(B) the determination of whether two or more persons are under 'common control' shall be made under regulations of the corporation which are consistent and coextensive with regulations prescribed for similar purposes by the Secretary of the Treasury under section 414(c) of the Internal Revenue Code of 1954;

"(15) 'single-employer plan' means, except as otherwise specifically provided in this title, any plan which is not a multiemployer plan;

"(16) 'benefit entitlements', of a participant or beneficiary as of any date under a single-employer plan, means all benefits provided by the plan with respect to the participant or beneficiary which—

"(A) are guaranteed under section 4022,

"(B) would be guaranteed under section 4022, but for the operation of subsection 4022(b), or

"(C) constitute—

"(i) early retirement supplements or subsidies,

"(ii) plant closing benefits, or

"(iii) death benefits,

irrespective of whether any such benefits are guaranteed under section 4022, if the participant or beneficiary has satisfied, as of such date, all of the conditions required of him or her under the provisions of the plan to establish entitlement to the benefits, except for the submission of a formal application, retirement, completion of a required waiting period, death, or designation of a beneficiary;

"(17) 'amount of unfunded guaranteed benefits', of a participant or beneficiary as of any date under a single-employer plan, means an amount equal to the excess of—

"(A) the actuarial present value (determined as of such date on the basis of assumptions prescribed by the corporation for purposes of section 4044) of the benefits of the participant or beneficiary under the plan which are guaranteed under section 4022, over

"(B) the current value as of such date of the assets of the plan which are required to be allocated to those benefits under section 4044;

"(18) 'amount of unfunded benefit entitlements', of a participant or beneficiary as of any date under a single-employer plan, means an amount equal to the excess of—

"(A) the actuarial present value (determined as of such date on the basis of assumptions prescribed by the corporation for purposes of section 4044) of the benefit entitlements of the participant or beneficiary under the plan, over

"(B) the current value as of such date of the assets of the plan which are required to be allocated to such benefit entitlements under section 4044;

"(19) 'outstanding amount of benefit entitlements', of a participant or beneficiary under a terminated single-employer plan, means the excess of—

"(A) the actuarial present value (determined as of the termination date on the basis of assumptions prescribed by the corporation for purposes of section 4044) of the benefit entitlements of such participant or beneficiary under the plan, over

"(B) the actuarial present value (determined as of such date on the basis of assumptions prescribed by the corporation for purposes of section 4044) of the benefits of such participant or beneficiary which are guaranteed under section 4022 or to which assets of the plan are allocated under section 4044;

"(20) 'person' has the meaning set forth in section 3(9);

"(21) 'affected party' means, with respect to a plan—

"(A) each participant in the plan,

"(B) each beneficiary under the plan who is a beneficiary of a deceased participant or who is an alternate payee (within the meaning of section 206(d)(3)(K)) under an applicable qualified domestic relations order (within the meaning of section 206(d)(3)(B)(i)),

"(C) each employee organization representing participants in the plan, and

"(D) the corporation,

except that, in connection with any notice required to be provided to the affected party, if an affected party has designated, in writing, a person to receive such notice on behalf of the affected party, any reference to the affected party shall be construed to refer to such person; and

"(22) 'section 4049 trustee', in connection with a terminated single-employer plan, means the trustee appointed under section 4049(a) in connection with the plan.".

SEC. 3305. CLARIFICATION OF AUTHORITY TO FREEZE PLANS.

(a) FREEZING OF PLANS UNDER TITLE IV.—Section 4001 (29 U.S.C. 1301) is amended by adding at the end thereof the following new subsection:

"(c)(1) For purposes of this title, the term 'terminate', when used in connection with a single-employer plan, means to terminate in accordance with section 4041 or 4042.

"(2)(A) The adoption and operation of a provision of a single-employer plan amendment is not a termination for purposes of this title if such provision constitutes a freezing of the plan.

"(B)(i) Except as provided in clause (ii), a provision referred to in subparagraph (A) constitutes a freezing of a plan if and only if the sole effect of the provision is to provide that some or all service performed on or after a specified date (which is or follows the effective date of the amendment) will not be taken into account under the plan solely for purposes of determining (in accordance with section 204 of this Act benefits accrued on or after such specified date.

"(ii) A provision referred to in subparagraph (A) shall not be treated as failing to constitute a freezing of the plan solely because the provision also provides that some or all relevant factors used to determine benefits based on service performed prior to such specified date shall remain constant.

"(C) A provision referred to in subparagraph (A) shall not constitute a freezing of the plan if an effect of the provision is to provide that some or all service performed on or after such specified date will not be taken into account under the plan for purposes of determining (in accordance with section 203) nonforfeitability of benefits accrued before such specified date or for purposes of determining satisfaction of any other requirements for eligibility for benefits accrued before such specified date.".

(b) FREEZING OF PLANS UNDER TITLE I.—

(1) IN GENERAL.—Part 2 of subtitle B of title I is amended—

(A) by redesignating section 211 as section 212; and

(B) by inserting after section 210 the following new section:

"FREEZING OF PLANS

"SEC. 211. (a) The adoption and operation of a provision of a single-employer plan amendment is not a violation of this title if such provision constitutes a freezing of the plan.

"(b)(1) Except as provided in paragraph (2), a provision referred to in subsection (a) constitutes a freezing of a plan if and only if the sole effect of the provision is to provide that some or all service performed on or after a specified date (which is or follows the effective date of the amendment) will not be taken into account under the plan solely for purposes of determining (in accordance with section 204) benefits accrued on or after such specified date.

"(2) A provision referred to in subsection (a) shall not be treated as failing to constitute a freezing of the plan solely because the provision also provides that some or all relevant factors used to determine benefits based on service performed prior to such specified date shall remain constant.

"(c) A provision referred to in subsection (a) shall not constitute a freezing of the plan if an effect of the provision is to provide that some or all service performed on or after such specified date will not be taken into account under the plan for purposes of determining (in accordance with section 203) nonforfeitability of benefits accrued before such specified date or for purposes of determining satisfaction of any other requirements for eligibility for benefits accrued before such specified date.

"(d) A single-employer plan may not be amended on or after the date of the enactment of the Single-Employer Pension Plan Amendments Act of 1985 so as to provide for a freezing of the plan, unless, after adoption of the plan amendment and not less than 60 days before the effective date of the plan amendment, the plan administrator provides to each affected party (as defined in section 4001(a)(21)) a written notice setting forth the plan amendment and its effective date.".

(B) CLERICAL AMENDMENT.—The table of contents in section 1 is amended by striking out the item relating to section 211 and inserting in lieu thereof the following new items:

"Sec. 211. Freezing of plans.
"Sec. 212. Effective dates.".

SEC. 3306. GENERAL REQUIREMENTS RELATING TO TERMINATION OF SINGLE-EMPLOYER PLANS BY PLAN ADMINISTRATORS.

(a) IN GENERAL.—Section 4041 (29 U.S.C. 1341) is amended by striking out subsections (a) through (c) and inserting in lieu thereof the following:

"SEC. 4041. (a) GENERAL RULES GOVERNING SINGLE-EMPLOYER PLAN TERMINATIONS.—

"(1) EXCLUSIVE MEANS OF PLAN TERMINATION.—Except in the case of a termination for which proceedings are otherwise instituted by the corporation as provided in section 4042, a single-employer plan may be terminated only in a standard termination under subsection (b) or a distress termination under subsection (c).

"(2) 60-DAY NOTICE TO AFFECTED PARTIES.—Not less than 60 days before the proposed termination date of a plan termination under subsection (b) or (c), the plan administrator shall provide to each affected party a written notice stating that such termination is intended and the proposed termination date. The written notice shall include any related additional information required in regulations of the corporation.

"(3) PROCEDURE IN THE EVENT OF RELATED ADJUDICATORY PROCEEDINGS.—

"(A) PROCEDURE IN THE CASE OF STANDARD TERMINATION.—In any case in which, during the period beginning on the date on which the plan administrator provides the notice required under paragraph (2) and ending on the proposed termination date specified in such notice, the plan administrator receives written notice from an affected party that there is pending a related adjudicatory proceeding with respect to the proposed standard termination of the plan under subsection (b), the plan administrator—

"(i) shall suspend the termination, by refraining from further processing or implementing the termination during the pendency of such proceeding, or

"(ii) may proceed with the termination, except that, in so proceeding, the plan administrator shall take such actions (including, but not limited to, providing for segregation of plan assets or maintenance of plan records) as are necessary and appropriate to assure that the plan may be effectively restored if the plan is finally determined in any such proceeding to have been terminated in violation of the contractual or statutory rights of any affected party and is ordered in such proceeding to be restored.

During any period of time for which the plan administrator suspends the termination pursuant to clause (i), any applicable time limitation in the termination procedure shall cease to run.

"(B) PROCEDURE IN THE CASE OF DISTRESS TERMINATION.—In the case of a related adjudicatory proceeding with respect to a proposed distress termination of the plan under subsection (c), subparagraph (A) shall apply with respect to such termination and proceeding in the same manner and to the same extent as it applies in the case of a standard termination, except that any reference in subparagraph (A) to the plan administrator shall be considered a reference to the plan administrator and to the corporation or other person serving as trustee under section 4042.

"(C) RELATED ADJUDICATORY PROCEEDING.—For purposes of this paragraph, the term 'related adjudicatory proceeding' means any proceeding (including timely appeals therefrom) commenced by an affected party as—

"(i) a grievance proceeding before an appropriate adjudicative entity,

"(ii) an administrative proceeding before an appropriate governmental agency, or

"(iii) a civil action in a court of competent jurisdiction,

in which the affected party alleges that the proposed termination would violate the contractual or statutory rights of any affected party.

"(D) PENDENCY OF PROCEEDING.—For purposes of this paragraph, a related adjudicatory proceeding shall be treated as pending from the date on which it is commenced until the earlier of—

"(i) the date of a final determination in the proceeding that the proposed termination would not violate the contractual or statutory rights referred to in subparagraph (C), or

"(ii) the date of a preliminary decision by the presiding adjudicative entity, governmental agency, or court that, taking into consideration all the facts and circumstances, the affected party is not likely to prevail in such proceeding and the equities clearly favor discontinuing compliance with clauses (i) and (ii) of subparagraph (A).

"(E) EFFECTS OF SUSPENSION OF TERMINATION.—In any case in which a termination is suspended pursuant to the preceding provisions of this paragraph, if the proposed termination is finally determined in a related adjudicatory proceeding not to be in violation of the contractual or statutory rights of any affected party, the termination of the plan shall be effective as of the proposed termination date.".

(b) DEFINITIONS RELATING TO SUFFICIENCY.—Section 4041(d) (29 U.S.C. 1341(d)) is amended to read as follows:

"(d) SUFFICIENCY.—For purposes of this section—

"(1) SUFFICIENCY FOR BENEFIT ENTITLEMENTS.—A single-employer plan is sufficient for benefit entitlements if there is no amount of unfunded benefit entitlements under the plan.

"(2) SUFFICIENCY FOR GUARANTEED BENEFITS.—A single-employer plan is sufficient for guaranteed benefits if there is no amount of unfunded guaranteed benefits under the plan.".

SEC. 3307. STANDARD TERMINATION OF SINGLE-EMPLOYER PLANS.

(a) IN GENERAL.—Section 4041 (as amended by section 3306 of this Act) is further amended by inserting after subsection (a) the following new subsection:

"(b) STANDARD TERMINATION OF SINGLE-EMPLOYER PLANS.—

"(1) GENERAL REQUIREMENTS.—A single-employer plan may terminate under a standard termination only if—

"(A) when the final distribution of assets occurs, the plan is sufficient for benefit entitlements (determined as of the termination date),

"(B) the plan administrator provides the 60-day advance notice to affected parties required under subsection (a)(2),

"(C) the requirements of subparagraphs (A) and (B) of paragraph (2) are met, and

"(D) the corporation does not issue a notice of noncompliance under subparagraph (C) of paragraph (2).

"(2) TERMINATION PROCEDURE.—

"(A) NOTICE TO THE CORPORATION.—As soon as practicable after the termination date proposed in the notice provided pursuant to subsection (a)(2), the plan administrator shall send a notice to the corporation setting forth—

"(i) certification by an enrolled actuary—

"(I) of the amount of the assets of the plan (as of a proposed date of final distribution of assets),

"(II) of the actuarial present value (as of such date) of the benefit entitlements under the plan, and

"(III) that the plan will be sufficient (as of such date) for benefit entitlements,

"(ii) such information as the corporation may prescribe in regulations as necessary to enable the corporation to make determinations under subparagraph (C), and

"(iii) certification by the plan administrator that the information on which the enrolled actuary based the certification under clause (i) and the information provided to the corporation under clause (ii) is accurate and complete.

"(B) NOTICE TO PARTICIPANTS AND BENEFICIARIES OF BENEFIT ENTITLEMENTS.—At the time a notice is sent by the plan administrator under subparagraph (A), the plan administrator shall send a notice to each person who is a participant or beneficiary under the plan specifying the amount of such person's benefit entitlements (if any), expressed in terms of the normal form of benefits under the plan. Such notice shall be written in such manner as is likely to be understood by the participant or beneficiary and as may be prescribed in regulations of the corporation.

"(C) NOTICE FROM THE CORPORATION OF NONCOMPLIANCE.—

"(i) IN GENERAL.—Within 60 days after receipt of the notice under subparagraph (A), the corporation shall provide the plan administrator with a notice of noncompliance if—

"(I) it has reason to believe that the requirements of subsection (a)(2) and subparagraphs (A) and (B) have not been met, or

"(II) it otherwise determines, on the basis of information provided by affected parties or otherwise obtained by the corporation, that there is reason to believe that the plan is not sufficient for benefit entitlements.

"(ii) EXTENSION.—The corporation and the plan administrator may agree to extend the 60-day period referred to in clause (i) by a written agreement signed by the corporation and the plan administrator before the expiration of the 60-day period. The 60-day period shall be extended as provided in the agreement and may be further extended by subsequent written agreements signed by the corporation and the plan administrator made before the expiration of a previously agreed upon extension of the 60-day period. Any extension may be made upon such terms and conditions (including the payment of benefits) as are agreed upon by the corporation and the plan administrator.

"(D) FINAL DISTRIBUTION OF ASSETS IN ABSENCE OF NOTICE OF NONCOMPLIANCE.—The plan administrator shall commence the final distribution of assets pursuant to the standard termination of the plan as soon as practicable after the expiration of the 60-day (or extended) period referred to in subparagraph (C), but such final distribution may occur only if—

"(i) the plan administrator has not received during such period a notice of noncompliance from the corporation under subparagraph (C), and

"(ii) when such final distribution occurs, the plan is sufficient for benefit entitlements (determined as of the termination date).

"(3) METHODS OF FINAL DISTRIBUTION OF ASSETS.—

"(A) IN GENERAL.—In connection with any final distribution of assets pursuant to the termination of the plan, the plan administrator shall distribute the assets in accord-

ance with section 4044. In distributing such assets, the plan administrator shall—

"(i) purchase irrevocable commitments from an insurer to provide when due the benefit entitlements under the plan and all other benefits (if any) under the plan to which assets are allocated under section 4044, or

"(ii) otherwise fully provide when due the benefit entitlements under the plan and all other benefits (if any) under the plan to which assets are allocated under section 4044 in accordance with the provisions of the plan and any applicable regulations of the corporation.

"(B) CERTIFICATION TO THE CORPORATION OF FINAL DISTRIBUTION OF ASSETS.—Within 30 days after the final distribution of assets is completed pursuant to the termination of the plan, the plan administrator shall send a notice to the corporation certifying that the assets of the plan have been distributed in accordance with the provisions of subparagraph (A) so as to pay when due the benefit entitlements under the plan and all other benefits (if any) under the plan to which assets are allocated under section 4044.

"(4) CONTINUING AUTHORITY.—Nothing in this section shall be construed to preclude the continued exercise by the corporation, after the termination date of a plan terminated in a standard termination under this subsection, of its authority under section 4003 with respect to matters relating to the termination. A certification under paragraph (3)(B) shall not affect the corporation's obligations under section 4022.".

(b) CONFORMING AMENDMENTS.—Section 4041(f) (29 U.S.C. 1341(f)) is amended—

(1) by inserting after "(f)" the following: "CONVERSION OF A DEFINED BENEFIT PLAN TO A DEFINED CONTRIBUTION PLAN TREATED AS A STANDARD TERMINATION.—";

(2) by striking out "subsection (a)" and inserting in lieu thereof "this section"; and

(3) by inserting "in a standard termination" after "terminated".

SEC. 3308. DISTRESS TERMINATION OF SINGLE-EMPLOYER PLANS.

Section 4041 (as amended by sections 3306 and 3307 of this Act) is further amended by inserting after subsection (b) the following new subsection:

"(c) DISTRESS TERMINATION OF SINGLE-EMPLOYER PLANS.—

"(1) IN GENERAL.—A single-employer plan may terminate under a distress termination only if—

"(A) the plan administrator provides the 60-day advance notice to affected parties required under subsection (a)(2),

"(B) the requirements of subparagraph (A) of paragraph (2) are met, and

"(C) the corporation determines that the requirements of subparagraph (B) of paragraph (2) are met.

"(2) TERMINATION REQUIREMENTS.—

"(A) INFORMATION SUBMITTED TO THE CORPORATION.—As soon as practicable after the termination date proposed in the notice provided pursuant to subsection (a)(2), the plan administrator shall provide the corporation, in such form as may be prescribed by the corporation in regulations, the following information:

"(i) such information as the corporation may prescribe by regulation as necessary to make determinations under subparagraph (B) and paragraph (3);

"(ii) certification by an enrolled actuary of—

"(I) the amount (as of the proposed termination date) of the current value of the assets of the plan,

"(II) the actuarial present value (as of such date) of the benefit entitlements under the plan,

"(III) whether the plan is sufficient for benefit entitlements as of such date, and

"(IV) whether the plan is sufficient for guaranteed benefits as of such date;

"(iii) in any case in which the plan is not sufficient for benefit entitlements as of such date—

"(I) the name and address of each participant and beneficiary under the plan as of such date, and

"(II) such other information as shall be prescribed by the corporation by regulation as necessary to enable the section 4049 trustee to be able to make payments to participants and beneficiaries as required under section 4049; and

"(iv) certification by the plan administrator that the information on which the enrolled actuary based the certifications under clause (ii) and the information provided to the corporation under clauses (i) and (iii) is accurate and complete.

"(B) DETERMINATION BY THE CORPORATION OF NECESSARY DISTRESS CRITERIA.—Upon receipt of the notice of distress termination required under subsection (a)(2) and the information required under subparagraph (A), the corporation shall determine whether the requirements of this subparagraph are met as provided in clause (i), (ii), (iii), or (iv).

"(i) RECENT FUNDING WAIVERS.—The requirements of this subparagraph are met if a funding waiver has been granted with respect to the terminating plan with respect to not fewer than three of the five plan years immediately preceding the termination date, and such a waiver has also been granted to each other single-employer plan of which any of the contributing sponsors of the terminating plan or the substantial members of their controlled groups (if any) is a contributing sponsor with respect to at least one of the three plan years immediately preceding the termination date. For purposes of this clause, the term 'funding waiver' means a waiver of the minimum funding standard under section 303.

"(ii) LIQUIDATION IN BANKRUPTCY OR INSOLVENCY PROCEEDINGS.—The requirements of this subparagraph are met if each of the contributing sponsors and the substantial members of their controlled groups (if any) has filed or has had filed against it as of the termination date a petition seeking liquidation in a case under title 11, United States Code (or under any similar law of a State or political subdivision of a State) which has not, as of the termination date, been dismissed or converted to a case under chapter 11 of such title (or under any similar law of a State or political subdivision of a State) in which reorganization is sought.

"(iii) TERMINATION REQUIRED TO ENABLE PAYMENT OF DEBTS WHILE STAYING IN BUSINESS.—The requirements of this subparagraph are met if a contributing sponsor provides to the corporation substantial evidence that, unless a distress termination occurs, the contributing sponsors and the substantial members of such sponsors' controlled groups (if any) will each be unable to pay their respective debts when due and will be unable to continue in business.

"(iv) UNREASONABLY BURDENSOME PENSION COSTS CAUSED BY DECLINING WORKFORCE.—

"(I) IN GENERAL.—The requirements of this subparagraph are met if, as determined under regulations of the corporation, solely as a result of a decline in the workforce covered as participants under all single-employer plans maintained by the contributing sponsors of the terminating plan and the members of their controlled groups, the costs of providing pension coverage have become unreasonably burdensome.

"(II) REQUIREMENT MET BY DOUBLING OF COST RATIOS.—The requirements of subclause (I) shall be considered met if and only if the contribution-wage ratio for the plan year in which the termination date occurs is at least twice the contribution-wage ratio for the applicable preceding plan year, and the contribution-income ratio for the plan year in which the termination date occurs is at least twice the contribution-income ratio for the applicable preceding plan year. The corporation may provide by regulation for application of this clause with respect to the plan year of the terminating plan preceding the year in which the termination date occurs, in lieu of the plan year in which the termination date occurs, in any case in which the corporation determines that such application will enable the corporation to carry out the purposes of this title more equitably and effectively.

"(III) CONTRIBUTION-WAGE RATIO.—For purposes of this clause, the contribution-wage ratio is the ratio of the total required contributions under all single-employer plans of which the persons who are contributing sponsors of the terminating plan or who are members of their controlled groups are contributing sponsors, to the total annualized wages with respect to the active participants under such plans.

"(IV) CONTRIBUTION-INCOME RATIO.—For purposes of this clause, the contribution-income ratio is the ratio of the total required contributions under all single-employer plans of which the persons who are contributing sponsors of the terminating plan or who are members of their controlled groups are contributing sponsors, to the consolidated gross income of such persons.

"(V) APPLICABLE PRECEDING PLAN YEAR.—For purposes of this clause, the applicable preceding plan year is the later of the plan year following the initial effective date of the plan, the earliest of the five immediately preceding plan years (if the plan has completed five or more plan years), or the plan year following the effective date of the most recent plan amendment (if any) increasing benefits which was adopted and took effect before the termination date.

"(C) SUBSTANTIAL MEMBER.—For purposes of subparagraph (B), the term 'substantial member' of a controlled group means a person whose assets comprise 5 percent or more of the total assets of the controlled group as a whole. Such term includes any member of the controlled group who does not meet the requirements of the preceding sentence but did meet such requirements—

"(i) for purposes of subparagraph (B)(i), as of the beginning of the earliest applicable plan year referred to therein, or

"(ii) for purposes of subparagraph (B)(ii), as of the date of the filing of the petition referred to therein.

"(D) NOTIFICATION OF DETERMINATIONS BY THE CORPORATION.—The corporation shall notify the plan administrator as soon as practicable of its determinations made pursuant to subparagraph (B).

"(3) TERMINATION PROCEDURE.—

"(A) DETERMINATIONS BY THE CORPORATION RELATING TO PLAN SUFFICIENCY FOR GUARANTEED BENEFITS AND FOR BENEFIT ENTITLEMENTS.—If the corporation determines that

the requirements for a distress termination set forth in paragraphs (1) and (2) are met, the corporation shall—

"(i) determine whether the plan is sufficient for guaranteed benefits (as of the termination date) or that the corporation is unable to make such determination on the basis of information made available to the corporation,

"(ii) determine whether the plan is sufficient for benefit entitlements (as of the termination date) or that the corporation is unable to make such determination on the basis of information made available to the corporation, and

"(iii) notify the plan administrator of the determinations made pursuant to this subparagraph as soon as practicable.

"(B) IMPLEMENTATION OF TERMINATION.—After the corporation notifies the plan administrator of its determinations under subparagraph (A), the termination of the plan shall be carried out as provided in clause (i), (ii), or (iii).

"(i) CASES OF SUFFICIENCY FOR BENEFIT ENTITLEMENTS.—In any case in which the corporation determines that the plan is sufficient for benefit entitlements, the plan administrator shall proceed to distribute the plan's assets in the manner described in subsection (b)(3), and take such other actions as may be appropriate to carry out the termination of the plan.

"(ii) CASES OF SUFFICIENCY FOR GUARANTEED BENEFITS WITHOUT A FINDING OF SUFFICIENCY FOR BENEFIT ENTITLEMENTS.—In any case in which the corporation determines that the plan is sufficient for guaranteed benefits, but further determines that the plan is not sufficient for benefit entitlements (or that it is unable to determine whether the plan is sufficient for benefit entitlements on the basis of the information made available to it)—

"(I) the plan administrator shall proceed to distribute the plan's assets in the manner prescribed in section 4044,

"(II) the corporation shall appoint a section 4049 trustee as provided in section 4049(a), notify the plan administrator of the identity of the section 4049 trustee, and submit to such trustee copies of the notice of distress termination and other information provided to the corporation pursuant to subsection (a)(2) and clauses (ii), (iii), and (iv) of paragraph (2)(A), and

"(III) the plan administrator shall notify each contributing sponsor and member of such sponsor's controlled group of the identity of the section 4049 trustee and that they may be liable under section 4062 in connection with the termination.

"(iii) CASES WITHOUT ANY FINDING OF SUFFICIENCY.—In any case in which the corporation determines that the plan is not sufficient for guaranteed benefits (or that it is unable to determine whether the plan is sufficient for guaranteed benefits on the basis of the information made available to it)—

"(I) the corporation shall commence proceedings in accordance with section 4042, and

"(II) the corporation and the plan administrator shall take the respective actions required under subclauses (II) and (III) of clause (ii) relating to the section 4049 trustee, unless the corporation determines that all benefit entitlements under the plan are benefits guaranteed by the corporation under section 4022.

"(C) FINDING AFTER AUTHORIZED COMMENCEMENT OF TERMINATION THAT PLAN IS UNABLE TO PAY BENEFITS WHEN DUE.—

"(i) FINDING WITH RESPECT TO GUARANTEED BENEFITS ONLY.—If, after the plan administrator has begun to terminate the plan as authorized by subparagraph (B) (i) or (ii), the corporation or the plan administrator finds that the plan is unable, or will be unable, to pay when due all benefits under the plan which are guaranteed by the corporation under section 4022, the plan administrator shall notify the corporation of such finding as soon as practicable thereafter. If the corporation makes such a finding or concurs with the finding of the plan administrator, it shall institute appropriate proceedings under section 4042.

"(ii) FINDING WITH RESPECT TO BENEFIT ENTITLEMENTS WHICH ARE NOT GUARANTEED BENEFITS.—If, after the plan administrator has begun to terminate the plan as authorized under subparagraph (B)(i), the corporation or the plan administrator finds that the plan is unable, or will be unable, to pay when due benefit entitlements which are not benefits guaranteed by the corporation under section 4022, the plan administrator shall notify the corporation of such finding as soon as practicable thereafter. If the corporation makes such a finding or concurs with the finding of the plan administrator, it shall take the actions set forth in subparagraph (B)(ii)(II) relating to the section 4049 trustee.

"(D) ADMINISTRATION OF THE PLAN DURING INTERIM PERIOD.—During the period commencing on the date on which the plan administrator provides a notice of distress termination to the corporation under subsection (a)(2) and ending on the date on which the plan administrator receives notification from the corporation of its determinations under subparagraph (A), the plan administrator—

"(i) shall refrain from distributing assets or taking any other actions to carry out the proposed termination under this subsection,

"(ii) shall pay benefits attributable to employer contributions, other than death benefits, only in the form of an annuity,

"(iii) shall not use plan assets to purchase irrevocable commitments to provide benefits from an insurer, and

"(iv) shall continue to pay when due all benefit entitlements under the plan, except that, commencing on the proposed termination date, the plan administrator shall limit the payment of benefits under the plan to those benefits which are guaranteed by the corporation under section 4022 or to which assets are required to be allocated under section 4044.

In the event the plan is later determined not to have terminated in a distress termination, any benefits which are not paid solely by reason of clause (iv) shall be due and payable immediately (together with interest).

"(4) RESTORATION OF PLAN TERMINATED ON THE BASIS OF BANKRUPTCY OR INSOLVENCY UPON CONVERSION OF LIQUIDATION PROCEEDINGS TO REORGANIZATION PROCEEDINGS.—In any case in which—

"(A) a single-employer plan has been terminated under a distress termination and the requirements of paragraph (2)(B) in connection with such termination were met solely on the basis of the filing of a petition seeking liquidation in a case under title 11, United States Code (or under a similar law of a State or a political subdivision of a State), as provided in paragraph (2)(B)(ii), and

"(B) during the one-year period following the date of the filing of the petition, such case is dismissed or converted to a case under chapter 11 of such title (or under a similar law of a State or a political subdivision of a State) in which reorganization is sought,

the distress termination shall be void and the plan shall be restored to pretermination status (effective as of the proposed termination date), unless the plan administrator obtains a determination by the corporation that the requirements of paragraph (2)(B) as provided in clause (i), (iii), or (iv) thereof were met as of such date.".

(b) CONFORMING AMENDMENTS.—Section 4041 (as amended by the preceding provisions of this Act) is further amended—

(1) by striking out subsection (e); and

(2) by redesignating subsection (f) as subsection (e).

SEC. 3309. TERMINATION PROCEEDINGS; DUTIES OF THE CORPORATION.

(a) MANDATORY COMMENCEMENT OF PROCEEDINGS UPON INABILITY OF SINGLE-EMPLOYER PLAN TO PAY BENEFITS THAT ARE CURRENTLY DUE.—

(1) IN GENERAL.—Section 4042(a) (29 U.S.C. 1342(a)) is amended by striking out in the second sentence "The corporation" and inserting in lieu thereof the following: "The corporation shall as soon as practicable institute court proceedings under this section to terminate a single-employer plan whenever it determines that the plan does not have assets available to pay benefits that are currently due under the terms of the plan. The corporation".

(2) CONFORMING AMENDMENTS.—

(A) Section 4042(b)(1) (29 U.S.C. 1342(b)(1)) is amended, in the first sentence, by inserting "or is required under subsection (a) to institute court proceedings under this section," after "to a plan".

(B) Section 4042(c) (29 U.S.C. 1342(c)) is amended in the first sentence by striking out "If the corporation" and all that follows down through "it may," and inserting in lieu thereof the following: "If the corporation is required under subsection (a) of this section to commence court proceedings under this section with respect to a plan or, after issuing a notice under this section to a plan administrator, has determined (whether or not a trustee has been appointed under subsection (b)) that the plan should be terminated under this section, it shall,".

(b) CLARIFICATION OF POWER TO COLLECT AMOUNTS DUE THE CORPORATION.—Section 4042(d)(1)(B)(ii) (29 U.S.C. 1342(d)(1)(B)(ii)) is amended by inserting after "amounts due the plan" the following: ", including but not limited to the power to collect from the persons obligated to meet the requirements of section 302 or the terms of the plan".

(c) CONFORMING AMENDMENT.—The heading for section 4042 is amended to read as follows:

"INSTITUTION OF TERMINATION PROCEEDINGS BY THE CORPORATION"

SEC. 3310. AMENDMENTS TO LIABILITY PROVISIONS; LIABILITIES RELATING TO BENEFIT ENTITLEMENTS IN EXCESS OF BENEFITS GUARANTEED BY THE CORPORATION.

(a) LIABILITY FOR DISTRESS TERMINATIONS AND TERMINATIONS BY THE CORPORATION.—Section 4062 (29 U.S.C. 1362) is amended by striking out so much as precedes subsection (e) and inserting in lieu thereof the following:

"LIABILITY FOR TERMINATION OF SINGLE-EMPLOYER PLANS UNDER A DISTRESS TERMINATION OR A TERMINATION BY THE CORPORATION

"SEC. 4062. (a) IN GENERAL.—In any case in which a single-employer plan is terminated in a distress termination under section 4041(c) or a termination otherwise instituted by the corporation under section 4042, any person who is, on the termination date, a contributing sponsor of the plan or a member of such a contributing sponsor's controlled group shall incur liability under this section. The liability under this section of all such persons shall be joint and several. The liability under this section consists of—

"(1) liability to the corporation to the extent provided in subsection (b), and

"(2) liability to the section 4049 trustee to the extent provided in subsection (c).

"(b) LIABILITY TO THE CORPORATION.—

"(1) IN GENERAL.—The liability to the corporation of a person described in subsection (a) shall consist of the sum of—

"(A) the amount of the plan's funding shortage (as defined in subsection (d)(1)), and

"(B) the total amount of unfunded guaranteed benefits (as of the termination date) of all participants and beneficiaries under the plan,

together with interest calculated from the termination date.

"(2) PAYMENT OF LIABILITY TO THE CORPORATION.—

"(A) GENERAL RULE.—Except as provided in subparagraph (B), the liability to the corporation under this subsection shall be due and payable to the corporation as of the termination date, in cash or securities acceptable to the corporation.

"(B) PAYMENTS TO CORPORATION UNDER PROFITS SCHEDULE.—Notwithstanding subparagraph (A), if any person subject to liability under this subsection in connection with a plan termination demonstrates to the satisfaction of the corporation that the liability described in paragraph (1)(B) exceeds 30 percent of the collective net worth of persons subject to liability, any person subject to such liability may satisfy the liability described in paragraph (1)(B) in excess of such 30 percent amount by means of payments under the profits schedule as provided in paragraph (3).

"(3) ANNUAL LIABILITY PAYMENTS UNDER PROFITS SCHEDULE.—

"(A) FORM OF PAYMENTS.—Each person making liability payments under the profits schedule shall be liable to the corporation for an annual payment, in cash or securities acceptable to the corporation, for each of the ten liability payment years in connection with the terminated plan (subject to earlier satisfaction of the liability under paragraph (4)(B)).

"(B) AMOUNT OF ANNUAL PAYMENT.—The amount of each annual payment for a liability payment year shall be equal to 10 percent of the sum of the individual pretax profits (if any) of all persons liable under this section in connection with the plan termination for their respective fiscal years ending during such liability payment year.

"(C) DUE DATE.—A person's liability for each annual liability payment referred to in subparagraph (A) for a liability payment year shall accrue as of the end of such year and shall be paid (together with interest accrued from the end of such year) not later than 30 days after the later of—

"(i) the end of such liability payment year, or

"(ii) the latest date on which any person liable for such payment is required to file a Federal income tax return for a fiscal year ending during such liability payment year (taking into account any applicable extensions of time to file such return).

"(4) SATISFACTION OF LIABILITY UNDER PROFITS SCHEDULE.—Notwithstanding paragraph (3)(A)—

"(A) SATISFACTION OF ANNUAL LIABILITY UPON RECEIPT BY CORPORATION OF 10-PERCENT AMOUNT.—The liability to the corporation of all persons who are subject to the profits schedule under this subsection in connection with the same plan termination shall be satisfied with respect to any liability payment year upon receipt by the corporation of one or more liability payments under paragraph (3) for such liability payment year which equal, in the aggregate, the 10-percent amount described in paragraph (3)(B).

"(B) SATISFACTION OF ENTIRE LIABILITY UNDER PROFITS SCHEDULE.—All liability to the corporation under this subsection in connection with the same plan termination with respect to which payment has commenced under the profits schedule under this subsection may be satisfied with respect to all liability payment years at any time by payment by any person to the corporation of the excess of—

"(i) the total amount of liability to the corporation under this subsection subject to payment under the profits schedule in connection with such termination (plus interest), over

"(ii) the total amount of prior liability payments previously made by all persons to the corporation under the profits schedule under this subsection in connection with such termination (plus interest).

"(C) REFUNDS OF EXCESS PAYMENTS.—The corporation shall refund to the payor (with interest) any amounts paid to the corporation as profits liability payments which are in excess of amounts necessary for satisfaction of liability under subparagraph (A) or (B).

"(5) ALTERNATIVE ARRANGEMENTS.—The corporation and any person liable under this section may agree to alternative arrangements for the satisfaction of liability to the corporation under this subsection.

"(c) LIABILITY TO SECTION 4049 TRUSTEE.—

"(1) IN GENERAL.—A person described in subsection (a) shall be subject to liability to the section 4049 trustee under this subsection if there is an outstanding amount of benefit entitlements under the plan.

"(2) ANNUAL LIABILITY PAYMENTS.—

"(A) FORM OF PAYMENTS.—The liability of any person under this subsection shall consist of an annual payment to the section 4049 trustee, in cash or securities acceptable to the section 4049 trustee, for each of the ten liability payment years in connection with the terminated plan (subject to earlier satisfaction of the liability under paragraph (3)(B)).

"(B) AMOUNT OF ANNUAL PAYMENT.—The amount of each annual payment for a liability payment year shall be equal to 5 percent of the sum of the individual pretax profits (if any) of all persons liable under this section in connection with the plan termination for their respective fiscal years ending during such liability payment year.

"(C) DUE DATE.—A person's liability under this subsection for a liability payment year shall accrue as of the end of such year and shall be paid (with interest accrued from the end of such year) not later than 30 days after the later of—

"(i) the end of such year, or

"(ii) the latest date on which any person subject to liability under this subsection in connection with such termination is required to file a Federal income tax return for a fiscal year ending during such liability payment year (taking into account applicable extensions of time to file such return).

"(3) SATISFACTION OF LIABILITY.—Notwithstanding paragraph (2)(C)—

"(A) SATISFACTION OF ANNUAL LIABILITY UPON RECEIPT BY TERMINATION TRUSTEE OF 5-PERCENT AMOUNT.—The liability to the section 4049 trustee of all persons who are subject to liability under this subsection in connection with the same plan termination shall be satisfied with respect to any liability payment year upon receipt by the section 4049 trustee of one or more liability payments under this subsection for such liability payment year which equal, in the aggregate, the 5-percent amount described in paragraph (2)(B).

"(B) SATISFACTION OF ENTIRE LIABILITY TO SECTION 4049 TRUSTEE.—All liability to the section 4049 trustee of all persons who are subject to liability under this subsection in connection with the same plan termination may be satisfied with respect to all liability payment years at any time by payment by any person to the section 4049 trustee of an amount equal to the excess of—

"(i) the total outstanding amount of benefit entitlements of all participants and beneficiaries under the plan (plus interest), over

"(ii) the total amount of prior liability payments previously made by all persons to the section 4049 trustee under this subsection in connection with such termination (plus interest).

"(C) REFUNDS OF EXCESS PAYMENTS.—The section 4049 trustee shall refund to the payor (with interest) any amount paid to the section 4049 trustee as liability payments which is in excess of amounts necessary for satisfaction of liability under subparagraph (A) or (B).

"(d) DEFINITIONS.—For purposes of this section—

"(1) FUNDING SHORTAGE.—The term 'funding shortage', in connection with a terminated plan, means an amount (as of the termination date) equal to the sum of—

"(A) the outstanding balance of the accumulated funding deficiencies (within the meaning of section 302(a)(2)) of the plan (if any) (which, for purposes of this subparagraph, shall include the amount of any increase in such accumulated funding deficiencies of the plan which would result if all applications for waivers of the minimum funding standard under section 303 and for extensions of the amortization period under section 304 which are pending with respect to such plan were denied),

"(B) the outstanding balance of the amount of waived funding deficiencies of the plan waived before such date under section 303 (if any), and

"(C) the outstanding balance of the amount of decreases in the minimum funding standard allowed before such date under section 304 (if any).

"(2) COLLECTIVE NET WORTH OF PERSONS SUBJECT TO LIABILITY.—

"(A) IN GENERAL.—The collective net worth of persons subject to liability in connection with a plan termination consists of the sum of the individual net worths of all persons who—

"(i) have individual net worths which are greater than zero, and

"(ii) are (as of the termination date) contributing sponsors of the terminated plan or members of their controlled groups.

"(B) DETERMINATION OF NET WORTH.—For purposes of this paragraph, the net worth of a person is—

"(i) determined on whatever basis best reflects, in the determination of the corporation, the current status of the person's operations and prospects at the time chosen for determining the net worth of the person, and

"(ii) increased by the amount of any transfers of assets made by the person which are determined by the corporation to be improper under the circumstances, including any such transfers which would be inappropriate under title 11, United States Code, if the person were a debtor in a case under chapter 7 of such title.

"(C) TIMING OF DETERMINATION.—For purposes of this paragraph, determinations of net worth shall be made as of a day chosen by the corporation (during the 120-day period ending with the termination date) and shall be computed without regard to any liability under this section.

"(3) PRETAX PROFITS.—The term 'pretax profits' means—

"(A) except as provided in subparagraph (B), for any fiscal year of any person, such person's consolidated net income (excluding any extraordinary charges to income and including any extraordinary credits to income) for such fiscal year, as shown on audited financial statements prepared in accordance with generally accepted accounting principles, or

"(B) for any fiscal year of an organization described in section 501(c) of the Internal Revenue Code of 1954, the excess of income over expenses (as such terms are defined for such organizations under generally accepted accounting principles),

before provision for or deduction of Federal or other income tax, any contribution to any single-employer plan of which such person is a contributing sponsor at any time during the period beginning on the termination date and ending with the end of such fiscal year, and any amounts required to be paid for such fiscal year under this section. The corporation may by regulation require such information to be filed on such forms as may be necessary to determine the existence and amount of such pretax profits.

"(4) LIABILITY PAYMENT YEARS.—The liability payment years in connection with a terminated plan consist of the ten consecutive one-year periods, the first of which is the earlier of—

"(A) the first of the consecutive one-year periods, following the last plan year preceding the termination date, in which any person liable under this section in connection with the plan termination earns a pretax profit, or

"(B) the fourth of the consecutive one-year periods following the last plan year preceding the termination date.".

(b) CLERICAL AMENDMENT.—Subsection (e) of section 4062 is amended by inserting "TREATMENT OF SUBSTANTIAL CESSATION OF OPERATIONS.—" after "(e)".

SEC. 3311. DISTRIBUTION TO PARTICIPANTS AND BENEFICIARIES OF LIABILITY PAYMENTS TO SECTION 4049 TRUSTEE.

Subtitle C of title IV is amended by adding at the end thereof the following new section:

"DISTRIBUTION TO PARTICIPANTS AND BENEFICIARIES OF LIABILITY PAYMENTS TO SECTION 4049 TRUSTEE

"SEC. 4049. (a) APPOINTMENTS OF TRUSTEE; ESTABLISHMENT OF TRUST.—Whenever the corporation is required under section 4041(c)(3)(B)(ii) or (iii) to appoint a section 4049 trustee, it shall appoint either itself or another person to act as the section 4049 trustee. The trustee appointed under this section shall establish a separate trust with respect to the terminated plan. The trust established by the section 4049 trustee shall be used exclusively for—

"(1) receiving liability payments under section 4062(c) from the persons who were (as of the termination date) contributing sponsors of the terminated plan and members of their controlled groups,

"(2) making distributions as provided in this section to the persons who were (as of the termination date) participants and beneficiaries under the terminated plan, and

"(3) defraying the reasonable administrative expenses incurred by the section 4049 trustee in carrying out its responsibilities under this section.

The section 4049 trustee shall establish and maintain such trust with respect to the terminated plan for such period of time as is necessary to receive all liability payments required to be made to the trustee under section 4062(c) with respect to the terminated plan and to make all distributions required to be made to participants and beneficiaries under this section with respect to the terminated plan.

"(b) DISTRIBUTIONS BY TRUSTEE.—

"(1) IN GENERAL.—Not later than 30 days after the end of each liability payment year (described in section 4062(d)(4)) with respect to a terminated single-employer plan, the trustee appointed under this section with respect to such plan shall distribute from the trust maintained by the trustee pursuant to subsection (a) to each person who was (as of the termination date) a participant or beneficiary under the plan—

"(A) in any case not described in subparagraph (B), an amount equal to the outstanding amount of benefit entitlements of such person under the plan (including interest calculated from the termination date), to the extent not previously paid under this paragraph, or

"(B) in any case in which the balance in the trust at the end of such year (after taking into account liability payments received under subsection (a)(1) and administrative expenses paid under subsection (a)(3)) is less than the total of all amounts described in subparagraph (A) in connection with all persons who were (as of the termination date) participants and beneficiaries under the terminated plan, the product derived by multiplying—

"(i) the amount described in subparagraph (A) in connection with each such person, by

"(ii) a fraction—

"(I) the numerator of which is such balance in the trust, and

"(II) the denominator of which is equal to the total of all amounts described in subparagraph (A) in connection with all persons who were (as of the termination date) participants and beneficiaries under the terminated plan.

"(2) CARRY-OVER OF MINIMAL PAYMENT AMOUNTS.—The trustee may withhold a payment to any person under this subsection in connection with any liability payment year (other than the last liability payment year with respect to which payments under paragraph (1) are payable) if such payment does not exceed $25. In any case in which such a payment is so withheld, the payment to such person in connection with the next following liability payment year shall be increased by the amount of such withheld payment.

"(c) REGULATIONS.—The corporation may issue such regulations as it considers necessary to carry out the purposes of this section.".

SEC. 3312. TREATMENT OF TRANSACTIONS TO EVADE LIABILITY; EFFECT OF CORPORATE REORGANIZATION.

Subtitle D of title IV is amended by adding at the end thereof the following new section:

"TREATMENT OF TRANSACTIONS TO EVADE LIABILITY; EFFECT OF CORPORATE REORGANIZATION

"SEC. 4069. (a) TREATMENT OF TRANSACTIONS TO EVADE LIABILITY.—If a principal purpose of any person in entering into any transaction is to evade liability under this subtitle in connection with the termination of a single-employer plan under sections 4041 or 4042 and the transaction becomes effective within five years before the termination date, then such person and the members of such person's controlled group (determined as of the termination date) shall be subject to liability under this subtitle in connection with such termination as if such person were a contributing sponsor of the terminated plan as of the termination date. This subsection shall not cause any person to be liable under this subtitle in connection with such plan termination for any increases or improvements in the benefits provided under the plan which are adopted after the date on which the transaction referred to in the preceding sentence becomes effective.

"(b) EFFECT OF CORPORATE REORGANIZATION.—For purposes of this subtitle, the following rules apply in the case of certain corporate reorganizations:

"(1) CHANGE OF IDENTITY, FORM, ETC.—If a person ceases to exist by reason of a reorganization which involves a mere change in identity, form, or place of organization, however effected, a successor corporation resulting from such reorganization shall be treated as the person to whom this subtitle applies.

"(2) LIQUIDATION INTO PARENT CORPORATION.—If a person ceases to exist by reason of liquidation into a parent corporation, the parent corporation shall be treated as the person to whom this subtitle applies.

"(3) MERGER, CONSOLIDATION, OR DIVISION.—If a person ceases to exist by reason of a merger, consolidation, or division, the successor corporation or corporations shall be treated as the person to whom this subtitle applies.".

SEC. 3313. ADDITIONAL ENFORCEMENT AUTHORITY RELATING TO TERMINATIONS OF SINGLE-EMPLOYER PLANS.

Subtitle D of title IV (as amended by section 3312) is further amended by adding at the end thereof the following new section:

"ADDITIONAL ENFORCEMENT AUTHORITY RELATING TO TERMINATIONS OF SINGLE-EMPLOYER PLANS

"SEC. 4070. (a) IN GENERAL.—A person who is with respect to a single-employer plan a fiduciary, employer, contributing sponsor, member of a contributing sponsor's controlled group, participant, or beneficiary, and who is adversely affected by an act or practice of any party in violation of any provision of section 4041, 4042, 4049, 4062, 4063, 4064, or 4069, or an employee organization

which represents such a participant or beneficiary for purposes of collective bargaining with respect to such plan, may bring an action—

"(1) to enjoin such act or practice, or

"(2) to obtain other appropriate equitable relief (A) to redress such violation or (B) to enforce such provision.

"(b) STATUS OF PLAN AS PARTY TO ACTION AND WITH RESPECT TO LEGAL PROCESS.—A single-employer plan may be sued under this section as an entity. Service of summons, subpoena, or other legal process of a court upon a trustee or an administrator of a single-employer plan in such trustee's or administrator's capacity as such shall constitute service upon the plan. If a plan has not designated in the summary plan description of the plan an individual as agent for the service of legal process, service upon the corporation shall constitute such service. The corporation, not later than 15 days after receipt of service under the preceding sentence, shall notify the administrator or any trustee of the plan of receipt of such service. Any money judgment under this section against a single-employer plan shall be enforceable only against the plan as an entity and shall not be enforceable against any other person unless liability against such person is established in such person's individual capacity.

"(c) JURISDICTION AND VENUE.—The district courts of the United States shall have exclusive jurisdiction of civil actions under this section. Such actions may be brought in the district where the plan is administered, where the violation took place, or where a defendant resides or may be found, and process may be served in any other district where a defendant resides or may be found. The district courts of the United States shall have jurisdiction, without regard to the amount in controversy or the citizenship of the parties, to grant the relief provided for in subsection (a) in any action.

"(d) RIGHT OF CORPORATION TO INTERVENE.—A copy of the complaint in any action under this section shall be served upon the corporation by certified mail. The corporation shall have the right in its discretion to intervene in any action.

"(e) RIGHT OF CORPORATION TO ATTORNEY REPRESENTATION.—In all civil actions under this section, attorneys appointed by the corporation may represent the corporation.

"(f) VENUE OF SUITS AGAINST THE CORPORATION.—Suits under this section to review a final determination or order of the corporation, to restrain the corporation from taking any action contrary to the provisions of sections 4041, 4042, 4062, 4063, 4064, and 4069, or to compel the corporation to take action required under such provisions, may be brought in the district court of the United States for the district where the plan has its principal office or in the United States District Court for the District of Columbia.

"(g) AWARDS OF COSTS AND EXPENSES.—

"(1) GENERAL RULE.—In any action brought under this section, the court in its discretion may award all or a portion of the costs and expenses incurred in connection with such action, including reasonable attorney's fees, to any party who prevails or substantially prevails in such action.

"(2) SPECIAL RULE FOR STANDARD TERMINATION VIOLATIONS.—If, in any action brought under this section the plaintiff alleges a violation of any requirement of section 4041(b) (relating to the termination of a single-employer plan in a standard termination), and, in the judgment of the court, the plaintiff substantially prevails on such allegation, the court shall award to the plaintiff the costs and expenses incurred in connection with such action (including reasonable attorney's fees).

"(3) SPECIAL RULE FOR FAILURE TO MAKE LIABILITY PAYMENT.—In the case of a failure to make timely payment of any liability payment under section 4062(c), the court, in any action for enforcement under this section relating to such failure, shall award to the plaintiff the costs and the expenses incurred in connection with such action (including reasonable attorney's fees), unless the defendant demonstrates that the failure to make the liability payment was based on reasonable cause.

"(4) EXEMPTION FOR PLANS.—Notwithstanding the preceding provisions of this subsection, no plan shall be required in any action to pay any costs and expenses (including attorney's fees).

"(h) TIME LIMITATION.—An action under this section may not be brought after the later of—

"(1) 6 years after the date on which the cause of action arose, or

"(2) 3 years after the earliest date on which the plaintiff acquired or should have acquired actual knowledge of the existence of such cause of action; except that in the case of fraud or concealment, such action may be brought not later than 6 years after the date of discovery of the existence of such cause of action.".

SEC. 3314. SECURITY FOR WAIVERS OF MINIMUM FUNDING STANDARD AND EXTENSIONS OF AMORTIZATION PERIOD.

(a) IN GENERAL.—Part 3 of subtitle B of title I is amended—

(1) by redesignating section 306 (29 U.S.C. 1086) as section 307; and

(2) by inserting after section 305 (29 U.S.C. 1085) the following new section:

"SECURITY FOR WAIVERS OF MINIMUM FUNDING STANDARD AND EXTENSIONS OF AMORTIZATION PERIOD

"SEC. 306. (a) IN GENERAL.—Except as provided in subsection (c), the Secretary may require security to a single-employer plan as a condition for granting or modifying a waiver of the minimum funding standard with respect to such plan under section 303 or an extension of an amortization period with respect to such plan under section 304. The providing of such security to the plan in accordance with this section shall not be considered an extension of credit for purposes of part 4 of this subtitle. Such security may be perfected and enforced only by the Pension Benefit Guaranty Corporation or by a contributing sponsor (within the meaning of section 4001(a)(13)) or a member of such a sponsor's controlled group at the direction of the Corporation.

"(b) CONSULTATION WITH THE PENSION BENEFIT GUARANTY CORPORATION AND OTHER INTERESTED PARTIES.—Except as provided in subsection (c), before granting or modifying a waiver of the minimum funding standard with respect to a single-employer plan under section 303 or an extension of the amortization period with respect to such plan under section 304 or taking any other action under this section, the Secretary shall—

"(1) provide the Pension Benefit Guaranty Corporation notice of the proposed waiver, extension, modification, or other action and a reasonable period of time to comment with respect to such waiver, extension, modification, or action and consider any comments of such Corporation relating to such waiver, extension, modification, or action which are provided to the Secretary during such period, and

"(2) consider the views of any other interested parties relating to such waiver, extension, modification, or action which are submitted in writing to such Secretary.

"(c) EXCEPTION.—The requirements of subsections (a) and (b) shall not apply in the case of any waiver, extension, modification, or other action referred to in such subsections with respect to a plan if the sum of—

"(1) the outstanding balance of the accumulated funding deficiencies (within the meaning of section 302(a)(2)) of the plan (which, for purposes of this paragraph, shall include the amount of any increase in such accumulated funding deficiencies of the plan which would result if all applications for waivers of the minimum funding standard under section 303 and for extensions of the amortization period under section 304 which are pending with respect to such plan were denied),

"(2) the outstanding balance of the amount of waived funding deficiencies of the plan waived under section 303, and

"(3) the outstanding balance of the amount of decreases in the minimum funding standard allowed under section 304,

is less than $1,000,000.".

(b) CLERICAL AMENDMENT.—The table of sections in section 1 is amended by striking out the item relating to section 306 and inserting in lieu thereof the following new items:

"Sec. 306. Security for waivers of minimum funding standard and extensions of amortization period.

"Sec. 307. Effective dates.".

(c) EFFECTIVE DATES.—The amendments made by this section shall apply with respect to—

(1) waivers of the minimum funding standard granted on or after the date of the enactment of this Act with respect to a single-employer plan under section 303 of the Employee Retirement Income Security Act of 1974,

(2) extensions of an amortization period granted on or after such date with respect to a single-employer plan under section 304 of such Act, and

(3) modifications granted on or after such date of waivers of the minimum funding standard granted with respect to a single-employer plan under such section 303 on or after such date and modifications granted on or after such date of extensions of the amortization period granted with respect to a single-employer plan under such section 304 on or after such date.

SEC. 3315. CONFORMING, CLARIFYING, TECHNICAL, AND MISCELLANEOUS AMENDMENTS.

(a) CONFORMING AMENDMENTS RELATING TO PLAN TERMINATIONS.—

(1) CREDITS TO PENSION BENEFIT GUARANTY FUNDS.—Section 4005(b)(1)(C) (29 U.S.C. 1305(b)(1)(C)) is amended by inserting "terminated under section 4041(c) or" after "a plan".

(2) APPLICABILITY OF ASSET ALLOCATION RULES.—Section 4044(c) (29 U.S.C. 1344(c)) is amended—

(A) in the first sentence, by striking out "Any" and inserting in lieu thereof "In the case of a distress termination under section 4041(c) or a termination by the corporation under section 4042, any", and by striking out "the period beginning" and all that follows down through "is to be allocated" and inserting in lieu thereof the following: "the period beginning on the date a trustee is appointed under section 4042(b) and ending on the termination date is to be allocated"; and

(B) in the second sentence, by inserting "in such a termination under section 4041(c) or 4042" after "terminated".

(3) TERMINATION DATE.—Section 4048(a) (29 U.S.C. 1348(a)) is amended—

(A) by striking out "date of termination" and inserting in lieu thereof "termination date";

(B) by redesignating paragraphs (1) through (3) as paragraphs (2) through (4), respectively;

(C) in paragraph (2) (as redesignated), by inserting "in a distress termination" after "terminated" and by striking out "section 4041" and inserting in lieu thereof "section 4041(c)";

(D) by inserting before paragraph (2) (as redesignated) the following new paragraph:

"(1) in the case of a plan terminated in a standard termination in accordance with the provisions of section 4041(b), the date specified in the notice provided under section 4041(a)(2),";

and

(E) in paragraph (4) (as redesignated), by striking out "in accordance with the provisions of either section" and inserting in lieu thereof "under section 4041(c) or 4042".

(4) CONFORMING AMENDMENTS TO SPECIAL LIABILITY RULES RELATING TO CERTAIN SINGLE-EMPLOYER PLANS WITH MULTIPLE CONTROLLED GROUPS.—

(A) LIABILITY OF SUBSTANTIAL EMPLOYER FOR WITHDRAWAL.—

(i) Section 4063(a) (29 U.S.C. 1363(a)) is amended—

(I) by striking out "plan under which more than one employer makes contributions (other than a multiemployer plan)" and inserting in lieu thereof "single-employer plan which has two or more contributing sponsors at least two of whom are not under common control";

(II) in paragraph (1), by striking out "withdrawal of a substantial employer" and inserting in lieu thereof "withdrawal during a plan year of a substantial employer for such plan year";

(III) in paragraph (2), by striking out "of such employer" and all that follows and inserting in lieu thereof "of all persons with respect to the withdrawal of the substantial employer.";

(IV) by striking out "whether such employer is liable for any amount under this subtitle with respect to the withdrawal" and inserting in lieu thereof "whether there is liability resulting from the withdrawal of the substantial employer"; and

(V) by striking out "notify such employer" and inserting in lieu thereof "notify the liable persons".

(ii) Section 4063(b) (29 U.S.C. 1363(b)) is amended—

(I) by striking out "an employer" and all that follows down through "shall be liable" and inserting in lieu thereof "any one or more contributing sponsors who withdraw, during a plan year for which they constitute a substantial employer, from a single-employer plan, to which section 4021 applies and which has two or more contributing sponsors at least two of whom are not under common control, shall, upon notification of such contributing sponsors by the corporation as provided by subsection (a), be liable, together with the members of their controlled groups,";

(II) by striking out "such employer's";

(III) by striking out "the employer's withdrawal" and inserting in lieu thereof "the withdrawal referred to in subsection (a)(1)";

(IV) in paragraph (1), by striking out "such employer" and inserting in lieu thereof "such contributing sponsors";

(V) in paragraph (2), by striking out "all employers" and inserting in lieu thereof "all contributing sponsors"; and

(VI) by striking out "the liability of each such employer" and inserting in lieu thereof "such liability".

(iii) Section 4063(c) (29 U.S.C. 1363(c)) is amended—

(I) in paragraph (1), by striking out "In lieu of payment of his liability under this section the employer" and inserting in lieu thereof "In lieu of payment of a contributing sponsor's liability under this section the contributing sponsor";

(II) in paragraph (2), by inserting "under section 4041(c) or 4042" after "terminated", by striking out "of such employer", and by striking out "to the employer (or his bond cancelled)" and inserting in lieu thereof "(or the bond cancelled)"; and

(III) in paragraph (3), by inserting "under section 4041(c) or 4042" after "terminates".

(iv) Section 4063(d) (29 U.S.C. 1363(d)) is amended—

(I) by striking out "Upon a showing by the plan administrator of a plan (other than a multiemployer plan) that the withdrawal from the plan by any employer or employers has resulted" and inserted in lieu thereof "Upon a showing by the plan administrator of the plan that the withdrawal from the plan by one or more contributing sponsors has resulted";

(II) by striking out "by employers"; and

(III) in paragraph (1), by striking out "their employer's" and inserting in lieu thereof "the".

(v) Section 4063(e) (29 U.S.C. 1363(e)) is amended—

(I) by striking out "to any employer or plan administrator"; and

(II) by striking out "all other employers" and inserting in lieu thereof "contributing sponsors".

(vi) The heading for section 4063 is amended by adding at the end thereof the following "FROM SINGLE-EMPLOYER PLANS UNDER MULTIPLE CONTROLLED GROUPS.".

(B) ALLOCATION OF LIABILITY UPON TERMINATION OF CERTAIN SINGLE-EMPLOYER PLANS.—

(i) Section 4064(a) (29 U.S.C. 1364(a)) is amended—

(I) by striking out "all employers who maintain a plan under which more than one employer makes contributions (other than a multiemployer plan)" and inserting in lieu thereof "all contributing sponsors of a single-employer plan which has two or more contributing sponsors at least two of whom are not under common control"; and

(II) by inserting "under section 4041(c) or 4042" after "terminated".

(ii) Section 4064(b) (29 U.S.C. 1364(b)) is amended—

(I) by striking out "liability of each such employer" and inserting in lieu thereof "liability with respect to each contributing sponsor and each member of its controlled group";

(II) by striking out "under section 4062(b)(1)";

(III) by striking out "each employer" the first place it appears and inserting in lieu thereof "each contributing sponsor and member of its controlled group";

(IV) in paragraph (1), by striking out "each employer" and inserting in lieu thereof "members of such controlled group";

(V) in paragraph (2), by striking out "such employers" and inserting in lieu thereof "contributing sponsors";

(VI) by striking out "5 years," in paragraph (2) and all that follows down through "employer." and inserting in lieu thereof "5 years."; and

(VII) in the last sentence, by striking out "of each such employer" and inserting in lieu thereof "of each such contributing sponsor and member of its controlled group".

(iii) The heading for section 4064 is amended to read as follows:

"LIABILITY ON TERMINATION OF SINGLE-EMPLOYER PLANS UNDER MULTIPLE CONTROLLED GROUPS".

(C) ANNUAL NOTIFICATION TO SUBSTANTIAL EMPLOYERS.—Section 4066 (29 U.S.C. 1366) is amended—

(i) by striking out "each plan under which contributions are made by more than one employer (other than a multiemployer plan)" and inserting in lieu thereof "each single-employer plan which has at least two contributing sponsors at least two of whom are not under common control";

(ii) by striking out "any employer making contributions under that plan" and inserting in lieu thereof "any contributing sponsor of the plan"; and

(iii) by striking out "that he is a substantial employer" and inserting in lieu thereof "that such contributing sponsor comprises with others a substantial employer".

(5) ADDITIONAL AMENDMENTS RELATING TO RECOVERY OF AMOUNTS OF LIABILITY.—

(A) Section 4067 (29 U.S.C. 1367) is amended—

(i) by striking out "employers" and inserting in lieu thereof "contributing sponsors and members of their controlled groups"; and

(ii) by inserting "of amounts of liability to the corporation accruing as of the termination date" after "deferred payment".

(B)(i) Section 4068 (29 U.S.C. 1368) is amended—

(I) in subsection (a), by striking out "employer or employers" each place it appears and inserting in lieu thereof "person", and by striking out "neglect or refuse" and inserting in lieu thereof "neglects or refuses";

(II) in subsection (d)(1), by striking out "employer" and inserting in lieu thereof "liable person";

(III) in subsection (d)(2), by striking out "employer" each place it appears and inserting in lieu thereof "liable person"; and

(IV) in subsection (e), by striking out "employer or employers" and inserting in lieu thereof "liable person".

(ii) Section 4068 is further amended by striking out the second sentence in subsection (c)(1) (29 U.S.C. 1368(c)(1)) and inserting in lieu thereof the following:

"Such section 6323 shall be applied for purposes of this section by disregarding subsection (g)(4) and by substituting—

"(A) 'lien imposed by section 4068 of the Employee Retirement Income Security Act of 1974' for 'lien imposed by section 6321' each place it appears in subsections (a), (b), (c)(1), (c)(4)(B), (d), (e), and (h)(5);

"(B) 'the corporation' for 'the Secretary' in subsections (a) and (b)(9)(C);

"(C) 'the payment of the amount on which the lien is based' for 'the collection of any tax under this title' in subsection (b)(3);

"(D) 'a person whose property is subject to the lien' for 'the taxpayer' in subsections (b)(8), (c)(2)(A)(i) (the first place it appears), (c)(2)(A)(ii), (c)(2)(B), (c)(4)(B), and (c)(4)(C) (in the matter preceding clause (i));

"(E) 'such person' for 'the taxpayer' in subsections (c)(2)(A)(i) (the second place it appears) and (c)(4)(C)(ii);

"(F) 'payment of the loan value of the amount on which the lien is based is made to the corporation' for 'satisfaction of a levy pursuant to section 6332(b)' in subsection (b)(9)(C);

"(G) 'section 4068 lien' for 'tax lien' each place it appears in subsections (c)(1), (c)(2)(A), (c)(2)(B), (c)(3)(B)(iii), (c)(4)(B), (d), and (h)(5); and

"(H) 'the date on which the lien is first filed' for 'the date of the assessment of the tax' in subsection (g)(3)(A).".

(b) CLARIFICATION OF DESCRIPTION OF CERTAIN INFORMATION REQUIRED TO BE FILED IN ANNUAL REPORT.—

(1) IN GENERAL.—Section 103(d)(6) (29 U.S.C. 1023(d)(6)) is amended to read as follows:

"(6) Information required in regulations of the Pension Benefit Guaranty Corporation with respect to:

"(A) the current value of the assets of the plan,

"(B) the present value of all nonforfeitable benefits for participants and beneficiaries receiving payments under the plan,

"(C) the present value of all nonforfeitable benefits for all other participants and beneficiaries,

"(D) the present value of all accrued benefits which are not nonforfeitable (including a separate accounting of such benefits which are benefit entitlements, as defined in section 4001(a)(16)), and

"(E) the actuarial assumptions and techniques used in determining the values described in subparagraphs (A) through (D).".

(2) CONFORMING AMENDMENT.—Section 104(a)(2)(A) (29 U.S.C. 1024(a)(2)(A)) is amended by striking out the second sentence.

(3) TRANSITION RULES.—Any regulations, modifications, or waivers which have been issued by the Secretary of Labor with respect to section 103(d)(6) of the Employee Retirement Income Security Act of 1974 (as in effect immediately before the date of the enactment of this Act) shall remain in full force and effect until modified by any regulations with respect to such section 103(d)(6) prescribed by the Pension Benefit Guaranty Corporation.

(c) ADDITIONAL AMENDMENTS.—

(1) DEFINITIONS FOR TITLE I.—Section 3 (29 U.S.C. 1002) is amended—

(A) in paragraph (37)(A), by inserting "pension" before "plan"; and

(B) by adding after paragraph (40) the following new paragraph:

"(41) The term 'single-employer plan' means any pension plan which is not a multiemployer plan.".

(2) NOTICE OF REQUEST FOR WAIVERS OF MINIMUM FUNDING STANDARDS AND RIGHT TO SUBMIT RELEVANT INFORMATION.—Section 303 (29 U.S.C. 1083) is amended—

(A) by redesignating subsection (d) as subsection (e); and

(B) by inserting after subsection (c) the following new subsection:

"(d)(1) Before granting a waiver under this section, the Secretary shall require that the applicant provide evidence satisfactory to the Secretary that the applicant has notified each affected party (within the meaning of section 4001(a)(21)) that the waiver has been requested.

"(2) After granting a waiver under this section, the Secretary may (subject to section 306) modify the terms and conditions under which the waiver was granted if the Secretary determines that this is appropriate taking into account all the facts and circumstances.

"(3) The Secretary shall consider any relevant information submitted by a recipient of the notification described in paragraph (1) relating to the propriety of granting the waiver or of subsequently modifying the terms and conditions thereof.".

(3) NOTICE OF REQUEST FOR EXTENSIONS OF AMORTIZATION PERIOD AND RIGHT TO SUBMIT RELEVANT INFORMATION.—Section 304 (29 U.S.C. 1084) is amended by adding at the end thereof the following new subsection:

"(c)(1) Before granting an extension under this section, the Secretary shall require that the applicant provide evidence satisfactory to the Secretary that the applicant has notified each affected party (within the meaning of section 4001(a)(21)) that the extension has been requested.

"(2) After granting an extension under this section, the Secretary may (subject to section 306) modify the terms and conditions under which the extension was granted if the Secretary determines that this is appropriate taking into account all the facts and circumstances.

"(3) The Secretary shall consider any relevant information submitted by a recipient of the notification described in paragraph (1) relating to the propriety of granting the extension or of subsequently modifying the terms and conditions thereof.".

(4) TECHNICAL CORRECTION.—Section 4003(f) (29 U.S.C. 1303(f)) is amended, in the first sentence, by striking out "employee" and inserting in lieu thereof "employer".

(5) REPEAL OF EXPIRED AUTHORITY.—Section 4004 (29 U.S.C. 1304) is repealed.

(6) VOTING BY CORPORATION OF STOCK PAID AS LIABILITY.—Section 4005 (29 U.S.C. 1305) is amended by adding at the end thereof the following new subsection:

"(g) Any stock in a person liable to the corporation under this title which is paid to the corporation by such person or a member of such person's controlled group in satisfaction of such person's liability under this title may be voted only by the custodial trustees or outside money managers of the corporation.".

(7) EFFECTIVE YEARS.—Section 4022(b)(7) (29 U.S.C. 1322(b)(7)) is amended by striking out "following" and inserting in lieu thereof "beginning with".

(8) TREATMENT OF PRE-RETIREMENT SURVIVOR BENEFITS.—Section 4022 (29 U.S.C. 1322) is amended by adding at the end thereof the following new subsection:

"(d) For purposes of subsection (a), a pre-retirement survivor benefit with respect to a participant under a terminated single-employer plan shall not be treated as forfeitable solely because the participant has not died as of the termination date.".

(9) CONFORMING AMENDMENT.—Section 4042(d)(3) (29 U.S.C. 1342(d)(3)) is amended by striking out "same duties as a trustee appointed under section 47 of the Bankruptcy Act" and inserting in lieu thereof "same duties as those of a trustee under section 704 of title 11, United States Code".

(10) CLERICAL CORRECTIONS.—Section 4044(a)(4) (29 U.S.C. 1344(a)(4)(A)) is amended—

(A) in subparagraph (A), by striking out "section 4022(b)(5)" and inserting in lieu thereof "section 4022B(a)"; and

(B) in subparagraph (B), by striking out "section 4022(b)(6)" and inserting in lieu thereof "section 4022(b)(5)".

(11) RELEASE OF LIEN.—Section 4068(e) (29 U.S.C. 1368(e)) is amended by striking out ", with the consent of the board of directors,".

(d) AMENDMENTS TO THE TABLE OF CONTENTS OF ERISA.—The table of contents in section 1 is amended—

(1) by striking out the item relating to section 4004;

(2) by striking out the item relating to section 4042 and inserting in lieu thereof the following new item:

"Sec. 4042. Institution of termination proceedings by the corporation.";

(3) by inserting after the item relating to section 4048 the following new item:

"Sec. 4049. Distribution to participants and beneficiaries of liability payments to section 4049 trustee."; and

(4) by striking out the items relating to subtitle D of title IV and inserting in lieu thereof the following new items:

"Subtitle D—Obligations of the Corporation; Liability of Employers and Other Persons

"Sec. 4061. Amounts payable by the corporation.

"Sec. 4062. Liability for termination of single-employer plans under a distress termination or a termination by the corporation.

"Sec. 4063. Liability of substantial employer for withdrawal from single-employer plans under multiple controlled groups.

"Sec. 4064. Liability on termination of single-employer plans under multiple controlled groups.

"Sec. 4065. Annual report of plan administrator.

"Sec. 4066. Annual notification of substantial employers.

"Sec. 4067. Recovery of employer liability for plan termination.

"Sec. 4068. Lien for liability of employer.

"Sec. 4069. Treatment of transactions to evade liability; effect of corporate reorganization.

"Sec. 4070. Additional enforcement authority relating to terminations of single-employer plans.".

SEC. 3316. EFFECTIVE DATE.

(a) IN GENERAL.—Except as otherwise provided in this subtitle, the provisions of this subtitle shall take effect on the date of enactment of this Act.

(b) TRANSITIONAL RULE.—If a single-employer plan which has not terminated under title IV of the Employee Retirement Income Security Act of 1974 fails to meet the requirements of the amendments made by this subtitle but is administered in a manner which meets such requirements, such plan need not be amended to meet such requirements until the earlier of—

(1) the date on which such plan is first amended after the date of the enactment of this Act, or

(2) the beginning of the first plan year beginning after December 31, 1989.

Subtitle D—Continuation Coverage Under Group Health Plans

SEC. 3401. TEMPORARY EXTENSION OF COVERAGE AT GROUP RATES FOR FAMILY MEMBERS OF DECEASED, DIVORCED, OR MEDICARE-ELIGIBLE WORKERS.

(a) IN GENERAL.—Subtitle B of title I of the Employee Retirement Income Security Act of 1974 is amended by adding at the end thereof the following new part:

"PART 6—CONTINUATION COVERAGE UNDER GROUP HEALTH PLANS

"SEC. 601. REQUIRED OPTION OF CONTINUATION COVERAGE WHEN QUALIFIED BENEFICIARY WOULD LOSE COVERAGE.

"The plan sponsor of each group health plan shall provide under such plan, in accordance with this part, to each qualified beneficiary who would lose coverage under the plan because of a qualifying event the option of electing continuation coverage under the plan.

"SEC. 602. ELECTION.

"(a) ELECTION PERIOD.—The option of electing continuation coverage must be offered during a period that—

"(1) begins not later than the termination date (as defined in section 603(2))

"(2) is of at least 60 days duration, and

"(3) ends not earlier than 60 days after the date the qualified beneficiary is notified under section 606(4) or the termination date, whichever date is later.

"(b) EFFECT OF ELECTION ON OTHER BENEFICIARIES.—Unless otherwise specified in the election, any such election by a qualified beneficiary described in section 607(3)(A) shall be deemed to include an election of continuation coverage on behalf of any other qualified beneficiary whose coverage would, but for continuation coverage provided in accordance with this paragraph, be affected by the qualifying event.

"SEC. 603. QUALIFYING EVENT AND TERMINATION DATE.

"For purposes of this part—

"(1) QUALIFYING EVENT.—A 'qualifying event' under a group health plan, with respect to a covered employee, is any of the following events if coverage of a qualified beneficiary under the plan would, but for continuation coverage provided in compliance with this paragraph, be terminated by the occurrence of the event:

"(A) The death of the covered employee.

"(B) The divorce or separation of the covered employee from the employee's spouse.

"(C) The covered employee becoming entitled to benefits under title XVIII of the Social Security Act.

"(2) TERMINATION DATE.—The term 'termination date' means, with respect to a qualifying event, the date on which coverage of a qualified beneficiary under a group health plan would be terminated under the plan but for continuation coverage provided in compliance with this part.

"SEC. 604. TERMS OF CONTINUATION COVERAGE.

"Any continuation coverage elected by or on behalf of a qualified beneficiary shall meet the following requirements:

"(1) NO REQUIREMENT OF INSURABILITY.—The coverage may not be conditioned upon, or discriminate on the basis of lack of, evidence of insurability.

"(2) CONTINUED BENEFITS.—The coverage shall consist of coverage which is identical to the coverage provided under the plan to similarly situated beneficiaries under the plan with respect to whom a qualifying event has not occurred.

"(3) PERIOD OF CONTINUED COVERAGE.—The coverage shall be for a period commencing upon the termination date and ending not earlier than the earliest of the following:

"(A) MAXIMUM OF FIVE YEARS.—Five years after the termination date.

"(B) END OF PLAN.—The date on which the plan sponsor ceases to provide any group health plan to employees.

"(C) FAILURE TO PAY PREMIUMS.—The date on which there is a failure in making timely payment of any premium required under the plan with respect to the qualified beneficiary.

"(D) REEMPLOYMENT OR MEDICARE ELIGIBILITY.—The date on which the qualified beneficiary first becomes or could become, after the date of the election, a covered employee under any other group health plan or becomes entitled to benefits under title XVIII of the Social Security Act.

"(E) REMARRIAGE OF SPOUSE.—In the case of a qualified beneficiary described in section 607(3)(A), the date on which the beneficiary remarries and becomes (or could become) covered under a group health plan as the spouse of a covered employee.

"(F) CHILD TURNING MAJORITY.—In the case of an individual who is a qualified beneficiary by reason of having been a covered dependent child of a covered employee, the date on which the individual ceases to be a covered dependent child of the covered employee.

"(4) CONVERSION OPTION.—In the case of a qualified beneficiary whose period of continued coverage expires under paragraph (3)(A), the plan must provide to the beneficiary, during the 180-day period ending on the date of expiration of the period of continued coverage, the option of enrollment under a conversion health plan otherwise generally available to beneficiaries under the plan.

"SEC. 605. PREMIUMS FOR CONTINUATION COVERAGE.

"(a) AMOUNT.—The total premium charged under a group health plan with respect to any qualified beneficiary for continuation coverage under the plan shall not exceed the sum of employer premiums and employee premiums generally charged with respect to coverage under the plan of similarly situated beneficiaries with respect to whom a qualifying event has not occurred. The total of all premiums charged under the plan in any plan year may be based upon reasonably anticipated community costs for such plan year of the entire pool of covered employees and other beneficiaries under the plan, including qualified beneficiaries receiving continuation coverage under the plan under this part.

"(b) PAYMENTS.—The plan may provide for payment of the total premium by the qualified beneficiary receiving such coverage, or for payment of all or part of such premium by the plan sponsor, employer, or other party and payment of the remainder of such premium by such beneficiary. The plan shall provide for payment of any premium by a qualified beneficiary in monthly installments if so elected by such beneficiary. If an election is made during an election period but after the termination date, the plan shall permit payment of any premium for continuation coverage during the preceding period to be made within 45 days of the date of the election.

"(c) PREMIUM CHARGED DEFINED.—As used in this section, the term 'premium charged' means any amount payable with respect to the provision of coverage under a group health plan.

"SEC. 606. NOTICE REQUIREMENTS.

"In accordance with regulations of the Secretary—

"(1) the group health plan must provide, at the time of commencement of coverage under the plan, for written notice to each covered employee and spouse of the employee (if any) of the rights provided under this part;

"(2) the employer of an employee under the plan must notify the group health plan administrator if the employer knows or has reason to know that the covered employee has died;

"(3) each covered employee is responsible for notifying the group health plan administrator of the occurrence of any qualifying event (other than that described in section 603(1)(A)) with respect to such employee; and

"(4) the group health plan administrator must notify each qualified beneficiary, within a period of 14 days after the date the administrator is notified concerning the occurrence of a qualifying event affecting such beneficiary, of—

"(A) the termination date with respect to such beneficiary, and

"(B) such beneficiary's right to elect continuation coverage under this part and the election period established under section 602(a) during which such beneficiary can exercise that right.

For purposes of paragraph (4), any notification to an individual who is a qualified beneficiary as the spouse of the covered employee shall be treated as notification to all other qualified beneficiaries residing with such spouse at the time such notification is made.

"SEC. 607. DEFINITIONS.

"For purposes of this part—

"(1) GROUP HEALTH PLAN.—

"(A) IN GENERAL.—The term 'group health plan' means any employee welfare benefit plan of, or contributed to by, a plan sponsor to provide medical care to employees, former employees, or the families of such employees or former employees, directly or through insurance, reimbursement, or otherwise.

"(B) MEDICAL CARE.—For purposes of this paragraph, the term 'medical care' means amounts paid—

"(i) for the diagnosis, cure, mitigation, treatment, or prevention of disease, or for the purpose of affecting any structure or function of the body,

"(ii) for transportation primarily for and essential to medical care referred to in clause (i), or

"(iii) for insurance (including amounts paid as premiums under part B of title XVIII of the Social Security Act, relating to supplementary medical insurance for the aged) covering medical care referred to in clauses (i) and (ii).

"(2) COVERED EMPLOYEE.—The term 'covered employee' means an individual who is (or was) provided coverage under a group health plan by virtue of the individual's employment or previous employment with an employer.

"(3) QUALIFIED BENEFICIARY.—The term 'qualified beneficiary' means, with respect to a covered employee under a group health plan, any other individual who, on the date before the date of a qualifying event for that employee—

"(A) is a beneficiary under the plan as the spouse of the employee and has been married to the employee for at least the immediately preceding 30-day period, or

"(B) is a beneficiary under the plan as a covered dependent child of the employee.

"(4) COVERED DEPENDENT CHILD.—The term 'covered dependent child' means, with respect to a covered employee, an individual who meets the generally applicable requirements of the plan for treatment as a dependent child covered under the plan by reason of the coverage of the employee under the plan.

"(5) GROUP HEALTH PLAN ADMINISTRATOR.—The term 'group health plan administrator'

means, in connection with a group health plan, the plan administrator.

"SEC. 608. REGULATIONS.

"The Secretary may prescribe regulations to carry out the provisions of this part.".

(b) PENALTY FOR FAILURE TO PROVIDE NOTICE.—Section 502(c) of such Act (29 U.S.C. 1132(c)) is amended by inserting after "such request" the following: ", or who fails to meet the requirements of paragraph (1) or (4) of section 606 with respect to a participant or beneficiary,".

(c) CLERICAL AMENDMENTS.—The table of contents in section 1 of such Act is amended by inserting after the item relating to section 514 the following new items:

"PART 6—CONTINUATION COVERAGE UNDER GROUP HEALTH PLANS

"Sec. 601. Required option of continuation coverage when qualified beneficiary would lose coverage.
"Sec. 602. Election.
"Sec. 603. Qualifying event and termination date.
"Sec. 604. Terms of continuation coverage.
"Sec. 605. Premiums for continuation coverage.
"Sec. 606. Notice requirements.
"Sec. 607. Definitions.
"Sec. 608. Regulations.".

SEC. 3402. EFFECTIVE DATES.

(a) GENERAL RULE.—The amendments made by this subtitle shall apply to plan years beginning on or after January 1, 1986.

(b) SPECIAL RULE FOR COLLECTIVE BARGAINING AGREEMENTS.—In the case of a group health plan maintained pursuant to one or more collective bargaining agreements between employee representatives and one or more employers ratified before the date of the enactment of this Act, the amendments made by this subtitle shall not apply to plan years beginning before the earlier of—

(1) the date on which the last of the collective bargaining agreements relating to the plan terminates (determined without regard to any extension thereof agreed to after the date of the enactment of this Act), or

(2) January 1, 1987.

For purposes of paragraph (1), any plan amendment made pursuant to a collective bargaining agreement relating to the plan which amends the plan solely to conform to any requirement added by this section shall not be treated as a termination of such collective bargaining agreement.

SEC. 3403. NOTIFICATION TO COVERED EMPLOYEES.

At the time that the amendments made by this subtitle apply to a group health plan (within the meaning of section 607(1) of the Employee Retirement Income Security Act of 1974, the plan shall notify each covered employee, and spouse of the employee (if any), who is covered under the plan at that time of the continuation coverage required under part 6 of subtitle (B) of title I of such Act. The notice furnished under this section is in lieu of notice that may otherwise be required under section 606(1) of such Act.

TITLE IV—COMMITTEE ON ENERGY AND COMMERCE

Subtitle A—Synthetic Fuels

SEC. 4101. SHORT TITLE.

This subtitle may be cited as the "Synthetic Fuels Fiscal Responsibility Act".

SEC. 4102. FINDINGS AND PURPOSES.

Section 100 of the Energy Security Act (42 U.S.C. 8701) is amended to read as follows:

"FINDINGS AND PURPOSES

"SEC. 100. (a) The Congress finds and declares that—

"(1) the reduction of unnecessary Federal spending is essential to reducing the budget deficit, and important to the health of the national economy and the well-being of our citizens;

"(2) the United States Synthetic Fuels Corporation has failed in its mission, has spent funds on unreasonable and excessive personnel and administrative costs, and is not the appropriate institution to carry out a scaled down synthetic fuels assistance program;

"(3) such a program can best be carried out by the Department of Energy under standard Government procedures regarding conflicts-of-interest, salaries and benefits, and public access to information;

"(4) the achievement of energy security for the United States is essential to the long-term health of the national economy, the well-being of our citizens, and the maintenance of national security;

"(5) the petroleum industry and petroleum consumers have been subject to alternating cycles of shortage and oversupply, which has disrupted and inhibited the orderly development of alternatives to continually depleting petroleum supplies; and

"(6) the vulnerability of the United States to oil supply interruptions or world energy price increases can be reduced by a limited program to develop the capability to produce synthetic fuels from the vast available domestic resources.

"(b)(1) The purposes of this Act are to reduce the budget deficit, to improve the Nation's balance of payments, to reduce the threat of economic disruption from oil supply interruptions or price increases, to improve the Nation's environmental quality, and to increase the Nation's security by reducing its future dependence on imported oil.

"(2) Congress declares that these purposes can be served by—

"(A) abolishing the United States Synthetic Fuels Corporation, transferring to the Department of Energy its functions and authorizing funds for a smaller synthetic fuels assistance program to be administered by the Secretary of Energy; and

"(B) providing limited financial support for capital and operating expenses of commercial scale synthetic fuel plants at the smallest scale which will encourage the replication of commercial scale technologies.".

SEC. 4103. ABOLITION OF THE UNITED STATES SYNTHETIC FUELS CORPORATION.

Subtitle B of part B of title I of the Energy Security Act is amended to read as follows:

"SUBTITLE B—ABOLITION OF CORPORATION

"CESSATION OF COMMITMENTS

"SEC. 115. The Corporation shall not enter into any legally binding commitment, including any increase or addition to an existing commitment, under this part after the date of enactment of the Synthetic Fuels Fiscal Responsibility Act.

"TEMPORARY OPERATIONS

"SEC. 116. (a) The Board of Directors of the Corporation is disestablished and the Directors shall be discharged on the date of enactment of the Synthetic Fuels Fiscal Responsibility Act.

"(b) The Secretary, or the designated representative of the Secretary, shall be the Chief Operating Officer of the Corporation.

"(c) The Secretary shall dispose of all assets of the Corporation not necessary for the operation of the synthetic fuels assistance program described in sections 125 and 126, shall transfer to the Department of Energy all other assets of the Corporation, and shall take such other steps as are necessary to terminate the affairs of the Corporation.

"(d) No officer or employee of the Corporation shall receive a salary for the period after the date of enactment of the Synthetic Fuels Fiscal Responsibility Act in excess of the rate of basic pay payable for level IV of the Executive Schedule under title 5 of the United States Code.

"(e)(1) The Director of the Office of Personnel Management shall, within 90 days after the date of enactment of the Synthetic Fuels Fiscal Responsibility Act, determine—

"(A) the amount of compensation rights which have vested under contract with respect to each Director, officer, or employee of the Corporation; and

"(B) the extent of compensation claims made by each such Director, officer, or employee that are not vested under contract and are unreasonable or excessive.

"(2) No payments of any amounts described in paragraph (1)(B) shall be made to any Director, officer, or employee of the Corporation by the Secretary, the Corporation, or the United States.

"ABOLITION

"SEC. 117. The Corporation shall be abolished and all officers and employees of the Corporation discharged 90 days after the date of enactment of the Synthetic Fuels Fiscal Responsibility Act.".

SEC. 4104. SYNTHETIC FUELS ASSISTANCE PROGRAM.

Subtitle C of part B of title I of the Energy Security Act is amended to read as follows:

"SUBTITLE C—SYNTHETIC FUELS ASSISTANCE PROGRAM

"SECRETARY'S RESPONSIBILITIES

"SEC. 125. (a)(1) The Secretary shall assume the responsibility for administering under this part the synthetic fuels program formerly administered by the Corporation, and shall assume all legally binding obligations and contractual rights and responsibilities of the Corporation in connection therewith. Liability to the United States under this paragraph is limited to the extent of budget authority for such purposes provided by law before the date of enactment of the Synthetic Fuels Fiscal Responsibility Act.

"(2) This subsection shall take effect on the date of enactment of the Synthetic Fuels Fiscal Responsibility Act or on October 1, 1985, whichever occurs later.

"(b)(1) The Secretary shall administer the modified synthetic fuels assistance program described in section 126(a), to the extent provided in advance in appropriation Acts.

"(2)(A) For purposes of determining the Secretary's compliance with the limitation contained in paragraph (1)—

"(i) loans shall be counted at the initial face value of the loan plus such amounts as are subsequently obligated pursuant to section 132(a)(3);

"(ii) loan guarantees shall be counted at the initial face value of such loan guarantee (including any amount of interest which is guaranteed under such loan guarantee) plus such amounts as are subsequently obligated pursuant to section 133(a)(3);

"(iii) price guarantees and purchase agreements shall be valued by the Secretary as of

the date of each such contract, based upon the Secretary's estimate of the maximum potential liability of the United States;

"(iv) joint ventures and Department construction projects shall be valued at the current estimated cost to the United States, as determined annually by the Secretary; and

"(v) any increase in the liability of the United States pursuant to any amendment or other modification to a contract for a loan, loan guarantee, price guarantee, purchase agreement, joint venture, or Department construction project shall be counted.

"(B) Determinations made under subparagraph (A) shall be made in accordance with generally accepted accounting principles, consistently applied.

"(C) If more than one form of financial assistance is to be provided to any one synthetic fuel project or if the financial assistance agreement provides a right to the United States to purchase the synthetic fuel project, then the obligations and commitments thereunder shall be valued at the maximum potential exposure on such project at any time during the life of such project.

"(D) Any commitment by the Secretary to provide financial assistance or make capital expenditures which is nullified or voided for any reason shall not be considered in the aggregate for the purpose of paragraph (1).

"MODIFIED ASSISTANCE PROGRAM

"SEC. 126. (a) The Secretary shall undertake a program to encourage the synthetic fuels industry in the United States by providing financial assistance for commercial scale projects in the United States on the smallest, least expensive, scale practicable that would encourage the replication of commercial scale synthetic fuels technologies, including those which may face economic or other risks in order to compete in the market place.

"(b)(1) To the extent possible in carrying out the program described in subsection (a), the Secretary shall avoid duplication of effort by adapting work done by the Corporation and by applicants for financial assistance on solicitations and projects already in negotiation.

"(2) In carrying out the program described in subsection (a), the Secretary shall first give consideration to projects, as originally proposed or as modified within 90 days after the date of enactment of the Synthetic Fuels Fiscal Responsibility Act, with respect to which the Corporation issued a letter of intent before February 5, 1985.

"ASSISTANCE PLAN

"SEC. 127. (a) The Secretary shall, within 90 days after the date of enactment of the Synthetic Fuels Fiscal Responsibility Act, submit to the Congress an assistance plan, consistent with section 126(a) and the purposes of this part, setting forth the anticipated methods and schedules for the attainment of the synthetic fuels assistance program of the United States described by sections 125 and 126. Such plan shall address—

"(1) which synthetic fuel resources and technologies deserve Federal support;

"(2) the economic and technical feasibility or potential of each technology;

"(3) the anticipated improvements in later commercial scale projects to be derived from projects under this part;

"(4) the anticipated environmental effects associated with each technology and resource, including water requirements; and

"(5) the most advantageous combination of technologies and resources to be supported.

"(b) To the extent possible in preparing the assistance plan required by subsection (a), the Secretary shall avoid duplication of effort by adapting information and materials compiled by the Corporation.

"ASSISTANCE STRATEGY

"SEC. 128. (a) In order to assure achievement of the purposes of this title and the assistance plan developed under section 127, the Secretary—

"(1) shall, pursuant to subtitle D, solicit proposals for synthetic fuel projects;

"(2) shall, pursuant to section 131(a), award financial assistance to those qualified concerns submitting proposals acceptable to the Secretary;

"(3) shall, after soliciting proposals pursuant to paragraph (1) and reviewing such proposals, if in the judgment of the Secretary, there are, or will be, insufficient acceptable proposals as necessary to achieve the purposes of this title, undertake to negotiate contracts pursuant to subtitle D as necessary to achieve the purposes of this title; and

"(4) may, only after fulfilling the requirements of paragraphs (1), (2), and (3), and subsection (c), if in the judgment of the Secretary, there still are, or will be, insufficient acceptable proposals as necessary to achieve the purposes of this title, consistent with the objectives set forth in subsection (b) and the assistance plan developed under section 127, undertake a construction project under subtitle E as necessary to achieve the purposes of this title.

"(b)(1) The Secretary, in discharging responsibilities under subsection (a), shall employ financial assistance pursuant to subtitle D or construction projects under subtitle E in such manner as will, in the judgment of the Secretary, (A) incorporate a technological diversity of processes, methods and techniques for each domestic resource that offers significant potential for use as a synthetic fuel feedstock, and (B) offer the potential for achieving the assistance plan developed under section 127.

"(2) For the purposes of this subsection, the term 'domestic resource' shall be construed so as to require the consideration of different types and qualities of coal (such as high- and low-sulphur coal, or Eastern and Western coal), shale, and tar sands, as different domestic resources.

"(c) Prior to undertaking a construction project under subtitle E, the Secretary shall publish in the Federal Register the intention to undertake a project and the objectives of such a project, and shall solicit proposals to meet such objectives through the use of other financial assistance mechanisms established under subtitle D. If the Secretary does not receive, within thirty days after the publication of the objectives pursuant to the preceding sentence, an acceptable notice of intent to submit a proposal, the Secretary may undertake such a construction project under subtitle E.

"SOLICITATION OF PROPOSALS

"SEC. 129. (a) The Secretary is hereby directed to solicit proposals from time to time from concerns interested in the construction or operation, or both, of synthetic fuel projects. Such set of solicitations shall encompass a diversity of technologies (including differing processes, methods, and techniques) for each potential domestic resource as well as all of the forms of financial assistance authorized in subtitle D. The Secretary shall provide notice of such solicitations in the Federal Register and by such other notice as is customarily used to inform the public of Federal assistance for major research and development undertakings.

"(b) All solicitations of proposals for financial assistance shall be conducted in a manner so as to encourage maximum open and free competition.

"(c) Any concern may request the Secretary to issue a solicitation pursuant to this section for proposals for a general type of synthetic fuel project and the Secretary, if the action is in accordance with the purposes of this title and the provisions of this part, may issue such a solicitation.

"(d) Each solicitation for proposals pursuant to the authority of this section shall set forth general evaluation criteria, as determined by the Secretary, taking into account—

"(1) the achievement of the assistance plan developed under section 127; and

"(2) the requirements of the assistance strategy set forth under section 128.

"(e) The Secretary shall consult with the Governor of any State in which a proposed construction project under subtitle E or a proposed joint venture project under section 136 would be located with regard to (1) the manner in which the project would be developed, and (2) regulatory, licensing, and related governmental activities pertaining to such project. The States shall have the opportunity to provide written response to the Secretary on all aspects of such project development, licensing, and operation.

"EMPLOYEES

"SEC. 130. The Secretary may hire former employees of the Corporation who have special expertise or experience to assist the Secretary in carrying out the synthetic fuels assistance program under this part, subject to the laws of the United States with respect to Federal employment.".

SEC. 4105. ENVIRONMENTAL PLAN.

Section 131(e) of the Energy Security Act (42 U.S.C. 8731(e)) is amended to read as follows:

"(e) Any proposed legally binding obligation for financial assistance not entered into before the date of enactment of the Synthetic Fuels Fiscal Responsibility Act shall include a plan, acceptable to the Secretary and the Administrator of the Environmental Protection Agency, for the monitoring of environmental and health related effects of the construction and operation of the synthetic fuel project. Such plan shall be developed by the applicant for financial assistance in consultation with the Secretary, the Administrator of the Environmental Protection Agency, and appropriate State, regional, and local agencies, and shall—

"(1) provide for the collection of data of environmental significance;

"(2) identify all known or potentially significant pollutants and emissions associated with the project;

"(3) provide for the testing of mitigation methods and control, monitoring, and assessment technologies;

"(4) provide for the accumulation of a data base for assessing solid waste disposal problems;

"(5) ensure the operation of such project in compliance with applicable environmental requirements, including the Federal Water Pollution Control Act (33 U.S.C. 1151-1175) and the Clean Air Act (42 U.S.C. 7400 et seq.);

"(6) provide information with respect to the anticipated effect of such project on regional and local water supplies;

"(7) provide information with respect to the anticipated health effects on workers

and other persons connected to the project, including any carcinogenic effects;

"(8) provide information with respect to the anticipated social and economic impacts on local communities which will be most directly affected by the project; and

"(9) provide for the participation in appropriate activities under such plan by representatives of the Environmental Protection Agency.".

SEC. 4106. FUNDING LIMITATION.

Section 131(o) of the Energy Security Act (42 U.S.C. 8731(o)) is amended by adding at the end the following new sentence: "No financial assistance may be extended under this part after the date of enactment of the Synthetic Fuels Fiscal Responsibility Act from funds authorized under section 109(a) of such Act (1) to the extent such assistance would cause the total amount of assistance under this part for any one synthetic fuel project or module to exceed 60 percent of the capital and operating costs of such project or module, or (2) for any synthetic fuel project which received, before November 1, 1984, more than $1,000,000,000 pursuant to a Federal Financing Bank Agreement guaranteed by the Department of Energy.".

SEC. 4107. PRICE GUARANTEE LIMITATION.

Section 134 of the Energy Security Act (42 U.S.C. 8734) is amended—

(1) by inserting "(a)" after "SEC. 134."; and

(2) by adding at the end a new subsection as follows:

"(b) No price guarantee shall be made under this section after the date of enactment of the Synthetic Fuels Fiscal Responsibility Act from funds authorized under section 109(a) of such Act at a level in excess of 125 percent of the projected market price of comparable energy over the term of the guarantee.".

SEC. 4108. CONGRESSIONAL REVIEW.

Section 138 of the Energy Security Act (42 U.S.C. 8738) is amended to read as follows:

"CONGRESSIONAL REVIEW PROCEDURE

"SEC. 138. (a) No legally binding obligation, or accumulation of such obligations for one project, for an amount in excess of $20,000,000 may be entered into by the Secretary under this part after the date of enactment of the Synthetic Fuels Fiscal Responsibility Act unless a proposal for such obligation, or accumulation of such obligations for one project, is submitted to the Congress under this section.

"(b) For purposes of this section, the term 'synthetic fuel action' means any matter required under subsection (a) to be submitted to the Congress.

"(c) Along with any synthetic fuel action submitted to the Congress under this section the Secretary shall attach—

"(1) a detailed analysis of the aid proposal, including the amount and type of assistance;

"(2) an assessment by the Secretary of the potential of the resource and technology being assisted;

"(3) a cost-benefit analysis, including projections of net monetary gains and losses for the United States;

"(4) a copy of the environmental plan required under section 131(e); and

"(5) an explanation of how the proposed project and its technology relates to the assistance plan submitted by the Secretary under section 127, including a justification of resource applicability and reproducibility.

"(d) The Secretary shall transmit any synthetic fuel action (bearing an identification number) to both Houses of the Congress on the same day. If both Houses are not in session on the day on which any synthetic fuel action is transmitted to the appropriate officers of each House, for the purposes of this section such synthetic fuel action shall be deemed to have been received on the first succeeding day on which both Houses are in session.

"(e) No synthetic fuel action shall take effect if a joint resolution disapproving such synthetic fuel action is enacted within the first period of 90 calendar days of continuous session of Congress beginning on the date after the date such synthetic fuel action is received by the Congress.".

SEC. 4109. AUTHORIZATION OF APPROPRIATIONS.

(a) AUTHORIZATION.—There is authorized to be appropriated to the Secretary of Energy for carrying out part B of title I of the Energy Security Act, as amended by this subtitle, $500,000,000.

(b) ADDITIONAL REQUESTS.—The Secretary may from time to time request the Congress to authorize additional funds for such purposes.

SEC. 4110. RESCISSION.

Except as otherwise provided in this section, all funds appropriated to the Energy Security Reserve are hereby rescinded. Funds so rescinded shall include all funds appropriated to the Energy Security Reserve by the Department of the Interior and Related Agencies Appropriations Act, 1980 (Public Law 96-126) and subsequently made available to carry out title I, part B, of the Energy Security Act by Public Laws 96-304 and 96-514, and shall be deposited in the general fund of the Treasury. This rescission shall not apply to—

(1) $500,000,000 for cost-shared clean coal technology projects for the construction and operation of facilities to demonstrate the feasibility for future commercial application of such technology;

(2) $500,000,000, which is hereby appropriated to the Secretary of Energy for carrying out part B of title I of the Energy Security Act, as amended by this subtitle; and

(3) such amounts as may be necessary to make payments for projects or modules for which obligations were entered into under title I of the Energy Security Act before July 31, 1985.

SEC. 4111. RESTRICTIONS.

(a) USE OF FUNDS.—None of the funds appropriated by section 4110 or any other provision of law may be used by the United States Synthetic Fuels Corporation, the Secretary of Energy, or any other agent or officer of the United States for making payments with respect to obligations entered into by the United States Synthetic Fuels Corporation after July 31, 1985, and before the date of enactment of this Act.

(b) IMMUNITY FROM SUIT.—The United States hereby withdraws any stated or implied consent for the United States, any officer or agent of the United States, or the United States Synthetic Fuels Corporation to be sued by any person with respect to any claim arising out of obligations described in subsection (a).

SEC. 4112. TECHNICAL AND CONFORMING AMENDMENTS.

(a) SHORT TITLE.—Section 111 of the Energy Security Act is amended by striking out "United States Synthetic Fuels Corporation Act of 1980" and inserting in lieu thereof "United States Synthetic Fuels Assistance Act".

(b) DEFINITIONS.—Section 112 of the Energy Security Act (42 U.S.C. 8702) is amended—

(1) by inserting after paragraph (15) the following new paragraph:

"(15A) The term 'Secretary' means the Secretary of Energy."; and

(2) by adding at the end the following new paragraph:

"(19) The term 'United States' means the States, the District of Columbia, the Commonwealth of Puerto Rico, and any territory or possession of the United States.".

(c) ADDITIONAL LOAN AMOUNTS.—Section 132(a)(3)(B) of the Energy Security Act (42 U.S.C. 8732(a)(3)(B)) is amended by striking out ", except that" and all that follows through "has not been disapproved".

(d) ADDITIONAL LOAN GUARANTEES.—Section 133(a)(3)(B) of the Energy Security Act (42 U.S.C. 8733(a)(3)(B)) is amended by striking out ", except if" and all that follows through "pursuant to such section".

(e) JOINT VENTURES.—Section 136(a) of the Energy Security Act (42 U.S.C. 8736(a)) is amended—

(1) by striking out the second sentence; and

(2) by striking out ": *Provided, however*" and all that follows through "joint venture agreement".

(f) FEES AND RECEIPTS.—

(1) FEES.—Section 139 of the Energy Security Act (42 U.S.C. 8739) is amended to read as follows:

"USER FEES

"SEC. 139. (a) The Secretary may charge and collect fees in connection with the financial assistance provided under this part, except that such fees shall not exceed 1 percent of the amount of such financial assistance. Fees received by the Secretary shall be deposited in the general fund of the Treasury.

"(b) The Secretary shall prescribe and collect an annual fee, in connection with each loan guarantee provided under this part, of one-half of one percent of the amount of such loan guarantee. Sums realized from such loan guarantee fees shall be deposited in the general fund of the Treasury.".

(2) RECEIPTS.—Section 154 of the Energy Security Act (42 U.S.C. 8754) is amended to read as follows:

"RECEIPTS

"SEC. 154. All receipts collected by the Secretary in connection with the synthetic fuels assistance program under this part shall be deposited in the general fund of the Treasury.".

(g) POWERS.—Section 171 of the Energy Security Act is amended—

(1) by amending subsection (a) to read as follows:

"(a) In carrying out the provisions of this part, the Secretary may lease, purchase, accept gifts or donations of, or otherwise acquire, and own, hold, improve, use, or otherwise deal in or with, and sell, convey, mortgage, pledge, lease, exchange, or otherwise dispose of, any property, real, personal, or mixed, or any interest therein."; and

(2) by striking out subsection (b).

(h) REPEALS.—Sections 113, 131(d), (j), (k)(2), (k)(3), and (u), 142, 151, 152, 153, 155, 172, 173(e) and (g), 174, 175, 177, 179, 180, and subtitles G, I, J, and K of part B of title I of the Energy Security Act are repealed.

(i) MISCELLANEOUS TERMINOLOGY CHANGES.—Part B of title I of the Energy Security Act is amended—

(1) in the title of such part by striking out "Corporation" and inserting in lieu thereof "Assistance Program";

(2) by striking out "Board of Directors" and inserting in lieu thereof "Secretary" each place it appears in sections 112(15), 131(a), (b)(2), (b)(4), (o), (p), and (r),

132(a)(2)(B) and (d), 133(a)(1), (a)(4), and (b), 134, 136(b), (c), and (f)(1), 137(b)(1) and (5), 141(d), and 173(a) and (b)(2), and in the last sentence of section 171(c);

(3) by striking out "127" and inserting in lieu thereof "129" each place it appears in sections 131 and 141(c);

(4) by striking out "Corporation" and inserting in lieu thereof "Secretary" each place it appears in sections 131(a), (b)(3), (c), (f), (g), (h), (i), (o), (p), (q), (s), and (t), 132(a) and (b), 133(a), 134, 135(a), (b), (d), and (e), 136(a), 141(b)(4), and 173(b); the first two places it appears in section 131(b)(1) and (r); the first place it appears in sections 131(l) and (n), 136(f)(1), 141(e), and 173(c), (d), and (f)(1); the second place it appears in sections 143(a), 144, and 173(a); the first and third places it appears in section 132(d); the fourth, fifth, and sixth places it appears in section 133(b); the second and third places it appears in section 137(c); the first, second, and fifth places it appears in section 140; the second and fourth places it appears in section 141(a); the third and fourth places it appears in section 141(d); the first, third, and fourth places it appears in section 145; the second and sixth places it appears in section 171(c); and each place it appears in the section headings for sections 132, 133, 134, 135, and 136;

(5) by striking out "Corporation" and inserting in lieu thereof "United States" each place it appears in sections 131(b)(2) and (k)(1), 133(b)(1) and (2), 135(c), 136(c), (d)(2), and (f)(2), 137(a), and 173(f)(1)(B) and (C); the second place it appears in sections 131(b)(1)(C), (l), and (n), and 136(f)(1); the third place it appears in section 131(r); the second and fourth places it appears in section 132(d); the first place it appears in sections 133(b)(3), 137(c), 141(a) and (b), and 173(a); all but the last two places it appears in section 137(b); the third and sixth places it appears in section 140; and the second, third, fourth, and fifth places it appears in section 173(d);

(6) by striking out ", upon such terms and conditions as the Board of Directors shall determine" in section 131(b)(1);

(7) by striking out "national synthetic fuel production goal established under section 125" and inserting in lieu thereof "objectives set forth in the assistance plan developed under section 127" in sections 131(b)(2) and (4) and 132(b);

(8) by striking out "national synthetic fuel production goal set forth in section 125" and inserting in lieu thereof "objectives set forth in the assistance plan developed under section 127" in section 136(b)(1);

(9) by striking out "126" and inserting in lieu thereof "128" in section 131(b)(4);

(10) by striking out ", except as provided in section 151" in section 131(f);

(11) by striking out "or its designee" each place it appears in sections 131(i) and 173(d);

(12) by striking out "as it deems" and inserting in lieu thereof "as the Secretary deems" in section 131(i);

(13) by striking out ", as computed in accordance with section 152" in section 131(k)(1);

(14) by striking out ", in its judgment," in section 131(r);

(15) by striking out "its determination of" and inserting in lieu thereof "determining" in section 131(t);

(16) by striking out ", on such terms and conditions as the Board of Directors may prescribe," in sections 132(a)(1), 134, 135(a), 136(a), and 137(c);

(17) by striking out "Corporation" the last two places it appears in section 137(b), the last two places it appears in section 137(c), and the fifth and sixth places it appears in section 141(d);

(18) by striking out "128" and inserting in lieu thereof "138" in sections 137(b) and (c) and 141(d);

(19) by striking out "not been disapproved" and inserting in lieu thereof "been approved" in sections 137(b) and (c) and 141(d);

(20) by striking out "in its sole discretion" in section 134;

(21) by striking out "of Energy" in sections 135(a) and (d) and 143(b);

(22) by striking out ", subject to section 172(d)," in section 135(d);

(23) by striking out "Prior to the approval of a comprehensive strategy pursuant to section 126(c), the" and inserting in lieu thereof "The" in section 136(a);

(24) by striking out "pursuant to section 181" in section 136(c);

(25) by striking out "Corporation" and inserting in lieu thereof "United States'" in section 136(e);

(26) by striking out "Corporation's" and inserting in lieu thereof "United States'" in section 136(e) and (f)(1);

(27) by striking out ", prior to the approval of the comprehensive strategy pursuant to section 126(c)," in section 137(b);

(28) by striking out "until it has submitted" and inserting in lieu thereof "until the Secretary has submitted" in section 137(b) and (c);

(29) by striking out "Corporation" and inserting in lieu thereof "Department" each place it appears in sections 112(5), 141(c), and 143(b); the fourth place it appears in section 140; the third and fifth places it appears in section 141(a); the second place it appears in sections 141(b) and (e) and 145; the first and second places it appears in section 141(d); the first place it appears in sections 143(a) and 144; the first, third, fourth, fifth, and seventh places it appears in section 171(c); and each place it appears in the headings for subtitle E and section 141;

(30) by striking out "126(a)(1)(D), section 126(a)(3), and section 142" and inserting in lieu thereof "128(a)(4) and (c)" in section 141(a);

(31) by striking out ", prior to the approval of a comprehensive strategy pursuant to section 126(c)," in section 141(a);

(32) by striking out ", in the judgment of the Board of Directors," in section 141(a);

(33) by striking out "126(a)(2)" and inserting in lieu thereof "128(b)" in section 141(a);

(34) by striking out "subject to section 172(d)," in section 141(b);

(35) by striking out ", in its sole discretion," in section 141(d);

(36) by striking out "addition to the powers granted under subsections (a) and (b), and only in" in section 171(c);

(37) by striking out "by its Board of Directors" in section 171(c);

(38) by striking out "it holds the patent but it" and inserting in lieu thereof "the United States holds the patent but the Secretary" in section 173(b)(1);

(39) by striking out "it holds the patent" and inserting in lieu thereof "the United States holds the patent" in section 173(b)(2);

(40) by striking out "including provision for the Corporation," in section 173(c);

(41) by striking out "and its designees" in section 173(d); and

(42) by striking out "Chairman of the Board of Directors" and inserting in lieu thereof "Secretary" in section 173(f)(1)(A).

(j) TABLE OF CONTENTS.—The table of contents for part B of title I of the Energy Security Act is amended to read as follows:

"Part B—United States Synthetic Fuels Assistance Program

"SUBTITLE A—GENERAL PROVISIONS

"Sec. 111. Short title.
"Sec. 112. General definitions.

"SUBTITLE B—ABOLITION OF CORPORATION

"Sec. 115. Cessation of commitments.
"Sec. 116. Temporary operations.
"Sec. 117. Abolition.

"SUBTITLE C—SYNTHETIC FUELS ASSISTANCE PROGRAM

"Sec. 125. Secretary's responsibilities.
"Sec. 126. Modified assistance program.
"Sec. 127. Assistance plan.
"Sec. 128. Assistance strategy.
"Sec. 129. Solicitation of proposals.
"Sec. 130. Employees.

"SUBTITLE D—FINANCIAL ASSISTANCE

"Sec. 131. Authorization of financial assistance.
"Sec. 132. Loans made by the Secretary.
"Sec. 133. Loan guarantees made by the Secretary.
"Sec. 134. Price guarantees made by the Secretary.
"Sec. 135. Purchase agreements made by the Secretary.
"Sec. 136. Joint ventures by the Secretary.
"Sec. 137. Control of assets.
"Sec. 138. Congressional review procedure.
"Sec. 139. User fees.
"Sec. 140. Disposition of securities.

"SUBTITLE E—DEPARTMENT CONSTRUCTION PROJECTS

"Sec. 141. Department construction and contractor operation.
"Sec. 143. Environmental, land use, and siting matters.
"Sec. 144. Project reports.
"Sec. 145. Financial records.

"SUBTITLE F—CAPITALIZATION AND FINANCE

"Sec. 154. Receipts.

"SUBTITLE H—GENERAL PROVISIONS

"Sec. 171. General powers.
"Sec. 173. Patents.
"Sec. 176. Severability.
"Sec. 178. Water rights.".

Subtitle B—Strategic Petroleum Reserve

SEC. 4201. STRATEGIC PETROLEUM RESERVE.

(a) STRATEGIC PETROLEUM RESERVE FILL RATE.—Notwithstanding any other provision of law, the Strategic Petroleum Reserve shall be filled at an annual average rate of 35,000 barrels per day for each of the fiscal years 1986, 1987, and 1988. Authorizations under subsection (b) are made for this purpose.

(b) AUTHORIZATIONS OF APPROPRIATIONS.—(1) There are authorized to be appropriated the following amounts for the acquisition, transportation, and injection of petroleum products into the Strategic Petroleum Reserve:

(A) For fiscal year 1986, $358,000,000.
(B) For fiscal year 1987, $334,000,000.
(C) For fiscal year 1988, $357,000,000.

(2) There are authorized to be appropriated the following amounts for the implementation of the Strategic Petroleum Reserve Plan, including planning, administration, and acquisition and construction of storage and related facilities but excluding

the acquisition of petroleum products for such Reserve:

(A) For fiscal year 1986, $136,000,000.

(B) For fiscal year 1987, $359,000,000.

(C) For fiscal year 1988, $157,000,000.

(3) Amounts authorized by this subsection are in lieu of any other amount authorized to be appropriated for the purposes and fiscal years referred to in paragraphs (1) and (2).

(c) LIMITATION ON UNITED STATES' SHARE OF NAVAL PETROLEUM RESERVE.—(1) Section 160(d)(1) of the Energy Policy and Conservation Act (42 U.S.C. 6240(d)(1)) is amended—

(A) by striking out "500,000,000 barrels" each place it appears in subparagraphs (A) and (C) and inserting in lieu thereof "527,000,000 barrels"; and

(B) by striking out "100,000 barrels" in subparagraph (B) and inserting in lieu thereof "35,000 barrels".

(2) The amendment made by this subsection shall take effect on October 1, 1985.

Subtitle C—Uranium Enrichment and Power Sales

SEC. 4301. AUTHORIZATION OF APPROPRIATIONS.

(a) IN GENERAL.—In accordance with section 660 of the Department of Energy Organization Act (42 U.S.C. 7270), there is authorized to be appropriated to the Department of Energy for each of the fiscal years 1986, 1987, and 1988 to carry out uranium enrichment service activities an amount equal to the difference between—

(1) the revenues to be received during such fiscal year by the Department of Energy in providing uranium enrichment service activities, as estimated in the budget submitted by the President to the Congress for such fiscal year; and

(2) the amount specified in section 4302(a) for such fiscal year.

(b) ADJUSTMENTS.—If the estimate referred to in subsection (a)(1) for any fiscal year is increased or decreased in the budget submitted by the President to the Congress for the subsequent fiscal year, the authorization of appropriations in subsection (a) for such subsequent fiscal year shall be increased or decreased by an equal amount, as the case may be.

SEC. 4302. REPAYMENTS TO UNITED STATES TREASURY.

(a) PARTIAL REPAYMENT OF APPROPRIATED AMOUNTS.—In partial repayment of amounts appropriated from the general fund of the Treasury of the United States for uranium enrichment service activities, the Secretary of Energy shall deposit in the general fund not less than the following amount of the revenues received by the Department of Energy in providing uranium enrichment service activities:

(1) $110,000,000 for fiscal year 1986;

(2) $150,000,000 for fiscal year 1987; and

(3) $150,000,000 for fiscal year 1988.

(b) REPAYMENT SCHEDULE.—The Secretary of Energy may make the repayments required in subsection (a) for any fiscal year on a quarterly basis.

SEC. 4303. SALE OF UNNECESSARY ELECTRIC ENERGY.

(a) IN GENERAL.—The Secretary of Energy shall attempt to sell to electric utilities any electric energy that the Secretary has the right to buy under any Federal law or contract in effect on the date of the enactment of this Act for use in the provision of uranium enrichment service activities under section 161 v. of the Atomic Energy Act of 1954 (42 U.S.C. 2201(v)) that the Secretary determines to be unnecessary to the conduct of such activities.

(b) CONSENT TO SALE.—Notwithstanding any other Federal law or contract in effect on the date of the enactment of this Act, no Executive agency may withhold its consent to the sale of electric energy under subsection (a).

(c) TRANSMISSION.—Notwithstanding any other Federal law or contract in effect on the date of the enactment of this Act—

(1) any Executive agency selling electric energy to the Department of Energy shall make such electric energy available to the location requested by the Secretary of Energy; and

(2) the Secretary of Energy, acting through the organizational entities described in subparagraphs (A) and (B) of section 302(a)(1) of the Department of Energy Organization Act (42 U.S.C. 7152(a)(1)) shall assist in the transmission of any electric energy sold under subsection (a).

(d) REVENUES FROM SALE.—In partial repayment of amounts appropriated from the general fund of the Treasury of the United States for uranium enrichment service activities, the Secretary of Energy shall deposit in the general fund any revenues derived from the sale of electric energy under subsection (a) that are in excess of the energy charge incurred by the Secretary. Any amount required to be repaid under this subsection shall be in addition to any amount required to be repaid in section 4302(a).

(e) DEFINITIONS.—For purposes of this section:

(1) The term "electric utility" has the meaning given such term in section 3(4) of the Public Utility Regulatory Policies Act of 1978 (16 U.S.C. 2602(4)). Such term does not include any person or entity that sells electric energy solely from cogeneration facilities or small power production facilities, as such terms are defined in paragraphs 17(A) and 18(A) of section 3 of the Federal Power Act (16 U.S.C. 796).

(2) The term "energy charge" means any fee or payment associated with the purchase of electric energy that is supplied by an electric energy seller to an electric energy purchaser and does not include any fee or payment made exclusively for the availability of electric energy or the right to purchase specified amounts of electric energy.

(3) The term "Executive agency" has the meaning given such term in section 105 of title 5, United States Code.

(f) EXPIRATION.—This section shall cease to be effective on December 31, 1992.

Subtitle D—Energy-Related User Fees

SEC. 4401. PIPELINE SAFETY USER FEES.

(a) ESTABLISHMENT.—

(1) SCHEDULE.—The Secretary of Transportation (hereafter in this section referred to as the "Secretary") shall establish a schedule of fees based on the usage, in reasonable relationship to volume-miles, miles, or an appropriate combination thereof, of natural gas and hazardous liquid pipelines.

(2) COLLECTION.—The Secretary shall establish procedures for the collection of such fees and shall collect such fees.

(3) LIABILITY.—Fees established under this section shall be assessed to the persons operating the pertinent pipeline facilities.

(b) TIME OF ASSESSMENT.—The Secretary shall assess and collect fees described in subsection (a) with respect to each fiscal year before the end of such fiscal year.

(c) USE OF FUNDS.—Funds received under subsection (a) shall be used, to the extent provided for in advance in appropriation Acts, only—

(1) in the case of natural gas pipeline safety fees, for activities authorized under the Natural Gas Pipeline Safety Act of 1968 (49 U.S.C. App. 1671 et seq.); and

(2) in the case of hazardous liquid pipeline safety fees, for activities authorized under the Hazardous Liquid Pipeline Safety Act of 1979 (49 U.S.C. App. 2001 et seq.).

(d) FEE SCHEDULE.—

(1) SUFFICIENT TO MEET COSTS.—Fees established by the Secretary under subsection (a) shall be assessed against all natural gas and hazardous liquids transported by pipelines subject to the Natural Gas Pipeline Safety Act of 1968 and the Hazardous Liquid Pipeline Safety Act of 1979 after September 30, 1985, and shall be sufficient to meet the ongoing costs, beginning on October 1, 1985, described in subsection (c).

(2) NON-HYDROCARBON RATES.—Fees established for the transportation through pipelines of substances other than hydrocarbons may be set at a rate higher than those for the transportation of hydrocarbons.

(3) UNUSUAL DRAIN ON SAFETY RESOURCES.—The Secretary may charge additional fees to any user of pipelines if the use results in an unusual drain on the pipeline safety resources of the United States.

(e) STATE FEES.—If a State establishes a pipeline safety fee mechanism compatible with the mechanism established by the Secretary under this section, the Secretary may by agreement with such State administer the collection of such State fees.

SEC. 4402. NUCLEAR REGULATORY COMMISSION ANNUAL CHARGES.

(a) IN GENERAL.—

(1) The Nuclear Regulatory Commission (hereafter in this section referred to as the "Commission") shall assess and collect annual charges from its licensees on a fiscal year basis, beginning with fiscal year 1986.

(2) The amount of such charges shall be established by rule.

(b) MATTERS TO CONSIDER IN ESTABLISHING ASSESSMENTS.—

(1) In establishing the amounts of such assessments, the Commission shall take into consideration the relative cost of regulating different categories of its licensees and other factors determined to be appropriate by the Commission, including the impact of such assessments on research and medical treatment.

(2) In establishing the amounts of such assessments with respect to any utilization or production facility for industrial or commercial purposes issued a license under section 103 or 104 b. of the Atomic Energy Act of 1954 (42 U.S.C. 2133 or 2134(b)), the Commission shall also take into consideration the rated capacity of such facility.

(c) LIMITATION.—The maximum amount of assessments made under this section with respect to any fiscal year may not exceed an amount that, when added to other amounts collected by the Commission for such fiscal year under other provisions of law, is estimated to be equal to 50 percent of the costs incurred by the Commission with respect to such fiscal year.

(d) TIME OF PAYMENT.—The Commission may make estimates in assessing charges under this section and shall provide that the charges assessed under this section shall be paid by the end of the fiscal year for which they are assessed.

(e) USE OF FUNDS.—To the extent approved in appropriation Acts, amounts collected under this section may be retained and used for costs incurred by the Commis-

sion and shall remain available for such purpose until expended.

SEC. 4403. FEDERAL ENERGY REGULATORY COMMISSION ANNUAL CHARGES.

(a) IN GENERAL.—The Federal Energy Regulatory Commission shall assess and collect annual charges on a fiscal year basis, beginning with fiscal year 1986, from interstate natural gas pipelines, interstate oil pipeline carriers, and public utilities in amounts determined under subsection (b).

(b) AMOUNT OF ASSESSMENTS.—The Commission shall assess and collect charges under this section—

(1) in the case of an interstate natural gas pipeline, in an amount that bears the same relationship to the adjusted costs of the Commission for the fiscal year as the volume of natural gas sold or transported by the pipeline during such year bears to the total volume of natural gas sold or transported by all interstate natural gas pipelines during such year;

(2) in the case of an interstate oil pipeline carrier, in an amount that bears the same relationship to the adjusted costs of the Commission for the fiscal year as the total barrels delivered (subject to the jurisdiction of the Commission) by the pipeline carrier during such year bears to the total barrels delivered (subject to such jurisdiction) by all interstate oil pipeline carriers during such year; and

(3) in the case of a public utility, in an amount that represents the public utility's proportional share of the adjusted costs of the Commission for the fiscal year, taking into consideration the public utility's proportional share of the total of the kilowatt hours transmitted under interchange hour agreements and the total jurisdictional kilowatt hours sold by all public utilities during such fiscal year.

(c) TIME OF ASSESSMENT.—The Commission shall assess charges under this section during the fourth quarter of the fiscal year for which the charge is being determined by making estimates based on data available to the Commission at the time of assessment.

(d) TIME OF PAYMENT.—The Commission shall provide that the charges assessed under this section shall be paid by the end of the fiscal year for which they were assessed.

(e) ADJUSTMENTS.—The Commission shall, after the completion of a fiscal year, make adjustments in the assessments for such fiscal year. Such adjustments shall be made on the basis of the complete data applicable to the fiscal year concerned, as determined by the Commission, and shall be used for making adjustments in assessments made under subsection (b) for the following fiscal year.

(f) USE OF FUNDS.—To the extent approved in appropriation Acts, amounts collected under this section may be retained and used for costs incurred by the Commission in administering its jurisdictional statutes and shall remain available for such purpose until expended.

(g) NATURAL GAS CHARGES IN RATES.—The Commission shall provide that charges assessed under this section shall be included in the rates of an interstate natural gas pipeline as a uniform charge on each thousand cubic feet (Mcf) or million Btu (MmBtu), as determined appropriate by the Commission, of natural gas sold or transported by the pipeline.

(h) DEFINITIONS.—For purposes of this section—

(1) the term "adjusted costs of the Commission" means—

(A) in the case of the assessment of charges on interstate natural gas pipelines, costs incurred by the Commission (but not to exceed the amount authorized by law for such costs) in administering the Natural Gas Act and the Natural Gas Policy Act of 1978 for a fiscal year, reduced by the amount of fees collected by the Commission during such fiscal year under section 9701 of title 31, United States Code, with respect to the regulation of the sale or transportation of natural gas,

(B) in the case of the assessment of charges on interstate oil pipeline carriers, costs incurred by the Commission (but not to exceed the amount authorized by law for such costs) as a result of regulating the transportation of oil under title 49, United States Code, reduced by the amount of fees collected by the Commission during such fiscal year under such section 9701 with respect to the regulation of the transportation of oil, and

(C) in the case of the assessment of charges on public utilities, costs incurred by the Commission (but not to exceed the amount authorized by law for such costs) in administering titles II and III of the Federal Power Act (other than for the regulation of cogeneration and small power production under sections 201 and 210 of such Act) for a fiscal year, reduced by the amount of fees collected under such section 9701 for services or benefits rendered under such titles during such fiscal year;

(2) the term "Commission" means the Federal Energy Regulatory Commission;

(3) the term "interstate natural gas pipeline" means any person engaged in the transportation or sale of natural gas subject to the jurisdiction of the Commission under the Natural Gas Act;

(4) the term "pipeline carrier" has the meaning given such term in section 10102 of title 49, United States Code;

(5) the term "natural gas sold or transported" means—

(A) sales or deliveries of natural gas to distribution utilities for sales or use, and

(B) sales or deliveries of natural gas to consumers for ultimate use; and

(6) the term "public utility" has the same meaning given such term by section 201(e) of the Federal Power Act, except that such term does not include a qualifying small power producer or a qualifying cogenerator.

Subtitle E—Federal Energy Conservation Shared Savings

SEC. 4501. SHARED ENERGY SAVINGS.

(a) IN GENERAL.—The National Energy Conservation Policy Act (42 U.S.C. 8201 and following) is amended by adding at the end the following new title:

"TITLE VIII—SHARED ENERGY SAVINGS

"SEC. 801. AUTHORITY TO ENTER INTO CONTRACTS.

"The head of a Federal agency may, notwithstanding any other provision of law, enter into contracts under this title for the purpose of achieving energy savings. Each such contract may be for a period not to exceed 25 years and shall provide that the contractor shall incur the initial cost of implementing energy savings measures in exchange for a share of any savings resulting from such implementation.

"SEC. 802. PAYMENT OF COSTS.

"Any amount paid by a Federal agency pursuant to any contract entered into under this title, including any costs of terminating any such contract, may be paid only from funds appropriated, after the date of enactment of this title, for the payment of utility costs (and related operational and maintenance costs) of such agency.

"SEC. 803. REPORTS.

"Each Federal agency shall periodically furnish the Secretary of Energy with full and complete information on its activities under this title, and the Secretary shall include in the report submitted to Congress under section 550 a description of the progress made by each Federal agency in—

"(1) including the authority provided by this title in its contracting practices; and

"(2) achieving energy savings under contracts entered into under this title.

"SEC. 804. DEFINITIONS.

"For purposes of this title—

"(1) the term 'Federal agency' means an agency defined in section 551(1) of title 5, United States Code, and

"(2) the term 'energy savings' means a reduction in the energy consumption, or in the energy-related costs, of an existing building or buildings as a result of—

"(A) equipment, supplies, improvements, altered operation and maintenance, technical services, or other means; or

"(B) the increased efficient use of existing energy sources by cogeneration, heat recovery, or other means."

(b) TABLE OF CONTENTS.—The table of contents of such Act is amended by adding the following at the end:

"TITLE VIII—SHARED ENERGY SAVINGS

"Sec. 801. Authority to enter into contracts.

"Sec. 802. Payment of costs.

"Sec. 803. Reports.

"Sec. 804. Definitions."

Subtitle F—Charges to Cover the Cost of Federal Communications Commission

SEC. 4601. CHARGES TO COVER THE COST OF FEDERAL COMMUNICATIONS COMMISSION.

(a) SCHEDULE OF CHARGES.—(1) The Federal Communications Commission (hereafter in this section referred to as the "Commission") shall assess and collect charges listed in this subsection at the rates listed or at such modified rates as it shall establish pursuant to the provisions of subsection (b) of this section.

Schedule of Charges

	Service	Fee amount
	PRIVATE RADIO BUREAU	
1.	Marine Coast Stations (new, modifications, renewals).	$60
2.	Operational Fixed Microwave Stations (new, modifications, renewals).	135
3.	Aviation (ground stations) (new, modifications, renewals).	60
4.	Land, Mobile Radio Licenses (new, modifications, renewals).	30
	EQUIPMENT APPROVAL SERVICE	
1.	Certification	
	a. Receivers (except TV and FM receivers).	250
	b. All other devices	650
2.	Type Acceptance	
	a. Approval of subscription TV systems.	2,000
	b. All others	325
3.	Type Approval	
	a. Ship (radio telegraph) automatic alarm systems.	6,500
	b. Ship and lifeboat (radio telegraph) transmitters.	3,250
	c. All others (with testing)	1,300
	d. All others (without testing)	150
4.	Notifications	100

Schedule of Charges—Continued

Service	Fee amount
MASS MEDIA BUREAU	
1. Commercial TV Stations	
a. New and major change construction permits application fees.	2,250
b. Minor changes application fee.	500
c. Hearing charge	6,000
d. License fee	150
2. Commercial Radio Stations	
a. New and major change construction permits.	
(1) Application fee AM station.	2,000
(2) Application fee FM station.	1,800
b. Minor changes application fee—AM and FM.	500
c. Hearing charge	6,000
d. License fee	
(1) AM	325
(2) FM	100
e. Directional antenna license fee (AM only).	375
3. FM/TV Translators and LPTV Stations (new and major change construction permits)	
a. Application fee	375
b. License fee	75
4. Station Assignment and Transfer Fees	
a. AM, FM, and TV commercial stations.	
(1) Application fee (Forms 314/315).	500
(2) Application fee (Form 316).	70
b. FM/TV translators and LPTV stations.	75
5. Auxiliary Services Major Actions—Application Fee.	75
6. Renewals—All Services	30
7. Cable Television Service	
a. Cable television relay service—construction permits, assignments and transfers, renewals and modifications.	135
b. Cable special relief petitions—filing fee.	700
8. Direct Broadcast Satellite New and Major Change CP's	
a. Application for authorization to construct a direct broadcast satellite.	1,800
b. Issuance of CP and launch authority.	17,500
c. License to operate satellite	500
d. Hearing charge	6,000
COMMON CARRIER BUREAU	
1. Domestic Public Land Mobile Stations (Base, Dispatch, Control and Repeater Stations)	
a. New or additional facility authorizations, assignments and transfers (per transmitter/per station).	200
b. Renewals and minor modifications (per station).	20
c. Air-Ground individual license renewals and modifications.	20
2. Cellular Systems	
a. Initial construction permits and major modification applications (per cellular systems).	200
b. Assignments and transfers (per station).	200
c. Initial covering license (per cellular system).	
(1) Wireline carrier	525
(2) Nonwireline carrier	50
d. Renewals	20
e. Minor modifications and additional licenses.	50
3. Rural Radio (Central Office, Interoffice Relay Facilities)	
a. Initial construction permit, assignments and transfers (per transmitter).	90
b. Renewals and modifications (per station).	20
4. Offshore Radio Service	
a. Initial construction permits, assignments and transfers (per transmitter).	90
b. Renewals and modifications (per station).	20
5. Local television or point-to-point microwave radio service	
a. Construction permits, modifications of construction permits, and renewals of licenses.	135
b. Assignments and transfers of control (per station).	45
c. Initial license for new frequency.	135
6. International Fixed public radio (public and control stations)	
a. Initial construction permits, assignments and transfers.	450
b. Renewals and modifications	325
7. Satellite services	
a. Transmit Earth stations	
(1) Initial station authorizations.	1,350
(2) Assignments and transfers of station authorizations.	450
(3) All other applications	90
b. Small transmit/receive Earth stations (2 meters or less)	
(1) Lead authorization	3,000
(2) Routine authorization	30
(3) All other applications	90
c. Receive only Earth stations	
(1) Initial station authorization.	200
(2) All other applications	90
d. Applications for authority to construct a space station.	1,800
e. Applications for authority to launch and operate a space station.	18,000
f. Satellite system application	
(1) Initial station authorization.	5,000
(2) Assignments and transfers of systems.	1,333
(3) All other applications	90
8. Multipoint distribution service	
a. Construction permits, renewals and modifications of construction permits.	135
b. Assignments and transfers of control (per station).	45
c. Initial license (per channel)	400
9. Section 214 applications	
a. Applications for overseas cable construction.	8,100
b. Applications for domestic cable construction.	540
c. All other 214 applications	540
10. Tariff filings	
a. Filing fee	250
b. Special permission filings	200
11. Telephone equipment registration	135
12. Digital electronic message service	
a. Construction permits, renewals and modifications of construction permits.	135
b. Assignments and transfers of control (per station).	45
c. Initial license (first license or license adding a new frequency).	135

(2) The schedule of charges established by this subsection shall be implemented not later than 360 days after the date of enactment of this subsection.

(b) SUBSEQUENT INCREASES OR DECREASES IN CHARGES.—(1) The schedule of charges established by this section shall be reviewed by the Commission every 2 years after the date of enactment of this section and adjusted by the Commission to reflect changes in the Consumer Price Index. Increases or decreases in charges shall apply to all categories of charges, except that individual fees shall not be adjusted until the increase or decrease, as determined by the net change in the Consumer Price Index since the date of enactment of this section, amounts to at least $5 in the case of fees under $100, or 5 percent in the case of fees of $100 or more. All fees which require adjustment will be rounded upward to the next $5 increment. The Commission shall transmit to the Congress notification of any such adjustment not later than 90 days before the effective date of such adjustment.

(2) Increases or decreases in charges made pursuant to this subsection shall not be subject to judicial review.

(c) PENALTIES FOR LATE PAYMENTS.—(1) The Commission shall prescribe by regulation an additional charge which shall be assessed as a penalty for late payment of charges required by subsection (a) of this section. Such penalty shall be 25 percent of the amount of the charge which was not paid in a timely manner.

(2) The Commission may dismiss any application or other filing for failure to pay in a timely manner any charge or penalty under this section.

(d) EXEMPTIONS AND WAIVERS.—(1) The charges established in this section shall not be applicable—

(A) to the following radio services: Local Government, Police, Fire, Highway Maintenance, Forestry-Conservation, Public Safety, and Special Emergency Radio; or

(B) to governmental entities licensed in other services.

(2) The Commission may waive or defer payment of a charge in any specific instance for good cause shown, where such action would promote the public interest.

(e) DEPOSIT OF MONEYS RECEIVED.—Moneys received from charges established in or prescribed pursuant to this section shall be deposited in the general fund of the Treasury to reimburse the United States for amounts appropriated for use by the Commission in carrying out its functions.

(f) RULES AND REGULATIONS.—The Commission shall prescribe appropriate rules and regulations to carry out the provisions of this section.

Subtitle G—Local Rail Service Assistance

SEC. 4701. LOCAL RAIL SERVICE ASSISTANCE.

Section 5(q) of the Department of Transportation Act (49 U.S.C. App. 1654(q)) is amended by adding at the end the following new sentence: "No funds are authorized to be appropriated under this section after September 1, 1985.".

TITLE V—COMMITTEE ON INTERIOR AND INSULAR AFFAIRS

SEC. 5101. REVISION OF SECTION 8(g).

Section 8(g) of the Outer Continental Shelf Lands Act (43 U.S.C. 1337(g)) is amended to read as follows:

"(g)(1) At the time of soliciting nominations for the leasing of lands containing tracts wholly or partially within three nautical miles of the seaward boundary of any coastal State, and subsequently as new information is obtained or developed, the Secretary shall, in addition to the information required by section 26 of this Act, provide the Governor of such State—

"(A) an identification and schedule of the areas and regions proposed to be offered for leasing;

"(B) all information from all sources concerning the geographical, geological, and ecological characteristics of such region;

"(C) an estimate of the oil and gas reserves in the areas proposed for leasing; and

"(D) an identification of any potentially hydrocarbon-bearing area or areas located wholly or partially within three nautical miles of the seaward boundary of such coastal State, including all information relating to the entire potentially hydrocarbon-bearing area.

The confidentiality provisions of section 26 of this Act shall apply to all information provided under this paragraph.

"(2) Notwithstanding any other provision of this Act, the Secretary shall deposit into a separate account in the Treasury of the United States all bonuses, rents, royalties, and other revenues, excluding Federal income and windfall profits taxes, derived from any lease of any Federal tract which lies wholly or partially within three nautical

miles of the seaward boundary of any coastal State. Except as provided in paragraph (5), not later than the last business day of the month following the month in which those revenues are deposited in the Treasury, the Secretary shall transmit to such coastal State 27 percent of those revenues, together with all accrued interest. The remaining balance of such revenues shall be transmitted simultaneously to the miscellaneous receipts account of the United States Treasury.

"(3) Whenever the Secretary or the Governor of a coastal State determines that a common potentially hydrocarbon-bearing area may underlie the Federal and State boundary, the Secretary or the Governor shall notify the other party in writing of his determination and the Secretary shall provide to the Governor notice of the current and projected status of the tract or tracts containing the potentially common hydrocarbon-bearing area. If the Secretary has leased or intends to lease such tract or tracts, the Secretary and the Governor of the coastal State may enter into an agreement to divide the revenues from production of any potentially common hydrocarbon-bearing area, by unitization or other royalty sharing agreement, pursuant to existing law. Any revenues received by the United States under such an agreement shall be subject to the requirements of paragraph (2).

"(4) The deposits in the Treasury account described in this section shall be invested by the Secretary of the Treasury in securities backed by the full faith and credit of the United States having maturities suitable to the needs of the account and yielding the highest available interest rates.

"(5)(A) For all existing and future disputes, including *United States* v. *Alaska*, Supreme Court No. 84, Original, between the United States and any State regarding the location of that State's seaward boundary, the Secretary shall deposit in the separate Treasury account described in paragraph (2) all revenues not put into a separate escrow account of the Treasury escrowed pursuant to section 7 of the Outer Continental Shelf Lands Act (43 U.S.C. 1336) which are attributable to tracts which are wholly or partially within three nautical miles of the seaward boundary claimed by the coastal State in that dispute. Upon final agreement of the parties or upon a final determination by a court of competent jurisdiction resolving such dispute, the Secretary shall distribute such revenues pursuant to paragraph (2) based upon the results of the boundary dispute.

"(B) After distribution to any State of its direct entitlement under any final agreement by the parties or any final determination by a court of competent jurisdiction concerning any controversy arising under section 7 of the Outer Continental Shelf Lands Act (43 U.S.C. 1336) that portion of any remaining revenues which is attributable to lease tracts which are wholly or partially within three nautical miles of such State's seaward boundary as established by such agreement or court decree shall be deposited and then distributed in accordance with the process established under paragraph (2). This paragraph applies to all existing accounts for revenues attributable to leased tracts sold in the Federal/State Joint Beaufort Sea Oil and Gas Lease Sale BF, Sale 71 and Sale 87, all of which involve tracts related to the dispute under section 7 of the Outer Continental Shelf Lands Act in *United States* v. *Alaska*, Supreme Court No. 84, Original, as well as to all future Outer Continental Shelf oil and gas lease sales which may involve tracts subject to an ownership dispute.

"(6) This section shall be deemed to take effect on October 1, 1985, for purposes of determining the amounts to be deposited in the separate account and the States' shares described in paragraph (2).

"(7) When the Secretary leases any tract which lies wholly or partially within three miles of the seaward boundary of two or more States, the revenues from such tract shall be distributed as otherwise provided by this section, except that the State's share of such revenues that would otherwise result under this section shall be divided equally among such States.".

SEC. 5102. DISTRIBUTION OF 8(g) ACCOUNT.

(a) Prior to January 1, 1986, the Secretary shall distribute to the designated coastal States the sum of—

(1) the amounts due and payable to each such State under paragraph (2) of section 8(g) of the Outer Continental Shelf Lands Act, as amended by this title, for the period between October 1, 1985, and the date of such distribution, and

(2) the amounts due each such State under subsection (b) for the period prior to October 1, 1985.

(b)(1) The funds which were deposited in the separate account in the Treasury of the United States under section 8(g)(4) of the Outer Continental Shelf Lands Act (43 U.S.C. 1337(g)(4)) which was in effect prior to the date of enactment of this Act shall be distributed in the following manner as a fair and equitable disposition of such funds derived from bonuses and rents and accrued interest thereon through September 30, 1985:

Louisiana	$635,000,000
Texas	$424,000,000
California	$375,000,000
Alabama	$73,000,000
Alaska	$56,000,000
Mississippi	$15,000,000
Florida	$30,000

(2) The Secretary shall distribute to each coastal State 27 percent of the royalties derived from any lease of Federal lands within three miles of the seaward boundary of such coastal State and accrued interest thereon which have been deposited through September 30, 1985, in the separate account described in paragraph (1), as a fair and equitable disposition of such royalties.

(3) Of the funds attributable to bonuses, rents, royalties, and accrued interest remaining in the separate account after payment is made to the States in accordance with paragraphs (1) and (2) of this subsection, $4,300,000,000 shall be credited to the miscellaneous receipts of the Treasury. The remainder of the money shall be paid to the affected coastal States. Each State shall receive an amount equal to its proportional share of the total additional amount that would have been due to the States if all revenues derived from any lease of any Federal tract which lies wholly or partially within three miles of a State's seaward boundary had been deposited in the separate account in the Treasury of the United States in accordance with section 8(g)(4) of the Outer Continental Shelf Lands Act (43 U.S.C. 1337(g)(4)), as in effect prior to the date of enactment of this Act. A State's proportional share of the total additional amount due is based on an amount equal to—

(A) 27 percent of all bonuses, rents, and royalties, plus accrued interest derived through September 30, 1985, from any lease of any Federal tract which lies wholly or partially within three miles of the seaward boundary of such coastal State, less

(B) the amounts paid to such coastal State under paragraphs (1) and (2) of this subsection.

SEC. 5103. IMMOBILIZATION OF BOUNDARIES.

Section 2(b) of the Submerged Lands Act (43 U.S.C. 1301(b)) is amended by inserting before the semicolon at the end of the subsection the following: ", except that any boundary between a State and the United States under this Act which has been or is hereafter fixed by coordinates under a final decree of the United States Supreme Court shall remain immobilized at the coordinates provided under such decree and shall not be ambulatory".

SEC. 5104. RECOUPMENT.

(a) As a fair and equitable disposition of revenues derived between September 18, 1978, and September 30, 1985, from all bonuses, royalties, other revenues, excluding Federal income and windfall profits taxes, and accrued interest through September 30, 1985, from any Federal leases within three miles of the seaward boundary of any coastal State, including all such revenues which should have been, but which were not, deposited in the separate account in the Treasury of the United States under section 8(g)(4) of the Outer Continental Shelf Lands Act (43 U.S.C. 1337(g)(4)) which was in effect prior to the date of enactment of this Act, such coastal State shall be entitled to an additional amount equal to—

(1) 27 percent of all bonuses, rents, royalties, other revenues, and accrued interest through September 30, 1985, derived from any lease of any Federal tract which lies wholly or partially within three nautical miles of the seaward boundary of such coastal State, less

(2) the amounts paid to such coastal State under section 5102(b) of this Act.

(b) The additional amount due each State under subsection (a) shall be paid from a separate Treasury account which is constituted as set forth in subsection (c). The total amount contained in such account on the last business day of each month shall be paid to each State in an amount proportional to that State's share of the total additional amounts due to all States under subsection (a).

(c) Beginning on October 1, 1986, the Secretary shall deposit into the account described in subsection (b) from the separate account described in section 8(g)(2) of the Outer Continental Shelf Lands Act, as amended by this title, 10 percent of all revenues deposited after October 1, 1986, into the account described in such section 8(g)(2) until such time as the amount due to all coastal States under subsection (a) has been paid.

SEC. 5105. REVISION OF SECTION 19(c).

(a) Section 19(c) of the Outer Continental Shelf Lands Act (43 U.S.C. 1345(c)) is amended to read as follows:

"(c) The Secretary shall accept recommendations of the Governor and may accept recommendations of the executive of any affected local government unless he determines, based on substantial evidence and after having provided the opportunity for consultation, that acceptance of such recommendations would significantly impair the national interest. For purposes of this subsection, a determination of the national interest shall be based on the desirability of obtaining oil and gas supplies in a balanced manner and on the findings, purposes, and

policies of this Act. The Secretary shall inform the Governor in writing of his decision to accept or reject a recommendation or to implement any alternative means to protect the national interest identified in consultation with the Governor, and the reasons for his decision. Should the Secretary reject a recommendation, he shall, no less than thirty days prior to proceeding with the proposed action, provide the Governor with the findings on which his decision is based.".

(b)(1) Section 19(d) of such Act is repealed.

(2) Subsection (e) of section 19 of such Act is redesignated as subsection (d).

TITLE VI—COMMITTEE ON MERCHANT MARINE AND FISHERIES

Subtitle A—Boating Safety Fund

SEC. 6101. BOATING SAFETY FUND.

An amount equal to one-third of the amount transferred for fiscal year 1985 to the Boat Safety Account under section 9503(c)(4) of the Internal Revenue Code of 1954 (26 U.S.C. 9503(c)(4)) shall be deposited in the general fund of the Treasury as proprietary receipts of the department in which the Coast Guard is operating and ascribed to Coast Guard activities. Section 13106(a) of title 46, United States Code, shall be applied with respect to fiscal year 1985 by substituting "one-third" for "two-thirds" in the first sentence.

Subtitle B—NOAA Charts

SEC. 6201. NOAA CHARTS.

(a) Section 1307 of title 44, United States Code (relating to the sale and distribution of charts and associated reference materials published by the National Oceanic and Atmospheric Administration) is amended to read as follows:

"§ 1307. National Oceanic and Atmospheric Administration: charts; sale and distribution

"(a) GENERAL RULE.—Each nautical or aeronautical product shall be sold at a price established by the Secretary of Commerce as follows:

"(1) The Secretary shall increase the price annually, from the price in effect immediately before the date of the enactment of this paragraph, so that by the end of the three-year period beginning on such date it is equal to the costs attributable to data base management, compilation, printing, and distribution which are allocable to the nautical or aeronautical product.

"(2) At all times after the end of such three-year period the price shall be equal to the costs attributable to data base management, compilation, printing, and distribution which are allocable to the nautical or aeronautical product unless the Secretary determines that a lower price is necessary for reasons of air and marine safety.

"(b) EXCEPTIONS AND LIMITATIONS.—

"(1) FOREIGN GOVERNMENTS AND INTERNATIONAL ORGANIZATIONS.—The Secretary of Commerce may distribute nautical and aeronautical products without charge to each foreign government or international organization with which the Secretary or a Federal department or agency has an agreement for exchange of these products without cost.

"(2) DEPARTMENTS AND AGENCIES OF THE UNITED STATES.—The Secretary of Commerce may distribute nautical and aeronautical products to officers and employees of the United States requiring them for official use at such prices as the Secretary may establish.

"(3) EXCHANGES FOR CONTRIBUTIONS OF INFORMATION.—The Secretary of Commerce may distribute nautical and aeronautical products without charge, or at a reduced charge, if the Secretary determines that it is a reasonable exchange for a voluntary contribution of information by the recipient to the National Oceanic and Atmospheric Administration.

"(4) LIMITATION ON COSTS OF ACQUIRING AND PROCESSING DATA.—Prices established under this section shall not include costs attributable to the acquisition or processing of nautical or aeronautical data.

"(c) ANNUAL PUBLICATION OF PRICES.—The Secretary of Commerce shall establish and publish annually the prices at which nautical and aeronautical products are sold to the public under this section.

"(d) DEPOSIT OF REVENUES IN TREASURY.—Revenues from the sale of nautical and aeronautical products shall be deposited in the general fund of the Treasury and credited to miscellaneous receipts.

"(e) REPORT.—Not later than the end of the three-year period beginning on the date of the enactment of this subsection, the Secretary of Commerce shall report to Congress on the effects of raising prices for nautical and aeronautical products under subsection (a), including the effect on air and marine safety.

"(f) DEFINITION OF NAUTICAL AND AERONAUTICAL PRODUCTS.—For purposes of this section, the term 'nautical and aeronautical products' includes all nautical and aeronautical charts, tide and tidal current tables, tidal current charts, coast pilots, water level products, and associated data bases which are created or published by the National Oceanic and Atmospheric Administration.

"(g) SAVINGS PROVISION.—The collection of fees under this section does not—

"(1) alter or expand any duty or liability of the United States under existing law for the performance of functions for which fees are collected; or

"(2) constitute an express or implied undertaking by the United States to perform any activity in a certain manner.".

(b) The table of sections for chapter 13 of title 44, United States Code, is amended by striking out the item relating to section 1307 and inserting in lieu thereof the following:

"1307. National Oceanic and Atmospheric Administration: charts; sale and distribution.".

Subtitle C—Amendments to Fishery Conservation and Management Act of 1976

SEC. 6301. AMENDMENTS TO FISHERY CONSERVATION AND MANAGEMENT ACT OF 1976.

Paragraph (10) of section 204(b) of the Magnuson Fishery Conservation and Management Act (16 U.S.C. 1824(b)) is amended—

(1) in the third sentence thereof by striking out "and the territorial waters of the United States"; and

(2) by striking out the last sentence of such paragraph and inserting in lieu thereof the following: "The Secretary shall transfer the amount collected during any fiscal year under this paragraph as follows:

"(A) The fisheries loan fund established under section 4 of the Fish and Wildlife Act of 1956 (16 U.S.C. 742c), for so long as such fund exists, shall be credited with an amount that bears to the total cost of carrying out the provisions of this Act (as described in the preceding sentence) during the fiscal year the same ratio as the aggregate quantity of fish harvested by foreign fishing vessels within the fishery conservation zone during the preceding year bears to the aggregate quantity of fish harvested by both foreign and domestic fishing vessels within such zone and the territorial waters of the United States during the preceding year. Such amount may be used for the purpose of making loans from the fund to the extent and in amounts provided for in advance in appropriation Acts.

"(B) The general fund of the United States Treasury shall be credited with any portion of the amount collected during the fiscal year that remains after the Secretary completes the transfer under subparagraph (A)."

SEC. 6302. EFFECTIVE DATE.

The amendments made by section 6301 shall apply to permits issued under section 204(b) of the Magnuson Fishery Conservation and Management Act (16 U.S.C. 1824(b)) on October 1, 1985.

Subtitle D—Amendments to the Outer Continental Shelf Lands Act

SEC. 6401. NATIONAL POLICY FOR THE OUTER CONTINENTAL SHELF.

The Outer Continental Shelf Lands Act (43 U.S.C. 1331 et seq.) is amended in subsection (4) of section 3 by deleting the word "and" at the end of paragraph (A); deleting the semicolon at the end of paragraph (B) and inserting in lieu thereof, a period; designating paragraph (B) as paragraph (C); and inserting the following new paragraph (B):

"(B) the distribution of a portion of the receipts from the leasing of mineral resources of the outer Continental Shelf adjacent to State lands, as provided under section 8(g), will provide affected coastal States and localities with funds which shall be used for the mitigation of adverse economic and environmental effects related to the development of such resources;".

SEC. 6402. REVISION OF SECTION 8(g).

Section 8(g) of the Outer Continental Shelf Lands Act (43 U.S.C. 1337(g)) is amended to read as follows:

"(g) Leasing of lands within three nautical miles of seaward boundaries of coastal States:

"(1) At the time of soliciting nominations for the leasing of lands containing tracts wholly or partially within three nautical miles of the seaward boundary of any coastal State, and subsequently as new information is obtained or developed by the Secretary, the Secretary shall, in addition to the information required by section 26 of this Act, provide the Governor of such State—

"(A) an identification and schedule of the areas and regions proposed to be offered for leasing;

"(B) at the request of the Governor of such State, all information from all sources concerning the geographical, geological, and ecological characteristics of such tracts;

"(C) an estimate of the oil and gas reserves in the areas proposed for leasing; and

"(D) at the request of the Governor of such State, an identification of any field, geological structure, or trap located wholly or partially within three nautical miles of the seaward boundary of such coastal State, including all information relating to the entire field, geological structure, or trap.

The provisions of the first sentence of subsection (c) and the provisions of subsections (e)-(h) of section 26 of this Act shall be applicable to the release by the Secretary of any information to any coastal State under this paragraph. In addition, the provisions or subsections (c) and (e)-(h) of this Act shall apply in their entirety to the release by the Secretary to any coastal State of any information relating to federal lands beyond

three nautical miles of the seaward boundary of such coastal State.

"(2) Notwithstanding any other provision of this Act, the Secretary shall deposit into a separate account in the Treasury of the United States all bonuses, rents, royalties and other revenues, excluding federal income and windfall profits taxes, derived from any lease of any federal tract which lies wholly or partially within three nautical miles of the seaward boundary of any coastal State. Except as provided in paragraph (5) of this subsection, not later than the last business day of the month following the month in which those revenues are deposited in the Treasury, the Secretary shall transmit to such coastal State 27 percent of those revenues, together with all accrued interest. The remaining balance of such revenues shall be transmitted simultaneously to the miscellaneous receipts account of the United States Treasury.

"(3) Whenever the Secretary or the Governor of a coastal State determines that a common potentially hydrocarbon-bearing area may underlie the federal and State boundary, the Secretary or the Governor shall notify the other party in writing of his determination and the Secretary shall provide to the Governor notice of the current and projected status of the tract or tracts containing the potentially common hydrocarbon-bearing area. If the Secretary has leased or intends to lease such tract or tracts, the Secretary and the Governor of the coastal State may enter into an agreement to divide the revenues from production of any potentially common hydrocarbon-bearing area, by unitization or other royalty sharing agreement, pursuant to existing law. Any revenues received by the United States under such an agreement shall be subject to the requirements of paragraph (2) of this subsection.

"(4) The deposits in the Treasury account described in this section shall be invested by the Secretary of the Treasury in securities backed by the full faith and credit of the United States having maturities suitable to the needs of the account and yielding the highest available interest rates.

"(5) (A) For all existing and future disputes, including United States v. Alaska, Supreme Court No. 84, Original, between the United States and any State regarding the location of that State's seaward boundary, the Secretary shall deposit in the separate Treasury account described in paragraph (2) of this subsection all revenues not put into a separate escrow account of the Treasury escrowed pursuant to section 7 of the Outer Continental Shelf Lands Act (43 U.S.C. 1336) which are attributable to tracts which are wholly or partially within three nautical miles of the seaward boundary claimed by the coastal State in that dispute. Upon final agreement of the parties or upon a final determination by a court of competent jurisdiction resolving such dispute, the Secretary shall distribute such revenues pursuant to paragraph (2) of this subsection based upon the results of the boundary dispute.

"(B) After distribution to any State of its direct entitlement under any final agreement by the parties or any final determination by a court of competent jurisdiction concerning any controversy arising under section 7 of the Outer Continental Shelf Lands Act (43 U.S.C. 1336) that portion of any remaining revenues which is attributable to lease tracts which are wholly or partially withing three nautical miles of such State's seaward boundary as established by such agreement or court decree shall be deposited and then distributed in accordance with the process established under paragraph (2) of this subsection. This paragraph applies to all existing accounts for revenues attributable to leased tracts sold in the Federal/State Joint Beaufort Sea Oil and Gas Lease Sale BF, Sale 71 and Sale 87, all of which involve tracts related to the dispute under section 7 of the Outer Continental Shelf Lands Act in United States v. Alaska, Supreme Court No. 84, Original, as well as to all future Outer Continental Shelf oil and gas lease sales which may involve tracts subject to an ownership dispute.

"(6) This section shall be deemed to take effect on October 1, 1985 for purposes of determining the amounts to be deposited in the separate account and the States' shares described in paragraph (2) of this subsection.

"(7) When the Secretary leases any tract which lies wholly or partially within three miles of the seaward boundary of two or more States, the revenues from such tract shall be distributed as otherwise provided by this section, except that the State's share of such revenues that would otherwise result under this section shall be divided equally among such States."

SEC. 6403. DISTRIBUTION OF 8(g) ACCOUNT.

(a) Prior to January 1, 1986, the Secretary shall distribute to the designated coastal States the sum of:

(1) The amounts due and payable to each such State under paragraph (2) of section 8(g) of the Outer Continental Shelf Lands Act, as amended by this title, for the period between October 1, 1985, and the date of such distribution, and

(2) The amounts due each such State under subsection (b) of this section for the period prior to October 1, 1985.

(b)(1) The funds which were deposited in the separate account in the Treasury of the United States under section 8(g)(4) of the Outer Continental Shelf Lands Act Amendments of 1978 (43 U.S.C. 1337(g)(4)) which was in effect prior to the date of enactment of section 6402 of this title shall be distributed in the following manner as a fair and equitable disposition of such funds derived from bonuses and rents and accrued interest thereon through September 30, 1985:

	($ million)
Louisiana	635
Texas	424
California	375
Alabama	73
Alaska	56
Mississippi	15
Florida	0.03

(2) The Secretary shall distribute to each coastal State 27 percent of the royalties derived from any lease of Federal lands within 3 miles of the seaward boundary of such coastal State and accrued interest thereon which have been deposited through September 30, 1985, in the separate account described in paragraph (1) of this subsection, as a fair and equitable disposition of such royalties.

(3) The amounts derived from bonuses, rents and royalties, and accrued interest thereon through September 30, 1985, remaining in the account after distribution to the States under this subsection shall be transmitted to the miscellaneous receipts account of the United States Treasury.

(4) The acceptance of payment under this section shall satisfy and release any and all claims against the United States arising under, or related to, former section 8(g) of the Outer Continental Shelf Lands Act, as amended.

SEC. 6404. IMMOBILIZATION OF BOUNDARIES.

Section 2(b) of the Submerged Lands Act (43 U.S.C. 1301(b)) is amended by inserting before the semicolon at the end of the subsection the following: ", except that any boundary between a State and the United States under this Act which has been or is hereafter fixed by coordinates under a final decree of the United States Supreme Court shall remain immobilized at the coordinates provided under such decree and shall not be ambulatory".

SEC. 6405. RECOUPMENT.

(a) As a fair and equitable disposition of revenues derived between September 18, 1978 and September 30, 1985 from all bonuses, royalties, other revenues, excluding Federal income and windfall profits taxes, and accrued interest through September 30, 1985, from any Federal leases within three miles of the seaward boundary of any coastal State, including all such revenues which should have been, but which were not, deposited in the separate account in the Treasury of the United States under section 8(g)(4) of the Outer Continental Shelf Lands Act Amendments of 1978 (43 U.S.C. 1337(g)(4)) which was in effect prior to the date of enactment of section 6402 of this title, such coastal State shall be entitled to an additional amount equal to:

(1) 27 percent of all bonuses, rents, royalties, other revenues and accrued interest through September 30, 1985, derived from any lease of any Federal tract which lies wholly or partially within three nautical miles of the seaward boundary of such coastal State, less

(2) the amounts paid to such coastal State under section 6403(b) of this title.

(b) The additional amount due each State under subsection (a) of this section shall be paid from a separate Treasury account which is constituted as set forth in subsection (c) of this section. The total amount contained in such account on the last business day of each month shall be paid to each State in an amount proportional to that State's share of the total additional amounts due to all States under subsection (a) of this section.

(c) Beginning on October 1, 1986, the Secretary shall deposit into the account described in subsection (b) of this section from the separate account described in section 8(g)(2) of the Outer Continental Shelf Lands Act, as amended by this title, 10 percent of all revenues deposited after October 1, 1986, into the account described in such section 8(g)(2) until such time as the amount due to all coastal States under subsection (a) of this section has been paid.

SEC. 6406. LOCAL PASSTHROUGH.

Unless otherwise prohibited by its constitution, or a constitutional amendment pending as of the date of enactment of this title, subsequently approved, each State receiving payment under sections 6402, 6403, and 6405 of this title, shall provide no less than 33 percent of the funds to local coastal governments for the mitigation of economic and environmental effects related to OCS mineral leasing, exploration, development, and production. In the case of the State of Alaska, the State shall be considered the local coastal community for the Unorganized Borough.

Subtitle E—Ocean and Coastal Resources Management and Development Block Grant Act

SEC. 6501. DEFINITIONS.

SEC. 6501. FOR PURPOSES OF THIS SUBTITLE—

(1) "block grant" means a National Ocean and Coastal Resources Management and Development Block Grant;

(2) "coastal population" means that term as defined in regulations issued on May 17, 1982, at 15 CFR Part 927;

(3) "coastal-related energy facilities" means any equipment or facility that (A) is or will be used primarily in the exploration for, or the development, production, conversion, storage, transfer, processing, or transportation of, any energy resource or for the manufacture, production, or assembly of equipment, machinery, products, or devices that are involved in any such energy-resource activity, and (B) is, or is likely to be, sited, constructed, expanded, or operated in, or in close proximity to, the coastal zone of any state because of technical requirements;

The term includes, (i) electric generating plants; (ii) facilities associated with the transportation, transfer, or storage of coal; (iii) petroleum refineries and associated facilities; (iv) gasification plants; (v) facilities associated with the transportation, conversion, treatment, transfer, or storage of liquefied natural gas; (vi) oil and gas facilities, including platforms, assembly plants, storage depots, tank farms, crew and supply bases, and refining complexes; (vii) facilities, including deepwater ports, for the transfer of petroleum; (viii) facilities used for alternative ocean energy activities, including those associated with ocean thermal energy conversion; and (ix) pipelines, transmission facilities, and terminals associated with any of the foregoing.

For the purposes of this subtitle, the siting, construction, expansion, or operation of any coastal-related energy facilities is "in close proximity to the coastal zone of any state" if such siting, construction, expansion, or operation has, or is likely to have, a significant effect on such coastal zone.

(4) "coastal state" means the Commonwealth of Puerto Rico and any state of the United States in, or bordering on, the Atlantic Ocean, the Pacific Ocean, the Arctic Ocean, the Gulf of Mexico, Long Island Sound, or one or more of the Great Lakes;

(5) "coastal territory" means the Virgin Islands, the Northern Mariana Islands, the Trust Territory of the Pacific Islands, American Samoa, or Guam;

(6) "Fund" means the Ocean and Coastal Resources Management and Development Fund;

(7) "local government" means that term as defined in section 304(11) of the Coastal Zone Management Act of 1972 (16 U.S.C. 1453(11)) and, with respect to the State of Alaska, the term includes unincorporated communities, including Alaska Native villages;

(8) "outer Continental Shelf planning area" means one of the geophysical regions of the outer Continental Shelf which is so designated in the Outer Continental Shelf Leasing Program (43 U.S.C. 1344), dated July 21, 1982, or as so designated in subsequent outer Continental Shelf leasing programs;

(9) "proportionately" means in the same ratio as a state's allocation;

(10) "Secretary" means the Secretary of Commerce;

(11) "shoreline mileage" means that term as defined in regulations issued on May 17, 1982, at 15 CFR Part 927; and

(12) "state" means any coastal state or coastal territory.

SEC. 6502. OCEAN AND COASTAL RESOURCES MANAGEMENT AND DEVELOPMENT FUND.

(a) There is established in the Treasury of the United States a fund to be known as the Ocean and Coastal Resources Management and Development Fund.

(b)(1) Beginning in fiscal year 1988 and in each fiscal year thereafter, the Secretary of the Treasury shall deposit into the Fund, not later than 60 days after the end of the previous fiscal year, an amount equal to 4 per centum of the average amount of all sums deposited in the Treasury of the United States pursuant to section 9 of the Outer Continental Shelf Lands Act (43 U.S.C. 1338) during the three previous fiscal years.

(2) The amount deposited in the Fund in fiscal year 1988 shall not exceed $150,000,000. The amount deposited in fiscal year 1989 shall not exceed $300,000,000. Beginning in fiscal year 1990, and in each fiscal year thereafter, the amount deposited in the Fund shall not exceed 105 per centum of the amount deposited in the Fund in the prior fiscal year.

(c) As provided in advance by appropriation Acts, the Secretary shall use the total amount of any amounts deposited in the Fund during each fiscal year to carry out the purposes of, and in accordance with, section 6503 of this title.

SEC. 6503. NATIONAL OCEAN AND COASTAL RESOURCES MANAGEMENT AND DEVELOPMENT BLOCK GRANTS.

(a) Subject to the provisions of section 6502(c) and this section, for fiscal year 1988 and for each subsequent fiscal year, the Secretary shall provide to each state a national ocean and coastal resources management and development block grant from amounts paid into the Fund during such fiscal year under section 6502(b).

(b)(1) No state may receive a block grant for a fiscal year unless such state has submitted to the Secretary a report for such fiscal year that—

(A) specifies the proposed allocation by such state of the block grant among coastal zone management activities, coastal energy impact activities, living marine resource activities, and natural resource preservation, enhancement and management activities under section 6504(a); and

(B) describes each proposed activity receiving funds provided by the block grant and the amounts proposed to be expended for each activity.

(2) In order to be eligible to receive a block grant pursuant to this subtitle and before submitting the report required under paragraph (1), each state shall provide opportunities for the public to review and comment on the report and shall hold at least one public hearing on such report at a site in the state convenient for encouraging maximum public participation.

(c) A block grant shall not be paid from the Fund to a state until the state has established a trust fund for the receipt of such grant.

(d) The amount of each block grant provided under subsection (a) shall be determined by the Secretary under a formula established by the Secretary which gives equal consideration to each of the following criteria:

(1) For each state, the equal combination of—

(A) the amount of actual leasing with respect to oil and gas which is carried out under the Outer Continental Shelf Lands Act (43 U.S.C. 1331 et seq.) during the previous fiscal year which occurs within the Outer Continental Shelf planning area to which such state is adjacent; and

(B) the volume of oil and gas produced from Outer Continental Shelf acreage leased by the Federal Government which is first landed in such state during the previous fiscal year.

(2) For each state, any proposed oil and gas lease sales specified by the Outer Continental Shelf leasing program prepared under section 18(a) of the Outer Continental Shelf Lands Act (43 U.S.C. 1344(a)) and scheduled to occur within the Outer Continental Shelf planning area to which such state is adjacent.

(3) The coastal-related energy facilities (including coal facilities) located within each state during the previous fiscal year. For any state for which the Secretary has not approved a coastal zone management program under section 306 of the Coastal Zone Management Act of 1972 (16 U.S.C. 1455), this criterion shall be reduced by fifty per centum. The amounts resulting from such reduction shall be reallocated proportionately, under this paragraph, among states for which the Secretary has approved such a management program.

(4) The shoreline mileage of each state for which the Secretary has approved a coastal zone management program under section 306 of the Coastal Zone Management Act of 1972 (16 U.S.C. 1455).

(5) The coastal population of each state for which the Secretary has approved a coastal zone management program under section 306 of the Coastal Zone Management Act of 1972 (16 U.S.C. 1455).

(e) For purposes of paragraphs (4) and (5) of subsection (d)—

(1) the Secretary shall be presumed to have approved the coastal zone management program of any state if the Secretary determines that, in any fiscal year, such state is making satisfactory progress toward the development of a coastal zone management program which will be approvable under section 306 of the Coastal Zone Management Act (16 U.S.C. 1455). Such presumption may be renewed only once and for a period not to exceed one additional fiscal year if the Secretary makes such determination under this subsection for such additional fiscal year; and

(2) a state shall not receive in excess of 30 per centum of the amounts attributable to either criterion. If any state would receive an allotment greater than 30 per centum, the Secretary shall reduce such allotment to 30 per centum. The amounts resulting from such reduction shall be reallocated proportionately among those states that receive less than 30 per centum of the amounts attributable to such criterion.

(f)(1) For states for which the Secretary has approved a coastal zone management program under section 306 of the Coastal Zone Management Act of 1972 (16 U.S.C. 1455), a coastal state shall receive not less than one and sixty two one-hundredths per centum, and a coastal territory not less than one-half of one per centum, of the total amount available for block grants under section 6502(c) during any fiscal year.

(2) If, after the calculations required under subsection (d), any coastal state or coastal territory is to receive a block grant that is less than the respective minimum grant levels established under paragraph (1), the Secretary shall increase such state's block grant to the minimum level. Amounts necessary to make such increases shall be

derived by reducing proportionately the block grant of each state which, as determined under subsection (d), exceeds the respective minimum level under paragraph (1).

(3) For the purposes of the implementation of section 6504(b), block grant levels may fall below the respective minimum levels established under this section.

(g) If, after the calculations required under subsections (d), (e) and (f), any state would receive a block grant which is greater than 15 per centum of the funds appropriated under section 6502(c), the Secretary shall reduce such state's block grant to 15 per centum. The amounts resulting from such reduction shall be reallocated proportionately among states receiving less than 15 per centum of such funds and more than the minimum grant levels under subsection (f).

SEC. 6504. REQUIREMENTS ON THE USE OF BLOCK GRANTS.

Block grants provided to a state under section 6503(a) shall be used for the enhancement and management of ocean and coastal resources and for the amelioration of any adverse impacts that result from the siting, construction, expansion, or operation of coastal-related energy facilities.

(a) Such block grants shall be used only for each of the following activities:

(1) activities of such state authorized by the Coastal Zone Management Act of 1972 (16 U.S.C. 1451 et seq.);

(2) activities of such state pursuant to the coastal energy impact program administered under section 308 of the Coastal Zone Management Act of 1972 (16 U.S.C. 1457);

(3) activities of such state for the enhancement, management and development of living marine resources; and

(4) activities of such state for the preservation, enhancement and management of its natural resources including coastal habitats.

(b) Nothing in this subtitle shall be construed to repeal or modify, by implication or otherwise, section 312 of the Coastal Zone Management Act of 1972 (16 U.S.C 1461). The Secretary shall reduce any block grant, provided under this subtitle to a state that has an approved program under section 306 of the Coastal Zone Management Act (16 U.S.C. 1455), by no more than 30 per centum of the amount of such state's block grant that is attributable to paragraphs (4) and (5) of section 6503(d) of this subtitle, if the Secretary makes the determination provided in section 312(c) of the Coastal Zone Management Act.

SEC. 6505. LOCAL GOVERNMENTS.

(a) Each State receiving a block grant in any fiscal year under section 6503(a) shall—

(1) establish an effective mechanism for consultation and coordination with its local governments with respect to the allocation of such block grant within the state; and

(2) provide to its local governments allocations from such block grant, taking into consideration the responsibilities of the local governments in carrying out activities under section 6504(a).

(b) In carrying out its responsibilities under subsection (a)(2), the State shall give particular emphasis to the activities of local governments in—

(1) providing public services and public facilities required as a result of the siting, construction, expansion, or operation of coastal-related energy facilities; and

(2) preventing, reducing, or ameliorating any unavoidable loss of valuable environmental or recreational resources if such loss results from the siting, construction, expansion, or operation of coastal-related energy facilities.

(c) In carrying out its responsibilities under this section, each State shall provide no less than 33⅓ per centum of each block grant received under section 6503(a) to its local governments.

SEC. 6506. AUDIT.

(a) Under regulations promulgated by the Secretary, any State receiving a block grant under section 6503(a) shall, for each fiscal year that it receives such grant, submit to the Secretary a financial audit of the trust fund established pursuant to section 6503(c). The income derived from such trust fund for each fiscal year shall be included in the audit required by this section.

(b) Each audit submitted by a State under subsection (a) shall—

(1) contain a statement of all funds provided by the block grant received by such State for the fiscal year;

(2) include a statement of all financial assistance provided to such State's local governments pursuant to section 6505;

(3) be conducted by an entity which is independent of any agency or official administering or using funds provided by such block grant; and

(4) be conducted in accordance with the financial and compliance element of the standards for audit of governmental organizations, activities, and functions established by the Comptroller General of the United States.

(c) After receiving a State's financial audit under this section, the Secretary shall—

(1) make a preliminary evaluation of each audit submitted pursuant to this section. If the Secretary determines, in the preliminary evaluation of a State's audit, that all or any part of the block grant has not been used as required by this subtitle, the Secretary shall publish notice of this finding in the Federal Register. In addition, the Secretary may suspend, and place in escrow, an amount from any future block grant which is equivalent to the amount misused, pending final determination pursuant to paragraph (3);

(2) provide the state with an opportunity for a hearing; and

(3) make a final determination.

(d) If the Secretary makes a final determination under subsection (c)(3) that all or any part of such funds were not used as required by this subtitle, the Secretary shall—

(1) provide in writing to the State the reasons for the determination and the amount of funds misused; and

(2) take appropriate action to recover an amount equal to that determined to have been misused under subsection (c), including the withholding of such amount from a State's future block grant or the amount which may have been suspended under subsection (c)(1).

(e) If no appeal of the final determination is filed within sixty days following notification to the State of the final determination, any funds withheld or recovered by the Secretary under subsection (d)(2) shall be returned to the Fund.

(f) If an appeal of the final determination is filed within the sixty-day period specified in subsection (e), any funds withheld by the Secretary shall be held in escrow until such time as a final determination is made of the appeal.

SEC. 6507. RULES AND REGULATIONS.

The Secretary shall promulgate, pursuant to section 553 of title 5, United States Code, after notice and opportunity for participation by relevant Federal agencies, State agencies, local governments, regional organizations, and other interested parties, both public and private, such rules and regulations as may be necessary to carry out the provisions of this subtitle.

Subtitle F—Amendments to the Coastal Zone Management Act

SEC. 6601. SHORT TITLE.

This subtitle may be cited as the "Coastal Zone Management Reauthorization Act of 1985".

SEC. 6602. REFERENCE.

Whenever in this subtitle an amendment or repeal is expressed in terms of an amendment, or repeal, of a section, subsection, paragraph, or other provision, the reference is to be considered to be made to a section, subsection, paragraph, or other provision of the Coastal Zone Management Act of 1972 (16 U.S.C. 1451 et seq.) unless otherwise specified.

SEC. 6603. REDUCTION OF ADMINISTRATIVE GRANTS.

(a) Section 312(c)(16 U.S.C. 1458(c)) is amended by striking "if the Secretary determines" and all that follows thereafter and inserting in lieu thereof the following: "if the Secretary determines that the coastal state—

"(1) is failing to make significant improvement in achieving the coastal management objectives specified in section 303(2)(A) through (I); or

"(2) is failing to make satisfactory progress in providing in its management program for the matters referred to in section 306(i)(A) and (B).".

(b)(1) Subsection (a) of section 306 of the Coastal Zone Management Act of 1972 (16 U.S.C. 1455) is amended by striking, "The Secretary may" and all that follows through "if the Secretary—" and substituting in lieu thereof the following: "The Secretary may make grants to any coastal state for the purpose of administering that state's management program, if the state provides for the applicable fiscal year: 20 per centum of the grant for fiscal year 1986; 30 per centum of the grant for fiscal year 1987; 40 per centum of the grant for fiscal year 1988; and 50 per centum of the grant for each fiscal year thereafter. The Secretary may make the grant only if the Secretary—".

(2) Section 306A is amended by striking section (d)(1) and substituting in lieu thereof the following:

"(d)(1) The Secretary may make grants to any coastal state for the purpose of carrying out the project or purpose for which such grants are awarded, if the state provides for the applicable fiscal year: 20 per centum of the grant for fiscal year 1986; 30 per centum of the grant for fiscal year 1987; 40 per centum of the grant for fiscal year 1988; and 50 per centum of the grant for each fiscal year thereafter.".

(c) Section 306(g) (16 U.S.C. 1455) is amended by striking all that follows after the first sentence, and inserting in lieu thereof, the following: "Provided that—

"(1) The state shall promptly notify the Secretary of any proposed amendment, modification or other program change and submit it for Secretarial approval. The Secretary may suspend all or part of any grant made under this section pending state submission of the proposed amendment, modification or other program change;

"(2) The state may not implement any proposed amendment as part of its approved program pursuant to section 306, until after it has been approved by the Secretary, and the Secretary may not authorize any federal

financial assistance for such implementation until the Secretary approves the amendment; and

"(3) Within four months from the date on which any proposed amendment is received by the Secretary, the Secretary shall notify the state of the decision to approve or disapprove it. This period may be extended only as necessary to meet the requirements of the National Environmental Policy Act (42 U.S.C. 4321).".

SEC. 6604. NATIONAL ESTUARINE RESERVE RESEARCH SYSTEM.

Section 315 (16 U.S.C. 1461) is amended to read as follows:

"NATIONAL ESTUARINE RESERVE RESEARCH SYSTEM

"(a) ESTABLISHMENT OF THE SYSTEM.—There is established the National Estuarine Reserve Research System (hereinafter referred to in this section as the 'System') that consists of—

"(1) each estuarine sanctuary designated under this section as in effect before October 1, 1985; and

"(2) each estuarine area designated as a national estuarine reserve under subsection (b).

Each estuarine sanctuary referred to in paragraph (1) is hereby designated as a national estuarine reserve.

"(b) DESIGNATION OF NATIONAL ESTUARINE RESERVES.—After September 30, 1985, the Secretary may designate an estuarine area as a national estuarine reserve if—

"(1) the Governor of the coastal state in which the area is located nominates the area for that designation; and

"(2) The Secretary finds that—

"(A) the area is a representative estuarine ecosystem that is suitable for long-term research and contributes to the biogeographical and typological balance of the System;

"(B) the law of the coastal State provides long-term protection for reserve resources to ensure a stable environmental for research;

"(C) designation of the area as a reserve will serve to enhance public awareness and understanding of estuarine areas, and provide suitable opportunities for public education and interpretation; and

"(D) the coastal State in which the area is located has complied with the requirements of any regulations issued by the Secretary to implement this section.

"(c) ESTUARINE RESEARCH GUIDELINES.—The Secretary shall develop guidelines for the conduct of research within the System that shall include—

"(1) a mechanism for identifying, and establishing priorities among, the coastal management issues that should be addressed through coordinated research within the System;

"(2) the establishment of common research principles and objectives to guide the development of research programs within the System;

"(3) the identification of uniform research methodologies which will ensure comparability of data, the broadest application of research results, and the maximum use of the System for research purposes;

"(4) the establishment of performance standards upon which the effectiveness of the research efforts and the value of reserves within the System in addressing the coastal management issues identified in subsection (1) may be measured; and

"(5) the consideration of additional sources of funds for estuarine research than the funds authorized under this Act, and strategies for encouraging the use of such funds within the System, with particular emphasis on mechanisms established under subsection (d).

In developing the guidelines under this section, the Secretary shall consult with prominent members of the estuarine research community.

"(d) PROMOTION AND COORDINATION OF ESTUARINE RESEARCH.—The Secretary shall take such action as is necessary to promote and coordinate the use of the System for research purposes including—

"(1) requiring that the National Oceanic and Atmospheric Administration, in conducting or supporting estuarine research, give priority consideration to research that uses the System; and

"(2) consulting with other Federal and State agencies to promote use of one or more reserves within the System by such agencies when conducting estuarine research.

"(e) FINANCIAL ASSISTANCE.—(1) The Secretary may, in accordance with such rules and regulations as the Secretary shall promulgate, make grants—

"(A) to a coastal State—

"(i) for purposes of acquiring such lands and waters, and any property interests therein, as are necessary to ensure the appropriate long-term management of an area as a national estuarine reserve,

"(ii) for purposes of operating or managing a national estuarine reserve and constructing appropriate reserve facilities, or

"(iii) for purposes of conducting educational or interpretive activities; and

"(B) to any coastal State or public or private person for purposes of supporting research and monitoring within a national estuarine reserve that are consistent with the research guidelines developed under subsection (c).

"(2) Financial assistance provided under paragraph (1) shall be subject to such terms and conditions as the Secretary considers necessary or appropriate to protect the interests of the United States, including requiring coastal States to execute suitable title documents setting forth the property interest or interests of the United States in any lands and waters acquired in whole or part with such financial assistance.

"(3)(A) The amount of the financial assistance provided under paragraph (1)(A)(i) of subsection (e) with respect to the acquisition of lands and waters, or interests therein, for any one national estuarine reserve may not exceed an amount equal to 50 per centum of the costs of the lands, waters, and interests therein or $4,000,000, whichever amount is less.

"(B) The amount of the financial assistance provided under paragraph (1)(A) (ii) and (iii) and paragraph (1)(B) of subsection (e) may not exceed 50 per centum of the costs incurred to achieve the purposes described in those paragraphs with respect to a reserve.

"(f) EVALUATION OF SYSTEM PERFORMANCE.—(1) The Secretary shall periodically evaluate the operation and management of each national estuarine reserve, including education and interpretive activities, and the research being conducted within the reserve.

"(2) If evaluation under paragraph (1) reveals that the operation and management of the reserve is deficient, or that the research being conducted within the reserve is not consistent with the research guidelines developed under subsection (c), the Secretary may suspend the eligibility of that reserve for financial assistance under subsection (e) until the deficiency or inconsistency is remedied.

"(3) The Secretary may withdraw the designation of an estuarine area as a national estuarine reserve if evaluation under paragraph (1) reveals that—

"(A) the basis for any one or more of the findings made under subsection (b)(2) regarding that area no longer exists; or

"(B) a substantial portion of the research conducted within the area, over a period of years, has not been consistent with the research guidelines developed under subsection (c).

"(g) ANNUAL REPORT.—Beginning with fiscal year 1987, the Secretary shall provide to the Congress an annual report that sets forth, with respect to the period covered by the report—

"(1) new designations of national estuarine reserves;

"(2) any expansion of existing national estuarine reserves;

"(3) the status of the research program being conducted within the System; and

"(4) a summary of the evaluations made under subsection (f). "The Secretary shall submit the report within three months after the end of the fiscal year covered by the report.".

SEC. 6605. REPEALS.

The following are repealed:

(1) Section 310 (16 U.S.C. 1456c; relating to research and tehnical assistance programs and grants).

(2) Section 314 (16 U.S.C. 1460; establishing the Coastal Zone Management Advisory Committee).

(3) Subsection (c) of section 15 of the Coastal Zone Management Act Amendments of 1976, Public Law 94-370 (16 U.S.C. 1451 note; relating to certain additional personnel positions).

SEC. 6606. AUTHORIZATIONS OF APPROPRIATIONS.

Section 318 (16 U.S.C. 1464) is amended as follows:

(1) by amending paragraph (1) to read as follows:

"(1) such sums, not to exceed $36,600,000 for the fiscal year ending September 30, 1987; $37,900,000 for the fiscal year ending September 30, 1988; $38,800,000 for the fiscal year ending September 30, 1989; and $40,600,000 for the fiscal year ending September 30, 1990, as may be necessary for grants under sections 306 and 306A, to remain available until expended;".

(2) By striking paragraph (2) and renumbering subsequent paragraphs—

(3) By amending the new paragraph (3) to read as follows:

"(3) such sums, not to exceed $1,500,000 for each of the fiscal years occurring during the period beginning October 1, 1986, and ending September 30, 1990, as may be necessary for grants under section 309, to remain available until expended;".

(4) By amending the new paragraph (4) to read as follows:

"(4) such sums, not to exceed $3,800,000 for the fiscal year ending September 30, 1987; $4,500,000 for the fiscal year ending September 30, 1988; $5,000,000 for the fiscal year ending September 30, 1989; and $5,500,000 for the fiscal year ending September 30, 1990, as may be necessary for grants under section 315, to remain available until expended;" and

(5) By amending the new paragraph (5) to read as follows:

"(5) such sums, not to exceed $3,300,000 for the fiscal year ending September 30, 1987; $3,300,000 for the fiscal year ending

September 30, 1988; $4,000,000 for the fiscal year ending September 30, 1989; and $4,000,000 for the fiscal year ending September 30, 1990, as may be necesssary for administrative expenses incident to the administration of this title.".

SEC. 6607. TECHNICAL AMENDMENT.

Section 308(h) (16 U.S.C. 1456a(h)) is amended by deleting "subsections (c)(1)" each place it appears and inserting instead "subsections (c)".

Subtitle G—Merchant Marine Act Amendments

SEC. 6701. MERCHANT MARINE ACT AMENDMENTS.

The Merchant Marine Act, 1936 (46 App. U.S.C. 1101 et seq.) is amended—

(1) by amending section 607(k)(1) to read:

"(1) The term 'eligible vessel' means a vessel—

"(A) documented under the laws of the United States; or

"(B) owned by a United States controlled foreign corporation.";

(2) by amending section 607(k) (2)(C) to read:

"(C) which the person maintaining the fund agrees with the Secretary will be operated in, or assisting in, the operation of a vessel in United States or foreign waters in—

"(1) the foreign, Great Lakes, or noncontiguous domestic trade of the United States;

"(2) the fisheries of the United States; or

"(3) support of exploration, exploitation, or production of offshore mineral or energy resources."; and

(3) in section 607(1) by striking "require." and substituting "require, including a schedule of projected deposits and withdrawals, for a period of not less than ten years, to meet the program objectives.".

Subtitle H—Use of American-Built Rigs For OCS Drilling

SEC. 6801. USE OF AMERICAN-BUILT RIGS FOR OCS DRILLING.

Section 5 of the Outer Continental Shelf Lands Act (43 U.S.C. 1334) is amended by adding at the end the following new subsection:

"(j)(1) Any vessel, rig, platform, or other structure used for the purpose of exploration or production of oil and gas on the outer Continental Shelf south of 49 degrees North latitude shall be built—

"(A) in the United States; and

"(B) from articles, materials, or supplies at least 50 percent of which, by cost, shall have been mined, produced, or manufactured, as the case may be, in the United States.

"(2) The requirements of paragraph (1) shall not apply to any vessel, rig, platform, or other structure which was built, which is being built, or for which a building contract has been executed, on or before October 1, 1985.

"(3) The Secretary may waive—

"(A) the requirement in paragraph (1)(B) whenever the Secretary determines that 50 percent of the articles, materials, or supplies for a vessel, rig, platform, or other structure cannot be mined, produced, or manufactured, as the case may be, in the United States, and

"(B) the requirement in paragraph (1)(A) upon application, with respect to any classification of vessels, rigs, platforms, or other structures on a specific lease, when the Secretary determines that at least 50 percent of such classification, as calculated by number and by weight, which are to be built for exploration or production activities under such lease will be built in the United States in compliance with the requirements of paragraph (1)(A).".

TITLE VII—COMMITTEE ON POST OFFICE AND CIVIL SERVICE

SEC. 7101. PAY ADJUSTMENTS DURING FISCAL YEARS 1986, 1987, AND 1988.

(a) ADJUSTMENTS FOR EMPLOYEES UNDER STATUTORY PAY SYSTEMS.—(1) Notwithstanding any other provision of law, adjustments under section 5305 of title 5, United States Code, in the rates of pay under the General Schedule and in the rates of pay under the other statutory pay systems shall be as follows:

(A) In the case of fiscal year 1986, no adjustment under such section shall be made.

(B) In the case of fiscal year 1987, the overall percentage of the adjustment under such section shall be an increase of 5 percent.

(C) In the case of fiscal year 1988, the overall percentage of the adjustment under such section shall be an increase of 5 percent.

(2) Each increase in a pay rate or schedule which takes effect pursuant to subparagraph (B) or (C) of paragraph (1) shall, to the maximum extent practicable, be of the same percentage and shall take effect as of the beginning of the first applicable pay period beginning on or after January 1 of the fiscal year involved.

(b) ADJUSTMENTS FOR PREVAILING RATE EMPLOYEES.—(1) Notwithstanding any other provision of law, and except as otherwise provided in this subsection, in the case of a prevailing rate employee described in section 5342(a)(2) of title 5, United States Code, or an employee covered by section 5348 of such title, the total adjustment to any wage schedule or rate applicable to such employee which is to become effective (determined without regard to paragraph (2)) during—

(A) fiscal year 1986, shall (except to the extent permitted by section 616(a)(2) of H.R. 5798, incorporated by reference in section 101(j) of Public Law 98-473 (98 Stat. 1963)) be equal to zero;

(B) fiscal year 1987, shall not exceed an increase of 5 percent; and

(C) fiscal year 1988, shall not exceed an increase of 5 percent.

(2) Notwithstanding any other provision of law, any increase permitted by paragraph (1) which is scheduled to take effect during fiscal year 1987 or 1988 (determined without regard to this paragraph) shall take effect as of the beginning of the first applicable pay period beginning at least 90 days after the date on which such increase is so scheduled to take effect.

(3) Notwithstanding the provisions of section 9(b) of Public Law 92-392 or section 704(b) of Public Law 95-454, the provisions of paragraph (1) shall apply (in such manner as the Office of Personnel Management shall prescribe) to prevailing rate employees to whom such section 9(b) applies, except that the provisions of paragraph (1) shall not apply to any increase in a wage schedule or rate which is required by the terms of a contract entered into before October 1, 1985.

(4) Nothing in this subsection or any provision of law governing the use of appropriated funds for the payment of employees covered by this subsection during the period covered by paragraph (1) (or any part of such period) shall be construed to permit or require the payment to any such employee at a rate in excess of the rate that would be payable were this subsection, or such provision of law governing the use of appropriated funds, not in effect.

(5) The Office may make exceptions from the limitations imposed by paragraph (1) if the Office determines that such exceptions are necessary to ensure the recruitment or retention of well-qualified employees.

(c) ASSUMPTION.—Notwithstanding any other provision of law, determinations relating to amounts to be appropriated in order to provide for the respective adjustments described in subparagraphs (B) and (C) of subsection (a)(1), and subparagraphs (B) and (C) of subsection (b)(1), shall be made based on the assumption that the various departments and agencies of the Government will, in the aggregate, and with respect to the fiscal year involved, absorb 33 percent of the increase in total pay for such year, as defined in subsection (d)(2).

(d) DEFINITIONS.—For purposes of this section—

(1) the term "total pay" means, with respect to a fiscal year—

(A) the total amount of basic pay which, in the case of employees covered by the statutory pay systems, will be payable to such employees for service performed during such year; and

(B) the total amount of basic pay which, in the case of prevailing rate employees described in section 5342(a)(2) of title 5, United States Code, and employees covered by section 5348 of such title, will be payable to employees under those respective provisions for service performed during such year;

(2) the term "increase in total pay" means, with respect to a fiscal year, that part of total pay for such year which is attributable to the adjustment taking effect under this section during such year; and

(3) the term "statutory pay system" has the meaning given such term by section 5301(c) of title 5, United States Code.

SEC. 7102. AMENDMENTS RELATING TO FEDERAL EMPLOYEES HEALTH BENEFITS PROGRAM.

(a) AMOUNTS TO BE REFUNDED FROM CARRIERS' SPECIAL RESERVES.—(1) The Office of Personnel Management—

(A) shall determine the minimum level of financial reserves necessary to be held by a carrier for each health benefits plan under chapter 89 of such title for the purpose of ensuring the stable and efficient operation of such plan; and

(B) shall require the carrier to refund to the Employees Health Benefits Fund any such reserves in excess of such minimum level in such amounts and at such times during fiscal years 1986 and 1987 as the Office determines appropriate.

Any refund made by a carrier under this subsection shall be credited to the contingency reserve of the health benefits plan of such carrier (as described in section 8909(b) of such title).

(2) In carrying out its responsibilities under this subsection, the Office shall ensure that the aggregate amount to be refunded to the Employees Health Benefits Fund under this subsection—

(A) during fiscal year 1986 shall be not less than $800,000,000; and

(B) during fiscal year 1987 shall be not less than $300,000,000.

(3) No amount in any of the contingency reserves referred to in paragraph (1) may be transferred to the general fund of the Treasury of the United States, to the United States Postal Service, or to the government of the District of Columbia as a

result of a refund made under this subsection.

(b) ELIMINATION OF 75 PERCENT LIMITATION ON GOVERNMENT CONTRIBUTIONS FOR FISCAL YEARS 1986 AND 1987.—Effective for each of the contract years commencing in fiscal years 1986 and 1987, respectively, the maximum biweekly Government contribution allowable under section 8906(b)(2) of title 5, United States Code, for any individual shall be 100 percent of the applicable subscription charge.

SEC. 7103. CONVERSION OF ANNUAL TO HOURLY RATES OF PAY BASED ON 2,087 HOURS PER YEAR.

(a) CONVERSION.—Section 5504(b) of title 5, United States Code, is amended—

(1) by striking out the first sentence;

(2) in the second sentence, by striking out "When" and inserting in lieu thereof "When, in the case of an employee,";

(3) in paragraph (1), by striking out "2,080" and inserting in lieu thereof "2,087"; and

(4) in the last sentence, by striking out "title." and inserting in lieu thereof "title other than an employee or individual excluded by section 5541(2)(xvi) of this title.".

(b) EFFECTIVE DATE.—The amendments made by subsection (a) shall take effect as of the beginning of the first applicable pay period commencing on or after October 1, 1985.

(c) TERMINATION DATE.—The amendments made by paragraphs (1), (2), and (3) of subsection (a) shall cease to have effect as of the beginning of the first applicable pay period commencing on or after October 1, 1988.

SEC. 7104. SAVINGS UNDER POSTAL SERVICE PROGRAMS.

(a) REDUCTION OF AUTHORIZATION FOR REVENUE FORGONE.—Notwithstanding subsection (c) of section 2401 of title 39, United States Code, the amount authorized to be appropriated pursuant to such subsection for fiscal year 1986 shall be $749,000,000.

(b) REDUCTION OF TRANSITIONAL APPROPRIATIONS.—(1) Notwithstanding section 2004 of title 39, United States Code—

(A) no sum is authorized to be appropriated pursuant to such section for fiscal year 1986; and

(B) for fiscal year 1989, there is authorized to be appropriated—

(i) such sums as may be necessary to carry out such section in such year; and

(ii) such sums as may be necessary to reimburse the Postal Service Fund (established by section 2003 of such title) for any expenditures made from such Fund under paragraph (2).

(2) The United States Postal Service, during fiscal year 1986, shall carry out section 2004 of title 39, United States Code, using any amounts available in the Postal Service Fund.

TITLE VIII—COMMITTEE ON PUBLIC WORKS AND TRANSPORTATION

Subtitle A—Highway Programs

SEC. 8101. REDUCTIONS IN HIGHWAY APPORTIONMENTS.

(a) PRIMARY SYSTEM.—The first sentence of section 105(a)(1) of the Highway Improvement Act of 1982 is amended by striking out "$2,450,000,000" and inserting in lieu thereof "$2,300,000,000".

(b) BRIDGE REPLACEMENT AND REHABILITATION.—Section 202(1) of the Highway Safety Act of 1982 is amended by striking out "$2,050,000,000" and inserting in lieu thereof "$1,750,000,000".

(c) INTERSTATE 4R.—The first sentence of section 105 of the Federal-Aid Highway Act of 1978 is amended by striking out "$3,150,000,000" and inserting in lieu thereof "$2,800,000,000".

(d) APPORTIONMENT ADJUSTMENTS.—

(1) DETERMINATION OF ADJUSTMENT AMOUNT.—On the first day following the effective date of this Act, the Secretary of Transportation shall determine—

(A) the amount of funds that would have been apportioned to each State on October 1, 1985—

(i) for the Federal-aid primary system program if the amendment made by subsection (a) had been in effect on such date;

(ii) for the highway bridge replacement and rehabilitation program if the amendment made by subsection (b) had been in effect on such date; and

(iii) for the program to resurface, restore, rehabilitate, and reconstruct routes on the National System of Interstate and Defense Highways if the amendment made by subsection (c) had been in effect on such date; and

(B) the amount by which the amount which was apportioned to such State on October 1, 1985, for such program exceeds the amount determined under subparagraph (A) for such program.

(2) ADJUSTMENTS TO CURRENT APPORTIONMENT.—To the extent that any funds—

(A) which were apportioned to a State on October 1, 1985, for any program referred to in paragraph (1)(A); and

(B) which are unobligated on the first day following the effective date of this Act;

do not exceed the amount determined under paragraph (1)(B) for such program, such apportioned and unobligated funds shall lapse on such first day.

(3) ADJUSTMENT TO FUTURE APPORTIONMENT.—If the amount determined under paragraph (1)(B) with respect to the apportionment made on October 1, 1985, to any State for any program referred to in paragraph (1)(A) is greater than the amount of funds which lapse from the apportionment to such State for such program under paragraph (2), the Secretary of Transportation shall reduce the amount which, but for this paragraph, would otherwise be apportioned to such State for such program on October 1, 1986, by the amount of such excess.

SEC. 8102. OBLIGATION CEILING.

(a) GENERAL LIMITATION.—Notwithstanding any other provision of law, the total of all obligations for Federal-aid highways and highway safety construction programs shall not exceed—

(1) $13,250,000,000 for fiscal year 1986;

(2) $13,800,000,000 for fiscal year 1987; and

(3) $14,400,000,000 for fiscal year 1988.

(b) EXCEPTIONS.—The limitations under subsection (a) shall not apply to obligations—

(1) under section 125 of title 23, United States Code;

(2) under section 157 of such title;

(3) under section 320 of such title;

(4) under section 147 of the Surface Transportation Assistance Act of 1978;

(5) under section 9 of the Federal-Aid Highway Act of 1981;

(6) under sections 131(b) and 131(j) of the Surface Transportation Assistance Act of 1982;

(7) under section 118 of the National Visitor Center Facilities Act of 1968; and

(8) for completion of the Zilwaukee Bridge required because of construction failure.

No obligation constraints shall be placed upon any ongoing emergency project carried out under section 125 of title 23, United States Code, or section 147 of the Surface Transportation Assistance Act of 1978.

(c) DISTRIBUTION OF OBLIGATIONAL AUTHORITY.—For each of fiscal years 1986, 1987, and 1988, the Secretary of Transportation shall distribute the limitation imposed by subsection (a) by allocation as follows:

(1) 95 percent of such limitation shall be allocated among the States in the ratio which sums authorized to be appropriated for Federal-aid highways and highway safety construction which are apportioned or allocated to each State for such fiscal year bears to the total of the sums authorized to be appropriated for Federal-aid highways and highway safety construction which are apportioned or allocated to all the States for such fiscal year.

(2) 5 percent of such limitation shall be allocated among the States in the ratio which sums apportioned or allocated for Federal-aid highways and highway safety construction which remain available for obligation to each State and are unobligated on the last day of the fiscal year preceding such fiscal year and which will not lapse at the end of such last day bears to the total of the sums apportioned or allocated for Federal-aid highways and highway safety construction which remain available for obligation to all the States and are unobligated on such last day and which will not lapse at the end of such last day.

(d) LIMITATION ON OBLIGATIONAL AUTHORITY.—During the period October 1 through December 31 of each of fiscal years 1986, 1987, and 1988, no State shall obligate more than 35 percent of the amount distributed to such State under subsection (c) for such fiscal year, and the total of all State obligations during such period shall not exceed 25 percent of the total amount distributed to all States under such subsection for such fiscal year.

(e) REDISTRIBUTION OF UNUSED OBLIGATIONAL AUTHORITY.—Notwithstanding subsections (c) and (d), the Secretary of Transportation shall—

(1) provide all States with authority sufficient to prevent lapses of sums authorized to be appropriated for Federal-aid highways and highway safety construction which have been apportioned or allocated to a State, except in those instances in which a State indicates its intention to lapse sums apportioned under section 104(b)(5)(A) of title 23, United States Code;

(2) after August 1 of each of fiscal years 1986, 1987, and 1988, revise a distribution of the funds made available under subsection (c) for such fiscal year if a State will not obligate the amount distributed during such fiscal year and redistribute sufficient amounts to those States able to obligate amounts in addition to those previously distributed during such fiscal year giving priority to those States having large unobligated balances of funds apportioned under section 104 of title 23, United States Code, and giving priority to those States which, because of statutory changes made by the Surface Transportation Assistance Act of 1982 and the Federal-Aid Highway Act of 1981, have experienced substantial proportional reductions in their apportionments and allocations; and

(3) not distribute amounts authorized for administrative expenses and Federal lands highways programs.

(f) CONFORMING AMENDMENT.—Section 157(b) of title 23, United States Code, is amended by striking out the period at the end of the last sentence and inserting in lieu

thereof "and section 8102(c) of the Omnibus Budget Reconciliation Act of 1985.".

SEC. 8103. OHIO RIVER BRIDGE FUND REPROGRAMMING.

Section 147 of the Federal-Aid Highway Act of 1978 is amended by inserting "(a)" after "SEC. 147." and by adding at the end thereof the following new subsection:

"(b)(1) Funds which have been set aside previously pursuant to the fourth and fifth sentences of subsection (a) of this section and which are in excess of the amounts needed to complete the projects authorized by such subsection shall be available to the Secretary of Transportation to carry out the following state-of-the-art technology projects:

"(A) Construction of a bridge (including approaches thereto) across the Ohio River between Newport, Kentucky, and Cincinnati, Ohio, to replace a bridge on a highway designated as a United States route.

"(B) Construction of a bridge (including approaches thereto) across the Ohio River near Covington, Kentucky, and Cincinnati, Ohio, to replace a bridge on a Kentucky State highway.

"(C) Construction of a bridge (including approaches thereto) across the Ohio River between Maysville, Kentucky, and Aberdeen, Ohio, to replace a bridge on a highway designated as a United States route.

"(2) In order to demonstrate the latest high-type geometric design features (including safety hardware) and new advances in highway bridge construction, the projects authorized by this subsection shall utilize state-of-the-art technology, and all design elements, including the decking, shall be designed to provide the best life-cycle costs, thereby minimizing future maintenance and rehabilitation costs.

"(3) The Secretary of Transportation shall provide necessary technical assistance in the design and construction of projects under this subsection.

"(4) Not later than one year, six years, 11 years, and 21 years after the completion of the state-of-the-art technology projects under this subsection, the Secretary of Transportation shall submit reports to Congress, including but not limited to the results of such projects, the effects of using the best available technology on safety and other considerations, recommendations for applying the results to other bridge projects, and any changes that may be necessary by law to permit further use of such features.

"(5) In allocating funds made available to carry out this subsection, the Secretary shall assure that sufficient funds are allocated to the projects described in subparagraphs (A) and (B) of paragraph (1) to complete such projects. Any remaining funds shall be used to carry out the project described in subparagraph (C) of such paragraph.

"(6) Funds made available to carry out this subsection shall be available for obligation in the same manner and to the same extent as if such funds were apportioned under chapter 1 of title 23, United States Code, except that such funds shall be available until expended and shall not be subject to any obligation limitation. The Federal share of the projects carried out under this subsection shall be that provided in subsection (a).".

Subtitle B—Highway and Airport Trust Funds

SEC. 8201. BUDGETARY TREATMENT OF HIGHWAY AND AIRPORT TRUST FUND OPERATIONS.

(a) IN GENERAL.—The receipts and disbursements of the Highway Trust Fund and the Airport and Airway Trust Fund allocable to the transportation-related operations of each such Trust Fund—

(1) shall not be included in the totals of—

(A) the budget of the United States Government as submitted by the President, or

(B) the congressional budget, and

(2) shall be exempt from any general budget limitation imposed by statute on expenditures and net lending (budget outlays) of the United States Government.

(b) TRANSPORTATION-RELATED OPERATIONS.—For purposes of subsection (a), the transportation-related operations—

(1) of the Highway Trust Fund are the disbursements, and the receipts allocable to such disbursements, under—

(A) paragraph (1) of section 9503(c) of the Internal Revenue Code of 1954 (relating to expenditures from the Highway Trust Fund for the Federal-aid highway program), and

(B) paragraph (3) of section 9503(e) of such Code (relating to expenditures from the Mass Transit Account); and

(2) of the Airport and Airway Trust Fund are the disbursements, and the receipts allocable to such disbursements, under paragraph (1) of section 9502(d) of the Internal Revenue Code of 1954 (relating to expenditures from the Airport and Airway Trust Fund for the airport and airway program).

(c) EFFECTIVE DATE.—This section shall apply to fiscal years beginning after September 30, 1986.

SEC. 8202. AIRPORT AND AIRWAY TRUST FUND.

The Airport and Airway Improvement Act of 1982 is amended by adding at the end the following new section:

"SEC. 533. ADJUSTMENTS OF AUTHORIZATIONS AND APPORTIONMENTS.

"(a) ESTIMATES OF UNFUNDED AVIATION AUTHORIZATIONS AND NET AVIATION RECEIPTS.—Not later than March 31 of each year, the Secretary of Transportation, in consultation with the Secretary of the Treasury, shall estimate—

"(1) the amount which would (but for this section) be the unfunded aviation authorizations at the close of the next fiscal year, and

"(2) the net aviation receipts for the 24-month period beginning at the close of such fiscal year.

"(b) PROCEDURE WHERE THERE IS EXCESS UNFUNDED AVIATION AUTHORIZATIONS.—If the Secretary of Transportation determines for any fiscal year that the amount described in subsection (a)(1) exceeds the amount described in subsection (a)(2), he shall determine the amount of such excess.

"(c) ADJUSTMENT OF AUTHORIZATIONS WHERE UNFUNDED AUTHORIZATIONS EXCEED 2 YEARS' RECEIPTS.—

"(1) DETERMINATION OF PERCENTAGE.—If the Secretary of Transportation determines that there is an excess referred to in subsection (b), the Secretary of Transportation shall determine the percentage which—

"(A) such excess, is of

"(B) the total of the amounts authorized to be appropriated and the amounts available for obligation from the Airport and Airway Trust Fund for the next fiscal year.

"(2) ADJUSTMENT OF AUTHORIZATIONS.—If the Secretary of Transportation determines a percentage under paragraph (1), each amount authorized to be appropriated or available for obligation from the Airport and Airway Trust Fund for the next fiscal year shall be reduced by such percentage.

"(d) AVAILABILITY OF AMOUNTS PREVIOUSLY WITHHELD.—If, after an adjustment has been made under subsection (c)(2), the Secretary of Transportation determines that the amount described in subsection (a)(1) does not exceed the amount described in subsection (a)(2) or that the excess referred to in subsection (b) is less than the amount previously determined, each amount authorized to be appropriated or available for obligation that was reduced under subsection (c)(2) shall be increased, by an equal percentage, to the extent the Secretary of Transportation determines that it may be so increased without causing the amount described in subsection (a)(1) to exceed the amount described in subsection (a)(2) (but not by more than the amount of the reduction). The Secretary of Transportation shall apportion amounts made available for apportionment by reason of the preceding sentence. Any funds apportioned pursuant to the preceding sentence shall remain available for the period for which they would be available if such apportionment took effect with the fiscal year in which they are apportioned pursuant to the preceding sentence.

"(e) DEFINITIONS.—For purposes of this section—

"(1) UNFUNDED AVIATION AUTHORIZATIONS.—The term 'unfunded aviation authorizations' means, at any time, the excess (if any) of—

"(A) the total amount authorized to be appropriated or available for obligation from the Airport and Airway Trust Fund which has not been appropriated or obligated, over

"(B) the amount available in the Airport and Airway Trust Fund at such time to make such appropriations or to liquidate such obligations (after all other unliquidated obligations at such time which are payable from the Airport and Airway Trust Fund have been liquidated).

"(2) NET AVIATION RECEIPTS.—The term 'net aviation receipts' means, with respect to any period, the excess of—

"(A) the receipts (including interest) of the Airport and Airway Trust Fund during such period, over

"(B) the amounts to be transferred during such period from such Fund under section 9502(d) of the Internal Revenue Code of 1954 (other than paragraph (1) thereof).

"(f) REPORTS.—Any estimate under subsection (a) and any determination under subsection (b), (c), or (d) shall be reported by the Secretary of Transportation to the Committee on Ways and Means of the House of Representatives, the Committee on Finance of the Senate, the Committee on Public Works and Transportation of the House of Representatives, and the Committee on Commerce, Science, and Transportation of the Senate.".

Subtitle C—Pipeline Safety

SEC. 8301. NATURAL GAS PIPELINE SAFETY AUTHORIZATIONS.

Section 17(a) of the Natural Gas Pipeline Safety Act of 1968 (49 U.S.C. App. 1684(a)) is amended—

(1) by striking out "and" at the end of paragraph (2);

(2) by striking out the period at the end of paragraph (3) and inserting in lieu thereof a semicolon; and

(3) by adding at the end thereof the following new paragraphs:

"(4) $3,450,000 for the fiscal year ending September 30, 1986; and

"(5) $3,600,000 for the fiscal year ending September 30, 1987.".

SEC. 8302. AUTHORIZATIONS FOR FEDERAL GRANTS-IN-AID.

(a) COMBINED PROGRAM.—Section 17 of the Natural Gas Pipeline Safety Act of 1968 (49 U.S.C. App. 1684) is amended by adding at the end thereof the following new subsections:

"(c) For the purpose of carrying out the Federal grants-in-aid provisions of section 5(d) of this Act and section 205(d) of the Hazardous Liquid Pipeline Safety Act of 1979 (49 U.S.C. App. 2004(d)) there are authorized to be appropriated—

"(1) $5,000,000 for the fiscal year ending September 30, 1986; and

"(2) $5,230,000 for the fiscal year ending September 30, 1987.

"(d) Not less than 5 percent of any amounts appropriated for carrying out the Federal grants-in-aid provisions for any fiscal year beginning after September 30, 1985, shall be available only for carrying out the Federal grants-in-aid provisions of section 205(d) of the Hazardous Liquid Pipeline Safety Act of 1979 (49 U.S.C. App. 2004(d)).".

(b) CONFORMING AMENDMENTS.—

(1) Section 5(d)(2) of such Act (49 U.S.C. App. 1674(d)(2)) is amended—

(A) by striking out "authorized to be appropriated by section 17(b) of this Act" and inserting in lieu thereof "appropriated for carrying out the Federal grants-in-aid provisions of this subsection"; and

(B) by striking out "(1) of this section" and inserting in lieu thereof "(1) of this subsection".

(2) Section 205(d)(2) of the Hazardous Liquid Pipeline Safety Act of 1979 (49 U.S.C. App. 2004(d)(2)) is amended by striking out "authorized to be appropriated by section 214 of this title" and inserting in lieu thereof "appropriated for carrying out the Federal grants-in-aid provisions of this subsection".

(3) Section 214(a) of the Hazardous Liquid Pipeline Safety Act of 1979 (49 U.S.C. App. 2013(a)) is amended by inserting after "subsection (b)" the following: "or section 17(c) of the Natural Gas Pipeline Safety Act of 1968 (49 U.S.C. App. 1684(c))".

(4) Section 17(a) of the Natural Gas Pipeline Safety Act of 1968 (49 U.S.C. App. 1684(a)) is amended by inserting after "subsection (b)" the following: "or (c)".

SEC. 8303. HAZARDOUS LIQUID PIPELINE SAFETY AUTHORIZATIONS.

Section 214(a) of the Hazardous Liquid Pipeline Safety Act of 1979 (49 U.S.C. App. 2013(a)) is amended—

(1) by striking out "and" at the end of paragraph (2);

(2) by striking out the period at the end of paragraph (3) and inserting in lieu thereof a semicolon; and

(3) by adding at the end thereof the following new paragraphs:

"(4) $875,000 for the fiscal year ending September 30, 1986; and

"(5) $912,000 for the fiscal year ending September 30, 1987.".

SEC. 8304. TAX DISCRIMINATION AGAINST NATURAL GAS TRANSMISSION PROPERTY.

(a) IN GENERAL.—The Natural Gas Pipeline Safety Act of 1968 (49 U.S.C. App. 1671-1686) is amended by adding at the end thereof the following new section:

"TAX DISCRIMINATION AGAINST NATURAL GAS TRANSMISSION PROPERTY

"SEC. 20. (a) As used in this section—

"(1) 'assessment' means valuation for a property tax levied by a taxing district;

"(2) 'assessment jurisdiction' means a geographical area in a State used in determining the assessed value of property for ad valorem taxation;

"(3) 'natural gas transmission property' means property owned or used for the transportation of natural gas by a natural gas company providing transportation of natural gas by pipeline in interstate commerce;

"(4) 'commercial and industrial property' means all real and personal property, other than transportation property, and land used primarily for agricultural purposes or timber growing, devoted to a commercial or industrial use and subject to a property tax levy; and

"(5) 'natural gas company' has the meaning natural gas company has under the Natural Gas Act; except that such term shall not include any person not subject to the jurisdiction of the Federal Energy Regulatory Commission under the Natural Gas Act solely by reason of section 1(c) of such Act (15 U.S.C. 717 and following).

"(b) The Congress finds and declares that the following acts unreasonably burden and discriminate against interstate commerce, and a State, subdivision of a State, or authority acting for a State or subdivision of a State may not do any of them:

"(1) assess natural gas transmission property at a value that has a higher ratio to the true market value of the natural gas transmission property than the ratio that the assessed value of other commercial and industrial property in the same assessment jurisdiction has to the true market value of the other commercial and industrial property;

"(2) levy or collect a tax on an assessment that may not be made under paragraph (1) of this subsection; and

"(3) levy or collect an ad valorem property tax on natural gas transmission property at a tax rate that exceeds the tax rate applicable to commercial and industrial property in the same assessment jurisdiction.

"(c) Notwithstanding section 1341 of title 28, United States Code, and without regard to the amount in controversy or citizenship of the parties, a district court of the United States has jurisdiction, concurrent with other jurisdiction of courts of the United States and the States, to enjoin, suspend, restrain, or set aside, any tax of any State or local unit of government which is in violation of subsection (b) of this section. Relief may be granted under this subsection only if the ratio of assessed value to true market value of natural gas transmission property exceeds, by at least 5 percent, the ratio of assessed value to true market value of other commercial and industrial property in the assessment jurisdiction. The burden of proof in determining such assessed value and true market value shall be governed by State law. If the ratio of the assessed value of other commercial and industrial property in the assessment jurisdiction to the true market value of all other commercial and industrial property cannot be determined to the satisfaction of the district court through the random-sampling method known as a sales assessment ratio study, the court shall find that—

"(1) an assessment of the natural gas transmission property at a value that has a higher ratio to the true market value of the natural gas transmission property than the assessed value of all other property subject to a property tax levy in the assessment jurisdiction has to the true market value of all such other property; and

"(2) the collection of an ad valorem property tax on the natural gas transmission property at a tax rate that exceeds the tax rate applicable to taxable property in the taxing district;

are violations of this section. Any sales assessment ratio study conducted pursuant to this subsection shall be carried out under statistical principles applicable to such study.

"(d) It is the sense of the Congress that any savings accruing to any person (including any natural gas company) by reason of the enactment and implementation of this section should be passed on to the ultimate consumers of natural gas.

"(e) The Federal Energy Regulatory Commission shall submit to Congress—

"(1) an interim report two and one half years after the effective date of this section, and

"(2) a final report five years after such effective date,

on the amount of savings, through reduced rates, accruing to consumers as a result of the enactment and implementation of this section.".

(b) EFFECTIVE DATE.—The amendment made by subsection (a) of this section shall take effect two years after the date of the enactment of this Act.

SEC. 8305. PROHIBITION ON THE ASSESSMENT AND COLLECTION OF CERTAIN FEES AND CHARGES.

(a) SECRETARY OF TRANSPORTATION.—Notwithstanding any other provision of this Act (including any amendment made by this Act), the Secretary of Transportation may not assess or collect any fees based on the usage of any natural gas pipeline or hazardous liquid pipeline, except those fees assessed or collected pursuant to a law approved before the date of the enactment of this Act.

(b) FEDERAL ENERGY REGULATORY COMMISSION.—Notwithstanding any other provision of this Act (including any amendment made by this Act), the Federal Energy Regulatory Commission may not assess or collect any charges from any interstate natural gas pipeline or any interstate oil pipeline carrier, except those charges assessed or collected pursuant to a law approved before the date of the enactment of this Act.

Subtitle D—Tennessee Valley Authority

SEC. 8401. SALE BY SECRETARY OF ENERGY OF CERTAIN UNNECESSARY ELECTRIC ENERGY.

(a) AUTHORITY TO SELL.—

(1) IN GENERAL.—Except as provided in paragraph (2), the Secretary of Energy shall attempt to sell to electric utilities any electric energy that the Secretary has the right to buy under any Federal law or contract in effect on the date of the enactment of this Act for use in the provision of uranium enrichment service activities under section 161 v. of the Atomic Energy Act of 1954 (42 U.S.C. 2201(v)) and that the Secretary determines to be unnecessary to the conduct of such activities.

(2) EXCEPTION.—The Secretary of Energy may not sell any electric energy referred to in paragraph (1) that the Secretary has the right to buy from any federally chartered or Federal regional power marketing authority.

(b) CONSENT TO SALE.—Notwithstanding any other Federal law or contract in effect on the date of the enactment of this Act, no Executive agency (other than a federally chartered or Federal regional power marketing authority) may withhold its consent to

the sale of electric energy under subsection (a).

(c) TRANSMISSION.—Notwithstanding any other Federal law or contract in effect on the date of the enactment of this Act—

(1) any Executive agency (other than a federally chartered or Federal regional power marketing authority) selling electric energy to the Department of Energy shall make such electric energy available to the location requested by the Secretary of Energy; and

(2) the Secretary of Energy, acting through the organizational entities described in subparagraphs (A) and (B) of section 302(a)(1) of the Department of Energy Organization Act (42 U.S.C. 7152(a)(1)), shall assist in the transmission of any electric energy sold under subsection (a).

(d) REVENUES FROM SALE.—In partial repayment of amounts appropriated from the general fund of the Treasury of the United States for uranium enrichment service activities, the Secretary of Energy shall deposit in the general fund of the Treasury any revenues derived from the sale of electric energy under subsection (a) that are in excess of the energy charge incurred by the Secretary.

(e) DEFINITIONS.—For purposes of this section:

(1) The term "energy charge" means any fee or payment associated with the purchase of electric energy that is supplied by an electric energy seller to an electric energy purchaser and does not include any fee or payment made exclusively for the availability of electric energy or the right to purchase specified amounts of electric energy.

(2) The term "Executive agency" has the meaning given such term in section 105 of title 5, United States Code.

(f) EXPIRATION.—Subsections (a) through (e) of this section shall cease to be effective on December 31, 1992.

(g) TENNESSEE VALLEY AUTHORITY.—Notwithstanding any other provision of this Act (including any amendment made by this Act)—

(1) the Tennessee Valley Authority shall comply with section 15d of the Tennessee Valley Authority Act of 1933 (16 U.S.C. 831n-4);

(2) the Tennessee Valley Authority shall, under any contract for the sale of electric power and energy with the Department of Energy in effect on September 25, 1985, make available and deliver electric power and energy to the Department of Energy only in such amounts as the Tennessee Valley Authority may lawfully make available and deliver, and under such terms and conditions as are provided, under such contract, the Tennessee Valley Authority Act of 1933, and other laws, as such contract, Act, and laws are in effect on September 25, 1985; and

(3) the Department of Energy shall comply with all payment and contract terms under any Department of Energy contract with the Tennessee Valley Authority providing for the sale of electric power and energy.

TITLE IX—COMMITTEE ON SMALL BUSINESS

SEC. 9101. Section 20 of the Small Business Act is amended by adding the following:

"(u) The following program levels are authorized for fiscal year 1986—

"(1) for the programs authorized by section 7(a) of this Act, the Administration is authorized to make $80,000,000 in direct and immediate participation loans; and of such sum, the Administration is authorized to make $15,000,000 in loans as provided in paragraph (10), $45,000,000 in loans as provided in paragraph (11), and $20,000,000 in loans to disabled veterans and Vietnam era veterans as defined in section 1841, title 38, United States Code, under the general terms and conditions of title III of Public Law 97-72;

"(2) for the programs authorized by section 7(a) of this Act and section 503 of the Small Business Investment Act of 1958, the Administration is authorized to make $2,862,000,000 in deferred participation loans and guarantees of debentures; and of such sum, the Administration is authorized to make $5,000,000 in loans as provided in paragraph (10), $60,000,000 in loans as provided in paragraph (11), $15,000,000 in loans as provided in paragraph (12), $450,000,000 in loans as provided in paragraph (13) and guarantees of debentures as provided in section 503;

"(3) for the programs authorized by title III of the Small Business Investment Act of 1958, the Administration is authorized to make $41,000,000 in direct purchases of debentures and preferred securities and to make $250,000,000 in guarantees of debentures;

"(4) for the programs authorized by part B of title IV of the Small Business Investment Act of 1958, the Administration is authorized to enter into guarantees not to exceed $900,000,000; and

"(5) for the programs authorized in sections 404 and 405 of the Small Business Investment Act of 1958, the Administration is authorized to enter into guarantees not to exceed $50,000,000.

"(v) There are authorized to be appropriated to the Administration for fiscal year 1986, $593,340,000. Of such sum, $376,000,000 shall be available for the purpose of carrying out the programs referred to in subsection (u), paragraphs (1) through (3); $12,000,000 shall be available for the purposes of carrying out the provisions of section 412 of the Small Business Investment Act of 1958; and $205,340,000 shall be available for salaries and expenses of the Administration. There also are hereby authorized to be appropriated such sums as may be necessary and appropriate for the carrying out of the provisions and purposes, including administrative expenses, of sections 7(b)(1) and 7(b)(2) of this Act; and there are authorized to be transferred from the disaster loan revolving funds such sums as may be necessary and appropriate for such administrative expenses.

"(w) The following program levels are authorized for fiscal year 1987—

"(1) for the programs authorized by section 7(a) of this Act, the Administration is authorized to make $80,000,000 in direct and immediate participation loans; and of such sum, the Administration is authorized to make $15,000,000 in loans as provided in paragraph (10), $45,000,000 in loans as provided in paragraph (11), and $20,000,000 in loans to disabled veterans and Vietnam era veterans as defined in section 1841, title 38, United States Code, under the general terms and conditions of title III of Public Law 97-72;

"(2) for the programs authorized by section 7(a) of this Act and section 503 of the Small Business Investment Act of 1958, the Administration is authorized to make $2,862,000,000 in deferred participation loans and guarantees of debentures; and of such sum, the Administration is authorized to make $5,000,000 in loans as provided in paragraph (10), $60,000,000 in loans as provided in paragraph (11), $15,000,000 in loans as provided in paragraph (12), $450,000,000 in loans as provided in paragraph (13) and guarantees of debentures as provided in section 503;

"(3) for the programs authorized by title III of the Small Business Investment Act of 1958, the Administration is authorized to make $41,000,000 in direct purchases of debentures and preferred securities and to make $250,000,000 in guarantees of debentures;

"(4) for the programs authorized by part B of title IV of the Small Business Investment Act of 1958, the Administration is authorized to enter into guarantees not to exceed $900,000,000; and

"(5) for the programs authorized in sections 404 and 405 of the Small Business Investment Act of 1958, the Administration is authorized to enter into guarantees not to exceed $50,000,000.

"(x) There are authorized to be appropriated to the Administration for fiscal year 1987, $627,340,000. Of such sum, $410,000,000 shall be available for the purpose of carrying out the programs referred to in subsection (w), paragraphs (1) through (3); $12,000,000 shall be available for the purposes of carrying out the provisions of section 412 of the Small Business Investment Act of 1958; and $205,340,000 shall be available for salaries and expenses of the Administration. There also are hereby authorized to be appropriated such sums as may be necessary and appropriate for the carrying out of the provisions and purposes, including administrative expenses, of sections 7(b)(1) and 7(b)(2) of this Act; and there are authorized to be transferred from the disaster loan revolving funds such sums as may be necessary and appropriate for such administrative expenses.

"(y) The following program levels are authorized for fiscal year 1988—

"(1) for the programs authorized by section 7(a) of this Act, the Administration is authorized to make $80,000,000 in direct and immediate participation loans; and of such sum, the Administration is authorized to make $15,000,000 in loans as provided in paragraph (10), $45,000,000 in loans as provided in paragraph (11), and $20,000,000 in loans to disabled veterans and Vietnam era veterans as defined in section 1841, title 38, United States Code, under the general terms and conditions of title III of Public Law 97-72;

"(2) for the programs authorized by section 7(a) of this Act and section 503 of the Small Business Investment Act of 1958, the Administration is authorized to make $2,862,000,000 in deferred participation loans and guarantees of debentures; and of such sum, the Administration is authorized to make $5,000,000 in loans as provided in paragraph (10), $60,000,000 in loans as provided in paragraph (11), $15,000,000 in loans as provided in paragraph (12), $450,000,000 in loans as provided in paragraph (13) and guarantees of debentures as provided in section 503;

"(3) for the programs authorized by title III of the Small Business Investment Act of 1958, the Administration is authorized to make $41,000,000 in direct purchases of debentures and preferred securities and to make $250,000,000 in guarantees of debentures;

"(4) for the programs authorized by part B of title IV of the Small Business Investment Act of 1958, the Administration is au-

thorized to enter into guarantees not to exceed $900,000,000; and

"(5) for the programs authorized in sections 404 and 405 of the Small Business Investment Act of 1958, the Administration is authorized to enter into guarantees not to exceed $50,000,000.

"(z) There are authorized to be appropriated to the Administration for fiscal year 1988, $634,340,000. Of such sum, $417,000,000 shall be available for the purpose of carrying out the programs referred to in subsection (y), paragraphs (1) through (3); $12,000,000 shall be available for the purposes of carrying out the provisions of section 412 of the Small Business Investment Act of 1958; and $205,340,000 shall be available for salaries and expenses of the Administration. There also are hereby authorized to be appropriated such sums as may be necessary and appropriate for the carrying out of the provisions and purposes, including administrative expenses, of sections 7(b)(1) and 7(b)(2) of this Act; and there are authorized to be transferred from the disaster loan revolving funds such sums as may be necessary and appropriate for such administrative expenses.".

SEC. 9102. Section 20(t) of the Small Business Act is amended as follows:

(a) by striking "each of fiscal years 1985 and 1986," and by inserting in lieu thereof "1985"; and

(b) by striking "for each of such years".

SEC. 9103. (a) Section 15 of the Small Business Act is amended by adding at the end thereof the following new subsection:

"(n) For purposes of this section, the determination of labor surplus areas shall be made on the basis of the criteria in effect at the time of the determination except that any minimum population criteria shall not exceed twenty-five thousand. Such determination, as modified by the preceding sentence, shall be made by the Secretary of Labor.".

(b) The amendment made by subsection (a) shall take effect on the ninetieth day after the date of the enactment of this Act.

SEC. 9104. (a) Title III of the Small Business Investment Act of 1958 is amended by adding at the end thereof the following new section:

"GUARANTEED OBLIGATIONS NOT ELIGIBLE FOR PURCHASE BY FEDERAL FINANCING BANK

"SEC. 320. Nothing in any provision of law shall be construed to authorize the Federal Financing Bank to acquire after September 30, 1985—

"(1) any obligation the payment of principal or interest on which has at any time been guaranteed in whole or in part under this title,

"(2) any obligation which is an interest in any obligation described in paragraph (1), or

"(3) any obligation which is secured by, or substantially all of the value of which is attributable to, any obligation described in paragraph (1) or (2).".

(b) The table of sections for such title III is amended by adding at the end thereof the following new item:

"Sec. 320. Guaranteed obligations not eligible for purchase by Federal Financing Bank.".

SEC. 9105. (a) Title III of the Small Business Investment Act of 1958 is amended by adding at the end thereof the following new section:

"ISSUANCE AND GUARANTEE OF TRUST CERTIFICATES

"SEC. 321. The Administration or its agent is authorized to issue trust certificates representing ownership of all or a fractional part of the guaranteed debentures issued by small business investment companies and guaranteed by the Administration under this Act under the same authority, terms and conditions as are applicable to trust certificates issued for loans pursuant to the authority of subsection 5(g) of the Small Business Act.".

(b) The table of sections for such title III is amended by adding at the end thereof the following new item:

"Sec. 321. Issuance and guarantee of trust certificates.".

SEC. 9106. (a) Section 7(b) of the Small Business Act is amended as follows:

(1) by striking "The" after "(b)" and inserting in lieu thereof "Except as to agricultural enterprises as defined in section 18(b)(1) of this Act, the,";

(2) by adding "and" to the end of paragraph (1);

(3) by striking out the semicolon at the end of paragraph (2) and inserting in lieu thereof a period; and

(4) by striking paragraphs (3) and (4).

(b) Section 7(c)(4) of such Act is amended by striking out the last, undesignated paragraph.

(c) Section 18(a) of such Act is amended by striking all of the first sentence that follows "Federal Government," and precedes "and nothing".

SEC. 9107. Section 7(a) of the Small Business Act is amended by adding at the end thereof the following:

"(16) The Administration shall collect a guarantee fee equal to three percent of the amount of the deferred participation share of any loan under this subsection other than a loan repayable in one year or less or a loan under paragraph (13). The fee shall be payable by the participating lending institution and may be charged to the borrower.".

SEC. 9108. The Small Business Investment Act of 1958 is amended by adding the following new section to title V:

"SEC. 504. (a) Notwithstanding any other law, rule or regulation, the Administration is authorized and directed to conduct a pilot program involving the sale to investors, either publicly or by private placement, of debentures guaranteed pursuant to section 503 of the Small Business Investment Act of 1958 as follows—

"(1) of the program levels otherwise authorized by law for fiscal year 1986, an amount not to exceed $235,000,000; and

"(2) of the program levels otherwise authorized by law for fiscal year 1987, an amount not to exceed $280,000,000.

"(b) The sales may be for all or a fractional part of such amounts and the Administration or its agent further is authorized to issue trust certificates for such debentures under the same authority, terms and conditions as are applicable to trust certificates issued for loans pursuant to the authority of section 5(g) of the Small Business Act.

"(c) Nothing in any provision of law shall be construed to authorize the Federal Financing Bank to acquire—

"(1) any obligation the payment of principal or interest on which at any time has been guaranteed in whole or in part under section 503 of the Small Business Investment Act of 1958 and which is being sold pursuant to the provisions of the pilot program authorized in this section,

"(2) any obligation which is an interest in any obligation described in paragraph (1), or

"(3) any obligation which is secured by, or substantially all of the value of which is attributable to, any obligation described in paragraph (1) or (2).

"(d) The Administration shall report to the President and the Congress on the conduct of such pilot program not later than 90 days after the date on which the last sale is made pursuant to paragraph (a) in each fiscal year and unless a report has been made by October 1 of each of 1986 and 1987, the Administration shall make an interim report by such dates.".

SEC. 9109. Section 16 of the Small Business Act is amended by adding to the end thereof the following new subsection:

"(d) Whoever makes any statement knowing it to be false, or whoever knowingly makes or uses any false document, writing or entry, for the purpose of misrepresenting the status of any concern or person as a 'small business concern' or 'small business concern owned and controlled by socially and economically disadvantaged individuals', in order to obtain for oneself or another any—

"(1) prime contract to be awarded pursuant to section 9 or 15;

"(2) subcontract to be awarded pursuant to section 8(a);

"(3) subcontract that is to be included as part or all of a goal contained in a subcontracting plan required pursuant to section 8(d); or

"(4) prime or subcontract to be awarded as a result or in furtherance of any other provision of Federal law that specifically references section 8(d) for a definition of program eligibility,

shall be punished by a fine of not more than $50,000 or by imprisonment for not more than five years, or both.".

SEC. 9110. Not later than December 15, 1985, the Administrator of the Small Business Administration shall submit to the Committees on Small Business of the Senate and House of Representatives an internal report on the options available to providing a guarantee on loans under section 7(a) of the Small Business Act from sources outside the Federal Government, together with such recommendations as the Administrator may have with respect to such options. One option which shall be evaluated in such report is the creation of a corporation owned by the Federal Government to make such guarantees.

SEC. 9111. Subsection (a) of section 7 of the Small Business Act is amended by adding at the end thereof the following new paragraph:

"(17)(A) No financial assistance shall be available under this subsection which benefits any applicant—

"(i) which performs abortion,

"(ii) which engages in research which relates, in whole or in part, to methods of, or the performance of, abortion,

"(iii) which promotes or recommends abortion, or

"(iv) which trains any individual to perform abortion.

"(B) Subparagraph (A) shall not apply to any activity described in clause (i) or (iii) of subparagraph (A) if all of the abortions performed, promoted, and recommended in such activity are in cases where the life of the mother would be endangered if the fetus were carried to term.".

SEC. 9112. (a) Section 5 of the Small Business Act is amended by adding at the end thereof the following new subsection:

"(i)(1) Notwithstanding any other provision of law, the Administrator shall prescribe regulations which impose fees for

services provided by the Administration. Such fees shall be in such amounts (subject to the limitation in paragraph (2)) as the Administrator determines to be appropriate, and apply only to the following services—

"(A) publications provided by the Administration,

"(B) processing applications for guaranteed or other loans, and

"(C) determining whether any business is a small business concern (or any type of such concern) for purposes of enabling such business to be eligible for any assistance or preferential treatment under this or any other Act.

"(2) With respect to any fee imposed under this subsection—

"(A) In the case of fees imposed for publications, such fees shall not exceed the lesser of $5 per publication, or the actual publication costs of said publication.

"(B) In the case of fees imposed for processing applications for loans, such fee shall not exceed $100.

"(C) In the case of fees imposed for designation as a small business concern (or any type of such concern), such fee shall not exceed $100 but shall be refunded to the applicant if such designation is not made.

"(3) Amounts collected pursuant to this subsection shall be deposited in the general fund of the Treasury as proprietary receipts of the Small Business Administration to be retained and used by such Administration to cover the costs of such services and publications to the extent and in the amounts as provided in advance in appropriations Acts. There shall be an annual verification by the Administrator of amounts collected and expended for services and publications as provided herein.".

(b) Within one year of the date of enactment of this Act, the Administrator of the Small Business Administration shall submit to the Committees on Small Business and Appropriations of the Senate and House of Representatives a report with his findings and recommendations as to:

(1) the imposition of fees for counseling services provided by the Administration; and

(2) the imposition of each participating lender in the guaranteed loan program under section 7(a) of the Small Business Act of an annual fee of between one-quarter of one percent and one percent of the value of the unpaid balance of any loan made under such program, particularly on the revenues that could be expected and whether such revenues could be used for a loss reserve fund or to defray the cost of administration of the program.

(c) Not later than 60 days after the enactment of this Act, the Administrator of the Small Business Administration shall submit to the Committees on Small Business and Appropriations of the Senate and House of Representatives a report detailing the fees which the Administrator is considering to impose under the amendment made by subsection (a) and his proposed timetable for imposing such fees.

TITLE X—COMMITTEE ON VETERANS' AFFAIRS

SEC. 10001. SHORT TITLE; REFERENCES TO TITLE 38, UNITED STATES CODE.

(a) SHORT TITLE.—This title may be cited as the "Veterans' Compensation and Health Care Amendments of 1985".

(b) REFERENCES.—Except as otherwise expressly provided, whenever in this title an amendment or repeal is expressed in terms of an amendment to, or repeal of, a section or other provision, the reference shall be considered to be made to a section or other provision of title 38, United States Code.

Subtitle A—Compensation Rate Increases

SEC. 10011. SHORT TITLE.

This subtitle may be cited as the "Veterans' Compensation Rate Amendments of 1985".

SEC. 10012. DISABILITY COMPENSATION.

(a) IN GENERAL.—Section 314 is amended—

(1) by striking out "$66" in subsection (a) and inserting in lieu thereof "$68";

(2) by striking out "$122" in subsection (b) and inserting in lieu thereof "$127";

(3) by striking out "$185" in subsection (c) and inserting in lieu thereof "$192";

(4) by striking out "$266" in subsection (d) and inserting in lieu thereof "$276";

(5) by striking out "$376" in subsection (e) and inserting in lieu thereof "$390";

(6) by striking out "$474" in subsection (f) and inserting in lieu thereof "$492";

(7) by striking out "$598" in subsection (g) and inserting in lieu thereof "$620";

(8) by striking out "$692" in subsection (h) and inserting in lieu thereof "$718";

(9) by striking out "$779" in subsection (i) and inserting in lieu thereof "$808";

(10) by striking out "$1,295" in subsection (j) and inserting in lieu thereof "$1,343";

(11) by striking out "$1,609" and "$2,255" in subsection (k) and inserting in lieu thereof "$1,669" and "$2,338", respectively;

(12) by striking out "$1,609" in subsection (l) and inserting in lieu thereof "$1,669";

(13) by striking out "$1,774" in subsection (m) and inserting in lieu thereof "$1,840";

(14) by striking out "$2,017" in subsection (n) and inserting in lieu thereof "$2,092";

(15) by striking out "$2,255" each place it appears in subsections (o) and (p) and inserting in lieu thereof "$2,338";

(16) by striking out "$968" and "$1,442" in subsection (r) and inserting in lieu thereof "$1004" and "$1,495", respectively;

(17) by striking out "$1,449" in subsection (s) and inserting in lieu thereof "$1,503"; and

(18) by striking out "$280" in subsection (t) and inserting in lieu thereof "$290".

(b) SPECIAL RULE.—The Administrator of Veterans' Affairs may adjust administratively, consistent with the increases authorized by this section, the rates of disability compensation payable to persons within the purview of section 10 of Public Law 85-857 who are not in receipt of compensation payable pursuant to chapter 11 of title 38, United States Code.

SEC. 10013. ADDITIONAL COMPENSATION FOR DEPENDENTS.

Section 315(1) is amended—

(1) by striking out "$79" in clause (A) and inserting in lieu thereof "$82";

(2) by striking out "$132" and "$42" in clause (B) and inserting in lieu thereof "$137" and "$44", respectively;

(3) by striking out "$54" and "$42" in clause (C) and inserting in lieu thereof "$56" and "$44", respectively;

(4) by striking out "$64" in clause (D) and inserting in lieu thereof "$66";

(5) by striking out "$143" in clause (E) and inserting in lieu thereof "$148"; and

(6) by striking out "$120" in clause (F) and inserting in lieu thereof "$124".

SEC. 10014. CLOTHING ALLOWANCE FOR CERTAIN DISABLED VETERANS.

Section 362 is amended by striking out "$349" and inserting in lieu thereof "$362".

SEC. 10015. DEPENDENCY AND INDEMNITY COMPENSATION FOR SURVIVING SPOUSES.

Section 411 is amended—

(1) by striking out the table in subsection (a) and inserting in lieu thereof the following:

"Pay grade	Monthly rate	Pay grade	Monthly rate
E-1	$494	W-4	$707
E-2	508	O-1	624
E-3	521	O-2	644
E-4	555	O-3	690
E-5	569	O-4	729
E-6	582	O-5	804
E-7	611	O-6	905
E-8	644	O-7	979
E-9	[1]673	O-8	1,073
W-1	624	O-9	1,152
W-2	649	O-10	[2]1,262
W-3	668		

"[1] If the veteran served as sergeant major of the Army, senior enlisted advisor of the Navy, chief master sergeant of the Air Force, sergeant major of the Marine Corps, or master chief petty officer of the Coast Guard, at the applicable time designated by section 402 of this title, the surviving spouse's rate shall be $726.

"[2] If the veteran served as Chairman of the Joint Chiefs of Staff, Chief of Staff of the Army, Chief of Naval Operations, Chief of Staff of the Air Force, Commandant of the Marine Corps, or Commandant of the Coast Guard, at the applicable time designated by section 402 of this title, the surviving spouse's rate shall be $1,353.";

(2) by striking out "$55" in subsection (b) and inserting in lieu thereof "$57";

(3) by striking out "$143" in subsection (c) and inserting in lieu thereof "$148"; and

(4) by striking out "$70" in subsection (d) and inserting in lieu thereof "$73".

SEC. 10016. DEPENDENCY AND INDEMNITY COMPENSATION FOR CHILDREN.

Section 413 is amended—

(1) by striking out "$240" in clause (1) and inserting in lieu thereof "$249";

(2) by striking out "$345" in clause (2) and inserting in lieu thereof "$358";

(3) by striking out "$446" in clause (3) and inserting in lieu thereof "$463"; and

(4) by striking out "$446" and "$90" in clause (4) and inserting in lieu thereof "$463" and "$93", respectively.

SEC. 10017. SUPPLEMENTAL DEPENDENCY AND INDEMNITY COMPENSATION FOR CHILDREN.

Section 414 is amended—

(1) by striking out "$143" in subsection (a) and inserting in lieu thereof "$148";

(2) by striking out "$240" in subsection (b) and inserting in lieu thereof "$249"; and

(3) by striking out "$122" in subsection (c) and inserting in lieu thereof "$127".

SEC. 10018. EFFECTIVE DATE FOR RATE INCREASES.

The amendments made by this part shall take effect on December 1, 1985.

Subtitle B—Health-Care Eligibility Reform

SEC. 10021. SHORT TITLE.

This subtitle may be cited as the "Veterans' Health-Care Eligibility Reform Act of 1985".

SEC. 10022. ELIGIBILITY FOR HEALTH CARE OF VETERANS WITH NON-SERVICE-CONNECTED DISABILITIES.

(a) HOSPITAL CARE AND NURSING HOME CARE.—(1) Subsection (a) of section 610 of title 38, United States Code, is amended to read as follows:

"(a) The Administrator shall furnish hospital care which the Administrator determines is needed and may (within the limits of Veterans' Administration facilities) fur-

nish nursing home care which the Administrator determines is needed—

"(1) to any veteran for a service-connected disability;

"(2) to a veteran whose discharge or release from the active military, naval, or air service was for a disability incurred or aggravated in line of duty, for any disability;

"(3) to a veteran who is in receipt of, or but for the receipt of retirement pay would be entitled to, disability compensation, for any disability;

"(4) to a veteran who, but for a suspension pursuant to section 351 of this title (or both such a suspension and the receipt of retired pay), would be entitled to disability compensation, but only to the extent that such veteran's continuing eligibility for such care is provided for in the judgment or settlement described in such section, for any disability;

"(5) to a veteran as provided in subsection (e) of this section;

"(6) to a veteran who is a former prisoner of war, for any disability;

"(7) to a veteran of the Spanish-American war, Indian wars, Mexican border period, or World War I, for any disability;

"(8) to a veteran for a non-service-connected disability, if the veteran is unable to defray the expenses of necessary care; and

"(9) to a veteran for a non-service-connected disability if, in the case of hospital care (as well as nursing home care), the Administrator determines that the care may be provided within the limits of Veterans' Administration facilities.".

(2) Subsection (e)(1) of such section is amended by striking out "may be furnished hospital care or nursing home care" in subparagraphs (A) and (B) and inserting in lieu thereof "shall be furnished hospital care and may (within the limits of Veterans' Administration facilities) be furnished nursing home care".

(3) Such section is further amended by adding at the end the following new subsections:

"(f)(1) Except as provided in paragraph (2) of this subsection, the Administrator may not furnish hospital care or nursing home care under this section to a veteran who is eligible for such care solely because of subsection (a)(9) of this section unless the veteran agrees to pay to the United States the lesser of—

"(A) the cost of furnishing such care, as determined by the Administrator; and

"(B) the amount of the inpatient Medicare deductible in effect on the date of the veteran's admission for such care.

"(2) A veteran may not be required to make a payment under paragraph (1) of this subsection for care furnished during any 12-month period to the extent that such payment would cause the total amount paid by the veteran under such paragraph for hospital and nursing home care furnished during that period and under section 612(f)(3) of this title for medical services furnished during that period to exceed the amount of the inpatient Medicare deductible in effect for services provided during the first month of such 12-month period.

"(3) An amount collected or received by the Veterans' Administration under this subsection shall be deposited in the Treasury as a proprietary receipt.

"(4) For the purposes of this subsection, the term 'inpatient Medicare deductible' means the amount of the inpatient hospital deductible in effect under section 1813(b) of the Social Security Act (42 U.S.C. 1395e(b)).

"(g) Nothing in this section—

"(1) requires the Administrator to furnish hospital care in a facility other than a Veterans' Administration facility;

"(2) requires the Administrator to furnish care to a veteran to whom another agency of Federal, State, or local government has a duty to provide care in an institution of such government; or

"(3) restricts the Administrator's discretion to determine—

"(A) the appropriateness of furnishing medical services, therapies, or programs under this chapter; or

"(B) in what manner they will be furnished.".

(b) MEDICAL SERVICES FURNISHED ON AN OUTPATIENT OR AMBULATORY BASIS.—(1) Subsections (a) and (g) of section 612 are amended by striking ", within the limits of Veterans' Administration facilities, may" and inserting in lieu thereof "shall".

(2) Subsection (f) of such section is amended—

(A) by striking out "The Administrator, within the limits of Veterans' Administration facilities, may" and inserting in lieu thereof "(1) Except as provided in paragraph (3) of this subsection, the Administrator shall";

(B) by redesignating clause (1) as clause (A) and redesignating subclauses (A) and (B) of such clause as subclauses (i) and (ii), respectively;

(C) by redesignating clauses (2) and (3) as clauses (B) and (C), respectively;

(D) by designating the second sentence as paragraph (2);

(E) by striking out the third sentence; and

(F) by adding at the end the following:

"(3)(A) The Administrator may not furnish medical services under paragraph (1) of this subsection or home health services under paragraph (2) of this subsection to a veteran who is eligible for such care solely because of section 610(a)(9) of this title unless the veteran agrees to pay to the United States, in the case of each visit in which such medical or home health services are furnished, the amount equal to 20 percent of the estimated average cost of an outpatient visit in a Veterans' Administration facility during the fiscal year in which the services are furnished. Such estimated average cost shall be determined by the Administrator.

"(B) Subparagraph (A) of this paragraph does not apply to services furnished under paragraph (1)(A)(ii) of this subsection.

"(C) A veteran may not be required to make a payment under this paragraph for services furnished under this subsection during any 12-month period to the extent that such payment would cause the total amount paid by the veteran under this paragraph for medical services furnished during that period and under section 610(f) of this title for hospital and nursing home care furnished during that period to exceed the amount of the inpatient Medicare deductible in effect for services provided during the first month of such 12-month period.

"(D) For the purposes of this paragraph, the term 'inpatient Medicare deductible' means the amount of the inpatient hospital deductible in effect under section 1813(b) of the Social Security Act (42 U.S.C. 1395e(b)).

"(E) An amount collected or received by the Veterans' Administration under this paragraph shall be deposited in the Treasury as a proprietary receipt.".

(3) Subsection (i) of such section is repealed.

(4) Subsection (j) of such section is amended—

(A) by striking out "pursuant to" and inserting in lieu thereof "under";

(B) by striking out "(voluntarily requesting" and inserting in lieu thereof "who voluntarily request";

(C) by striking out the parenthesis after "immunizations";

(D) by striking out "facility, utilizing" and inserting in lieu thereof "facility. Any such immunization shall be made using";

(E) by striking out "Administration," and all that follows through "to provide" and inserting in lieu thereof "Administration. For such purpose, the Secretary may provide"; and

(F) by striking out "cost and the provisions of section" and inserting in lieu thereof "cost. Section".

(c) DETERMINATION OF ABILITY TO PAY.—Section 622 of such title is amended—

(1) by inserting "(a)" before "For the purposes";

(2) by striking out "610(a)(1)(B)" and inserting in lieu thereof "610(a)(8)"; and

(3) by adding at the end the following new subsection:

"(b)(1) An individual who does not qualify as having sufficient evidence of inability to defray necessary expenses by reason of subsection (a) of this section shall nevertheless be presumed to be unable to defray necessary expenses for the purpose of the sections referred to in that subsection if the individual's attributable income during the 12-month period preceding the date of the individual's application for care under one of those sections is not greater than the health-care income threshold.

"(2) Notwithstanding paragraph (1) of this subsection, the Administrator may refuse to determine that an individual is unable to defray necessary medical expenses for the purpose of the sections referred to in subsection (a) of this section if the corpus of the estate of the individual (and of the individual's spouse and dependent children, if any) is such that under all the circumstances (including consideration of the annual income of the individual and of such spouse and dependent children) it is reasonable that some part of the corpus of such estates be consumed for the individual's maintenance.

"(3) For purposes of this subsection, an individual's attributable income shall be determined in the same manner as the manner in which a determination is made of the total amount of income by which the rate of pension for such individual under section 521 of this title would be reduced if such individual were eligible for pension under that section.

"(4) For purposes of paragraph (1) of this subsection, the health-care income threshold for an individual—

"(A) in the case of an application for care made during the 12-month period beginning on December 1, 1985, is the amount equal to the product of—

"(i) 3.34, and

"(ii) the applicable current maximum annual rate of pension (as determined under paragraph (5) of this subsection); and

"(B) in the case of an application for care made during a 12-month period beginning on December 1 of a calendar year after 1985, is the amount in effect for purposes of this paragraph during the previous 12-month period increased by the percentage by which benefits have been increased under section 3112(a) of this title during that period.

"(5) For purposes of paragraph (4)(A)(ii) of this subsection, the current maximum annual rate of pension for a veteran is—

"(A) the amount in effect under section 521(b) in the case of a veteran who is unmarried (or married but not living with or reasonably contributing to the support of such veteran's spouse) and there is no child of the veteran in the custody of the veteran or to whose support the veteran is reasonably contributing; and

"(B) the amount in effect under section 521(c), in the case of a veteran who is married and living with or reasonably contributing to the support of such veteran's spouse or if there is a child of the veteran in the veteran's custody or to whose support the veteran is reasonably contributing.".

(d) CONFORMING AMENDMENTS.—(1) Section 525(a) is amended by striking out "and special priority with respect to such care and services under section 612(i)(5) of this title".

(2) Section 601 is amended—

(A) in paragraph (4)(C)(ii) by striking out "in clause (1)(b) or (2) of the first sentence, or in the third sentence," and inserting in lieu thereof "in paragraph (1)(A)(ii), (1)(B), or (1)(C)";

(B) in paragraph (6)(A)(i) by striking out "section 612(f)(1)(A)" and inserting in lieu thereof "section 612(f)(1)(A)(i)"; and

(C) in paragraph (6)(B)(ii) by striking out "section 612(f)(1)(B)" and inserting in lieu thereof "section 612(f)(1)(A)(ii)".

(3) Section 612A is amended—

(A) by striking out "clause (1)(b)" in subsection (b)(1) and inserting in lieu thereof "paragraph (1)(A)(ii)"; and

(B) by striking out "612(f)(2)" in subsection (e)(1) and inserting in lieu thereof "612(f)(1)(B)".

(4) Section 618(e) is repealed.

(5) Section 620(f)(1)(A)(ii) is amended by striking out "612(f)(2)" and inserting in lieu thereof "612(f)(1)(B)".

(6) Section 663(a)(1) is amended by striking out "612(f)(2)" both places it appears and inserting in lieu thereof "612(f)(1)(B)".

(e) EFFECTIVE DATE.—(1) Except as provided in paragraph (2), the amendments made by this section shall apply to hospital care, nursing home care, and medical services furnished after the end of the 60-day period beginning on the date of the enactment of this Act.

(2) The provisions of sections 610 and 622 of title 38, United States Code, as in effect on the day before the date of the enactment of this Act, shall apply with respect to hospital and nursing home care and medical services furnished after the end of such 60-day period to veterans who were furnished such care or services on the day before the end of such period, but only to the extent that such care or service is furnished with respect to the same spell of illness for which it was furnished on such day as determined by the Administrator.

(f) SUNSET PROVISION.—The amendments made by this section shall expire on October 1, 1988.

SEC. 10023. RECOVERY OF THE COST OF CERTAIN CARE AND SERVICES.

(a) IN GENERAL.—Section 629 of title 38, United States Code, is amended to read as follows:

"§ 629. Recovery by the United States of the cost of certain care and services

"(a)(1) In any case in which a veteran is furnished care or services under this chapter for a disability described in paragraph (2) of this subsection, the United States has the right to recover or collect the reasonable costs of such care or services (as determined by the Administrator under subsection (d)(2)) from a third party to the extent that the veteran (or the provider of the care or services) would be eligible to receive reimbursement or indemnification for such care or services from such third party if the care or services had not been furnished by a department or agency of the United States.

"(2) Paragraph (1) of this subsection applies to a non-service-connected disability—

"(A) that is incurred incident to the veterans' employment and that is covered under a workers' compensation law or plan that provides reimbursement for or indemnification of the cost of health care and services provided to the veteran by reason of the disability;

"(B) that is incurred as the result of a motor vehicle accident to which applies a State law that requires the owners or operators of motor vehicles registered in that State to have in force automobile accident reparations insurance;

"(C) that is incurred as the result of a crime of personal violence that occurred in a State, or a political subdivision of a State, in which a person injured as the result of such a crime is entitled to receive health care and services at such State's or subdivision's expense for personal injuries suffered as the result of such crime; or

"(D) that is incurred by a veteran who—

"(i) does not have a service-connected disability; and

"(ii) is entitled to care (or reimbursement for the expenses of care) under an insurance policy, contract, medical, or hospital service agreement, membership, or subscription contract, or similar arrangement for the purpose of providing, paying for, or reimbursing expenses for health services.

"(b)(1) With respect to the right provided in subsection (a) of this section, the United States shall be subrogated to any right or claim that the veteran (or the veteran's personal representative, successor, dependents, or survivors) may have against a third party.

"(2)(A) In order to enforce any right or claim to which it is subrogated under paragraph (1) of this subsection, the United States may intervene or join in any action or proceeding brought by the veteran (or the veteran's personal representative, successor, dependents, or survivors) against a third party.

"(B) The United States may institute and prosecute legal proceedings against the third party if—

"(i) an action or proceeding described in subparagraph (A) of this paragraph is not begun within 180 days after the first day on which care and services for which recovery is sought are furnished to the veteran by the Veterans' Administration under this chapter;

"(ii) the United States sends written notice by certified mail to the veteran at the veteran's last-known address (or to the veteran's personal representative or successor) of the intention of the United States to institute such legal proceedings; and

"(iii) a period of 60 days has passed following the mailing of such notice.

"(c) The Administrator may compromise, settle, or waive a claim of the United States under this section.

"(d)(1) The Administrator may enter into contracts or agreements with individuals or organizations for services to recover or collect amounts due the United States under this section. Notwithstanding section 3302(b) of title 31, such a contract or agreement may provide that a fee an individual or organization charges to recover or collect amounts due the United States is payable from the amount recovered or collected. Any such contract or agreement shall provide that—

"(A) the Administrator retains the authority to—

"(i) resolve a dispute;

"(ii) compromise a claim;

"(iii) end collection action; and

"(iv) refer a matter to the Attorney General to bring a civil action; and

"(B) with respect to any such recovery or collection, the individual or organization is subject to—

"(i) section 552a(m) of title 5 and sections 3301 and 4132 of this title; and

"(ii) laws and regulations of the United States and of the States related to collection practices.

"(2) The amount that may be recovered by the United States under subsection (a) of this section may not exceed the lesser of—

"(A) an amount equal to the reasonable cost of the care and services furnished the veteran under this chapter, as determined by the Administrator; or

"(B) the maximum amount specified (as applicable)—

"(i) by the law of the State or political subdivision concerned; or

"(ii) by any relevant contractual provision to which the veteran was a party or was subject.

"(3) For the purpose of determining the reasonable cost of care and services under subsection (a)(1) of this section and paragraph (2)(A) of this subsection, the Administrator—

"(A) shall prescribe regulations; and

"(B) may enter into agreements with insurance, medical service, and health-plan carriers and contractors.

"(4) Regulations prescribed under paragraph (3) of this subsection shall be prescribed only after notice and opportunity for public comment.

"(5) A determination for the purposes of this subsection of the reasonable cost of care and services furnished a veteran under this chapter shall be made in accordance with regulations prescribed and agreements entered into under paragraph (3) of this subsection.

"(e) A veteran eligible for care or services under this chapter may not be denied such care or services by reason of this section.

"(f) No law of any State or of any political subdivision of a State, and no provision of any contract or other agreement entered into, renewed, or modified (including any modifications of premiums or coverage) after the date of the enactment of the Veterans' Health-Care Eligibility Reform Act of 1985, shall operate to prevent recovery or collection by the United States under this section or with respect to care or services furnished under section 611(b) of this title.

"(g) Any moneys collected or received by the Veterans' Administration under this section shall be deposited in the Treasury as a proprietary receipt.

"(h) The Administrator shall make available clinical records of the Veterans' Administration for a veteran who is a beneficiary of any kind of policy, contract, agreement, or other arrangement which is referred to in subsection (a)(2)(D) of this section and with respect to which recovery or collection is sought under this section for inspection and review by the parties to such policy, contract, agreement, or other arrangement for the sole purpose of permitting such parties

verify that services for which recovery or collection is sought were furnished.

"(i)(1) For purposes of this section, the term 'third party' means—

"(A) a State or political subdivision of a State;

"(B) an employer or an employer's insurance carrier;

"(C) an automobile accident reparations insurance carrier;

"(D) an insurance, medical service, or health plan carrier; or

"(E) a contractor.

"(2) Such term does not include—

"(A) the insurance programs under parts A and B of title XVIII of the Social Security Act; or

"(B) a State plan for medical assistance approved under title XIX of such Act.".

(b) EFFECTIVE DATE.—(1) The amendments made by this section shall apply to care and services provided on or after the date of the enactment of this Act, but shall not affect any policy, contract, agreement, or other arrangement referred to in section 629(a)(2)(D) of title 38, United States Code, as amended by subsection (a), that was entered into before such date and is not modified or renewed on or after such date.

(2) For purposes of paragraph (1), the term "modified" includes any change in premiums or coverage.

SEC. 10024. ACCEPTANCE OF VA BENEFICIARIES BY PROVIDERS WHO ACCEPT MEDICARE BENEFICIARIES.

(a) IN GENERAL.—Chapter 17 is amended by inserting after section 624 the following new section:

"§ 625. Requirement that providers accept Medicare and Veterans' Administration beneficiaries on similar basis and accept Veterans' Administration payments as payments in full

"(a) A non-Federal provider of hospital services to any Medicare beneficiary—

"(1) must accept Veterans' Administration beneficiaries on a similar basis; and

"(2) must accept payments made by the Administrator in accordance with Veterans' Administration regulations as payments in full.

"(b) Upon a finding by the Administrator, made in accordance with procedures developed in consultation with the Secretary of Health and Human Services, that a Medicare provider has failed to comply with subsection (a) of this section, the Administrator shall report such finding to the Secretary for possible corrective action or for possible termination of the provider's agreement with the Secretary entered into under the Social Security Act (42 U.S.C. 1395cc(a)). Thereafter, in addition to the bases for termination set forth in such Act, the Secretary may terminate such agreement with the provider if the Secretary determines that the provider has failed to comply with this section.

"(c) For purposes of this section, the term 'Veterans' Administration beneficiaries' means all veterans and other persons for whose hospital care outside Federal facilities the Administrator is authorized to pay.".

(b) CLERICAL AMENDMENT.—The table of sections at the beginning of such chapter is amended by inserting after the item relating to section 624 the following new item:

"625. Requirement that providers accept Medicare and Veterans' Administration beneficiaries on similar basis and accept Veterans' Administration payments as payments in full.".

SEC. 10025. REPORT.

(a) REPORT ON PROVISION OF HEALTH CARE.—The Administrator of Veterans' Affairs shall submit to the Committees on Veterans' Affairs of the Senate and House of Representatives a report describing in detail—

(1) the number of veterans receiving health care from the Veterans' Administration during the report period;

(2) the number of veterans applying for health care from the Veterans' Administration during the report period who did not receive such care; and

(3) the reasons why veterans who applied for such care did not receive such care.

(b) DEADLINE FOR REPORT.—The report shall be submitted not later than 30 days after the end of the report period.

(c) REPORT PERIOD.—For the purposes of this section, the term "report period" means the 12-month period beginning on the effective date of the amendments made by section 202.

Subtitle C—Miscellaneous

SEC. 10031. ADVISORY COMMITTEE ON AMERICAN INDIAN VETERANS.

(a) ESTABLISHMENT OF COMMITTEE.—The Administrator of Veterans' Affairs shall establish, by January 15, 1986, an advisory committee to be known as the Advisory Committee on American Indian Veterans (hereinafter in this section referred to as the "Committee").

(b) DUTIES.—The Committee shall examine and evaluate programs and other activities of the Veterans' Administration with respect to the needs of American Indian veterans. Such examination and evaluation shall include—

(1) an assessment of the needs of such veterans with respect to health care, rehabilitation, outreach, and other programs administered by the Veterans' Administration; and

(2) a review of the manner in which and the extent to which the programs and other activities of the Veterans' Administration meet such needs.

(c) MEMBERS.— The Committee shall consist of—

(1) the Secretary of Labor (or a representative of the Secretary of Labor designated by the Secretary after consultation with the Assistant Secretary of Labor for Veterans' Employment);

(2) the Chief Medical Director and Chief Benefits Director of the Veterans' Administration; and

(3) members appointed by the Administrator from the general public, including—

(A) representatives of American Indian veterans, including such veterans with service-connected disabilities; and

(B) individuals who are recognized authorities in fields pertinent to the needs of such veterans, including specific health care needs of such veterans and the delivery of health care services by the Veterans' Administration to such veterans.

(d) PARTICIPATION BY OTHER AGENCIES.—The Administrator may invite representatives of other departments and agencies of the Federal Government to participate in the meetings and other activities of the Committee.

(e) EXPENSES.—The members of the Committee appointed by the Administrator shall be paid for reasonable and necessary expenses, as determined by the Administrator, incurred in carrying out the duties of the Committee.

(f) REPORTS.—(1) Not later than November 1, 1986, and not later than November 1, 1987, the Committee shall transmit to the Administrator a report on the matters described in paragraphs (1) and (2) of subsection (b) that were examined and evaluated by the Committee during fiscal year 1986 in the case of the first report and during fiscal year 1987 in the case of the second report.

(2) Within 60 days after receiving each such report, the Administrator shall transmit to the Congress a copy of the report, together with any comments concerning the report that the Administrator considers appropriate.

(g) TERMINATION.—The Committee shall terminate on the date on which the second report is transmitted by the Committee pursuant to subsection (f)(1).

SEC. 10032. AGENT ORANGE STUDY FOR FEMALE VETERANS.

(a) REQUIREMENT FOR EPIDEMIOLOGICAL STUDY.—(1) The Administrator of Veterans' Affairs shall provide for the conduct of an epidemiological study of any long-term adverse gender-specific health effects in females of service in the Armed Forces of the United States in the Republic of Vietnam during the period of the Vietnam conflict as such health effects may result from exposure to—

(A) phenoxy herbicides (including the herbicide known as Agent Orange); and

(B) the class of chemicals known as the dioxins produced during the manufacture of such herbicides.

(2) In providing for such study, the Administrator may expand the scope of the study to include an evaluation of any long-term adverse gender-specific health effects in females of such service as such health effects may result from other factors involved in such service (including exposure to other herbicides, chemicals, medications, or environmental hazards or conditions).

(3) The Administrator may also include in the study an evaluation of the means of detecting and treating adverse gender-specific health effects found through the study.

(4) The Administrator shall provide for the study to be conducted through contracts or agreements with public or private agencies or persons.

(b) FUNCTIONS OF OFFICE OF TECHNOLOGY ASSESSMENT.—(1) The study required by subsection (a) shall be conducted in accordance with a protocol approved by the Director of the Office of Technology Assessment.

(2) The Director shall monitor the conduct of such study in order to assure compliance with such protocol.

(3)(A) Concurrent with the approval or disapproval of any protocol under paragraph (1), the Director shall submit to the appropriate committees of Congress a report—

(i) explaining the basis for the Director's action in approving or disapproving the protocol; and

(ii) providing the Director's conclusions regarding the scientific validity and objectivity of the protocol.

(B) If the Director has not approved such a protocol during the 180 days following the date of the enactment of this Act, the Director—

(i) shall submit to the appropriate committees of Congress a report describing the reasons why the Director has not given such approval; and

(ii) shall submit to such committees an update report on such initial report each 60 days thereafter until such a protocol is approved.

(4) The Director shall submit to the appropriate committees of Congress, at each of the times specified in the second sentence of this paragraph, a report on the Director's monitoring of the conduct of such study pursuant to paragraph (2). A report under the preceding sentence shall be submitted—

(A) before the end of the six-month period beginning on the date of the approval of the protocol by the Director;

(B) before the end of the 12-month period beginning on such date; and

(C) annually thereafter until the study is completed or terminated.

(c) DURATION OF STUDY.—The study conducted pursuant to subsection (a) shall be continued for as long after the submission of the first report under subsection (d)(1) as the Administrator may determine reasonable in light of the possibility of developing through such study significant new information on the long-term gender-specific adverse health effects in females of exposure to dioxins.

(d) REPORTS TO CONGRESS.—(1) Not later than 24 months after the date of the approval of the protocol pursuant to subsection (b)(1) and annually thereafter, the Administrator shall submit to the appropriate committees of Congress a report containing—

(A) a description of the results thus far obtained under the study conducted pursuant to such subsection; and

(B) such comments and recommendations for administrative or legislative action, or both, as the Administrator considers appropriate in light of such results.

(2) Not later than 90 days after the submission of each report under paragraph (1), the Administrator shall publish in the Federal Register, for public review and comment, a description of any action that the Administrator proposes to take with respect to programs administered by the Veterans' Administration. Each such description shall include a justification or rationale for any such action the Administrator proposes to take. Any such proposal shall be based on the results described in the report under paragraph (1) and the comments and recommendations on that report and any other available pertinent information.

(3) The requirement in paragraph (1) for the submission of annual reports expires upon the submission of a report after the completion of the study under subsection (a).

(e) BUDGET ACT PROVISIONS.—(1) This section does not authorize the enactment of new budget authority for a fiscal year before fiscal year 1987.

(2) A contract to carry out the study under subsection (a) may be entered into only to the extent that—

(A) appropriated funds are available to carry out the contract; or

(B) the contract provides that the obligation of the United States to make payments under the contract is contingent upon the availability of appropriated funds for such payments.

(f) DEFINITION.—For the purposes of this section, the term "gender-specific health effects in females" includes effects on female reproductive capacity, reproductive organs, and reproductive outcomes, effects on female-specific organs and tissues, and other effects unique to the physiology of females.

The CHAIRMAN. No amendments to the bill are in order except the following amendments which shall not be subject to amendment:

First, a motion, if offered by Representative FAZIO to strike subtitle B of title VIII, which shall be debatable for 30 minutes to be equally divided and controlled by Representative FAZIO and a Member opposed thereto;

Second, an amendment printed in the CONGRESSIONAL RECORD of October 17, 1985, by, and if offered by, Representative LATTA, as modified by the unanimous-consent order of the House of today, which shall be debatable for 1 hour, to be equally divided and controlled by Representative LATTA and a Member opposed thereto; and

Third, an amendment printed in the CONGRESSIONAL RECORD of October 17, 1985, by, and if offered by, Representative FLORIO, which shall be debatable for 30 minutes, to be equally divided and controlled by Representative FLORIO and a Member opposed thereto.

PARLIAMENTARY INQUIRY

Mr. YATES. Mr. Chairman, I have a parliamentary inquiry.

The CHAIRMAN. The gentleman will state his parliamentary inquiry.

Mr. YATES. Mr. Chairman, is it in order at this point to make a point of order to the pending bill?

The CHAIRMAN. It is in order.

POINT OF ORDER

Mr. YATES. Mr. Chairman, I make a point of order against section 4110 of the bill, beginning on page 379, line 20 through page 380, line 17. This section contains the following language: "$500,000,000, which is hereby appropriated to the Secretary of Energy for carrying out Part B of title I of the Energy Security Act, as amended by this subtitle;".

Mr. Chairman, this language is clearly an appropriation, and since this bill was reported by a committee not having jurisdiction to report appropriations, the section is in violation of clause 5(a) of rule XXI of the House of Representatives.

The rule states that "No bill or joint resolution carrying appropriations shall be reported by any committee not having jurisdiction to report appropriations, * * *". The language in question was a recommendation of the Committee on Energy and Commerce, which was included in this omnibus reconciliation bill by the Committee on the Budget, without change, pursuant to reconciliation procedures. Since neither committee has jurisdiction to report appropriations, in my opinion, the language violates rule XXI, clause 5(a).

I make this point of order.

The CHAIRMAN. The Chair will entertain the gentleman's point of order.

Does anyone desire to be heard on the point of order?

If not, the Chair will sustain the gentleman's point of order.

Mr. YATES. I thank the Chair.

The CHAIRMAN. The section is stricken.

AMENDMENT OFFERED BY MR. LATTA

Mr. LATTA. Mr. Chairman, I offer an amendment.

The Clerk read as follows:

Amendment offered by Mr. LATTA: Strike out title II (page 5, line 7, through page 231, line 22) and insert in lieu thereof the following:

TITLE II—COMMITTEE ON BANKING, FINANCE AND URBAN AFFAIRS

SEC. 2001. SHORT TITLE.

This title may be cited as the "Housing and Community Development Reconciliation Act of 1985".

SEC. 2002. COMMUNITY DEVELOPMENT BLOCK GRANT LOAN GUARANTEE PROGRAM MORATORIUM

Section 108(a) of the Housing and Community Development Act of 1974 is amended by striking out the last sentence and inserting in lieu thereof the following: "The Secretary may not enter into any commitment to guarantee a note or obligation under this section during fiscal year 1986.".

SEC. 2003. CANCELLATION OF OUTSTANDING PUBLIC HOUSING DEVELOPMENT LOANS AND OBLIGATIONS.

Section 4 of the United States Housing Act of 1937 is amended by adding at the end thereof the following new subsection:

"(c)(1) At such times as the Secretary may determine, and in accordance with such accounting and other procedures as the Secretary may prescribe, each loan made by the Secretary under subsection (a) that has any principal amount outstanding or any interest amount outstanding or accrued shall be forgiven; and the terms and conditions of any contract, or any amendment to a contract, for such loan with respect to any promise to repay such principal and interest shall be canceled. Such cancellation shall not affect any other terms and conditions of such contract, which shall remain in effect as if the cancellation had not occurred. This paragraph shall not apply to any loan the repayment of which was not to be made using annual contributions, or to any loan all or part of the proceeds of which are due a public housing agency from contractors or others.

"(2)(A) On the date of the enactment of the Housing and Community Development Reconciliation Act of 1985, each note or other obligation issued by the Secretary to the Secretary of the Treasury pursuant to subsection (b), together with any promise to repay the principal and unpaid interest that has accrued on each obligation, shall be forgiven; and any other term or condition specified by each such obligation shall be cancelled.

"(B) On September 30, 1986, and on any subsequent September 30, each such note or other obligation issued by the Secretary pursuant to subsection (b) during the fiscal year ending on such date, together with any such promise to repay, shall be forgiven; and any other term or condition specified by each such obligation shall be canceled.".

SEC. 2004. PUBLIC HOUSING OPERATING SUBSIDIES.

Section 9(c) of the United States Housing Act of 1937 is amended to read as follows:

"(c) There is authorized to be appropriated to carry out the provisions of this section $1,279,000,000 for fiscal year 1986.".

SEC. 2005. RURAL HOUSING PROGRAM AUTHORIZATIONS.

(a) INSURANCE AND GUARANTEE AUTHORITY.—Section 513(a)(1) of the Housing Act of 1949 is amended to read follows:

"(a)(1) The Secretary may, to the extent approved in appropriation Acts, insure and guarantee loans under this title during fiscal year 1986 in an aggregate amount not to exceed $2,266,000,000 as follows:

"(A) for insured or guaranteed loans under section 502 on behalf of borrowers receiving assistance under section 521(a)(1), $1,328,000,000;

"(B) for loans under section 504, $17,000,000;

"(C) for insured loans under section 514, $20,000,000;

"(D) for insured loans under section 515, $900,000,000; and

"(E) for site loans under section 524, $1,000,000.".

(b) RENTAL ASSISTANCE PAYMENT CONTRACTS.—Section 513(c) of the Housing Act of 1949 is amended to read as follows:

"(c) The Secretary, to the extent approved in appropriation Acts for fiscal year 1986, may enter into rental assistance payment contracts under section 521(a)(2)(A) aggregating $198,000,000. Such authority as is approved in appropriation Acts shall be used by the Secretary to renew rental assistance payment contracts that expire during such fiscal year and to make additional rental assistance payment contracts for existing or newly constructed dewelling units.".

SEC. 2006. MANAGEMENT OF INSURED AND GUARANTEED RURAL HOUSING LOANS.

(a) SALE OF INSURED AND GUARANTEED LOANS TO PUBLIC.—Section 517(c) of the Housing Act of 1949 is amended by adding at the end thereof the following new sentence: "Any loan made and sold by the Secretary under this section after the date of the enactment of the Housing and Community Development Reconciliation Act of 1985 (and any loan made by other lenders under this title that is insured or guaranteed in accordance with this section, is purchased by the Secretary, and is sold by the Secretary under this section after such date) shall be sold to the public and may not be sold to the Federal Financing Bank, unless such sale to the Federal Financing Bank is required to service transactions under this title between the Secretary and the Federal Financing Bank occurring on or before such date.".

(b) INTEREST SUBSIDY ON INSURED AND GUARANTEED LOANS OFFERED FOR SALE TO PUBLIC.—Section 517(d) of the Housing Act of 1949 is amended—

(1) by inserting "(1)" after the subsection designation; and

(2) by adding at the end thereof the following new paragraph:

"(2) Each loan made by the Secretary or other lenders under this title that is insured or guaranteed in accordance with this subsection shall, when offered for sale to the public, be accompanied by an agreement by the Secretary to pay to the holder of such loan (through an agreement to purchase such loan or through such other means as the Secretary determines to be appropriate) the difference between the rate of interest paid by the borrower of such loan and the market rate of interest (as determined by the Secretary) on obligations having comparable periods to maturity on the date of such sale.".

(c) PROTECTION OF BORROWERS UNDER LOANS SOLD TO PUBLIC.—Section 517(d) of the Housing Act of 1949, as amended by subsection (b) of this section, is amended by adding at the end thereof the folowing new paragraph:

"(3) Each loan made by the Secretary or other lenders under this title that is insured or guaranteed in accordance with this subsection shall, when offered for sale to the public, be accompanied by agreements for the benefit of the borrower under the loan that provide that—

"(A) the purchaser or any assignee of the loan shall not diminish any substantive or procedural right of the borrower arising under this title;

"(B) upon any default of the borrower, the loan shall be assigned to the Secretary for the purpose of avoiding foreclosure; and

"(C) following any assignment under subparagraph (B) and before commencing any action to foreclose or otherwise dispossess the borrower, the Secretary shall afford the borrower all substantive and procedural rights arising under this title, including consideration for interest subsidy, moratorium, reamortization, refinancing, and appeal of any adverse decision to an impartial officer.".

Page 437, line 8, through page 451, line 10, strike out subtitle E.

Page 460, line 17, through page 462, line 4, strike out section 6606.

Page 465, strike line 3, and all that follows thereafter through page 468, line 25, and insert in lieu thereof the following:

SEC. 7101. PAY ADJUSTMENTS.

(a) FISCAL YEAR 1986.—(1) The rates of pay under the General Schedule and the rates of pay under the other statutory pay systems referred to in section 5301(c) of title 5, United States Code, shall not be adjusted under section 5305 of such title during fiscal year 1986.

(2) Notwithstanding any other provision of law, the wage schedules and rates of pay for prevailing rate employees described in section 5342(a)(2) of title 5, United States Code (including employees covered under section 9(b) of Public Law 92-392 (86 Stat. 574; 5 U.S.C. 5342 note) and section 704(b) of Public Law 95-454 (92 Stat. 1218; 5 U.S.C. 5343 note)), and for officers and members of crews of vessels shall not be increased under the provisions of subchapter IV of chapter 53 of title 5, United States Code, or any other applicable provision of law as a result of a wage survey or negotiation during fiscal year 1986, except to the extent permitted by section 616(a)(2) of the conference report on H.R. 5798, agreed to by the House of Representatives on September 12, 1984, as contained in House Report 98-993 (referred to in Public Law 98-473, 98 Stat. 1963).

(b) REDUCTIONS FOR FISCAL YEARS 1987 AND 1988.—(1) For fiscal years 1987 and 1988, the President shall provide for the adjustment of rates of pay under section 5305 of title 5, United States Code, as appropriate to reduce outlays, relating to pay of officers and employees of the Federal Government, by at least $746,000,000 in fiscal year 1987 and $1,264,000,000 in fiscal year 1988 (without regard to reductions in outlays which result by reason of subsections (a), (c), and (d) of this section and the application of section 1009 of title 37, United States Code), computed using the baseline used for the First Concurrent Resolution on the Budget for Fiscal Year 1986 (S. Con. Res. 32, 99th Congress, 1st Session), agreed to on August 1, 1985.

(2) Paragraph (1) shall not be construed to suspend the requirements of section 5305 of title 5, United States Code, with respect to fiscal years 1987 and 1988.

(c) 90-DAY DELAY IN PAY INCREASES FOR PREVAILING RATE EMPLOYEES.—Notwithstanding any other provision of law, any adjustment in a wage schedule or rate of pay that—

(1) applies to—

(A) a prevailing rate employee described in section 5342(a)(2) of title 5, United States Code, including employees covered under section 9(b) of Public Law 92-392 (86 Stat. 574; 5 U.S.C. 5342 note) and section 704(b) of Public Law 95-454 (92 Stat. 1218; 5 U.S.C. 5343 note), or

(B) to an employee covered by section 5348 of such title,

(2) results from a wage survey or negotiation, and

(3) would take effect, but for this subsection, on or after October 1, 1986,

shall not take effect until the first day of the first applicable pay period beginning not less than 90 days after the day on which such adjustment would, but for this subsection, otherwise have taken effect. The Office of Personnel Management shall take such actions as may be necessary to carry out this subsection.

(d) NEW EFFECTIVE DATE FOR PAY ADJUSTMENTS UNDER STATUTORY PAY SYSTEMS.—(1) Section 5305 of title 5, United States Code, is amended—

(A) in subsection (a)(2), by striking out "October 1 of the applicable year" and inserting in lieu thereof "January 1 of the next year after the date the report is submitted to the President";

(B) in subsection (c)(2), by striking out "October 1 of the applicable year" and inseting in lieu thereof "January 1 of the next year after the year in which the alternative plan is transmitted to the Congress"; and

(C) in subsection (m), by striking out "October 1" and inserting in lieu thereof "the applicable January 1".

Mr. LATTA (during the reading). Mr. Chairman, I ask unanimous consent that the amendment be considered as read and printed in the RECORD.

The CHAIRMAN. Is there objection to the request of the gentleman from Ohio?

There was no objection.

The CHAIRMAN. Pursuant to House Resolution 296, the gentleman from Ohio [Mr. LATTA] will be recog-

nized for 30 minutes, and a Member opposed will be recognized for 30 minutes.

Is the gentleman from South Carolina [Mr. DERRICK] opposed?

Mr. DERRICK. I am opposed, Mr. Chairman.

The CHAIRMAN. The gentleman from South Carolina [Mr. DERRICK] will be recognized for 30 minutes.

The Chair now recognizes the gentleman from Ohio [Mr. LATTA].

Mr. LATTA. Mr. Chairman, I yield 5 minutes to the gentleman from Ohio [Mr. WYLIE].

□ 1130

Mr. WYLIE. Mr. Chairman, I support the Latta amendment because according to OMB, Mr. LATTA would save some $4.5 billion, but I will limit my remarks to the impact of the amendment on title II of H.R. 3500, which is the Banking Committee title.

From the standpoint of fiscal responsibility and the size of the Government, the amendment is right on target. It would strike all newly authorized programs and all increases in existing programs over last year's baseline. In title II this would amount to $574 million in savings.

In committee this year I opposed authorizing new programs in the Housing Authorization Act. I believe it is the wrong time to bring on live new programs unless a strong case can be made for them and that should be done with full debate. I feel even stronger about authorizing new spending in what is supposed to be a deficit reducing bill. We are either going to freeze programs or we are not.

Even if these savings were not present in the Latta amendment, I would support the gentleman from Ohio's amendment because it strips nongermane legislative language from the reconciliation bill. We don't have just a little nongermane language in title II—we have over 200 pages of it. Mr. Chairman, what we have in title II is H.R. 1, the $20.565 billion housing authorization bill.

Furthermore, this is a title that hasn't been approved by any committee. It was approved by a party caucus of 30 Members. And now having disenfranchised 19 members of the Banking Committee, they are attempting to disenfranchise the rest of the House by sheltering the provisions in a reconciliation bill.

I suspect few Members know exactly what is contained in the 146 additional sections that the Banking Committee added to title II. It would take a while to explain, more time than I could every command during this debate. During committee consideration, it took the professional staff 3 days just to explain the staff's proposal to the Members.

Suffice it to say, Mr. Chairman, that there are many controversial items contained in title II. The UDAG selection criteria is changed. The Home Mortgage Disclosure Act is made permanent and expanded. There are mandated changes in FHA processing that the Department of Housing and Urban Development believes will make it difficult for them to deliver their product without hiring many new employees. I could go on and on, and I haven't even mentioned the implications of the new programs. Not how much they cost, just how and where they may operate.

Mr. Chairman, I would like to see a housing bill this year. I am afraid that unless the Latta amendment is adopted we will not have one. Title II and the other nongermane provisions in H.R. 3500 are going to face heavy opposition in conference. The chairman of the Senate Banking Committee has termed such substantive legislative provisions as being simply not acceptable.

Mr. Chairman, H.R. 3500 has merit. It is burdened by title II. This title hasn't been approved by any committee. The Members don't know what is in it, look at the size of it—outlined in red. Let's get rid of title II and get on with the business of reconciliation. Approve the Latta amendment.

Mr. BARTLETT. Will the gentleman yield?

Mr. WYLIE. I yield to the gentleman from Texas.

Mr. BARTLETT. I commend the gentleman for his statement and for his diligence since January 3, since the Housing Subcommittee and the Banking Committee have been working on H.R. 1.

What I hear the gentleman saying is, the only way to pass a housing bill, a housing bill with any semblance of reform, is to bring it to the House floor in its regular order, and the gentleman supports that; he said he did. We support that on our side.

I think what the gentleman is saying is, bring a housing bill onto this floor, let the legislative process work. As I understand, the chairman of the committee in the other body has just this week indicated to you and to the chairman of our committee [Mr. ST GERMAIN] that he would then in regular order consider a housing bill in that body also, and go to conference.

Mr. WYLIE. He has said in a letter to the chairman of the full committee and to myself, that is Senator GARN, in the other body, has said he will not consider H.R. 1 or title II in conference in H.R. 3500 if there is any way to avoid it.

On the other hand, under regular procedure, where the provisions of this bill could be debated, he would take it up timely in the other body.

The CHAIRMAN. The time of the gentleman from Ohio has expired.

Mr. LATTA. Mr. Chairman, I yield 2½ additional minutes to the gentleman from Ohio [Mr. WYLIE].

Mr. WYLIE. So I think the gentleman is making a very valid point, but there are numerous programs in here in which the funding has been changed and a few provisions which were not in the original bill, even as it was reported from the House Banking Committee.

I just think that the Members, all 435 of them—not just 30 members from the Democratic caucus—deserve an opportunity.

Mr. BARTLETT. Will the gentleman yield?

Mr. WYLIE. I would be glad to yield to the gentleman.

Mr. BARTLETT. I thank the gentleman for yielding.

Mr. Chairman, the gentleman is saying that the other body has indicated that in the reconciliation they will not consider it because they should not, but as freestanding legislation, they will; and that is what the gentleman is saying.

If the gentleman would further yield, I think the House needs to know there is a budget issue; and that is while, as I understand H.R. 1 and H.R. 3500, it is within the budget for the first year but it is above budget outlays for fiscal year 1987 and fiscal year 1988.

It seems to me that when it comes to the House floor under regular order, with amendments being in order, then the House would want to reduce those budget outlays.

Mr. ST GERMAIN. Will the gentleman yield?

Mr. WYLIE. I would be glad to yield to the chairman of the full committee.

Mr. ST GERMAIN. Would my distinguished ranking minority member kindly tell me one program added to this legislation that was not in the legislation reported from the Banking Committee?

Mr. WYLIE. There were some modifications, Mr. Chairman, made to bring it in the cap for fiscal year 1986.

Mr. ST GERMAIN. Are you talking about the numbers, sir?

Mr. WYLIE. In the outyears, there are about $574 million——

Mr. ST GERMAIN. Excuse me. You said——

Mr. WYLIE. Well, I am talking about numbers, but I am also talking about some legislative language.

Mr. ST GERMAIN. If the gentleman would yield?

Which programs were added?

Mr. WYLIE. I will get into that a little later.

Mr. LATTA. If the gentleman will yield for one question.

Mr. WYLIE. Yes, of course.

Mr. LATTA. What is actually happening here, if we do not adopt the Latta amendment, is that the very voluminous bill that you have in your hands could become or could pass this House without the House ever know-

ing, No. 1, what is in it; No. 2, having an opportunity to amend it.

Is that true?

Mr. WYLIE. That is the real point to be made here, and I appreciate the gentleman from Ohio [Mr. LATTA] making the point.

This is title II to H.R. 3500. All 227 pages of it, and I would like to make the point again that I think the Members of the House would like to have full and fair debate on a title of this magnitude.

Also, in the outyears, in fiscal year 1987 and 1988, according to CBO, it does increase the budget deficit by $300 million. I will be glad to list those programs a little later on; I will list them for the record.

Mr. SCHUMER. Will the gentleman yield?

Mr. WYLIE. I will be glad to yield.

Mr. SCHUMER. I thank my good friend, the gentleman from Ohio, and would simply ask the gentleman, is he aware of a letter sent by the Congressional Budget Office which says that we are below budget on this?

Mr. WYLIE. I am aware of that, and we analyzed it last night, and we think that it is $300 million over the outyears, but that is another subject for debate before the full House.

Mr. SCHUMER. I appreciate the gentleman yielding.

Mr. GRAY of Pennsylvania. Mr. Chairman, I yield 15 minutes to the distinguished chairman of the Committee on Banking, Finance and Urban Affairs, the gentleman from Rhode Island [Mr. ST GERMAIN], and ask unanimous consent that he be permitted to yield time.

The CHAIRMAN. Is the Chair to understand that the gentleman is opposed to the amendment?

Mr. ST GERMAIN. Yes, indeed, Mr. Chairman.

The CHAIRMAN. Is there objection to the request of the gentleman from Pennsylvania?

There was no objection.

Mr. ST GERMAIN. Mr. Chairman, I yield myself such time as I may utilize, and then I will go to some of my other Members.

For instance, my distinguished colleague from Ohio, my ranking minority member [Mr. WYLIE] first said that reconciliation adds programs. I assure the membership, we did not go beyond the programs approved by the full Committee on Banking.

□ 1140

Now, we did indeed have 12 days of hearings and 8 days of markups, morning and afternoon; 146 legislative sections. Of course we are reauthorizing the housing bill, but very little of that is new; 170 amendments were considered, I think that is patent, clear evidence, and I want you to know that when HENRY GONZALEZ, chairman of the Subcommittee on Housing and Community Development, chaired those markup sessions, everyone was recognized for their amendments. No one was precluded on their amendments, and I defy anyone to say they were precluded from offering their amendments. And the same process prevailed in the full committee.

Ladies and gentlemen, I then read from the proponents of Gramm-Latta that they want us to come to the floor in a different fashion so that we can, among other things, look at tenant management. My gracious, one of the signatories of the letter here, we accepted his amendment on tenant management.

Then security for public housing residents, can I tell you what that amendment was that the full committee defeated? You put policemen in the housing projects, you give them guns, you give them patrol cars, and you give them free rent.

What do we want? A police state in public housing? Certainly not, ladies and gentlemen, certainly not.

Why are we here before you opposing the Latta amendment? Very clear and simple, ladies and gentlemen, because we want a housing bill.

The Senate committee was meeting on housing, and when the Senate committee chairman found that he did not have control of his committee, he pulled the bill. and he told Republicans and Democrats, "If you don't go my way, there is no bill."

This Member is different, this chairman is different; we passed a bill out of subcommittee, we passed it out of full committee, in regular order.

Now, let's keep it in reconciliation so that the unhoused people, the underprivileged people of this Nation, the communities of this Nation in the South, the Southwest, who today have not gotten UDAG will be able to participate in UDAG. Rural housing, Farmers Home Administration, are provided for in this particular piece of legislation. VA and FHA extensions are provided for in this legislation.

Ladies and gentlemen, we have brought before you a bill that has been given more consideration than most legislation ever to come before this House, believe you me.

Now, it is all right to say a voluminous bill, and I heard our distinguished colleague from Ohio [Mr. LATTA] say to my distinguished ranking minority member, "a voluminous bill." My goodness gracious, that is a midget, it is a midget compared to the very famous, which will go down in history, document, it is going to really compete with the Bible as times goes by. It was a bible on how to do a number on the American people, the blind and everybody else in this Nation, and the name of it was Gramm-Latta. Five hundred, six hundred pages with telephone numbers and orders for coffee, and pizza, and hot dogs, and peanuts, and hamburgers.

Ladies and gentlemen, I may be back to you before this debate ends, but I just want to say to you we need your assistance to help the people of this country. No new programs, just improve the programs; and the numbers are $500 million out of $20.6 billion.

We are within the reconciliation numbers; we are below the amounts appropriated by the House and the Senate.

Mr. GONZALEZ. Mr. Chairman, will the gentleman yield?

Mr. ST GERMAIN. I yield to the gentleman from Texas [Mr. GONZALEZ], the distinguished chairman of our subcommittee.

Mr. GONZALEZ. I thank the gentleman for yielding.

Mr. Chairman, I rise in wholehearted support of what the distinguished chairman of the full committee has just said. I could not add anything more to what he very eloquently stated.

Mr. ST GERMAIN. Mr. Chairman, I reserve the balance of my time.

Mr. LATTA. Mr. Chairman, I yield 4 minutes to the gentleman from Texas [Mr. BARTLETT].

Mr. BARTLETT. Mr. Chairman, this debate is terribly limited. One hour to debate a $20 billion reauthorization of a bill that has 146 legislative sections, which is in fact larger than the rest of the reconciliation itself.

But let me help the House get to the heart of some of the issues. Issue No. 1: How do we get a housing bill passed and signed into law at all? Mr. Chairman, we have not done a very good job of that using the old system of trying end runs every time. In fact, in the last 10 years there has only been one housing bill passed by Congress and signed into law. If the opponents of the Latta amendment proposal was merely—the only way to do it was to ride roughshod over the process, then, (a) we will never get a housing bill, and (b), if we ever do, it will be a pretty terrible housing bill.

The fact is, if it is in the reconciliation bill we will not have a Housing Act. If the Latta amendment passes and if the chairman of the committee and the chairman of the subcommittee will join with us and go before the Rules Committee and ask for an open and fair consideration of H.R. 1, then we can get a housing bill passed and signed into law.

Mr. SCHUMER. Mr. Chairman, will the gentleman yield?

Mr. BARTLETT. I yield to the gentleman from New York.

Mr. SCHUMER. I thank the gentleman for yielding.

I say to the gentleman we would be happy to do that if the Senate would send over a bill, something they have

not done in 4 years; not a letter from Senator GARN.

Mr. BARTLETT. Reclaiming my time, we do want to go to both sides, and the other body has agreed to go under regular order. But they have agreed not to go under a conference. So we send this to the reconciliation in a conference, and nothing, absolutely nothing, happens.

Now, issue No. 2: Are there issues to be resolved? Yes, there are issues to be resolved. Were some of those issues resolved with great pain and agony and with rollcall votes in the Housing Subcommittee? Yes. Some of those issues were not allowed to be considered. I remember on the last day I was precluded from offering two amendments at the very end when the subcommittee decided to adjourn. But that is all right. There is time to consider it on the House floor.

Many of the issues were resolved well.

I remember I worked with the gentleman from Massachusetts and the gentleman from New York and others in coming with a better housing bill today than we started with on January 1 of 1985. But it is not time to stop, it is time to finish the process. And the issues include home ownership, tenant management, deregulation, livability, security, FHA, and the other issues that this House needs to resolve.

Mr. WYLIE. Mr. Chairman, will the gentleman yield?

Mr. BARTLETT. I yield to the gentleman from Ohio.

Mr. WYLIE. I thank the gentleman for yielding.

The distinguished chairman of the full committee indicated that there were no new programs contained in H.R. 1 as contained in H.R. 3500. There is a new Public Housing Child Care Demonstration Program, there is a Fair Housing Initiative Program, there is a Second Stage Homeless Assistance Program, there is an Emergency Shelter Grant Program, a Nehemiah Grant Program. Those are new programs. Plus there are funding figures which have been changed 25 times from H.R. 1 as reported from our committee to H.R. 3500.

Mr. BARTLETT. I reclaim my time so that I may respond. I thank the gentleman for his comment, and the gentleman is correct.

Some of those changes were no doubt positive, some of them were no doubt negative, but they were made by caucus, a party caucus of the other body. I know, I sent, as ranking member of the full committee, to the committee chairman some suggestions for arriving at a bipartisan consensus, but that bipartisan consensus was not arrived at. We have issues left to be resolved.

Mr. FRANK. Mr. Chairman, will the gentleman yield?

Mr. BARTLETT. I yield to the gentleman from Massachusetts [Mr. FRANK].

Mr. FRANK. I thank the gentleman for yielding.

The gentleman said we all want to do this in regular order. Now, he has more faith in the recent apparent change of mind of the Senate chairman than I have got. But I would make this proposal to him: If this amendment is defeated and becomes part of reconciliation, and if the other body then decides to take up a bill, we would cheerfully agree to drop it out. We do not have any insurance. What we have had is a record of the other body not wanting to act. If the other body begins to act, if it is in reconciliation, we can say to our colleagues, "Forget about it, we can do it in the regular way." But it is the only insurance policy we have.

Mr. BARTLETT. If I may reclaim my time, the House ought to just simply act in the regular process. It is a legislative process which has proven over time that it can work if both sides will make the effort.

Mr. ST GERMAIN. Mr. Chairman, may I inquire how much time has been utilized out of the 15 minutes allotted to me?

The CHAIRMAN. The gentleman from Rhode Island [Mr. ST GERMAIN] has 9½ minutes remaining.

Mr. ST GERMAIN. Mr. Chairman, I yield half a minute to the distinguished gentlewoman from Ohio [Ms. OAKAR].

Ms. OAKAR. We all know what the issue is. The issue is, Do you want to gut the Housing and Community Development Programs of the United States of America? If you want to do that, then vote for the Latta amendment. We are within the budget confines and restrictions. We worked very, very hard on that. And we were also able to cut some programs and add new programs.

Let us talk about what these new programs are. A program for the homeless that we have never had in the history of our country before. We have millions of people in our country who are homeless.

A program that relates to rural areas which have been cheated.

Now, if you want to vote for Latta, then you vote to cut the programs that have been in authority since 1936.

Mr. LATTA. Mr. Chairman, I yield 30 seconds to the gentleman from Ohio [Mr. WYLIE] to answer the statement just made by the gentlewoman from Ohio.

Mr. WYLIE. Mr. Chairman, if the Latta amendment is adopted, it will not gut the housing program; they will continue in existence as they are. What we are saying is that there should not be any new add-ons.

Mr. Penner, head of the Congressional Budget Office, in response to the gentleman from New York [Mr. SCHUMER] says that H.R. 1, over a period of time, would exceed the budget resolution by $320 million.

Mr. ST GERMAIN. Mr. Chairman, I yield 1½ minutes to the gentleman from Maryland [Mr. MITCHELL], a member of the committee.

Mr. MITCHELL. I would ask that the House, please listen to, as ordinarily I do not make such a request, but I want you to hear me on this one: In the legislative process we are always subjected to external pressures. Call them interest groups, call them what you will, that is the normal process.

That is what is happening on this bill in a most unusual fashion.

I am amazed at the National Association of Realtors for their lobbying efforts against our position. I will stake my life on it, I do not care what kind of language they cloak it in, they are zeroing in on only one thing, and that is section 2370 of the bill, the fair housing initiative.

This is our attempt to make the fair housing law work in this country; and they do not want it to work.

Now, I do not care what kind of excuses they use, I do not care what other kinds of rationale they come up with, they have never supported fair housing in a meaningful fashion.

Now, when we as a body are attempting to make the law work, they come with this all-out blitzkreig, to try not to make it work.

In a sense, the integrity of this House is in question.

Do we knuckle under to those forces that have never supported civil rights? Do we knuckle under to those forces which are now in the process of undermining and eroding and emasculating every single gain that my people and other minorities have made? The integrity of this House is in question.

Mr. BOULTER. Mr. Chairman, I yield 2 minutes to the gentleman from Arizona [Mr. KOLBE].

Mr. KOLBE. Mr. Chairman, there are a lot of reasons for Members to support the Latta amendment. We will see substantial budget savings if the Latta amendment is adopted. But, as a member of the Banking Committee my reason for standing here this morning is to tell you we ought to support it for reasons that have already been outlined.

□ 1155

This is just the wrong way to proceed, and I join with the ranking minority member of the Banking Committee in saying so.

We have got part of this reconciliation bill, title II, that includes an entire authorization for housing. That bill, as we passed it in committee, is 227 pages long. As the chairman of the full committee said earlier, we had 12 days of hearings and 8 days of markup

on it. There were more than 100 amendments that were offered in committee. A lot of those amendments were debated vigorously. Some of them were adopted by very narrow margins.

We need to have a full debate on those issues on this floor. When we are talking about making substantive changes to programs and adding new programs, as the ranking Republican member has suggested would be the case here, we need to have a full debate on that. Why not bring H.R. 1 to the floor? Let us have a full debate on the authorization bill. I am not opposed to that, and I do not know anybody on my side of the aisle who is opposed to that. I know my colleagues have said they would support that. I think we ought to have that kind of full debate.

Mr. GONZALEZ. Mr. Chairman, will the gentleman yield?

Mr. KOLBE. I yield to the gentleman from Texas.

Mr. GONZALEZ. Mr. Chairman, I want to remind the gentleman, because he is a member of the committee, that no other committee history—I have been a member of this subcommittee for 24 years, and at no time have we ever had anywhere near 136 amendments offered leisurely.

The gentleman from my State of Texas, my colleague, a while ago said he had been denied an opportunity for two. Well, he offered 36 percent of those amendments. But when we voted on the bill in subcommittee and full committee, will the gentleman tell me who voted against it? It passed out on voice vote unanimously.

Mr. KOLBE. Reclaiming my time, the chairman was very fair in allowing debate on the amendments in the committee. But many of those amendments were vigorously debated. And we ought to have the same debate on authorization of new programs and existing programs totaling $20 billion or more on the floor, too. The bill is in Rules Committee. The majority dominates that committee by a more than a 2-to-1 margin. Why not bring it out of committee and onto this floor for a full debate?

As to the question of who voted against the bill in committee, I would only say to the distinguished chairman of the subcommittee that many of us were prepared to vote against it in the full committee but were not given that opportunity.

The CHAIRMAN. The time of the gentleman from Arizona [Mr. KOLBE] has expired.

Mr. ST GERMAIN. Mr. Chairman, I yield 2 minutes to the very distinguished and honorable gentleman from Connecticut [Mr. MCKINNEY].

Mr. MCKINNEY. Mr. Chairman, today there is more fog in this House about H.R. 1 than there is hanging over the Capitol dome, and you cannot see the Capitol dome it is so foggy out there.

Title II is not over budget. It is under the HUD appropriated level. There is not a single new program in H.R. 1 that has not been accounted for financially by taking money from other areas.

It is wonderful to bring up a fog against progress. I trust my colleagues and the Members of my party. But I do not believe the Banking Committee on the other side will ever get us a bill.

What is going to happen to FHA insurance? What is going to happen to flood insurance? What is going to happen to the amendments for UDAG that so many of my Republican colleagues asked me to support for them so that other parts of the country would benefit?

It is wonderful to stand here and say, "New programs" today's zap word. A real zap word.

But is that not what the Congress of the United States is about? Were we not sent here to try to pass laws that will work?

I would suggest to you that the Nehemiah Program will work. The handicapped changes in section 202 are incredible changes, and I think they are very valuable. The gentlewoman from Ohio [Ms. OAKAR] on that side of the aisle and myself on this side of the aisle worked very hard on them.

It is a fact that for the first time we in the Congress are going to say to Health and Human Services and HUD: You must talk to each other. Right now Health and Human Services is the biggest payer of rent to slum landlords in the United States of America.

Mr. ROTH. Mr. Chairman, will the gentleman yield?

Mr. MCKINNEY. I yield to the gentleman from Wisconsin for just 2 seconds.

Mr. ROTH. I appreciate what my leader, the ranking minority member, is saying. But the gentleman heard the chairman of our subcommittee. We had 137 substantive amendments that we debated, which shows the terrible condition of this bill. What the gentleman says is correct, but we want this bill to come to the floor so that the entire House can vote on these issues.

Mr. MCKINNEY. I can understand what the gentleman is saying. I would like this House to operate under regular order, too; but it does not, and it has not, and the last Latta amendment I voted on in 1981 was not in regular order either.

Mr. Chairman, while I am speaking on the housing issue, I have a point of clarification. The committee report language accompanying section 2142 concerning the housing for the handicapped provision which I sponsored highlights a policy which permits a sponsor to limit tenancy in a section 202 project to elderly persons or to the elderly and physically handicapped but excluding the developmentally disabled, chronically mentally ill, and other handicapped persons. The committee report indicates that this policy is contrary to the purposes of section 202 program.

It is my understanding that under the section 202 program, section 202 development should be custom-tailored to the specific client population sought to be served. The key consideration as I understand it would be that a section 202 sponsor must affirmatively demonstrate that it possesses the resources to meet the special service needs of the tenant group sought to be served. Therefore, the fact that a person is eligible under the section 202 program, does not necessarily mean that the person is eligible for occupancy in each and every section 202 project.

Section 2142 the housing for the handicapped provision would not alter the present policy.

Mr. ST GERMAIN. Mr. Chairman, I yield 1 minute to the gentleman from New York [Mr. MOLINARI].

Mr. MOLINARI. I thank the gentleman for yielding.

Mr. Chairman, I rise in opposition to the Latta amendment.

Very briefly, there is a provision in this bill that is extremely important to the public housing stock of this Nation. In my district, there is great threat that the public housing stock is going to deteriorate. It seems to me that when we are talking about deficits and defict reduction, we should not want to evict those who are paying rents and replace them with people who cannot afford to. The theory is good, it sounds like it is a humanitarian proposal; but it does not work out that way. We are destroying our public housing stock, we are increasing the amount of Federal subsidies by present law, and it is working exactly to the contrary of those who are saying on the floor today, "We want to reduce deficits."

I would ask those who have public housing in their districts to join me in opposing the Latta amendment.

Mr. Chairman, although I believe there are some commendable provisions contained in the Latta amendment, I must oppose passage because it would exclude from H.R. 3500 a particular provision which is essential for my district.

Public housing tenants across the country will be penalized until this and the other body takes action and approves maximum rent legislation. These provisions which I introduced are contained in section 2102 and would allow housing authorities, at their discretion, to establish maximum rents, which are approved by the Secretary, and are based on either the average monthly debt service and oper-

ating expenses for projects of similar size owned and operated by the agency, or the fair market rent in the area. The proposed rent cap is not mandated upon public housing authorities, but rather is made available as an option which can be used based on an authority's individual economic considerations.

A rent ceiling is essential for the long-term future of this Nation's public housing program. In order to maintain an economic mix—a cross section of lower, low and lowest income families—and prevent the isolation of the very poor, public housing authorities must have this flexibility. I believe enough evidence has been produced to illustrate that social change and economic mobility are enhanced by encouraging housing in which families of different incomes and in different age groups can live together.

A broad income mix includes those who are largely self-supporting but still need some help in obtaining decent housing. This group includes people with upward mobility who will provide leadership in developing good and stable communities. Should these lower income working tenants, many of whom serve as role models in the community, leave public housing due to higher rents, we would be left with dense concentrations of the very poorest tenants. Again, experience has shown that this may bring on higher maintenance and social service costs, as well as having a detrimental effect on the surrounding neighorhood.

The positive effect working tenants have on public housing cannot be denied. In fact, the New York City Housing Authority, which runs one of the most successful housing programs in the country, maintains that the integration of various income groups is one of the key factors to its success for over 50 years.

Apart from promoting an economic mix, there is another very important reason for allowing housing authorities to establish a rent ceiling. If the lower income working tenants are driven out of public housing due to the inability to pay a higher rent, there will be a drastic loss in rental income to the authority because the incoming tenants will have significantly reduced incomes and rent levels. New York City has estimated that it could lose as much as $47 million a year in rental income if working tenants were forced out of its housing facilities. The result of this would be increased operating subsidies by the Federal Government and the American taxpayer. In these times of great concern over Federal deficits, this does not seem to be the course of action we would want to follow.

The loss of a rent cap does not affect only large metropolitan areas. I have received letters of endorsement from such cities as Pueblo, CO, and Bloomington, IL, among others, on the need for a rent cap to ensure the future of their public housing programs. In addition, these rent cap provisions have been endorsed by the National Association of Housing and Redevelopment Officials [NAHRO], the Council of Large Public Housing Authorities [CLPHA], and the Public Housing Authorities Director's Association—three major public housing organizations. I have attached an analysis prepared by the New York City Housing Authority on the loss of the rent cap as well as letters from MAHRO and CLPHA in support of rent cap legislation I introduced last year.

In order to preserve our public housing program, a public housing rent cap must be restored. The provisions contained in H.R. 3500 must be upheld by this body and finally enacted into law.

The CHAIRMAN. The time of the gentleman from New York [Mr. MOLINARI] has expired.

Mr. LATTA. Mr. Chairman, I yield 30 additional seconds to the gentleman from New York [Mr. MOLINARI].

If the gentleman will yield, Mr. Chairman, does the gentleman realize that there is a lot more in the Latta amendment than savings to the taxpayers of this country than what this housing bill does? There is $3.5 billion in deficit reductions in the Latta amendment. There is also striking your pay raise that they have got in there for 1987 and 1988 at 5 percent each year in the Latta amendment. So by voting against the Latta amendment you are saying, "I want my pay raise in 1987 and 1988."

Mr. MOLINARI. May I have 30 seconds to respond to that?

The CHAIRMAN. The time of the gentleman from New York [Mr. MOLINARI] has expired.

Mr. LATTA. Mr. Chairman, I yield 30 seconds to the gentleman to respond.

Mr. MOLINARI. I can stand here and look you directly in the face and say I have no qualms whatsoever about voting for a pay raise if it is in this bill if it means protecting my district, at the same time and I think the gentleman should not raise that point as an issue on this question.

Mr. WYLIE. Mr. Chairman, will the gentleman yield?

Mr. MOLINARI. I yield to the gentleman from Ohio.

Mr. WYLIE. May I suggest that I support the gentleman's provision on public housing stock. We had it in a substitute which we were prepared to offer on the House floor. I think that is the time to debate that issue rather than in this reconciliation bill.

Mr. MOLINARI. I thank the gentleman.

Mr. LATTA. Mr. Chairman, I yield 2 minutes to the gentlewoman from Illinois [Mrs. MARTIN].

Mrs. MARTIN of Illinois. Mr. Chairman, I think, ultimately, everyone can find in the bill something they would like to keep, they can find something in the Latta amendment that they would prefer not be in it. But it, ultimately, comes down to a very simple decision. And, really, much of this argument about H.R. 1 or about a pay raise is really peripheral to it.

Do you want to cut the deficit or don't you? Is this one thing for my district or even for my State or even a group of people? You have to determine if the speeches that almost every Member of this Congress has given about how they want to cut the deficit, if they are true——

Mr. SCHUMER. Mr. Chairman, will the gentlewoman yield?

Mrs. MARTIN of Illinois. No; not for a second. If my colleague would just let me finish a sentence, I would be grateful.

If you want to cut the deficit, you vote for Latta, because it cuts the deficit more. If you do not, or if you have other priorities than the deficit—and I do not think you have to be ashamed of them, you do not have to say they are wrong—but if the deficit comes first, you vote for Latta. If it comes second, you do not.

But many Members of both sides of the aisle have gone home and they have said to their constituents that the deficit matters, that they will do everything to cut, that they do not care where it comes, it matters.

So I tell you, as much as I can appreciate the distinguished members of the Banking and Urban Affairs Committee, as much as I can appreciate my own colleagues who want parts of the bill, they miss the greater good. If you care about small business and if you care about the poor and if you care about agriculture, you have got to want that deficit lower, and that means you have to vote for Latta.

There is one difference between H.R. 1 and Gramm-Latta. Gramm-Latta cut. It did not add.

Mr. ST GERMAIN. Mr. Chairman, I yield 1 minute to another very distinguished member of our committee, the gentleman from North Carolina [Mr. NEAL].

Mr. NEAL. Mr. Chairman and members of the committee, the problem is that the Senate will not pass the bill so that we can go to committee.

The only way that we can get a housing bill is to attach it in this case.

Do we need a housing bill? We need a housing bill for rural America, for the small towns of America. And this appears to be the only way of getting it.

We are told by the Congressional Budget Office that this bill is under the budget. It is 10 percent under the appropriations bills already passed by this House. It is $4 billion under last

year's bill. It is the only way that we can get to conference with the Senate.

I urge my colleagues to reject the Latta approach.

ANNOUNCEMENT BY THE CHAIRMAN

The CHAIRMAN. The Chair would like to inform the Members that any statement critical of the other body is not within the rules, and critical comment of inaction or inactivity by the other body mentioned here would violate the rule.

The Chair has not asked Members to refrain, but the Chair would make the general statement at this time that the Members who particpate in the debate should be very cautious as to mention of actions of the other body or its Members.

PARLIAMENTARY INQUIRIES

Mr. ST GERMAIN. Mr. Chairman, I have a parliamentary inquiry.

The CHAIRMAN. The gentleman will state it.

Mr. ST GERMAIN. Mr. Chairman, if, on the one hand, the other side of the proposition on this floor refers to the other body stating they will do something, and if this side of the proposition is convinced and has evidence of the fact that the facts speak against that, does the Chair mean to tell us that that would be critical to state that they are not acting—I mean, I think there has to be fairmess. If you are going to compliment the other body by submitting a letter and contending that it is Biblical or Sanskrit, then certainly the other side of the proposition should be allowed also, should it not, under the rules?

The CHAIRMAN. The Chair will state to the Member that the general rule is that there be no critical mention made of activities of the other body. The Chair will allow each Member to use discretion as to how he makes his pronouncements, whether or not it is in answer to one side or the other.

Mr. ST GERMAIN. Mr. Chairman, I have a further parliamentary inquiry.

The CHAIRMAN. The gentleman will state it.

Mr. ST GERMAIN. If, on the one hand, the other side of the proposition speaks in glowing terms of that which the other side says it will do, one can on this side state that, "Well, we appreciate that statement; however, this is what we know that has been done to date." That would not be critical, would it?

The CHAIRMAN. The Chair has stated the general rule. Both sides of the issue, pro or con, should within the rule refrain from making observations of the other body that would be termed to be critical.

Mr. ST GERMAIN. I thank the Chair for its ruling.

Mr. GONZALEZ. Mr. Chairman, I have a parliamentary inquiry.

The CHAIRMAN. The gentleman will state it.

Mr. GONZALEZ. Mr. Chairman, in further elucidation about this very vague general rule about allusions to the other body, assuming that we wish to answer an inference or an insinuation advanced by any Member of the House that has reference to the workings on the other side, would it be in order for us to preface whatever critical evaluations we make of those statements if we make a statement and say that we take judicial knowledge that the other body is honorable, illustrious but misbegotten in its judgments, would that fall within the objectionable section of this rule?

□ 1210

The CHAIRMAN. The Chair will state that is not a proper parliamentary inquiry, but the Chair again will state that the Chair cannot respond to hypothetical questions at this time. Each statement will have to be regarded in its own.

The Chair asks the indulgence and the cooperation of the Members to refrain from any critical mention made of the activities of the other body.

Mr. BARTLETT. Mr. Chairman, I have a parliamentary inquiry.

The CHAIRMAN. The gentleman will state it.

Mr. BARTLETT. Mr. Chairman, to further on what I think is the Chair's good ruling, I assume it would be in order for this body to comment about what this body, the House of Representatives, should do in our processes in considering legislation on the floor of this House. I assume, from the Chair's ruling, that that is what we should focus on in the debate.

The CHAIRMAN. Within the proper language and within the rules, the gentleman is correct. Under the principles of comity, there are restrictions on debate as it pertains to mention of other Members or the other body.

The Chair would hope that the membership would cooperate with the Chair. All the Chair is asking is that the Members be judicious in their statements as it relates to the other body.

Mr. ST GERMAIN. Mr. Chairman, I yield 2 minutes to the elegant gentleman, my neighbor from the State of Massachusetts [Mr. FRANK].

Mr. FRANK. Mr. Chairman, I yield to the gentleman from California [Mr. EDWARDS].

Mr. EDWARDS of California. I thank the gentleman for yielding to me.

Mr. Chairman, I rise in opposition to the amendment. I am opposed to the portion of this amendment which eliminates proposed HUD funding of fair housing demonstration centers to assist private enforcement of the Fair Housing Act, title VIII of the 1968 Civil Rights Act.

H.R. 3500 authorizes $2 million to centers across the country which, for the past 15 years, have provided assistance to persons who have experienced racial discrimination in the home rental and ownership markets.

Title VIII grants no fair housing enforcement authority to HUD and very limited enforcement authority to the Attorney General. Enforcement of the statute has been left to private parties and the fair housing demonstration centers have been critical to that enforcement effort.

Despite inadequate enforcement mechanisms, the centers have been quite effective on what most would agree is a shoestring budget. One of the most effective enforcement tools available to them is the use of testers to establish a discrimination claim. The methodology is simple but effective: A black or Hispanic person is told an apartment is unavailable for rent; a white person, with a similar social and economic profile, submits an application to the same apartment complex and is offered an apartment(s). Such disparate treatment could be used as evidence of discrimination—the apartment operators would have to come forward with evidence to establish that their treatment was not discriminatory. If discrimination is proved, the punishment for such illegal treatment is monetary damages and/or the requested apartment. It is a small price to pay for such an indignity.

Testers have been recognized by the Supreme Court as a reasonable and necessary device to combat housing discrimination.

Support of the modest Tester Program sponsored by HUD under H.R. 3500 should be allowed. I therefore urge a "no" vote on the Latta amendment.

Mr. FRANK. Mr. Chairman, there is a wholly spurious procedural issue here. There are Members who would claim that it is somehow irregular for this House to legislate in reconciliation. We have had Gramm-Latta which did that. We have got on the debt extension, Gramm-Rudman, which has never had hearings. There may be a Member of this body who honestly and genuinely is opposed in principle to legislating on reconciliation, but I do not know who he or she is. No one thinks that anyone is serious about that.

There is other legislation here. The first action of the gentleman from Ohio today was to get up during the 1 minutes and get unanimous consent to leave alone a piece of legislation in this bill. He has not offered an amendment to cut other pieces of legislation. So no one thinks seriously that there is an objection in principle to legislating.

Why are we legislating? Because it takes, under the Constitution, the action of this House and something else to become law. Now, you cannot talk about something else, but this House alone cannot make a law; this House plus something has got to make a law. And if something does not want to make a law, this House cannot do anything.

So what we are saying is this: Let us put, as this House, on to reconciliation this bill, because we have not seen anything from something. But if something should change its mind because we have got reconciliation, then we will drop it in conference. We are not suggesting that this is the best way to legislate; we are not saying it is a good way to legislate. We are saying given what is happening somewhere else, and is not happening, it is the only way to legislate.

Do you want to respond to the homeless? Do you want to improve, as the gentleman from Texas knows we are trying to do, public housing modernization?

There is a new program here that I sponsored. Do you know what it does? We have built hundreds of thousands, millions of units of assisted housing. Some of them are starting to fall apart. We have a small revolving fund in here which was wholly noncontroversial to try and preserve units. We are not building new ones; we are preserving them.

Somewhere over the rainbow, something is not happening, and this is the only chance to get any action, and we will be glad to drop it if they change their minds.

Mr. LATTA. Mr. Chairman, I yield 2½ minutes to the gentleman from Florida [Mr. YOUNG].

Mr. YOUNG of Florida. I thank the gentleman for yielding me this time.

Mr. Chairman, 2 weeks ago, I inspected the Laurel Park public housing complex in St. Petersburg, FL, and found deplorable conditions in these units, such as rodent infestation, and water leaking from second floor bathrooms through ceilings to the first floor kitchens below.

HUD officials I've spoken with tell me that this situation is not unique to St. Petersburg, but that many public housing projects throughout our Nation are rundown and in serious need of repair and renovation.

Mr. Chairman, I would like to engage in a brief colloquy with my colleague from Texas, Mr. BARTLETT, a strong advocate of the Latta amendment currently under consideration. My concern is that we need to provide additional Federal funding for the modernization of our Nation's public housing stock so that our constituents renting these units don't have to live in such deplorable conditions. My question is, if the Latta amendment is adopted by the House today, what effect will it have on modernization funding for housing projects such as Laurel Park?

Mr. BARTLETT. If the gentleman will yield, I very much commend the gentleman from Florida for his leadership in modernizing and attempting to repair Laurel Park and other units.

The direct answer to the question is, the only way to obtain more funds for modernization and repair is to pass the Latta amendment today and then bring H.R. 1 back to the floor to provide for reprioritizing of the funding so that we can place more funding in the modernization and repair of Laurel Park and other units.

I commend the gentleman for his support because the way to obtain more funding is to pass the Latta amendment so that we can place modernization as a priority, which it has not been.

Mr. YOUNG of Florida. Mr. Chairman, according to information I've received, there are as many as 70,000 units of public housing throughout our Nation in such disrepair that they are uninhabitable. Yet, I look at Federal funding levels for the past 3 years and see that modernization funding remained level while funding for new housing programs and the construction of new units has increased. Would my colleague respond to that?

Mr. BARTLETT. If the gentleman will yield, I would say the gentleman is absolutely correct. H.R. 1, in its present form, would continue the status quo of this repair of public housing units. We have made some improvements in modernization and CIAP in H.R. 1. But what we can do with H.R. 1 on the floor is to eliminate constructing new units and take those funds to repair existing units such as Laurel Park and the other several hundred thousand units that are in need of repair.

Mr. YOUNG of Florida. Mr. Chairman, I want to thank my colleague for his answers and commend him for his leadership on the Housing Committee to try and reform our Nation's housing programs so that we can clean up the Laurel Parks of our Nation and provide decent but affordable public housing for our Nation's elderly, handicapped, and low-income families.

Mr. ST GERMAIN. Mr. Chairman, will the gentleman yield?

Mr. YOUNG of Florida. I yield to the gentleman.

Mr. ST GERMAIN. I thank the gentleman for yielding.

Mr. Chairman, I would say to the gentleman, as everybody knows from my ad in the Wall Street Journal, I go to St. Petersburg on occasion; modernization has been doubled in H.R. 1 because we go by means of grants. If the Latta amendment is adopted, you will not have any funds for doing anything at Laurel Park.

The CHAIRMAN. The gentleman from Rhode Island [Mr. ST GERMAIN] has 1½ minutes remaining.

Mr. ST GERMAIN. Mr. Chairman, I yield that 1½ back to the gentleman from Pennsylvania [Mr. GRAY].

Mr. GRAY of Pennsylvania. Mr. Chairman, I yield 3 minutes to the gentleman from North Carolina [Mr. JONES].

Mr. JONES of North Carolina. I thank the gentleman for yielding me this time.

Mr. Chairman, I rise in strong opposition to the amendment offered by the gentleman from Ohio.

There has been much talk around here for the last couple of days about the need to "purify" the reconciliation bill—the need to remove from the legislation matters which, in the view of some, do not belong in a reconciliation bill.

What is a proper piece for reconciliation—like "beauty"—is in the eye of the beholder. And, although I hesitate to remind my colleagues about the 1981 Gramm-Latta reconciliation bill, sometimes one's view of what is beautiful can change.

However, buried in the Latta amendment are a couple of lines that would strike from the bill two of the most important efforts of the Merchant Marine Committee.

One line would strike the OCS revenue-sharing legislation on which our committee has worked for 3½ years.

Is this an idea that the Merchant Marine Committee is trying to slip into H.R. 3500 because it could not be passed on its own merits?

Well, look at the record and decide for yourself.

In 1982, similar legislation passed in the House by a 260-to-134 vote.

In 1983, similar legislation passed in the House by a 301-to-93 vote.

In 1984, similar legislation passed in the House by a unanimous voice vote as an amendment to a Senate bill so that we could go into a conference committee.

Also, in 1984, the conference report, which is practically identical to the provision in this reconciliation bill, was passed in the House by a veto override margin of 312 to 94.

Only time limits at the end of the 98th Congress prevented the other body from fully considering the conference report which its conferees had unanimously approved.

The record on this matter is clear. We have included OCS revenue sharing in reconciliation only to finally resolve what should have been settled at the end of the last Congress.

Another line in the Latta amendment would strike the coastal zone management reauthorization section of the bill.

Less than 3 months ago, this body passed that legislation by an uncontested voice vote—with bipartisan support. Again, the Merchant Marine Committee is not—I repeat not—trying to pass anything that this House has not already approved—by overwhelming margins.

Some have argued that reconciliation should only include provisions that involve "savings" to the Federal Government.

In point of fact, both of these measures will result in such savings.

The CZMA bill reduces authorizations to fiscal year 1985 freeze levels and tells the States that they will have to pick up a greater share of the costs of their CZM grants—from 20 percent under existing law to 50 percent in the years ahead.

Also, the reduced authorizations, including the striking of the fiscal year 1986 level, will result in total authorization savings of well over $200 million over the next 4 years. This, in my view, is "savings."

The OCS revenue-sharing provision will bring even greater savings to the Federal Government.

Coastal State opposition to offshore leasing has led to litigation and other problems that have meant major losses to the Federal Treasury and serious delays in our OCS Program.

Giving States a financial stake in the program will eliminate opposition unless it's based on serious environmental problems.

A more predictable OCS Program with considerably less litigation will result in more areas being leased with higher bonuses from the oil companies.

At the same time, the States will be required to use their money to protect the marine and coastal environment.

We have even scaled back our proposal. It does not begin until fiscal year 1988, and the first year's ceiling on the fund has been cut in half—it is now $150 million whereas the prior bills passed by the House were at $300 million. And it is all subject to appropriations.

This is a small price to pay for a sounder OCS Program. Some have calculated that the Government has lost billions of dollars because of State opposition. The time has come to stop this loss of Federal revenues and the place is H.R. 3500.

I urge my colleagues to vote "no" on the Latta amendment.

□ 1220

The CHAIRMAN. The gentleman from Ohio [Mr. LATTA] has 10½ minutes remaining and the gentleman from Pennsylvania [Mr. GRAY] has 13½ minutes remaining.

Mr. GRAY of Pennsylvania. Mr. Chairman, I yield 2 minutes to the chairman of the Committee on Post Office and Civil Service, the gentleman from Michigan [Mr. FORD].

Mr. FORD of Michigan. Mr. Chairman, like the gentleman from North Carolina, I was surprised when I saw the Latta amendment, because it comes after our jurisdiction in two ways, and in both instances he seeks to strike cost-effective changes that we put into the reconciliation.

The first one is the pay. You have heard the red herring about the Member's pay; that is all absolute nonsense, because whether you vote for Latta or you vote for the House will not make any difference in the pay of Members of the House, in 1988. So to throw that up as a reason for doing this is nonsense. But what is frightening is that we were directed to save $10,554,000,000 in pay over the next 3 years. We actually in the bill that is brought before us without Latta save $10,573,000,000, $19 million more. So one asks, "Why would Latta be doing something that would cost $19 million more over 3 years than what the committee recommended?" We do not understand it. We think this is another one of those things like knocking the blind people out in Gramm-Latta. He did not mean to do it, and after it happens, he will explain that to all of those who vote for his amendment, as he did before.

What is really important, is that he is going to affect the health insurance premiums of 1.4 million subscribers to more than 128 Federal health benefit plans that Federal employees are enrolled in. That proposal was put in after testimony from the Office of Personnel management as a cost-containment measure, and it is guaranteed over the years to drive down the cost to the Government and to the subscribers of health insurance premiums because it encourages the members to move to the lower cost plans and away from the higher cost plans. There are some of the people who run the higher cost plans who do not like that. They like to sell the premium insurance for the high premiums, and I do not know whether they got involved in writing this or not, but again it is a cost-containment provision that reduces the cost to the Government and to the subscribers, and Mr. LATTA wants to repeal it. I do not know why.

The CHAIRMAN. The time of the gentleman from Michigan [Mr. FORD] has expired.

Mr. LATTA. Mr. Chairman, I yield myself 30 seconds.

Mr. Chairman, let me say I find it difficult to follow the line of reasoning just put forward that when you increase Federal pay in 1987 and 1988 by 5 percent, you save money. What they are saying is that we want these agencies and departments to absorb the pay increase? Ridiculous. The Office of Management and Budget says it is impossible for them to do that.

On the matter of Federal health insurance, why, we have a 75-percent cap right now. What they propose to do is to have the taxpayers of the country pay 100 percent, and that is supposed to save money?

The CHAIRMAN. The time of the gentleman from Ohio [Mr. LATTA] has expired.

Mr. LATTA. Mr. Chairman, I yield 2 minutes to the gentleman from Ohio [Mr. KASICH].

Mr. KASICH. Mr. Chairman, I yield to the gentleman from Texas [Mr. BARTLETT].

Mr. BARTLETT. Mr. Chairman, I thank the gentleman for yielding.

Mr. Chairman, to clarify the issue of modernization, the fact is, H.R. 1 continues the status quo of building new units of public housing, and what many of us want to do is to use those funds to repair the existing substandard and vacant units of public housing, and if it comes back to the floor on an open rule, we would attempt to do that and to give the Members a chance to vote that way.

Mr. KASICH. Mr. Chairman, I thank the gentleman from Texas.

Mr. Chairman, let me say this very quickly to the people who have been expressing their concerns about the enactment of Gramm-Rudman, should that amendment in fact be carried through both Houses: There are a lot of people who are complaining or who are concerned about what the impact of Gramm-Rudmann would be. People in defense, including experts in both Houses, have said, "Well, we are concerned about the impact on readiness." People are expressing their concerns about the impact on social programs.

But what we must remember is that in fact if Gramm-Rudman becomes law, Gramm-Rudman only kicks into effect if we exceed our budget targets, and what we do in this reconciliation bill—and I just simply cannot believe it, after all the debates we have had over the last couple of months—is to have spending increases in a bill that is designed to carry out spending reductions as provided in the Budget Act. So what we really do is call into question whether we in fact are going to meet our targets.

Mr. SCHUMER. Mr. Chairman, will the gentleman yield?

Mr. KASICH. I have only limited time, and I cannot yield.

Mr. Chairman, if we should exceed our targets, then we are in a position where we simply must go forward and call for across-the-board cuts that concern people and readiness and everything else. If we do not enact a reconciliation bill that enacts the spending reductions as provided in the Budget Act, we are phony budgeting; we are not providing for numbers that make any sense.

That is how we get in trouble. That is how we would get in trouble under Gramm-Rudman. Gramm-Rudman would only kick into effect if this Congress did not exercise truth in budgeting.

Mr. Chairman, I say that we ought to do it, we ought to do it together, and we ought to make reconciliation do what it is designed to do.

Mr. GRAY of Pennsylvania. Mr. Chairman, I yield 30 seconds to the gentlewoman from Ohio [Ms. OAKAR].

Ms. OAKAR. Mr. Chairman, I just wanted to briefly refute the remarks made by my friend, the distinguished gentleman from Ohio [Mr. LATTA].

We passed under suspension a bill that would remove the cap for the contribution of Government employees' health insurance. The reason we did that was to provide an incentive for those people in that plan, including ourselves and all Government workers, 3 million who are working today and about 1.5 million who are retirees, and to encourage them to go into lower premium plans.

Mr. Chairman, it is a help. It is a savings device, not an increase at all, and I think my friend knows that.

Mr. GRAY of Pennsylvania. Mr. Chairman, I yield 1½ minutes to the gentleman from California [Mr. MINETA].

Mr. MINETA. Mr. Chairman, I have been a long-time supporter of the Congressional Budget Act of 1974 and the process that it established. In fact, I served on the Budget Committee for 6 years and served as the chair of the Budget Process Task Force, and it is only after trying all other avenues for the last 5 years as the chair of the Subcommittee on Aviation that I have concluded that as long as the aviation trust fund is a part of the budget process, there can be no assurance that needed aviation safety and capacity improvements will be funded.

Aviation safety pays every time we cut back on spending from the revenues that are sitting in the aviation trust funds.

□ 1230

Safety pays every time we ignore the users' good-faith payment of taxes in expectation of safety and capacity improvements.

The gentleman from Ohio has today seen the light with guidance from the distinguished gentleman from Kentucky as far as taking the aviation and highway trust funds off budget. I applaud him for this.

However, the gentleman's amendment continues to ignore needed housing and community development programs. Moreover, this morning's changes to the amendment make mockery of this body's deliberative procedures and it points out once again what happens when the House plants its collective feet in concrete and refuses to change the Budget Act.

We must fine tune our budget process and defeat the Latta amendment.

Mr. LATTA. Mr. Chairman, may I inquire as to how much time is remaining?

The CHAIRMAN. The gentleman from Ohio [Mr. LATTA] has 8 minutes remaining and the gentleman from Pennsylvania [Mr. GRAY] has 9½ minutes remaining.

Mr. GRAY of Pennsylvania. Mr. Chairman, I yield 1 minute to the gentleman from South Carolina [Mr. DERRICK].

Mr. DERRICK. Mr. Chairman, I would like to address some of the arguments that I have heard from the other side of the aisle.

The Latta amendment is the deal of the year and if you did not get your part of it, you really missed out.

Now, let me tell you what we are going to do with the gentleman from Ohio [Mr. LATTA]. I hear all this concern about budgets and fiscal responsibility. Well, you do not do anything with OCS. That is going to cost billions of dollars in the future. We cannot do that. That is the big guy. We cannot do that.

Then we put the trust funds off budget. Now, how could anyone stand up and call themselves fiscally responsible when you are talking about taking things off budget that the President nor the Congress will no more have any impact on to hold down the spending?

What do you do? You do what you do most of the time. You sock it to the little guy in the housing programs, in the things that are needed, and you leave the big guy out.

So I want to tell you, if we stick around for another hour or so, maybe we can make some more deals.

There is no one who can possibly vote for this amendment who believes in fiscal responsibility.

Mr. LATTA. Mr. Chairman, I yield 2 minutes to the gentleman from Ohio [Mr. OXLEY].

Mr. OXLEY. Mr. Chairman, I rise in strong support of the Latta amendment. Here is one Member who is willing to vote for the Latta amendment, willing to vote for the Latta amendment up front, understanding very strongly that the reconciliation process, as I understand it when I came to this body 4 years ago, was to get us to budget savings and to drive the deficit down. That is what reconciliation meant to me and it still means that to me today.

We have a chance, I think, in this amendment to save the taxpayers $3.5 billion. As the gentlewoman from Illinois said earlier, this is a chance for us to put our money where our mouths are and to save the taxpayers that kind of money.

Somebody mentioned that place over the rainbow, my friend, the gentleman from Massachusetts, and indeed, they are playing that same game that some Members of this body are trying to do as well, and that is to use the reconciliation process to raise spending.

The Chief of Staff sent a letter just the other day to the other body saying that the President would consider very strongly a veto if those spending measures were added to the reconciliation process. We are playing into the same game if we do that here.

We have got one chance and one chance only and that is to vote for the Latta amendment and to save that $3.5 billion. It is as simple as that.

I would like to see a good housing program. I would like to see a program come out of committee and work its way through the process, but that is not happening.

The other body, for example, if you will, has added some provisions in there that I am concerned about, increasing, for example, public broadcasting by $15 million over a number that the President has already vetoed twice. I am concerned about that.

I think we have a chance here to set the record straight and to pass a meaningful reconciliation process. If we do not, then we might as well junk the whole budget process and, indeed, this is going to bring about a much more strict type of legislation, known as Gramm-Rudman, that many of us I think are concerned about in its application to cutting the budget.

So this is a responsible approach. I salute my colleague, the gentleman from Ohio, who has made a career out of saving the taxpayers money and eliminating waste and fraud in Government spending.

Mr. DREIER of California. Mr. Chairman, as a member of the Banking Committee which spent nearly an entire working month grappling with H.R. 1, the Federal housing authorization, I was startled to learn that the text of that massive bill would be included as a part of the budget reconciliation legislation we will consider later on today.

I can assure my colleagues that those of us who studied this legislation in committee ran into difficulty with it as reflected by the fact that amendments were offered to the bill on the average of one for every other page, and a full 86 of those amendments carried.

Notwithstanding that arduous 8-day markup, however, the bill that is being brought to you between the bookends of reconciliation is not the bill that our committee reported, for major changes were made to it later in a small caucus.

If you agree with me that the rest of the House should have a better look at this major bill, I hope you'll join with me in supporting the Latta amendment, which would bring about regular order consideration of the housing bill.

Mr. SHUMWAY. Mr. Chairman, I rise today to strongly support the Latta amendment which seeks to eliminate the authorization add ons which were included during the reconciliaton proceedings of certain House committees. In eliminating these authorizations for new Federal spending, we will help restore a certain degree of fiscal discipline which otherwise is notably lack-

ing as Congress proceeds with its fiscal year 1986 budget process.

In my mind, the reconciliation actions taken by two particular committees on which I serve—the House Merchant Marine and Fisheries Committee and the Banking Committee—amply demonstrate the reason why Congress is presently unable to deal with the current deficit crisis: We, as a body, are institutionally much more concerned with finding new and politically attractive ways to spend Federal money—without regard to accepted legislative procedure or even at times the substance of the policy issues—than we are with making the sometimes-tough political choices required to achieve spending cuts and control the deficit. In essence, realization of this inability is the real reason behind the House leadership oppositon to the Gramm-Rudman-Hollings budget proposal. Congress knows full well that to avoid the risk of Presidential budget slashing, it will have to step forward and accomplish the unpalatable task of passing a budget resolution that adheres to strict deficit limits. By opposing Gramm-Rudman, Members of Congress are conceding that we are not equal to the task, and in essence we are signaling that we would prefer to continue current practices, such as today's reconciliation proceeding, which cleverly render our budget process useless.

As the ranking minority member of the Merchant Marine and Fisheries Committee's Subcommittee on Oceanography, I strongly opposed the add ons included by our committee. Our committee's reconciliation instructions required us to come up with $300 million in savings for fiscal year 1986. Only through certain questionable accounting practices by the Budget Committee and CBO (whereby they gave both the Merchant Marine and Fisheries Committee and the Interior Committee credit for the same $4 billion in savings from an 8(g) settlement) did our committee surpass its goal. Were it for this "double accounting," however, we would have fallen short of the savings quota. In any event, the committee then proceeded to turn an exercise designed to achieve fiscal year 1986 budget savings into a means of authorizing over $350 million annually in new open-ended spending authority starting in 1989.

The majority of this new spending authority is targeted for a new program which shares with a wide range of U.S. States and territories a portion of the Federal revenues, generated by the OCS oil and gas leasing program. The program, however, includes Great Lakes States and U.S. territories, none of which even participate in the OCS Program. Why, then, are we sharing OCS-generated revenues with them? As well, the State grant formula, under the program's proposed provisions, is not tied only to actual OCS oil and gas leasing or production but rather it includes nonrelevant factors such as coastline mileage and population. Finally, the money will be used by States for coastal zone management-type purposes, but not in lieu of separate Federal CZMA funding. At a time when this House has already passed legislation this year to reauthorize but cut back CZMA funding, it makes no sense, particularly given our Federal deficits, to be passing this program to be used for this duplicative purpose.

From a procedural standpoint, including a program such as OCS revenue sharing in the reconciliation bill stifles the legislative due process. Our committee has had no hearings on this measure this year. No doubt its proponents will say that this program has passed the House in previous years. While that is true, more than one revenue-sharing proposal was considered during our committee markup. As well, this proposal, for the first time, is in conjunction with CZMA funding and not in lieu of it. And, furthermore, our fiscal picture is even worse today than it was 2 years ago when the House last passed it.

Clearly, this is a provision which cries out for careful consideration and amendment—not concealment in a bill meant to fulfill the purposes of the Budget Act.

Mr. Chairman, as a ranking minority member of the Banking Committee, I witnessed an equally, perhaps greater, abuse of the legislative process by that committee's inclusion of H.R. 1 in its reconciliation package. Our committee considered over 125 amendments to the measure and the result was far, far short of what I consider to be a good bill. What logic, then, prevails in considering this measure as part of a vehicle which drastically restricts a Member's ability to offer amendments? Not to mention, of course, the larger policy question of whether we are actually doing our Nation's housing cause more damage than good by irresponsibly increasing our deficit and, therefore, raising interest rates which are so important to potential homeowners.

The Latta amendment should not be a difficult vote. Its passage will simply mean that the House recognizes that it is time to stick to our own budget rules as best we can, and debate the other issues fairly and openly on their merits.

Let's change the tone played by this symphony of lawmakers—from the monotone of deficit spending to the harmony of thoughtful, responsible fiscal planning.

Mr. WIRTH. Mr. Chairman, I want to amplify my reasons for voting against the Latta amendment to the House reconciliation budget bill, H.R. 3500.

We have seen more smoke and mirror budget tricks this year than I hope we will ever see again. However, the unfortunate reality is that this amendment gives us more of the same.

Supporters of the Latta amendment have argued that it will save $3.5 billion from the deficit over the next 3 years. That assertion is flat wrong. Using figures from the nonpartisan Congressional Budget Office, the House Budget Committee has shown that the Latta amendment would save at most $300 million over 3 years, and even those savings will probably not materialize.

Proponents of this amendment appear to have dramatically overstated budget savings to make their proposal look like a major deficit cutter. It is not. In the area of civilian pay raises, for example, this amendment's supporters have ignored CBO cost estimates, claiming $1.3 billion in savings that will never occur.

Moreover, last-minute revisions by the authors of this amendment would take aviation, highways, and mass transit trust funds off budget, thereby removing about $17 billion in Federal programs from budget scrutiny.

Mr. Chairman, as its contribution to this deficit reduction bill, the Banking, Finance and Urban Affairs Committee has surpassed the deficit-cutting targets specified by the fiscal year 1986 budget resolution by $2.3 billion. While it is true that the committee has added some new programs, every one of them has been paid for by cuts in other areas.

These zero-sum changes were the product of a careful program-by-program review by the Subcommittee on Housing and Community Development and the full committee. Moreover, the programs under question here today had broad, bipartisan support when they were passed unanimously by voice vote out of both committee and subcommittee. This bill includes a fair housing program proposed by the Housing and Urban Development Secretary, and a new Rural Housing Loan Guarantee Program and public housing financing changes which were proposed by Republican members of the committee.

Although the authors of the Latta amendment argue that a reconciliation bill should not contain any new funding, they apply this principle inconsistently. While the amendment singles out 16 of the bills programs, it does not touch 11 other new authorizations. This kind of arbitrary budget policy is simply unfair.

Mr. Chairman, let us be perfectly clear. The provisions that the Latta amendment would delete not only meet but actually exceed the agreed upon budget-cutting targets. CBO figures certify that those who claim this amendment would cut the deficit by $3.5 billion are deceiving the American public.

The authors of this amendment are not writing good budget policy; they're writing fiction.

Mr. GRAY of Pennsylvania. Could I inquire of the Chair how much time is remaining on both sides?

The CHAIRMAN. The gentleman from Pennsylvania [Mr. GRAY] has 8½ minutes remaining, and the gentleman from Ohio [Mr. LATTA] has 6 minutes remaining.

The Chair would state to the gentleman from Pennsylvania that as the manager of the bill he would have the right to close debate.

Mr. GRAY of Pennsylvania. Mr. Chairman, at this time what I would propose to do is to yield to one other speaker and then use the remaining time to close debate.

Mr. Chairman, I yield 1½ minutes to the distinguished chairman of the Committee on Banking, Finance, and

Urban Affairs, the gentleman from Rhode Island [Mr. ST GERMAIN].

Mr. ST GERMAIN. Mr. Chairman, I would like to address a few points that have been made since I initially spoke.

We held 12 days of hearings in the subcommittee and had 8 days of markup.

"Over the Rainbow," we had 3 days of hearings, March 22, 25, and 15; whereas we marked up in other places, instead of a markup, the markup call was for 9:35 a.m. and it was adjourned at 9:40 a.m. with a promise that on September 24 that it would be concluded, the markup, that is, at the end of that week.

Well, here we are in October and no new markup scheduled. I guess they have not found out yet where they are going.

That is why we are asking you to help us keep the housing bill in reconciliation.

I say to my colleagues that our very, very distinguished member of the Rules Committee who spoke a few moments ago put it right on the button. He hit it right on the button.

Having stripped other items from the bill, we are left with a situation where the unfortunates of this country are going to be hit, but we took care of the big guys.

Incidentally, there were 30 members on the Democratic side of the Banking Committee and I would like to inform the members of the Public Works Committee that we on the Banking Committee are going to be looking very closely at the next vote that is going to occur in a few moments, because I have not decided yet how I want to go on the Fazio amendment. I think many of my colleagues on the Banking Committee, the 30 Democrats and myself, have that decision yet to make.

Vote "no," please, on Latta.

Mr. LATTA. Mr. Chairman, I yield 2 minutes to the gentleman from Texas [Mr. BOULTER].

Mr. BOULTER. Mr. Chairman, I rise in support of Congressman LATTA's amendment to H.R. 3500, the Omnibus Reconciliatin Act of 1985. As you know, this amendment would eliminate approximately $3.5 billion of add ons to the deficit, including a major authorizing bill—H.R. 1, the Housing Act of 1985, and a congressional pay raise.

Ladies and gentlemen, this body is at a watershed point. Are we going to continue profligate spending of the taxpayers' money, or are we not? Are we going to do something about the deficit, or are we not?

Now is the time to decide. If savings cannot be achieved during the reconciliation process, they are never going to be achieved. If the Latta amendment fails, then we don't have reconciliation and Congress will have made a sham of the budgetary process once again.

Following the August district recess, it is now clear to all of us that the process by which we take tax dollars and spend them has come under intense public scrutiny as never before. Opinion polls show that the deficit is now the No. 1 area of concern the American people have about their Government. Imagine that—inflation, national security, the entire array of public concerns now takes a back seat to our spending habits. We're castigated on editorial pages across the country. Many have suggested that the budgetary process is out of control and can be salvaged only through institutional changes.

Congress brought all this attention on itself. Congress spent its way into the deficit, and then last fall Members traveled around their districts wringing their hands over it. I'll wager about 90 percent of the Members here campaigned in 1984 on cutting Government spending.

Now is the time to begin redeeming those promises to our constituents. Mr. LATTA's amendment will save $3.5 billion over 3 years. That's a small but steady step toward the $276 billion in savings this body has resolved to achieve in the fiscal year 1986 budget resolution.

Is the House genuinely concerned about this Nation's economic health, or is it an out-of-control collection of spendthrifts? Is the fiscal 1986 budget resolution meaningless rhetoric, or a real goal? Whether or not Congressman LATTA's amendment passes will do much to provide the answers.

Mr. GRAY of Pennsylvania. Mr. Chairman, may I inquire how much time is left?

The CHAIRMAN. The gentleman from Ohio has 4 minutes remaining and the gentleman from Pennsylvania has 7 minutes remaining.

The gentleman from Pennsylvania has requested to utilize the balance of his time in closing, which under the precedents he would have the right to do.

Mr. LATTA. Mr. Chairman, I have the right under the procedures of the House, since it is my amendment, to close the debate.

The CHAIRMAN. The Chair will state to the gentleman that the manager of the bill, under the precedents, has that right, and the Chair so rules.

Mr. LATTA. Well, Mr. Chairman, that is new.

Mr. GRAY of Pennsylvania. Mr. Chairman, I would like to inform the Chair, as well as the distinguished gentleman on the other side, that there may have been some implication that we have one speaker; we have two for the closing, and if the gentleman is saying that, we will be glad to put on one speaker and then close.

The CHAIRMAN. The Chair will be happy to accommodate the Members in whatever agreement they reach.

Does the gentleman from Pennsylvania wish to yield at this time, or the gentleman from Ohio?

Mr. LATTA. Mr. Chairman, if the gentleman from Pennsylvania has another speaker, I will be glad to yield to him, but not for closing. I still have some time.

Mr. GRAY of Pennsylvania. Mr. Chairman, it is my understanding that this side will close; is that correct?

The CHAIRMAN. The Chair has so stated.

Mr. GRAY of Pennsylvania. Therefore, Mr. Chairman, I yield myself 2½ minutes.

Mr. Chairman, I rise in opposition to the Latta amendment for two reasons. First, it is discriminatory; and second, it is claiming falses promises.

First, let us talk about the discriminatory nature. It says it wants to go after new programs that are authorized in reconciliation, even though it ignores the fact that just 4 years ago in 1981 the Gramm-Latta reconciliation had 200 changes in authorization.

But be that as it may, it asks us to go after 16 programs that are in reconciliation, yet it overlooks 11.

The question then is that if you want to go after authorizations and new programs, let us be honest about it; go after all of them, do not pick and choose. Do not skip here and go there. Do not go after poor people's programs and leave the others alone; so I say that it is discriminatory and, therefore, ought to be rejected because it does not go after all the authorizations. It only goes after some. It picks and chooses.

Second, it is also guilty of false promises and false claims, and let me tell you what they are. It claims that it is going to reduce the deficit even further. That is absolutely not the case at all. The Latta amendment claims $1.3 billion in additional savings for pay. CBO stated in a letter to us that the Latta language saves the same as the House-passed reconciliation. Therefore, the Latta amendment can claim zero for new savings.

For those who say this is going to reduce the deficit, I am here to tell you that it does not further reduce the deficit at all. What you are doing is selecting a different set of priorities from those selected by the 10 committees that submitted their recommendations.

Now, if the minority side wants to admit that its Members who served on the 10 committees failed to live up to their responsibilities, then that ought to be dealt with somewhere else; but it ought not to be dealt with here in reconciliation, because it was not dealt with in the various respective committees of jurisdiction.

I urge you to vote "no" on Latta because it discriminates. It does not go after all the authorizations.

I urge you to vote "no" on Latta because CBO certifies that it will not save additional dollars, as claimed by its author.

Mr. Chairman, I urge a "no" vote.

Mr. LATTA. Mr. Chairman, I yield 1 minute to the gentleman from Kentucky [Mr. SNYDER].

Mr. SNYDER. Mr. Chairman, on yesterday during general debate I spoke in opposition to the Latta amendment because I felt that it blocked our efforts to take the transportation trust funds off budget. I thought it was inappropriate to include that language in the budget.

This morning, as you know, the amendment was amended and now the trust funds go off budget beginning in fiscal year 1989.

The Congressional Budget Office has advised us, and it is in the printed report, that because of the surplus being built up in these funds and not being spent, that when you begin to draw down on them in future years you would increase the deficit beginning in 1989.

□ 1245

So by taking the trust funds off budget in 1989, we will decrease the deficit in 1989 by $80 billion, and $230 million in 1990.

This is a deficit reduction move, by taking the trust funds out of the unified budget and I am pleased to support the Latta amendment and ask my colleagues to do likewise.

Mr. LATTA. Mr. Chairman, I yield myself 1 minute.

Mr. Chairman, this has been good debate, but we are far afield from what we are concerned with. We are concerned with reducing the deficit by $3.5 billion. Vote against the Latta amendment and you are saying, "I want to go $3.5 billion further in the red."

That is the question. Also, it has been brought up here and I cannot believe my ears when it's said that when you increase the salaries of Federal employees, including Members of Congress, in fiscal years 1987 and 1988, somehow you are going to reduce the deficit.

On the housing matter, we have had that bill up before the Committee on Rules for 2 months. If that bill could have stood on its own, the Committee on Rules would have reported it and we would have had it down here on the floor. They should not be attempting to slip it through here on the floor of this House without amendment, without having a chance to debate it. That is what they are saying to us.

Let me say in conclusion that we cannot take all the problems of country in one amendment. We are being criticized because we are not taking care of all of the problems of the country. We are taking care of $3.5 billion, and that is the issue.

Mr. Chairman, I yield the balance of my time to the minority leader, the gentleman from Illinois [Mr. MICHEL].

The CHAIRMAN. The gentleman from Illinois [Mr. MICHEL] is recognized for 2 minutes.

Mr. MICHEL. I thank the gentleman for yielding this time to me.

Mr. Chairman, the reconciliation process is the means through which the various committees meet their obligations for deficit reduction. It is not a Christmas tree upon which we hang goodies for one and all. It is not a piece of legislative machinery to create new spending. It is the enforcement arm of the budget. It is not a procedure for initiating new ideas. It is a procedure for implementing ideas that we have already accepted.

So it logically follows that any deficit add ons to the Omnibus Reconciliation Act of 1985 are against the spirit and the letter of the reconciliation process.

The substitute offered by the gentleman from Ohio [Mr. LATTA] helps us subdue our fiscal schizophrenia which I see ballooning here. His amendment would eliminate the spending increases contained in the bill and reduce the deficit by an additional $3.5 billion over 3 years. That is what this is all about. That is why some of us are over on the other side of the Capitol with that deficit-reduction reconciliation conference over there.

I cannot belabor the points. We have a clearcut choice. Either we accept the substitute offered by the gentleman from Ohio [Mr. LATTA] and help to reduce the deficit, or we accept this bill as it is and add to the deficit another $3½ billion that we are supposed to milk out over there on that conference committee.

There are no ambiguities here, I do not think, no complexities. Just a simple choice: Either support the substitute offered by the gentleman from Ohio [Mr. LATTA] or support rising deficits. Up or down. Yes or no. It is a clean-cut issue. There just is not anything more simple than that.

Mr. GRAY of Pennsylvania. Mr. Chairman, I yield the balance of my time to the distinguished gentleman from Texas [Mr. WRIGHT], the majority leader of the House.

The CHAIRMAN. The gentleman from Texas [Mr. WRIGHT] is recognized for 4½ minutes.

Mr. WATKINS. Mr. Chairman, will the majority leader yield?

Mr. WRIGHT. Yes, Mr. Chairman, I yield to the gentleman from Oklahoma.

Mr. WATKINS. I thank the gentleman for yielding.

Mr. Chairman, I would like to make it very clear to my colleagues on what the Latta amendment would do to rural housing across this Nation.

It would zero out and gut rural housing. There will not be any rural housing. We do not have commercial mortgage lending operations in most of these counties, so I urge my colleagues all across this Nation, if you are concerned about rural housing to vote "no" against the Latta amendment.

Mr. WRIGHT. I thank the gentleman from Oklahoma for pinpointing one of the very good reasons for voting against the Latta amendment, because it does zero out any effort to do anything for rural housing.

In addition to that, it would zero out the language that permits the extension of the FHA Mortgage Insurance Program, something that all of us have enjoyed for 35 years. It would zero it out. It would zero out the Nehemiah Program, which permits poor and low-income Americans in our cities to be able to buy homes and own their own homes and get a piece of the rock and have a feeling that they own a piece of America and become capitalists in a small way of their own. It would zero that out.

Those are some of the things it would do. It would zero out free programs that provide emergency shelter and food for homeless Americans left to drift on this tide of American mobility.

Those are the things that it would cut out. The purpose is not really to save money. Let us not be deceived by that. The Congressional Budget Office makes it abundantly clear that this reconciliation bill without the Latta amendment is fully within the budget figures that this very House adopted. What it does instead is to do what it was attempting to do 4 years ago, and that is to second-guess the committees of the House, come out here on the House floor at the last minute and substitute the judgment of one individual for the judgments of the committees that have been appointed to make these individual choices.

The Committee on Banking, Housing and Urban Development has stayed within its limits. The Budget Reconciliation Act has only the responsibility for dividing among the various committees of the House the various categorical programs that we have highlighted in our budget resolution. Then we have left it up to those committees, under the rules of the House, to make the judgments as to where those individual moneys properly would best be spent.

The gentleman from Ohio has made statements today that it would be a tragedy to come in here at the last minute and use a reconciliation bill for authorization purposes. Yet, I remember 4 years ago when the very same gentleman from Ohio presented a reconciliation amendment. We do not know how many pages long it was because they were unnumbered, but more than 700 pages long, and nobody knew what was in it.

Mr. LATTA. Mr. Chairman, will the gentleman yield?

Mr. WRIGHT. I do not yield at this point, because I did not ask the gentleman to yield to me. I have only about 2½ minutes left and I have several other points I want to make.

The gentleman full well knows that in that reconciliation amendment he offered that day, nobody knew what was in it and it changed more than 200 regular laws of the House, regular laws of the United States, and it was crammed down our throats in one blind gulp. The gentleman has little bearing when he comes to stand before us and complain about authorizations in these reconciliation bills. We have always had some authorizations in reconciliation bills. That is the purpose of the committee system of the House.

Were it not for that, we could just do away with the committees and invest all the House's responsibility in the Budget Committee alone. I do not think any of us want to do that.

□ 1255

So it is not money and it is not procedure that they are complaining about.

Well, what is it they are complaining about? They are complaining about spending any of this money on these programs that benefit the least fortunate among us, the homeless, the hungry, the people who are trying to grub out a bare living, the working poor, those who would like to own a home, those who would like to be good citizens, those who would like an opportunity to buy a home in the neighborhood of $40,000.

Every time a home cost goes up $1,000, it knocks 100,000 Americans out of the market. And every time the interest rate goes up 1 percentage point, it knocks 300,000 Americans out of the market. It renders that many more people incapable of owning their own homes.

It seems to me that this part of the American dream that we make it possible for the humblest among us to have a decent standard of living, and to own their own home, and a piece of the action in this country, is something that is at stake in this amendment, and I ask us to vote no on the Latta amendment.

The CHAIRMAN. All time has expired.

The question is on the amendment offered by the gentleman from Ohio [Mr. LATTA].

The question was taken; and the Chairman announced that the noes appeared to have it.

RECORDED VOTE

Mr. LATTA. Mr. Chairman, I demand a recorded vote.

A recorded vote was ordered.

The vote was taken by electronic device, and there were—ayes 209, noes 219, not voting 6, as follows:

[Roll No. 370]

NOT VOTING—6

Addabbo	Conyers
Brown (CA)	Nelson
Coelho	Smith, Denny (OR)

□ 1310

The Clerk announced the following pairs:

On this vote:

Mr. Nelson of Florida for, with Mr. Brown of California against.

Mr. Denny Smith for with Mr. Conyers against.

Mr. YATRON changed his vote from "no" to "aye."

So the amendment was rejected.

The result of the vote was announced as above recorded.

POINT OF ORDER

Mr. ROSTENKOWSKI. Mr. Chairman, I raise a point of order against section 3113 of H.R. 3500.

I raise a point of order against section 3113 of H.R. 3500 on the grounds that it is in violation of clause 5(b) of House rule 21 which prohibits legislation carrying a tax or tariff measure from being reported by any committee not having jurisdiction to report tax or tariff measures.

Mr. Chairman, section 3113 of H.R. 3500 attempts to exclude certain interest on the Student Loan Marketing Association from application of Internal Revenue Code section 265. Code section 265 denies an income tax deduction for certain expenses and interest incurred to purchase tax-exempt obligations. Section 3113 of H.R. 3500 deems certain interest of the Student Loan Marketing Association not to come under code section 265.

The allowance or denial of an interest deduction against income taxes is clearly within the jurisdiction of the Committee on Ways and Means.

Mr. Chairman, it is clear that section 3113 is a tax measure and, as such, violates clause 5(b) of rule 21.

The CHAIRMAN. Is there any Member who desires to be heard on the point of order?

The Chair sustains the point of order.

That section is stricken from the bill.

POINT OF ORDER

Mr. ROSTENKOWSKI. Mr. Chairman, I raise a point of order against section 6701 of H.R. 3500.

I raise a point of order against section 6701 of H.R. 3500 on the grounds that it is in violation of clause 5(b) of House rule 21 which prohibits legislation carrying a tax or tariff measure from being reported by any committee not having jurisdiction to report tax or tariff measures.

Mr. Chairman, section 6701 of H.R. 3500 expands the tax benefits available to shipowners through a capital construction fund or CCF. Today, a U.S. citizen owning or leasing one or more eligible vessels may enter into an agreement to establish a CCF with respect to such vessels. The owner may deposit all taxable income from the eligible vessel, depreciation on the vessel, and proceeds from its sale or disposition into the CCF.

For purposes of the Internal Revenue Code, taxable income from the vessel is reduced by the deposits into the fund. Gain from the sale or disposition of the vessel is not taken into account for tax purposes. The fund is tax exempt unless the money is spent for other than a qualified purpose.

Under present law, the eligible vessel for which these tax-deductible deposits can be made must be constructed in the United States and, if reconstructed, reconstructed in the United States. Section 6701 of H.R. 3500 would modify the definition of an eligible vessel so that a CCF could be established for foreign built or reconstructed ships. This would mean that tax deductions would be allowed for income from foreign-built ships deposited in a CCF.

The report language included in the conference report on H.R. 3500 makes it clear that the amendment was intended to allow repatriation of foreign-source income without current U.S. tax. Under present law, the foreign-source income of U.S. taxpayers is taxed when it is repatriated to the United States. By expanding the tax benefits of a CCF, section 6701 overrides that tax rule with regard to CCF deposits.

A second part of section 6701 expands the definition of "qualified vessel" for purposes of CCF. Under present law, funds in a CCF may be spent—still without tax—for the acquisition, construction, or reconstruction of a qualified vessel. To qualify, a vessel must be operated in the U.S. foreign, Great Lakes, or noncontiguous domestic trade, or in the fisheries of the United States Section 6701 expands the definition of qualified vessel so that vessels used in the exploitation of offshore mineral and energy resources would qualify.

The shipowner can continue to exclude from tax the money from the CCF used to purchase the vessel. Again, this is clearly a tax provision.

Mr. Chairman, section 6701 is clearly a tax amendment for all of the reasons I have mentioned. Although these provisions are now contained in the Merchant Marine Act of 1936, these amendments are tantamount to amendments to the Internal Revenue Code.

These sections clearly state that the tax benefits are "for purposes of the Internal Revenue Code."

These provisions are within the jurisdiction of the Committee on Ways and Means.

Clause 5(b) of rule XXI is similar to clause 5(a) of the same rule which allows a point of order to lie against appropriations' measures reported by any committee not having jurisdiction to report appropriations. It is my understanding Mr. Chairman, that under clause 5(a), which has been in the House rules for a much longer period than clause 5(b), the fact that legislation containing an appropriation has from time to time been referred to committees other than Appropriations has not controlled. Those referrals have not conferred upon other committees jurisdiction over appropriations' measures.

Mr. Chairman, clause 5(b) should be construed in a similar fashion to clause 5(a). Referral of tax measures to other committees does not give those committees jurisdiction over those tax measures as far as a point of order under clause 5(b) of rule 21 is concerned.

Mr. Chairman, in addition, I would argue that under the jurisdictional rules of the House of Representatives adopted in 1974, the Committee on Ways and Means has jurisdiction over all tax measures.

Mr. Chairman, I restate that section 6701 of H.R. 3500 is clearly a tax measure which is in violation of clause 5(b) of rule XXI.

□ 1320

The CHAIRMAN. Is there any other Member who desires to be heard on the point of order?

If not, for the reasons stated by the gentleman from Illinois, the point of order is sustained.

The section is stricken from the bill.

AMENDMENT OFFERED BY MR. FAZIO

Mr. FAZIO. Mr. Chairman, I offer an amendment.

The Clerk read as follows:

Amendment offerd by Mr. FAZIO: Strike out subtitle B of title VIII beginning on page 481 line 1 through page 486, line 6.

The CHAIRMAN. Under the rule, the gentleman from California [Mr. FAZIO] will be recognized for 15 minutes, and a Member opposed thereto will be recognized for 15 minutes.

Mr. HOWARD. Mr. Chairman, I am opposed to the amendment.

The CHAIRMAN. The gentleman from New Jersey [Mr. HOWARD] will be recognized for 15 minutes in opposition.

The Chair now recognizes the gentleman from California [Mr. FAZIO].

Mr. FAZIO. Mr. Chairman, I yield myself such time as I may consume.

Mr. Chairman, first of all let me say this is not the traditional appropriation/public works battle that a number of people tell me they have gotten tired of us having on the floor of the House.

I enjoy laying concrete on runways and on freeways just as much as the people on the Public Works Committee. In fact, I have carried gas tax legislation at the State level. I tend to have a different point of view that comes more as a result of my service on the Budget Committee. I think the issue we are fighting out here today goes much further and is much more basic about how we are going to deal with the continuing struggle to reduce expenditures, particularly as we face the Gramm-Rudman prospect that is in conference right now.

The issue is, why should we single out transportation trust funds for special treatment? Why not Medicare or veterans' insurance, or any of the dozen other large trust funds? Why not take the entire 40 percent of Federal spending that trust funds represent off budget? Are we really ready to do that at this juncture facing Gramm-Rudman? I do not think so. Certainly these provisions will set that precedent. This is not the right vehicle nor is this the right committee to make such a decision. The full ramifications of these provisions ought to be reviewed by a committee of broader jurisdiction, the Committee on Government Operations. You can see from the arguments made by the proponents that their only concern is the

wellbeing of these two transportation programs, nothing else. We ought to make a reasoned decision about all trust funds, not a hasty judgment based on incomplete facts.

At this time I would yield to the chairman of the Committee on the Budget to ask Mr. GRAY what the impact wold be if we were to move all trust funds from the budget process.

Mr. GRAY of Pennsylvania. If the gentleman will yield, if we removed all trust funds off budget, it would mean $306.4 billion in budget authority, $248 billion in outlays would be deducted from the fiscal year 1986 unified budget.

Mr. FAZIO. Clearly, if we were to take that step today that is being asked of us, this first step, we would be setting the kind of precedent that could well lead us in the direction of removing that kind of budgetary control from the hands of Congress at the very time when we are under even more pressure to reduce expenditures?

Mr. GRAY of Pennsylvania. What we would be doing, if you remove the trust funds, would be two things. One, there would be an increase of about $500 million to the deficit. But you would also have to get into the question of the other trust funds as to whether they would be moved off budget as well. That would be a decision I would imagine that would follow in the process.

Mr. FAZIO. I appreciate the comments of the chairman.

With particular focus on transportation alone, let me say that these provisions are going to force additional cuts in the general funded have-not programs.

They are have-nots because they are not guaranteed anything. They do not have trust fund support. Yet they are very important to all of us.

Railroad safety, air traffic control, we have all been focusing on the need to pay more attention in that area; airline maintenance inspection, the problems as a result of deregulation that are very much on the minds of America this year; Coast Guard Service, drug interdiction; Amtrak; repairing the St. Lawrence Seaway, something very important to Members from the upper Midwest; mass transit operating assistance, very fundamental to people representing urban areas. All of these general fund programs, the have-nots will suffer because, as we limit overall transportation spending, these two trust fund accounts continue to grow, thereby pushing down on all the other programs.

In fact, the chairman of the Subcommittee on Aviation, the authorizing committee, Mr. MINETA, sponsored a successful amendment on the appropriations bill just this year to transfer $15 million from the Trust Fund Aviation Procurement Program to the General Fund Airline Inspection Program. We need to continue to have this kind of flexibility for good budgetary control. These programs have a large impact on the economy, and their impact should be considered when we make decisions that affect the total economy. And the President's budget is the primary document we use to base spending and taxing priorities upon. We should not deny Congress the opportunity to scrutinize each and every spending activity on a regular and annual basis.

I want to make clear, this amendment is strongly supported by the administration, by OMB, and by the Comptroller General, a member of the legislative branch, and the GAO.

Mr. PURSELL. Mr. Chairman, will the gentleman yield?

Mr. FAZIO. I would be happy to yield at this time to my friend from Michigan, the gentleman from Michigan [Mr. PURSELL].

Mr. PURSELL. I thank the gentleman for yielding.

Mr. Chairman, I want to congratulate the gentleman for an excellent crafted amendment. It is fundamental, this principle of off-budget and budget constraints in relation to this amendment are very important.

I support the Fazio amendment. I think it should be adopted unanimously today.

I congratulate the gentleman for his effort.

Mr. FAZIO. I appreciate the comments of the gentleman.

Mr. HOWARD. Mr. Chairman, I yield 2½ minutes to the chairman of the Surface Transportation Subcommittee of our committee, the gentleman from California [Mr. ANDERSON].

Mr. ANDERSON. Mr. Chairman, intellectual honesty demands that we reject this amendment. I am convinced that every one of our colleagues who will take the time, read the "Dear Colleagues," listen to the debate, and think objectively, will oppose the amendment.

People pay user taxes into a trust fund because their government has told them they will help pay for improved highway—public transit, and aviation transportation systems. But their money is allowed to sit in a fund so that the same government—and that's each of us—can deceive them into thinking that the deficit is smaller than we all know it to be.

If we cut highway or transit spending by a nickel, we cannot increase domestic spending or defense spending by a nickel. Because transportation funding comes from a trust fund. That's "trust," spelled t-r-u-s-t.

Mr. Chairman, the choice is clear. Let no person say that they didn't know, or that it wasn't made clear. Because although the details and technicalities can be confusing, here is what it boils down to: a vote for this amendment is a vote against better highways and public transit in your district, and it is a vote to continue deceiving our constituents on the magnitude of the deficit and the debt.

This amendment cries out for a "no" vote.

Mr. Chairman, we all know where JIM HOWARD and VIC FAZIO stand on this issue. Let's take a look at what Ronald Reagan thinks about trust fund programs being included in the unified budget.

At a January news conference, the President was asked about the impact that a particular trust fund program—Social Security—has on the budget. The President said:

> That tax is totally dedicated to that one program. If Social Security spending was reduced, you could not take the money saved and use it to fund some other program in the deficit. It would simply go back into the * * * trust fund * * * it is far more profitable * * * to turn to the programs that are really causing the deficit.

President Reagan recognizes the basic principle that trust fund spending has nothing to do with the deficit. Congress has recognized that basic principle with respect to Social Security and that program is being taken off-budget. So, if this body wants to stand by this principle, it will reject the amendment that is before us.

Finally, Mr. Chairman, let me just elaborate on something I heard a moment ago. Transportation trust funds are virtually unique among our Nation's trust funds because they are 100 percent user-paid programs that include antideficiency provisions which guarantee that the funds will operate in the black. That is a very critical distinction between the transportation trust funds and other trust funds, and it is the distinction that makes them worthy of the same treatment as Social Security.

Vote "no" on the Fazio amendment.

Mr. HOWARD. Mr. Chairman, I yield 3 minutes to the distinguished ranking member of the Surface Transportation Subcommittee, the gentleman from Pennsylvania [Mr. SHUSTER].

Mr. SHUSTER. Mr. Chairman, I rise in strong opposition to the Fazio amendment for two reasons. First, as one who has served for 6 years on the Budget Committee, I believe that by defeating the Fazio amendment we will be striking a blow for truth in budgeting. Now, what do I mean by that? I mean this: That the transportation trust funds are dedicated, user-supported funds, dollars which cannot by law be spent for any other purpose than transportation, highway, aviation, and transit construction.

So to mask general fund spending under the guise of limiting transportation trust fund spending really distorts, very clearly distorts, the issue of what the real deficit is in this country. But beyond the issue of truth in budg-

eting, of great significance is the fact that we are not talking here simply about a bookkeeping transaction, we are talking about a very serious limitation which has been imposed on transportation expenditures. As a result of keeping this trust fund under the unified budget, it has created a pressure to reduce the obligational ceilings for transportation spending. Never mind that there are multibillion-dollar surpluses in the transportation trust funds, never mind that those dollars under law must be dedicated to transportation construction; by being under the unified budget there has been pressure to limit the obligations of these expenditures in order to create the false impression that the deficit is not as large as it really is. The impact, and this is not theoretical, the impact on every one of our States as a result of these limitations on their obligations has been, in toto, $6.2 billion. These billions of transportation dollars are languishing in those trust funds, not being spent in your State and in my State, because of the false ceilings placed upon those expenditures.

□ 1335

From Alabama losing $75 million, to Puerto Rico $62 million, to Texas $494 million, every State in America is losing money, losing money that otherwise would be spent to help build better highways, safer highways, saving lives in your States, better airports, better aviation systems and better transit systems. Why? Because of this fictitious ceiling on obligations.

Mr. Chairman, for these reasons, I would urge the defeat of the Fazio amendment.

The CHAIRMAN. The time of the gentleman from Pennsylvania [Mr. SHUSTER] has expired.

Mr. HOWARD. Mr. Chairman, I yield 1 additional minute to the gentleman from Pennsylvania [Mr. SHUSTER].

Mr. HAMMERSCHMIDT. Mr. Chairman, will the gentleman yield?

Mr. SHUSTER. I yield to the gentleman from Arkansas.

Mr. HAMMERSCHMIDT. I commend the gentleman for his statement.

Mr. Chairman, I rise in opposition to this amendment. This amendment would, if adopted, eliminate the provision in the current bill taking the aviation, highway, and mass transit trust funds off-budget.

Airline passengers now have to pay an 8-percent tax when they buy a ticket. Other users of the air transportation system, such as private pilots, also have to pay taxes on the fuel they buy. The money generated from these taxes goes into the airport and airway trust fund. This trust fund is used to improve the air transportation system.

But unfortunately, much of the money in this trust fund is often not spent in the way intended. In fact, currently more than $3 billion has not been spent at all. Instead it is used to make the deficit appear smaller. Of course, since trust fund money cannot be spent for any purpose but aviation, the reduction in the deficit is merely an illusion. The money is not spent for other public purposes or to pay off the national debt. It just sits there in the trust fund and accumulates.

The money just sits there despite many urgent needs in the air transportation system. Air traffic control facilities and equipment need to be modernized in order to enhance the safety and efficiency of the system. Airport improvements need to be made in order to help increase capacity and reduce delays.

This problem would be corrected by H.R. 3500. But approval of this amendment would reverse that. If this amendment is adopted, it is likely that appropriations will remain below needed spending levels. The defeat of this amendment will ensure that the money in the aviation trust fund is actually used for the transportation purposes for which it was established. It is of the greatest importance that we not break faith with the airline passengers and private pilots of this country who have supported this trust fund.

I know that some may say that by taking the trust fund off-budget there will be no assurance that trust fund spending is covered by trust fund receipts. Given the huge surplus in this trust fund, this is not a realistic concern. Nevertheless, it should be noted that this bill contains an antideficit provision that is patterned after the Byrd amendment in the Highway Act. This will ensure that aviation spending programs always operate in the black.

Therefore, I oppose this amendment and urge my colleagues to vote against it.

Mr. SHUSTER. Mr. Chairman, I yield to my friend, the gentleman from Kentucky [Mr. SNYDER].

Mr. SNYDER. Mr. Chairman, I, too, want to commend the gentleman for his statement.

Mr. Chairman, I rise in strong opposition to the amendment of the gentleman from California. The Fazio amendment would continue the fraudulent budgetary practice of using large user-financed transportation trust fund balances to create the illusion of a smaller deficit in the general fund. That amounts to breaking faith with those highway and airport users who agreed to pay the taxes that support trust funds on the condition that they be used to improve the Nation's highway, transit, airport, and airway systems.

In fact, these dedicated funds cannot be used for purposes other than transportation as provided by law. Any budget-enforced savings cannot be used to fund other programs, so the money just sits idle, while the needed improvements that highway and airway users paid for are not made.

Reconciliation is the appropriate place to move the highway and aviation trust funds off budget. There is precedent, in that the 1981 reconciliation measure took the general fund-supported strategic petroleum reserve program off budget. Moreover, since the budget process is creating the problem by cutting trust fund programs, it only makes sense to deal with the problem through the budget process itself.

Taking these trust funds off budget will not remove all controls over spending from the fund. Those programs that require appropriations will still require annual appropriations. The Appropriations Committee can still put obligation ceilings in appropriations bills, but it will no longer have the incentive to unduly ratchet down on trust fund programs in order to increase programs funded from the deficit-ridden general fund.

Unlike open-ended entitlement programs, highway, transit capital and aviation spending is limited by authorizing legislation regularly passed in both Houses and signed into law. Furthermore, highways and transit have a built-in antideficit mechanism limiting outlays to income, and the reconciliation bill extends this to aviation.

According to CBO, taking the trust funds off budget will increase the deficit by $580 million in fiscal year 1987 and $50 million in 1988 and decrease the deficit by $80 million in fiscal year 1989 and by $230 million in fiscal year 1990, since in those years the trust funds will be spending out more than they take in so as to draw down their balances. It is my understanding that the Public Works Committee would have no problem in slipping the effective date of the provision from fiscal year 1987 to fiscal year 1989, thereby eliminating any adverse effect on the "paper deficit."

Cutting trust fund construction programs creates special problems due to the slow rate of spendout of these programs. It often takes 6 or 7 years for the full amount of the outlays to pay out, with only 10 to 15 percent paying out in the first year. Therefore, just to achieve the $200 million in outlay savings required by reconciliaton for fiscal year 1986, our committee had to cut the obligational authority of the highway trust fund by $1.2 billion.

We have reached this point after years of frustration and attempts by the Public Works and Transportation Committee to get proper recognition of the uniqueness of these trust funds. The current practice damages our highway, transit, and aviation pro-

grams and it undermines the integrity of the budget process. It must not be allowed to continue. Accordingly, I urge the defeat of the amendment.

Mr. FAZIO. Mr. Chairman, I yield 1 minute to the gentleman from South Carolina [Mr. DERRICK].

Mr. DERRICK. I thank the gentleman for yielding.

Mr. Chairman, I strongly support the Fazio amendment for two reasons. One is that we have no business dealing with this sort of situation on a reconciliation bill. I think, in all fairness, you must ask yourselves, "Why are we doing it here as opposed to doing it through the normal authorization and appropriations process?"

Well, I asked a senior member of that committee why that was so, and they said it was because they could not get it through if they went through the regular channels.

Now, we have no business dealing with it. If they want to bring it down the regular process, let them do it.

The other reason is, here we are, talking about Gramm-Rudman, here we are, talking about balancing the budget, here we are, talking about fiscal responsibility, but in the same breath we are going to take major trust funds out from under the control of Congress, out from under control of the administration, and go home and tell our people that we are fiscally responsible.

I ask you to vote for the Fazio amendment. It is an important vote.

Mr. FAZIO. Mr. Chairman, I yield 2 minutes to the gentleman from Massachusetts [Mr. CONTE].

Mr. CONTE. Mr. Chairman, I rise in strong support of the Fazio amendment, which would strike sections 8201 and 8202 from this bill.

These sections, which would take the highway and aviation trust funds off budget, have no business being in this measure in the first place. No comprehensive hearings on this question have been held by either the Public Works Committee or the Committee on Government Operations. And it is especially inappropriate that a reconciliation measure—the enforcement mechanism of the budget process—should be used in this way to further open the spending back door.

What we are doing here is making highway and airport spending—programs that I strongly support, by the way—completely exempt from the budget process. How can we justify that when other trust fund programs like Social Security and Medicare are subject to budgetary controls?

Should highway spending proceed out of control, while we shut down Coast Guard stations and cut back on transit assistance?

Should we build new airport facilities full speed, while we have to cut funds for air traffic controllers and aviation inspectors?

I think not. I think we need to look at transportation as a whole, and proceed with a balanced, national program.

But of greater concern in this bill, is that we need to look at the Federal budget as a whole. We can't single out a few programs for special treatment. We can't make highways and airports exempt from the Budget Act, from Gramm-Rudman, and from any other form of budgetary control in this measure. That represents a misplaced sense of priorities.

Mr. Chairman, if trust funds are to be taken off budget, let them all be considered together. Let us consider that question in the proper manner, when the implications of off-budget trust fund outlays can be seriously considered. But let's not set up a special category of transportation programs to take precedence over every other program in the Federal budget.

I urge my colleagues to support the Fazio amendment.

Mr. HOWARD. Mr. Chairman, I yield 3 minutes to the distinguished chairman of the Aviation Subcommittee, the gentleman from California [Mr. MINETA].

Mr. MINETA. Mr. Chairman, I rise to oppose the amendment offered by my good friend and colleague, the gentleman from California [Mr. FAZIO].

I also served on the Budget Committee for 6 years and, in fact, chaired the Budget Process Task Force, and I have come to the conclusion that as long as the trust fund is part of the budget process, there can be no assurance that needed aviation safety improvements will be funded. The budget process creates irresistible temptations to cut trust fund programs, even though the programs are essential for safety and the users have contributed more than enough in taxes to fund them.

In the last 5 years, as the chair of the Aviation Subcommittee, to prevent this from continuing to happen, I have tried various remedies. I have supported legislation to provide a separate process for capital budgeting at the Federal level, inserted a pay-as-you-go amendment for trust funds in the fiscal year 1985 budget resolution, testified repeatedly before the Ways and Means and Appropriations Committees, and authored legislation to amend the Budget Act to allow trust fund programs to expend what they collect in revenues.

In every instance, at every turn, I have been met repeatedly with the refrain that now is not the time.

Aviation safety pays every time we cut back on spending the revenues sitting in the aviation trust fund. Safety pays the price every time we ignore the users' good faith payment of taxes in expectation of needed safety and capacity improvements. Safety pays every time we falsely use the aviation trust fund to offset the general fund's deficit. Furthermore, these dedicated revenues cannot be used for any other purpose, no matter how worthwhile.

The only way to prevent safety from continuing to pay is to take the trust fund programs off budget. This would not change the yearly appropriations process and an antideficit provision would limit expenditures to what is collected in revenues. The only vote to assure aviation safety is a "no" on the Fazio amendment.

Mr. FAZIO. Mr. Chairman, I yield 2 minutes to the gentlewoman from California [Ms. FIEDLER].

Ms. FIEDLER. Mr. Chairman, I rise in strong support of the Fazio amendment.

Can anyone imagine that the decisionmaking process will improve if these programs are taken off budget? No one can possibly believe that. And does anyone believe that the Federal Government will collect money in these trust funds and not spend it? I wish. The taxpayers wish. That is not going to happen. You know it.

Nearly 40 percent of all Federal spending is in the form of trust funds. Now, if we take these trust funds off budget, why not take the rest off budget? In fact, with that kind of thinking, these are those who would propose to take the budget off budget and then we do not have to worry about our deficit. Rediculous.

It was implied a couple of moments ago that President Reagan supported the concept of taking the trust fund off budget. Let me read just briefly just one line from the letter of the Director of OMB, representing this President and his administration. It says:

I would like to take this opportunity to express the administration's opposition to the proposals included in H.R. 3500, the House reconciliation bill, to move the Highway and Airport and Airways Trust Fund off budget.

Specifically stated, just a few weeks ago, on October 15, the President opposes this effort.

Also, there was a statement made in the Washington Post, and I think it is worth quoting, as well. The Washington Post, today, in an editorial headed, "Splitsville," says:

The House is scheduled to take up the idea today—

And they are referencing the removal of these trust funds from on budget—

and should junk it for all time.

Now, what we are seeing here is a giant shell game. The question is: Do the people of this country have a right to have access and information to what is taking place in the various trust funds that are under the authority of the Federal Government? Or do they simply pull it off budget, take it away from the ordinary budget proc-

ess and let those people who want to have authority over it spend at their will?

We should strongly support the Fazio amendment and keep the trust funds on budget, and under the scrutiny of the Congress.

Mr. HOWARD. Mr. Chairman, I yield 15 seconds to the gentleman from Pennsylvania [Mr. SHUSTER].

Mr. SHUSTER. I thank my friend for yielding.

Mr. Chairman, a lot of misinformation is being passed around this Chamber. Members I hope understand that the transportation trust funds are the only trust funds which are funded by user fees. Therefore, people already have been singled out to pay these user fees. So it is appropriate that these funds be dedicated and spent only for transportation.

Mr. HOWARD. Mr. Chairman, I yield 45 seconds to the gentleman from Pennsylvania [Mr. CLINGER].

Mr. CLINGER. Mr. Chairman, I would like to respond to a few of the misconceptions and exaggerations that have been stated here on the floor suggesting that there would be unrestrained spending, that there would be no control whatever if these programs are taken off budget.

I would suggest that these programs are now and will continue to be subject to adequate budget security. First, these programs are deficit proof. We cannot increase funding for those programs beyond what the trust funds have in them unless we raise taxes, which is not likely.

Second, they are not entitlement programs. Every penny of new budget authority must be approved by the Congress either in the form of the contract authority in authorization bills or appropriations in appropriations bills. So there is no suggestion here that these are entitlement programs.

And, third, we anticipate that the annual obligation ceilings will continue to be set in both authorizing bills and appropriation bills. These are going to be subject to continual oversight by the Congress.

Mr. HOWARD. Mr. Chairman, I yield 1 minute to the gentleman from Florida [Mr. SHAW].

Mr. SHAW. I thank the chairman for yielding.

Mr. Chairman, I think what is really involved here is the basic trust, the commitment that we as Members of Congress have made from time to time when these taxes were imposed. They are users fees. They are fees that are earmarked specifically for a specific purpose and they are not to be used or mingled with the general fund of the U.S. Government, nor should we allow them to be mingled in our budgetary process.

It would be the same situation if a lawyer would take a trust fund which is made up of his client's money and put it on his personal financial sheet before he submits that to the bank to show them what it is worth.

What we are talking about is the snapshot of the Federal Government budget and whether or not it is correct or incorrect, and to have money that is being held in a trust fund such as this and to mingle it with the rest of the general fund as far as the budgetary process is clearly wrong.

In my own State of Florida, there are some $200 million that we are being delayed because of this process. In California alone, I understand, there are $600 million.

We need these highways. These highways save lives. These highways mean business for America.

Mr. HOWARD. Mr. Chairman, I yield 1½ minutes to the gentleman from Texas [Mr. DELAY].

□ 1350

Mr. DELAY. I thank the gentleman for yielding me this time.

Mr. Chairman, I rise in strong opposition to the amendment of the gentleman from California.

The gentleman from South Carolina [Mr. DERRICK] is dead wrong when he leads you to believe these programs are uncontrolled.

The gentleman would have us continue to subject our deficit-proof transportation trust funds to unified budget controls, and that is an entirely unnecessary exercise. These programs are already subject to many controls.

They are, first of all, authorized just like any other program. Even though these authorizations carry contract authority, they are typically in multiyear legislation, which contains a revenue title originating in the Ways and Means Committee. Therefore, both committees review carefully any program authorizations. These authorizations must then be voted on in each House under an open rule and signed into law like any other authorization.

In addition, the highway and mass transit programs are subject to the Byrd amendment limitation on apportionments, and the Public Works Committee's reconciliation submission would extend an antideficit mechanism similar to the Byrd amendment to the Airport and Airway Trust Fund. I might add also that the Byrd amendment is not unlike the Gramm-Rudman balanced budget amendment which recently passed the Senate.

Since both the highway and aviation programs cannot spend more than they take in, they operate under a de facto balanced budget. If other Federal programs operated in this manner, we would have a balanced Federal budget.

Thus, with the authorization-revenue review and the Byrd limitation on apportionments, these transportation trust funds further demonstrate their uniqueness. Since they are subject to more control than nontrust fund general revenue programs, it hardly makes sense to combine them with those programs that do run deficits under the unified budget.

For this and many other valid reasons, the gentleman's amendment should be defeated, and I, therefore, urge my colleagues to vote for its defeat.

Mr. FAZIO. Mr. Chairman, may I inquire how much time is remaining?

The CHAIRMAN. The Chair will state that the gentleman from California [Mr. FAZIO] has 5 minutes remaining and the gentleman from New Jersey [Mr. HOWARD] has 3 minutes remaining.

Mr. FAZIO. I thank the Chair.

Mr. Chairman, I yield 1 minute to the gentleman from Pennsylvania [Mr. COUGHLIN].

Mr. COUGHLIN. I thank the gentleman for yielding me this time.

Mr. Chairman, I rise in strong support of the Fazio amendment to H.R. 3500, the Omnibus Budget Reconciliation Act of 1985, which would strike the provisions to take the highway and aviation trust funds off budget. Sections 8201 and 8202 would remove highway and aviation trust fund receipts and expenditures from the unified budget. This would effectively decontrol nearly $20 billion of spending. Such a move is fiscally irresponsible and bad public policy.

Unified budget controls are necessary. The 1967 President's Commission on Budget Concepts, 1973 Joint Study Committee on Budget Control, 1984 House Rules Committee Task Force on the Budget Process, the Office of Management, and Budget, and the Department of Transportation all support keeping trust funds on budget. The unified budget was established in response to widespread dissatisfaction about confusing and disjointed budget practices; we will be returning to these days if the Fazio amendment is not adopted.

It is entirely appropriate for trust funds to be included in a unified budget. In our "Dear Colleague" letter of October 22, 1984, Transportation Appropriations Chairman BILL LEHMAN and I pointed out that by taking the highway and aviation trust funds off budget, the Federal budget would be divided into two categories—the protected "haves" and the vulnerable "have nots." The "haves," such as highway and aviation, would enjoy unrestrained spending. The "have nots," such as elderly nutrition, Pell grants, cancer research, school lunch program, agriculture programs, or the WIC Program, would have to compete for limited funds—not only bearing their fair share of any spending reductions, but absorbing additional cuts to

compensate for the held harmless off budget programs.

Of direct concern is the competition which would be generated among transportation programs and modes should the highway and aviation trust funds go off budget. Further cuts would be borne by general fund funded programs. If you support air traffic controllers, Coast Guard drug interdiction, Amtrak, mass transit operating assistance, or drunk driving public education, vote "yea" on the Fazio amendment.

You have seen a "Dear Colleague" from our distinguished colleague on the Public Works Committee, Mr. MINETA of California, which says "the only way to prevent—aviation—safety from continuing to pay is to take the trust funds programs off budget." I might point out that when the fiscal year 1986 transportation appropriations bill was considered by the House on September 12, 1985, it was that very Member who offered a successful floor amendment to take aviation trust funds money and put it in the general operations account for increased safety inspectors. This could not have been done if trust funds were off budget.

You may have heard that obligation limitations have distorted trust fund programs by preventing full spending. This is not the case. The Federal Aviation Administration is holding $1.6 billion in unobligated funds. Thirty percent of their national airspace system [NAS] plan programs are behind schedule. This is due, not to a lack of funds, but to poor management. It has been said that off-budget trust funds will free billions for highways and, thereby, create new jobs. According to the Congressional Budget Office, the highway trust fund will go broke in 1988. There will not be enough revenue for it to continue as authorized. Either taxes will be increased, spending reduced, or both. The location of this trust fund, on or off budget, makes no difference. In fact, the highway trust fund is better off if it is left on budget due to the added measure of control this gives the Congress.

Reconciliation is an inappropriate place to take the highway and aviation trust funds off budget. Reconciliation is supposed to be used to achieve spending and revenue targets of the budget resolution—not enact new legislation which would reduce Congress' ability to limit Federal spending. Sections 8201 and 8202 will trigger further requests to take other pet programs off budget. We should vote for the Fazio amendment which strikes this unwise and nongermane attempt to weaken congressional control over Federal spending.

Mr. FAZIO. Mr. Chairman, I yield 1 minute to the gentleman from Michigan [Mr. CARR].

Mr. CARR. I thank the gentleman for yielding me this time.

Mr. Chairman, I just want to take my time to respond to my good friend, the gentleman from California [Mr. MINETA].

No one has done more for aviation in this country than he has, but when the gentleman equates this vote as a vote on aviation safety, I must respectfully submit that he is wrong. Aviation safety in this country is paid for, in part, out of the trust funds, and the part that is paid for out of the trust funds is largely the hardware and the real estate portion for airways development and runways and NAVAIDS.

But there is a bigger piece of the aviation safety budget that comes from general funding, and that is the air traffic controllers; the numbers of slots, the amount of salaries they have. The fact of the matter is if we take only a piece of aviation safety off budget we are going to absolutely unbalance the aviation safety in this country. I think that we ought to pass the Fazio amendment and keep transportation as a whole.

I urge support for the Fazio amendment.

Mr. FAZIO. Mr. Chairman, I yield 1 minute to the gentleman from Minnesota [Mr. SABO].

Mr. SABO. I thank the gentleman for yielding me this time.

Mr. Chairman, I rise in strong support of the Fazio amendment. It makes no sense to take these trust funds off the unified budget. Let us make it clear that if there are obligation limits, so these trust funds do not spend all the money that is available, the money does not go anyplace else. It stays in the trust funds for future use.

On the other hand, on a year-by-year basis, it clearly sets up certain preferential types of expenditures. In transit, some of the funding is from trust fund; some is from general revenue. The job of the Congress is to try and balance those two expenditures. With the passage of this amendment, it clearly puts all the weight of maintaining the trust fund, decreasing the general revenue fund, which includes such thing as the formula distribution, which includes the operating subsidies for transit in this country. I think it is very important for good policy and also for good budgetmaking to pass the Fazio amendment.

Mr. FAZIO. Mr. Chairman, I yield 1 minute to the gentleman from Florida [Mr. LEHMAN].

Mr. LEHMAN of Florida. I thank the gentleman for yielding me this time.

Mr. Chairman, I rise in strong support of the amendment offered by the gentleman from California [Mr. FAZIO]. This amendment would strike sections 8201 and 8202 from the bill.

These sections, if enacted, would set major new lopsided budget policy for this country—and should be carefully reviewed by committees with broader jurisdiction before being passed by this body.

Our highway, subway, and airport construction programs are important, but they certainly do not rate the same or have higher priority than Social Security, which is still on budget. And they certainly do not outrank Medicare, black lung, Superfund, and other trust-funded programs that will remain on budget—and that, in these times of high deficits, would have to be cut further to compensate for the nearly $20 billion in yearly transportation trust fund expenditures that would be taken out of the competition.

If Congress wants to gut the unified budget, so be it. But such action has serious repercussions that should be carefully considered. It should not be done in a piecemeal and backdoor fashion such as this, by a committee with its own budget perspective and a parochial interest in the outcome.

I am particularly concerned about the harmful effect these provisions will have on nontrust fund transportation programs. These programs have already taken their fair share of necessary reductions, and we are particularly concerned about any device that would place the entire burden of future Gramm-Rudman or other budget cuts on general-funded program, which often have broader national priority.

If you support such general-funded activities as: air traffic controllers, airline and other safety inspectors, Coast Guard drug interdiction, Amtrak, mass transit operating assistance, rural transit, and hazardous materials and rail safety enforcement—you should vote for the Fazio amendment.

I urge an "aye" vote on the amendment.

Mr. FAZIO. Mr. Chairman, I will conclude the debate for this side, and yield myself such time as I may consume.

I think it is evident that there are many points of view on a very crucial matter, and we have had 30 minutes on a reconciliation bill that was not meant to deal with this question at all, to deal with this fundamental issue. It clearly is in need of the kind of attention that the normal legislative process, through the Government Operations Committee, would bring.

Fundamentally, we cannot allow ourselves to fail the test of including all of the interests in this country in the process of deficit reduction. If we vote today to take these funds off budget, we will be sending the exact wrong signal as we confront the very difficult choice we are going to have to be making on Gramm-Rudman, and on

all subsequent budget matters that we have to face over the next several years under any scenario if we are to get a handle on our budget deficit.

It is not that we do not want to build airports and highways; it is simply that we do not want an unbalanced transportation program that means that the have-nots in the general fund category that provide very important transportation services to this country will not get their share of attention.

Everyone ought to participate in the cuts, and everyone ought to feel them. I ask for the defeat of this proposal by the Public Works Committee and support for this amendment.

Mr. HOWARD. Mr. Chairman, I yield such time as he may consume to the gentleman from Utah [Mr. MONSON].

Mr. MONSON. I thank the gentleman for yielding time to me.

Mr. Chairman, I rise in opposition to this amendment.

As a CPA, one of the biggest problems I face is getting good information on where we are in our financial position. By rejecting this amendment we have an opportunity to correct one thing that would better allow us to get a handle on Government finances.

The highway and aviation trust funds should not be included in the budget. This action will not really add to or reduce the deficit. In fact these funds should not even be included in figuring the deficit. All that inclusion does is distort what we think the deficit is. It may lead us to think we are better off than we are. Some future time may produce just the opposite effect. It should produce neither effect but should be left to work independently to accomplish the purpose the fund was established for.

We do not lose control by doing this. Congress will still authorize the uses of this fund. We will still have oversight of these funds.

Moving these funds off budget will also allow quicker access to them by the States, for whom we collected them in the first place. This is our chance to get the highway and aviation work done that is needed.

It's time to quit playing games with the budget. It's time to quit using the phony numbers that this kind of accounting creates. By voting no, we can get a better handle on where we really are without losing any budgetary control. I strongly urge a no vote on this amendment.

Mr. HOWARD. Mr. Chairman, I yield myself the remaining time.

Mr. Chairman, I would first like to state on behalf of the chairman of the Committee on Rules, the gentleman from Florida [Mr. PEPPER] who is busy with his committee and not on the floor at this time, that he is in strong opposition to the Fazio amendment, feeling that fairness dictates that money collected from the taxpayers for a specific purpose ought to be available to be used for that specific purpose.

Also I would like to state on the comment that taking these trust funds off budget either that they do not qualify or that a great number of other trust funds might come off budget, I would just like to state that there are only three trust funds in the Federal Government that qualify for the exemption under the Budget Act because they derive over 90 percent, in fact, 100 percent of their revenues from user taxes. That is the aviation trust fund, the highway trust fund and the mass transit trust fund account in that, along with the boating safety trust funds. So, I hope that we will not be having that as an argument any more.

Mr. Chairman, I rise in strong opposition to this amendment.

The proponents of this amendment would have you believe that taking the trust funds off-budget adds to the deficit. The truth is these funds are deficitproof, by law.

The proponents would have you believe that we're victimizing the elderly, the sick and the poor by removing these funds from the unified budget. The simple truth is that these dedicated funds cannot be used for those purposes, no matter how worthwhile they are.

The proponents are saying the reconciliation bill is not the proper vehicle for the trust fund provision. The fact is the committee's provision is completely consistent with the purposes of the budget resolution, is based on ample precedent, is germane to the committee's instructions, and is consistent with procedural exemptions of the Budget Act.

The proponents contend that taking the trust funds off budget removes Congress' ability to control trust fund spending. The facts are that the rules of the House remain unchanged and spending controls may still be imposed on these programs, by the Appropriations Committee.

The proponents say the committee provision increases spending when in fact the committee provision adds no new programs nor does it add a penny of additional spending over the next 3 years. In fact, it makes substantial cuts.

Finally, Mr. Chairman, the proponents say we're irresponsible in our efforts to insure that transportation users receive a fair return on their investment and for informing the public of the bogus bookkeeping being practiced to cover up the real deficits this country is running. The truth is it would be irresponsible not to do so.

Mr. Chairman, this amendment is supported by too many distortions and far too much misinformation and must be defeated. I strongly urge a "no" vote.

Mr. LIGHTFOOT. Mr. Chairman, as a member of the Committee of Public Works and Transportation, I rise in opposition to the Fazio amendment.

The highway, aviation, and mass transit funds are generated by taxes on gasoline, airline tickets, and aviation fuel paid in good faith by the citizens who use the Nation's transportation system. Projections of the income from these taxes are made and limits put in place before the money is spent, not afterward, as is so often the case around here. Therefore, spending from these funds does not and cannot add to the Federal deficit.

The users of our highways and airways put this money in our trust with the understanding that they will be spent for their designated purpose—the improvement of our highways, airways, transit systems. To use one penny of these funds to offset the deficit of the general fund is being dishonest to the American taxpayer, and it undermines the integrity of the user fee concept. We should put an end to this dishonesty, and start treating these funds with the respect they deserve.

I therefore urge my colleagues to oppose the Fazio amendment.

□ 1400

The CHAIRMAN. The time of the gentleman from New Jersey [Mr. HOWARD] has expired.

All time has expired.

The question is on the amendment offered by the gentleman from California [Mr. FAZIO].

The question was taken; and the Chairman announced that the noes appeared to have it.

RECORDED VOTE

Mr. FAZIO. Mr. Chairman, I demand a recorded vote.

A recorded vote was ordered.

The vote was taken by electronic device, and there were—ayes 222, noes 205, not voting 7, as follows:

[Roll No. 371]

NOT VOTING—7

Addabbo	Coelho	Smith, Denny (OR)
Biaggi	Conyers	
Brown (CA)	Nelson	

□ 1410

Messrs. DOWNEY of New York, FOGLIETTA, DOWDY of Mississippi, and SWEENEY changed their votes from "aye" to "no."

Mr. McCAIN, Mr. RANGEL, Ms. KAPTUR, Mr. HYDE, Ms. MIKULSKI, and Mr. RUDD changed their votes from "no" to "aye."

So the amendment was agreed to.

The result of the vote was announced as above recorded.

PERSONAL EXPLANATION

Mr. BIAGGI. Mr. Chairman, I missed the last vote. I was inadvertently delayed. If I were present, I would have voted "no" on the last amendment.

AMENDMENT OFFERED BY MR. FLORIO

Mr. FLORIO. Mr. Chairman, I offer an amendment which was printed in the CONGRESSIONAL RECORD on October 17, 1985, pursuant to the rule.

The Clerk read as follows:

Amendment offered by Mr. FLORIO: Page 412, after line 16, insert the following new subtitle:

Subtitle H—Amtrak

SEC. 4801. AUTHORIZATION OF APPROPRIATIONS.

(a) AUTHORIZATION.—Section 601(b)(2) of the Rail Passenger Service Act (45 U.S.C. 601(b)(2)) is amended—

(1) in subparagraph (A) by striking out "and" after "403(b) of this Act;";

(2) in subparagraph (B) by striking out the period and inserting in lieu thereof "; and"; and

(3) by adding at the end the following new subparagraphs:

"(C) not to exceed $603,500,000 for the fiscal year ending September 30, 1986.".

(b) LIMITATION.—Such section 601(b) is further amended by adding at the end a new paragraph as follows:

"(5) Unless sufficient funds are otherwise available to operate the Corporation's rail system at substantially the same level of service, maintenance, and equipment overhauls in effect on the date of the enactment of this paragraph, funds appropriated to or for the benefit of the Corporation under this section before the date of the enactment of this paragraph which the Corporation has designated for nonoperational capital projects shall be used as necessary to maintain the operations of the system at such level.".

SEC. 4802. STUDY COMMISSION.

(a) ESTABLISHMENT.—There is established a commission to be known as the National Railroad Passenger Corporation Financial Status Commission (hereafter in this subtitle referred to as the "Commission").

(b) PURPOSE OF COMMISSION.—The purpose of Commission is to study—

(1) the ability of the National Railroad Passenger Corporation (hereafter in this subtitle referred to as "Amtrak") to continue to improve, or to accelerate the improvement of, its financial performance;

(2) the short-term and long-term capital needs of Amtrak; and

(3) alternative funding mechanisms for Amtrak.

(c) MEMBERSHIP.—

(1) NUMBER AND APPOINTMENT.—The Commission shall be composed of seventeen members as follows:

(A) Two State legislators appointed by the National Conference of State Legislators, one from the area comprised of Massachusetts, Rhode Island, Connecticut, New York, New Jersey, Pennsylvania, Delaware, Maryland, and the District of Columbia, and one from outside such area.

(B) Two members of the National Association of Railroad Passengers appointed by the President of such Association; one who lives in the area comprised of Massachusetts, Rhode Island, Connecticut, New York, New Jersey, Pennsylvania, Delaware, Maryland, and the District of Columbia, and one who lives outside such area.

(C) A Member of the United States Senate appointed by the President pro tempore of the Senate.

(D) A Member of the United States House of Representatives appointed by the Speaker of the House.

(E) A State transportation official from a State financially participating in the program established under section 403(b) of the Rail Passenger Service Act, appointed by the Executive Director of the National Conference of State Railway Officials (NCSRO).

(F) A State transportation official from a State not participating in the program established under section 403(b) of the Rail Passenger Service Act, appointed by the Executive Director of the National Conference of State Railway Officials (NCSRO).

(G) A representative of the Department of Transportation designated by the Secretary of Transportation.

(H) A person appointed by the Railroad Labor Executives Association.

(I) A representative of freight railroads appointed by the Association of American Railroads or its successor.

(J) Two commuter authorities, as such term is defined for purposes of the Rail Passenger Service Act, appointed by the American Public Transit Association; one that operates exclusively within the area comprised of Massachusetts, Rhode Island, Connecticut, New York, New Jersey, Pennsylvania, Delaware, Maryland, and the District of Columbia and one that operates exclusively outside such area.

(K) A person from the private sector, appointed by the President, with no financial interest in Amtrak or any competing mode of transportation.

(L) A representative of the passenger bus industry appointed by the President.

(M) A representative of Amtrak appointed by the President of Amtrak.

(N) A representative of the Office of Management and Budget appointed by the Director of such Office.

(2) SELECTION.—The members of the Commission shall be selected in accordance with paragraph (1) within sixty days after the date of enactment of this Act.

(3) EXPENSES.—Members of the Commission shall each be reimbursed actual expenses incurred in the actual performance of duties vested in the Commission.

(4) QUORUM.—Nine members of the Commission shall constitute a quorum, but a lesser number may hold hearings.

(5) CHAIRMAN.—The Chairman of the Commission shall be elected by the members of the Commission from among such members.

(6) ORGANIZATION MEETING.—The members of the Commission shall hold their first meeting for the purpose of organizing the Commission and electing a Chairman under paragraph (4) within ninety days after the date of enactment of this Act.

(7) All meetings of the Commission shall be open to the public.

(d) STAFF OF COMMISSION.—

(1) STAFF.—Subject to such rules as may be prescribed by the Commission, the Chairman may appoint such personnel as the Chairman considers appropriate.

(2) APPLICABILITY OF CERTAIN CIVIL SERVICE LAWS.—The staff of the Commission shall be appointed subject to the provisions of title 5, United States Code, governing appointments in the competitive service, and shall be paid in accordance with the provisions of chapter 51 and subchapter III of chapter 53 of such title relating to classification and General Schedule pay rates.

(3) EXPERTS AND CONSULTANTS.—Subject to such rules as may be prescribed by the Commission, the Chairman may procure temporary and intermittent service under section 3109(b) of title 5, United States Code.

(4) STAFF OF FEDERAL AGENCIES.—Upon request of the Commission, the head of any Federal agency is authorized to detail, on a reimbursable basis, any of the personnel of such agency to the Commission to assist the Commission in carrying out its duties under this subtitle.

(e) POWERS OF COMMISSION.—

(1) HEARINGS AND SESSIONS.—The Commission, or, if so authorized by the Commission, any three members of the Commission, may, for the purpose of carrying out this subtitle, hold such hearings, sit and act at such times and places, take such testimony, and receive such evidence, as the Commission considers appropriate. The Commission may administer oaths or affirmations to witnesses appearing before it.

(2) OBTAINING OFFICIAL DATA.—The Commission may secure directly from any department or agency of the United States information necessary to enable it to carry out this subtitle. Upon request of the Chairman of the Commission, the head of such department or agency shall furnish such information to the Commission.

(3) MAILS.—The Commission may use the United States mails in the same manner and under the same conditions as other departments and agencies of the United States.

(4) ADMINISTRATIVE SUPPORT SERVICES.—The Administrator of General Services shall provide to the Commission on a reimbursable basis such administrative support services as the Commission may request.

(f) REPORT.—The Commission shall transmit to the Congress a report not later than March 30, 1986. The report shall contain a detailed statement of the findings and conclusions of the Commission, together with its recommendations for such legislation as it considers appropriate.

(g) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated for the purpose of carrying out this section not to exceed $1,000,000 for the fiscal year ending September 30, 1986, to remain available until expended.

SEC. 4803. CAPITAL ASSETS.

Section 304(c) of the Rail Passenger Service Act (45 U.S.C. 544(c)) is amended by adding at the end thereof the following new paragraph:

"(3) The preferred stock issued pursuant to paragraphs (1) and (2) of this subsection shall be deemed to have been issued as of the date of receipt by the Corporation of the funds for which such stock is issued.".

SEC. 4804. GOVERNMENT TRAVEL.

Section 306(f) of the Rail Passenger Service Act (45 U.S.C. 546(f)) is amended by inserting ", which shall include allowing the Corporation to participate in the contract air program administered by the General Services Administration in markets where service provided by the Corporation is competitive as to rates and total trip times" before the period.

SEC. 4805. REPORT CONSOLIDATION.

Section 308(a) of the Rail Passenger Service Act (45 U.S.C. 548(a)) is amended to read as follows:

"(a) The Corporation shall submit to the Congress a report not later than February 15 of each year. The report shall include, for each route on which the Corporation operated intercity rail passenger service during the preceding fiscal year, data on ridership, passenger miles, short-term avoidable profit or loss per passenger mile, revenue-to-cost ratio, revenues, the Federal subsidy, the non-Federal subsidy, and on-time performance.".

SEC. 4806. CHARTER TRAINS.

Section 402 of the Rail Passenger Service Act (45 U.S.C. 562) is amended:

(1) by repealing subsection (g); and

(2) by redesignating subsection (h) as subsection (g).

SEC. 4807. MISCELLANEOUS AMENDMENTS.

(a) AUDITS.—Section 805 of the Rail Passenger Service Act (45 U.S.C. 644) is amended:

(1) in subsection (2)(A) by striking out "shall conduct annually a" in the first sentence and inserting in lieu thereof "may conduct"; and

(2) in subsection (2)(A) and (2)(B) by striking "audit" wherever it appears and inserting in lieu thereof "audits".

(b) REPEAL OF STUDIES AND REPORTS.—Sections 306(k), 806, 810, and 811 of the Rail Passenger Service Act (45 U.S.C. 546(k), 645, 649, and 650) are repealed.

(c) EMERGENCY ASSISTANCE.—Title VII of the Rail Passenger Service Act (45 U.S.C. 621 and 622) is repealed.

(d) NORTHEAST CORRIDOR REPORTS.—Section 703(1)(D) of the Railroad Revitalization and Regulatory Reform Act of 1976 (45 U.S.C. 853(1)(D)) is repealed, effective October 1, 1986.

(e) PERFORMANCE EVALUATION CENTER.—Section 305(1) of the Rail Passenger Service Act (45 U.S.C. 545(1)) is repealed.

SEC. 4808. REVENUE-COST RATIO.

Section 404(c)(4)(A) of the Rail Passenger Service Act (45 U.S.C. 564(c)(4)(a)) is amended by adding at the end the following new sentence: "Commencing in fiscal year 1986, the Corporation shall set a goal of recovering an amount sufficient that the ratio of its revenues, including contributions from States, agencies, and other persons, to costs, excluding capital costs, shall be at least 61 percent.

SEC. 4809. LABOR-RELATED COST SAVINGS.

Amtrak and the representatives of employees of Amtrak shall negotiate changes in existing agreements between such parties that will result in substantial cost savings to Amtrak, and shall report the results of such negotiations to the Congress within six months after the date of enactment of this Act.

SEC. 4810. ROUTE DISCONTINUANCE.

(a) PROHIBITION.—Amtrak shall not, by reason of any provision of this subtitle, including section 4801, reduce the frequency of service on any line on which, as of May 1, 1985, three or fewer trains operate per week.

SEC. 4811. UNSAFE FACILITIES.

Title VIII of the Rail Passenger Service Act (45 U.S.C. 641 et seq.) is amended by adding at the end the following new section:

"SEC. 812. UNSAFE FACILITIES.

"(a) The Corporation, or the owner of any facility which presents a danger to the employees, passengers, or property of the Corporation, may petition the Secretarty for assistance to the owner of such facility for relocation or other remedial measures to minimize or eliminate such danger under this section.

"(b) If the Secretary determines that—

"(1) a facility which is the subject of a petition under subsection (a) presents a danger of death or serious injury to any employee or passenger of the Corporation or serious damage to any property of the Corporation; and

"(2) the owner of such facility should not be expected to bear the cost of relocating or other remedial measures necessary to minimize or eliminate such danger, the Secretary shall recommend to the Congress that the Congress, as a part of its periodic reauthorizations of this subtitle, authorize funding, by reimbursement or otherwise, for such relocation or other remedial measures.

"(c) Petitions may be submitted under subsection (a) of this section with respect to any relocation or remedial measures undertaken on or after January 1, 1978.".

SEC. 4812. EMPLOYMENT VACANCY FILING.

(a) LIABILITY.—Section 704(c) of the Regional Rail Reorganization Act of 1973 (45 U.S.C. 797c(c)) is amended—

(1) by inserting "(1)" after "VACANCY NOTICES.—"; and

(2) by adding at the end a new paragraph as follows:

"(2)(A) As soon as the Board becomes aware of any failure on the part of a railroad to comply with paragraph (1), the Board shall issue a warning to such railroad of its potential liability under subparagraph (B).

"(B) Any railroad failing to comply with paragraph (1) of this subsection after being warned by the Board under subparagraph (A) shall be liable for a civil penalty in the amount of $1,000 for each vacancy with respect to which such railroad has so failed to comply.".

(b) EXTENSION.—Section 704(f) of such Act (45 U.S.C. 797c(f)) is amended by striking out "4-year" and inserting in lieu thereof "6-year".

(c) EFFECTIVE DATES.—The amendments made by subsection (a) shall take effect on the date of enactment of this Act, and the amendment made by subsection (b) shall be effective as of August 1, 1985.

SEC. 4813. TRANSPORTATION OF UNOCCUPIED VEHICLES.

Section 103(3) of the Rail Passenger Service Act (45 U.S.C. 502(3)) is amended by inserting ", and, when space is available, of unoccupied vehicles" after "and their occupants".

SEC. 4814. RAIL EMPLOYEE TAXES.

Section 11504(a) of title 49, United States Code, is amended by adding at the end of the following new paragraph:

"(3) No part of the compensation paid by a rail carrier providing transportation subject to the jurisdiction of the Interstate Commerce Commission under subchapter I of chapter 105 of this title to an employee who performs his regular assigned duties as such an employee on a railroad in more than one State, shall be subject to the income tax laws of any State or subdivision thereof other than a State or subdivision thereof described in paragraph (2) of this subsection.".

□ 1425

Mr. FLORIO. Mr. Chairman, the amendment I am offering with, I think, bipartisan support, is exactly the same as the Amtrak authorization bill, H.R. 2266, which the House passed on September 19, by a 290-to-128 rollcall vote.

Briefly, the bill, as passed by the House, and this amendment, authorize $603.5 million for Amtrak for fiscal year 1986—a reduction of $80.5 million from the fiscal year 1985 appropriation level of $684 million and a reduction of $109.5 million from the fiscal year 1986 baseline of $713 million. The bill ensures the continuation of a national rail passenger system while providing tools for Amtrak to increase its efficiency and cost-effectiveness.

Until recently, I had hoped that the House would not have to deal with Amtrak as part of the reconciliation process. Unfortunately, the other body has put us in a position where we must attach this bill the reconciliation bill to protect the House position. During the conference on the budget resolution, I voiced strong objection to dealing with Amtrak in the reconciliation process. The conference report on the budget resolution did not assume reconciliation of Amtrak. Nevertheless, the Commerce Committee in the other body has inserted Amtrak provisions into the reconciliation bill. Because of this, Amtrak will be an issue in conference. Adoption of this amendment will ensure that the House position will be reflected in the House bill that goes to conference.

I urge adoption of this amendment.

Mr. LENT. Mr. Chairman, will the gentleman yield?

Mr. FLORIO. I am happy to yield to the ranking member of the subcommittee of authorization, the gentleman from New York [Mr. LENT].

Mr. LENT. I thank the gentleman for yielding.

Mr. Chairman, I rise in support of Chairman FLORIO's amendment to incorporate H.R. 2266, as passed by the House, as part of H.R. 3500.

H.R. 2266 was passed by the House on September 19 of this year. The bill provides for a 1-year reauthorization of Amtrak at a level of $603.5 million for fiscal year 1986. This is approximately 11.4 percent below the level of Federal funding that Amtrak received in fiscal year 1985. This authorization level is the same as the appropriations level for Amtrak included in H.R. 3244, the Department of Transportation fiscal year 1986 appropriations bill, which was also passed by the House last month. In addition, H.R. 2266 makes a number of changes to current law which are helpful to Amtrak.

Although the conference report on Senate Concurrent Resolution 52, the first concurrent resolution on the budget for fiscal year 1986, did not include specific reconciliation instructions with respect to the levels of Federal funding for Amtrak, I feel that the inclusion of H.R. 2266 in H.R. 3500 is necessary for several reasons.

The other body included language reauthorizing Amtrak in S. 1730, the consolidated Omnibus Budget Reconciliation Act of 1985. Since they have chosen to reauthorize Amtrak as part of S. 1730, it appears unlikely that they will act on H.R. 2266 independently. Therefore, the inclusion of H.R. 2266 in H.R. 3500 may be the only chance Congress will have to make the statutory changes helpful to easing the financial plight of Amtrak.

As reported by the Budget Committee, S. 1730 provides for a straight 3-year reauthorization of Amtrak. However, when the Subcommittee on Commerce, Transportation, and Tourism, on which I serve as the ranking minority member, held hearings on legislation to reauthorize Amtrak, Amtrak testified that changes in current law were necessary to enable it to increase its revenues and its efficiency in order to operate a successful nationwide rail passenger service at reduced Federal funding levels.

One of the changes which Amtrak suggested was amending current law to allow Amtrak to carry unoccupied vehicles on its auto-train service. Section 13 of H.R. 2266 includes this change. Let me explain how this could increase Amtrak's revenues. Under the Rail Passenger Service Act, Amtrak is authorized to operate an auto-train service. The statute also provides that the occupants of the vehicles must accompany the vehicles.

Amtrak has successfully inaugurated auto-train service between Lorton, VA, and Sanford, FL. While auto-train is a successful venture, there are times when unused space is available. Section 13 would allow Amtrak to fill this available space with unaccompanied vehicles. Amtrak estimates that this change to current law would increase its revenues by $600,000 to $800,000 per year.

If the legislative changes set forth in H.R. 2266 are not included in the House-passed reconciliation bill, the conferees would be unable to address these changes to current law which are vital to Amtrak's continued success as a nationwide system. The provisions included in H.R. 2266 which are not in S. 1730 would fall outside the scope of the conference since they are presently not included in either body's reconciliation bill.

As a side note, I would like to mention for my colleagues' benefit that the other body is currently debating S. 1730, and yesterday they adopted several amendments to current law. One of the amendments they adopted, as a possible budget saving device, addresses the costs incurred by Amtrak on the Northeast corridor as a result of its use by Conrail and transit authorities. Based on a decision issued in March 1983, by the Interstate Commerce Commission, these carriers pay the avoidable costs of their use of the corridor, leaving Amtrak to absorb the full costs of maintenance, operation, and capital programs.

If this cost allocation is reworked, it could save Amtrak roughly $70 million per year in expenses—expenses that are not attributable to its operations. This suggested change was also presented at our subcommittee hearing and I believe it merits close scrutiny in conference.

Mr. Chairman, Congress is asking Amtrak to increase its revenues and its efficiency and, thereby, decrease its reliance on the American taxpayer. It is essential that Congress act promptly to provide the necessary tools for Amtrak to succeed. Adoption of the Florio amendment today will put us one step closer toward achieving that goal.

In conclusion, I urge my colleagues to support the Florio amendment.

Mr. FLORIO. Mr. Chairman, I yield 3 minutes to the gentleman from Indiana [Mr. COATS], a member of the committee.

Mr. COATS. I thank the gentleman for yielding this time to me.

Mr. Chairman, I join my colleague, the gentleman from New York, and the gentleman from New Jersey, in supporting the Florio amendment to H.R. 3500, the Omnibus Budget Reconciliation Act of 1985.

The Florio amendment incorporates H.R. 2266, as passed by the House, which reauthorizes Amtrak, into title IV of H.R. 3500.

I have consistently advocated providing Amtrak with the flexibility it needs to increase its revenues and operate an efficient nationwide rail passenger system and, thereby, reduce its reliance on Federal funding. In order to achieve this goal, changes are

needed in current law. H.R. 2266 makes some of those necessary changes.

For example, section 4 of the bill allows Amtrak to compete for preferred contract carrier status in the Federal Government's discount program for Federal employees traveling on official business. Amtrak's inclusion in this program should result in additional revenues for Amtrak and considerable savings to the Federal Government.

The other body has incorporated the reauthorization of Amtrak into S. 1730, the consolidated Omnibus Budget Act of 1985. Since this is the manner in which the other body has chosen to proceed, it appears unlikely that further action will be taken on H.R. 2266. Therefore, inclusion of H.R. 2266 as part of H.R. 3500 may be our only chance this session to provide Amtrak with the changes in current law necessary to reduce its reliance on the American taxpayer.

In conclusion, I urge my colleagues to support the Florio amendment.

Mr. FLORIO. Mr. Chairman, I reserve the balance of my time.

Mr. LATTA. Mr. Chairman, I rise in opposition to the amendment offered by the gentleman from New Jersey [Mr. FLORIO].

The CHAIRMAN. The Chair recognizes the gentleman from Ohio [Mr. LATTA] for 15 minutes in opposition to the amendment offered by the gentleman from New Jersey [Mr. FLORIO].

Mr. LATTA. Mr. Chairman, just a word about Amtrak, and then I want to talk about this bill.

Everybody knows of the tremendous subsidy that the taxpayer has to put forward for Amtrak and of the efforts of the administration to do something about it. Unfortunately, the House and the other body to date have refused to do anything about it, the same as they have refused to do anything here today about reducing the deficit by $3.5 billion.

We have come to a very sorry place, I think, here on Capitol Hill because we cannot seem to get what we maintain in public and in our speeches put together with our votes. So here is another opportunity to find out whether or not we really mean to cut back on spending, cut back on some of these subsidies.

The question is: Where are we going to start? Every single program that is brought up to be looked at, with the thought that perhaps we can reduce some spending that everybody complains about that is out of line, that we ought to do something about that $2 trillion debt, that we ought to do something about that impending $200 billion deficit for fiscal year 1986, but when every program comes up, "No, no; we cannot do anything about this."

The question is: When? When will the Congress of the United States take the bit in its mouth that it needs to take and do something about spending. This is just typical, this program, and I do not single it out, but it is just typical of what we do all the time around here.

So I intend to vote "no" on this program, as I voted when it was before the House, but what are we doing now in reconciliation? Thinking now that reconciliation in its present form is going to be singed into law, there is an attempt to rush this bill through under reconciliation. Let me tell the people who are attempting to do that and to do some of these other things, that the President has to sign that bill. I have a letter from OMB in my possession that says if we do not do something about five huge programs, he is going to veto it. It is just that simple.

□ 1435

So we ought to start doing something on our own. We have three branches of Government in this country and we have a function to perform, a legislative function. Now we are depending on the executive branch to do our jobs for us.

This is one of the things that brought on Gramm-Rudman-Hollings, the fact that the Congress of the United States refuses to do a thing, and that is to reduce these programs. Everybody admits they have to be reduced, but they say, "Do not do anything about my program."

We held hearings at the beginning of this year in the Budget Committee at various cities around this Nation. I knew exactly what the witnesses were going to say when they came before our committee. They were all saying "Don't cut my programs. Give me more." At the same time, they were saying, "You have to do something about interest rates."

Mr. SCHUMER. Mr. Chairman, will the gentleman yield?

Mr. LATTA. I will not yield to the gentleman. I know his position and I know what he is going to say, but I do not have the time.

Mr. SCHUMER. I may surprise the gentleman, I may not.

Mr. LATTA. But let me say to my friend from New York [Mr. SCHUMER] that he was there in New York City and he heard his mayor of New York City on revenue sharing, for example, say, "Hey, you can't do anything about revenue sharing, you can't do anything about the transit funds." At the very time the mayor was being chided by the Governor of New York for having $900 million in surplus, he wanted more from the taxpayers of this Nation.

And when I put the question to the mayor, what did he say? He said that is not surplus, that is insurance.

If he places that in that category, it is high time that we do something about insurance for our country, and we have to do it as these programs come along. This is typical of the problem that we face and that the country faces because of our inability, our absolute refusal to do anything about it when we have the opportunity.

Then we go out with our press releases across the country and say, oh, I voted against this or that, but knew it was going to pass. We had an opportunity today, but we failed. We failed. We are going to fail on this one too because it is going to pass. Reconciliation is going to pass.

But I am going to point out when the time comes, some of these programs that we are putting in there will add billions and billions of dollars to the deficit, and the Members of this House know it, and the American people ought to know it.

I yield back the balance of my time.

Mr. FLORIO. Mr. Chairman, I yield myself such time as I may consume.

Mr. FLORIO. Mr. Chairman, just in brief response to the gentleman's observations, they are clearly very interesting points with regard to a philosophic approach to Amtrak. Interesting, but irrelevant. We have already decided what it is that we want to do, which is to reject the philosophy that we should eliminate Amtrak. We have rejected that and the other body has rejected it.

So, therefore, what we are doing today is making a decision not on the substance but on the procedure. It was not the intention to include this bill in reconciliation. The other body did that. Our failure to include this in reconciliation will mean that we will not be realistic participants in the discussion between the two approaches that the two Houses have taken.

Thus, failure to pass this amendment will not allow us to take part in the discussions on the other body's Amtrak proposal which, and I am not sure the gentleman is aware of it, was somewhat drastically modified last night with some amendments. One amendment clearly flies in the face of what I think is the feeling in this body, and hopefully is the feeling of the gentleman from Ohio as well.

For example, it has been the feeling of this body that Conrail should be sold. As a matter of fact, the Budget Committee has assumed receipts of $1.2 billion to help with deficit reduction.

Last night the other body passed an amendment that will make Conrail less salable by virtue of assigning new costs to Conrail. This will preclude to a great degree the prospects of a sale or the prospects of receiving revenue and thus the prospects of reducing the deficit.

I do not think we want to allow that to happen automatically without

being able to participate in the discussion. So if we truly want to discuss differences between what it is that we have done and what it is that the other body has done, we have to approve this amendment to get us into the discussion process. Not to approve it is to say that we are irrelevant to the process, and I do not think this body wants to be irrelevant to the process.

I have no further requests for time, and so I yield back the balance of my time.

The CHAIRMAN. All time has expired.

The question is on the amendment offered by the gentleman from New Jersey [Mr. FLORIO].

The amendment was agreed to.

Mr. BEDELL. Mr. Chairman, because I believe in the urgent need to reduce the deficit, I intend to vote today for passage of H.R. 3500, the fiscal year 1986 Budget Reconciliation Act. Although this legislative package is far from perfect, and contains some provisions that I oppose, on balance I believe that our greatest need today is to enact the deficit reduction provisions contained in this bill.

This reconciliation bill carries out the deficit reduction instructions contained in the fiscal year 1986 budget resolution adopted earlier this year by Congress. This reconciliation bill would reduce Federal spending by $61 billion over the next 3 years, which is $3.3 billion more than required by the 1986 budget resolution. Because I believed that the final House-Senate compromise version of that budget resolution did not hold the line on an across-the-board budget freeze and reduce deficits enough, I voted against it. However, today the choice is whether to support the package of spending cuts reported by the committees and included in this bill. I do support this package.

As a member of the Small Business Committee, I would note that this reconciliation bill includes cuts in small business programs that exceed the required $2.479 billion savings target by over $100 million. These cuts in small business programs would eliminate most direct lending programs, terminate SBA farmer disaster assistance loans, and result in future SBA program levels far below a freeze level. As a member of the House Agriculture Committee, I would also note that H.R. 2100, the 1985 farm bill passed earlier this month by the House, would achieve the required savings of $7.9 billion.

Among other provisions, I oppose the provisions in this bill that would result in sharing excessive amounts of offshore drilling revenues with a handful of coastal States. Because I thought that we in the House should have had the opportunity to vote on this unjustifiable giveaway, I voted against the rule that prohibited most amendments.

I voted for the Latta amendment, which would have cut an additional $3.5 billion from deficits in the next 3 years. This amendment would have cut proposed new housing programs, and allowed their consideration separately by the House at another time. I have been a consistent supporter of housing programs, and continue to support enactment of comprehensive housing authorization legislation this year.

I strongly support preserving the integrity of transportation trust funds, and object to using surpluses in the trust funds to mask deficits elsewhere in the budget. However, I voted for the Fazio amendment because I recognize that there is enormous public concern at this time over proposals to move certain programs off budget. I would be supportive of budget policy initiatives aimed at ensuring the integrity of these trust funds in a fiscally sound manner.

Mr. FRENZEL. Mr. Chairman, I rise today in strong opposition to H.R. 3500, the fiscal year 1986 budget reconciliation bill.

When we adopted our creampuff budget resolution on August 1, we called for savings in outlays totaling $75.5 billion over the next 3 years. After much agonizing, the bill before us does no better than a reduction of $61.1 billion, and it achieves those insufficient savings by some very dubious means.

I grant that the bill does not include portions from the Committees on Agriculture and Ways and Means. But despite the bill's claim that we will realize an additional $16 billion in savings out of those committees, the farm bill appears certain to miss its budget target by at least $4 billion, and Ways and Means is struggling to come within $2 billion of its target. The inclusion of those two committees' work is likely to make the picture more, not less, bleak.

No one has any reason to brag about H.R. 3500. It's a failed attempt to reach a feeble target. Most sections simply don't cut enough. That's reason enough to reject the bill. Worse, however, are the new programs and other changes in substantive law that have been packaged into the reconciliation bill because they could not pass muster in the regular procedures.

Perhaps most offensive of these is the $3.5 billion in new spending authority contained in the bill. Money is generously provided to a wide array of housing programs and to the Ocean and Coastal Resources Development Block Grant Program. What an awful mockery of budget process it is to use reconciliation, a spending reduction device, to spend more money.

The bill also makes a major backward step by removing the highway and airport trust funds from the budget, allegedly to protect their integrity. Actually the change prevents legislative oversight and makes it easier for spenders to spend more freely.

That provision is a major legislative initiative which, in my judgment, properly should be subject to the full legislative process. Forcing it into the reconciliation bill is a sure indication that H.R. 3500 is a spending rather than a saving bill.

The bill before us assuredly contains some reductions that were painful to make and were well drawn. I do not mean to belittle the effort many committees made to reach their budget targets. I applaud their honest work as much as I desire the extra spending efforts of others. This is a time of runaway deficits. In times like these strong measures are necessary. Pretty good isn't good enough. We are living off creampuffs and soda pop at a time when a strong cathartic is called for.

The bill also represents a violation of House jurisdictional rules. The Ways and Means Committee's jurisdiction was needlessly invaded more than half a dozen times, most dangerously in questionable amendments to the ERISA law. Under this precedent, committees will unload all their garbage, which could not pass under regular procedures, into the reconciliation bill. They will assume, I suppose, that the annual bill will, like this one, be protected by a closed rule, and will be veto proof. I hope they will be fooled by a veto of this bill.

Another dreadful feature of this bill is the diversion of Federal oil and gas revenues from the Federal Treasury into the coffers of a few privileged States. This bill creates a running sore of about $5 billion.

Our budget targets were pretty soft. They should have been met. In my judgment, this bill is an embarrassment to the budget process and to this body. If we cannot achieve more responsible legislation than H.R. 3500, we ought to go back to the drawingboard. I urge my colleagues to join me in voting no on this legislation.

Mr. DASCHLE. Mr. Chairman, the budget deficit has been referred to as a time bomb. That time bomb is ticking. The budget deficit must be reduced to defuse this ticking time bomb.

Record breaking budget deficit after record breaking budget deficit have created an intolerable burden of debt for our Nation. Our national debt is now more than $2 trillion. As a nation, we have become a fiscal policy junkie constantly needing a fix of deficit spending. Mr. Chairman, deficit spending provides no fix. It is no solution. It only prolongs and worsens the problem.

There are some who wish the budget deficit would just go away, simply disappear, but that won't happen. The budget deficit didn't just appear one morning on the Nation's doorstep. It was created. It must now be reduced and next eliminated.

The Omnibus Budget Reconciliation Act now being considered by the House will reduce deficit spending by an estimated $61.1 billion. This legislation combined with other cost-saving measures will reduce spending in total by $78 billion. For a nation addicted to deficit spending, this is strong medicine. But it is also the first step to recovery.

Earlier this week, Prof. Franco Modigliani, the 1985 Nobel Laureate in Economics, in testimony before the Joint Economic Committee concluded, "the current and perspective deficit of the United States is of a magnitude such as to cause a clear and present danger and call for immediate remedial action." Professor Modigliani's conclusion parallels the collective judgment of the American people. The budget deficit

must be reduced and eliminated and now is the time for action.

Mr. Chairman, there are many provisions in this legislation which I strongly support, like abolishing the Synthetic Fuels Corporation. There are other provisions, however, which I do not support. The Omnibus Reconciliation Act imposes a means test on our veterans who seek health care services from the Veterans' Administration. As a member of the House Committee on Veterans' Affairs, I opposed this proposal when it was considered in committee and I remain strongly opposed to a means test approach to veterans health care.

As a nation we have made a commitment to our veterans. We have a moral obligation to the men and women who have honorably served our Nation and our obligation to the Nation's veterans is not revocable.

I am particularly concerned about the practical application of a means test. The means test being imposed for VA health care is a new and uncharted course and many fundamental questions remain unanswered. How will the veteran who is a farmer or small business owner be affected? How will the Veterans' Administration compute the income of these veterans in determining if they will be required to make a payment of nearly $500 in order to receive medical treatment from the VA? These questions have not been answered.

Mr. Chairman, in thousands of communities throughout the Nation preparations are well under way for ceremonies next month to honor America's veterans. On November 11, our Nation will pay tribute to the men and women who answered the call to preserve and defend the democracy and freedom which all Americans today enjoy. In the future, how many men and women may choose not to respond because they now question our Nation's commitment to veterans? Veterans Day, 1985, may long be remembered by a retreat from our commitment to the men and women who serve our Nation and the passage of legislation imposing a means test on our Nation's veterans.

My second concern with the legislation before us today is the Small Business Committee's recommendations on disaster loans for farmers and ranchers. While not acquiescing to the administration's request that the Small Business Administration be eliminated, the committee has recommended a number of far reaching changes that will have a tremendous impact on the small business owners, ranchers, and farmers throughout the Nation.

One recommended change would have a drastic effect on thousands of western South Dakota ranchers, suffering from the effects of one of the worst droughts in the history of my State. This deficit reduction package would eliminate farmers and ranchers from eligibility for SBA disaster loans. Unfortunately, it is anticipated that the SBA will very likely begin denying ranchers disaster loans retroactive to the beginning of the fiscal year. This retroactive ban means that many farmers and ranchers who may have applied for disaster loans, but were not yet approved, will suddenly find themselves ineligible for loans they previously thought they were receiving.

The pressure by the administration to eliminate the SBA is tremendous. Every Member of this body understands that. I would urge my colleagues, however, to make certain these proposed changes are not implemented in a fashion which reneges on commitments made to agriculturral producers. As this legislation continues through the legislative process, I would urge my colleagues to make clear the congressional intent with regard to retroactive application of this disaster loan.

Mr. WEISS. Mr. Chairman, I cast my vote in favor of H.R. 3500, the Omnibus Budget and Reconciliation Act, but only with great reluctance.

The fundamental premise of this bill is that continued cuts in domestic spending programs are the proper response to the serious deficit crisis that threatens the future of our Nation.

This premise is wrong. We know beyond any shadow of a doubt that the prime causes of the deficit crisis are Ronald Reagan's massive military buildup and his inequitable tax giveaways. Logic dictates that the solution to the deficit crisis should address the causes. Therefore, a responsible approach to the deficit crisis should involve efforts to cut excessive military spending and to secure additional revenues by plugging inequitable loopholes in the Tax Code, not to eliminate spending for programs that serve human needs.

The current reconciliation bill contains a wide range of burdensome and unnecessary cuts that will harm veterans' programs, student loans, small business assistance, and other government services. In addition, the bill imposes an unwarranted pay freeze on our devoted Federal work force, which is already proven to be undercompensated relative to the private sector. I remain firmly opposed to these cutbacks.

But as on so many other occasions in recent years, a flawed vehicle provides the only opportunity for serious action on a critical problem—in this case, the serious national shortage of adequate housing. Indeed, as the all but monolithic opposition of our Republican colleagues indicates, defeating this bill would guarantee one that would cause even more pain.

While the reconciliation bill contains many damaging provisions, it also contains an urgently needed reauthorization of essential housing programs. It is well known that, unless this reauthorization is included in the reconciliation bill, there is little likelihood of any substantive action in this area in the near future. The severity of the current housing shortages and the importance of the housing reauthorization to the American public cannot be overstated. Therefore, I must join other Members of the House in demanding serious action on this issue.

The Government Operations Subcommittee on Intergovernmental Relations and Human Resources, which I chair, issued a report earlier this year on the need of a Federal response to the crisis of homelessness. The report noted that homelessness in this country is increasing by 38 percent each year. If we continue to neglect our country's fundamental housing and urban aid programs, we can only expect greater numbers of men, women, and children forced to live on the streets.

In New York City, approximately 170,000 eligible low-income families are on waiting lists for public housing. The waiting time currently stretches from 15 to 18 years. Approximately 47,000 families and individuals are "doubling up" with relatives and friends.

This bill represents an insufficient but important response to these problems. Positive changes have been made to assist families in section 8 housing, including important clarifications regarding their rent contribution. In addition, a small child care demonstration project has been authorized. An urgently needed rental rehabilitation program will be funded as well as three good new programs to aid the homeless. Included also is a homeownership demonstration project for low-income working families, the Nehemiah Project.

The provisions of H.R. 3500 concerning mandatory meals are also a step in the right direction. Some senior and disabled citizens living in federally subsidized housing (section 202/8) are forced to buy a mandatory meal plan as a condition of occupancy. The new provisions permit exemptions from mandatory meals for medical, religious, financial and other reasons; place a moratorium on new mandatory meals programs for 18 months while HUD conducts a study, and separate the meal contract from the rental agreement.

Proponents of mandatory meals claim voluntary programs are economically unfeasible; yet, many voluntary programs not only function well but provide cheaper meals. Proponents also say mandatory meals prevent isolation of the elderly. These arguments are patronizing and ageist. By law, section 202 housing is for people capable of independent living. It may be more sociable to eat with others; it may, for some, even be more nutritious to eat a prepared meal. Neither point is relevant. The pertinent issue is the compulsory nature of the meal programs.

The fight against mandatory meals, which is part of the movement for respect and equal treatment of all elderly people, revolves around the issue of whether elderly and disabled citizens capable of independent living have the right to decide when, where and what to eat if they choose to live in federally subsidized housing. Although the abolition of mandatory meals should be our ultimate goal, I feel the provisions on mandatory meals in this bill are a responsible and necessary step toward eliminating some of the most blatant problems associated with mandatory meals.

The bill also contains some welcome improvements in the law surrounding termination of pension plans that will eliminate the deficit of the Pension Benefit Guarantee Corporation and make it more difficult

for profitable firms to terminate their employee pension plans.

Finally, I strongly favor the provisions of the bill that will require employers to provide a 5-year continuation of health insurance at group rates to the spouse of a worker who dies, is divorced, or becomes eligible for Medicare provided the spouse pays the entire premium. Discontinued health insurance following divorce or death of a spouse is a particularly acute problem for midlife women. There are an estimated 5 million American women between the ages of 40 and 65 who have no basic health insurance coverage. Passage of this provision would help alleviate this crisis.

Mr. Chairman, I have long been a vocal advocate of programs to ensure adequate health care and housing for our Nation's citizens. And so long as this bill remains a vehicle for accomplishing these highly important goals, I will support it, seriously flawed as it otherwise is. But should these and other favorable provisions be significantly diluted or eliminated in conference, I will vote against the conference report.

Mr. WYLIE. Mr. Chairman, yesterday, during general debate on H.R. 3500, the Omnibus Budget Reconciliation Act of 1985, a question arose concerning the issue as to whether H.R. 1, as contained in title II of H.R. 3500, meets the budget resolution.

I believe I can shed some light on the question.

While it is true that the Banking Committee's reconciliation provision is within the budget authority and outlay targets of the budget resolution for fiscal year 1986, an analysis which I requested and which was prepared by the Congressional Budget Office, shows that the banking provision is over the outlay targets by $135 million for fiscal year 1987 and $185 million for fiscal year 1988. To find that I call the Members attention to the last line of numbers in the following table under outlays for 1987 and 1988. This is important, since reconciliation guidelines issued by the Budget Committee on September 20, 1985, which I also am including in the RECORD, indicate that the reconciliation directive covers fiscal years' 1986 through 1988. Since H.R. 1 is included in title II in its entirety, it seems clear that all of the H.R. 1 provisions would be subject to the reconciliation guidelines.

Mr Chairman, I thank you for the opportunity to clarify this issue because we all know that it is outlays that determine deficits, not the level of budget authority. Once again, I want to make clear, that while H.R. 1 may meet the budget authority targets of the budget resolution for fiscal year 1986. It does not meet the outlay targets for fiscal years 1987 and 1988.

HOUSE OF REPRESENTATIVES, COMMITTEE ON BANKING, FINANCE AND URBAN AFFAIRS,
Washington, DC, October 2, 1985.

Mr. RUDOLPH G. PENNER,
Director, Congressional Budget Office, Washington, DC.

DEAR MR. PENNER: This is in further regard to my letter of September 10, 1985 concerning H.R. 1, the Housing Act of 1985 as it relates to the First Concurrent Resolution on the Budget for Fiscal Year 1986.

Based on informal communications between members of our respective staffs, I have been advised that the H.R. 1 Reconciliation Amendment is within the FCR budget authority and outlay targets for Fiscal Year 1986. However, based on reconciliation guidelines issued by Budget Committee Chairman Gray on September 20, 1985, it appears that the Budget Committee Assumes that Fiscal Years 1986 through 1988 are covered under the reconciliation directive. In order that I may have a clearer understanding of H.R. 1 as it relates to the FCR and guidelines issued by the Budget Committee, I request that your office prepare an analysis of the H.R. 1 Reconciliation Amendment compared with the FCR showing budget authority and outlays for Fiscal Years 1986 through 1988.

I would appreciate your earliest reply and would like to have it no later than Monday, October 7, 1985.

Very truly yours,

CHALMERS P. WYLIE,
Ranking Member.

U.S. CONGRESS,
CONGRESSIONAL BUDGET OFFICE,
Washington, DC, October 7, 1985.

Hon. CHALMERS P. WYLIE,
Ranking Minority Member, Committee on Banking, Finance and Urban Affairs, House of Representatives, Washington, DC.

DEAR CONGRESSMAN: In response to your letter of October 2, 1985, I am enclosing a table that compares the reconciliation amendment to H.R. 1 dated September 23, 1985, to the First Concurrent Resolution on the Budget for Fiscal Year 1986. There are two important factors that should be noted concerning this table. First, as you mentioned, the budget resolution includes funding assumptions for the three fiscal years 1986 through 1988. With a few exceptions, however, the reconciliation amendments to H.R. 1 would provide authorizations for 1986 only. For comparison with the budget resolution, the House Budget Committee staff has requested that these authorizations be projected through 1988 using the same annual rates of inflation that were used to construct the resolution baseline. The enclosed table shows the results of this procedure. The second factor to consider when comparing proposed legislation to the resolution is the allocation of the resolution totals to the specific programs authorized by H.R. 1. The allocation shown in the table represents House Budget Committee staff assumptions.

As you can see from the table, the estimated budget impact of H.R. 1 falls within the resolution assumptions for fiscal year 1986. After applying the projection procedures noted above, it is estimated that the bill would save a total of about $1.5 billion in budget authority over the resolution period 1986–1988. Over the same period of time, however, outlays would exceed those in the resolution by $320 million.

If you wish further details on this estimate, we will be pleased to provide them.

With best wishes,
Sincerely,

RUDOLPH G. PENNER.

H.R. 1: RECONCILIATION AMENDMENT COMPARED WITH BUDGET RESOLUTION

[1] H.R. 1 would provide fiscal year 1986 authorizations only. For comparison purposes, these authorizations were projected with allowances for inflation. The allocation of the resolution to specific programs represents House Budget Committee staff assumptions.

HOUSE OF REPRESENTATIVES,
COMMITTEE ON THE BUDGET,
Washington, DC, September 20, 1985.

Hon. FERNAND J. ST GERMAIN,
Chairman, Committee on Banking, Finance and Urban Affairs, Rayburn House Office Building, Washington, DC.

DEAR FRED: As you know, the fiscal year 1986 budget resolution includes reconciliation directives to fourteen House committees, including the one you chair. The deadline for submitting reconciliation legislation to the Budget Committee is September 27, and many committees have made substantial progress in drafting their reconciliation bills.

I have enclosed a set of reconciliation guidelines for your information. However, I would urge you to call upon me at any time if you need further information or I can be of assistance in any other way.

Sincerely,

BUTLER DERRICK,
Chairman, Task Force on the Budget Process.

Enclosure.

RECONCILIATION GUIDELINES FOR COMMITTEES

1. What years are covered under the reconciliation directive?

Fiscal Years 1986 through 1988.

2. The reconciliation directives specify budget authority and outlay targets for each of the three years. Does a committee have to meet each year's target for both budget authority and outlays?

Committees are expected to meet their targets. In the past, Congress has been most concerned that the three-year total outlay savings be met, and less concerned with the year-by-year distribution and the budget authority targets. The Budget Committee encourages committees to be guided by the distribution and budget authority figures to the extent feasible.

The CHAIRMAN. Under the rule, no further amendments are in order.

Under the rule, the Committee rises.

Accordingly the Committee rose; and the Speaker pro tempore (Mr. BONIOR of Michigan) having assumed the chair, Mr. DE LA GARZA, Chairman of the Committee of the Whole House on the State of the Union, reported that that Committee, having had under consideration the bill (H.R. 3500) to provide for reconciliation pursuant to section 2 of the First Concurrent Resolution on the Budget for the fiscal year 1986, pursuant to House Resolution 296, he reported the bill back to the House with sundry amendments adopted by the Committee of the Whole.

The SPEAKER pro tempore. Under the rule, the previous question is ordered.

Under the rule, the amendment on page 15 is considered to have been adopted in the House.

Is a separate vote demanded on any amendment? If not, the Chair will put them en gros.

The amendments were agreed to.

The SPEAKER pro tempore. The question is on the engrossment and third reading of the bill.

The bill was ordered to be engrossed and read a third time, and was read the third time.

MOTION TO RECOMMIT OFFERED BY MR. LATTA

Mr. LATTA. Mr. Speaker, I offer a motion to recommit.

The SPEAKER pro tempore. Is the gentleman opposed to the bill?

Mr. LATTA. I am, Mr. Speaker.

The SPEAKER pro tempore. The Clerk will report the motion to recommit.

The Clerk read as follows:

Mr. LATTA moves to recommit the bill, H.R. 3500, to the Committee on the Budget.

The SPEAKER pro tempore. Without objection, the previous question is ordered on the motion to recommit.

There was no objection.

The SPEAKER pro tempore. The question is on the motion to recommit.

The motion to recommit was rejected.

The SPEAKER pro tempore. The question is on the passage of the bill.

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

Mr. LATTA. Mr. Speaker, I object to the vote on the ground that a quorum is not present and make the point of order that a quorum is not present.

The SPEAKER pro tempore. Evidently a quorum is not present.

The Sergeant at Arms will notify absent Members.

The vote was taken by electronic device, and there were—yeas 228, nays 199, not voting 7, as follows:

NOT VOTING—7

Addabbo	Conyers	Smith, Denny (OR)
Brown (CA)	Nelson	
Coelho	Skelton	

□ 1500

The Clerk announced the following pair:

On this vote:

Mr. Nelson of Florida for, with Mr. Denny Smith against.

Mr. HUGHES changed his vote from "yea" to "nay."

Mr. YATES changed his vote from "nay" to "yea."

So the bill was passed.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

GENERAL LEAVE

Mr. GRAY of Pennsylvania. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remakrs, and include extraneous material, in the RECORD on the bill just passed.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Pennsylvania?

There was no objection.

REPORT ON RESOLUTION WAIVING CERTAIN POINTS OF ORDER AGAINST CONFERENCE REPORT ON S. 1160, DEPARTMENT OF DEFENSE AUTHORIZATION ACT, 1986, AND AGAINST CONSIDERATION THEREOF

Mr. BEILENSON, from the Committee on Rules, submitted a privileged report (Rept. No. 99-330) on the resolution (H. Res. 299), waiving certain points of order against the conference report on the bill (S. 1160) to authorize appropriations for the military functions of the Department of Defense and to prescribe personnel levels for the Department of Defense for fiscal year 1986, to authorize certain construction at military installations for such fiscal year, to authorize appropriations for the Department of Energy for national security programs for such fiscal year, and for other purposes, and against the consideration of such conference report, which was referred to the House Calendar and ordered to be printed.

PERMISSION FOR COMMITTEE ON APPROPRIATIONS TO HAVE UNTIL MIDNIGHT, FRIDAY OCTOBER 25, 1985, TO FILE PRIVILEGED REPORT ON DEPARTMENT OF DEFENSE APPROPRIATIONS, FISCAL YEAR 1986

Mr. CHAPPELL. Mr. Speaker, I ask unanimous consent that the Commit-

tee on Appropriations may have until midnight tomorrow to file a privileged report on the bill making appropriations for the Department of Defense for the fiscal year ending September 30, 1986, and for other purposes.

Mr. McDADE reserved all points of order on the bill.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Florida?

There was no objection.

LEGISLATIVE PROGRAM

(Mr. MICHEL asked and was given permission to address the House for 1 minute.)

Mr. MICHEL. Mr. Speaker, I have asked unanimous consent to proceed for 1 minute to inquire of the distinguished majority leader the program for the balance of the day and next week.

Mr. WRIGHT. Mr. Speaker, will the distinguished minority leader yield?

Mr. MICHEL. I yield to the majority leader.

Mr. WRIGHT. I thank the gentleman.

Mr. Speaker, this concludes the legislative business for the week. And before we adjourn today, I will ask unanimous consent that we adjourn to meet at noon on Monday.

On Monday we will have four district bills and seven suspensions, and recorded votes requested on the district bills or the suspensions will be postponed until Tuesday, so we would have no votes on them on Monday. They are listed on the page that I have handed to the distinguished minority leader, and I include that list at this point in the RECORD.

District of Columbia bills:

H.R. 2050, District Parole Board;

H.R. 2946, District Jury System;

H.R. 3578, Prosecutorial and Judicial Efficiency Bill; and

H.R. 3592, Prosecutorial and Judicial Efficiency Bill.

Suspensions (seven bills):

H.R. 3603, clarify application of section 2406 of United States Code title X;

H.R. 3235, Mississippi Technology Transfer Center Act;

H.R. 3530, Fair Labor Standards Amendments of 1985;

H.R. 3447, Congressional Awards Acts amendments;

H. Con. Res. 201, 10th Anniversary Commemoration of Education for All Handicapped Children Act;

H.R. 2713, restitution amendments, United States Code, title XVIII; and

H.R. 3511, bank bribery amendments.

On Tuesday we will meet at noon, takes votes on any district bills or suspensions that have been postponed on Monday, and then take up the conference report on the Department of Defense authorization bill.

On Wednesday and the balance of the week we meet at 10 a.m. and take care of the Department of Defense appropriations for fiscal year 1986, subject to the granting of a rule, and the possibility exists that we might need to be in session on Friday, November 1.

It is even possible, and I think Members should note this possibility, that we might have to be in on Saturday, November 2, if it becomes necessary in order to pass the debt ceiling extension legislation. That would be the only reason that we would contemplate any possibility of being in session on Saturday. But I think, in fairness, Members ought to crank that into their computers.

That would account for the major part of the program for next week.

Any conference reports, of course, could be brought up at any time, and any other program will be announced later.

Mr. MICHEL. I would assume on Tuesday, prior to consideration of the defense authorization and subject to a rule being granted, we would consider the rule, and that would be the first, or after the rollcalls on Tuesday, we would take up the rule and then proceed immediately to the defense authorization.

Mr. WRIGHT. The gentleman is absolutely correct.

I am advised that the Rules Committee has just voted upon a very simple rule, merely waiving points of order against consideration of the conference committee report.

I do not know whether there would be any conflict or disagreement on the rule; quite possibly not. But we would vote on it obviously.

Mr. MICHEL. Of course then when we are concluded with the authorization, we would go to the rule on defense appropriations, again because that one is subject to a rule?

Mr. WRIGHT. The gentleman is absolutely right, but we would hold that over until the following day and, I think, would take up the rule, with the bill beginning on Wednesday. Coming in at 10 o'clock, I do not know whether we would be able to finish it on Wednesday and Thursday or not. That is why I think Members probably should expect the possibility of being in session on Friday, November 1.

Mr. MICHEL. It has been the feeling of the gentleman from Illinois, if we could at all possibly complete that defense appropriation bill next week, it would be much more preferable than spilling over into the following week when it may very well eat up all that much more time when we go into the next week.

But if I understand correctly, the gentleman is holding out to the House the prospect of Friday and Saturday primarily because of the uncertainty of what might happen on the debt ceiling, is that not correct?

Mr. WRIGHT. The gentleman is absolutely correct. I think Members need to be on notice that there exists that possibility as we near the date on which it will become necessary for Congress to take final action on the extension of the debt ceiling.

Now, with respect to Friday, it is possible we may be in session Friday to complete the Defense Department appropriation bill; not on Saturday. We would not be in on Saturday for that purpose. Only in case we had to be here for purposes of keeping the Government operating with regard to the debt ceiling extension would we come in on Saturday.

Mr. MICHEL. I thank the gentleman.

Mr. Speaker, I yield back the balance of my time.

ADJOURNMENT TO MONDAY, OCTOBER 28, 1985

Mr. WRIGHT. Mr. Speaker, I ask unanimous consent that when the House adjourns today, it adjourn to meet at noon on Monday next.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Texas?

There was no objection.

DISPENSING WITH CALENDAR WEDNESDAY BUSINESS ON WEDNESDAY NEXT

Mr. WRIGHT. Mr. Speaker, I ask unanimous consent that business under the Calendar Wednesday rule be dispensed with on Wednesday next.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Texas?

Mr. WALKER. Mr. Speaker, I object.

The SPEAKER pro tempore. The gentleman was not on his feet, and there is no objection.

Mr. WALKER. Mr. Speaker, I object.

The SPEAKER pro tempore. Objection is heard.

Mr. WRIGHT. Mr. Speaker, we will have Calendar Wednesday on next Wednesday, and then we will have the Department of Defense appropriation bill.

PERMISSION FOR COMMITTEE ON EDUCATION AND LABOR TO FILE REPORT ON H.R. 3530, FAIR LABOR STANDARDS AMENDMENTS OF 1985

Mr. HAWKINS. Mr. Speaker, I ask unanimous consent that the Committee on Education and Labor be permitted to file the committee's report on H.R. 3530 (the Fair Labor Standards Amendments of 1985) by midnight tonight, October 24, 1985.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from California?

Mr. JEFFORDS. Reserving the right to object, Mr. Speaker, and I will not object, it is my understanding that this is necessary to consider that legislation early next week; is that correct.

Mr. HAWKINS. If the gentleman will yield, that is correct, in order that this bill, the Fair Labor Standards Act, affecting the Garcia decision, will be on the Suspension Calendar Monday or Tuesday at the latest.

Mr. JEFFORDS. Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from California?

There was no objection.

NATIONAL SCIENCE FOUNDATION AUTHORIZATION ACT FOR FISCAL YEAR 1986

Mr. FUQUA. Mr. Speaker, I ask unanimous consent to take from the Speaker's table the bill (H.R. 1210), to authorize appropriations to the National Science Foundation for the fiscal year 1986, and for other purposes, with a Senate amendment thereto and concur in the Senate amendment with an amendment.

The Clerk read the title of the bill.

The Clerk read the House amendment to the Senate amendment as follows:

In lieu of the matter proposed to be inserted by the Senate amendment, insert the following:

That this Act may be cited as the "National Science, Engineering, and Mathematics Authorization Act of 1986".

TITLE I—NATIONAL SCIENCE FOUNDATION AUTHORIZATION

SHORT TITLE

SEC. 101. This title may be cited as the "National Science Foundation Authorization Act for Fiscal Year 1986".

AUTHORIZATION OF APPROPRIATIONS

SEC. 102. (a) There are authorized to be appropriated to the National Science Foundation, for the fiscal year 1986, the sums set forth in the following categories:

(1) Advanced Scientific Computing, $46,230,000.

(2) Astronomical, Atmospheric, Earth, and Ocean Sciences, $359,670,000.

(3) Biological, Behavioral, and Social Sciences, $262,010,000.

(4) Engineering, $169,796,000.

(5) Mathematical and Physical Sciences, $408,820,000.

(6) Scientific, Technological, and International Affairs, $37,770,000.

(7) Program Development and Management, $72,230,000.

(8) Science and Engineering Education, $50,550,000.

(9) United States Antarctic Program, $110,080,000.

(b)(1) Notwithstanding any other provision of this Act, from the amounts authorized under subsection (a)—

(A) not less than $1,000,000 are authorized only for the purposes of the ethics and values in science and technology program; and

(B) not less than $3,000,000 are authorized only for purposes of the Policy Research and Analysis program.

The Foundation shall report to the Committees on Labor and Human Resources and Commerce, Science, and Transportation of the Senate on the distribution of the funds made available under subparagraph (A) of this paragraph not later than December 30, 1986.

(c) In the obligation, use, and expenditure of the amounts appropriated for Biotic Systems and Resources under the authority provided in subsection (a)(3) and for Atmospheric Sciences under the authority provided in subsection (a)(2), emphasis shall be placed on basic scientific research to support a better understanding of the phenomena that contribute to acid rain.

SCIENTIFIC REVIEW PRIOR TO CLOSURE OF A NATIONAL FACILITY

SEC. 103. Of the funds authorized to be appropriated in section 102, no funds shall be expended with respect to closure of a National facility without appropriate scientific review, including review by the National Science Foundation's appropriate advisory committee or committees and the National Science Board.

AVAILABILITY

SEC. 104. Appropriations made under authority provided in sections 102 and 106 shall remain available for obligation for periods specified in the Acts making the appropriations.

OFFICIAL EXPENSES

SEC. 105. From appropriations made under authorizations provided in this Act, not more than $3,500 for fiscal year 1986 may be used for official consultation, representation, or other extraordinary expenses at the discretion of the Director of the National Science Foundation. The determination of the Director shall be final and conclusive upon the accounting officers of the Government.

FOREIGN CURRENCY AUTHORIZATION

SEC. 106. In addition to the sums authorized by section 102, not more than $1,000,000 for fiscal year 1986 are authorized to be appropriated for expenses of the National Science Foundation incurred outside the United States, to be drawn from foreign currencies that the Treasury Department determines to be excess to the normal requirements of the United States.

TRANSFERS AUTHORIZED

SEC. 107. (a) Funds may be transferred among the categories listed in section 102(a), so long as the net funds transferred to or from any category do not exceed 10 percent of the amount authorized for that category in section 102.

(b) The Director of the Foundation may propose transfers to or from any category exceeding 10 percent of the amounts authorized for that category in section 102. An explanation of any such proposed transfer must be transmitted in writing to the Speaker of the House, the President of the Senate, the Committees on Labor and Human Resources and Commerce, Science, and Transportation of the Senate, and the Committee on Science and Technology of the House of Representatives. The proposed transfer may be made only when thirty calendar days have passed after submission of the written proposal.

DATA COLLECTION AND ANALYSIS

SEC. 108. The National Science Foundation is authorized to design, establish, and maintain a data collection and analysis capability in the Foundation for the purpose of identifying and assessing the research facilities needs of universities. The needs of universities, by major field of science and engineering, for construction and modernization of research laboratories, including fixed equipment and major research equipment, shall be documented. University expenditures for the construction and modernization of research facilities, the sources of funds, and other appropriate data shall be collected and analyzed. The Foundation, in conjunction with other appropriate Federal agencies, shall conduct the necessary surveys every 2 years and report the results to the Congress. The first report shall be submitted to the Congress by September 1, 1986.

NATIONAL SCIENCE FOUNDATION ADMINISTRATIVE AMENDMENTS

SEC. 109. (a) The last sentence of section 4(e) of the National Science Foundation Act of 1950 (42 U.S.C. 1863(e)) is amended by striking out "by registered mail or certified mail mailed to his last known address of record".

(b) Section 5(e) of the National Science Foundation Act of 1950 (42 U.S.C. 1864(e)) is amended to read as follows:

"(e)(1) The Director may make grants, contracts, and other arrangements pursuant to section 11(c) only with the prior approval of the Board or under authority delegated by the Board, and subject to such conditions as the Board may specify.

"(2) Any delegation of authority or imposition of conditions under the preceding sentence shall be effective only for such period of time, not exceeding two years, as the Board may specify, and shall be promptly published in the Federal Register and reported to the Committees on Labor and Human Resources and Commerce, Science, and Transportation of the Senate and the Committee on Science and Technology of the House of Representatives. On October 1 of each odd-numbered year the Board shall submit to the Congress a concise report which explains and justifies any actions taken by the Board under this subsection to delegate its authority or impose conditions within the preceding two years. The provisions of this subsection shall cease to be effective at the end of fiscal year 1989.".

(c) Section 12 of such Act (42 U.S.C. 1871) is amended—

(1) by striking out "(a)" after "SEC. 12."; and

(2) by striking out subsection (b).

(d) Section 9 of the National Science Foundation Act of 1950 (42 U.S.C. 1868) is amended to read as follows:

"SPECIAL COMMISSIONS

"SEC. 9. (a) Each special commission established under section 4(h) shall be appointed by the Board and shall consist of such members as the Board considers appropriate.

"(b) Special commissions may be established to study and make recommendations to the Foundation on issues relating to research and education in science and engineering.".

(e)(1) Section 14 of such Act (42 U.S.C. 1873) is amended—

(A) by striking out subsection (b);

(B) by redesignating subsections (c) through (i) as subsections (b) through (h), respectively; and

(C) by adding at the end thereof the following new subsection:

"(i) Information supplied to the Foundation or a contractor of the Foundation by an industrial or commercial organization in survey forms, questionnaires, or similar

instruments for the purposes of subsection (a)(5) or (a)(6) of section 3 may not be disclosed to the public unless such information has been transformed into statistical or aggregate formats that do not allow the identification of the supplier. The names of organizations supplying such information may not be disclosed to the public.".

(2) Sections 3(b) and 15(b)(1) of such Act (42 U.S.C. 1862(b), 1874(b)(1)) are each amended by striking out "14(g)" and inserting in lieu thereof "14(f)".

(f) Section 10 of the National Science Foundation Authorization Act, Fiscal Year 1978 (42 U.S.C. 1873(a)), is repealed.

(g) Section 6(a) of the National Science Foundation Authorization Act, 1976 (42 U.S.C. 1881a(a)) is amended—

(1) by striking out "not to exceed $50,000 per year for a period not to exceed three years" in the last sentence; and

(2) by adding at the end thereof the following new sentence: "The National Science Board will periodically establish the amounts and terms of such grants under this section.".

(h) Section 6 of the National Science Foundation Authorization Act, Fiscal Year 1978 (42 U.S.C. 1884), is repealed; and sections 7, 8, 9, 11, 12, 13, and 14 of such Act are redesignated as sections 6 through 12, respectively.

(i) Section 9 of the National Science Foundation Authorization Act for Fiscal Year 1980 (42 U.S.C. 1882) is amended by inserting "and the National Science Board" after "the Director of the National Science Foundation".

AMENDMENT TO THE NATIONAL SCIENCE FOUNDATION ACT OF 1950 RELATING TO ENGINEERING

SEC. 110. (a) The National Science Foundation Act of 1950 (42 U.S.C. 1861 through 1875) is amended as follows:

(1) Section 3(a)(1) (42 U.S.C. 1862(a)(1)) is amended—

(A) by striking out "engineering,";

(B) by inserting after "other sciences," the following: "and to initiate and support research fundamental to the engineering process and programs to strengthen engineering research potential and engineering education programs at all levels in the various fields of engineering,"; and

(C) by striking out "such scientific and educational activities" and inserting in lieu thereof "such scientific, engineering, and educational activities".

(2) Section 3(a)(2) (42 U.S.C. 1862(a)(2)) is amended by striking out "in the mathematical, physical, medical, biological, engineering, social, and other sciences" and inserting in lieu thereof "for study and research in the sciences or in engineering".

(3) Section 3(a)(3) (42 U.S.C. 1862(a)(3)) is amended—

(A) by inserting "and engineering" after "scientific"; and

(B) by inserting "and engineers" after "scientists".

(4) Section 3(a)(4) (42 U.S.C. 1862(a)(4)) is amended—

(A) by inserting "and engineering" after "scientific"; and

(B) by inserting "and engineering" after "sciences".

(5) Section 3(a)(5) (42 U.S.C. 1862(a)(5)) is amended by inserting "and fields of engineering" after "sciences".

(6) Section 3(a)(6) (42 U.S.C. 1862(a)(6)) is amended by striking out "technical" each place it appears and inserting in lieu thereof "engineering".

(7) Section 3(a)(7) (42 U.S.C. 1862(a)(7)) is amended by inserting "and engineering" after "scientific".

(8) Section 3(b) (42 U.S.C. 1862(b)) is amended by inserting "and engineering" after "scientific" each place it appears.

(9) Section 3(c) (42 U.S.C. 1862(c)) is amended—

(A) by inserting "and engineering" after "scientific" in the first sentence; and

(B) by inserting "and engineering research" after "applied scientific research" in the second sentence.

(10) Section 3(d) (42 U.S.C. 1862(d)) is amended by striking out "basic research and education in the sciences" and inserting in lieu thereof "research and education in science and engineering".

(11) Section 3(e) (42 U.S.C. 1862(e)) is amended by inserting "and engineering" after "sciences".

(12) Section 4(c) (42 U.S.C. 1863(c)) is amended—

(A) by inserting "and engineering" after "scientific" in clause (3) of the first sentence;

(B) by inserting "and engineers" after "scientists" in the second sentence; and

(C) by inserting "the National Academy of Engineering," after "National Academy of Sciences,", and inserting ", engineering," after "scientific", in the third sentence.

(13) The first sentence of section 10 (42 U.S.C. 1869) is amended by striking out "scientific study or scientific work in the mathematical, physical, medical, biological, engineering, social, and other sciences" and inserting in lieu thereof "study and research in the sciences or in engineering".

(14) Section 11 (42 U.S.C. 1870) is amended—

(A) by inserting "or engineering" after "scientific" each place it appears in subsections (c), (d), and (i);

(B) by striking out "technical" and inserting in lieu thereof "engineering" in subsection (g); and

(C) by striking out "scientific value" and inserting in lieu thereof "scientific or engineering value" in subsection (g).

(15) Section 12 (42 U.S.C. 1871), as amended by section 109(c) of this Act, is further amended by inserting "or engineering" after "scientific".

(16) Section 13(a) (42 U.S.C. 1872(a)) is amended—

(A) by inserting "or engineering" after "scientific" each place it appears in the first two sentences;

(B) by inserting "or engineers" after "scientists"; and

(C) by striking out "scientific study or scientific work" and inserting in lieu thereof "study and research in the sciences or in engineering".

(17) Section 13(b) (42 U.S.C. 1872(b)) is amended by inserting "or engineering" after "scientific".

(18) Section 14 (42 U.S.C. 1873), as amended by section 109(e) of this Act, is further amended—

(A) by inserting "or engineering" after "scientific" each place it appears in subsection (e); and

(B) by striking out "technical" in subsection (f) and inserting in lieu thereof "engineering".

(19) Section 15(b) (42 U.S.C. 1874(b)) is amended—

(A) by striking out "technical" in paragraph (1) and inserting in lieu thereof "engineering"; and

(B) by inserting "or engineering" after "scientific" in paragraph (2).

(b) Section 2(b) of the National Science Foundation Authorization Act, 1976 (42 U.S.C. 1869a) is amended by inserting "or engineering" after "science" each place it appears.

AMENDMENT TO SCIENCE AND TECHNOLOGY EQUAL OPPORTUNITY ACT RELATING TO ENGINEERING

SEC. 111. (a) The first section of the National Science Foundation Authorization and Science and Technology Equal Opportunities Act (42 U.S.C. 1861, note) is amended by striking out "Technology" and inserting in lieu thereof "Engineering".

(b) Part B of the National Science Foundation Authorization and Science and Technology Equal Opportunities Act (42 U.S.C. 1885 to 1885(d)) is amended as follows:

(1) Sections 31 (42 U.S.C. 1885) is amended by striking out "Technology" and inserting in lieu thereof "Engineering".

(2) Sections 32(a) (42 U.S.C. 1885(a)) is amended—

(A) by striking out "technology" and inserting in lieu thereof "engineering"; and

(B) by striking out "scientific talent and technical skills" and inserting in lieu thereof "scientific and engineering talents and skills".

(3) The first sentence of section 32(b) (42 U.S.C. 1885(b)) is amended—

(A) by striking out "skills in science and mathematics" and inserting in lieu thereof "skills in science, engineering, and mathematics";

(B) by striking out "technical" and inserting in lieu thereof "engineering";

(C) by striking out "scientific literacy" and inserting in lieu thereof "scientific and engineering literacy"; and

(D) by striking out "technology" and inserting in lieu thereof "engineering".

(4) The second sentence of section 32(b) (42 U.S.C. 1885(b)) is amended—

(A) by striking out "highest quality science" and inserting in lieu thereof "highest quality science and engineering";

(B) by striking out "technology" and inserting in lieu thereof "engineering".

(5) The third sentence of section 32(b) (42 U.S.C. 1885(b)) is amended by striking out "technology" and inserting in lieu thereof "engineering".

(6) Section 33 (42 U.S.C. 1885a) is amended—

(A) by striking out "technology" and "technical" each place they appear and inserting in lieu thereof "engineering";

(B) by inserting ", engineering," after "science" in paragraph (2);

(C) by inserting "and engineers" after "scientists" each place it appears;

(D) by inserting "and engineering" after "science" in paragraph (10); and

(E) by striking out "science, engineering, and technology" in paragraph (11) and inserting in lieu thereof "science and engineering".

(7) Section 34 (42 U.S.C. 1885b) is amended—

(A) by striking out "science education" and inserting in lieu thereof "science and engineering education"; and

(B) by striking out "technology" and inserting in lieu thereof "engineering".

(8) Section 36 (42 U.S.C. 1885c) is amended—

(A) by striking out "TECHNOLOGY" in the heading and "Technology" and "technology" each place they appear, and inserting in lieu thereof "ENGINEERING", "Engineering", and "engineering", respectively; and

(B) by striking out "scientific engineering, professional, and technical" and inserting in lieu thereof "scientific, engineering, and professional".

(9) Section 37(b) (42 U.S.C. 1885d(b)) is amended—

(A) by striking out "technical" each place it appears and inserting in lieu thereof "engineering"; and

(B) by striking out "Technology" in paragraph (3) and inserting in lieu thereof "Engineering".

(10) The heading of such part B is amended by striking out "TECHNOLOGY" and inserting in lieu thereof "ENGINEERING".

PRIVATE SECTOR SURVEY REVIEW

SEC. 112. Within 90 days after the date of the enactment of this Act the Director of the National Science Foundation shall review the recommendations of the President's Private Sector Survey on Cost Control and such other recommendations as may be included in the OMB report "Management of the United States Government—1986", and shall submit a report to the Speaker of the House of Representatives, the President of the Senate, and the appropriate Committees of the House and Senate on the implementation status of each such recommendation which affects the National Science Foundation and which is within the authority and control of the Director.

TITLE II—EDUCATION FOR ECONOMIC SECURITY REAUTHORIZATION

PART A—NATIONAL SCIENCE FOUNDATION MATHEMATICS AND SCIENCE PROGRAMS

MATHEMATICS, SCIENCE, AND ENGINEERING EDUCATION PROGRAMS

SEC. 201. Title I of the Education for Economic Security Act (Public Law 98-377) is amended to read as follows:

"TITLE I—NATIONAL SCIENCE FOUNDATION SCIENCE AND ENGINEERING EDUCATION

"POLICY

SEC. 101. (a) The Congress declares that the science and engineering education responsibilities of the National Science Foundation are—

"(1) to improve the quality of instruction in the fields of mathematics, science, and engineering;

"(2) to support research, fellowships, teacher-faculty-business exchange programs in mathematics, science, and engineering;

"(3) to improve the quality and availability of instrumentation for mathematics, science, and engineering instruction;

"(4) to encourage partnerships in education between local and State education agencies, business and industry, colleges and universities, and cultural and professional institutions and societies; and

"(5) to improve the quality of education at all levels in the fields of mathematics, science, and engineering.

"(b) In exercising its responsibilities to strengthen scientific and engineering research potential and science and engineering education programs at all levels, the Foundation shall avoid undue concentration of support for research and education activities.

"FUNCTIONAL OBJECTIVES; USES OF FUNDS

"Sec. 102. (a) In carrying out its science and engineering education responsibilities, the Foundation shall have the following functional objectives: public understanding of science and technology, faculty enhancement, student education and training, instructional development and instrumentation, and materials development and dissemination.

"(b) Funds under this title shall, consistent with such functional objectives, by used for—

"(1) enhancement of public understanding of science and engineering through informal education activities using a variety of mediums such as broadcasting, museums, clubs, and amatuer science societies;

"(2) development of new science and engineering faculty resources and talents;

"(3) enhancement of the quality of science and engineering instruction in colleges of teacher education;

"(4) development of four-year college faculty and instructors in high technology fields;

"(5) development of two-year community college faculty and instructors especially in high technology fields;

"(6) development of precollege mathematics, science and engineering education and training;

"(7) encouragement of potential students, including underrepresented and underserved populations, to pursue careers in mathematics, science, engineering, and critical foreign languages;

"(8) development of instructional instrumentation and systems for postsecondary technical, engineering, and scientific education; and

"(9) development of science, engineering, and education networks to aid in the development and dissemination of successful curricula, methods, and materials.

"TEACHER INSTITUTES

"Sec. 103. (a) The Foundation shall, in accordance with the provisions of this title, make competitive grants to institutions of higher education, businesses, nonprofit private organizations (including schools), local education agencies, professional engineering and scientific associations, museums, libraries, public broadcasting entities (as defined in section 397(11) of the Communications Act of 1934), and appropriate State agencies to support institutes and workshops for supervisors and teachers in public and private elementary and secondary schools for the purpose of improving the subject knowledge and teaching skills of such teachers in the areas of mathematics and science.

"(b) In making grants under this section, the Foundation shall assure that there is an equitable distribution among States of institutes established and operated with funds made available under this section. The Foundation shall award not less than one institute in each State, except that the Foundation may waive this requirement if there is no proposal from a State which meets the requirements of this title. Proposals which exceed $300,000 in any fiscal year incorporating the services or resources of more than two entities in the design and operation of the institute, may be funded at the discretion of the Director of the Foundation.

"(c) Institutes assisted under this title may, to the extent possible, involve the cooperation of advanced technology businesses and other businesses which are able to supply assistance in the teaching of mathematics and science.

"(d) In making grants under this title, the Foundation shall require assurances that local education agencies will be involved in the planning and development of the institute in the case of applications submitted by other eligible applicants described in subsection (a) of this section, or that one or more such applicants will be involved in the planning and development of the institute in the case of applications submitted by State or local education agencies.

"MATERIALS DEVELOPMENT AND METHODS RESEARCH FOR MATHEMATICS, SCIENCE, AND ENGINEERING

"Sec. 104. (a) The Foundation is authorized, in accordance with the provisions of this title, to award competitive grants to institutions of higher education, businesses, nonprofit private organizations, local education agencies, professional engineering and scientific associations, museums, libraries, public broadcasting entities (as defined in section 397(11) of the Communications Act of 1934), and appropriate State agencies—

"(1) for instructional curriculum improvement and faculty development in mathematics, science, and engineering;

"(2) for programs designed to enhance public understanding of mathematics, science, and engineering, including the use of public broadcasting entities; and

"(3) for research on methods of instruction and educational programs in mathematics, science, engineering, and critical foreign languages.

"(b) Studies conducted under subsection (a)(3) may include—

"(1) teaching and learning research and its application to local and private sector instructional materials development and to improved teacher training programs;

"(2) research on the use of local and informal science education activities;

"(3) research on recruitment, retention, and improvement of mathematics, science, engineering, and critical language faculties; and

"(4) analysis of materials and methods for mathematics, science, and engineering education used in other countries and their potential application in the United States.

"(c) Funds awarded for such competitive grants shall be expended through a system requiring matching of the grant. The minimum amount required as a match shall be equal to a percentage of the grant that is determined by the Foundation. Funds made available for matching purposes may include in-kind services or other resources.

"(d) In making grant applications for materials or methods research for the purposes described in subsections (a)(1) and (a)(3), the Foundation shall assure the involvement of appropriate State or local education agencies in the case of applications submitted by other entities described in subsection (a), or that one or more of such other entities will be consulted in the case of applications submitted by State or local education agencies.

"GRADUATE FELLOWSHIPS

"Sec. 105. The Foundation is authorized, in accordance with the provisions of this title, to establish and carry out a program of graduate fellowships for the purpose of encouraging and assisting promising students to continue their education and research in mathematics, science, and engineering.

"OTHER FUNCTIONAL ACTIVITIES

"Sec. 106. (a) The Foundation is authorized to expend up to 15 per centum of the funds available for science and engineering education for applications which the Foundation determines will meet one or more of the functional objectives described in section 102(b).

"(b) Such programs may include a program for the exchange of mathematics, science, or engineering faculty between institutions of higher education (particularly institutions having nationally recognized research facilities) and eligible institutions. For the purposes of this section, the term 'el-

igible institution' means an institution of higher education which—

"(1) has an enrollment which includes a substantial percentage of students who are members of a minority group, or who are economically or educationally disadvantaged; or

"(2) is located in a community that is not within commuting distance of a major institution of higher education; and

"(3) demonstrates a comitment to meet the special educational needs of students who are members of a minority group or are economically or educationally disadvantaged.

"SCIENCE AND ENGINEERING EDUCATION STRATEGIC PLAN

"SEC. 107. The Foundation shall develop a five-year strategic plan for science and engineering education, to be up-dated on an annual basis, and submitted to the Committee on Labor and Human Resources of the Senate, and the Committee on Science and Technology of the House of Representatives by November 30 of each year.

"APPROVAL OF PROPOSALS

"SEC. 108. The Foundation shall adopt approval procedures designed to assure that awards are made on the basis of the scientific and educational merit as determined by the peer review process. To the maximum extent possible, the Foundation shall assure that there is an equitable distribution of resources with respect to institutions and geographical areas.

"SPECIAL CONSIDERATION OF UNDERREPRESENTED AND UNDERSERVED POPULATIONS

"SEC. 109. In providing financial assistance under this title, the Foundation shall make every effort to ensure that consideration is given to proposals which contain provisions designed to meet the needs of underrepresented and underserved populations.

"AVAILABILITY OF FUNDS

"SEC. 110. Funds to carry out this title for any fiscal year shall be made available from amounts appropriated pursuant to annual authorizations of appropriations for the National Science Foundation for Science and Engineering Education. For fiscal year 1986, funds to carry out this title shall be available from amounts authorized by section 102(a)(8) of the National Science Foundation Authorization Act for fiscal year 1986.

"PROHIBITION AGAINST THE FEDERAL CONTROL OF EDUCATION

"SEC. 111. The provisions of section 432 of the General Education Provisions Act, relating to prohibition against Federal control of education, shall apply to each program and award authorized by this title.

"PARTICIPATION OF TEACHERS FROM PRIVATE SCHOOLS

"SEC. 112. The Foundation shall, after consultation with appropriate private school representatives, make provision for the benefit of teachers in private elementary and secondary schools in the programs authorized by this title, in order to assure equitable participation of such teachers.".

PART B—EDUCATION FOR ECONOMIC SECURITY

DEFINITIONS

SEC. 221. Section 3(1) of the Act is amended by striking out "section 195(2) of the Vocational Education Act of 1965" and inserting in lieu thereof "section 521(3) of the Carl D. Perkins Vocational Educational Act.".

PROGRAM REAUTHORIZATION

SEC. 222. (a) Section 203(b) of the Act is amended—

(1) by striking out "and", and

(2) by inserting after "1985" a comma and the following: "and $350,000,000 for each of the fiscal years 1986, 1987, and 1988".

(b) Section 205 of the Act is amended by striking out "the fiscal years 1984 and 1985" each place it appears and inserting in lieu thereof "the fiscal years 1984, 1985, 1986, 1987, and 1988".

STATE ALLOTMENTS

SEC. 223. (a) Section 204(a)(2) of the Act is amended—

(1) by inserting "(A)" after the paragraph designation;

(2) by striking out "the remaining 10 per centum" and inserting in lieu thereof "9 per centum of such amount"; and

(3) by adding at the end thereof the following new subparagraph:

"(B) The Secretary shall reserve the remaining 1 per centum to carry out the provisions of subsection (c).".

(b) Section 204(c) of the Act is amended to read as follows:

"(c)(1) From the amount reserved for each fiscal year under subsection (a)(2)(B), the Secretary shall allot—

"(A) not less than one-half of that amount to whatever agency the Secretary determines appropriate for programs authorized by this title for children in elementary and secondary schools operated for Indian children by the Department of the Interior; and

"(B) the remainder of that amount among Guam, American Samoa, the Virgin Islands, the Northern Mariana Islands, and the Trust Territory of the Pacific Islands according to their respective needs for assistance under this title.

"(2) The Secretary shall make payments under paragraph (1)(A) on whatever terms the Secretary determines will best carry out the purpose of this title.

ELEMENTARY AND SECONDARY EDUCATION PROGRAM

SEC. 224. (a) Section 206(b)(1)(A) of the Act is amended by striking out "inservice training" and inserting in lieu thereof "training, inservice training,".

(b)(1) Section 206(b)(1)(B) of the Act is amended to read as follows:

"(B) if the local educational agency determines that the agency has met its need for training, inservice training, and retraining under subparagraph (A), subject to the provisions of section 210(c), such training, inservice training, and retraining in the fields of computer learning and foreign languages, and the acquisition of instructional materials and equipment related to mathematics and science instruction.".

(2) The third sentence of section 206(b)(1) is amended by striking out "private" before "organizations,".

(3) The fifth sentence of section 206(b)(1) of the Act is amended by inserting "training," before "inservice training".

(c) Section 206(b)(2)(A) of the Act is amended to read as follows:

"(2)(A) The State educational agency shall distribute 50 per centum of the funds available under this subsection to local educational agencies according to the relative enrollments in public and private nonprofit schools within the school district of such agencies. Such relative enrollments may be calculated, at the option of the State educational agency, on the basis of the total number of children enrolled in public schools and (i) private nonprofit schools, or (ii) private nonprofit schools desiring that their children and teachers participate in programs or projects assisted under this title. Nothing in the preceding sentence shall diminish the responsibility of local educational agencies to contact, on an annual basis, appropriate officials from private nonprofit schools within their school districts in order to determine whether such schools desire that their children and teachers participate in programs or projects assisted under this title.".

(d) The first sentence of section 206(d) of the Act is amended—

(1) by striking out "for demonstration and exemplary programs" in the matter proceeding clause (1); and

(2) by inserting "demonstration and exemplary programs for" immediately after the clause designation in clauses (1), (2), and (3), respectively.

HIGHER EDUCATION

SEC. 225. (a) Section 207(b)(2)(B) of the Act is amended to read as follows:

"(B) retraining of secondary school teachers who specialize in disciplines other than the teaching of mathematics, science, foreign languages, or computer learning to specialize in the teaching of mathematics, science, foreign languages, or computer learning, including the provision of stipends for participation in institutes authorized under title I; and".

(b)(1) Section 207(b)(2)(C) of the Act is amended by striking out "and science" and inserting in lieu thereof a comma and the following: "science, foreign languages".

(2) The second sentence of section 207(b)(2) of the Act is amended by inserting after "science" a comma and the following: "foreign languages".

(c) The first sentence of section 207(c)(1) of the Act is amended—

(1) by striking out "private nonprofit organizations" and inserting in lieu thereof "nonprofit organizations"; and

(2) by inserting "computer learning" immediately before "and critical foreign languages".

STATE ASSESSMENT

SEC. 226. (a)(1) The second sentence of section 208(a) of the Act is amended by striking out "section 210" and inserting in lieu thereof "section 210(b)".

(2) The fourth sentence of section 208(a) of the Act is amended by striking out "first" and inserting "preliminary".

(b) Section 208(c)(1)(E) of the Act is amended by striking out "public" and inserting in lieu thereof "nonprofit".

(c) Section 208 of the Act is amended by adding at the end thereof the following new subsection:

"(d) The Secretary shall prepare and submit to the Congress a summary report of the final version of the assessments submitted by States under subsection (a) as soon as practicable after the receipt of such assessments.".

STATE APPLICATION

SEC. 227. Section 209(b) of the Act is amended—

(1) by striking out "sections 207 and 208" in clause (1) and inserting in lieu thereof "sections 206 and 207";

(2) by striking out "sections 207 and 208" in clause (3) and inserting in lieu thereof "sections 206 and 207";

(3) by striking out "by local educational agencies, institutes of higher education, junior or community colleges, and other organizations for programs described in section 206" in clause (4)(A) and inserting in lieu thereof "for programs described in sections 206 and 207"; and

(4)(A) by striking out "of such funds, be available for" in clause (6) and inserting in

lieu thereof "of such Federal funds, be available from non-Federal sources for";

(B) by striking out "sections 207 and 208" in clause (6) and inserting in lieu thereof "sections 206 and 207"; and

(C) by inserting before the semicolon in clause (6) the following: "from non-Federal sources".

LOCAL EDUCATION ASSESSMENTS

SEC. 228. The first sentence of section 210(c) of the Act is amended—

(1) by striking out "retraining" and inserting in lieu thereof "training, retraining,"; and

(2) by striking out "its funds" and inserting in lieu thereof the following: "all or a portion of its funds".

PARTICIPATION OF CHILDREN AND TEACHERS FROM PRIVATE SCHOOLS

SEC. 228A. (a) Section 211(a) of the Act is amended by inserting "nonprofit" before "elementary".

(b) Section 211(b) of the Act is amended by inserting "nonprofit" before "elementary".

(c) Section 211(c) of the Act is amended by inserting "nonprofit" after "private".

SECRETARY'S DISCRETIONARY FUND FOR PROGRAMS OF NATIONAL SIGNIFICANCE

SEC. 229. (a) Section 212(a) of the Act is amended to read as follows:

"(a) From the amount reserved by the Secretary under section 204(a)(2)(A), the Secretary is authorized to carry out directly, or through grants, cooperative agreements, or contracts, projects which are authorized by this section.".

(b) Section 212(b)(1) of the Act is amended—

(1) by striking out "make grants to" in the first sentence and inserting in lieu thereof "make grants to and enter into cooperative agreements with"; and

(2) by striking out "awarding of grants" in the third sentence and inserting in lieu thereof "awarding of grants and cooperative agreements".

PAYMENTS

SEC. 230. Section 213(a) of the Act is amended by striking out "section 211" and inserting in lieu thereof "section 212".

PART C—PARTNERSHIPS IN EDUCATION FOR MATHEMATICS, SCIENCE, AND ENGINEERING

ADMINISTRATIVE AMENDMENT

SEC. 231. Title III of the Act is amended by striking out "Foundation" wherever it appears (other than in section 303(3)) in such title and inserting in lieu thereof "Secretary".

DEFINITIONS

SEC. 232. Section 303 of the Act is amended:

(1) by inserting "and" at the end of clause (2);

(2) by striking out clauses (3), (4), and (5); and

(3) by redesignating clause (6) as clause (3).

PARTNERSHIP PROGRAM AUTHORIZATION

SEC. 233. Section 304(b) of the Act is amended to read as follows:

"(b) There are authorized to be appropriated $50,000,000 for each of the fiscal years 1986, 1987, and 1988, to carry out the provisions of this title.".

PART D—PRESIDENTIAL AWARDS

AUTHORIZATION AND AVAILABILITY OF FUNDS

SEC. 241. (a) Section 403(a) of the Act is amended to read as follows:

"(a) Funds to carry out this title for any fiscal year shall be made available from amounts appropriated pursuant to annual authorizations of appropriations for the National Science Foundation for Science and Engineering Education. For fiscal year 1986, funds to carry out this title shall be available from amounts authorized by section 102(a)(8) of the National Science Foundation Authorization Act for fiscal year 1986. Not more than $1,000,000 are authorized to be available to carry out this title.".

(b) Section 403(b) of the Act is amended by inserting after "subsection (a)" the following: "and amounts made available under subsection (a)".

PART E—EXCELLENCE IN EDUCATION

PROGRAM REAUTHORIZATION

SEC. 251. Section 604(b)(1) of the Act is amended by striking out "the fiscal years 1984 and 1985" and inserting in lieu thereof "the fiscal year 1984 and each of the succeeding fiscal years ending prior to October 1, 1988,".

PART F—MAGNET SCHOOLS ASSISTANCE

AUTHORIZATION OF APPROPRIATIONS

SEC. 261. Section 701 of the Act is amended by striking out "and 1986" and inserting in lieu thereof "1986, 1987, and 1988".

STATEMENT OF PURPOSE

SEC. 262. Section 703 of the Act is amended to read as follows:

"STATEMENT OF PURPOSE

SEC. 703. It is the purpose of this title to support through financial assistance to eligible local educational agencies—

"(1) the elimination, reduction, or prevention of minority group isolation in elementary and secondary schools with substantial portions of minority students; and

"(2) courses of instruction within magnet schools that will substantially strengthen the knowledge of academic subjects and the grasp of tangible and marketable vocational skills of students attending such schools.".

USE OF FUNDS

SEC. 263. Section 706 of the Act is amended to read as follows:

"USES OF FUNDS

"SEC. 706. Grants made under this title may be used by eligible local educational agencies for—

"(1) planning and promotional activities directly related to expansion and enhancement of academic programs and services offered at magnet schools;

"(2) the acquisition of books, materials, and equipment including computers and the maintenance and operation thereof, necessary for the conduct of programs in magnet schools; and

"(3) the payment of or subsidization of the compensation of elementary and secondary school teachers who are certified or licensed by the State and who are necessary for the conduct of programs in magnet schools;

where with respect to clauses (2) and (3), such assistance is directly related to improving the knowledge of mathematics, science, history, english, foreign languages, art, or music, or to improving vocational skills.".

MODIFICATION OF PROHIBITION

SEC. 264. Section 709 of the Act is amended to read as follows:

"PROHIBITIONS

"SEC. 709. Grants under this title may not be used for consultants, for transportation, or for any activity which does not augment academic improvement.".

TITLE III—LIBRARY SERVICES PROGRAM

LIBRARY SERVICES AND CONSTRUCTION ACT AMENDMENTS

SEC. 301. (a) Section 3(12) of the Library Services and Construction Act (20 U.S.C. 351a(12)) (hereafter in this title referred to as the "Act") is amended by striking out "five-year program" and inserting in lieu thereof "program of not less than three nor more than five years".

(b) Section 3(15) of the Act is amended—

(1) by inserting "by the Secretary of the Interior" after "recognized"; and

(2) by striking out ", as determined by the Secretary after consultation with the Secretary of the Interior".

APPLICABILITY OF PUBLIC LIBRARY PROVISIONS TO HAWAIIAN NATIVE PROGRAM

SEC. 302. (a)(1) The first sentence of section 5(d)(2) of the Act (20 U.S.C. 351c(d)(2)) is amended by striking out "sections 403" and inserting in lieu thereof "sections 402(b), 403,".

(2) The second sentence of section 5(d)(2) of the Act is amended by inserting immediately before the period ", to contract to provide public library services to Native Hawaiians, and to carry out any other activities authorized under this sentence by contract".

(3) Section 5(d)(2) of the Act is amended by adding at the end thereof the following new sentence: "The Secretary shall issue criteria for the approval of applications and plans but the criteria may not include an allotment formula and may not contain a matching of funds requirement.".

(b) Section 6(b)(4) of the Act (20 U.S.C. 351d(b)(4)) is amended by inserting "(as defined in section 703(a) of the Bilingual Education Act)" after "limited English-speaking proficiency".

CORRECTION OF ADMINISTRATIVE COST MISINTERPRETATION

SEC. 303. (a) The references in section 8 of the Act (20 U.S.C. 351f) to "such titles" mean, and shall be construed as meaning, the immediately preceding reference to "titles I, II, and III".

(b) The matter preceding clause (1) of section 102(b)(1) of the Act (20 U.S.C. 353(b)(1)) is amended by striking out "this title" and inserting in lieu thereof "this Act".

MAJOR URBAN RESOURCE LIBRARY RESERVED AMOUNTS

SEC. 304. Section 102(c)(1) of the Act (20 U.S.C. 353(c)(1)) is amended by inserting "(excluding the amount made available for Indian tribes and Hawaiian natives)" after "section 4(a)".

SERVICES TO TRIBES IN STATES WITHOUT INDIAN RESERVATIONS

SEC. 305. Title IV of the Act (20 U.S.C. 361 et seq.) is amended by adding at the end thereof the following new section:

"SERVICES IN STATES WITH INDIAN TRIBES NOT RESIDING ON OR NEAR RESERVATIONS

SEC. 406. The provisions of this title requiring that services be provided on or near Indian reservations, or to only those Indians who live on or near the Indian reservations, shall not apply in the case of Indian tribes and Indians in California, Oklahoma, and Alaska.".

TITLE IV—MINORITY INSTITUTIONS; MIGRATORY CHILDREN PROGRAM

MINORITY INSTITUTIONS SCIENCE IMPROVEMENT PROGRAM AUTHORIZATION

SEC. 401. The General Education Provisions Act is amended—

(1) by redesignating section 406A (as added by the Education Amendments of 1980; 94 Stat. 1497) as section 406B; and

(2) by inserting after such section the following new section:

"AUTHORIZATION OF APPROPRIATIONS FOR SCIENCE IMPROVEMENT PROGRAM

"SEC. 406C. There are authorized to be appropriated $5,000,000 for each of the fiscal years 1985 and 1986 for the purpose of carrying out the Minority Institutions Science Improvement Program transferred to the Secretary of Education from the National Science Foundation by section 304 of the Department of Education Organization Act.".

MIGRATORY CHILDREN RECORDS SYSTEM

SEC. 402. Section 143(a) of the Elementary and Secondary Education Act of 1965 is amended—

(1) by striking out "grants to, or enter into contracts with," and inserting in lieu thereof "enter into contracts with"; and

(2) by adding at the end thereof the following: "For the purpose of ensuring continuity in the operation of such system, the Secretary shall, not later than July 1 of each year, continue to award such contract to the State educational agency receiving the award in the preceding year, unless a majority of the States notify the Secretary in writing that such agency has substantially failed to perform its responsibilities under the contract during that preceding year. No activity under this section shall, for purposes of any Federal law, be treated as an information collection that is conducted or sponsored by a Federal agency.".

TITLE V—HARRY S TRUMAN MEMORIAL SCHOLARSHIP PROGRAM

PROGRAM AMENDMENT

SEC. 501. Section 8 of the Harry S Truman Memorial Scholarship Act is amended by striking out "$5,000" and inserting in lieu thereof "$10,000 (adjusted annually to reflect increases, if any, in the Consumer Price Index for All Urban Consumers, published by the Bureau of Labor Statistics)".

TITLE VI—EDUCATION OF THE HANDICAPPED ACT

EDUCATION OF THE HANDICAPPED ACT AMENDMENTS

SEC. 601. (a) Section 611(c)(2)(A)(II) of the Education of the Handicapped Act (20 U.S.C. 1411(c)(2)(A)(i)(II)) is amended by striking out "300,000" and inserting in lieu thereof "350,000".

(b) Section 611(c)(1)(B) of such Act is amended by striking out "paragraph (3)" and inserting in lieu thereof "paragraph (4)".

EFFECTIVE DATE

SEC. 602. The amendment made by section 601(a) shall take effect on July 1, 1985.

TITLE VII—CARL D. PERKINS VOCATIONAL EDUCATION ACT TECHNICAL AMENDMENTS

TERRITORIAL HOLD HARMLESS

SEC. 701. Section 101(a)(3)(D) of the Carl D. Perkins Vocational Education Act (20 U.S.C. 2311(a)(3)(d)) (hereafter in this title referred to as the "Act") is repealed.

STATE ALLOCATION

SEC. 702. Section 102 of the Act is amended to read as follows:

"WITHIN STATE ALLOCATION

"SEC. 102. (a)(1) Each State shall reserve from its allotment of funds appropriated under section 3(a) for each fiscal year an amount that does not exceed 7 percent of the allotment for State administration of the State plan. If the cost of carrying out the provisions of section 111(b) exceeds 1 percent of a State's allotment of funds appropriated under section 3(a), the State may reserve that excess amount from that allotment in addition to the 7 percent authorized by the preceding sentence.

"(2) The amount reserved under paragraph (1) shall be considered as part of that portion of the State's allotment that is retained for State activities and is not distributed under section 113(b)(4).

"(b) From the remainder of its allotment of funds appropriated under section 3(a), each State shall reserve for each fiscal year—

"(1) 57 percent for activities described in part A of title II; and

"(2) 43 percent for activities described in part B of title II.".

STATE COUNCIL ON VOCATIONAL EDUCATION

SEC. 703. (a) Section 112(b) of the Act is amended to read as follows:

"(b) The State shall certify to the Secretary the establishment and membership of the State council by the beginning of each State plan period described in section 113(a)(1).".

(b) Section 112(d) of the Act is amended by striking out "(d)" and all that follows through clause (1) and inserting in lieu thereof the following:

"(d) During each State plan period described in section 113(a)(1), each State council shall—

"(1) meet with the State board or its representatives to advise on the development of the subsequent State plan;".

(c)(1) Section 112(f)(1)(A) of the Act is amended by striking out "From" and inserting in lieu thereof "Except as provided in subparagraph (B), from".

(2) Section 112(f)(1)(B) of the Act is amended to read as follows:

"(B) From the amounts appropriated pursuant to section 3(c), for each fiscal year, the Secretary shall make grants of $50,000 to the State councils of the Virgin Islands, Guam, American Samoa, the Northern Mariana Islands, and the Trust Territory of the Pacific Islands.".

STATE PLANS

SEC. 704. Section 113(b)(9)(C) of the Act is amended by striking out "not less than" and all that follows through "year" and inserting in lieu thereof "the projects, services, and activities supported under this Act of not less than 20 percent of the participating eligible recipients within the State in each fiscal year".

WITHIN STATE ALLOCATION

SEC. 705. Section 203(a)(3) of the Act is amended to read as follows:

"(3) The State board shall ensure that each eligible recipient that receives funds under paragraph (2) uses those funds to provide vocational education services and activities for individuals with limited English proficiency at least in proportion to the number of such individuals enrolled by that eligible recipient in the fiscal year preceding the fiscal year in which the determination is made as compared to the total number of disadvantaged individuals, including individuals with limited English proficiency, so enrolled in that fiscal year.".

CONSUMER AND HOMEMAKING EDUCATION

SEC. 706. (a) The heading of part B of title III of the Act is amended to read as follows:

"PART B—CONSUMER AND HOMEMAKING EDUCATION".

(b)(1) The first sentence of section 311 of the Act is amended by striking out "homemaker" and inserting in lieu thereof "homemaking".

(2) The heading of section 311 of the Act is amended to read as follows:

"CONSUMER AND HOMEMAKING EDUCATION GRANTS".

(c)(1) Subsection (b) of section 312 of the Act is amended by striking out "homemaker" and inserting in lieu thereof "homemaking" both places it appears.

(2) The heading of section 312 of the Act is amended to read as follows:

"USE OF FUNDS FROM CONSUMER AND HOMEMAKING EDUCATION GRANTS".

(d) The table of contents of the Act is amended by striking out the items relating to part B of title III and sections 311 and 312 and by inserting in lieu thereof the following:

"PART B—CONSUMER AND HOMEMAKING EDUCATION

"Sec. 311. Consumer and homemaking education grants.

"Sec. 312. Use of funds from consumer and homemaking education grants.".

CONSUMER AND HOMEMAKING EDUCATION STATE LEADERSHIP

SEC. 707. Section 313(b) of the Act is amended by striking out "to carry out leadership activities under this section." and inserting in lieu thereof "for State administration of projects, services, and activities under this part.".

CAREER GUIDANCE AND COUNSELING STATE LEADERSHIP

SEC. 708. Section 333(b) of the Act is amended by striking out "to carry out leadership activities under this section." and inserting in lieu thereof "for State administration of projects, services, and activities under this part.".

AUTHORIZATION OF GRANTS

SEC. 709. Section 342(c) of the Act is amended by striking out "subsection (b)(2)" both places it appears and inserting in lieu thereof "subsection (b)(3)".

MODEL CENTERS FOR VOCATIONAL EDUCATION FOR OLDER INDIVIDUALS

SEC. 710. Section 417(b) of the Act is amended by inserting "shall" immediately after "subpart".

FEDERAL SHARE

SEC. 711. (a) Section 502(a) of the Act is amended in the introductory clause by striking out "shall be" and inserting in lieu thereof "shall not exceed".

(b)(1) Section 502(a)(2) of the Act is amended by striking out "not to exceed".

(2) Section 502(b) of the Act is amended by adding at the end thereof the following new sentence: "The non-Federal contributions for the costs of vocational education programs, services, and activities for the disadvantaged from local sources may be in cash or in kind, fairly valued, including facilities, overhead, personnel, equipment, and services, if the eligible recipient determines that it cannot otherwise provide such contribution.".

TRANSITION

SEC. 712. The matter preceding clause (1) of section 3(a) of Public Law 98-524 (98 Stat. 2487) is amended to read as follows: "Until July 1, 1986, a State or eligible recipient may use funds received under the Vocational Educational Act of 1963 or the Carl D. Perkins Vocational Education Act to—".

TECHNICAL AMENDMENTS

SEC. 713. (a)(1) Section 113(b)(10) of the Act (20 U.S.C. 2323(b)(10)) is amended by inserting "of 1981" after "Education Consolidation and Improvement Act".

(2) Section 113(b)(11) of the Act is amended by inserting "provide assurances" before "that".

(3) Section 504(d)(1) of the Act is amended by striking out "section 434(c)" and inserting in lieu thereof "section 453".

(4) Section 521(15) of the Act is amended by inserting "or language" immediately after "speech".

(b)(1) Section 4(a)(1)(A) of Public Law 98-524 is amended by striking out "section 4(14)" and inserting in lieu thereof "section 521(19)".

(2) Section 4(a)(6)(D) of Public Law 98-524 is repealed.

EFFECTIVE DATE

SEC. 714. (a) The provisions of this title shall take effect July 1, 1985.

(b) The amendment made by section 703(c)(2) of this Act shall not apply to funds appropriated before the date of the enactment of this Act.

TITLE VIII—HIGHER EDUCATION PROGRAMS

NATIONAL DIRECT STUDENT LOAN APPORTIONMENT

SEC. 801. (a) Section 12 of the "Student Financial Assistance Technical Amendments Act of 1982" is amended—

(1) by inserting "(a)" after the section designation; and

(2) by inserting at the end thereof the following new subsection:

"(b) Notwithstanding subsections (a) and (b) of section 462 of the Higher Education Act of 1965, if in the fiscal year 1986 the sums appropriated pursuant to section 461(b)(1) of the Higher Education Act of 1965 are less than the sums appropriated pursuant to such section for the fiscal year 1980, the Secretary shall apportion the sums appropriated pursuant to section 461(b)(1) of the Higher Education Act of 1965 for such fiscal year among the States so that each State's apportionment bears the same ratio to the total amount appropriated as that State's apportionment in fiscal year 1980 bears to the total amount appropriated pursuant to section 461(b)(1) for the fiscal year 1980.".

(b) The amendments made by this section shall take effect October 1, 1985.

NATIONAL GRADUATE FELLOWS PROGRAM

SEC. 802. The last sentence of section 931(a) of the Higher Education Act of 1965 is amended to read as follows: "In the fiscal year beginning October 1, 1985, and each succeeding fiscal year, all funds appropriated in each fiscal year shall be awarded to students by April 1 of the fiscal year for which the funds were appropriated. All funds appropriated in a fiscal year shall be obligated and expended to the students for fellowships for use in the academic year beginning after July 1 of the fiscal year for which the funds were appropriated. The fellowships shall be awarded for only 1 academic year of study and shall be renewable for a period not to exceed 4 years of study.".

Mr. FUQUA (during the reading). Mr. Speaker, I ask unanimous consent that the House amendment to the Senate amendment be considered as read and printed in the RECORD.

The SPEAKER pro tempore. Is there objections to the request of the gentleman from Florida?

Mr. LUJAN. Mr. Speaker, reserving the right to object, and I shall not object, I take this reservation in order to ask the gentleman from Florida if he would kindly explain the contents of the legislation.

Mr. FUQUA. Mr. Speaker, will the gentleman yield?

Mr. LUJAN, I yield to the chairman of the committee, the gentleman from Florida [Mr. FUQUA].

Mr. FUQUA. Mr. Speaker, I thank the gentleman for yielding so that the amendment we have worked out together to the Senate passed version of H.R. 1210, the National Science Foundation Authorization Act for fiscal year 1986, can be explained.

I want to especially thank the chairman of the subcommittee DOUG WALGREN, as well as the ranking Republican member of the committee, Mr. LUJAN, and the ranking Republican member of the subcommittee, Mr. BOEHLERT for their hard work and cooperation in the development of this legislation, and more particularly, this amendment.

I also want to thank our colleagues on the Committee on Education and Labor, Chairman HAWKINS and ranking Republican member of the committee, Mr. JEFFORDS, as well as the chairman of the Subcommittee on Postsecondary Education, Mr. FORD, and the ranking Republican member, Mr. COLEMAN, for their outstanding cooperation and diligent efforts to reconcile any differences with the other body over those matters added to H.R. 1210 that are within their jurisdiction.

H.R. 1210 was considered by the Committee on Science and Technology early this year, and passed the House on April 17. In the other body, two committees considered the NSF authorization—the Committee on Commerce, Science, and Transportation and the Committee on Labor and Human Resources. I am delighted that these two committees were able to work together and come up with a bill which was passed on September 26. This action allows Congress to move forward with an authorization for the National Science Foundation, for the first time in 5 years.

There were a number of differences between the House-passed and Senate-passed versions of H.R. 1210. The bill before us amends the Senate-passed bill. These amendments were discussed with the Senate Committees on Labor and Human Resources, and Commerce, Science, and Transportation and we believe they will be satisfactory and acceptable to the other body.

Let me point out the main points of difference and how they were resolved:

In the budget line items, the two Houses had authorized the same amounts in four categories, the Senate had authorized more than the House in four categories, and less than the House in one category. Where the figures were at variance, the committee accepted the figures in the Senate-passed bill. Total funds authorized for NSF for fiscal year 1986 are $1,518,156,000, or about $16 million more than the House authorized. The total amount is, however, $51 million less than the original administration request for fiscal year 1986.

Both bills contained a mandate that not less than $1 million be authorized for the Ethics and Values in Science and Technology Program. The House provision to authorize $3 million for the Policy Research and Analysis Program was retained, as was the House provision for an emphasis on basic scientific research on acid rain.

The House had passed an amendment to the National Science Foundation Act of 1950, which removed the requirement that NSF Assistant Directors be appointed by the President and approved by the Senate. The Senate bill had no such provision, and it is not included in this amendment.

The Senate's amendment contained language, not requested by the administration, to indemnify contractors associated with the Ocean Drilling Program. The House had no similar language. It was decided to go with the House-passed bill in this instance, and the language is not included in this amendment.

Both Houses amended the NSF Act to provide for limited delegation of award approval authority by the National Science Board to the NSF Director. The amendment before us today includes the House provision on such authority, plus additional language to terminate the authority in 4 years, which will permit Congress the opportunity to reevaluate this delegation of authority at that time.

Both Houses included an amendment to the NSF Act that would add fundamental engineering research to NSF's mission, which is retained in this amendment. This will authorize the initiation of fundamental engineering research and education parallel to current NSF functions relating to basic science and education. A similar amendment was adopted by the Science and Technology Committee and the House in the 98th Congress.

Both Houses included a provision that no funds shall be expended with respect to closure of a national facility without appropriate scientific review. Authorization was also included in both bills for the Foundation to establish and maintain a permanent data collection and analysis capability to assess the research facilities needs of universities. These provisions are retained in this amendment.

The Senate bill amended and reauthorized the Education for Economic Security Act (Public Law 98-377), and included it as title II of H.R. 1210. The House-passed bill did not contain that language.

In the House amendment to H.R. 1210, before us today, part A of title II sets forth the policy and functional objectives of NSF in regard to its science and engineering education responsibilities, and outlines programs

which the Foundation will carry out. I believe Mr. WALGREN intends to speak more in detail on these science and engineering responsibilities and programs.

Presidential awards for teaching excellence in mathematics and science to elementary and secondary teachers, outlines in part D of title II of H.R. 1210, are authorized from the science and engineering education category for fiscal year 1986 by this amendment.

Other parts of Public Law 98-377, responsibility for which previously was shared jointly by the National Science Foundation and the Department of Education, were amended by the other body to make them solely the responsibility of the Department of Education. These parts of the bill, as well as those originally under that Department, have been handled in the House by the Committee on Education and Labor.

I would urge my colleagues to vote for H.R. 1210, so that we may once again assert our authorizing responsibilities in the Congress.

□ 1515

Mr. LUJAN. I thank the gentleman for his explanation.

Mr. Speaker, further reserving the right to object, I rise in strong support of the unanimous consent request made by the chairman of the Science and Technology Committee to amend H.R. 1210, as amended by the Senate on September 26, 1985.

This is a great occasion for the science, engineering, and education community of the United States, and that includes the legislative and executive branches of the Federal Government. For several years now the House has successfully passed legislation to reauthorize funding and programs for the activities of the National Science Foundation. There have been, unfortunately, circumstances with the Senate that have prohibited similar action. This year both the House and Senate have passed a NSF authorization bill.

At this time, I would like to extend sincere thanks to Senate majority leader, Senator DOLE, Senators DOMENICI, HATCH, DANFORTH, and GORTON for their coordinated efforts in resolving those issues which have held this legislation up. Similarly, their minority counterparts are to be commended likewise for their cooperative spirit, Senators KENNEDY, HOLLINGS, and RIEGLE.

The amendment proposed by the gentleman from Florida, Mr. FUQUA, also involves the Education Committees in the House and Senate. As the ranking Republican member of the Science and Technology Committee, I will address my comments to those provisions of the bill which directly affect the National Science Foundation and allow my fellow colleagues from the Education Committee to address those provisions amending the Department of Education.

The Congress, the American newspapers, and the business community has been preoccupied by discussions of the decline of the United States in the international market, the rise in the Federal deficit, and the imbalance in foreign nations' trade policies. So very often the question comes up as to what are we going to do to remedy the negative factors the American business community is so concerned about. And once again the American taxpayer asks, What is Congress doing to address these situations.

The measure before us today provides Congress an excellent opportunity to inform the American citizens that Congress is responding. Too often we focus on the negatives, but let me tell you why we should focus on the positive. We have an asset in the United States that is the focus of jealousy for the rest of the world.

We have mastered it, nurtured it, and even shared it. We are often reprimanded for giving it away for free. It is the basic research done by scientists and engineers. It has made our universal mark on history and it is the key to future success.

We fund it through a variety of institutional arrangements, whether that be within our educational institutions, our Federal laboratories, or industrial complexes. And we support it through a variety of mechanisms: through Federal dollars, tuition, consumer prices, and so forth. And we have been seeking to further strengthen it by partnerships, technology transfer, tax, and trade incentives.

The National Science Foundation is one example of how we are funding it, supporting it, and seeking to further strengthen it. Approximately 95 percent of NSF funds leave the agency to support scientists, engineers, and educators, to purchase an array of instrumentation and equipment, to support teams of American researchers in international endeavors as well as on own shores. They are tackling essential and basic problems facing our American industry, and they are doing what no other country does better, pushing further for answers to secrets of the unknow. NSF, as part of the U.S. R&D enterprise, bridges the science and technology with the needs of our economy. I believe that the $1.52 billion being authorized in this bill will have a return many times greater because of the role basic research and technology plays in our national well-being.

Mr. BOEHLERT. Mr. Speaker, will the gentleman yield?

Mr. LUJAN. Further reserving the right to object, Mr. Speaker, I yield to the gentleman from New York.

Mr. BOEHLERT. I would like to compliment the chairman of our committee and the ranking minority member for the excellent cooperation that has been evidenced all through the proceedings on this very important legislation.

Mr. Speaker, I rise in strong support of the request made by Mr. FUQUA to accept under unanimous-consent request an amendment to H.R. 1210, as amended by the Senate on September 26, 1985. As has been stated by other Members in the Chamber today, this is truly a spectacular occasion.

The House has long awaited the opportunity to work with the Senate on legislation to reauthorize programs and funds for the National Science Foundation [NSF] and to respond to the demands of the educational system of this Nation as we face increasing technological change.

There are several people I would like to acknowledge at this time, particularly the leadership in the Senate, members of the Senate Committees on Labor and Human Resources and Commerce, Science and Transportation. Likewise, in the House, I have been pleased to work with the Committee on Education and Labor. As the ranking Republican member of the subcommittee which first brought this measure to the full House early this spring, I commend my fellow colleagues on the Science and Technology Committee and other Members who previously served on the committee in the 97th and 98th Congress. For 4 repeated years we have collaborated in a bipartisan manner to bring forward authorization requests for NSF.

We have faced some very challenging national issues: The present and future educational and manpower needs of the United States in science, mathematics, and engineering, inadequacies in the recognition of our Nation's education profession, the rising cost of basic research, the need for further investment in equipment and instrumentation, and the necessary investment in developing fields and disciplines of science, to name only a few.

We have debated the role of basic and applied research and develpment in our Federal laboratories, the nature of collaboration between the university community and industry, where and when national security clash with the publishing of scientific and engineering research. And we have discussed resource needs of national research and educational facilities, balancing "big" science with "small" science, the U.S. role in international science and engineering community, and the role of peer review in the funding of science through Federal dollars.

Mr. Speaker and Members of the House, I am pleased to speak about the broad range of funding in the legislation before you. With the $1.52 bil-

lion authorized for expenditure by NSF, engineering research centers will be funded at several universities, providing undergraduate and graduate students an opportunity to work with university and industry researchers on fundamental processes affecting the manufacturing and technological changes needed to advance the U.S. economy. National supercomputer facilities will be made available to a broad range of scientific disciplines. Use of and research on present computer architecture and software will continue as the demand to meet the information age of technology increases.

There are innumerable other programs, whether very large in scale or small in number, that will be funded through the NSF—all with the same goal of furthering the investment in scientific and engineering research and education manpower.

The committee is very proud of the NSF, its personnel and those supported by their funds. I commend Mr. Erich Bloch and Dr. Roland Schmidt for the leadership they are providing, and I stand willing to assist the community in seeing that this bill receive the status as a public law.

Mr. WALGREN. Mr. Speaker, will the gentleman yield?

Mr. LUJAN. Further reserving the right to object, Mr. Speaker, I yield to my friend, the gentleman from Pennsylvania.

Mr. WALGREN. I thank the gentleman for yielding.

Mr. Speaker, as chairman of the Subcommittee on Science, Research and Technology, I want to extend my respect and commendation to those in the leadership of both our Science and Technology Committee as a whole, Chairman FUQUA, the ranking minority member of my subcommittee, the gentleman from New York [Mr. BOEHLERT], the ranking minority member of the full committee and those on the Education and Labor Committee for bringing this to the point where we now are about to see become law not only a good educational piece but an authorization for the National Science Foundation which will be the first authorization going into law since 1980. That is a long period of time. I think the Foundation should be commended on its responsiveness to the authorizing committees of the House of Representatives in that time period, that gap, but this is a very important matter that we get into law.

Mr. Speaker, in the context of revising and extending, I will submit a statement that discusses particularly title II of H.R. 1210, which lays out for some legislative history the points that are covered in that part of the conference report, from our perspective, in hopes that that will be some way of highlighting the elements of that part of the bill that set out some goals and functions for the educational component of the National Science Foundation's work in this area.

Mr. Speaker, I welcome this opportunity to speak in support of H.R. 1210, the National Science, Engineering, and Mathematics Authorization Act of 1986. As chairman of the Subcommittee on Science, Research and Technology, I want to thank Chairman FUQUA of the Science and Technology Committee and Chairman HAWKINS of the Education and Labor Committee for their leadership in bringing this amendment to the House for consideration. We believe this amendment will be favorably received by the other body which could result in the first National Science Foundation authorization bill since 1980.

The bill before us today not only provides for authorization of appropriations for the NSF for fiscal year 1986 but, more importantly, it makes several changes in the National Science Foundation Act of 1950 to enhance the mission of the Foundation. Among these changes is the elevation of engineering research to the same level as basic scientific research in the Foundation's priorities.

Since Mr. FUQUA has discussed many of these features, I will direct my comments to title 11 of H.R. 1210 which amends title 1 of the Education for Economic Security Act—Public Law 98-377.

The amendment to H.R. 1210 before us today enumerates policies and objectives for the science and engineering education functions of the Foundation. These policies and objectives—not included in the Senate version of H.R. 1210—are intended to provide broad, long-term goals for the Foundation in education activities. Objectives for science and engineering education include the enhancement of public understanding of mathematics, science, and engineering; faculty improvement; student education; and instructional and teaching materials development. These statements of policies and objectives are important contributions to H.R. 1210 because they set forth clear and comprehensive goals for science education activities for many years to come.

H.R. 1210, as amended by the Senate, authorizes specific programs in the science and engineering education programs in the Foundation. The House amendment renews and expands the teacher institutes as established under Public Law 98-377. NSF support for these teacher institutes would continue in the form of competitive grants to institutions of higher education. A new and important feature added by the House amendment is that various entities including businesses, nonprofit organizations, professional societies, museums, libraries, public broadcasting, and State education agencies are eligible to receive support for conducting teacher institutes. This amendment encourages the development of partnerships to support and conduct teacher institutes and workshops, and the development of institutes which could serve teachers in more than two States or within a broad geographical area. Also, the limit on a teacher institute of $200,000 in Public Law 98-377 was raised to $300,000 in the Senate amendment and is included in the bill before us today.

The House amendment expands the programs authorized in title I of Public Law 98-377 to include methods research, as well as materials development and dissemination of instructional programs. The House amendment also provides that funds for this program be awarded on a system of competitive matching grants. The matching grant provision was included to motivate participation, and to increase the percentage of matching resources or in-kind services contributed by the public and private sectors, such as publishers and public broadcasting entities. The involvement of educational publishers is essential to the effective development of instructional materials, and we will carefully monitor the ability of the Foundation to stimulate private-sector support and expertise in these activities.

Within the materials development and methods research activity, the Foundation would assure the involvement of State or local education agencies. the purpose of this program is to improve instructional curriculum, enhance public understanding of science and mathematics, and conduct research on methods of instruction. I want to point out the strong emphasis on collaborative efforts among various groups and institutions for activities in both the teacher institutes program and the materials development and research program.

Graduate fellowships are continued for the purpose of encouraging promising students to continue their education and research in mathematics, science, and engineering. This program is of particular importance to the quality of science and mathematics education in light of the current and projected shortage of undergraduate faculty in these areas.

The discretionary fund of the Director established in title I of Public Law 98-377 is changed by the House amendment. The amendment specifies that up to 15 percent of the science and engineering education funds are authorized for activities that promote faculty exchange between institutions of higher education and research with those institutions serving minority students, and for innovative programs in addition to those specified in title I as amended by the House.

The House amendment also includes a requirement, not in the Senate amendment, for a 5-year plan for science and engineering education, to be updated on an annual basis. The plan will assist the NSF and the Congress in identifying areas of priority and progress by the Foundation. We anticipate the plan will include an assessment of national science and engineering needs, identification of NSF programs and priorities to accomplish the policy and functional objectives as defined in this amendment, the timeframes in which these activities will be accomplished, and the resources necessary to achieve the objectives of the strategic plan.

H.R. 1210 reemphasizes various provisions regarding the approval of applications based on scientific and educational merit, as well as equitable geographical and institutional distribution, the consideration of proposals that meet the needs of underrepresented and underserved populations, the prohibition of any Federal control of education, and the inclusion of private-school teachers in the activities outlined in this bill.

The House accepted the Senate provision to authorize funds for title I and title IV of Public Law 98-377 for fiscal year 1986 from the amounts authorized for the science and engineering education category of the National Science Foundation Authorization Act for fiscal year 1986. The House amendment further specifies that funds to carry out these two titles for any fiscal year shall be made available from annual appropriations.

Mr. JEFFORDS. Mr. Speaker, will the gentleman yield?

Mr. LUJAN. Mr. Speaker, further reserving the right to object, I yield to the gentleman from Vermont.

Mr. JEFFORDS. Mr. Speaker, I want to thank the chairman, Mr. FUQUA, and ranking Republican, Mr. LUJAN, on the Science and Technology Committee for working with the Education and Labor Committee on the education amendments which were added to H.R. 1210 by the Senate. I also want to thank the chairman of the Education and Labor Committee, Mr. HAWKINS, for working closely with this side to come up with a set of amendments that enjoy bipartisan support.

Last fall we enacted the Carl D. Perkins Vocational-Technical Education Act. This past year has served as a period of transition. During this time, several desired changes were brought to our attention by the administration and vocational educators in the field. Through the provisions in this bill, we have addressed these issues. Although most are clarifying in nature, their substance will allow the programs to work more efficiently. In the case of the required match under the programs for the disadvantaged, these amendments will indeed enable some areas to operate programs rather than refuse Federal funds and not serve those students most in need.

Without reauthorization the Education for Economic Security Act would lapse. This law is commonly referred to as the math-science bill and has provided incentives to local school districts to develop innovation programs in math and science. It also encourages teacher training in these areas of critical need. The amendments in this bill authorize the program through 1988 and make technical changes similar to those included in H.R. 3023, a bill I introduced earlier this year. The Appropriations Committee did not include funding for this program in its Labor-HHS bill, citing lack of authorizing languages as its rationale. This amendment is critical to sustaining these programs which have just begun.

Two items of particular import to small population States such as Vermont, are the small State administrative cap under Public Law 94-142, education for all handicapped children, and NDSL apportionment.

Under Public Law 94-142, the administrative cap for 12 small States was set at $300,000. Many of the States have reached that cap, and thus were limited in their ability to provide such services as technical assistance, parent training, program evolution, and monitoring and curriculum development. These amendments increase this cap to $350,000 to reflect the need expressed by these small States. While this amendment provides temporary relief for these States, the need remains for a more permanent solution.

The amendment regarding NDSL apportionment extends the authority that assures that each States apportionment bears the same ratio to the total amount appropriated as the apportionment for each State in fiscal year 1980. For some States, this provision retains up to one-half of its NDSL allocation. In Vermont, this figure amounts to approximately $400,000.

Other provisions are included in the amendments attached to this bill. They include language which requires the Secretary of Education to contract for the migratory children records system by July 1 of each year and to provide notification of National Graduate Fellow Awards by April 1 of each year. Further, the excellence in eduction, magnet school assistance, and minority institutions science improvement programs are extended. Finally, the cap of $10,000 indexed to the CPI is authorized for the Harry S. Truman Memorial Scholarship Program.

The education provisions in this bill are product of a cooperative effort between the Senate, House, Department of Education, and various educational groups. As such, they enjoy broad bipartisan support in both bodies. I would urge my colleagues to join me in voting for passage of this legislation.

Mr. HAWKINS. Mr. Speaker, I rise in support of the House amendment to H.R. 1210, as amended by the Senate. As regards the programs administered by the Department of Education, we are substantially accepting the Senate bill with minor, technical modifications.

H.R. 1210, in general, reauthorizes the activities of the National Science Foundation, but the legislation also amends certain programs within the Department of Education. The major amendment extends for 3 years certain education programs authorized by Public Law 98-377, the Education for Economic Security Act.

First, the mathematics and science education improvement programs under that act would be extended through fiscal year 1988. For fiscal year 1985, $100 million was distributed to school districts through this program to train teachers and undertake other activities to improve math and science at the elementary and secondary education level. This inital appropriation has provided valuable seed money to begin to address the teacher shortages in these vital areas. The bill before us today will ensure that this effort is not thwarted even as school districts are just beginning to implement these programs.

Second, the bill extends through fiscal year 1988 two other education programs authorized by Public Law 98-377. These include the Magnet School Assistance Program to encourage school districts to develop schools with special curricula to attract students from all around the school district to enroll; and the Excellence in Education Program to fund model programs for school reform carrying out recommendations of the National Commission on Excellence in Education.

Third, the bill makes minor but necessary technical amendments to the Carl D. Perkins Vocational Education Act, the Library Services and Construction Act, and other education statutes.

Fourth, the bill reauthorizes the Minority Institutions Science Improvement Program for fiscal year 1986, and also revises a hold-harmless provision for national direct student loans and increases the amount States may retain in the Education of the Handicapped Act.

Mr. Speaker, I would like to commend Chairman FUQUA and the members and staff of the Committee on Science and Technology for being so cooperative with the Committee on Education and Labor in resolving the issues addressed in this bill.

We believe the other body has developed a sound bill that we can accept with just a very few modifications that have been worked out with the other body. I urge the Members to support this reauthorization bill.

Mr. SKEEN. Mr. Speaker, I rise to call the attention of my colleagues to an especially important provision of H.R. 1210, which amends the National Science Foundation Organic Act of 1950 in order to clarify and emphasize the Foundation's respon-

sibility for fundamental engineering research and education. Along with my good friend from California, GEORGE BROWN, I sponsored similar legislation during the 98th Congress, which this body unanimously approved. I would like to commend the National Science Foundation for including this provision in H.R. 1210, and urge your support.

The purpose of this provision is to more clearly establish the role of the National Science Foundation in supporting our Nation's base of research and talent in both science and engineering. While NSF currently operates a healthy engineering program, it does so without the benefit of a well-defined engineering mission. By explicitly recognizing the important role of NSF in supporting fundamental engineering research and education, we will strengthen the ability of the Foundation to address critical national issues.

If our Nation is to remain competitive in world technology markets, we must maintain and improve our base of university research and talent, both of which are essential ingredients for innovation and technological progress. Under the able leadership of Erich Block and Nam Suh, the National Science Foundation has been making significant gains in meeting engineering research and education needs. With the passage of an engineering mission change, the contribution of NSF to American excellence in science and engineering will be even greater. By bringing science and engineering closer together in the Federal structure, the overall climate for innovation can only improve.

Mr. GOODLING. Mr. Speaker, I rise to speak in support of H.R. 1210, the reauthorization of the National Science Foundation. This legislation contains provisions which amend several programs which are under the jurisdiction of the Elementary, Secondary, and Vocational Education Subcommittee, of which I am the ranking member.

I first want to thank the chairman, Mr. FUQUA, and ranking Republican, Mr. LUJAN, of the Science and Technology Committee for working with my committee on these provisions. I also commend the chairman of the Education and Labor Committee, Mr. HAWKINS, for his effort to create a package of amendments that have bipartisan support.

The reauthorization of the Education for Economic Security Act is vitally important. Without this action the Math-Science Program could come to a halt after only 1 year of operation. The Appropriations Committee did not include funding for this program in its Labor-HHS bill, citing the lack of authorizing language as a major reason for this action. Teacher shortages in the math and science area are increasing and the need to improve instruction in these vital areas continues to be cited in major educational reports. Thus the conditions that lead to the original enactment of this legislation continue, and the program itself is only taking effect this school year.

Last year we authorized the Carl D. Perkins Vocational Education Act. During this reauthorization process we made many significant changes in the legislation aimed at focusing Federal resources on the twin areas of access and improvement. The amendments to this act included in H.R. 1210 are largely technical and will improve the operation of the program. Brought to our committee's attention by the Department of Education and vocational educators in the field, they enjoy bipartisan support in both bodies.

In addition, these amendments would reauthorize the Excellence in Education Program, the Magnet Schools Assistance Program, and provide greater continuity in the migratory children records system.

The cooperative effort that went into the creation of these amendments should be applauded and will result in significant improvements in the operation of the programs with the end result being better serices for students. I would urge my colleagues to join me in supporting this legislation and voting for its passage.

Mr. LUJAN. Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Florida?

There was no objection.

The SPEAKER pro tempore. Is there objection to the initial request of the gentleman from Florida?

There was no objection.

A motion to reconsider was laid on the table.

GENERAL LEAVE

Mr. FUQUA. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks on the legislation just considered, H.R. 1210.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Florida?

There was no objection.

EXTENSION OF AUTHORITY TO ESTABLISH AND ADMINISTER FLEXIBLE AND COMPRESSED WORK SCHEDULES FOR FEDERAL GOVERNMENT EMPLOYEES

Mr. ACKERMAN. Mr. Speaker, I ask unanimous consent that the Committee on Post Office and Civil Service be discharged from further consideration of the bill (H.R. 3605) to provide that the authority to establish and administer flexible and compressed work schedules for Federal Government employees be extended through December 31, 1985, and ask for its immediate consideration.

The Clerk read the title of the bill.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New York?

Mr. HORTON. Mr. Speaker, reserving the right to object, I will not object, but I take this time to ask the gentleman from New York [Mr. ACKERMAN] if he will explain this bill.

Mr. ACKERMAN. Mr. Speaker, H.R. 3605 is a noncontroversial bill which has been cleared with the minority. It is an emergency measure which will permit the continuation of alternative work schedules which are not being used by more than 300,000 Federal employees. The present authority is due to expire on October 31. We must act today because October 31 occurs in the middle of a pay period for most Federal agencies. H.R. 3605 is essential if we are to avoid the unnecessary and costly disruption which would occur if the authority for these programs were to lapse.

The House has already approved H.R. 1534, to give permanent authorization for the Flexible and Compressed Work Schedules Program. For reasons unrelated to the program, the other body has delayed action on the House bill. I am optimistic that we will see action on permanent authorization before the end of this session, especially in light of the fact that this gentleman will be very reluctant to bring an additional temporary reauthorization before this House. In the meantime, we need this temporary extension, and I urge my colleagues to support it.

Mr. HORTON. Mr. Speaker, further reserving the right to object, I plan to support the bill. I urge the Members to support it. OPM has indicated their agreement with the bill. As the gentlemen explained, it only allows the additional time for the Senate to act so that they can arrive at a permanent bill.

Mr. GILMAN. Mr. Speaker, will the gentleman yield?

Mr. HORTON. Further reserving the right to object, Mr. Speaker, I yield to the gentleman from New York.

Mr. GILMAN. I thank the gentleman from yielding.

Mr. Speaker, I want to commend the gentleman from New York, the subcommittee chairman, for bringing the bill to the floor at this time, and I thank the ranking minority member for his support of the measure.

Mr. Speaker, I rise in support of H.R. 3605, an act to extend the Federal Employees Flexible and Compressed Work Schedules Act to December 31, 1985.

Since the authorization by Congress in 1978 of experimental programs in the use of flexible and compressed work schedules, the great majority of comments concerning this program have been very positive.

The experimentation, sometimes referred to as "flexitime," afforded Federal public employees the opportunity to participate in a number of work schedule designs other than the traditional 5-day, 40-hour work week.

The program has not been without some weaknesses when used improperly outside the framework of management consultation, but as with the private sector experience, flexible work schedules result in innumerable benefits; increased usage of buildings and equipment, decreased traffic congestion, improved attendance, and heightened productivity and worker morale.

Recently the results of a GAO and OPM study accessing the success of the program was released and the data showed that the program is highly productive; beneficial to both Government and to its employees and represents a permanent step toward accessible, efficient Government.

Accordingly, I urge my colleagues to support H.R. 3605.

Mr. HORTON. Mr. Speaker, I thank the gentleman.

Mr. PARRIS. Mr. Speaker, will the gentleman yield?

Mr. HORTON. I yield to the gentleman from Virginia.

Mr. PARRIS. Mr. Speaker, I rise in support of H.R. 3605, the so-called flexitime extension. This legislation has been of enormous benefit to the improvement of the quality of life of literally thousands of my constituents who are employed by the Federal Government.

I was delighted to hear the comments of the chairman of the subcommittee regarding the early attention to the permanent extension of this legislation.

Mr. HORTON. Mr. Speaker, I support the bill, and I urge its adoption.

Mr. Speaker, I withdraw my reservation of objection.

The CHAIRMAN. Is there objection to the request of the gentleman from New York?

There was no objection.

The Clerk read the bill, as follows:

H.R. 3605

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That section 5 of the Federal Employees Flexible and Compressed Work Schedules Act of 1982 (5 U.S.C. 6101 note) is amended to read as follows:

"SEC. 5. The amendments made by this Act shall not be in effect after December 31, 1985.".

The bill was ordered to be engrossed and read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

IMPACT OF GRAMM-RUDMAN DEVASTATING TO OUR CHILDREN

(Mr. HAWKINS asked and was given permission to address the House for 1 minute and to revise and extend his remarks and include extraneous matter.)

Mr. HAWKINS. Mr. Speaker, I wish to share with our Members the contents of a letter concerning the Gramm-Rudman (so-called) Emergency Deficit Control Act of 1985 by the Children's Defense Fund.

The Children's Defense Fund has expertly documented the impact of this unconscionable and devastating attack on our children.

The facts are startling. Acting in the knowledge of them, we must assume a moral accountability for the consequences if we attempt to balance the budget without exempting from any proposal of further cuts in programs affecting those in poverty.

If not, "thousands of poor children would be denied a Head Start; and thousands more removed from the highly successful chapter I program for the educationally disadvantaged. Food stamps would be cut below the Federal Government's minimum diet plan; free school lunches for poor children would be cut. Large numbers of women and children would be thrown off the WIC program; and the health care, housing, and basic survival needs of the poor would be further jeopardized."

Such action is unworthy of a civilized people who would destroy its future to benefit a selfish few.

The letter in its entirety follows:

CHILDREN'S DEFENSE FUND,
Washington, DC, October 14, 1985.

Re Gramm-Rudman-Mack Emergency Deficit Control Act of 1985.

DEAR REPRESENTATIVE: Child poverty has shot up dramatically since children and families were sent to the front lines of the Deficit Reduction War of 1981. More than half of all black children are now poor. Nearly 40 percent of all Hispanic children are now poor. More than 20 percent of all America's children are now poor.

Poor children and families have suffered enough. You cannot and must not sacrifice them once again in the Deficit Reduction War of 1985.

Gramm-Rudman-Mack—or any alternative proposal to balance the budget—must exempt from additional budget cuts all programs serving low income children and families. To cut further into programs for the poor, after $10 billion a year has already been withdrawn from vital health, nutrition, education and other basic survival services is inhumane, short-sighted and unfair.

It is both inhumane and cost-ineffective to add to the deprivation of poor children and families. Increased hunger and homelessness, increased reports of child abuse and neglect, indefensible rates of infant mortality, and declining availability of basic health and prenatal care, child care and educational services are common knowledge in countless communities in this nation. In the face of these facts, are you really prepared to support a proposal that would cut 100,000 children out of a Head Start, many more women, infants, and children from the WIC program, and deny hundreds of thousands of babies basic medical care?

Unless Gramm-Rudman-Mack, or its House alternative, exempts all low income programs from further cuts, further child poverty and deprivation are certain to result. This is a short-sighted strategy that saps the potential future strength of the nation. Children are our future. We must invest in them rather than harm and neglect them.

It would be unconscionable to try to balance the budget again on the backs of the poor, while exempting again the well-known causes of the budget deficit facing this country—defense expenditures and tax giveaways to the wealthy. While Gramm-Rudman exempts a large proportion of the defense budget and totally ignores tax expenditures or revenue measures, programs for the poor would be subject to cuts equal to as much as twice their share of the federal budget.

Even if all the defense budget were firmly on the table, and tax breaks and Social Security were on the table, nevertheless poor children and families must be taken off the table. What standard of justice could ask those who have already paid dearly to pay again? Let those who have yet to sacrifice pay their fair share of deficit reduction.

Deficit reduction is hard work, requiring hard choices. Just because poor children are politically vulnerable and expendable is no reason to sacrifice them once again. I implore you to exempt all programs for poor children and families from the Deficit Reduction Scrimmage of 1985.

Sincerely,

MARIAN WRIGHT EDELMAN,
President.

PERSONAL EXPLANATION

Mr. YOUNG of Missouri. Mr. Speaker, I rise in support of H.R. 2095, the Daylight Saving Extension Act. I was unable to vote on the bill because I was unavoidably absent. However, had I been able, I would have voted in favor of this urgently needed legislation. I urge my colleagues in the other body to act on this measure promptly and favorably.

AMENDMENTS TO THE CHARTER OF THE SOUTHERN INTERSTATE ENERGY BOARD

(Mr. YOUNG of Missouri asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. YOUNG of Missouri. Mr. Speaker, today I am introducing a bill to grant the consent of Congress to certain amendments to the charter of the Southern Interstate Nuclear Board [SINB].

The SINB was originally founded in 1961 and passed by the 17-member State legislatures to promote the safe development of nuclear power and foster regional cooperation on nuclear issues. Congress concurred by enacting Public Law 87-563 on July 31, 1962. The member jurisdictions of the compact are Alabama, Arkansas, Florida, Georgia, Kentucky, Louisiana, Maryland, Mississippi, Missouri, North Carolina, Oklahoma, Puerto Rico, South Carolina, Tennessee, Texas, Virginia, and West Virginia.

In the mid-1970's SINB was directed by the Southern Governors' Association and the Southern Legislative Con-

ference to seek legislative amendments to the compact as follows:

To change the name of the organization from the Southern Interstate Nuclear Board to the Southern States Energy Board.

To specify that the board's scope of responsibility includes energy and environmental policy areas.

To recommend that the States change the current membership provision, so as to provide for three individuals to be appointed from each State, one of whom shall be the Governor and one appointed or designated to represent each house of the State legislature.

To provide for these changes to become effective upon enactment of the amendments by a majority of the member jurisdictions in the SINB.

Sixteen of the seventeen member States have adopted these amendments since 1979. Only congressional concurrence is needed for the amendments to become effective.

The board and its staff provide technical support, research, and information to the member States and the general public. It is funded primarily by State revenues and receives no Federal appropriations.

The interests of the Federal Government are protected by a Federal representative to the board, appointed by the President. The Federal representative reports annually to the President and to the Congress on the programs and activities of the board.

Mr. Speaker, I urge prompt consideration and passage of this bill by the Congress.

WORLDWIDE IMMUNIZATION OF CHILDREN BY 1990

(Mr. SMITH of New Jersey asked and was given permission to address the House for 1 minute and to revise and exend his remarks.

Mr. SMITH of New Jersey. Mr. Speaker, tomorrow, I will be participating in the ceremony of the signing of the people's declaration at the United Nations in New York. This declaration, will be citing and reaffirming the U.N. goal of Universal Child Immunization by 1990.

Mr. Speaker, one of the greatest tragedies of our time is the prevalence of sickness, malnutrition, and death of the world's children. Each year half a million children in poorer countries come down with polio. Another 5 million are inflicted with either the measles, whooping cough, diphtheria, or tetanus. And for every death, many more children are crippled, retarded, seriously weakend, or otherwise permanently disabled.

Mr. Speaker, in the past few months, we have seen the House of Representatives affirm its commitment to the life-saving impact of vaccination and immunizations. In fact, on May 7, 1984, the House supported, by a vote of 420 to 1, a resolution I introduced commending President Napoleon Duarte and participating organizations for the successful immunization program conducted in El Salvador. I was in El Salvador for the program and was greatly encouraged by what I saw. More than 300,000 children were immunized and thereby protected from the five most painful, debilitating and even fatal diseases as whooping cough, diphtheria, tetanus, measles, and polio.

Mr. Speaker, with the passage of the foreign aid authorization bill in July 10, 1985, this body again recognized the real and positive impact of mass immunization programs by adopting my amendment to reauthorize the Child Survival Fund at 100 percent funding increase. The provision to reauthorize the Child Survival Fund was originally a separate bill—H.R. 1746—with more than 50 Members of the House supporting it as cosponsors.

Mr. Speaker, while I think the Members of this body can be proud of our part in advancing the availability of immunizations around the world, it is significant to note that even with our recent increases in support, only about 20 percent of the world's newborns are getting the shots. And the problem, relatively speaking, should not be one of finances. In fact, Mr. Speaker, for about 50 cents worth of vaccine and $4.50 to administer it, the millions of children who die each year around the world from these terrible diseases could be protected and saved from this suffering.

Mr. Speaker, aware of the technological breakthroughs that have made the goal of universal immunization attainable, the United Nations Children's Fund [UNICEF] has kindled a new mobilization toward this goal which was originally established in 1974. On Friday, October 25, 1985, the Secretary General, President General Assembly, heads of state from several countries, and the Holy See, will join with NGO and PVO leaders in signing a declaration entitled "To Save Succeeding Generations."

Undoubtedly, Mr. Speaker, this event will symbolize and demonstrate a very essential continuing role of UNICEF in service to the world's people and especially the most vulnerable of all, our children. Furthermore, it highlights the coordinating role that UNICEF has assumed and which is so vital to foster cooperation between governments and private voluntary groups in an international setting.

Mr. Speaker, Universal Child Immunization by 1990 is precisely the kind of effort which the U.S. Congress should actively support and encourage. As the free world's leading nation we should take an even greater role in freeing the world's children from the suffering and dying which occurs when children are not protected against these diseases.

Mr. Speaker, I strongly encourage my colleagues, and indeed, all the world during the United Nation's birthday celebration to commit themselves to the goal of mass immunization and thereby save the lives of millions of children around the world.

NATIONAL BLIND WORKER OF THE YEAR

(Mr. BOEHLERT asked and was given permission to address the House for 1 minute and to revise and extend his remarks and include extraneous matter.)

Mr. BOEHLERT. Mr. Speaker, I rise today to call to the attention of my colleagues the accomplishments and leadership of Mr. Robert Knapp, an employee of the Central Association for the Blind located in Utica, NY. Each year National Industries for the Blind chooses one outstanding blind production worker from among the 5,800 blind and multihandicapped blind individuals who are provided job opportunities nationwide in their associated workshops. This year Mr. Knapp was selected as the 1985 National Blind Worker of the Year. Mr. Knapp is a symbol of determination and hard work not only for blind persons, but for any American who has had to confront a new or challenging life situation. I commend Mr. Knapp for his outstanding work, courage, and advocacy on behalf of other blind citizens. And, I would like to share with you a profile of Mr. Knapp which recently appeared in Opportunity.

The article follows:

[From Opportunity, July/August 1985]

PETER J. SALMON NATIONAL BLIND WORKER OF THE YEAR

(By Catherine Raphael-Wetzel)

When he isn't working on a Javits-Wagner-O'Day contract, or doing small engine repairs, or speaking out on behalf of legislation benefiting blind people, Robert Knapp tends to his thriving vegetable garden, attends sporting events or socializes either in person or through his CB radio. Idleness is something he doesn't allow in his life, because he never lets his handicap keep him from doing what he wants to do.

Bob Knapp's infectious positive attitude is one of the many attributes that earned him selection as the 1985 Peter J. Salmon National Blind Worker of the Year, and it is one that has earned him the respect of his colleagues at the Central Association for the Blind (CAB) in Utica, New York.

Since joining CAB six years ago, Bob has tried and mastered every one of the workshop's contracts. Gifted with an exceptional mechanical aptitude, he finished fifth in a class of 28 students learning small engine repair and was the only blind person taking the course. Today he uses this skill at CAB where the agency has set up a repair shop where he works on lawnmowers and other small engines.

Workshop Director Luca Esposito, who has worked with Bob for the past six years, gave him a perfect score in an evaluation report submitted in support of his nomination for the Peter J. Salmon award. Although he didn't know Bob ten years ago, Luca has heard about the frustration Bob felt when he first lost his sight to glaucoma and had to give up driving his truck. After surgery failed to restore his sight well enough to resume his career as a truck driver, Bob applied his tremendous determination and strength of character to coping with new circumstances and deriving the most from them.

Today he likes to tell his story in the hope others will feel inspired to turn their lives around. Together with his best friend, guide dog Zion, he is a familiar figure to city bus drivers along the routes between the workshop and his apartment on the other side of town.

In October, Bob will travel to Seattle, Washington, to attend the Annual Meeting of The General Council of Workshops for the Blind and to receive the Peter J. Salmon National Blind Worker of the Year Award presented by National Industries for the Blind (NIB). Joining Bob in Seattle will be all blind workers of the year from NIB-associated workshops for the blind who were nominated for the prestigious award.

WE SHOULD NOT EXPORT JOBS

(Mrs. BENTLEY asked and was given permission to address the House for 1 minute and to revise and extend her remarks and include extraneous matter.)

Mrs. BENTLEY. Mr. Speaker, yesterday, I received another letter from another American company that has lost a U.S. defense contract to a foreign country. The president of that company wrote:

We understand that our customers, Aerojet General and Morton Thiokel, were required to switch their future procurements to foreign sources to satisfy offset obligations.

This company president is concerned because:

1. The loss of industrial base for domestic production.

2. The loss of company business without any compensation—after years of investment in building a unique capacity.

3. The loss of jobs with the impact on valued employees and the community.

Although Kaiser Electroprecision is not in my district—it's in Irvine, CA, I am concerned, and Congress should be concerned with the continuous erosion of our industrial base to overseas firms at this time to Australia.

We, the Congress, are the trustees of American taxpayers' dollars. We cannot and should not spend those dollars to export American jobs.

I include his entire letter to be printed in the RECORD, as follows:

IRVINE, CA, *October 8, 1985.*

Congresswoman HELEN BENTLEY,
Longworth House Office Building, Washington, DC

Subject: Military Contract Offsets.

DEAR CONGRESSWOMAN BENTLEY: For approximately ten years Kaiser Electroprecision has manufactured rocket motor cases for the booster rocket used on the U.S. Navy's Harpoon Missile. We supplied these motor cases to Aerojet General and Morton Thiokol, who are subcontractors to the Harpoon prime contractor, McDonnell Douglas.

Kaiser Electroprecision was the only source for the Harpoon Motor Case for many years, but Aerojet General began buying them from a source in England a few years ago. More recently, Morton Thiokol has initiated Harpoon Motor Case procurement from a company in Australia. Kaiser Electroprecision will complete a current production order for Morton Thiokol by the end of 1985. It is our understanding that all their future requirements will be sourced overseas. Kaiser Electroprecision will dismantle its production lines and there will no longer be an American source for Harpoon Rocket Motor Cases.

We understand that our customers, Aerojet General and Morton Thiokol, were required to switch their Harpoon Rocket Motor Case procurement to foreign sources in order to satisfy offset obligations.

Our company understands that it is sometimes necessary to accept offset obligations in order to facilitate foreign sales. However, we are concerned about several aspects of such agreements:

1. Loss of industrial base for domestic production of important defense components.

2. Loss of company business without any compensation—this after years of investment in building a unique capability.

3. Loss of jobs with all the economic impact on our valued employees and the community.

Sincerely, yours

R.S. CARLSON.

□ 1530

SUPPORT URGED FOR H.R. 3531

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Illinois [Mr. LIPINSKI] is recognized for 5 minutes.

Mr. LIPINSKI. Mr. Speaker, on October 9, I introduced legislation H.R. 3531 which would help alleviate the severe funding shortage that exists today in the Federal Interstate Highway and Transit Program.

My bill would reinstitute an escalation clause in the Interstate Transfer Highway Transit Program that was in the law prior to the enactment of the Surface Transportation Assistance Act of 1982. When States and cities were required to take in their outstanding interstate balances they were promised a value-for-value exchange. However, the cost of construction and the inflation rate can not be taken into account. As the years go by and costs increase, these areas are not receiving the same value of their original tradeins. The escalation clause that I am proposing will be based on the national cost of construction index. Problems in the current program are compounded by the fact that each fiscal year localities have to compete in the appropriations process to receive an adequate earmark. These budget restrictions cause further delays in the interstate program.

With the recent decision by the State of New York to withdraw the Westway highway project there will be even more areas competing for these scarce funds. The Transportation Appropriations bill passed by the House would provide $237.5 million for transit and $725 million for highway interstate programs. With the new addition of New York in the program there will be insufficient funds for projects in this program to be completed before 1991 as the Department of Transportation projects. My own State of Illinois has several projects that are ready to be constructed, however, each year we receive insufficient funding for these projects. The city of Chicago, part of which I represent is not certain that there will be enough money left to finish their projects. There are many other areas of the country that participate in this program that are experiencing similar problems. My legislation will benefit both transit and highway projects in the interstate programs. A change is needed in the law in order for the Federal Government to live up to its word on providing States a value-for-value trade-in.

I realize that in this period of high deficits and budget restrictions there is tremendous pressure on the Federal Government to cut back on expenditures. But the highway funds for this program come from the user supported highway trust fund. This fund is supported by the Federal tax on gasoline. States deserve a fair return on promises made by the Federal Government.

I urge my colleagues to join with me in cosponsoring this legislation.

PERSONAL EXPLANATION

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Florida [Mr. NELSON] is recognized for 5 minutes.

Mr. NELSON of Florida. Mr. Speaker, due to official business, I was unable to be present and voting for rollcall vote Nos. 364 through 368 on October 22, and October 23, 1985. Had I been present, I would have voted "aye" on No. 364, to suspend the rules and pass H.R. 463, Topsoil Preservation; "aye" on No. 365, for final passage of H.R. 2095, to provide for daylight saving time on an expanded basis; "aye" on No. 366, the procedural motion to approve the Journal; "aye" on No. 367, to agree to House Resolution 296, the rule for consideration of the Omnibus Budget Reconciliation Act; and "aye" on No. 368, to agree to the conference report on H.R. 2409, the Health Research Extension Act.

OPPOSE CHANGES IN AFFIRMATIVE ACTION REGULATIONS

The SPEAKER pro tempore. Under a previous order of the House, the gen-

tlewoman from Illinois [Mrs. COLLINS] is recognized for 20 minutes.

Mrs. COLLINS. Mr. Speaker, I rise to express my outrage at the most recent attempt by the Reagan administration to gut a generation of social and legal progress in this country.

Equal employment opportunity is an issue of critical importance. No one can deny the high value that is placed on guaranteeing fairness and equality in the workplace.

Everyone deserves an equal, fighting chance to make it in the job market. Everyone—regardless of race, sex, religion or national origin.

But, of course, I really don't have to remind my colleagues of that fact. After all, it was a little more than 20 years ago that this very body breathed life into that principle of equality. The principle became the law of the land—the Civil Rights Act of 1964.

And for the past 20 years, the Federal Government has consistently and pretty much enforced that law.

Although vigorous enforcement of strong antidiscrimination laws may be enough to prevent overt discrimination, it is not enough to make up for the many years that discrimination was institutionalized in this country.

It is for that reason that we have taken affirmative action to correct those pervasive historical patterns. And in 1965, President Johnson took executive action, signing an Executive order to ensure that people who benefit from doing business with the Federal Government make a special effort to ensure that all Americans have the chance to work and to be treated equally in the labor force.

It seems that there are people in the Reagan administration who believe we are doing too much to guarantee fairness. They are pushing a revised Executive order that effectively reverses the 20 years of progress we have seen.

In particular, they want to abolish the use of goals and timetables in keeping track of employer progress toward reaching equality of opportunity. They want to limit all remedies to people who can prove they have suffered from discrimination.

This proposal simply ignores the complexity of historical discrimination in this country and the tremendous impact its bitter legacy continues to have on the lives of far too many in our society.

What more needs to be said in support of the need for strong affirmative action policy.

The evidence already shows that there is a continuing gap in the employment rates of blacks and whites, as well as in the income levels and upward mobility of the two groups.

It simply takes more than 20 years of equal opportunity to correct hundreds of years of exclusion and job discrimination.

Moreover, the current administration proposal ignores its own evidence of progress—documented by the Department of Labor. The Department's statistics provide beyond all doubt that where employers have used goals and timetables, their EEO profiles have indeed improved.

According to the Labor Department, between 1974 and 1980, minority employment by Federal contractors grew from only 12 percent to more than 20 percent. The employment of women by these firms grew from only 2 to 15 percent.

Another recent study showed that between 1970 and 1980, the percentage of minorities and women in professional and managerial jobs nearly doubled.

These are the positive results of Federal affirmative action. It seems that they are results that make some people in this administration unhappy. Because it is this kind of progress that would be destroyed if the proposed changes are made.

The curious thing about this whole affair is that, for the most part, the businesses that are subject to Executive order affirmative active say they really don't want to abolish goals and timetables.

Even they know they work.

Besides, businessmen are quite accustomed to goal setting and to implementing plans according to timetables. If it can be done to expand profit margins it can be done to expand the margin of fairness.

While they might want the rules simplified, they are not pushing for the kind of wholesale revisions proposed by this administration.

I stand opposed to this administration's attempt to scuttle the hard won victories of the civil rights movement. I stand opposed to this administration's attempt to destroy the only chance many people will have for an opportunity to succeed in the job market. I stand opposed to this administration's attempt to devastate our dream of a discrimination-free employment.

We have seen that voluntary compliance will not be effective in eliminating the problems created by purposeful discrimination. We have seen that colorblind policies will not be effective in eliminating the present problems created by years of color consciousness.

We need the strongest Government enforcement possible. We must guarantee that this country truly becomes what it was supposed to be throughout its history: The land of opportunity—equal opportunity.

□ 1540

SPECIAL ORDERS GRANTED

By unanimous consent, permission to address the House, following the legislative program and any special orders heretofore entered, was granted to:

(The following Members (at the request of Mr. ARMEY) to revise and extend their remarks and include extraneous material:)

Mr. IRELAND, for 5 minutes, today.

Mr. BARTON of Texas, for 60 minutes, today.

Mr. BARTON of Texas, for 60 minutes, on October 30.

Mr. BARTON of Texas, for 60 minutes, on October 31.

Mr. COBEY, for 60 minutes, on October 30.

Mr. MACK, for 60 minutes, on October 31.

Mrs. BENTLEY, for 30 minutes, on October 29.

(The following Members (at the request of Mr. LIPINSKI) to revise and extend their remarks and include extraneous material:)

Mr. LIPINSKI, for 5 minutes, today.

Mr. NELSON of Florida, for 5 minutes, today.

Mr. ANNUNZIO, for 5 minutes, today.

Mrs. COLLINS, for 20 minutes, today.

Mr. NEAL, for 60 minutes, today.

Mr. NEAL, for 60 minutes, on October 29.

Mr. GONZALEZ, for 60 minutes, today.

Mr. OBEY, for 60 minutes, today.

Mr. OBEY, for 60 minutes, on October 28.

Mr. OBEY, for 60 minutes, on October 29.

EXTENSION OF REMARKS

By unanimous consent, permission to revise and extend remarks was granted to:

(The following Members (at the request of Mr. ARMEY) and to include extraneous matter:)

Mr. GINGRICH in two instances.

Mr. BROOMFIELD.

Mr. GILMAN in four instances.

Mr. FRENZEL.

Mr. LOTT in two instances.

Mr. WORTLEY.

Mr. HORTON.

Mr. MYERS of Indiana.

Mr. LIGHTFOOT.

Mr. MARLENEE in two instances.

Mr. SAXTON in two instances.

Mr. O'BRIEN.

Mrs. VUCANOVICH.

Mr. HAMMERSCHMIDT.

Mr. MICHEL in two instances.

Mr. DAVIS.

Mr. BURTON of Indiana.

Mr. GOODLING.

(The following Members (at the request of Mr. LIPINSKI) and to include extraneous matter:)

Mr. GARCIA in two instances.

Mr. FLORIO.

Mr. AUCOIN.

Mr. LUNDINE.

Mr. WOLPE.

Mr. FORD of Michigan.

Mr. ROSTENKOWSKI.

Mr. DWYER of New Jersey.
Mr. YATRON.
Mr. PEASE.
Mr. FRANK.
Mr. WYDEN.
Mr. HUBBARD.
Mr. LUKEN.
Mr. WILLIAMS.
Mr. ENGLISH.
Mr. GUARINI.
Mr. KLECZKA.
Mr. SOLARZ.
Mr. HOYER.
Mr. BARNES.

ADJOURNMENT

Mrs. COLLINS. Mr. Speaker, I move that the House do now adjourn.

The motion was agreed to; accordingly (at 3 o'clock and 43 minutes p.m.) under its previous order, the House adjourned until Monday, October 28, 1985, at 12 o'clock noon.

EXPENDITURE REPORTS CONCERNING OFFICIAL FOREIGN TRAVEL

Reports of various House committees concerning the foreign currencies and U.S. dollars utilized by them during the first, second, and third quarters of calendar year 1985 in connection with foreign travel pursuant to Public Law 95-384 are as follows:

AMENDED REPORT OF EXPENDITURES FOR OFFICIAL FOREIGN TRAVEL, COMMITTEE ON ARMED SERVICES, U.S. HOUSE OF REPRESENTATIVES, EXPENDED BETWEEN JAN. 1 AND MAR. 31, 1985

Name of Member or employee	Date		Country	Per diem [1]		Transportation		Other purposes		Total	
	Arrival	Departure		Foreign currency	U.S. dollar equivalent or U.S. currency [2]	Foreign currency	U.S. dollar equivalent or U.S. currency [2]	Foreign currency	U.S. dollar equivalent or U.S. currency [2]	Foreign currency	U.S. dollar equivalent or U.S. currency [2]
Visit to Federal Republic of Germany, Feb. 7–10, 1985—Amended report:											
Dickinson, Hon. William L	2/7	2/10	Germany		150.00						150.00
Martin, Hon. David O'B	2/7	2/10	Germany		150.00						150.00

MORRIS K. UDALL, Chairman, Oct. 18, 1985.

EXECUTIVE COMMUNICATIONS, ETC.

Under clause 2 of rule XXIV, executive communications were taken from the Speaker's table and referred as follows:

2182. A letter from the Assistant Secretary of State for Legislative and Intergovernmental Affairs, transmitting notice of intent to consent to a proposed transfer of U.S. origin defense articles from the United Kingdom and the Kingdom of Denmark to Japan and Australia, pursuant to 22 U.S.C. 2753(d)(1), (2)(B); to the Committee on Foreign Affairs.

2183. A letter from the Assistant Secretary of State for Legislative and Intergovernmental Affairs, transmitting a report on the extent to which the Government of Haiti is cooperating in halting illegal immigration, implementing development, food and economic assistance programs, and improving the human rights situation, pursuant to Public Law 98-473, section 540(c) (98 Stat. 1903); jointly, to the Committees on Appropriations and Foreign Affairs.

2184. A letter from the Secretary of Health and Human Services, transmitting a draft of proposed legislation to ensure the supply of childhood vaccines, and for other purposes; jointly, to the Committees on Energy and Commerce and the Judiciary.

2185. A letter from the General Counsel, Department of the Treasury, transmitting a draft of proposed legislation to amend title 31, United States Code, to establish an orderly system for payment of Treasury checks, for issuance of replacements for those checks, and for other purposes; jointly, to the Committees on Ways and Means and Banking, Finance and Urban Affairs.

REPORTS OF COMMITTEES ON PUBLIC BILLS AND RESOLUTIONS

Under clause 2 of rule XIII, reports of committees were delivered to the Clerk for printing and reference to the proper calendar, as follows:

Mr. HAWKINS. Committee on Education and Labor. H.R. 3447. A bill to amend and extend the Congressional Award Act; with amendments (Rept. 99-327). Referred to the Committee of the Whole House on the State of the Union.

Mr. HAWKINS. Committee on Education and Labor. H. Con. Res. 201. A bill to commemorate the accomplishments of Public Law 94-142, the Education for All Handicapped Children Act, on the 10th anniversary of its enactment; with an amendment (Rept. 99-328). Referred to the House Calendar.

Mr. MONTGOMERY. Committee on Veterans' Affairs. H.R. 1361. A bill to designate the Veteran's Administration Outpatient Clinic to be located in Crown Point, Indiana, as the "Adam Benjamin, Junior, Veteran's Administration Outpatient Clinic"; with an amendment (Rept. 99-329). Referred to the House Calendar.

Mr. BONIOR. Committee on Rules. H. Res. 299. A resolution waiving certain points of order against the conference report, and consideration of such conference report on S. 1160 (Rept. 99-330). Referred to the House Calendar.

Mr. HAWKINS. Committee on Education and Labor. H.R. 3530. A bill to amend the Fair Labor Standards Act of 1938 to authorize the provision of compensatory time in lieu of overtime compensation for employees of States, political subdivisions of States, and interstate governmental agencies, to clarify the application of the act to volunteers, and for other purposes; with an amendment (Rept. 99-331). Referred to the Committee of the Whole House on the State of the Union.

Mr. ADDABBO. Committee on Appropriations. H.R. 3629. A bill making appropriations for the Department of Defense for the fiscal year ending September 30, 1986, and for other purposes. (Rept. 99-332). Referred to the Committee of the Whole House on the State of the Union.

PUBLIC BILLS AND RESOLUTIONS

Under clause 5 of rule X and clause 4 of rule XXII, public bills and resolutions were introduced and severally referred as follows:

By Mr. BROOKS (for himself, Mr. HORTON, Mr. SAXTON, and Mr. DIO-GUARDI):

H.R. 3614. A bill to restrict the use of government vehicles for transportation of officers and employees of the Federal Government between their residences and places of employment, and for other purposes; to the Committee on Government Operations.

By Mr. BRUCE (for himself, Mr. DURBIN, Mr. TALLON, Mr. TOWNS, Mr. HOPKINS, and Mr. STALLINGS):

H.R. 3615. A bill to extend the use of and expand eligibility for Agricultural Industrial Development Bonds; to the Committee on Ways and Means.

By Mrs. COLLINS:

H.R. 3616. A bill to authorize the Secretary of Health and Human Services to fund adolescent health demonstration projects; to the Committee on Energy and Commerce.

By Mr. ENGLISH:

H.R. 3617. A bill to exempt rural water systems facilities assisted under the Consolidated Farm and Rural Development Act as amended from certain right-of-way rental payments under the Federal Land Policy and Management Act of 1976; to the Committee on Interior and Insular Affairs.

By Mr. EVANS of Iowa:

H.R. 3618. A bill to amend the Farm Credit Act of 1971 with respect to obligations of the farm credit system; to the Committee on Agriculture.

By Mr. EVANS of Iowa:

H.R. 3619. A bill to amend the Farm Credit Act of 1971 to provide for purchases of foreclosed farmland in the farm credit system; to the Committee on Agriculture.

H.R. 3620. A bill to amend the Farm Credit Act of 1971 to encourage institutions of the farm credit system to renegotiate problem loans and to permit those institutions to treat portions of those renegotiated loans as assets for a period of time; to the Committee on Agriculture.

By Mr. MARLENEE:

H.R. 3621. A bill to provide for the conveyance of the Miles City National Fish Hatchery to the State of Montana; to the Committee on Merchant Marine and Fisheries.

By Mr. NICHOLS (for himself, Mr. ASPIN, Mr. SKELTON, Mr. HOPKINS, Mrs. BYRON, Mr. STUMP, Mr. MAVROULES, Mr. KASICH, Mr. MCCURDY, Mrs. MARTIN of Illinois, Mr. SPRATT, Mr. CARNEY, Mr. MCCLOSKEY, Mr. PRICE, Mr. WHITEHURST, Mr. DANIEL, Mrs. SCHROEDER, Mr. KRAMER, Mr. LEATH of Texas, Mr. FOGLIETTA, Mr. DYSON, Mr. HERTEL of Michigan, Mrs. LLOYD, Mr. ORTIZ, Mr. DARDEN, Mr. ROBINSON, Mr. BUSTAMANTE, Mr. HAMILTON, Mr. EDGAR, Mr. ENGLISH, Mr. FOWLER, Mr. ANDREWS, Mr. MATSUI, Mrs. BENTLEY, Mr. WHITLEY, Mr. CONYERS, Mr. GEPHARDT, Mr. GLICKMAN, Mr. WATKINS, Mr. DICKS, Mr. BEDELL, Mr. BEILENSON, Mr. HUGHES, Mr. FAZIO, Mr. GINGRICH, Mr. BEVILL, Mr. FISH, Mr. COELHO, Mr. ECKART of Ohio, Mrs. BOXER, Mr. LAFALCE, Mr. VOLKMER, Mr. HOYER, Mr. PANETTA, Mr. CARPER, Mr. SMITH of Florida, Mr. LUNDINE, Mr. PORTER, Mr. REID, Mr. DENNY SMITH, Mr. SABO, Mr. NEAL, Mr. RANGEL, Mr. YATRON, Mr. LIPINSKI, Mr. SIKORSKI, Mr. GORDON, Mr. BATES, Mr. WILSON, Mr. OLIN, Mr. COOPER, and Mr. DASCHLE):

H.R. 3622. A bill to amend title 10, United States Code, to strengthen the position of Chairman of the Joint Chiefs of Staff, to provide for more efficient and effective operation of the Armed Forces, and for other purposes; to the Committee on Armed Services.

By Mr. SYNAR (for himself, Mr. EDWARDS of Oklahoma, Mr. JONES of Oklahoma, Mr. ENGLISH, Mr. MCCURDY, and Mr. WATKINS):

H.R. 3623. A bill to declare that the United States holds certain Chilocco Indian School lands in trust for the Kaw, Otoe-Missouria, Pawnee, Ponca, and Tonkawa Indian Tribes of Oklahoma; to the Committee on Interior and Insular Affairs.

By Mrs. VUCANOVICH:

H.R. 3624. A bill to authorize the conveyance of 470 acres in Nevada to the University of Nevada for use as a research and development center; to the Committee on Interior and Insular Affairs.

H.R. 3625. A bill to authorize and direct the Secretary of the Interior to convey certain real property to the Pershing County Water Conservation District; to the Committee on Interior and Insular Affairs.

By Mr. WORTLEY (for himself, Mr. BOEHLERT, Mr. EMERSON, Mr. FISH, Mr. GALLO, Mr. GARCIA, Mr. GILMAN, Mr. LAGOMARSINO, Mr. LEWIS of California, Mr. MCCANDLESS, Mr. MOLINARI, Mr. NIELSON of Utah, Mr. RUDD, and Mr. DENNY SMITH):

H.R. 3626. A bill to establish the National Commission on Classified Information and Security Clearance Procedures; jointly to the Committee on Government Operations, and the Permanent Select Committee on Intelligence.

By Mr. YOUNG of Missouri (for himself, Mr. TAUZIN, Mr. SHELBY, and Mr. FIELDS):

H.R. 3627. A bill granting the consent of Congress to the Southern States Energy Compact, and for related purposes; to the Committee on Energy and Commerce.

By Mr. FASCELL (for himself, Mr. WRIGHT, Mr. BROOMFIELD, Mr. SMITH of Florida, Mr. ACKERMAN, Mr. ADDABBO, Mr. AKAKA, Mr. ALEXANDER, Mr. ANDERSON, Mr. ANDREWS, Mr. ANNUNZIO, Mr. ANTHONY, Mr. ATKINS, Mr. AUCOIN, Mr. BARNARD, Mr. BARNES, Mr. BARTON of Texas, Mr. BATES, Mr. BEILENSON, Mr. BENNETT, Mr. BERMAN, Mr. BIAGGI, Mr. BILIRAKIS, Mr. BOEHLERT, Mrs. BOGGS, Mr. BOLAND, Mr. BONER of Tennessee, Mr. BOUCHER, Mr. BOULTER, Mrs. BOXER, Mr. BORSKI, Mr. BREAUX, Mr. BROOKS, Mr. BROWN of California, Mr. BROWN of Colorado, Mr. BRUCE, Mr. BRYANT, Mrs. BURTON of California, Mr. BUSTAMANTE, Mr. CARNEY, Mr. CARPER, Mr. CARR, Mr. CHANDLER, Mr. CHAPMAN, Mr. CHAPPELL, Mr. COATS, Mr. COBLE, Mr. COELHO, Mr. COBEY, Mr. COLEMAN of Texas, Mrs. COLLINS, Mr. CONTE, Mr. COOPER, Mr. COUGHLIN, Mr. COURTER, Mr. COYNE, Mr. DANIEL, Mr. DASCHLE, Mr. DELAY, Mr. DELLUMS, Mr. DERRICK, Mr. DICKS, Mr. DIOGUARDI, Mr. DIXON, Mr. DONNELLY, Mr. DORGAN of North Dakota, Mr. DORNAN of California, Mr. DOWDY of Mississippi, Mr.

DOWNEY of New York, Mr. DUNCAN, Mr. DURBIN, Mr. DYSON, Mr. DWYER of New Jersey, Mr. EARLY, Mr. ECKART of Ohio, Mr. ECKERT of New York, Mr. EDGAR, Mr. EDWARDS of California, Mr. EDWARDS of Oklahoma, Mr. ENGLISH, Mr. ERDREICH, Mr. EVANS of Illinois, Mr. FAZIO, Mr. FEIGHAN, Ms. FIEDLER, Mr. FISH, Mr. FLORIO, Mr. FOGLIETTA, Mr. FOLEY, Mr. FORD of Michigan, Mr. FORD of Tennessee, Mr. FOWLER, Mr. FRANK, Mr. FRANKLIN, Mr. FRENZEL, Mr. FROST, Mr. FUQUA, Mr. GALLO, Mr. GARCIA, Mr. GEJDENSON, Mr. GEKAS, Mr. GEPHARDT, Mr. GIBBONS, Mr. GILMAN, Mr. GINGRICH, Mr. GLICKMAN, Mr. GONZALEZ, Mr. GORDON, Mr. GRADISON, Mr. GRAY of Pennsylvania, Mr. GRAY of Illinois, Mr. GREEN, Mr. GROTBERG, Mr. GUARINI, Mr. HALL of Ohio, Mr. HAWKINS, Mr. HAYES, Mr. HEFNER, Mr. HEFTEL of Hawaii, Mr. HENDON, Mr. HERTEL of Michigan, Mr. HOWARD, Mr. HOYER, Mr. HUCKABY, Mr. HUGHES, Mr. HUNTER, Mr. HUTTO, Mr. JACOBS, Mr. JENKINS, Mrs. JOHNSON, Mr. JONES of Oklahoma, Mr. JONES of Tennessee, Mr. KANJORSKI, Ms. KAPTUR, Mr. KASICH, Mr. KEMP, Mrs. KENNELLY, Mr. KINDNESS, Mr. KLECZKA, Mr. KOSTMAYER, Mr. KOLBE, Mr. KRAMER, Mr. LAFALCE, Mr. LANTOS, Mr. LEACH of Iowa, Mr. LEATH of Texas, Mr. LEHMAN of California, Mr. LEHMAN of Florida, Mr. LELAND, Mr. LENT, Mr. LEVIN of Michigan, Mr. LEVINE of California, Mr. LEWIS of Florida, Mr. LIGHTFOOT, Mr. LIPINSKI, Mrs. LLOYD, Mr. LOEFFLER, Mr. LOWRY of Washington, Mr. LUKEN, Mr. MACK, Mr. MANTON, Mr. MARKEY, Mr. MARTIN of New York, Mrs. MARTIN of Illinois, Mr. MAVROULES, Mr. MARTINEZ, Mr. MATSUI, Mr. MAZZOLI, Mr. MCCAIN, Mr. MCCLOSKEY, Mr. MCCOLLUM, Mr. MCCURDY, Mr. MCGRATH, Mr. MCHUGH, Mr. MCKERNAN, Mr. MCKINNEY, Mr. MICA, Mr. MILLER of California, Mr. MILLER of Washington, Ms. MIKULSKI, Mr. MINETA, Mr. MOAKLEY, Mr. MOLINARI, Mr. MOLLOHAN, Mr. MOODY, Mr. MOORE, Mr. MONSON, Mr. MORRISON of Connecticut, Mr. MRAZEK, Mr. NEAL, Mr. NELSON of Florida, Mr. OBERSTAR, Mr. OLIN, Mr. ORTIZ, Mr. OWENS, Mr. PANETTA, Mr. PASHAYAN, Mr. PENNY, Mr. PERKINS, Mr. PEPPER, Mr. PICKLE, Mr. PORTER, Mr. QUILLEN, Mr. RANGEL, Mr. REID, Mr. RICHARDSON, Mr. RINALDO, Mr. ROBINSON, Mr. RODINO, Mr. ROEMER, Mr. ROSE, Mrs. ROUKEMA, Mr. ROYBAL, Mr. RUSSO, Mr. SABO, Mr. SAXTON, Mr. SCHEUER, Mrs. SCHNEIDER, Mrs. SCHROEDER, Mr. SCHUETTE, Mr. SCHUMER, Mr. SHARP, Mr. SHAW, Mr. SHELBY, Mr. SHUSTER, Mr. SILJANDER, Mr. SIKORSKI, Mr. SISISKY, Mr. SKELTON, Mr. SLATTERY, Mr. SMITH of New Hampshire, Mr. SMITH of New Jersey, Ms. SNOWE, Mr. SOLARZ, Mr. ST GERMAIN, Mr. STAGGERS, Mr. STALLINGS, Mr. STARK, Mr. STOKES, Mr. STRATTON, Mr. SUNDQUIST, Mr. SWEENEY, Mr. SWIFT, Mr. SYNAR, Mr. TALLON, Mr. TAUZIN, Mr. THOMAS of Georgia, Mr. TORRES, Mr. TORRICELLI, Mr. TOWNS, Mr. TRAFICANT, Mr. TRAXLER, Mr. UDALL, Mrs. VUCANOVICH, Mr. WALGREN, Mr. WALKER, Mr. WATKINS, Mr. WAXMAN, Mr. WEBER, Mr. WEISS, Mr. WHEAT, Mr. WHITLEY, Mr. WILLIAMS, Mr. WIRTH, Mr. WISE, Mr. WOLF, Mr. WOLPE, Mr. WORTLEY, Mr. WYDEN, Mr. YATES, Mr. YATRON, Mr. YOUNG of Florida, Mr. YOUNG of Missouri, and Mr. ROE):

DORNAN of California, Mr. HYDE, Mr. MICHEL, Mr. DIOGUARDI, Mr. LUNGREN, Mr. JONES of Tennessee, Mr. APPLEGATE, Mr. STANGELAND, Mr. MOORHEAD, Mr. MCDADE, Mr. LOEFFLER, Mr. DICKINSON, Mr. DANIEL, Mr. BROOMFIELD, Mr. RUDD, Mr. BILIRAKIS, Mr. YATRON, Mr. MACK, Mr. CARNEY, Mr. COURTER, Mr. FRENZEL, Mr. GALLO, Mr. HAMMERSCHMIDT, Mr. HARTNETT, Mr. HUNTER, Mr. LEWIS of California, Mr. MARTIN of New York, Mr. CLINGER, Mr. TAUZIN, Mr. MOORE, Mr. SPENCE, Mr. CAMPBELL, Mr. SWINDALL, Mr. BLAZ, Mr. IRELAND, Mr. PACKARD, Mr. EDWARDS of Oklahoma, Mr. PRICE, Mr. STARK, and Mr. WILSON.

H.J. Res. 127: Mr. CARPER, Mr. LATTA, Mr. MOLINARI, Mr. AKAKA, Mrs. BENTLEY, Mr. BONER of Tennessee, Mr. DORNAN of California, Mr. DYMALLY, Mr. ERDREICH, Mr. RAY, and Mr. MRAZEK.

H.J. Res. 267: Mr. COBEY.

H.J. Res. 391: Mr. FAZIO, Mr. HORTON, Mr. SCHEUER, Mr. CHAPPIE, Mr. ROWLAND of Georgia, Mr. MARTIN of New York, Mr. ROE, Mr. LIVINGSTON, Mr. SMITH of Florida, Mr. HOYER, Mr. WOLF, Mr. MORRISON of Connecticut, Mr. WEISS, Mr. MCKINNEY, Mr. HARTNETT, Mr. CAMPBELL, Mr. CHANDLER, Mr. BATEMAN, Mrs. KENNELLY, Mr. REID, Mr. BOUCHER, Mr. BONIOR of Michigan, Mr. DE LA GARZA, Mr. DANIEL, Mr. MATSUI, Mr. LEVIN of Michigan, Mr. ERDREICH, Mr. BONER of Tennessee, Mr. JONES of Tennessee, Mr. FASCELL, Mr. YOUNG of Alaska, Mr. VOLKMER, Mr. FROST, Mr. RANGEL, Mr. MCEWEN, Mr. DORNAN of California, Mr. DERRICK, and Mr. EMERSON.

H.J. Res. 416: Mr. DIXON.

H.J. Res. 417: Mr. YATRON, Mr. HENRY, Mr. GALLO, Mr. FRANK, Mr. BILIRAKIS, Mr. BEDELL, Mr. LEVINE of California, Mr. SEIBERLING, Mr. KOSTMAYER, Mr. WILSON, Mr. LIVINGSTON, Mr. NEAL, and Mr. KASTENMEIER.

H.J. Res. 424: Mr. MURPHY, Mr. BRYANT, Mr. MOORHEAD, Mr. DIXON, Mr. YOUNG of Alaska, Mrs. BENTLEY, Mr. WATKINS, Mrs. BYRON, Mr. KASICH, Mr. JONES of North Carolina, Mr. HORTON, Mr. CARNEY, Mr. MOORE, Mr. GINGRICH, Mr. ADDABBO, Mr. FAZIO, Mr. MCGRATH, Mr. SCHAEFER, Mr. COBLE, Mr. BURTON of Indiana, Mr. DAUB, Mr. KLECZKA, Mr. DANIEL, Mr. DWYER of New Jersey, Mr. RAHALL, Mr. BERMAN, Mr. FRENZEL, Mr. MANTON, Mr. BOUCHER, Mr. NIELSON of Utah, Mr. REID, Mr. DE LA GARZA, Mr. SWINDALL, and Mr. HOWARD.

H. Con. Res. 198: Mr. GARCIA, Mr. ADDABBO, Mr. BOSCO, Mrs. BURTON of California, Mr. CROCKETT, Mr. MATSUI, Mr. MOAKLEY, Mr. MOODY, Mr. MORRISON of Connecticut, Mr. RANGEL, and Mr. WEISS.

H. Con. Res. 208: Mr. BONIOR of Michigan, Mr. BERMAN, Mr. HUGHES, Mr. BEDELL, Mr. WHEAT, Mr. CROCKETT, Mr. FAUNTROY, Ms. KAPTUR, Mr. UDALL, and Mr. RICHARDSON.

H. Con. Res. 210: Mrs. MARTIN of Illinois, Mr. FROST, Mr. GRAY of Pennsylvania, Mr. WILSON, Mr. LIPINSKI, Mr. REID, Mr. DAUB, Mr. PORTER, Mr. HOWARD, Mr. FAZIO, Mr. MATSUI, Mr. THOMAS of Georgia, Mr. FRANK, Mr. KINDNESS, Mr. BEDELL, and Mr. SIKORSKI.

H. Res. 268: Mr. WOLPE and Mr. MCCOLLUM.

SENATE—*Thursday, October 24, 1985*

(Legislative day of Monday, October 21, 1985)

The Senate met at 9 a.m., on the expiration of the recess, and was called to order by the President pro tempore [Mr. THURMOND].

PRAYER

The Chaplain, the Reverend Richard C. Halverson, D.D., offered the following prayer:

Let us pray.

"We the peoples of the United Nations, determined to save succeeding generations from the scourge of war, which twice in our lifetime has brought untold sorrow to mankind, and to reaffirm faith in fundamental human rights, in the dignity and worth of the human person, in the equal rights of men and women and of nations large and small, and to establish conditions under which justice and respect for the obligations arising from treaties and other sources of international law can be maintained, and to promote social progress and better standards of life in larger freedom.

"And for these ends to practice tolerance and live together in peace with one another as good neighbors, and to unite our strength to maintain international peace and security, and to ensure, by the acceptance of principles, and the institution of methods, that armed force shall not be used, save in the common interest, and to employ international machinery for the promotion of the economic and social advancement of all peoples, have resolved to combine our efforts to accomplish these aims."

Eternal God, Lord of history, on this 40th anniversary of the United Nations, forgive our human propensity for big words and small deeds. Be with the leadership of the nations gathered in New York today, and especially we pray for the President of the United States, that he may be endowed with an unusual measure of grace and wisdom as he addresses them. In the name of truth. Amen.

RECOGNITION OF THE ACTING MAJORITY LEADER

The PRESIDENT pro tempore. The distinguished acting majority leader is recognized.

SCHEDULE

Mr. MATTINGLY. Mr. President, under the standing order, the two leaders will have 10 minutes each.

There will be routine morning business for not to extend beyond 9:30 a.m., with Senators permitted to speak therein for not more than 5 minutes each.

Following morning business, the Senate will begin consideration of H.R. 2965, the State, Justice, Commerce appropriations bill. Votes can be expected prior to 12 noon in relation to the appropriations bill.

By unanimous consent, at 12 noon, the Senate will lay aside the pending business to turn to the joint resolution offered by Senators DOLE, BYRD, LUGAR, and PELL relating to the sale of arms to Jordan. There is a 1-hour time limitation on the resolution, and no amendments are in order. Also, the yeas and nays have been ordered on the resolution; therefore, a rollcall vote will occur on adoption of the resolution.

Following the Jordan resolution, the Senate will resume consideration of S. 1730, the reconciliation bill. Votes can be expected throughout the day and possibly into the evening in order to complete action on the reconciliation bill.

Following passage of the reconciliation bill, it will be the intention of the majority leader to turn to the Compact of Free Association, if time permits today.

Mr. President, I ask unanimous consent that after the recognition of the acting Democratic leader, the Senator from Rhode Island [Mr. CHAFEE] be recognized.

The PRESIDENT pro tempore. Without objection, it is so ordered.

RECOGNITION OF THE ACTING DEMOCRATIC LEADER

The PRESIDENT pro tempore. The distinguished acting Democratic leader is recognized.

THE MYTH THAT ARMS SALES TO JORDAN CONTRIBUTE TO PEACE IN THE MIDDLE EAST

Mr. PROXMIRE. Mr. President, the administration is asking Congress to approve an arms sale package to Jordan totaling $1.9 billion. The justification for this sale rests on several points—all of which in my opinion are part of the mythology of arms sales.

First, the administration argues that this proposed sale is for the self-defense of Jordan and does not pose a new threat to Israel. How absurd! Provision of 40 advanced fighter aircraft, 12 mobile improved Hawk surface-to-air missile units, 108 Stinger handheld antiaircraft missiles, 300 Sidewinder air-to-air missiles, and 32 Bradley fighting vehicles can be nothing but an increased threat projection to Israeli planners. These weapons cannot and will not be placed in isolation to be used only under special conditions and by agreement never used against the Israelis. Nations at war use every available weapon even if prior assurances are given.

Second, this package is supposed to give King Hussein the incentive to enter into the peace process. Consider the logic here. Arms sales which threaten Israeli security are considered a positive development in the relations between these two nations. Not hardly. This sale will only provoke Israeli security concerns, which will lead to more arms sales to Israel and heightened tensions.

Third, it is suggested that this sale will protect Jordan from the Syrians. Here is another myth. Jordan simply does not have the military power, with or without this proposed sale, to withstand a war against the Syrians. Syrian air defenses and ground forces are substantially superior to Jordanian forces, no matter what comparison is made. The arms sale package will not alter this strategic disadvantage.

Taken in sum, Mr. President, the administration's arguments for the Jordanian arms sale package rest on such a weak foundation that they are more myth than reality.

WHY THE SUMMIT MEETING IN GENEVA WILL BE AN ARMS CONTROL FLOP

Mr. PROXMIRE. Mr. President, what would constitute a useful arms control agreement between the United States and the Soviet Union? What could the two superpower leaders begin to aim at in their Geneva meeting that could truly start to halt the nuclear arms race? President Reagan has suggested a sharp reduction by both sides in offensive nuclear missiles. Secretary Gorbachev has indicated that under the right circumstances, the Soviet Union might consider negotiating a 50-percent reduction in at least certain kinds of offensive missiles on both sides. Now, how about that? Does this mean that the superpowers may be on the verge of agreeing at Geneva to a 50-percent reduction in offensive nuclear missiles as a starter

toward the goal President Reagan has frequently stated of eliminating all nuclear weapons?

The answer, Mr. President, is that there are enormous obstacles in the way of even beginning to reach any agreement on reducing offensive nuclear missiles at Geneva in November. The President has made it abundantly clear over and over and over again that he will not stop moving ahead as rapidly as possible with SDI or star wars, the antimissile defense. And Secretary Gorbachev has bluntly asserted that he will not agree to any reduction in offensive nuclear missiles by the Soviet Union as long as the United States is building a defense against Soviet intercontinental ballistic missiles. So the possibility of an agreement reducing nuclear missiles at Geneva seems remote.

But, Mr. President, that appearance of only a long shot chance of any agreement to reduce nuclear weapons may be deceptive. Both superpower leaders have much to gain by achieving some kind of agreement that could be dolled up with some cosmetic camouflage and sold as a real live arms control achievement. Both superpowers have plenty of unnecessary nuclear power. In fact, much of it has been aging for a few years and is about to be retired to the junk heap and replaced with far more devastating, more accurate, and more reliable new nuclear weapons.

Instead of quietly replacing the obsolete, old weapons why shouldn't both leaders agree to a ceremony at Geneva in which, with a fanfare of trumpets, they agree to retire much, or all, of the older nuclear weapons that were on their way to the scrap heap, anyway? Both could then claim worldwide credit for a successful agreement that diminished the terrible, threatening nuclear arsenals on both sides. Both leaders would appear to their countrymen and their allies as heroes of peace and sanity. Both could boast that, for the first time, the superpowers had made a real breakthrough for arms control and a peaceful world. They would claim that they had negotiated an arms control treaty that, unlike previous treaties, did not just set a limit on how much the respective nuclear arsenals could expand. Instead, they could have their agreement as a great historical first, the first great reduction of nuclear weapons in the nuclear age. There could even be ceremonies attended by both leaders in which millions of tons of TNT explosive weapons were visibly sterilized and destroyed.

Why wouldn't such an achievement actually advance the world toward peace? The answer is obvious. Such an agreement and such action under such an agreement would be absolutely meaningless. It would not advance arms control an inch. Why not? Because both sides could and would replace the obsolete, old nuclear weapons that had served such a spectacular political purpose for the two leaders. They would replace them with far more deadly new weapons that would be much surer to reach and demolish the targets in the adversary country.

Now let me point out why all this could happen. The Soviet Union is now fully aware that its present massive force of land-based stationary ICBM's could become worthless in a world in which their prime adversary, the United States, has determined to build a highly advanced antiballistic missile system. The U.S.S.R. would undoubtedly benefit by shifting massively to cruise missiles that could underfly any intercepting antimissile net.

Also the Soviet nuclear weapons labs are undoubtedly working as feverishly as those of the United States to develop nuclear weapons that can penetrate any SDI antimissile shield. As these new, penetrating nuclear weapons come on scene, the Soviet Union would, even absent an agreement, substitute the new penetrators for their old ICBM's that lack that penetrating capacity. On our side, the United States, with our remarkable technology will—as it has in the past—continue to pour out of our weapons labs constantly more lethal, reliable, accurate weapons to replace the old, nuclear weapons we had so spectacularly destroyed. So the immensely dangerous and costly nuclear weapons race would speed ahead, without a moment's hesitation after an agreement on both sides to destroy offensive nuclear weapons.

Isn't it clear, Mr. President, that the only kind of arms control agreement worth the paper its written on must stop the arms race by stopping the nuclear testing that is essential to bringing on these constantly more devastating weapons on both sides? It now seems clear that the Geneva summit conference will provide for no significant arms control agreement. Any agreement to cut back on offensive nuclear weapons on both sides will mean nothing, because it will simply permit both superpowers to claim credit for destroying obsolete weapons they would destroy anyway, and will replace with even more devastating weapons. The prime prerequisite to an arms control agreement that will truly advance peace is an agreement that would provide a verifiable end to nuclear weapons testing.

FRENCH EXPLORATON OF WISCONSIN

Mr. PROXMIRE. Mr. President, I do wish to mention one other matter, and that is that the Governor of Wisconsin has declared this to be the 300th anniversary of the French exploration of Wisconsin.

We have had some marvelous French explorers who did a great deal in opening up our State. We are very proud of them—Nicolet, Marquette, and others. They have given their names and the French names to many of the cities and to our great university, Marquette University in Milwaukee.

The Governor and Mayor Bittner of the city of Prairie du Chieu have issued proclamations on that day and I ask unanimous consent to have those proclamations printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

A PROCLAMATION

Whereas, in 1673, explorers Louis Jolliet and Father Jacques Marquette traveled across the wild regions of our land from the French settlement at Green Bay to the confluence of the Wisconsin and Mississippi Rivers; and

Whereas, Nicholas Perrot followed the trail of Marquette and Jolliet in 1685 establishing a line of defensive forts to protect the French-Canadian fur traders operating in the region; and

Whereas, in that year Perrot ordered a fort erected on the prairie north of where the two rivers meet, naming the structure Fort Nicholas and thus beginning the settlement at what was to be called Prairie du Chien; and

Whereas, the 18th Century French voyagers who traveled this region and settled in Prairie du Chien are of great historical significance due to their many fine contributions of culture and tradition to the state of Wisconsin;

Now, therefore, I, Anthony S. Earl, Governor of the State of Wisconsin, do hereby proclaim 1985 "the Year of the French" in Wisconsin and urge the citizens of this state to join with the people of the City of Prairie du Chien in the celebration of the 300th anniversary of the building of Fort Nicholes.

PROCLAMATION BY MAYOR JAMES R. BITTNER

Whereas, In 1685 Nic(h)olas Perrot established a fort at Prairie du Chien, one in a series, to protect the French fur trade in the Upper Mississippi Valley, and

Whereas, this was the beginning of permanent habitation in Prairie du Chien, and

Whereas, In the 18th Century French Voyageurs from Canada, who used the prairie as a place of trade, began to make Prairie du Chien their home, and

Whereas, Throughout the second half of the 18th Century and into the 19th Century French Canadians settled on this prairie.

Now, therefore, I, James R. Bittner, Mayor of the historic city of Prairie du Chien, in honor of those first settlers, their culture and traditions which were the basis for the city, do hereby proclaim that 1985 shall be known to all who receive these presents as "the Year of the French".

Signed and sealed this 19th day of January, 1985 in the city of Prairie du Chien.

THE GENOCIDE CONVENTION WOULD NOT PLACE AMERICAN SOLDIERS AT RISK

Mr. PROXMIRE. Mr. President, today I want to consider a very serious criticism of the Genocide Convention.

Would ratification of the convention lead to trials of American soldiers for carrying out their orders? Would we be handing our enemies a weapon with which to pummel American POW's should—Heaven forbid—we find ourselves in another conflict?

The American Bar Association asked the people who are in the best position to know and the best position to care if the convention does pose such a threat. In 1976, the ABA asked the general counsel of the Defense Department and each branch of the Armed Forces if ratification of the convention would place service men and women at risk. The general counsel responded that the provisions of the Genocide Convention were wholly consistent with the domestic law that governs U.S. forces in wartime. Ratification of the convention would not put American soldiers at additional risk.

The legislative history of the Genocide Convention shows clearly that the convention does not apply to the combat actions between two soldiers. Excesses in wartime are lamentable—but they are governed by an entirely different bundle of international law and precedent that seeks to establish proportionality in warfare.

The convention would apply only to actions taken against civilian populations within the carefully drawn definition: actions taken with intent to destroy in whole or in part a national, ethnical, racial, or religious group. This definition clearly would exclude combat actions between soldiers.

Of course, hostile nations probably can be counted on to make life miserable for American POW's. Show trials and cooked-up charges pose a threat to American POW's regardless of Senate action on the Genocide Convention.

The Genocide Convention would not threaten Americans because we both live the peace and fight the war according to responsible guidelines. Ratification of the convention would threaten only those who flagrantly disregard those guidelines and commit genocide.

Mr. President, I reserve the remainder of the minority leader's time and yield the floor.

The PRESIDING OFFICER (Mr. MATTINGLY). The Senator from Rhode Island is recognized.

PRESERVING THE ABM TREATY

Mr. CHAFEE. Mr. President, many of us were shocked 2 weeks ago when the administration announced its sudden reinterpretation of the ABM Treaty.

National security adviser Robert McFarlane's abrupt new interpretation insists that development and testing of exotic antiballistic missile systems, such as those planned for the strategic defense initiative, are permitted under the ABM Treaty. Such a viewpoint flies in the face of the legal interpretations of past administrations. It raises very troubling questions that go to the heart of whether or not the ABM Treaty can survive as an effective accord governing the control of ballistic defense systems.

Mr. President, Mr. McFarlane's sudden switch—I do not know whether he was on the way to Damascus or what occurred. It turns out he was on his way to "Meet The Press." His sudden switch caught all by surprise.

The administration's new position on the ABM Treaty proves the old adage, "You can always find a lawyer to give a new interpretation to anything."

Until the McFarlane statement, the U.S. interpretation of the ABM Treaty was that there were certain limits placed upon both sides regarding development, as well as testing and, of course, deployment of ABM systems based on other physical principles such as lasers, particle beams, and other exotic components.

Ambassador Gerard Smith, who negotiated the ABM Treaty in 1972, summarized the restrictions on development this way at Senate hearings on ratification of the treaty.

Let us listen to the man who was there who negotiated it. What did he say about all of this? It is very clear and unequivocal:

> The prohibitions on development contained in the ABM Treaty would start at that part of the development process where field testing is initiated on either a prototype or model. It is understood by both sides that the prohibition on development applies to activities involved after a component moves from the laboratory development and testing stage to the field testing stage, whenever performed.

That makes it very clear—the prohibitions on development mean that you can test in the laboratory but when you move out into the field testing stage that is prohibited. What could be clearer?

Here is from the man who was there. This is not some sudden reinterpretation 13 years later.

Mr. PROXMIRE. Mr. President, will the Senator from Rhode Island yield for a minute?

Mr. CHAFEE. I yield.

Mr. PROXMIRE. Mr. President, I wish to say that I wholeheartedly approve what the Senator from Rhode Island is saying. I am delighted that he has come to the Chamber because other Senators have taken a contrary position and no one can speak with greater prestige than the former Secretary of the Navy in this kind of area, and he is so right.

The ABM Treaty is essential. It is the best arms control treaty we have. It is in very serious jeopardy, and if it is repudiated in the way it may well be, it will be a real blow to arms control as a whole.

How can anyone trust the word of the United States of America when it is so clear that that treaty prohibits any kind of testing in space, and it seems to me there is no way they can trust us if we now repudiate that part of the treaty. That is so explicit. I thank my good friend from Rhode Island. He is making a real contribution here.

Mr. CHAFEE. I thank the distinguished Senator from Wisconsin because he has long been active in this field. He has paid attention to it. He is not a Johnny-come-lately. He has dealt with this for many, many years and reflects the concerns that all of us feel.

John Rhinelander, legal counsel to the SALT I team, in testimony before the House Foreign Affairs Committee on Tuesday, said:

> And reinterpretation of the ABM Treaty is patently absurd and would frustrate the stated premise of this treaty—to prohibit deployment of nationwide ABM systems or a "base" for such a system.

The importance of the ABM Treaty cannot be underestimated. And this follows up on the statement that the distinguished senior Senator from Wisconsin says. It is the only accord between the United States and the Soviet Union which, until now, has limited in any true sense the aresenals of either side.

In other words, this is a limitation treaty. This is not a treaty that you can build up to and eventually reach the maximum. This treaty imposes limitations and it has worked. It has worked for 13 years and there would be an ABM system around Moscow but the United States decided not even to go ahead with an ABM system.

Abandoning the treaty would elevate, by several orders of magnitude, the dangers we face.

The ABM Treaty is important not only to us but to our allies. Now there is a tendency around this place lately to pooh-pooh our allied, to say what do we care about them. Well, as we found out in NATO when it came to positioning those cruise missiles and those Pershing II's our allies are extremely important. British Prime Minister Margaret Thatcher has agreed to the principles of SDI—but with the understanding that strict compliance with the ABM Treaty will continue. In the Netherlands, where the political situation is extremely sensitive since that country must make a decision on cruise missile deployment by November 1, a reinterpretation of the ABM Treaty threatens to undermine Dutch confidence in the United States and could adversely influence that decision about the deployment of the cruise missile. Throughout NATO, the reaction to the administration's sudden abrupt reinterpretation of the ABM

Treaty has been negative to state it mildly.

The administration, in response to the NATO concerns, among others, has now agreed to continue abiding by the old, more restrictive interpretation of the treaty. But it continues to insist upon the correctness of the new reading of the treaty. As long as the new interpretation stands, we will continue to run the risk that at a given moment, the United States will suddenly switch gears again. The existing situation—that we read the treaty permissively in principle but not in practice—will continue to create friction with United States allies, as well as with the Soviet Union.

It may be, as some have suggested, that the new interpretation is a "bargaining ploy." If that is the case, it is risky business. If it is not a bargaining ploy, then the danger is greater, for it will complicate needlessly the entire future of arms control, diverting attention from more pressing concerns of arms reductions.

Let us not throw this into the pot all of a sudden when we are on our way to Geneva where hopefully we can achieve deep and stabilizing reductions in the offensive arms.

I hope the President, upon reflection, will reaffirm, in unambiguous language, the longstanding, traditional interpretation of the ABM Treaty which has held sway for 13 years through four administrations—including the President's own—and that he will reject the McFarlane view.

Now is not the time to tamper with the most successful arms control agreement of the postwar era.

Mr. President, on Wednesday, October 23, Ambassador Smith expressed his concerns over the new interpretation of the ABM Treaty in a thoughtful letter to the editor of the New York Times. As the principal negotiator of the treaty, his views are entitled to special weight. I ask unanimous consent that the text of his letter be printed in the RECORD.

There being no objection, the letter was ordered to be printed in the RECORD, as follows:

[From the New York Times, Oct. 23, 1985]

HOW THE ADMINISTRATION AMENDED THE ABM TREATY

WASHINGTON, DC
1, October 18, 1985.

To the Editor:

Despite Secretary of State George P. Shultz's efforts to blunt adverse domestic and international political repercussions, it is clear that the Reagan administration has repudiated its former position, and that of all previous administrations, that the anti-ballistic-missile treaty bars development and testing of space-based strategic defenses or components of them that use lasers, particle beams and other types of nontraditional technology. This new version of the treaty has drastic implications for the survival of the treaty and indeed of the whole arms control process.

As head of the United States delegation to the strategic arms limitation talks that negotiated the ABM treaty, I would like to record that it was not our intention that any type of technology for space-based ABM systems could be developed or tested under the treaty. This has been the official view of the United States Government for more than 13 years. In my opinion, the Russians agree with this position, which is binding on both parties and have stated so on a number of recent occasions. The controlling provisions of the treaty (to which the Senate consented to ratification by a vote of 88 to 2) is Article 5. Section 1 reads, "Each party undertakes not to develop, test or deploy ABM systems or components which are sea-based, air-based, space-based or mobile land-based."

The treaty does permit a small deployment of fixed land-based ABM missiles using traditional technology. It also permits development and testing of new technology for such fixed land-based defenses—but not deployment. The differences between the ban on deployment and testing of space-based systems, and the more limited constraints on fixed land-based systems is reflected in an agreed statement appended to the treaty (Agreed Statement D), which provides that if new type systems are developed, they cannot be deployed unless authorized by a treaty amendment. This agreed statement does not modify in any way the total ban on the development and testing of space-based systems.

The administration, after having accepted the official interpretation for more than four years, now has concluded that space-based systems or components using new technology may be developed and tested under the treaty, despite the ban in Article 5. The apparent rationale for this change is that the Russians never agreed to the broader historical American position.

This radical change in a central provision of the treaty, which is the supreme law of the United States, was apparently accomplished in secrecy without consultation with the Congress or United States allies for which this treaty has security significance.

While the Article 5 ban seems unambiguous to this writer, if the Administration is concerned about some ambiguity in the negotiating record, it should be recalled that the treaty anticipated this contingency and provided for consultational machinery to clarify any such situation. Would it not at least be prudent, as well as correct international procedure, to undertake such consultation with the other party to the treaty before the Administration implements this new interpretation in carrying out the "Star Wars" program?

GERARD C. SMITH.

Mr. CHAFEE. Mr. President, I have spoken here just as one Senator. I know there are others. There are others who if not available to speak have statements. But I certainly am delighted that the distinguished senior Senator from Maryland is here, a man who has given a lot of thought to this matter over many years and whose concerns about effective arms control are well known.

I yield to him whatever time he desires.

ROUTINE MORNING BUSINESS

The PRESIDING OFFICER. Under the previous order, there will now be a period for the transaction of routine morning business not to extend beyond the hour of 9:30 a.m. with statements therein limited to 5 minutes each.

Mr. CHAFEE. I yield any time that I might have to Senator MATHIAS.

Mr. MATHIAS. How much time does the Senator from Rhode Island have?

The PRESIDING OFFICER. There is no leader time left. We are in morning business time. The Senator has 5 minutes.

ABM TREATY INTERPRETATION

Mr. MATHIAS. Mr. President, the extraordinary internal debate within the administration over a departure from the 13-year-old interpretation of the ABM Treaty—an interpretation confirmed by Republican and Democratic administrations alike—has generated very deep concern throughout the Atlantic alliance.

Last week I had the privilege of attending a session of the North Atlantic Assembly, which convened in San Francisco. When the delegates from the national legislatures of all of the 16 NATO countries arrived in San Francisco, they were greeted by the news that the long-accepted interpretation of the 1972 Antiballistic Missile Treaty, which prohibits the development and testing of space-based missiles defenses, had apparently been recast by some administration spokesmen to permit such activities.

Such a definition would allow the strategic defense initiative, sometimes called star wars, to move automatically and without further consultation beyond the research phase.

This attempted unilateral reinterpretation of the ABM Treaty drew a very heated reaction from many of our European partners who have already questioned the depth of our commitment to arms control. They asked, not without some reason, how the President could expect to reach a new arms control agreement reducing offensive missiles if the Untied States should choose to conveniently reinterpret its existing obligations to accommodate the expansion of the SDI program.

It was against this background of concern that the North Atlantic Assembly began to debate the subject of whether or not the North Atlantic Assembly, the parliamentary voice of NATO, should commit itself and should give its support to a strategic defense initiative research program. That research program was consistent with the U.S. plans but not yet adopted by the North Atlantic Assembly.

When we scheduled the debate, it was, of course, with the concept that the research would be conducted in a

manner consistent with the limits set in the ABM Treaty. But as the debate opened with this uncertainty in Washington, we were literally at sea. And, as events unfolded, it was highly questionable whether such a proposition would be accepted by a majority of the delegates attending the assembly, because they could not be sure what the U.S. position would be on the ABM issue.

I must give great credit to the Secretary of State, George Shultz, because he came to San Francisco to address the assembly well aware of the fact that this debate had been set for many months on the topic whether or not the North Atlantic Assembly should support the SDI research program. He made it unmistakably clear that the original, widely accepted interpretation, as set forth in the report of the administration to the Congress on the 15th of March this year, would be the interpretation to be retained and executed by the administration. It was extremely important that he laid it out in those terms because he then was referring to the original orthodox interpretation of the ABM Treaty which was set forth in writing—not something that could be subjected to further reinterpretation, but which was set forth in writing in the report of the administration to Congress. That was an enormously helpful step in this debate within the North Atlantic Assembly, because it gave the delegates an anchor by which they could stop the drift in policy.

On the basis of Secretary Shultz' statement and on the basis of the further statement of Ambassador Paul Nitze, the delegates than began to find that they were in a firm position from which they could begin to form opinions.

Ambassador Nitze, of course, has a very high degree of credibility within NATO because of his long association with security issues at many levels. He was able to reinforce the message that had been given to the delegates by the Secretary of State.

As a result of these activities, and because of some very strenuous work done on the floor by members of the American delegation—and I would particularly single out for thanks and praise the Representative from Texas [Mr. BROOKS] and the Representative from Florida. [Mr. FASCELL] who worked tirelessly in the interests of the United States.

As a result of all these activities, the resolution calling for alliance support for research in strategic defense within the limits of the ABM Treaty as traditionally interpreted was adopted by a vote of 91 to 12 with 28 abstentions, a remarkable resounding victory for American policy.

The resolution calls upon the United States and the Soviet Union to draw the line between research and development and development in accordance with a strict interpretation of the Antiballistic Missile Treaty.

Mr. President, I am glad that the Senator from Rhode Island has begun this discussion today because it is important that this whole matter be placed on the record. The episode which occurred at San Francisco at the session of the North Atlantic Assembly is just one example of the kind of disruptive effect that the attempt to reinterpret the Antiballistic Missile Treaty unilaterally can have upon our alliance and upon our whole security structure.

I think it would be useful to place in the RECORD—and if the Senator from Rhode Island has no objection, I will do it at this time—a copy of the resolution adopted by that vote of 91 to 12 in San Francisco because that illustrates what can be done when we are dealing on a consistent basis and with full consultation with our allies. It is essential to follow lines of policy that do not mindlessly deviate and lines of policy that are maintained with consistency and continuity.

So I ask unanimous consent that a copy of the North Atlantic Assembly resolution be printed in the RECORD.

There being no objection, the resolution was ordered to be printed in the RECORD, as follows:

STRATEGIC DEFENCE AND THE ALLIANCE[1]

The Assembly,

Recalling resolution 132 on arms control in outer space (1982) and resolution 145 on ballistic missile defence (1983);

Reaffirming deterrence based on retaliatory offensive systems as an essential component of Alliance security;

Concerned by the increase in numbers and capability of offensive strategic weapons, and the consequent implications for crisis stability;

Underlining that the existing strategy of flexible response must remain in force as long as there is no more efficient alternative;

Convinced that the 1972 Anti-Ballistic Missile (ABM) Treaty continues to make a fundamental contribution to strategic stability;

Aware that differing interpretations are placed on the forms of research permissible under the terms of the ABM Treaty;

Concerned by evidence of Soviet violations of the ABM Treaty and continued Soviet research in, and modernization of, strategic defence technologies;

Concerned that advanced Soviet surface-to-air missile (SAM) systems may impinge on the ABM Treaty regime;

Recognizing some similarities between anti-satellite (ASAT) and strategic defence technologies; and, therefore,

Concerned that some aspects of advanced future ASAT development may undermine the ABM Treaty regime;

Acknowledging the need for the United States to pursue research in defensive technologies as a hedge against a potential Soviet breakout from the ABM Treaty;

Supporting, therefore, the United States' commitment to continue research into strategic defence technology within the provisions of the ABM Treaty;

Welcoming the statement of the United States that their research efforts are not directed towards gaining superiority;

Noting that disagreement exists within the Alliance over the technical and financial feasibility, military utility and political desirability of deployment of large-scale ballistic missile defences;

Convinced that negotiated constraints on offensive and defensive arms represent the preferred means of achieving greater stability;

Welcoming the United States' commitment to consult fully on the Strategic Defense Initiative with its Alliance partners;

Convinced that decisions about the potential development and deployment of defensive systems can only be made after the Alliance partners have been consulted and negotiations with the Soviet Union on co-operative solutions have taken place, i.e., that there must be no automatic sequence of research, development and deployment;

Urges member governments of the North Atlantic Alliance:

1. to recognize the close relationship between strict adherence by all parties to existing arms control agreements and the construction of a framework for mutual restraint between East and West;

2. to support every effort to enhance Western security through negotiated limitations and mutually verifiable reductions of offensive nuclear forces;

3. to encourage agreement between the Soviet Union and the United States on the technical definitions of the forms of research permissible under the terms of the ABM Treaty;

4. to ensure that any future arms control regimes covering strategic defence contain provisions which preclude circumvention by advanced ASAT development;

5. to support United States research into strategic defence consistence with the provisions of the ABM Treaty;

6. to assess what forms, if any, of ballistic missile defence would allay fears about "decoupling" and would contribute to the security of the Alliance as a whole;

7. to ensure that any Alliance participation in the Strategic Defence Initiative complies fully with the terms of the ABM Treaty; and

8. to ensure that the aim of extending the transatlantic two-way street must also be pursued with regard to research efforts by the United States.

Mr. MATHIAS. I would also, Mr. President, ask unanimous consent to have printed in the RECORD copies of certain press reports which may be helpful to those who have not followed on a day-to-day basis the unfolding of this story: One which appeared in the Washington Post on the 17th of October, a story written by Don Oberdorfer; one which appeared in the Washington Post on the 18th of October, with respect to the ABM missile interpretation; and, finally, one which appeared on the 22d of October, also written by Don Oberdorfer.

[1] Presented directly to the Plenary Assembly at the request of the President by Mr. John Cartwright (SDP, United Kingdom) and Senator Charles Mathias (Republican, United States), amended, and adopted.

There being no objection, the articles were ordered to be printed in the RECORD, as follows:

TOP-LEVEL FIGHT LED TO ABM POLICY SHIFT—SHULTZ PREVAILED IN "KNOCK-DOWN, DRAG-OUT MEETING" ON MISSILE DEFENSE TREATY

(By Don Oberdorfer)

Secretary of State George P. Shultz persuaded President Reagan to preserve key limits of the Antiballistic Missile Treaty in an emotionally charged meeting with a few top officials at the White House last Friday, administration sources said yesterday.

Reagan's decision, announced by Shultz in San Francisco on Monday, partially reversed a shift in policy announced a week earlier by White House national security affairs adviser Robert C. McFarlane and strongly advocated by Secretary of Defense Caspar W. Weinberger.

Shultz, McFarlene, Weinberger and Director Kenneth L. Adelman of the Arms Control and Disarmament Agency are reported to have been the only officials present with Reagan when a new ABM policy was formulated in what one administration source called a "knock-down, drag-out meeting."

CBS News reported last night that Shultz won the day after "a subtle threat of resignation" by the secretary of state was conveyed to the White House. A State Department spokesman quoted Shultz as saying the CBS account was "nonsense."

Backing up Shultz's appeal to Reagan, official sources said, were diplomatic messages of sharp concern on the ABM issue from the West German and British governments and the argument of Paul H. Nitze, the U.S. special arms control adviser, that a shift in U.S. policy on the ABM Treaty at this time would cause a storm among U.S. allies and arms control advocates in Congress on the eve of the U.S.-Soviet summit meeting.

The topic at issue was the legal interpretation of the 1972 ABM Treaty, which the United States for 13 years has construed as limiting testing and development of antiballistic missile systems based on exotic technologies such as lasers and directed energy weapons. Many elements of Reagan's Strategic Defense Initiative, or "Star Wars" program, are based on such exotic technology.

A new Pentagon legal study, endorsed by State Department legal adviser Abraham D. Sofaer, argued that the Soviet negotiators in 1969-72 never accepted the limits on exotic technology as they would apply to Star Wars and that therefore the United States was not bound to do so. This position, which has not yet been formally accepted within the administration, was unexpectedly made public by McFarlane on NBC's "Meet the Press" Oct. 6 and affirmed as administration policy in a White House background briefing two days later.

Retired ambassador Gerard C. Smith, who negotiated the ABM Treaty for the Nixon administration, charged that the new interpretation was erroneous and would make "a dead letter" of the treaty.

Friday's White House meeting took place as Shultz prepared to speak Monday to the San Francisco meeting of legislators from NATO countries, who had sharply questioned NATO Secretary General Lord Carrington and Lt. Gen. James A. Abrahamson, director of the SDI program, about the ABM shift. Shultz was also preparing to fly from San Franciso to Brussels to see NATO foreign ministers, who were showing signs of dismay about the new ABM stance.

As a result of the White House meeting, Shultz was able to tell both gatherings that Reagan had decided to continue to conduct the SDI program "in accordance with a restrictive interpretation" of the ABM Treaty even though the administration believed the new interpretation advanced by the Pentagon was "fully justified."

In effect, Shultz said that Reagan agreed with the new legal interpretation, which would allow virtually unrestricted testing and devleopment of Star Wars, but would continue to pursue the program under greater restrictions as a measure of voluntary self-restraint.

Shultz did not specify how long the self-restraint would continue, though he suggested it would not end soon. He told a Brussels press conference, for example, that "we have designed our research program to fall within the narrower definition of the ABM Treaty's provisions, and we intend to keep it that way."

Assistant Secretary of Defense Richard N. Perle, whose office originated the new legal interpretation of the treaty, indicated yesterday that Reagan's decision to abide by the previous restrictive interpretation was temporary.

Perle told reporters that "with respect to the future, it remains to be seen" whether the United States will continue to accept an interpretation of the treaty that rules out full-scale testing and development of space-based antimissile systems.

Asked if the Soviets would be "well within their legal rights" to proceed with research, testing and development of exotic ABMs now that Reagan has decided that restrictions on such activity have no legal standing in the ABM Treaty, Perle replied, "That's correct." When a reporter asked if this were a desirable position from the U.S. standpoint, Perle replied, "It's a realistic position."

[From the Washington Post, Oct. 18, 1985]

REAGAN FINESSES CONFLICT OVER SDI, MISSILE TREATY

President Reagan, glossing over an apparent policy conflict between two top advisers, said yesterday that the objective of his missile-defense plan can be achieved without violating the 1972 Antiballistic Missile Treaty.

"Everything we're doing is within the context of the treaty," Reagan said while posing for pictures in the Oval Office with Israeli Prime Minister Shimon Peres.

The declaration came amid apparent differences between national security affairs adviser Robert C. McFarlane and Secretary of State George P. Shultz over what limits, if any, the United States accepts on its Strategic Defense Initiative, popularly known as "Star Wars."

At the center of the controversy was an Oct. 6 statement by McFarlane that the administration, relying on a broad intrepretation of the treaty, believed SDI testing and development are authorized by the ABM pact. Reagan has made similar statements on numerous occasions.

Eight days later, Shultz assured North Atlantic Treaty Organization allies that SDI work would "be conducted in accordance with a restrictive intrepretation of the treaty's obligation." He did not explain what restrictions were recognized.

However, White House spokesman Edward Djerejian yesterday denounced "inaccurate reports in the press" that McFarlane and Shultz have been at odds over interpretation of the treaty.

Reagan's interpretation of the ABM Treaty provoked outrage yesterday from a cluster of Senate conservatives, who said the administration's narrower view would prevent full development of the U.S. strategic defense program. Several suggested that they might withdraw support from SDI unless full research, development, testing and deployment is permitted.

Arms control advocates, including ABM Treaty negotiator Gerard Smith, say the pact imposes clear limitations on testing and development—the phase between basic research and deployment.

In a related development, Djerejian added a new dimension to the debate and then came back later to try to clarify it.

He first appeared to link congressional support for the SDI program and the ability to adhere to treaty obligations in its development.

Three hours later, Djerejian said that while funding from Congress "is not a condition for U.S. treaty interpretation," adequate support from Congress would render moot the concern on Capital Hill and among U.S. allies about treaty compliance.

As now structured, Djerejian told reporters, the course charted by Reagan "can permit us to answer the technical questions necessary while being accommodated under even the more restrictive interpretation of the treaty."

ABM REINTERPRETATION: A QUICK STUDY—YOUNG LAWYER'S NEW LOOK AT 1972 PACT TRIGGERS CONTROVERSY

(By Don Oberdorfer)

Early last month, in what might have seemed just another document review by just another government lawyer, the Defense Department asked former New York assistant district attorney Philip Kunsberg to read the fine print of one of the most important arms control agreements between the United States and Soviet Union—the Antiballistic Missile Treaty of 1972.

Kunsberg, 35, whose background includes battles against "pornographers and the Mafia but no arms control experience, spent less than a week studying secret records of the ABM negotiations. His conclusions, outlined in a 19-page report, have triggered an uproar in Washington and Moscow by leading to a reinterpretation of the treaty—and reversing the legal positions of four U.S. presidents, including President Reagan—to allow nearly unlimited development and testing of the components of Reagan's Strategic Defense Initiative, the so-called "Star Wars" shield against nuclear missiles.

What seemed at first glance to be an obscure issue of treaty interpretation—intriguing mostly to lawyers—has become a central question affecting the future of U.S. arms policy, Star Wars and the summit meeting next month between Reagan and Soviet leader Mikhail Gorbachev.

The Kunsberg conclusions, modified and embraced as administration policy, strikes at the heart of the Soviet Union's preeminent objective at the summit and arms talks under way in Geneva—curbing the U.S. strategic defense program. The Soviets have described such curbs as their essential requirement for any superpower agreement in limiting offensive nuclear missiles.

Kunsberg's unlikely entrance into global power politics began last spring when he was hired as a Pentagon staff lawyer by Fred C. Ikle, undersecretary of defense for policy, and Richard N. Perle, assistant secre-

tary for international security policy, both Star Wars advocates. One of his first tasks in early May was to analyze the ABM Treaty to gauge its impact on strategic defenses.

The traditional interpretation of the treaty accepted by the United States since its signing and ratification by the Senate during the Nixon administration—and repeated in reports to Congress by every administration since—had been that the pact bans "testing" and "development" of mobile and space-based ABM weapons based on "new physical principles" such as laser beams, directed energy weapons and the other exotic technology of Star Wars.

The ban is not flatly stated in the treaty but is based on the cumulative evidence of several phrases and statements, some ambiguous. Reagan, in unveiling his SDI dream on March 23, 1983, had promised that Star Wars would be conducted "consistent with our obligations" under the ABM Treaty.

Nevertheless, trying to fit Star Wars within the treaty restrictions had became increasingly problematic as the U.S. program moved closer to a phase requiring technical testing of potential components. In April the administration offered an interpretation of the treaty that distressed arms control advocates. In a report to Congress, the Pentagon argued that major Star Wars tests planned in coming years would involve only restricted "subcomponents" of systems, or would be tested against satellites in space instead of incoming rockets, and thus not violate ABM stipulations.

As Kunsberg began his review, however, he was "astonished by the rather large gap between what the treaty said and what was attributed to it," according to a source familiar with Kunsberg's thinking. His suggestion that the treaty might allow even more room for Star Wars was followed by a request from Perle in early September to have Kunsberg examine more closely the record of treaty negotiations in order to evaluate the backing for the widely accepted restrictions on "exotic" ABM systems such as those now contemplated for U.S. strategic defenses.

There was no doubt, according to Kunsberg's subsequent report, which included extracts of the negotiating record, that the United States had sought a tight ban on "exotic" ABM systems of the future except for those (unlike Star Wars) in a fixed land-based mode. But Kunsberg concluded that the Soviets had never agreed and, to the contrary, consistently rejected the broad ban advocated by the United States. Kunsberg did not interview any of the U.S. negotiators, but drew his conclusions from the written record.

Perle "almost fell off the chair" when presented with Kunsberg's report, the assistant secretary later remarked. Suddenly most of the problems posed for future Star Wars "testing" and "development" by the ABM Treaty seemed of doubtful validity, and Kunsberg's analysis even questioned whether Star Wars "deployment" would be curbed by the treaty.

Perle and the Defense Department lost no time in presenting their dramatic new findings about the ABM Treaty restrictions to an interagency committee. The new Pentagon position seized the attention of officials concerned with arms negotiation policy, who quickly understood the large-scale significance of the "new interpretation" for SDI, the ABM Treaty and U.S.-Soviet relations on the eve of the summit.

Secretary of State George P. Shultz called in the newly installed State Department legal adviser, Abraham D. Sofaer, 47, who came to Washington this summer after six years as a U.S. District Court judge in New York City. Charged by Shultz with studying the issue, Sofaer began his review of the negotiating record as maintained in Foggy Bottom. In addition, he held lengthy discussions with Paul H. Nitze, the administration's senior arms control adviser and the only senior member of the 1972 ABM negotiating team still in government.

Sofaer found the Pentagon report to be more opinion than analysis but, after several all-night bouts of study, reached a conclusion close to that of the Defense Department. He concluded that the U.S. negotiating team had tried—but failed—to convince the Soviet Union to ban future "devices" which might be invented to do the antimissile job.

Sofaer also concluded that while the treaty does not ban testing or development of space-based futuristic ABM systems, unlike the Pentagon he concluded it does ban their "deployment."

Sofaer's conclusions were reported to Nitze and Shultz in a series of memos, the most extensive and authoritative of them on Thursday, Oct. 3.

The following day, Oct. 4, the administration's high-level Special Arms Control Policy Group (SAC-G) met to discuss the issue at the White House under chairmanship of White House national security affairs adviser Robert C. McFarlane. During this meeting, according to informed sources, Pentagon representatives accepted Sofaer's position, rather than their broader one.

The discussion moved toward acceptance of the Sofaer position as new government policy, several sources said, though no formal agreement was reached. There are conflicting reports about whether there was a consensus around the table.

Toward the close of the late-afternoon meeting. McFarlane ordered a new position paper written to discuss a new legal position on the ABM Treaty that relieves the United States of most of the restrictions on Star Wars. At least some of those present expected to thrash out the issues further in connection with preparation of this paper.

All this had taken place in secret, without the knowledge of even well-informed people outside government. Last month, when the former counsel to the ABM Treaty negotiations, John D. Rhinelander, was asked by a journalist about rumors of a new treaty interpretation, he advised his caller that "this is too ridiculous to take seriously" and promptly forgot about it.

The shift became public in a way that is still a puzzle to many in government, on a "Meet the Press" interview with McFarlane Oct. 6. In response to a question from Marvin Kalb which did not mention the ABM Treaty, McFarlane volunteered the view that "testing" and "development" of ABMs based on "new physical concepts" is "approved and authorized by the treaty" rather than banned.

This startling pronouncement by a high official, almost a 180-degree reversal of the longstanding U.S. position on the treaty, was a shock to the ABM Treaty's negotiators and other arms control advocates, to U.S. allies in Europe and arms control-minded members of Congress.

When Gerard C. Smith, chief negotiator of the 1972 treaty and a well-respected veteran of six administrations, learned that McFarlane's pronouncement was a serious expression of policy rather than a mistake, he denounced the new interpretation as erroneous and said it would "make a dead letter" of the ABM Treaty.

In an interview, Smith questioned "the whole idea of searching the [negotiating] record" for the meaning of the treaty. He said that, while some of the final language was "not the best," it was clear to him and other U.S. negotiators that the Soviets explicitly agreed to tight limits on future "exotic" ABM systems such as those envisaged in the Strategic Defense Initiative.

Smith said the most important negotiations on this point took place in a "working group" headed by Sidney Greybeal for the United States and a then little-known Soviet official named Viktor Karpov, who went on to be chief strategic arms negotiator for Moscow in 1979-83 is chief Soviet negotiator at the current offensive and space arms talk in Geneva.

Greybeal was reported by Smith and others to be certain that the Soviets clearly agreed in the working group to ban "testing" and "development" of space-based and other "mobile" ABMs based on exotic technology. (Greybeal declined to be interviewed on this matter.) Prof. Albert Carnesale, a dean of the John F. Kennedy School of Politics at Harvard University, who was a member of the Greybeal-Karpov working group, said in an interview that his understanding at the end of the negotiations was that space-based exotic weapons could not be tested or developed.

"Any other interpretation doesn't make sense," Carnesale said.

Retired Lt. Gen. Royal B. Allison, who was the senior military official on the U.S. ABM negotiating delegation, said in an interview he was deeply involved in the discussions of this issue because the Joint Chiefs of Staff were determined to leave room for "research and research-testing" in case "exotic" ABMs such as lasers could someday be developed.

"Nowhere did I understand that we retained the right to development and full-scale testing of new systems," Allison said. He added, "I didn't have any doubt in my mind as to what the Soviets had approved. If there had been any doubt you can be sure we would have announced it."

Of the members of the former U.S. negotiating team, only Nitze was consulted by Kunsberg, Sofaer or other U.S. officials in connection with the reinterpretation of the ABM Treaty. Sofaer's position is that the U.S. negotiators may have sincerely believed they had a Soviet agreement, but that the record is devoid of evidence to that effect.

Sofaer has also said, though, that the record is incomplete: new documents were still coming to light even after his report that galvanized the government.

Nitze's position, as a senior official of the Reagan administration, was the most important to the internal deliberations. Nitze declined to make a public statement of what he believed the treaty to provide when it was signed in 1972 or what he has come to believe now.

However, sources close to him said Nitze is now convinced that the Soviet delegation rejected U.S. efforts to ban "testing" and "development" of exotic ABMs, though they did agree that "deployment" would have to be negotiated by the two sides.

From the beginning of the internal debate six weeks ago, Nitze is reported to have taken the position that, legalities aside, the most vital job of the administration was to "keep faith" with the interpretation of the treaty previously presented to U.S. allies, Congress and the public. Nitze appears to

51-059 O-87-13 (Pt. 21)

have been the driving force behind Shultz' proposal, ultimately accepted by Reagan in a showdown White House meeting Oct. 11, that the "new" ABM interpretation be accepted by the administration as a matter of law, but that the "old" ABM interpretation restricting Star Wars testing and development be retained as a matter of administration policy.

The final decision, signed by Reagan according to official sources, did not say how long he would continue to observe the "old interpretation." Since it is now judged to be valid only as a matter of presidential policy, rather than as treaty law, it could be presumably be abandoned whenever convenient.

The Soviet Union, which had little to say as the "new interpretation" of the ABM Treaty became a matter of public debate in Washington, began to warm to the subject late last week.

The chief of the Soviet general staff, Marshal Sergei F. Akhromeyev, accused the Reagan administration of "deliberate deceit" in reinterpreting the ABM Treaty. In a Pravda article, Akrohmeyev charged McFarlane with having "distorted the essence of the treaty" by "trying to substantiate the lawfulness of experiments" that would lead to a space-based ABM.

Among the several mysteries remaining about the administration's reinterpretation of the 1972 treaty is why the issue came to the fore now, when the Star Wars program is still about five years away from breaking though the bounds of the treaty as previously interpreted, at least as the treaty's prohibitions have been applied by the Reagan administration.

Some of the advocates of the new interpretations said the timing was essentially a coincidence caused by the "fresh look" at the evidence by the two new government lawyers. Others, including a senior White House official, said the issue arose now because "people are staking out their gound" for the long term before the Reagan-Gorbachev summit.

Some in the administration are "very nervous" that Reagan might agree to some restraints on SDI in his meeting with Gorbachev and are moving to forestall such a possiblity by reinterpreting the ABM Treaty now, this official said.

On the other, and at the moment the losing side, the official said, are those who still hope for compromise with Gorbachev on SDI as the essential building block of a broad U.S.-Soviet agreement.

WARSAW PACT LEADERS GATHER

(By Jackson Diehl)

SOFIA, BULGARIA, October 21.—Soviet leader Mikhail Gorbachev and other top Eastern European officials arrived here today for a Warsaw Pact summit meeting Tuesday and Wednesday that is expected to produce an endorsement of Soviet arms control proposals prior to Gorbachev's talks next month with President Reagan.

Official reports said the meeting would focus on arms control and might produce new proposals by the Warsaw Pact.

"The session will adopt decisions that will strengthen the constructive stands of the socialist countries for a new, powerful and irreversible revival of detente in international relations," a dispatch of the official Bulgarian news agency said.

Western diplomats here said the session was expected to produce a communique endorsing recent Soviet arms proposals and echoing Moscow's call for a ban on space-based weapons. It may also take up the issue of economic relations, including Soviet demands for closer cooperation and larger economic contributions from its allies, western sources said.

Mr. MATHIAS. Mr. President, I think the Senator from Rhode Island has called attention to an extremely important chapter in the evolving history of American security policy and our entire international relationship within NATO.

And it is an instructive story. It is happily a story that has a successful ending. I think that is one of the reasons we ought to call attention to it although it was a story which did not need to be written. But we can derive some good from it. It has a successful and a happy ending because we returned to our firmly set lines of policy. The lesson that we can draw is that we should not deviate in such an impulsive manner again and without consultation within the Alliance because we may not be as lucky the next time.

I thank the Senator from Rhode Island.

Mr. CHAFEE. Mr. President, first of all, I would like to thank the distinguished senior Senator from Maryland for that excellent statement. The Senator was at the NATO Assembly meeting in San Francisco, and I think modesty on his part caused him not to mention his role in reassuring the delegates to that Assembly regarding the U.S. position. Whereas, the Senator mentioned two Members of the House of Representatives—the Senator is one of the delegates—and, of course, from the Senate, did an excellent job in San Francisco as well.

Mr. President, I would like to say that those of us who had the chance to meet with the Foreign Minister of West Germany, Mr. Genscher, personally heard from him his concerns about this new interpretation, and his relief that the administration is sticking by the old interpretation. Let me just say that while I share the joy of the Senator from Maryland that this close call was averted, and we returned to the old interpretation, nonetheless, I do want to express once again my concern that there exists hanging out there the idea that the correct interpretation is the broad interpretation, but in practice we will come back to the old and restrictive interpretation.

It is my hope that this thing will be put to rest once and for all by the President, and the new sudden remarkable interpretation of Mr. McFarlane be rejected in its entirety.

Mr. MATHIAS. Mr. President, will the Senator yield for a moment?

Mr. CHAFEE. Yes.

Mr. MATHIAS. I agree with the Senator that there should be no doubt that the broader interpretation should be scotched right now. In one of the news reports which I just put into the RECORD there is a rather interesting history of how it came about largely as a result of the efforts of a young lawyer who never even discussed it with any of the veterans within the Government who participated in the negotiation of the treaty. I think it shows what shaky ground it is on.

I think that the San Francisco earthquakes that resulted from it should be a warning that we need to stick to our settled policy and not try these impulsive innovations.

Mr. CHAFEE. I could not agree with the Senator more.

Mr. President, there are others who will have statements. I ask unanimous consent that when those statements are submitted during the course of the day they could be placed in the RECORD along with a colloquy which the Senator from Maryland and I have participated in.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. STAFFORD. Mr. President, I am drawn to join with my colleagues in this colloquy over the interpretation of the 1972 ABM Treaty by my concern for the survival of this planet and of all who live on it.

I want once again to urge my President and the Congress to pursue every possible way of ending the global and suicidal arms race that threatens our very existence.

In particular, I want to reaffirm my support for the strict and traditional interpretation of the 1972 ABM Treaty that has been taken by every administration—including the administration of President Reagan—regarding the limitation of antiballistic missile weapons.

Detailed interpretations of the treaty and of the missile systems have been discussed at length this morning by several of my colleagues, who have made the arguments against a reading of the treaty that would be more permissive than the past policies of this Nation. I join with them in opposition to that more permissive reading.

Americans across this great land want an end to nuclear madness. They have been sending that message to Washington over the years, and with increasing urgency. Once again, the people are ahead of the politicians and it is about time for the politicians to pay heed.

It has been more than a third of a century since the first nuclear cloud cast its long and terrible shadow across our Earth. Somehow, we have managed to avoid global disaster, but our luck could run out any minute.

As our military technologies become more dependent upon the uses of computers and as they venture farther into the distant areas of outer space, our survival becomes more and more hostage to computer error and to the limits of our knowledge.

We already know that U.S. computer malfunctions have erroneously signaled a Soviet strategic attack hundreds of times in past years. Some of those errors reached the point where our strategic forces were ordered to increase their state of alert.

The threat of nuclear destruction by design, miscalculation, or accident grows with each passing moment. That is why I have supported a wide variety of nuclear arms control proposals over the last decade.

Our planet has become an endangered species. The two most powerful nations have the power not only to destroy each other, but also to wipe out all of our past achievements and to leave the future to a blackened, incinerated world.

Still, each side continues to add to stockpiles that already are many times greater than required to destroy each other.

As an American, I continue to believe that we must maintain a national defense inferior to no other—a military strength powerful enough to deter any attack from any adversary.

But a senseless arms race will not provide us with national security. Instead we are weakened by the terrible cost of these weapons, in terms of our tax dollars and of our sense of well-being.

The recently revealed more permissive interpretation of the ABM Treaty threatens not only that treaty, it threatens the entire network of arms control agreements between the United States and the Soviet Union.

It also threatens to harden—perhaps to poison—the important circumstances under which we seek to work out new arms control agreements.

No one has to convince me that arms control will not produce disarmament—not tomorrow or, probably, not a decade from now.

Arms control will not eliminate the need for our Nation to maintain a strong defense. It will not eliminate the need for military forces second to none. It will not eliminate the need for massive defense spending.

Nor will an arms control agreement end the international distrust and competition—real and imagined—between the United States and the Soviet Union.

But those prospects should not diminish our determination to seek effective arms control agreements. Such agreements are in our own self-interest.

We should seek to end the arms race because that goal serves our interests, not because we seek to serve any Soviet interests.

I have the sense that the people of America understand this better than American leaders do. I have the sense that Americans want our President to be serious in his quest to seek arms control agreements with the Kremlin.

It seems to me that a conviction is growing that since we have developed an ability to destroy all mankind, we should also be able to develop the ability to save mankind.

This issue is too important to be left to international lawyers looking for loopholes in treaties.

The ABM Treaty is of vital importance to peace on this planet.

The United States is strong enough and secure enough to continue its strict interpretation of that treaty. It is in our interest to stick to that interpretation because it is the one treaty that has helped to limit the arsenals of war of each side.

We must stick by the treaty. We must not abandon that treaty.

Common sense requires that we dare to reduce—and not to increase—the dimensions of the dangers we all face.

PRESERVING THE ABM TREATY PRESERVES U.S. SECURITY

Mr. BUMPERS. Mr. President, it was 23 years ago this week that the United States was in the midst of the most serious crisis of the postwar era. The Cuban missile crisis was our closest brush with the threat of thermonuclear war. I know I speak for all in this Chamber when I say that we fervently hope that this country we all love never comes that close to catastrophe again.

It is often true in life that good can come from terrible events, as mankind learns from such experiences. And so it has been in the nuclear age. Reeling from two atomic bombs, Japan sued for peace, sparing the lives of many hundreds of thousands of American and Japanese lives alike. Our nuclear deterrent has helped keep the peace in Europe. And the Cuban missile crisis galvanized the superpowers into a burst of arms control activity that has benefited the world. In 1963, the United States and Soviets signed the limited test ban. In 1970, the Nonproliferation Treaty went into effect. And there were many more agreements. But of all these, perhaps the most important achievement was the Antiballistic Missile, or ABM, Treaty.

The ABM Treaty was and is of preeminent importance for U.S. security. It recognizes what experience has taught us, that attempts to defend against nuclear weapons, no matter how well-intentioned, only result in greater insecurity. Just look at the Soviet experience in strategic defense. After spending many billions on a primitive ABM system in the 1960's, they found themselves far worse off.

For a fraction of what the Soviets spent, the United States developed multiple warhead missiles that could overwhelm the capabilities of that early ABM system; and it can overwhelm its present-day successor. The United States also developed other penetration aids to further increase our capabilities. And just to be sure, we developed a maneuvering reentry vehicle, or MARV, warhead for our Trident I missiles. This Mark 500 Evader MARV, which we have not deployed but can if we believe it necessary, gives us further insurance against Soviet ABM developments. And this year, as in past years, we are authorizing many tens of millions of dollars on new penetration aid techniques for our strategic missiles.

Look at Soviet efforts in bomber defenses. After spending literally hundreds of billions on strategic air defense over the last couple of decades, the Soviet air defense system still cannot stop the great majority of our bombers and cruise missiles from reaching their targets, as our Strategic Air Command officials attest. New Soviet air defense developments will be more than met by new U.S. cruise missiles, Stealth technology, new radar jammers, and a host of other countermeasures.

Look at the Soviets' own offensive programs. As we increasingly become able to target fixed Soviet ICBM's, they are now moving toward mobile ICBM's. As U.S. antisubmarine warfare technology improved, the Soviets developed longer range submarine-based missiles and base them in safer waters closer to home.

Even the other nuclear powers have gotten into the act. The British responded to a possible Soviet ABM with their chevaline penetration aid package. The French are deploying more survivable submarine-based missiles, and putting multiple warheads on their newest M-4 submarine missiles. Indeed, just recently, the director of France's Atomic Energy Commission, Jacques Chevalier, stated that France can develop warheads in the 1990's that will be able to defeat strategic defenses. And now the Chinese are deploying submarine-based missiles, and I'm sure that multiple warheads for them are not far behind.

In short, measure begets countermeasure. This is as true in the nuclear era as it was in eras past. The ABM Treaty recognizes this fact of life and embodies the only sensible formula for stability. If we had not signed the ABM Treaty with the Soviets in 1972, we would today be engaged in an arms competition that would make today's situation look tame by comparison. Those who believe that we would sit quietly by while the Soviets tried to develop and deploy a defense against our missiles and bombers are ignoring 40 years of experience in the nuclear age. Likewise, I have no doubt that the Soviets will spare no expense to counter a United States ABM system to assure the credibility of their deterrent.

There are those who argue that the ABM Treaty is immoral, that it sactions the holding of populations hos-

tage to nuclear annihilation. I would respond that their quarrel is not with the ABM Treaty, but rather with 40 years of U.S. policy, the foundations of the NATO alliance, and with simple strategic realities. Until we can find a very high confidence defense against nuclear weapons, it would be immoral to consign the world to the kind of horrendously destabilizing arms race that we just barely chocked off in 1972.

The desire to defend against nuclear weapons is understandable. It is a natural human reaction to a threat. But the nuclear threat is different than any mankind has ever faced. As Einstein put it many years ago,

> The unleashed power of the atom has changed everything save our modes of thinking, and we thus drift toward unparalleled catastrophes.

Mr. President, the Senate should take note of the statement made recently by six former Secretaries of Defense, representing both Democratic and Republican administrations, to "avoid actions that would undermine" the ABM Treaty. Harold Brown, James Schlesinger, Eliot Richardson, Melvin Laird, Clark Clifford, and Robert McNamara stated that "this international agreement of unlimited duration makes an important contribution to American security and to reducing the risk of nuclear war."

There is broad, bipartisan support in the Senate for a prudent level of research on ballistic missile defense technology, including on exotic technologies. I support such research. But it makes no sense to undo the ABM Treaty, especially when the research needed to achieve a high-confidence defense against Soviet missiles and bombers has not been identified, much less studied.

It was particularly disturbing when the President's National Security Adviser, Robert McFarlane, recently announced that the United States had the right under the ABM Treaty to conduct not only research but also development and testing of exotic new weapons, contrary to over 13 years of U.S. policy pronouncements on the matter. I am pleased that President Reagan has decided to conduct the SDI Program "in accordance with a restrictive interpretation" of the ABM Treaty. Amazingly, however, the administration asserts that the interpretation advanced by McFarlane was fully justified.

This stance shows disregard for the Senate and damages U.S. security interests. It shows disregard for the Senate because the Senate clearly understood, when it ratified the ABM Treaty in 1972 by the overwhelming vote of 88-2, that exotic technologies would be subject to the same general limitations as conventional ballistic missile defense technologies. Indeed, one of the two dissenting Senators, Senator James Buckley, based his opposition to the treaty precisely on the fact that exotic technologies such as high energy lasers would be too limited under the treaty, as he stated on this very floor on August 3, 1972.

This stance damages U.S. security because it leaves the door wide open for the Soviet Union to develop, flight test, and thereupon even produce exotic technology systems. We have now provided the Soviets with the justification to take actions which a year ago we would have branded as treaty violations. If we are going to continue as we have in the past, let's at least force the Soviets to do the same.

This strange stance also hurts our security because it puts added strain on our NATO alliance. The administration's position has caused consternation in the capitals of our NATO allies, who strongly support the ABM Treaty. We could do little more damaging to the NATO alliance than to disavow the ABM Treaty, and those who seek to weaken or even junk the treaty are dealing a grievous blow to NATO.

For these reasons, I call upon President Reagan to elicit from Soviet General Secretary Gorbachev a similar statement of understanding regarding testing and deployment of exotic ABM systems at the summit next month. Let's close this gaping loophole now, before damage is done to our security.

Mr. President, the ABM Treaty has been an important pillar of U.S. and NATO security for over 13 years now. It has prevented the Soviets from a major deployment of ABM systems, which we would have been forced to both counter and match at great cost. It has enhanced the credibility of our strategic deterrent, and those of Britain and France, thereby safeguarding the peace. It is crucial that the United States continue both its adherence to and support of the vitally important ABM Treaty and thus enhance our security in the uncertain years ahead.

THE UNITED STATES AND ABM TREATY

Mr. LEAHY. Mr. President, within 1 month, President Reagan and Mikhail Gorbachev will meet in Geneva to discuss the fate of nuclear and space arms negotiations.

It is by now no secret to anyone that the basis of a deal in Geneva rests on the willingness of the United States to trade the potential deployment of star wars systems for deep cuts in Soviet offensive forces.

The greater meaning of such a deal would be the preservation of the Anti-Ballistic Missile Treaty [ABM] and its strict limitations against deployment of mobile space-based, sea-based, air-based or ground-based systems.

Rather than accept such an outcome, star wars advocates within the administration have now begun to wage a guerrilla war against the ABM Treaty. Consistent with their efforts to have the United States abandon the provisions of the ratified SALT I and unratified SALT II treaties, they now insist that under the terms of the ABM Treaty, the United States can take unilateral action to develop and test space-based defensive systems.

The opening shot in the war of attrition against the ABM Treaty was fired by President Reagan's National Security Adviser, Robert McFarlane, on Sunday, October 6, when he appeared on NBC's "Meet the Press." During the course of the interview, he stated:

> . . . research, testing, and development of new defensive weapons involving new physical concepts are approved and authorized by the treaty. Only deployment is foreclosed.

Mr. President, Bud McFarlane's statement represented a fundamental departure of what we, in the Senate, have understood the administration's position to be with regard to the relationship between SDI and the ABM Treaty.

Last year, in a formal statement, the administration stated:

> The ABM Treaty prohibition on the development testing and deployment of space-based ABM systems or components for such systems applies to directed energy technology or any other technology used for this purpose. Thus when such directed energy programs enter the field-testing phase, they become constrained by these ABM Treaty obligations.

Mr. President, let's take a moment to examine the specific provisions of the ABM Treaty.

Article 3 of the 1972 treaty allowed a limited number of fixed land-based ABM's. Article 5 banned the development testing and deployment of "sea-based, air-based, space-based, or mobile land-based systems." the in "Agreed Statement D," the parties said they would discuss "specific limitations" on exotic new ABM systems if they were "created in the future."

Administration proponents of a broader interpretation of the treaty contend that Statement D permits new kinds of ABM systems unless the parties now agree to limit them.

Yet the American diplomats who negotiated the treaty have stated that "Agreed Statement D" provides the United States with no such rights.

In fact, according to Gerard Smith, the U.S. ABM negotiator, such a reading would make the ABM Treaty "a dead letter."

It is worth pointing out that Agreed Statement D itself begins by saying that its purpose is "to insure fulfillment of the obligations not to deploy ABM systems and their components except as provided in article 3."

Mr. President, it is fair to say that subsequent to Bud McFarlane's statement, a furor erupted within the administration and among our NATO allies about our intentions.

A week later, Secretary of State Shultz clarified the administration's

thinking by stating that the United States will continue to limit testing and development of our star wars program according to a "restrictive interpretation" of the 1982 ABM Treaty, even though it has decided that "a broader interpretation of our authority is fully justified."

Mr. President, just what does the Secretary mean by a restrictive interpretation? Are we going to strictly abide by the terms of the ABM Treaty or are we going to exploit its loopholes for our advantage? How long will the administration be bound by a restrictive interpretation? These are questions that deserved to be answered.

In my view, these ambiguities must be forcefully resolved. The United States should formally commit itself to continue to observe the spirit and letter of the ABM Treaty so long as the Soviet Union does the same.

The Geneva summit will be doomed to failure if the United States does not clearly signal its willingness to trade SDI deployment for deep cuts in Soviet offensive forces.

Such an offer cannot be treated seriously if the integrity of the ABM Treaty is jeopardized.

Mr. KERRY. Mr. President, 13 years ago, this body voted to ratify the ABM Treaty by a vote of 88 to 2. Since that time, the ABM Treaty has been the cornerstone of arms control.

As I have said many times before in this Chamber, I believe it is as clear as day that the President's Star Wars Program is absolutely incompatible with the continuation of the ABM Treaty and indeed is on a collision course with both that treaty and any limits on the nuclear arms race between the United States and the Soviet Union.

However, the recent attempt by some in the Reagan administration to radically redefine the ABM Treaty to permit the testing and development of laser, particle beam and other developing ABM technologies would accomplish the demise of the ABM Treaty with greater speed and certainty than I think any of us could have anticipated as recently as this spring when we considered limits on the SDI Program.

Indeed, I believe the demise of the ABM Treaty is exactly what those who seek to reinterpret the treaty at this time seek to accomplish. It is absolutely clear that the treaty cannot fairly be read in the way that some within the Reagan administration are urging it be read. Any fair reading of the legislative and negotiating histories of the treaty make it unambiguously clear that it absolutely bars the development, testing, and deployment of all nonfixed land-based ABM systems and components.

The United States has followed that interpretation of the treaty since the day it was signed by President Nixon. It was that interpretation of the treaty that was presented to the Senate Foreign Relations and Armed Services Committees by the Government of the United States.

It was that interpretation of the treaty that was relied on by the U.S. Senate when it ratified the ABM Treaty by a vote of 88 to 2.

That interpretation of the treaty remains the only interpretation accepted by NATO allies, and they remain firmly opposed to any other interpretation of the treaty.

The Soviet Union has unambigiously stated that it recognizes that the treaty prohibits the development and testing of nonfixed land-based ABM systems of all kinds.

The chief negotiator of the SALT I Treaty, Gerard Smith, has stated that any other interpretation of the treaty is erroneous. Other U.S. officials directly involved in negotiating and drafting the treaty, including John D. Rhinelander, former counsel to the ABM Treaty negotiations, Prof. Albert Carnesale of Harvard, who was a member of the ABM working group that drafted the language of the treaty, and retired Lt. Gen. Royal B. Allison, the senior U.S. military official on the ABM negotiating delegation, have agreed that they had no doubt that the United States and the Soviet Union gave up the right to testing and development of all nonfixed land-based ABM systems, including those based on new physical concepts other than those used by existing systems.

Even the Reagan administration has issued numerous statements agreeing with this interpretation of the treaty.

The following is from the 1982 Arms Control Impact Statement of ACDA:

> The ABM Treaty bans the development, testing and deployment of all ABM systems and components that are sea-based, air-based, space-based, or mobile land-based. In addition, although the Treaty allows the development and testing of fixed, land-based ABM systems and components based on other physical principles (such as lasers or particle beams) and including such fixed, land-based components capable of substituting for ABM intercept missiles, ABM launchers, or ABM radars, the Treaty prohibits the deployment of such fixed, land-based systems and components unless the Parties consult and amend the Treaty.

As ACDA recognized in 1982, "unless otherwise amended, the ABM Treaty prohibition applies to directed energy technology, or any other technology, used for this purpose. Thus, when such DE programs enter the field testing phase they become constrained by these ABM Treaty obligations."

This statement was reiterated by ACDA in its 1983 arms control impact statement and its 1984 arms control impact statement.

It is understandable that ACDA has interpreted the treaty this way. Gen. Bruce Palmer, acting Army chief of staff told the Senate Armed Services Committee in 1972 that the treaty "did not prohibit the development of new technologies in the fixed, land-based ABM systems. We can look at futuristic systems as long as they are fixed and land based."

As General Palmer recognized, the ABM Treaty permitted further developments in fixed, land-based development and testing by both sides, short of deployment, but explicitly banned such developments in nonfixed land-based systems and components in article V, section 1, which contains the prohibition.

As Secretary of State Rogers told the House Foreign Affairs Committee in its hearings on the treaty in 1972:

> We and the Soviet Union have agreed not to develop, test our deploy: First, ABM systems or components that are sea based, air based, space based, or mobile land based; second, automatic or semiautomatic or other similar systems for rapid reloading of ABM launchers; third, an intercepter missile with more than one independently guided warhead; and fourth, an ABM launcher capable of launching more than one interceptor missile at a time from each launcher, or to modify launchers to give them such a capability.

Secretary Rogers told the committee:

> Such undertakings are important. It may be of ever greater importance that both sides have agreed that future types of ABM systems based on different physical principles, for example, systems depending on such devices as lasers, that do not consist of ABM interceptor missiles, launchers, and radars, cannot be deployed even in permitted areas. So there is a limitation on what may be employed in the ABM systems now in operation and it prohibits the deployment of new esoteric systems in these areas.

As Senator James Buckley told his colleagues in this body on August 3, 1972:

> The agreement goes so far as to prohibit the development, test or deployment of sea, air or space based ballistic missile defense systems. This clause, in article V of the ABM treaty, would have the effect, for example, of prohibiting the development and testing of a laser type system based in space." According to Senator Buckley, who favored the development and testing of such systems, the technological possibility has been formally excluded by this agreement.

So I think it is pretty clear, based on the statements of Ambassador Smith, ACDA, Secretary Rogers, Senator Buckley and so many others intimately involved with the process of negotiation and ratifying SALT I that the treaty did in fact ban development and testing, as well as deployment, of nonfixed based systems regardless of the nature of the technology involved.

It is important this body declare itself firmly opposed to those in the Reagan administration who have advanced the proposition that the United States should suddenly adopt a different interpretation—contrary to the negotiating history and contrary to the common understanding

through five administrations, including this one prior to the month of October 1985.

What would be the results if the new reinterpretation sought by some members of the administration were to be adopted by the United States?

First, the treaty's ban on a nationwide ABM defense, a base for such defense, and a regional ABM defense would remain for traditional ABM technologies, but would be eliminated for exotic technologies. This is because some members of the administration have interpreted that article V(1) and other articles in the treaty do not apply to exotic systems, and that only agreed statement D blocks their deployment. But agreed statement D only requires the United States to discuss exotic systems. Hence, if one concluded that agreed statement D was the only part of the treaty covering exotic systems, one logically has to decide that the United States and the Soviet Union have the right under the treaty to go ahead and deploy exotic systems any time they want to, so long as they "discuss it" first.

Second, the language "currently consisting of" in article II(1), to describe what ABM systems and components are covered by the treaty, would have to be ignored as surplusage, words with no meaning, since the treaty had now been read to refer only to those types of ABM systems that existed at the time it was signed.

Third, the United States could test mobile or space based exotic systems at its will, without any restrictions, since the restrictions on ABM testing which limit those tests to the designated test sites—for the United States, the Kwajalein site—only would apply to fixed, land-based ABM launchers, missiles and radars.

Fourth, the United States could transfer exotic ABM technologies to other States, such as our NATO allies, and deploy them in Europe, since the prohibitions in article IX of the ABM Treaty against transfering such systems to other States would apply only to traditional technology and not to exotic systems.

This is a dramatic shift from what had always been understood by both the United States and the Soviet Union as what was permissible under the ABM Treaty. Indeed, even the Reagan administration had always acknowledged that we could not test ABM components or systems except within the limits of fixed, land-based testing at the ABM test sites. For this reason, the SDI Program has been designed ostensibly to avoid such tests. Instead, the SDI Program has identified its demonstration projects as constituting tests of subcomponents and adjuncts—terms which have never been publicly defined, and which are not used in the treaty.

Last May, during consideration of an amendment to the DOD authorizations bill to stop funding for the demonstration projects, I articulated why I believe that many of these demonstration projects erode or violate the treaty—chiefly because the tests of subcomponents and adjuncts appear to constitute tests of prototypes of nonfixed land-based ABM components. The Department of Defense has acknowledged that tests of prototype ABM components of these types are prohibited by article V(1) of the treaty, forbidding testing and development of such components.

The new interpretation of the treaty, however contrary to the treaty's legislative and negotiating history, would eliminate the problems of treaty compliance I discussed by doing an end run around them and asserting that the treaty prohibitions just don't cover these new types of ABM's.

This demonstrates great creativity on the part of those in the Reagan administration who have no use for the ABM Treaty, and is evidence of their recognition that the SDI Testing Program as currently constituted and the ABM Treaty are fundamentally incompatible.

The new interpretation of the treaty is creative enough, but it is also unjustified by history, logic or good faith, and the Senate should demonstrate its desire that the fixed interpretation of the treaty adopted by President Nixon, and retained under Presidents Ford, Carter, and over the first term of President Reagan remain the national policy of the United States.

We must stand up in support of the treaty as it has always been understood, because if we fail to do this we undermine not only the ABM Treaty but the process of arms control and our national security. It is ludicrous to believe that the Soviet Union will sign another treaty with the United States to limit offensive weapons while we retain the right to go ahead with unlimited testing and development of star wars components in the air, on the sea, and in space. It is also dangerous to assume that our vital relationships with our NATO allies will also be unaffected.

We have all read the reports about the devastating reaction in Europe to the proposed reinterpretation of the treaty. Our allies recognize the value of the ABM Treaty—they have profound fears about the effect of the deployment of star wars systems on their own security—and I fear deeply for the strain on the alliance if we continue to go forward full speed ahead with this program regardless of the limitations contained on the face of the ABM Treaty.

Since SDI's inception, the program has caused serious strains on the NATO alliance. These strains began when our allies were not told about the President's speech of March 23, 1983 ahead of time. They continued as Europeans wondered what the effect of defensive systems would have on the NATO nuclear umbrella, the French and British nuclear forces, and the doctrine of flexible response.

If one assumes that SDI can produce a 99-percent effective defense of the United States, one must assume that the Soviets will also be able to develop or steal a 99-percent effective defensive system.

If both sides have a shield that protects the population, that means that both sides will have a shield to protect against tactical or intermediate range nuclear weapons as well. And Secretary of Defense Weinberger has testified that our SDI Program will indeed protect our European allies against tactical or intermediate range nuclear weapons.

So in a world where star wars systems were 99 percent or more effective, nuclear weapons would have little or no military use. At that point, we no longer have either a nuclear umbrella or an option of flexible response—Europe can only deter the Soviets from conventional attack through strength in conventional forces.

Presidential Science Advisor and SDI advocate George Keyworth has been quoted as saying that:

> A high probability conflict with acceptable consequences is preferable to a low probability global conflict with unacceptable consequences.

I think there are some questions we should be asking ourselves about such a statement.

Do we agree with Presidential Advisor Keyworth that increasing the probability of a conventional war in Europe by eliminating the United States nuclear umbrella is preferable for West Germany, or for any of our allies in Europe?

Is the United States prepared to increase its standing forces in Europe to help our allies defend themselves in a conventional war, if necessary? How will we pay for this, along with the major costs of deploying and maintaining all the star wars systems?

If Europe is threatened by conventional attack, and has no nuclear umbrella to protect it, doesn't this encourage attitudes among our allies which favor neutrality? If Europeans are forced to choose between the massive destruction of fighting World War II all over again, or neutrality, won't some in Europe make the choice to become neutral? Neutrality is cheap, neutrality reduces risks, even if it isolates the United States from Western Europe.

It seems to me that the solution to the problem of the Soviet conventional threat does not lie in star wars—

that star wars only makes the problem worse by eliminating the doctrine of flexible response developed by Secretary Schlesinger as a modernization of previous doctrines of deterrence. The solution, it seems to me, is twofold: on the one hand, NATO must be strong enough in its conventional forces to deter Soviet attack without requiring an early resort to nuclear weapons; and second, the United States should seek policies which reduces the tensions likely to bring about a land-war in Europe. Among those policies would be increasing our efforts to bring about mutual and balanced force reductions in Europe through negotiating a treaty or even through informal, but conscious parallelism.

Finally, it seems to me that European security is best served not by star wars systems with a combination of defense and offense, but by an ABM Treaty that is reinforced at the same time that offensive systems are vastly reduced. This is the choice that appears to be available to the United States in the current Geneva negotiations.

It is clear to this Senator that the reinterpretation of the ABM Treaty sought by some members of the Reagan administration is a potential national security and arms control disaster for the United States, as reckless as it is dangerous.

The ABM Treaty means what we have always understood it to mean—and means what we understood it to mean when this body ratified it.

The United States and the Soviet Union undertook to stop the development, testing, and deployment of ABM systems, except under the very limited conditions set forth in the treaty. That treaty has served us well over the past 13 years, and done much to promote nuclear stability.

Instead of eroding that treaty further, our Government should be seeking to strengthen it.

NATIONAL BUSINESS WOMEN'S WEEK

Mr. DOLE. Mr. President, 57 years ago, the National Federation of Business and Professional Women's Clubs began National Business Women's Week, calling it a time "to dramatize women's contributions to the economic, social, and political life of the community, State, Nation, and the world." Each year since then, BPW has observed the week with special activities, seminars, and ceremonies in honor of women's contributions to the Nation's business and economic development. In recent years, the President has officially proclaimed the third full week of October as National Business Women's Week. Governors and mayors throughout the country have followed suit with similar proclamations at the State and local level.

The number of women in the work force has increased dramatically since the first observance of the week over half a century ago—it currently exceeds 47 million. Though barriers still remain for women entering the marketplace, many doors previously closed to them have been opened. Women's expanded opportunities in the business arena have been encouraged by the important work carried out by BPW in educating employers and the public in general about women's talents, abilities, and accomplishments. BPW continues this work through, for instance, its national council on the future of women in the workplace, which honors employers who are particulary responsive to the needs and aspirations of their women employees.

This year, as in years past, BPW is joined by other women's organizations and businesses in paying tribute to women in the business sector. I join these groups in saluting these women and the vast contributions they have made to America's economy and work force.

NICARAGUA

Mr. LEAHY. Mr. President, on Tuesday, October 15, the Government of Nicaragua announced the imposition of severe restrictions on the civil liberties of the Nicaraguan people.

Mr. President, this is a regrettable action. It will have the effect of further legitimizing the Reagan administration's dubious efforts to support the so-called Contras in their efforts to overthrow the government of Nicaragua. More importantly, it will strip the Nicaraguan people of the rights they fought so hard to attain for so many years during the dictatorial rule of Anastasio Somoza.

Among the rights suspended were free expression, public assembly, the right of workers to form unions or go on strike. Also suspended was the right of habeas corpus and the rights to appeal convictions and refusal of self incriminating testimony. News censorship was also strengthened with the press required to submit material to the Government before publication or broadcast.

Particularly disturbing are reports relating to the increased harassment of the Catholic Church. It has been reported that the Nicaraguan security forces seized all copies of a new church newspaper, Iglesia, as well as its press and printing equipment.

Mr. President, it is no secret to my colleagues that I have consistently opposed aid to the Contras in any form. My opposition to this policy is as firm today as it has always been.

At the same time, I believe it is absolutely essential that Senators on all sides of this issue speak out to condemn the action taken by the Nicaraguan Government. Indeed we must speak out to condemn the suspension of basic democratic values whenever and wherever such action is taken, whether it be by friend or foe, by dictatorships or freely elected governments.

The outcome of this action by the Nicaraguan Government can only be to increase violence and undermine any hope of a negotiated solution.

While support of the Contras continues to be inimical to the long-term interests of the United States, the suspension of democratic rights by the Nicaraguan Government will have the effect of isolating thousands of Nicaraguans who oppose the methods both of the Contras and the Sandinistas.

Once again, as is so often the case in Central America, a solution to a crisis will be left in the hands of the extremes, on the right and on the left, while the Nicaraguan people are left to pay the heavy price inflicted by their violence.

Mr. President, it is my hope that the Nicaraguan Government will come to its senses and reverse this decision.

At the same time, let me make it clear to the Reagan administration that this act does not justify any attempt to supply lethal aid to the Contras or take more blatant military action against the Government of Nicaragua. The terms of permitted U.S. humanitarian assistance to the Contras are clearly spelled out in the law. I intend to ensure that the spirit and letter of the law are carried out.

DANIEL PATRICK MOYNIHAN AND THE AMERICAN IRISH FOUNDATION

Mr. KENNEDY. Mr. President, I would like to call the attention of my colleagues to the impressive recent address last month by our colleague, Senator DANIEL PATRICK MOYNIHAN, before the American Irish Foundation, which honored him with its Distinguished Leadership Award at its annual dinner in New York City.

On his famous visit to Ireland in 1963, President Kennedy and President Eamon de Valera of Ireland founded the American Irish Foundation. In his address last month, Senator MOYNIHAN quoted President Kennedy's words in Dublin:

> Democracy is a difficult kind of government. It requires the highest qualities of self-discipline, restraint, a willingness to make commitments and sacrifices for the general interest, and also it requires knowledge.

As Senator MOYNIHAN points out in his address:

> Ireland and the Irish have lived up to President Kennedy's standard. In order for our democracy to be able to undertake commitments to Ireland, we in the United States need to fulfill the responsibilities President Kennedy described so well at

Dublin Castle, responsibilities which, above all, "require knowledge."

For the past two decades, the American Irish Foundation has generously fulfilled that goal, through its many successful efforts to encourage the people of the United States to learn about the accomplishments of democracy in Ireland, Its failures in Northern Ireland—and the hopes we all share that the current historic negotiations between Ireland and Great Britain will mark the long-awaited turning point toward true democracy for the peoples of both communities of Northern Ireland.

Mr. President, I commend the American Irish Foundation for its extraordinary record of achievement, and I ask unanimous consent that Senator MOYNIHAN'S eloquent address may be printed in the RECORD.

There being no objection, the address was ordered to be printed in the RECORD, as follows:

REMARKS OF SENATOR DANIEL PATRICK MOYNIHAN

Twenty-two years ago, at the conclusion of his historic state visit to Ireland—that voyage in June 1963 during which he and President Eamon de Valera founded this American Irish Foundation—President John F. Kennedy said:

"Ireland is an unusual place. What happened 500 or 1000 years ago is yesterday, where we on the other side of the Atlantic 3000 miles away, are next door. While there may be those removed by two or three generations from Ireland, (and) they may have left 100 years ago, . . . when I ask how many people have relatives in America, nearly everybody holds up their hands."

Ireland remains an unusual place, not least because it is a free country. We in the United States perhaps do not fully appreciate the extraordinary achievement of the Irish people in creating and sustaining a democratic system in the years following independence and the civil war that ensued. There was once a time when decolonialization was thought to be synonymous with democratization, but that time has long passed. It is, in fact, the rarest of events for a democracy to have emerged and endured in our century, a century that has seen a great deal more of independence and civil war than it has of freedom.

While I am optimistic, indeed confident, that the future will bring a freer, more democratic world—as the false promises of totalitarians and petty tyrants alike become ever more apparently so—for the present we should recognize and take some satisfaction in the survival of democratic societies where they are to be found. Ireland is such a place, despite continuing, though still very much containable, threats to democracy there. The situation in the North remains unresolved, and provides fertile ground for the alienated and the impoverished to tolerate—and even themselves to turn to—political violence, which is vastly revived from President Kennedy's time, and is recurring. Nevertheless, today Ireland is a vibrant and thriving democracy.

Those 139 of us in the United States Congress who have organized ourselves into the group "Friends of Ireland" think this is significant. We who are ourselves involved in an electoral process—we who know firsthand the ordeal and the triumph of that process—find especially compelling the proposition that the people best qualified to speak for a society are the men and women who have been elected by it. We therefore choose to believe that the elected leaders of Ireland speak for the Irish people. And in this moment of greatest opportunity, we stand with them.

Foreign Minister Peter Barry, who is with us tonight, is a member of that elected government of Ireland. Mr. Barry can speak to the details if it is appropriate, but I can say (because it is generally known) that his government is now engaged in what may prove to be historic negotiations with the government of Great Britain, similarly an elected, democratic government, about a new arrangement for Northern Ireland. One which will, it is hoped, provide significant guarantees of the rights of the minority, nationalist community in the North, and pave the way toward an enduring, peaceful and just reconciliation there. It would be difficult to overstate the importance of this enterprise, for it represents an effort to resolve one of the more ancient of the world's quarrels: the overlapping and conflicting nationalisms that are the result of England's settlements in Ireland over so many centuries. It has proved to be among the most intractable of disputes.

I would offer the thought that the most enduring and destructive of human divisions are those of race and religion and ethnicity. A quarter-century ago Nathan Glazer and I finished *Beyond the Melting Pot*, our first book on ethnicity as a post-modern phenomenon. Never mind about me; Glazer was trying to figure out something more complicated and important than why we have 'ethnic' mayors. If we were right, especially in the more general subsequent work, *Ethnicity* (1975), then quite simply Marx was wrong. Blood will tell, said we, and I have observed little else since. Look around the world today: the most violent quarrels (being waged with the most modern arsenals) are fights about the most ancient of grievances: 'the sons of my father's enemies are my enemies.'

Northern Ireland provides ample illustration of just how enduring such conflict can be. Driving through a Protestant slum in Belfast not too long ago, I came across a peeling red brick wall across which was painted, in large black block letters: "Remember 1689!" A measure, if you will, of the depth of the passions involved, and the distance today's diplomats must traverse.

Beyond all reasonable expectation, however, these Anglo-Irish talks are rather far along just now. We find ourselves, in fact, at a moment of promise—promise of settlement and accommodation and reconciliation—not seen since before the First World War. There is on the horizon at the same time the precarious prospect of internal conflict not witnessed in Ireland since the Civil War. For there are those who have a stake in political stalemate, economic misery, and the violence that they bring. These people will not easily abide peaceful, democratic solutions to age-old grudges.

It is thus an important moment. America, and America's Irish, face the question of how to respond. There will surely be a formal role for governments if Ireland and Britain are able to announce an agreement. The Friends of Ireland have begun to anticipate that. There is also an informal, though not less important, role for the Irish in America to play in supporting and sustaining the process of peace and reconciliation. (JFK again: ". . . we on the other side of the Atlantic 3000 miles away are next door.")

Yet there exists now a breach between Ireland and portions—I want to emphasize that it is with only some portions—of Irish America. Because of this rift it is not at all clear that we in the United States will be able to contribute to the peace process as much as we might. Thus, almost incredibly, it is the fact that representatives of the Irish Government have been all but banned from participating in New York City's St. Patrick's Day parade—not just the largest celebration of the feast of Ireland's patron saint, but the oldest public event of its kind in North America, older even than the United States government. I am sure this situation will not persist indefinitely. I am aware of serious concerns about it within the Ancient Order of Hibernians. But my goodness—that it should ever have begun! I have been watching or marching in the St. Patrick's Day parade for getting on to half a century now. In all that time no event has been more dramatic or painful than those which have forced the Irish Government to absent itself. An elected, democratic Irish government convinced it could not participate in our great observance.

The quarrels here are numerous, and complex; some significant, some quite petty. Without wanting to embark on a discussion of these differences, I would suggest that they derive ultimately from a certain impatience on this side of the Atlantic with the democratic and diplomatic process of peace in Ireland. President Kennedy said at Dublin Castle, on June 28, 1963, that:

"Democracy is a difficult kind of government. It requires the highest qualities of self-discipline, restraint, a willingness to make commitments and sacrifices for the general interest, and it also requires knowledge."

Ireland and the Irish have lived up to President Kennedy's standard. It is time more Irish-Americans knew this—knew more about the accomplishments of democratic Ireland and about its work on behalf of its kinsmen in the North.

Perhaps a little more plain-speaking is in order all around. From the Irish Government itself, which I know is sensitive to the problem I describe. Perhaps also from the American Irish Foundation, founded, as I said at the outset, by Eamon de Valera, the American-born Irish President who was baptized just 18 blocks from where we are tonight (at the Church of St. Agnes). In order for our democracy to be able to undertake commitments to Ireland, we in the United States need to fulfill the responsibilities President Kennedy described so well at Dublin Castle, responsibilities which above all, "require knowledge."

Earlier tonight, Fr. O'Hare made a very sensitive and thoughtful reference to "Ireland's very sad wars." I take him to have been referring to those lines from G.K. Chesterton:

For the great Gaels of Ireland
Are the men that God made mad,
For all their wars are merry,
And all their songs are sad.

Well there are no merry wars in Ireland (or anywhere). Only an unreal sentimentality suggests that destructive, divisive violence can bring peace to Ireland. I choose the democratic alternative, and I look forward to the day, no longer far off, when we may all celebrate an historic dawn in a new Ireland.

SHEP LEE OF AUBURN

Mr. COHEN. Mr. President, I rise to pay tribute to one of my State's most successful entrepreneurs, Shep Lee of Auburn.

Shep has been a key figure in the automobile industry in Maine for nearly 40 years, and has seen his empire expand from a single dealership to a string of seven throughout the State.

Beyond his success in business, which has been considerable, Shep has devoted enormous amounts of time to bettering his community of Lewiston/Auburn and to statewide political activity. For as long as I have known Shep, he has maintained an abiding belief that friendship transcends party lines, which explains the high esteem in which he is held by Democrats and Republicans alike.

I ask unanimous consent that a recent profile of Shep be inserted in the RECORD from the Lewiston Sunday Sun-Journal of October 20, 1985.

There being no objection, the article was ordered to be printed in the RECORD, as follows:

[From the Lewiston (ME) Sun-Journal, Oct. 20, 1985]

SHEP LEE: CAR DEALER PUT HIS FAITH IN PEOPLE, TOOK A CHANCE AND MADE IT WORK

(By Joe O'Connor)

AUBURN.—Shep Lee says he has "always resented the sterotype image that car salesmen have."

Going against stereotypes has been a lifelong pastime for Lee. In some 38 years of selling cars, he has gone from one dealership in downtown Auburn to one of the largest auto sales operations in northern New England—putting the road known as "Automobile Row" on the map along the way.

In partnership or alone, Lee operates seven dealerships—five of them in Auburn—that sell Dodge, Chrysler, Plymouth, Cadillac, Oldsmobile, Subaru, Honda, Nissan/Datsun, and BMW, as well as GMC trucks.

As a successful businessman in what he admits is a much-maligned business, Lee has brought modern management techniques to what until recently was a fragmented, learn-as-you-go industry.

Contending that his employees are the cornerstone of his success, Lee has initiated extensive in-house training programs. And, through a strict promote-from-within policy, employees are offered the opportunities to work their way up through the organization—even to co-ownership of a dealership.

At the same time, Lee has gone against the common stereotype of the conservative businessman with his longstanding involvement in the Democratic Party and Maine and American Civil Liberties Unions.

At 59, Lee is still looking ahead. The owner of about 20 acres along Auburn's Automobile Row (a term he coined for advertising purposes), Lee now plans to develop Maine's first "autopark," where people can drive around to look at cars without fighting traffic.

Shepard Lee has been in the automobile business "all my life." Almost immediately after he graduated from Bowdoin College in 1947, he went to work at Advance Auto Sales, founded by his father, Joseph Lifshitz, in 1936.

When Lee entered the business, he said, there were three Plymouth dealers in Lewiston-Auburn, two Chevrolet dealers, and two Ford dealers. In addition, many small towns also had new car dealerships.

Nationwide, there were about 50,000 dealers; today there are 24,000.

To some extent, the reduction was caused by auto manufacturers' efforts to consolidate their dealerships, giving support to those who could build the best facilities. The tightening of the auto market in the 1970s—particularly for large American cars—also pushed many marginal dealers out of business.

In the past 10 years or so, Lee said, he has observed another new development: the growth of multi-dealership operations, in which one company sells a number of competing car makes.

Lee acknowledges that the Lee Group, a prime example of a multi-dealership, gives him far more leverage with the automakers than a dealer whose fortunes are tied to only one manufacturer.

To keep his nearly 400 employees working toward the same goals, Lee established a management company, which employs a full-time trainer, full-time director of parts and services, and other personnel whose jobs are "to provide a whole bunch of support services" to the various dealerships.

Even though he employs an elaborate organization and planning mechanism, Lee says the key to a successful operation is finding the best people—and keeping them.

"If you have a good record and good credit, you can always borrow money for land or a new building," Lee says. "But if you don't have the people, new buildings won't help you.

"I have always resented the stereotyped image that car salesmen have, but dealers have contributed to that themselves by hiring anybody off the street," he says.

"It's amazing how badly treated a customer can be at a car dealer, and how indifferent most salespeople—who depend on selling to make their living—are."

So jaded is Lee about most car salespeople that as a rule his dealerships will not hire anyone who has sold cars before.

To make sure employees know what to expect—and what is expected of them—the Lee Group issues a 16-page operating standards booklet, which covers everything from hiring and promotion policies to customer satisfaction to advertising.

Prospective employees undergo at least two interviews, part of a rigorous selection process that is necessary, Lee says, because the company spends a lot of money both on salaries while new employees are in training, and on the training itself.

"I am sure that we have the most expensive training program in New England," Lee says. "And I am sure that it is worth it."

To retain good people, Lee promises that all promotions to management within the dealerships and the Lee Group as a whole will be made from within the organization.

For about the past five years, Lee said, he has gone beyond simply promoting from within, by seeking out "ambitious, intelligent young people who want to end up owning something for themselves."

While no promises are made, Lee said if a person works his way through all the positions available and still shows promise, "We will buy you a dealership and allow you to buy into that business out of your bonus."

That offer is particularly attractive given the cost of starting a new dealership, which Lee estimates would take about $500,000 cash for operating costs plus loans of $2 million to $3 million for inventory and facilities.

"If you want to see someone work hard, just give them the opportunity to own something," Lee says. Of the Lee Group's seven dealerships, "five have young partners," he said—and he hints that he would like to add a few more dealerships to the group.

In the early 1960s, Auburn underwent urban renewal, and Advance Auto was on the hit list.

Lee had been pleased with his downtown location, and he agonized over where to move before he purchased a parcel of land on Center Street.

Advance succeeded at its new site, and in 1974, when the gas crisis made big American gas-guzzlers as popular as a harborful of dead fish, Lee put his faith in the economic might of General Motors and purchased the local Cadillac-Oldsmobile dealership and moved that up to Center Street also.

Then came Datsun World, in 1975, and Subaru, whose four-wheel-drive economy cars delighted Maine drivers. Last year, Lee added a GMC truck dealership to his Center Street lot, and then came Honda, the Japanese-owned company which also happened to be a fourth-largest American automaker—thus eliminating any potential problems with import quotas.

Lee says this concentration of ownership doesn't mean any drop in competitiveness among the dealerships, because his partners know that "their income is derived from the profitability of their operation," and because salespeople know that promotions to management are based on sales prowess.

After formally dedicating the Honda dealership last week, Lee is now looking at moving Datsun World to Center Street, between Cadillac-Olds-Honda and Subaru, in a year or so.

In the long term, he has started filling behind the Cadillac building with plans to build the areas first autopark.

There, shoppers will be able to cruise along a landscaped driveway running the quarter mile from Stetson Road behind the Lee dealerships, stopping perhaps for lunch at picnic tables along Bobbin Mill Brook.

The purpose of an autopark is simple, Lee said: "To create a pleasant environment in which people can drive around and look at cars."

Although such a park would be a first for Maine, they are in evidence nationwide.

"To say that they are relatively common might be overstating the case, but it is something that is happening more and more throughout the country," he said.

One quality that sets Lee off from many others in the business community is his longtime participation in the Democratic Party.

As a Democrat, he admits, he is in a minority among business-people: "My business friends always tell me that I'm 'well-intentioned but misguided,'" he laughs.

Then he adds: "I am a Democrat because I believe in Democratic principles."

Lee's involvement with politics goes back to the 1950s, when he served as a manager for Frank M. Coffin's (now federal Judge Coffin) successful congressional campaigns and became acquainted with Gov. Edmund Muskie, now a close friend as is his successor, Sen. George Mitchell.

But, despite his long involvement with politics, and his practiced ease in front of television cameras, the former Auburn

School Committee member has no intention of going after elective office.

"My wife would divorce me if I did, and I've been married 35 years, much too long for that."

As early as the 1950s, Lee also was involved in the Androscoggin Valley Mental Health Association and the local chapter of the NAACP. Then there is his long service on the board of the Maine and American Civil Liberties Unions; he was elected national vice president of the ACLU in 1982.

Questioned about his involvement with these groups, Lee says simply, "If you believe in something, you should do something about it."

He recalls that shortly after his college graduation, he often wondered if he wouldn't be happier as a college professor. One day he had a customer of the type salesmen have nightmares.

"I was trying to sell him a $100 car and he kicked the tires, slammed the doors, and used incredibly foul and abusive language. And he didn't buy the car. I asked myself, 'Is this really what I want to do for the rest of my life?' "

Lee returned to Bowdoin and discussed his indecision with a former professor.

"You think that being a professor means spending all your time reading good books and talking with smart students—it's not," the professor said, and proceeded to offer some revelations about academic politics.

Then the professor mentioned a prominent businessman in Brunswick. "If I go to a selectmen's meeting and say something, I can see them thinking, 'He's never met a payroll, or balanced the books, or hired and fired.' But when that businessman gets up and says the same thing I said, they sit up and listen, because he has done these things."

So Lee went back to Advance Auto, and now he says, "I believe that you can still be successful in business and make a contribution in other areas too."

He says he still sees customers on the showroom floor who bought their first car from his father, or from him when he was just starting out.

The importance of returns and referrals is greater here than in a more metropolitan area, Lee says.

"Certainly, in a small town in a small state, you have to have a good reputation if you're going to succeed in the long run."

SHOES AND TEXTILES

Mr. EAGLETON. Mr. President, not so long ago, it was said Missouri was first in shoes, first in booze, and last in the American League.

Today, we are first in the American League but last in shoes. Only booze seems to be holding its own.

To some people, that may sound like a fair trade. But I guarantee you it is anything but fair to the thousands of Missouri shoe and textile workers who have seen their jobs exported to the factories of Taiwan, Hong Kong, Korea, and Brazil.

It is anything but fair to an industry which undertook a massive modernization program only to find itself still swamped by foreign competitors who enjoy the benefit of sweatshop wages. It is anything but fair to the rural areas of Missouri where a shoe factory is often the backbone of a town's economy.

The textile and apparel industry has changed dramatically in Missouri during my Senate career. When I came to office there were a booming 33,600 textile and apparel jobs in Missouri. I have watched that employment sector erode down to 30,000 in 1972, and it has fallen to nearly 22,000 jobs today. In this period employment has dropped 33 percent. As the imports come pouring in the jobs have flooded out the door. Import penetration into the textile market has gone wild. In 1968, import penetration was 14.5 percent. The statistics now put import penetration at just over the 50-percent mark.

The less than illustrious record of textile and apparel industry during my Senate career is only beat by the bottoming out of the footwear industry. When I came to office, Missouri produced 56.5 million pairs of shoes. We now produce only 36.5 million pairs, marking a change of minus 35.4 percent. Missouri in 1968 employed 24,000 people in footwear products and now there are less than 15,000 of those existing jobs; a drop of negative 36.4 percent. Since 1968, 55 footwear plants have shut their doors in Missouri; 7 have closed in the past year alone.

We have heard a lot in this debate about retaliation from our trading partners. We are told we can't take action to save American jobs and basic industries for fear the nations which are reaping huge benefits from free access to the U.S. market will somehow retaliate against our exports.

Who is kidding whom? We are the ones who are getting killed in this free-trade marketplace with a trade deficit approaching $150 billion. When is it our turn to retaliate against unfair, unbalanced and unrestrained exploitation of our domestic market? Are foreign countries the only ones allowed to take action in their self interest?

The United States is by far the largest and richest marketplace in the world. Foreign producers will go to any lengths to gain a foothold here for their products. We are the one with the leverage to deemed fair terms in our trade relations. And yet we cower before the threat that some foreign nation is going to risk its lucrative position in our marketplace by retaliating against U.S. exports.

I think it is time this country served notice that while it is dedicated to the growth of the freest possible world trade, it will not play patsy to nations which observe no restraint, no limits in their push to exploit our market. It is time we exercised the tremendous strength we possess as the world's premier trade market to demand that free and fair trade go together.

CHILDHOOD VACCINES—WE NEED IMPROVEMENTS

Mr. HATCH. Mr. President, over the last 2 days, the Senate has discussed and debated, and passed an appropriations bill for the Department of Health and Human Services. During the proceedings of October 21, the Senate agreed to an amendment offered by Senator BUMPERS, to add funds for our childhood immunization programs. I want to commend Senator BUMPERS for his continuing support for these programs—the most successful disease prevention this country has ever known. Senator BUMPERS recently testified before the Labor and Human Resources Committee about his longstanding commitment at both the State and National levels to childhood immunization.

On the Senate floor, as in his testimony before the committee, Senator BUMPERS hit the nail on the head, and got to the heart of a complex conundrum: we must continue to immunize our children against diseases which would otherwise take—and have in the past taken—an enormous toll. Yet we are being told by the private sector vaccine manufacturers that they may be unable to continue in the market because of their increasing and increasingly unpredictable liability costs. It seems to me that the unacceptable alternative is Government-supplied vaccines. But what are the acceptable alternatives and options? How and to what extent are the astronomical increases in vaccine costs—increases which necessitated Senator BUMPERS' amendment, and may necessitate even a supplemental appropriation—related to the industry's liability problems? And what is the resolution of the problem?

Senator BUMPERS noted that the Committee on Labor and Human Resources is working toward markup of appropriate legislation that will accomplish these critical goals: Continuation of our essential childhood immunization programs, with an adequate supply of vaccines; compensation for victims of vaccine-related injuries; education of health providers and parents about possible risks associated with some vaccinations; and application of the latest in science and technology to the development of the best possible vaccines for our children.

With respect to that last goal, I agree completely with the questions raised by Senators HAWKINS and WEICKER about the priority being placed on development of new and improved pediatric vaccines. In our conference report on H.R. 2409, the NIH authorization bill recently passed by the Senate and the House, we noted specifically the conferees' intent that the new Associate Directors for Prevention at NIH should assure that Congress is informed about immuniza-

tion research, particularly about research toward developing an improved pertussis vaccine.

Mr. President, I strongly support the childhood immunization programs of this country. I am pleased that both HHS and Lederle Laboratories have a new pertussis vaccine ready to enter clinical trials. I understand that the new Government vaccine will be tested this winter, and Lederle's vaccine will be tested as soon as an appropriate test population is determined. Nevertheless, I am convinced that we cannot rest until we have the best that science can produce. I continue to urge HHS to place the highest possible priority on the development of better and safer vaccines—especially a better and safer pertussis vaccine. In no way do I presume to second-guess the experts at HHS about alining research priorities. But this is important—indeed, it is essential. We are facing a potential crisis in public health. Is there anything more important than solving it?

CONCLUSION OF MORNING BUSINESS

(The following proceedings occurred during the foregoing colloquy:)

The PRESIDING OFFICER (Mr. ANDREWS). The hour of 9:30 having arrived, routine morning business is closed.

Mr. CHAFEE. Mr. President, I ask unanimous consent that we may proceed as if in morning business for 5 minutes.

The PRESIDING OFFICER. Without objection, it is so ordered.

(Conclusion of earlier proceedings.)

COMMERCE, JUSTICE, AND STATE, THE JUDICIARY, AND RELATED AGENCIES APPROPRIATIONS, 1986

Mr. RUDMAN. Mr. President, I ask unanimous consent that the Senate turn to the consideration of Calendar Order No. 338, H.R. 2965, the State, Justice, Commerce, the Judiciary, and Related Agencies Appropriations Act, 1986.

The PRESIDING OFFICER. The bill will be stated by title.

The legislative clerk read as follows:

A bill (H.R. 2965) making appropriations for the Departments of Commerce, Justice, and State, the Judiciary, and related agencies for the fiscal year ending September 30, 1986, and for other purposes.

The PRESIDING OFFICER. Is there objection to the request of the Senator from New Hampshire?

There being no objection, the Senate proceeded to consider the bill which had been reported from the Committee on Appropriations, with amendments, as follows:

(The parts of the bill intended to be stricken are shown in boldface brackets, and the parts of the bill intended to be inserted are shown in italics.)

H.R. 2965

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the following sums are appropriated, out of any money in the Treasury not otherwise appropriated, for the Departments of Commerce, Justice, and State, the Judiciary, and related agencies for the fiscal year ending September 30, 1986, and for other purposes, namely:

TITLE I—DEPARTMENT OF COMMERCE

GENERAL ADMINISTRATION

SALARIES AND EXPENSES

For expenses necessary for the general administration of the Department of Commerce, including not to exceed $2,000 for official entertainment, [$31,609,000] *$32,343,000.*

BUREAU OF THE CENSUS

SALARIES AND EXPENSES

For expenses necessary for collecting, compiling, analyzing, preparing, and publishing statistics, provided for by law, [$88,662,000] *$90,400,000.*

PERIODIC CENSUSES AND PROGRAMS

For expenses necessary to collect and publish statistics for periodic censuses and programs provided for by law, [$105,111,000] *$105,687,000,* to remain available until expended.

ECONOMIC AND STATISTICAL ANALYSIS

SALARIES AND EXPENSES

For necessary expenses, as authorized by law, of economic and statistical analysis programs, [$30,543,000] *$30,168,000.*

ECONOMIC DEVELOPMENT ADMINISTRATION

ECONOMIC DEVELOPMENT ASSISTANCE PROGRAMS

For economic development assistance as provided by the Public Works and Economic Development Act of 1965, as amended, and Public Law 91-304, and such laws that were in effect immediately before September 30, 1982, [$180,000,000] *$160,000,000: Provided,* That during fiscal year 1986 total commitments to guarantee loans shall not exceed $150,000,000 of contingent liability for loan principal: *Provided further, That none of the funds appropriated or otherwise made available under this heading may be used directly or indirectly for attorney's fees in connection with grants and contracts made by the Economic Development Administration.*

SALARIES AND EXPENSES

For necessary expenses of administering the economic development assistance programs as provided for by law, [$26,000,000] *$24,450,000: Provided,* That these funds may be used to monitor projects approved pursuant to title I of the Public Works Employment Act of 1976, as amended, title II of the Trade Act of 1974, as amended, and the Community Emergency Drought Relief Act of 1977. Notwithstanding any other provision of this Act or any other law, funds appropriated in this paragraph shall be used to fill and maintain forty-nine permanent positions designated as Economic Development Representatives out of the total number of permanent positions funded in the Salaries and Expenses account of the Economic Development Administration for fiscal year 1986.

INTERNATIONAL TRADE ADMINISTRATION

OPERATIONS AND ADMINISTRATION

For necessary expenses for international trade activities of the Department of Commerce, including trade promotional activities abroad without regard to the provisions of law set forth in 44 U.S.C. 3702 and 3703; full medical coverage for dependent members of immediate families of employees stationed overseas; employment of Americans and aliens by contract for services abroad; rental of space abroad for periods not exceeding ten years, and expenses of alteration, repair, or improvement; purchase or construction of temporary demountable exhibition structures for use abroad; payment of tort claims, in the manner authorized in the first paragraph of 28 U.S.C. 2672 when such claims arise in foreign countries; not to exceed $253,000 for official representation expenses abroad; awards of compensation to informers under the Export Administration Act of 1979, and as authorized by 22 U.S.C. 401(b); purchase of passenger motor vehicles for official use abroad and motor vehicles for law enforcement use with special requirement vehicles eligible for purchase without regard to any price limitation otherwise established by law; [$196,472,000] *$192,980,000, of which $7,090,000 is for the Office of Textiles and Apparels, including $3,500,000 for a grant to the Tailored Clothing Technology Corporation,* to remain available until expended: *Provided,* That the provisions of the first sentence of section 105(f) and all of section 108(c) of the Mutual Educational and Cultural Exchange Act of 1961 (22 U.S.C. 2455(f) and 2458(c)) shall apply in carrying out these activities. [During fiscal year 1986 and within the resources and authority available, gross obligations for the principal amount of direct loans shall not exceed $3,500,000. During fiscal year 1986, commitments to guarantee loans shall not exceed $10,000,000 of contingent liability for loan principal.]

MINORITY BUSINESS DEVELOPMENT AGENCY

MINORITY BUSINESS DEVELOPMENT

For necessary expenses of the Department of Commerce in fostering, promoting, and developing minority business enterprise, including expenses of grants, contracts, and other agreements with public or private organizations, [$44,802,000] *$45,090,000,* of which $31,495,000 shall remain available until expended: *Provided,* That not to exceed [$13,307,000] *$13,595,000* shall be available for program management for fiscal year 1986[: *Provided further,* That none of the funds appropriated in this paragraph or in this title for the Department of Commerce shall be available to reimburse the fund established by 15 U.S.C. 1521 on account of the performance of a program, project, or activity, nor shall such fund be available for the performance of a program, project, or activity, which had not been performed as a central service pursuant to 15 U.S.C. 1521 before July 1, 1982, unless the Appropriations Committees of both Houses of Congress are notified fifteen days in advance of such action in accordance with the Committees' reprograming procedures].

UNITED STATES TRAVEL AND TOURISM ADMINISTRATION

SALARIES AND EXPENSES

For necessary expenses of the United States Travel and Tourism Administration including travel and tourism promotional activities abroad without regard to the provisions of law set forth in 44 U.S.C. 3702 and 3703; and including employment of aliens by

contract for services abroad; rental of space abroad for periods not exceeding five years, and expenses of alteration, repair, or improvement; purchase or construction of temporary demountable exhibition structures for use abroad; advance of funds under contracts abroad; payment of tort claims in the manner authorized in the first paragraph of 28 U.S.C. 2672, when such claims arise in foreign countries; and not to exceed $8,000 for representation expenses abroad; $12,000,000.

NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION

OPERATIONS, RESEARCH, AND FACILITIES

(INCLUDING TRANSFERS OF FUNDS)

For necessary expenses of activities authorized by law for the National Oceanic and Atmospheric Administration, including acquisition, maintenance, operation, and hire of aircraft; 399 commissioned officers on the active list; construction of facilities, including initial equipment; alteration, modernization, and relocation of facilities; and acquisition of land for facilities; [$1,121,228,000] *$1,131,699,000*, to remain available until expended, and in addition, $28,000,000 shall be derived from the Airport and Airways Trust Fund; and in addition, [$30,000,000] *$35,700,000* shall be derived by transfer from the Fund entitled "Promote and Develop Fishery Products and Research Pertaining to American Fisheries"; and in addition, $8,000,000 shall be derived by transfer from the Coastal Energy Impact Fund: *Provided*, That [unobligated] *unexpended* balances in the account "Coastal Zone Management" are merged with this account on October 1, 1985: *Provided further*, That grants to States pursuant to section 306 and section 306(a) of the Coastal Zone Management Act, as amended, shall not exceed $2,000,000 and shall not be less than $450,000: *Provided further, That of the funds appropriated in this paragraph, necessary funds shall be used to fill and maintain a staff of three persons, as National Oceanic and Atmospheric Administration personnel, to work on contracts and purchase orders at the National Data Buoy Center in Bay St. Louis, Mississippi, and report to the Director of the National Data Buoy Center in the same manner and extent that such procurement functions were performed at Bay St. Louis prior to June 26, 1983, except that they may provide procurement assistance to other Department of Commerce activities pursuant to ordinary interagency agreements. Where practicable, these positions shall be filled by the employees who performed such functions prior to June 26, 1983.*

FISHERMEN'S CONTINGENCY FUND

For carrying out the provisions of title IV of Public Law 95-372, not to exceed $750,000, to be derived from receipts collected pursuant to that Act, to remain available until expended.

FOREIGN FISHING OBSERVER FUND

For expenses necessary to carry out the provisions of the Atlantic Tunas Convention Act of 1975, as amended (Public Law 96-339), the Magnuson Fishery Conservation and Management Act of 1976, as amended (Public Law 94-265), and the American Fisheries Promotion Act (Public Law 96-561), there are appropriated from the fees imposed under the foreign fishery observer program authorized by these Acts, not to exceed $4,500,000, to remain available until expended.

FISHERMEN'S GUARANTY FUND

For expenses necessary to carry out the provisions of the Fishermen's Protective Act of 1967, as amended, $1,800,000, to be derived from the receipts collected pursuant to that Act, to remain available until expended.

[FISHERIES LOAN FUND

[For expenses necessary to carry out the provisions of section 221 of the American Fisheries Promotion Act of December 22, 1980 (Public Law 96-561), there are appropriated to the Fisheries Loan Fund, $2,500,000 from receipts collected pursuant to that Act: *Provided*, That during fiscal year 1986 not to exceed $300,000 of the Fisheries Loan Fund shall be available for administrative expenses.]

PATENT AND TRADEMARK OFFICE

SALARIES AND EXPENSES

For necessary expenses of the Patent and Trademark Office, including defense of suits instituted against the Commissioner of Patents and Trademarks, [$84,739,000] *$88,535,000* and, in addition, such fees as shall be collected pursuant to 15 U.S.C. 1113 and 35 U.S.C. 41 and 376, to remain available until expended.

NATIONAL BUREAU OF STANDARDS

SCIENTIFIC AND TECHNICAL RESEARCH AND SERVICES

For necessary expenses of the National Bureau of Standards, [$123,985,000] *$125,916,000*, to remain available until expended, of which not to exceed $3,708,000 may be transferred to the "Working Capital Fund".

NATIONAL TELECOMMUNICATIONS AND INFORMATION ADMINISTRATION

SALARIES AND EXPENSES

For necessary expenses, as provided for by law, of the National Telecommunications and Information Administration, [$13,186,000] *$13,686,000*, of which $700,000 shall remain available until expended.

PUBLIC TELECOMMUNICATIONS FACILITIES, PLANNING AND CONSTRUCTION

For grants authorized by section 392 of the Communications Act of 1934, as amended, $24,000,000, to remain available until expended: *Provided*, That not to exceed [$750,000] *$1,200,000* shall be available for program management as authorized by section 391 of the Communications Act of 1934, as amended: *Provided further, That notwithstanding the provisions of section 391 of the Communications Act of 1934, as amended, the prior year unobligated balances may be made available for grants for projects for which applications have been submitted and approved during any fiscal year.*

GENERAL PROVISIONS—DEPARTMENT OF COMMERCE

SEC. 101. During the current fiscal year, applicable appropriations and funds available to the Department of Commerce shall be available for the activities specified in the Act of October 26, 1949 (15 U.S.C. 1514), to the extent and in the manner prescribed by said Act, and, notwithstanding 31 U.S.C. 3324, may be used for advance payments not otherwise authorized only upon the certification of officials designated by the Secretary that such payments are in the public interest.

SEC. 102. During the current fiscal year, appropriations to the Department of Commerce which are available for salaries and expenses shall be available for hire of passenger motor vehicles; services as authorized by 5 U.S.C. 3109; and uniforms or allowances therefor, as authorized by law (5 U.S.C. 5901-5902).

SEC. 103. No funds in this title shall be used to sell to private interests, except with the consent of the borrower, or contract with private interests to sell or administer, any loans made under the Public Works and Economic Development Act of 1965 or any loans made under section 254 of the Trade Act of 1974.

SEC. 104. During the current fiscal year, the National Bureau of Standards is authorized to accept contributions of funds, to remain available until expended, from any public or private source to construct a facility for cold neutron research on materials, notwithstanding the limitations contained in 15 U.S.C. 278d.

This title may be cited as the "Department of Commerce Appropriation Act, 1986".

TITLE II—DEPARTMENT OF JUSTICE

GENERAL ADMINISTRATION

SALARIES AND EXPENSES

For expenses necessary for the administration of the Department of Justice, [$72,533,000] *$71,200,000.*

UNITED STATES PAROLE COMMISSION

SALARIES AND EXPENSES

For necessary expenses of the United States Parole Commission, as authorized by law, [$9,681,000] *$9,836,000.*

LEGAL ACTIVITIES

SALARIES AND EXPENSES, GENERAL LEGAL ACTIVITIES

For expenses necessary for the legal activities of the Department of Justice, not otherwise provided for, including not to exceed $20,000 for expenses of collecting evidence, to be expended under the direction of the Attorney General and accounted for solely on his certificate; and rent of private or Government-owned space in the District of Columbia; [$200,277,000] *$205,400,000*, of which not to exceed $6,000,000 for litigation support contracts shall remain available until September 30, 1987[; and of which $3,088,000 shall be for the Office of Special Investigations].

SALARIES AND EXPENSES, ANTITRUST DIVISION

For expenses necessary for the enforcement of antitrust and kindred laws, [$43,476,000] *$44,520,000.*

SALARIES AND EXPENSES, FOREIGN CLAIMS SETTLEMENT COMMISSION

For expenses necessary to carry out the activities of the Foreign Claims Settlement Commission, including services as authorized by 5 U.S.C. 3109; allowances and benefits similar to those allowed under the Foreign Service Act of 1980 as determined by the Commission; expenses of packing, shipping, and storing personal effects of personnel assigned abroad; rental or lease, for such periods as may be necessary, of office space and living quarters of personnel assigned abroad; maintenance, improvement, and repair of properties rented or leased abroad, and furnishing fuel, water, and utilities for such properties; insurance on official motor vehicles abroad; advances of funds abroad; advances or reimbursements to other Government agencies for use of their facilities and services in carrying out the functions of the Commission; hire of motor vehicles for field use only; and employment of aliens; [$700,000] *$850,000.*

[SALARIES AND EXPENSES, UNITED STATES ATTORNEYS AND MARSHALS

[For necessary expenses of the offices of the United States attorneys, marshals, and bankruptcy trustees; including acquisition, lease, maintenance, and operation of aircraft, $471,500,000.]

SALARIES AND EXPENSES, UNITED STATES ATTORNEYS AND TRUSTEES

For necessary expenses of the Offices of the United States attorneys and bankruptcy trustees, $335,000,000: Provided, That not less than $450,000 shall be used for the investigation and prosecution of individuals indicted for violations of obscenity statutes.

SALARIES AND EXPENSES, UNITED STATES MARSHALS SERVICE

For necessary expenses of the United States Marshals Service; including acquisition, lease, maintenance, and operation of vehicles and aircraft, $149,000,000.

SUPPORT OF UNITED STATES PRISONERS

For support of United States prisoners in non-Federal institutions, [$53,240,000] *$52,000,000*[; and in addition, $9,000,000 shall be available under the Cooperative Agreement Program until expended for the purposes of renovating, constructing, and equipping State and local correctional facilities]: *Provided,* That amounts made available for constructing any local correctional facility *pursuant to the Cooperative Agreement Program* shall not exceed the cost of constructing space for the average Federal prisoner population to be housed in the facility, or in other facilities in the same correctional system, as projected by the Attorney General: *Provided further,* That following agreement on or completion of any Federally assisted correctional facility construction, the availability of the space acquired for Federal prisoners with these Federal funds shall be assured and the per diem rate charged for housing Federal prisoners in the assured space shall not exceed operating costs for the period of time specified in the cooperative agreement.

FEES AND EXPENSES OF WITNESSES

For expenses, mileage, compensation, and per diems of witnesses and for per diems in lieu of subsistence, as authorized by law, including advances; [$47,900,000] *$47,400,000,* to remain available until expended, of which not to exceed $550,000 may be made available for planning, construction, renovation, maintenance, remodeling, and repair of buildings and the purchase of equipment incident thereto for protected witness safesites: *Provided, That restitution of not to exceed $25,000 shall be paid to the estate of victims killed as a result of crimes committed by persons who have been enrolled in the Federal witness protection program, if such crimes were committed within two years after protection was terminated, notwithstanding any limitations contained in part (a) of section 3525 of title 18 of the United States Code.*

SALARIES AND EXPENSES, COMMUNITY RELATIONS SERVICE

For necessary expenses of the Community Relations Service, established by title X of the Civil Rights Act of 1964, [$33,217,000] *$31,000,000,* of which [$26,583,000] *$24,366,000* shall remain available until expended to make payments in advance for grants, contracts and reimbursable agreements and other expenses necessary under section 501(c) of the Refugee Education Assistance Act of 1980 (Public Law 96-422; 94 Stat. 1809) for the processing, care, maintenance, security, transportation and reception and placement in the United States of Cuban and Haitian entrants: *Provided,* That notwithstanding section 501(e)(2)(B) of the Refugee Education Assistance Act of 1980 (Public Law 96-422; 94 Stat. 1810), funds may be expended for assistance with respect to Cuban and Haitian entrants as authorized under section 501(c) of such Act.

ASSETS FORFEITURE FUND

For expenses authorized by 28 U.S.C. 524, as amended by the Comprehensive Forfeiture Act of 1984, such sums as may be necessary to be derived from the Department of Justice Assets Forfeiture Fund: *Provided,* That in the aggregate, not to exceed $10,000,000 shall be available for expenses authorized by subsections (c)(1)(B), (c)(1)(E), and (c)(1)(F) of that section.

INTERAGENCY LAW ENFORCEMENT

PRESIDENTIAL COMMISSION ON ORGANIZED CRIME

For expenses necessary for the Presidential Commission on Organized Crime, $1,000,000.

FEDERAL BUREAU OF INVESTIGATION

SALARIES AND EXPENSES

For expenses necessary for detection, investigation, and prosecution of crimes against the United States; including purchase for police-type use of not to exceed one thousand six hundred forty passenger motor vehicles of which one thousand four hundred fifty will be for replacement only, without regard to the general purchase price limitation for the current fiscal year, and hire of passenger motor vehicles; acquisition, lease, maintenance and operation of aircraft; and not to exceed $70,000 to meet unforeseen emergencies of a confidential character, to be expended under the direction of the Attorney General, and to be accounted for solely on his certificate; [$1,194,132,000] *$1,209,468,000,* of which not to exceed $25,000,000 for automated data processing and telecommunications and $1,000,000 for undercover operations shall remain available until September 30, 1987; of which $3,000,000 for research related to investigative activities shall remain available until expended; and of which not to exceed $500,000 is authorized to be made available for making payments or advances for expenses arising out of contractual or reimbursable agreements with State and local law enforcement agencies while engaged in cooperative activities related to terrorism: *Provided,* That notwithstanding the provisions of title 31 U.S.C. 3302, the Director of the Federal Bureau of Investigation may establish and collect fees to process fingerprint identification records for noncriminal employment and licensing purposes, and credit not more than $13,500,000 of such fees to this appropriation to be used for salaries and other expenses incurred in providing these services: *Provided further, That $13,120,000 shall remain available until expended for constructing and equipping new facilities at the FBI Academy, Quantico, Virginia: Provided further,* That not to exceed $45,000 shall be available for official reception and representation expenses.

DRUG ENFORCEMENT ADMINISTRATION

SALARIES AND EXPENSES

For necessary expenses of the Drug Enforcement Administration, including not to exceed $70,000 to meet unforeseen emergencies of a confidential character, to be expended under the direction of the Attorney General, and to be accounted for solely on his certificate; purchase of not to exceed [five] *seven* hundred fifty-two passenger motor vehicles of which four hundred eighty-nine are for replacement only for police-type use without regard to the general purchase price limitation for the current fiscal year; and acquisition, lease, maintenance, and operation of aircraft; [$353,421,000] *$380,000,000,* of which not to exceed $1,200,000 for research shall remain available until expended and not to exceed $1,700,000 for purchase of evidence and payments for information shall remain available until September 30, 1987.

IMMIGRATION AND NATURALIZATION SERVICE

SALARIES AND EXPENSES

For expenses, not otherwise provided for, necessary for the administration and enforcement of the laws relating to immigration, naturalization, and alien registration, including not to exceed $50,000 to meet unforeseen emergencies of a confidential character, to be expended under the direction of the Attorney General and accounted for solely on his certificate; purchase for police-type use (not to exceed four hundred ninety, all of which shall be for replacement only) and hire of passenger motor vehicles; acquisition, lease, maintenance and operation of aircraft; and research related to immigration enforcement; [$577,510,000] *$600,000,000,* of which not to exceed $400,000 for research shall remain available until expended: *Provided,* That none of the funds available to the Immigration and Naturalization Service shall be available for administrative expenses to pay any employee overtime pay in an amount in excess of [$20,000] *$25,000* except in such instances when the Commissioner makes a determination that this restriction is impossible to implement: *Provided further,* That uniforms may be purchased without regard to the general purchase price limitation for the current fiscal year: *Provided further, That no funds appropriated in this Act may be used to implement Immigration and Naturalization Service reorganization proposals which would have the purpose of or would result in the closing of the Northern Regional Office of the Immigration and Naturalization Service at Fort Snelling, Minnesota.*

FEDERAL PRISON SYSTEM

SALARIES AND EXPENSES

For expenses necessary for the administration, operation, and maintenance of Federal penal and correctional institutions, including purchase (not to exceed one hundred nine, of which ninety-four are for replacement only) and hire of law enforcement and passenger motor vehicles; [$550,334,000] *$554,360,000*: *Provided,* That there may be transferred to the Health Resources and Services Administration such amounts as may be necessary, in the discretion of the Attorney General, for direct expenditures by that Administration for medical relief for inmates of Federal penal and correctional institutions: *Provided further,* That uniforms may be purchased without regard to the general purchase price limitation for the current fiscal year.

NATIONAL INSTITUTE OF CORRECTIONS

For carrying out the provisions of sections 4351-4353 of title 18, United States Code, which established a National Institute of Corrections, [$12,226,000] *$12,000,000,* to remain available until expended.

BUILDINGS AND FACILITIES

For planning, acquisition of sites and construction of new facilities; purchase and acquisition of facilities and remodeling and equipping of such facilities for penal and

correctional use, including all necessary expenses incident thereto, by contract or force account; and constructing, remodeling, and equipping necessary buildings and facilities at existing penal and correctional institutions, including all necessary expenses incident thereto, by contract or force account, $46,063,000, to remain available until expended: *Provided*, That labor of United States prisoners may be used for work performed under this appropriation.

FEDERAL PRISON INDUSTRIES, INCORPORATED

The Federal Prison Industries, Incorporated, is hereby authorized to make such expenditures, within the limits of funds and borrowing authority available, and in accord with the law, and to make such contracts and commitments, without regard to fiscal year limitations as provided by section 104 of the Government Corporation Control Act, as amended, as may be necessary in carrying out the program set forth in the budget for the current fiscal year for such corporation, including purchase of not to exceed five (for replacement only) and hire of passenger motor vehicles, except as hereinafter provided.

LIMITATION ON ADMINISTRATIVE AND VOCATIONAL EXPENSES, FEDERAL PRISON INDUSTRIES, INCORPORATED

Not to exceed [$2,070,000] *$2,102,000* of the funds of the corporation shall be available for its administrative expenses, and not to exceed [$6,920,000] *$7,018,000* for the expenses of vocational training of prisoners, both amounts to be available for services as authorized by 5 U.S.C. 3109, and to be computed on an accrual basis to be determined in accordance with the corporation's prescribed accounting system in effect on July 1, 1946, and such amounts shall be exclusive of depreciation, payment of claims, and expenditures which the said accounting system requires to be capitalized or charged to cost of commodities acquired or produced, including selling and shipping expenses, and expenses in connection with acquisition, construction, operation, maintenance, improvement, protection, or disposition of facilities and other property belonging to the corporation or in which it has an interest.

OFFICE OF JUSTICE PROGRAMS

JUSTICE ASSISTANCE

For grants, contracts, cooperative agreements, and other assistance authorized by the Justice Assistance Act of 1984, Runaway Youth and Missing Children Act Amendments of 1984, and the Missing Children Assistance Act including salaries and expenses in connection therewith, [$135,197,000] *$130,000,000* to remain available until expended; and for grants, contracts, cooperative agreements, and other assistance authorized by title II of the Juvenile Justice and Delinquency Prevention Act of 1974, as amended, including salaries and expenses in connection therewith, [$70,282,000] *$62,100,000*, to remain available until expended. In addition, $5,000,000 for the purpose of making grants to States for their expenses by reason of Mariel Cubans having to be incarcerated in State facilities for terms requiring incarceration for the full period October 1, 1985 through September 30, 1986 following their conviction of a felony committed after having been paroled into the United States by the Attorney General: *Provided*, That within thirty days of enactment of this Act the Attorney General shall announce in the Federal Register that this appropriation will be made available to the States whose Governors certify by February 1, 1986 a listing of names of such Mariel Cubans incarcerated in their respective facilities: *Provided further*, That the Attorney General, not later than April 1, 1986, will complete his review of the certified listings of such incarcerated Mariel Cubans, and make grants to the States on the basis that the certified number of such incarcerated persons in a State bears to the total certified number of such incarcerated persons: *Provided further*, That the amount of reimbursements per prisoner per annum shall not exceed $12,000.

GENERAL PROVISIONS—DEPARTMENT OF JUSTICE

SEC. 201. A total of not to exceed $75,000 from funds appropriated to the Department of Justice in this title shall be available for official reception and representation expenses in accordance with distributions, procedures, and regulations established by the Attorney General.

SEC. 202. Notwithstanding any other provision of law or this Act, materials produced by convict labor may be used in the construction of any highways or portion of highways located on Federal-aid systems, as described in section 103 of title 23, United States Code.

SEC. 203. Appropriations for "Salaries and expenses, General Administration", "Salaries and expenses, United States [Attorneys and] Marshals *Service*", "Salaries and expenses, Federal Bureau of Investigation", "Salaries and expenses, Immigration and Naturalization Service", and "Salaries and expenses, Federal Prison System", shall be available for uniforms and allowances therefor as authorized by law (5 U.S.C. 5901-5902).

SEC. 204. (a) Subject to subsection (b) of this section, authorities contained in Public Law 96-132, "The Department of Justice Appropriation Authorization Act, Fiscal Year 1980", shall remain in effect until the termination date of this Act or until the effective date of a Department of Justice Appropriation Authorization Act, whichever is earlier.

(b)(1) With respect to any undercover investigative operation of the Federal Bureau of Investigation or the Drug Enforcement Administration which is necessary for the detection and prosecution of crimes against the United States or for the collection of foreign intelligence or counterintelligence—

(A) sums authorized to be appropriated for the Federal Bureau of Investigation and for the Drug Enforcement Administration, for fiscal year 1986, may be used for purchasing property, buildings, and other facilities, and for leasing space, within the United States, the District of Columbia, and the territories and possessions of the United States, without regard to section 1341 of title 31 of the United States Code, section 3732(a) of the Revised Statutes (41 U.S.C. 11(a)), section 305 of the Act of June 30, 1949 (63 Stat. 396; 41 U.S.C. 255), the third undesignated paragraph under the heading "Miscellaneous" of the Act of March 3, 1877 (19 Stat. 370; 40 U.S.C. 34), section 3324 of title 31 of the United States Code, section 3741 of the Revised Statutes (41 U.S.C. 22), and subsections (a) and (c) of section 304 of the Federal Property and Administrative Service Act of 1949 (63 Stat. 395; 41 U.S.C. 254 (a) and (c)),

(B) sums authorized to be appropriated for the Federal Bureau of Investigation and for the Drug Enforcement Administration, for fiscal year 1986, may be used to establish or to acquire proprietary corporations or business entities as part of an undercover investigative operation, and to operate such corporations or business entities on a commercial basis, without regard to section 9102 of title 31 of the United States Code,

(C) sums authorized to be appropriated for the Federal Bureau of Investigation and for the Drug Enforcement Administration, for fiscal year 1986, and the proceeds from such undercover operation, may be deposited in banks or other financial institutions, without regard to section 648 of title 18 of the United States Code and section 3302 of title 31 of the United States Code, and

(D) proceeds from such undercover operation may be used to offset necessary and reasonable expenses incurred in such operation, without regard to section 3302 of title 31 of the United States Code,

only, in operations designed to detect and prosecute crimes against the United States, upon the written certification of the Director of the Federal Bureau of Investigation (or, if designated by the Director, a member of the Undercover Operations Review Committee established by the Attorney General in the Attorney General's Guidelines on Federal Bureau of Investigation Undercover Operations, as in effect on July 1, 1983) or the Administrator of the Drug Enforcement Administration, as the case may be, and the Attorney General (or, with respect to Federal Bureau of Investigation undercover operations, if designated by the Attorney General, a member of such Review Committee), that any action authorized by subparagraph (A), (B), (C), or (D) is necessary for the conduct of such undercover operation. If the undercover operation is designed to collect foreign intelligence or counterintelligence, the certification that any action authorized by subparagraph (A), (B), (C), or (D) is necessary for the conduct of such undercover operation shall be by the Director of the Federal Bureau of Investigation (or, if designated by the Director, the Assistant Director, Intelligence Division) and the Attorney General (or, if designated by the Attorney General, the Counsel for Intelligence Policy). Such certification shall continue in effect for the duration of such undercover operation, without regard to fiscal years.

(2) As soon as the proceeds from an undercover investigative operation with respect to which an action is authorized and carried out under subparagraphs (C) and (D) of subsection (a) are no longer necessary for the conduct of such operation, such proceeds or the balance of such proceeds remaining at the time shall be deposited in the Treasury of the United States as miscellaneous receipts.

(3) If a corporation or business entity established or acquired as part of an undercover operation under subparagraph (B) of paragraph (1) with a net value of over $50,000 is to be liquidated, sold, or otherwise disposed of, the Federal Bureau of Investigation or the Drug Enforcement Administration, as much in advance as the Director or the Administrator, or the designee of the Director or the Administrator, determines is practicable, shall report the circumstances to the Attorney General and the Comptroller General. The proceeds of the liquidation, sale, or other disposition, after obligations are met, shall be deposited in the Treasury of the United States as miscellaneous receipts.

(4)(A) The Federal Bureau of Investigation or the Drug Enforcement Administration, as the case may be, shall conduct a detailed financial audit of each undercover investigative operation which is closed in fiscal year 1986,

(i) submit the results of such audit in writing to the Attorney General, and

(ii) not later than 180 days after such undercover operation is closed, submit a report to the Congress concerning such audit.

(B) The Federal Bureau of Investigation and the Drug Enforcement Administration shall each also submit a report annually to the Congress specifying as to their respective undercover investigative operations—

(i) the number, by programs, of undercover investigative operations pending as of the end of the one-year period for which such report is submitted,

(ii) the number, by programs, of undercover investigative operations commenced in the one-year period preceding the period for which such report is submitted, and

(iii) the number, by programs, of undercover investigative operations closed in the one-year period preceding the period for which such report is submitted and, with respect to each such closed undercover operation, the results obtained. With respect to each such closed undercover operation which involves any of the sensitive circumstances specified in the Attorney General's Guidelines on Federal Bureau of Investigation Undercover Operations, such report shall contain a detailed description of the operation and related matters, including information pertaining to—

(I) the results,

(II) any civil claims, and

(III) identification of such sensitive circumstances involved, that arose at any time during the course of such undercover operation.

(5) For purposes of paragraph (4)—

(A) the term "closed" refers to the earliest point in time at which—

(I) all criminal proceedings (other than appeals) are concluded, or

(II) covert activities are concluded, whichever occurs later,

(B) the term "employees" means employees, as defined in section 2105 of title 5 of the United States Code, of the Federal Bureau of Investigation, and

(C) the terms "undercover investigative operation" and "undercover operation" mean any undercover investigative operation of the Federal Bureau of Investigation or the Drug Enforcement Administration (other than a foreign counterintelligence undercover investigative operation)—

(i) in which—

(I) the gross receipts (excluding interest earned) exceed $50,000, or

(II) expenditures (other than expenditures for salaries of employees) exceed $150,000, and

(ii) which is exempt from section 3302 or 9102 of title 31 of the United States Code,

except that clauses (i) and (ii) shall not apply with respect to the report required under subparagraph (B) of such paragraph.

This title may be cited as the "Department of Justice Appropriation Act, 1986".

TITLE III—DEPARTMENT OF STATE

ADMINISTRATION OF FOREIGN AFFAIRS

SALARIES AND EXPENSES

For necessary expenses of the Department of State and the Foreign Service, not otherwise provided for, including obligations of the United States abroad pursuant to treaties, international agreements, and binational contracts (including obligations assumed in Germany on or after June 5, 1945), expenses authorized by section 9 of the Act of August 31, 1964, as amended (31 U.S.C. 3721), and section 2 of the State Department Basic Authorities Act of 1956, as amended (22 U.S.C. 2669); telecommunications; expenses necessary to provide maximum physical security in Government-owned and leased properties and vehicles abroad; permanent representation to certain international organizations in which the United States participates pursuant to treaties, conventions, or specific Acts of Congress; acquisition by exchange or purchase of vehicles as authorized by law, except that special requirement vehicles may be purchased without regard to any price limitation otherwise established by law; [$1,452,689,000] *$1,459,000,000.*

[REOPENING CONSULATES

[For necessary expenses of the Department of State and the Foreign Service for reopening and operating certain United States consulates as specified in section 103 of the Department of State Authorization Act, fiscal years 1982 and 1983, $1,700,000.]

REPRESENTATION ALLOWANCES

For representation allowances as authorized by section 905 of the Foreign Service Act of 1980, as amended (22 U.S.C. 4085), and for representation by United States missions to the United Nations and the Organization of American States, $4,700,000.

PROTECTION OF FOREIGN MISSIONS AND OFFICIALS

For expenses, not otherwise provided, to enable the Secretary of State to provide for extraordinary protective services in accordance with the provisions of section 605 of Public Law 98-164, and to provide for the protection of foreign missions in accordance with the provisions of 3 U.S.C. 208, [$9,900,000] *$9,500,000.*

ACQUISITION[, OPERATION,] AND MAINTENANCE OF BUILDINGS ABROAD

For necessary expenses for carrying out the Foreign Service Buildings Act of 1926, as amended (22 U.S.C. 292-300), [$341,992,000] *$336,600,000,* to remain available until expended*: Provided, That balances of previous appropriations for "Acquisition, operation, and maintenance of buildings abroad" shall be transferred to and merged with this appropriation.*

[ACQUISITION, OPERATION, AND MAINTENANCE OF BUILDINGS ABROAD (SPECIAL FOREIGN CURRENCY PROGRAM)

[For payments in foreign currencies which the Treasury Department determines to be excess to the normal requirements of the United States for the purposes authorized by section 4 of the Foreign Service Buildings Act of 1926, as amended (22 U.S.C. 295), $2,707,000, to remain available until expended.]

EMERGENCIES IN THE DIPLOMATIC AND CONSULAR SERVICE

For expenses necessary to enable the Secretary of State to meet unforeseen emergencies arising in the Diplomatic and Consular Service to be expended pursuant to the requirement of 31 U.S.C. 3526(e), $4,400,000.

PAYMENT TO THE AMERICAN INSTITUTE IN TAIWAN

For necessary expenses to carry out the Taiwan Relations Act, Public Law 96-8 (93 Stat. 14), [$10,000,000] *$9,800,000.*

PAYMENT TO THE FOREIGN SERVICE RETIREMENT AND DISABILITY FUND

For payment to the Foreign Service Retirement and Disability Fund, as authorized by law, $118,174,000.

INTERNATIONAL ORGANIZATIONS AND CONFERENCES

CONTRIBUTIONS TO INTERNATIONAL ORGANIZATIONS

For expenses, not otherwise provided for, necessary to meet annual obligations of membership in international multilateral organizations, pursuant to treaties, conventions, or specific Acts of Congress, [$460,235,000] *$475,000,000: Provided,* That none of the funds appropriated in this paragraph shall be available for a United States contribution to an international organization for the United States share of interest costs made known to the United States Government by such organization for loans incurred on or after October 1, 1984, through external borrowings.

CONTRIBUTIONS FOR INTERNATIONAL PEACEKEEPING ACTIVITIES

For payments, not otherwise provided for, by the United States for expenses of the United Nations peacekeeping forces, [$47,400,000] *$36,400,000.*

INTERNATIONAL CONFERENCES AND CONTINGENCIES

For necessary expenses authorized by section 5 of the State Department Basic Authorities Act of 1956, contributions for the United States share of general expenses of international organizations and representation to such organizations, and personal services without regard to civil service and classification laws, $6,839,000, to remain available until expended, of which not to exceed $207,000 may be expended for representation as authorized by law.

INTERNATIONAL COMMISSIONS

For necessary expenses, not otherwise provided for, to meet obligations of the United States arising under treaties, conventions, or specific Acts of Congress, as follows:

INTERNATIONAL BOUNDARY AND WATER COMMISSION, UNITED STATES AND MEXICO

For necessary expenses for the United States Section of the United States and Mexico International Boundary and Water Commission, and to comply with laws applicable to the United States Section; and leasing of private property to remove therefrom sand, gravel, stone, and other materials, without regard to section 3709 of the Revised Statutes, as amended (41 U.S.C. 5); as follows:

SALARIES AND EXPENSES

For salaries and expenses, not otherwise provided for, including preliminary surveys, [$11,392,000] *$10,340,000: Provided,* That expenditures for the Rio Grande bank protection project shall be subject to the provisions and conditions contained in the appropriation for said project as provided by the Act approved April 25, 1945 (59 Stat. 89): *Provided further,* That the Anzalduas diversion dam shall not be operated for irrigation or water supply purposes in the United States unless suitable arrangements have been made with the prospective water users for repayment to the Government of such portions of the cost of said dam as shall have been allocated to such purposes by the Secretary of State[: *Provided further,* That not to exceed $1,800,000 of the amount appropriated in this paragraph shall be available for reimbursement of the city of San Diego, in the State of California, for expenses incurred in treating domestic sewage received from the city of Tijuana, in the State of Baja California, Mexico].

CONSTRUCTION

For detailed plan preparation and construction of authorized projects, to remain available until expended, $2,257,000.

AMERICAN SECTIONS, INTERNATIONAL COMMISSIONS

For necessary expenses, not otherwise provided for, including not to exceed $6,000 for representation, $3,755,000; for the International Joint Commission, including salaries and expenses of the Commissioners on the part of the United States who shall serve at the pleasure of the President; salaries of employees appointed by the Commissioners on the part of the United States with the approval solely of the Secretary of State; travel expenses and compensation of witnesses; and the International Boundary Commission, for necessary expenses, not otherwise provided for, including expenses required by awards to the Alaskan Boundary Tribunal and existing treaties between the United States and Canada or Great Britain.

INTERNATIONAL FISHERIES COMMISSIONS

For necessary expenses for international fisheries commissions, not otherwise provided for, $11,300,000: *Provided,* That the United States share of such expenses may be advanced to the respective commissions.

OTHER

UNITED STATES BILATERAL SCIENCE AND TECHNOLOGY AGREEMENTS

For expenses, not otherwise provided for, to enable the United States to participate in programs of scientific and technological cooperation with Yugoslavia $2,000,000, to remain available until expended.

PAYMENT TO THE ASIA FOUNDATION

For a grant to the Asia Foundation, $10,000,000, to remain available until expended.

[SOVIET-EAST EUROPEAN RESEARCH AND TRAINING

[For expenses not otherwise provided to enable the Secretary of State to reimburse private firms and American institutions of higher education for research contracts and graduate training for development and maintenance of knowledge about the Soviet Union and Eastern European countries, $5,000,000.]

GENERAL PROVISION—DEPARTMENT OF STATE

SEC. 301. Funds appropriated under this title shall be available, except as otherwise provided, *for salaries and expenses of personnel and dependents as authorized by the Foreign Service Act of 1980 (94 Stat. 2071); allowances and differentials as authorized by subchapter 59 of 5 U.S.C.;* for services as authorized by 5 U.S.C. 3109; *expenses as authorized by section 2 (a), (c), and (e) of the State Department Basic Authorization Act of 1956;* and hire of passenger or freight transportation.

SEC. 302. None of the funds appropriated in this title shall be used (1) to pay the United States contribution to any international organization which engages in the direct or indirect promotion of the principle or doctrine of one world government or one world citizenship; (2) for the promotion, direct or indirect, of the principle or doctrine of one world government or one world citizenship.

SEC. 303. Funds appropriated under this title shall be available for expenses of international arbitrations and other proceedings for the international resolution of disputes arising under treaties or other international agreements, including international air transport agreements, and arbitrations arising under contracts authorized by law for the performance of services or acquisition of property abroad.

This title may be cited as the "Department of State Appropriation Act, 1986".

TITLE IV—THE JUDICIARY

SUPREME COURT OF THE UNITED STATES

SALARIES AND EXPENSES

For expenses necessary for the operation of the Supreme Court, as required by law, excluding care of the building and grounds, including purchase, or hire, driving, maintenance and operation of an automobile for the Chief Justice and not to exceed $10,000 for the purpose of transporting Associate Justices, hire of passenger motor vehicles; not to exceed $10,000 for official reception and representation expenses; and for miscellaneous expenses, to be expended as the Chief Justice may approve; $15,000,000.

CARE OF THE BUILDING AND GROUNDS

For such expenditures as may be necessary to enable the Architect of the Capitol to carry out the duties imposed upon him by the Act approved May 7, 1934 (40 U.S.C. 13a-13b), including improvements, maintenance, repairs, equipment, supplies, materials, and appurtenances; special clothing for workmen; and personal and other services (including temporary labor without regard to the Classification and Retirement Acts, as amended), and for snow removal by hire of men and equipment or under contract, and for security installations both without compliance with section 3709 of the Revised Statutes, as amended (41 U.S.C. 5); [$2,200,000] *$2,275,000,* of which [$200,000] *$275,000* shall remain available until expended.

UNITED STATES COURT OF APPEALS FOR THE FEDERAL CIRCUIT

SALARIES AND EXPENSES

For salaries of the chief judge, judges, and other officers and employees, and for all necessary expenses of the court, $5,500,000.

UNITED STATES COURT OF INTERNATIONAL TRADE

SALARIES AND EXPENSES

For salaries of the chief judge and eight judges; salaries of the officers and employees of the court; services as authorized by 5 U.S.C. 3109; and necessary expenses of the court, including exchange of books and traveling expenses, as may be approved by the court; $6,400,000: *Provided,* That travel expenses of judges of the Court of International Trade shall be paid upon written certificate of the judge.

COURTS OF APPEALS, DISTRICT COURTS, AND OTHER JUDICIAL SERVICES

SALARIES OF JUDGES

For salaries of circuit judges; district judges (including judges of the district courts of the Virgin Islands, Guam, and the Northern Mariana Islands); judges of the United States Claims Court; bankruptcy judges; and justices and judges retired from office or from regular active service under title 28, United States Code, sections 371, 372, and 373; $103,000,000.

SALARIES OF SUPPORTING PERSONNEL

For the salaries of secretaries and law clerks to circuit, district, and bankruptcy judges, magistrates and staff, circuit executives, clerks of court, probation officers, pretrial service officers, staff attorneys, librarians, the supporting personnel of the United States Claims Court, and all other officers and employees of the Federal Judiciary, not otherwise specifically provided for, [$480,000,000] *$472,690,000: Provided,* That the secretaries and law clerks to judges shall be appointed in such number and at such rates of compensation as may be determined by the Judicial Conference of the United States: *Provided further,* That the number of staff attorneys to be appointed in each of the courts of appeals shall not exceed the ratio of one attorney for each authorized judgeship.

DEFENDER SERVICES

For the operation of Federal Public Defender and Community Defender organizations, the compensation and reimbursement of expenses of attorneys appointed to represent persons under the Criminal Justice Act of 1964, as amended, and the compensation of attorneys appointed to represent jurors in civil actions for the protection of their employment, as authorized by law; [$64,000,000] *$61,830,000,* to remain available until expended.

FEES OF JURORS AND COMMISSIONERS

For fees and expenses and refreshments of jurors; compensation of jury commissioners; and compensation of commissioners appointed in condemnation cases pursuant to Rule 71A(h) of the Federal Rules of Civil Procedure; [$45,000,000] *$43,400,000,* to remain available until expended: *Provided,* That the compensation of land commissioners shall not exceed the daily equivalent of the highest rate payable under section 5332 of title 5, United States Code.

EXPENSES OF OPERATION AND MAINTENANCE OF THE COURTS

For necessary operation and maintenance expenses, not otherwise provided for, incurred by the Judiciary, including the purchase of firearms and ammunition, [$139,000,000] *$136,000,000,* of which $6,000,000 shall be available for contractual services and expenses relating to the supervision of drug dependent offenders.

SPACE AND FACILITIES

For rental of space, alterations, and related services and facilities for the United States Courts of Appeals, District Courts, Bankruptcy Courts, and Claims Court, [$150,000,000] *$148,000,000.*

COURT SECURITY

For necessary expenses, not otherwise provided for, incident to the procurement, installation, and maintenance of security equipment and protective services for the United States Courts in courtrooms and adjacent areas, including building ingress-egress control, inspection of packages, directed security patrols, and other similar activities; [$32,000,000] *$33,500,000,* to be expended directly or transferred to the United States Marshals Service which shall be responsible for administering elements of the Judicial Security Program consistent with standards or guidelines agreed to by the Director of the Administrative Office of the United States Courts and the Attorney General.

ADMINISTRATIVE OFFICE OF THE UNITED STATES COURTS

SALARIES AND EXPENSES

For necessary expenses of the Administrative Office of the United States Courts, including travel, advertising, hire of a passenger motor vehicle, and rent in the District of Columbia and elsewhere, [$30,000,000] *$29,200,000,* of which an amount not to exceed $5,000 is authorized for official reception and representation expenses.

FEDERAL JUDICIAL CENTER

SALARIES AND EXPENSES

For necessary expenses of the Federal Judicial Center, as authorized by Public Law 90-219, [$9,700,000] *$9,600,000.*

GENERAL PROVISIONS—THE JUDICIARY

SEC. 401. Appropriations and authorizations made in this title which are available for salaries and expenses shall be available for services as authorized by 5 U.S.C. 3109.

SEC. 402. Appropriations made in this title shall be available for salaries and expenses of the Temporary Emergency Court of Appeals authorized by Public Law 92-210.

SEC. 403. The position of Trustee Coordinator in the Bankruptcy Courts of the United States shall not be limited to persons with formal legal training.

SEC. 404. Notwithstanding any other provision of law, the Administrative Office of the United States Courts, or any other agency or instrumentality of the United States, is prohibited from restricting solely to staff of the Clerks of the United States Bankruptcy Courts the issuance of notices to creditors and other interested parties. The Administrative Office shall permit and encourage the preparation and mailing of such notices to be performed by or at the expense of the debtors, trustees or such other interested parties as the Court may direct and approve. The Administrator of the United States Courts shall make appropriate provisions for the use of and accounting for any postage required pursuant to such directives. The provisions of this paragraph shall terminate on October 1, 1986.

This title may be cited as "the Judiciary Appropriation Act, 1986".

TITLE V—RELATED AGENCIES

DEPARTMENT OF TRANSPORTATION

MARITIME ADMINISTRATION

OPERATING-DIFFERENTIAL SUBSIDIES (LIQUIDATION OF CONTRACT AUTHORITY)

For the payment of obligations incurred for operating-differential subsidies as authorized by the Merchant Marine Act, 1936, as amended, $299,500,000, to remain available until expended.

RESEARCH AND DEVELOPMENT

For necessary expenses for research and development activities, as authorized by law, $9,900,000, to remain available until expended.

OPERATIONS AND TRAINING

For necessary expenses of operations and training activities authorized by law, [$69,812,000] *$68,736,000*, to remain available until expended: *Provided*, That reimbursements may be made to this appropriation from receipts to the "Federal Ship Financing Fund" for administrative expenses in support of that program.

GENERAL PROVISIONS—MARITIME ADMINISTRATION

Notwithstanding any other provision of this Act, the Maritime Administration is authorized to furnish utilities and services and make necessary repairs in connection with any lease, contract, or occupancy involving Government property under control of the Maritime Administration and payments received by the Maritime Administration for utilities, services, and repairs so furnished or made shall be credited to the appropriation charged with the cost thereof: *Provided*, That rental payments under any such lease, contract, or occupancy on account of items other than such utilities, services, or repairs shall be covered into the Treasury as miscellaneous receipts.

No obligations shall be incurred during the current fiscal year from the construction fund established by the Merchant Marine Act, 1936, or otherwise, in excess of the appropriations and limitations contained in this Act, or in any prior appropriation Act and all receipts which otherwise would be deposited to the credit of said fund shall be covered into the Treasury as miscellaneous receipts.

ARMS CONTROL AND DISARMAMENT AGENCY

ARMS CONTROL AND DISARMAMENT ACTIVITIES

For necessary expenses, not otherwise provided for, for arms control and disarmament activities, including not to exceed $43,000 for official reception and representation expenses, authorized by the Act of September 26, 1961, as amended (22 U.S.C. 2551 et seq.), [$25,614,000] *$26,100,000.*

BOARD FOR INTERNATIONAL BROADCASTING

GRANTS AND EXPENSES

For expenses of the Board for International Broadcasting, including grants to RFE/RL, Inc., [$98,000,000] *$106,822,000*, of which not to exceed $52,000 may be made available for official reception and representation expenses.

COMMISSION ON THE BICENTENNIAL OF THE UNITED STATES CONSTITUTION

SALARIES AND EXPENSES

For necessary expenses of the Commission on the Bicentennial of the United States Constitution authorized by Public Law 98-101 (97 Stat. 719-723), $775,000, to remain available until expended.

COMMISSION ON CIVIL RIGHTS

SALARIES AND EXPENSES

For expenses necessary for the Commission on Civil Rights, including hire of passenger motor vehicles, [$12,061,000] *$12,320,000.*

COMMISSION ON SECURITY AND COOPERATION IN EUROPE

SALARIES AND EXPENSES

For expenses necessary for the Commission on Security and Cooperation in Europe, as authorized by Public Law 94-304, $550,000 to remain available until expended: *Provided*, That not to exceed $6,000 of such amount shall be available for official reception and representation expenses.

COMMISSION ON THE UKRAINE FAMINE

For necessary expenses for the Commission on the Ukraine Famine, as provided for in section 136 of Public Law 98-473, $400,000, to remain available until expended.

EQUAL EMPLOYMENT OPPORTUNITY COMMISSION

SALARIES AND EXPENSES

For necessary expenses for the Equal Employment Opportunity Commission as authorized by title VII of the Civil Rights Act of 1964, as amended (29 U.S.C. 206(d) and 621-634), including services as authorized by 5 U.S.C. 3109; hire of passenger motor vehicles; not to exceed [$19,500,000] *$20,500,000* for payments to State and local enforcement agencies for services to the Commission pursuant to title VII of the Civil Rights Act, as amended, and sections 6 and 14 of the Age Discrimination in Employment Act; [$165,000,000] *$163,240,000.*

FEDERAL COMMUNICATIONS COMMISSION

SALARIES AND EXPENSES

For necessary expenses for the Federal Communications Commission, as authorized by law, including uniforms and allowances therefor, as authorized by law (5 U.S.C. 5901-02); not to exceed $700,000 for land and structures; not to exceed $200,000 for improvement and care of grounds and repair to buildings; not to exceed $3,000 for official reception and representation expenses; purchase (not to exceed ten) and hire of motor vehicles; special counsel fees; and services as authorized by 5 U.S.C. 3109; [$92,285,000] *$94,400,000.* Not to exceed $300,000 of the foregoing amount shall remain available until September 30, 1987, for research and policy studies.

FEDERAL MARITIME COMMISSION

SALARIES AND EXPENSES

For necessary expenses of the Federal Maritime Commission, including services as authorized by 5 U.S.C. 3109; hire of passenger motor vehicles; and uniforms or allowances therefor, as authorized by 5 U.S.C. 5901-02; [$11,606,000] *$11,873,000*: *Provided*, That not to exceed $1,500 shall be available for official reception and representation expenses.

FEDERAL TRADE COMMISSION

SALARIES AND EXPENSES

For necessary expenses of the Federal Trade Commission, including uniforms or allowances therefor, as authorized by 5 U.S.C. 5901-5902; services as authorized by 5 U.S.C. 3109; hire of passenger motor vehicles; and not to exceed $2,000 for official reception and representation expenses; the sum of [$63,900,000] *$65,500,000: Provided, That the funds appropriated in this paragraph are subject to the limitations and provisions of sections 10(a) and 10(c) (notwithstanding section 10(e)), 11(b), 18, and 20 of the Federal Trade Commission Improvements Act of 1980 (Public Law 96-252; 94 Stat. 374).*

INTERNATIONAL TRADE COMMISSION

SALARIES AND EXPENSES

For necessary expenses of the International Trade Commission, including hire of passenger motor vehicles and services as authorized by 5 U.S.C. 3109, and not to exceed $2,500 for official reception and representation expenses, [$28,900,000] *$28,060,000.*

JAPAN-UNITED STATES FRIENDSHIP COMMISSION

JAPAN-UNITED STATES FRIENDSHIP TRUST FUND

For expenses of the Japan-United States Friendship Commission as authorized by Public Law 94-118, as amended, from the interest earned on the Japan-United States Friendship Trust Fund, $1,550,000, to remain available until expended; and an amount of Japanese currency not to exceed the equivalent of $1,200,000 based on exchange rates at the time of payment of such amounts, to remain available until expended: Provided, That not to exceed a total of $2,500 of such amounts shall be available for official reception and representation expenses.

LEGAL SERVICES CORPORATION

PAYMENT TO THE LEGAL SERVICES CORPORATION

For payment to the Legal Services Corporation to carry out the purposes of the Legal Services Corporation Act of 1974, as amended, [$305,500,000] *$306,400,000*[: *Provided*, That none of the funds appropriated in this paragraph shall be expended for any purpose prohibited or limited by or contrary to any of the provisions of—

[(1) Public Law 98-411 and Public Law 98-396 unless paragraph (2) or (3) applies;

[(2) authorizing legislation for fiscal year 1986 for the Legal Services Corporation as passed by the House of Representatives unless paragraph (3) applies; or

[(3) authorizing legislation for fiscal year 1986 for the Legal Services Corporation as enacted into law]

: Provided, That none of the funds appropriated in this Act for the Legal Services Corporation shall be used to bring a class action suit against the Federal Government or any State or local government unless—

(1) the project director of a recipient has expressly approved the filing of such an action in accordance with policies established by the governing body of such recipient;

(2) the class relief which is the subject of such an action is sought for the primary benefit of individuals who are eligible for legal assistance; and

(3) that prior to filing such an action, the recipient project director has determined that the government entity is not likely to change the policy or practice in question, that the policy or practice will continue to adversely affect eligible clients, that the recipient has given notice of its intention to seek class relief and that responsible efforts to resolve without litigation the adverse effects of the policy or practice have not been successful or would be adverse to the interest of the clients:

except that this proviso may be superseded by regulations governing the bringing of class action suits promulgated by a majority of the Board of Directors of the Corporation who have been confirmed in accordance with section 1004(a) of the Legal Services Corporation Act: Provided further, That none of the funds appropriated in this Act made available by the Legal Services Corporation may be used—

(1) to pay for any publicity or propaganda intended or designed to support or defeat legislation pending before Congress or State or local legislative bodies or intended or designed to influence any decision by a Federal, State, or local agency;

(2) to pay for any personal service, advertisement, telegram, telephone communication, letter, printed or written matter, or other device, intended or designed to influence any decision by a Federal, State, or local agency, except when legal assistance is provided by an employee of a recipient to an eligible client on a particular application, claim, or case, which directly involves the client's legal rights or responsibilities;

(3) to pay for any personal service, advertisement, telegram, telephone communication, letter, printed or written matter, or any other device intended or designed to influence any Member of Congress or any other Federal, State, or local elected official—

(A) to favor or oppose any referendum, initiative, constitutional amendment, or any similar procedure of the Congress, any State legislature, any local council or any similar governing body acting in a legislative capacity,

(B) to favor or oppose an authorization or appropriation directly affecting the authority, function, or funding of the recipient or the Corporation, or

(C) to influence the conduct of oversight proceedings of the recipient or the Corporation;

(4) to pay for any personal service, advertisement, telegram, telephone communication, letter, printed or written matter, or any other device intended or designed to influence any Member of Congress or any other Federal, State, or local elected official to favor or oppose any Act, bill, resolution, or similar legislation, except that this proviso shall not preclude funds from being used to provide communication directly to a Federal, State, or local elected official on a specific and distinct matter where the purpose of such communication is to bring the matter to the official's attention if—

(A) the project director of a recipient has expressly approved in writing the undertaking of such communication to be made on behalf of a client or class of clients in accordance with policy established by the governing body of the recipient; and

(B) the project director of a recipient has determined prior to the undertaking of such communication, that—

(i) the client and each such client is in need of relief which can be provided by the legislative body involved;

(ii) appropriate judicial and administrative relief have been exhausted; and

(iii) documentation has been secured from each eligible client that includes a statement of the specific legal interests of the client, except that such communication may not be the result of participation in a coordinated effort to provide such communications under this proviso; and

(C) the project director of a recipient maintains documentation of the expense and time spent under this proviso as part of the records of the recipient; or

(D) the project director of a recipient has approved the submission of a communication to a legislator requesting introduction of a private relief bill:

except that nothing in this proviso shall prohibit communications made in response to a request from a Federal, State, or local official: Provided further, That none of the funds appropriated in this Act made available by the Legal Services Corporation may be used to pay for any administrative or related costs associated with an activity prohibited in clause (1), (2), (3), or (4) of the previous proviso: Provided further, That none of the funds appropriated under this Act for the Legal Services Corporation will be expended to provide legal assistance for or on behalf of any alien unless the alien is present in the United States and is—

(1) an alien lawfully admitted for permanent residence as defined in section 101(a)(20) of the Immigration and Nationality Act (8 U.S.C. 1101(a)(20));

(2) an alien who is either married to a United States citizen or is a parent or an unmarried child under the age of twenty-one years of such a citizen and who has filed an application for adjustment of status to permanent resident under the Immigration and Nationality Act, and such application has not been rejected;

(3) an alien who is lawfully present in the United States pursuant to an admission under section 207 of the Immigration and Nationality Act (8 U.S.C. 1157, relating to refugee admissions) or who has been granted asylum by the Attorney General under such Act; or

(4) an alien who is lawfully present in the United States as a result of the Attorney General's withholding of deportation pursuant to section 243(h) of the Immigration and Nationality Act (8 U.S.C. 1253(h)):

Provided further, That an alien who is lawfully present in the United States as a result of being granted conditional entry pursuant to section 203(a)(7) of the Immigration and Nationality Act (8 U.S.C. 1153(a)(7)) before April 1, 1980, because of persecution or fear of persecution on account of race, religion, or political opinion or because of being uprooted by catastrophic natural calamity shall be deemed, for purposes of the previous proviso, to be an alien described in clause (3) of the previous proviso: Provided further, That none of the funds appropriated for the Legal Services Corporation may be used to support or conduct training programs for the purpose of advocating particular public policies or encouraging political activities, labor or antilabor activities, boycotts, picketing, strikes, and demonstrations, including the dissemination of information about such policies or activities, except that this provision shall not be construed to prohibit the training of attorneys or paralegal personnel necessary to prepare them to provide adequate legal assistance to eligible clients or to advise any eligible client as to the nature of the legislative process or inform any eligible client of his rights under statute, order, or regulation: Provided further, That none of the funds appropriated in this Act for the Legal Services Corporation may be used to carry out the procedures established pursuant to section 1011(2) of the Legal Services Corporation Act unless the Corporation prescribes procedures to insure that financial assistance under this title shall not be terminated, and a suspension of financial assistance shall not be continued for more than thirty days, unless the grantee, contractor, or person or entity receiving financial assistance under this title has been afforded reasonable notice and opportunity for a timely, full, and fair hearing and, when requested, such hearing shall be conducted by an independent hearing examiner, subject to the following conditions—

(1) such request for a hearing shall be made to the Corporation within thirty days after receipt of notice to terminate financial assistance, deny an application for refunding, or suspend financial assistance and such hearing shall be conducted within thirty days of receipt of such request for a hearing;

(2) the Corporation shall make such final decision within thirty days after completion of such hearing; and

(3) hearing examiners shall be appointed by the Corporation in accordance with procedures established in regulations promulgated by the Corporation:

Provided further, That none of the funds appropriated in this Act for the Legal Services Corporation may be used to carry out the procedures established pursuant to section 1011(2) of the Legal Services Corporation Act unless the Corporation prescribes procedures to ensure that an application for refunding shall not be denied unless the grantee, contractor, or person or entity receiving assistance under this title has been afforded reasonable notice and opportunity for a timely, full, and fair hearing to show cause why such action should not be taken and subject to all other conditions of the previous proviso: Provided further, That none of the funds appropriated in this Act for the Legal Services Corporation shall be used by the Corporation in making grants or entering into contracts for legal assistance unless the Corporation insures that the recipient is either (1) a private attorney or attorneys (for the sole purpose of furnishing legal assistance to eligible clients) or (2) a qualified nonprofit organization chartered under the laws of one of the States, a purpose of which is furnishing legal assistance to eligible clients, the majority of the board of directors or other governing body of which organization is comprised of attorneys who are admitted to practice in one of the States and who are appointed to terms of office on such board or body by the governing bodies of State, county, or municipal bar associations

the membership of which represents a majority of the attorneys practicing law in the locality in which the organization is to provide legal assistance.

MARINE MAMMAL COMMISSION

SALARIES AND EXPENSES

For necessary expenses of the Marine Mammal Commission as authorized by title II of Public Law 92-522, as amended, $900,000.

OFFICE OF THE UNITED STATES TRADE REPRESENTATIVE

NATIONAL ENDOWMENT FOR DEMOCRACY

For grants made by the United States Information Agency to the National Endowment for Democracy as authorized by the National Endowment for Democracy Act, [$19,300,000] *$10,000,000, notwithstanding section 506(c) of the National Endowment for Democracy Act, as amended.*

GENERAL PROVISIONS—UNITED STATES INFORMATION AGENCY

SEC. 501. None of the funds provided in this Act for the United States Information Agency shall be awarded to the National Democratic Institute for International Affairs, the National Republican Institute for International Affairs, or any other organization connected in any manner with any political party operating in the United States.

SEC. 502. Notwithstanding the provisions of 31 U.S.C. 3302(b) or any law or limiation of authority, the Eisenhower Exchange Fellowship Program may retain and use for program purposes interest and dividends earned on funds granted to it under or pursuant to this or any previous or subsequent Act.

TITLE VI—GENERAL PROVISIONS

SEC. 601. No part of any appropriation contained in this Act shall be used for publicity or propaganda purposes not authorized by the Congress.

SEC. 602. No part of any appropriation contained in this Act shall remain available for obligation beyond the current fiscal year unless expressly so provided herein.

SEC. 603. The expenditure of any appropriation under this Act for any consulting service through procurement contract, pursuant to 5 U.S.C. 3109, shall be limited to those contracts where such expenditures are a matter of public record and available for public inspection, except where otherwise provided under existing law, or under existing Executive order issued pursuant to existing law.

SEC. 604. If any provision of this Act or the application of such provision to any person or circumstances shall be held invalid, the remainder of the Act and the application of such provision to persons or circumstances other than those as to which it is held invalid shall not be affected thereby.

SEC. 605. None of the funds appropriated in titles II and V of this Act may be used for any activity to alter the per se prohibition on resale price maintenance in effect under Federal antitrust laws: *Provided*, That nothing in this provision shall prohibit any employee of a department or agency for which funds are provided in titles II and V of this Act from presenting testimony on this matter before appropriate committees of the House and Senate: *Provided further, it is the sense of the Congress that—*

(1) the antitrust enforcement policy guidelines stated in 'Vertical Restraints Guidelines', published by the Department of Justice on January 23, 1985—

(A) are not an accurate expression of the Federal antitrust laws or of congressional intent with regard to the application of such laws to resale price maintenance and other vertical restraints of trade;

(B) should not be accorded any force of law or be treated by the courts of the United States as binding or persuasive; and

(C) should be recalled by the Attorney General for review and should not be reissued before providing fair procedures for public participation in the formulation of such policy guidelines, including public notice and hearings;

(2) any antitrust enforcement policy guidelines formulated or adopted by the Department of Justice—

(A) cannot and do not have the force of law; and

(B) cannot modify or supersede the antitrust laws, regardless of the fact that public participation may be permitted in the formulation or adoption of such policy guidelines.

[SEC. 606. None of the funds appropriated by the Act to the Legal Services Corporation may be used by the Corporation or any recipient to participate in any litigation with respect to abortion.]

SEC. 606. (a) None of the funds provided under this Act shall be available for obligation or expenditure through a reprogramming of funds which: (1) creates new programs; (2) eliminates a program, project, or activity; (3) increases funds or personnel by any means for any project or activity for which funds have been denied or restricted; (4) relocates an office or employees; (5) reorganizes offices, programs, or activities; or (6) contracts out any functions or activities presently performed by Federal employees; unless the Appropriations Committees of both Houses of Congress are notified fifteen days in advance of such reprogramming of funds.

(b) None of the funds provided under this Act shall be available for obligation or expenditure for activities, programs, or projects through a reprogramming of funds in excess of $250,000 or 10 per centum, whichever is less, that: (1) augments existing programs, projects, or activities; (2) reduces by 10 per centum funding for any existing program, project, or activity, or numbers of personnel by 10 per centum as approved by Congress; or (3) results from any general savings from a reduction in personnel which would result in a change in existing programs, activities, or projects as approved by Congress, unless the Appropriations Committees of both Houses of Congress are notified fifteen days in advance of such reprogramming of funds.

This Act may be cited as "the Departments of Commerce, Justice, and State, the Judiciary, and Related Agencies Appropriation Act, 1986".

Mr. RUDMAN. Mr. President, I am pleased today to present H.R. 2965, the fiscal year 1986 appropriations bill for the Departments of Commerce, Justice, and State, the Judiciary and related agencies. The bill totals $11,900,660,000 in new budget authority. While this amount is over the administration's requests, it is $365.6 below the total appropriations for the same agencies in fiscal year 1985.

The committee has made every attempt to find all the savings possible in drafting this bill. I have received the assurances from the Budget Committee that this bill is in substantial compliance with the budget ceilings, both for budget authority and outlays, and will not be subject to an across-the-board reduction amendment. I would like to explain to my colleagues that in order to achieve this result, Senator HOLLINGS and I fashioned a package of $68 million in cuts which we offered to the recommendations made by the Commerce, Justice, State Subcommittee. This package, while distasteful, was developed to insure that the Senate version of H.R. 2965 will meet the most stringent budgetary requirements.

In order to maintain the bottom line of the bill, Senator HOLLINGS and I are requesting today that every amendment adding outlays to the bill be accompanied by an offsetting decrease. We have worked with a number of our colleagues to develop such amendments. We simply cannot allow the bill to significantly exceed the outlay totals as are now in the bill.

Despite the reductions from the current year's totals, H.R. 2965 contains enhancements for a number of important programs. The bill continues the drug law enforcement initiative first developed by the committee and the administration last summer. In addition, over $30 million is provided to the State Department for additional overseas security. Also, we added $9.5 million to the Department of Commerce to carry out the provisions of the United States-Canada Salmon Treaty.

In short, Mr. President, this is a bill of which the Senate can be proud. We have lived with a ceiling while at the same time adjusted accounts to enhance priority programs.

None of this would have been possible without the cooperation and help from my good friend and colleague, the Senator from South Carolina, Senator HOLLINGS. As the former chairman of the subcommittee, his assistance has been invaluable. All the other members of the subcommittee have also provided important support, guidance, and input. H.R. 2965 is truly a bipartisan bill, thanks to the efforts of every member of the committee. The eventual success of the bill is a tribute to each of them.

I now yield for any comments Senator HOLLINGS may have.

Mr. HOLLINGS. Mr. President, I thank the distinguished Senator from New Hampshire, who has led the way on this bill and brought us into balance in conformance with the Budget Act. We have had to necessarily make some very serious cuts. It is always a pleasure and a privilege to work with Senator RUDMAN. He is a real professional. His staff is professional also.

Incidentally, Mr. John Shank, a member of the staff, lost his mother over the weekend. We regret that and sympathize with him at this particular hour. I understand why he cannot be here, and want him to know how much we appreciate his help on the bill.

Mr. President, in 1980, when I last chaired the Commerce, Justice, State, the Judiciary and Related Agencies Appropriations Subcommittee, we recommended a total of $9,053,168,000 to the Senate for fiscal year 1981. In this bill, H.R. 2965, the committee is recommending a total of $11,900,660,000, for fiscal year 1986, a net increase of $2,847,492,000 over the last 5 years.

Please note that I said "a net increase," as the changes in this bill have not been uniform. For instance, the Department of Justice has increased by $1,744,110,000, or 79 percent over the last 5 years, as we have provided the resources required by the FBI, DEA, Immigration Service, the U.S. attorneys, marshals, and kept up with the 49-percent population increase in Federal prisons since 1980.

Those increases are for law enforcement, and I have been pleased that my Republican successors, Senator WEICKER and Senator LAXALT, as well as our acting chairman, Senator RUDMAN share my high priority for maintaining our internal defenses. In the recent supplemental, Senator LAXALT and I worked out major increases for the DEA and U.S. attorneys to step up the apprehension and prosecution of illegal drug traffickers, and this bill includes some $41 million to annualize that increase.

I should note to my colleagues that the Reagan administration actually budgeted a decrease of 22 positions for the Drug Enforcement Administration for fiscal year 1986. That tells you something about someone's priorities, and most of those someones have now departed the administration.

This bill also includes an unbudgeted increase of $8,468,000 and 191 positions for the FBI's terrorism program. While I know there are some that advocate a larger increase, this is as much as Senator RUDMAN and I could squeeze out of our overall allocation to increase the FBI's work in terrorism. The FBI has also indicated informally that this is a reasonable increase.

The Department of State has increased by $908,668,000 since 1980, or an increase of 57 percent. This reflects the worsening situation overseas with regard to the security of our personnel and facilities. We have also provided major increases over the last few years for additional reporting and analysis personnel, as well as meeting the great workload in the passport offices as more and more Americans travel abroad.

The judiciary appropriation has also expanded by some 68 percent since 1980, primarily due to the additional judgeships that have been authorized. In 1980, there were 648 district and circuit judgeships; now there are 731. In addition, there are 69 more senior judges now active than we had in 1980. That is fine with me as there is no use fighting crime unless you have judges to try the cases. Incidentally, the judiciary budget now exceeds $1 billion.

This year the related agencies are back in title V of the bill, where they used to be when I was chairman. We have a few of them that have grown a lot: The U.S. Information Agency is up by 96 percent, Arms Control and Disarmament up by 41 percent, and the International Trade Commission by 66 percent, because of the administration's terrible trade policies.

Mr. President, as I said at the outset, there has been a net increase of more than $2.8 billion in this bill since 1980. I have mentioned some of the increases, so where are the decreases? Well, the Department of Commerce is down by 9 percent after allowing for the $146 million we recommended for the tabulation of the 1980 census.

Since 1980, the EDA has been reduced by $500 million and the Direct Business Loan Program has been eliminated. The Secretary of Commerce talks of the general national economic health trickling down, but nothing has trickled down to Marlboro County, SC, here the unemployment rate is 15.2 percent.

The trade adjustment assistance to import impacted firms has been reduced by nearly $35 million. I do not know why Secretary Baldrige does not take credit for the reforms he has instigated in this program. He keeps talking about the sour loans made by the Carter administration but you cannot hardly get a trade adjustment loan out of the Commerce Department anymore.

I want to especially thank the acting chairman for the earmarking of $7,090,000 to underwrite the Office of Textile and Apparel which provides the surveillance of textile imports through the Tims computer system. We have also maintained the Federal grant to the Tailored Clothing Technology Corporation [TC²], a joint industry, union, and Government innovation to fight back against rising apparel imports.

Within the overall commerce decrease, the appropriations for the National Oceanic and Atmospheric Administration are $340,234,000 over the amount in 1980 but most of that has gone to the insatiable appetite of the National Weather Service and the ever-hungry satellites. Those of us who appreciate the vast potential of the oceans, have had to fight a rearguard action just to hold the gains made in the 1970's in oceans research and development. We certainly have lost much of the momentum we built up to explore and develop the oceans.

Lastly, but by no means least, the Small Business Administration is substantially below the 1980 levels. Our recommendations for 1986 track S. 408, the SBA authorization bill that I joined Senators WEICKER and BUMPERS in sponsoring. A chief casualty is the business loan and investment fund which has declined by $439,100,000 over the last 5 years. It should be noted that in fiscal 1986, we have taken advantage of the huge carryover from 1985 due to the administration's shutting down of the Direct Loan Program for awhile last year.

However, we have also experienced a great erosion of the program level. The direct loans are down by $314 million, which is the general direction that the Senate has been heading for sometime in just maintaining the direct loans for the handicapped, veterans, and minorities. However, the guaranteed loans—which were supposed to balance off the reduced direct loans—have also decreased by $420 million from the level we recommended in 1980.

Mr. President, there is talk from time to time about having an omnibus appropriations bill and combining the present 13 separate appropriations bills into one grand package. If that was the present situation, there would be a Hollings amendment pending to cut the foreign aid account by whatever it takes to restore the EDA, trade adjustment and SBA business loans to their 1980 levels. The President has got to get out from behind the bunting and parades and out to the America you cannot see from the tarmac. We need those SBA loans to rebuild our cities and the EDA to provide the facilities our rural and urban areas need to develop the necessary base to restore their economies and retain their youth.

Mr. President, there has indeed been a significant shift over the last 5 years. As the ranking minority member, I have taken the time to outline the consequences of these shifts. However, as a responsible ranking minority member, I must also say that the overall budget constraints do not allow us to do much about the problem. Our acting chairman, Senator RUDMAN and I, with the great help of our staff, have worked together to fashion this bill. We have a few small differences—such as the $10 million that still remains for NED—but, basically, we did the best we could under the circumstances and I am ready to proceed with the bill.

Mr. RUDMAN. Mr. President, I ask unanimous consent that the committee amendments, with the exception of committee amendments on page 33, line 1; page 66, lines 4 and 5, and page 68, line 22 through page 69, line 24 be considered and agreed to en bloc and that the bill as amended be considered as original text for the purpose of further amendment, with the understanding that no points of order shall be waived by reason thereof.

The PRESIDING OFFICER. Without objection, it is so ordered.

The excepted committee amendments are as follows:

On page 31, line 1, strike "OPERATION,"

On page 66, inserting lines 4 and 5; as follows:

GENERAL PROVISIONS—UNITED STATES INFORMATION AGENCY

On page 68, strike line 22, through and including line 25, and insert the following:

SEC. 606. (a) None of the funds provided under this Act shall be available for obligation or expenditure through a reprogramming of funds which: (1) creates new programs; (2) eliminates a program, project, or activity; (3) increases funds or personnel by any means for any project or activity for which funds have been denied or restricted; (4) relocates an office or employees; (5) reorganizes offices, programs, or activities; or (6) contracts out any functions or activities presently performed by Federal employees; unless the Appropriations Committees of both Houses of Congress are notified fifteen days in advance of such reprogramming of funds.

(b) None of the funds provided under this Act shall be available for obligation or expenditure for activities, programs, or projects through a reprogramming of funds in excess of $250,000 or 10 per centum, whichever is less, that: (1) augments existing programs, projects, or activities; (2) reduces by 10 per centum funding for any existing program, project, or activity, or numbers of personnel by 10 per centum as approved by Congress; or (3) results from any general savings from a reduction in personnel which would result in a change in existing programs, activities, or projects as approved by Congress, unless the Appropriations Committees of both Houses of Congress are notified fifteen days in advance of such reprogramming of funds.

Mr. RUDMAN. Mr. President, I ask unanimous consent that the pending committee amendment be laid aside for the purpose of considering an amendment by the distinguished senior Senator from Vermont.

The PRESIDING OFFICER. Without objection, it is so ordered.

AMENDMENT NO. 862

(Purpose: To appropriate subject to authorization, $2 million for the study, design, and engineering of a building to serve the judicial system)

Mr. STAFFORD. Mr. President, I have an amendment at the desk. I ask

that it be stated and I ask for its immediate consideration.

The PRESIDING OFFICER. The clerk will report.

The legislative clerk read as follows:

The Senator from Vermont [Mr. STAFFORD], for himself, Mr. BENTSEN, and Mr. MOYNIHAN, proposes an amendment numbered 862.

Mr. STAFFORD. Mr. President, I ask unanimous consent that further reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

On page 42, line 24 strike "$136,000,000" and insert in lieu thereof "$135,000,000"; on page 43, line 7 strike $148,000,000" and insert in lieu thereof "$147,000,000"; and on page 40, after line 10 insert the following:

CONSTRUCTION

For necessary expenses of the Architect of the Capitol to carry out, in cooperation with the Union Station Redevelopment Corporation, feasibility studies, design, and engineering for the construction of a building on the United States Capitol Grounds to provide office space for the judicial branch of the Federal Government and for other purposes, to become available upon enactment of S. 1706 or similar legislation authorizing such appropriations, $2,000,000, to remain available until September 30, 1986.

Mr. STAFFORD. Mr. President, this is an amendment to appropriate $2 million, contingent on authorization, to begin work in the design of a building to house the Administrative Office of the U.S. Courts.

I am pleased that Senators BENTSEN and MOYNIHAN are cosponsors of this amendment.

This amendment is quite straightforward. It appropriates $2 million to pay for work required in S. 1706, once that bill, or similar legislation, becomes law.

S. 1706 will direct the Architect, working with the Union Station Redevelopment Corporation, to initiate planning, design, and engineering for a building that would serve the Administrative Office and related judicial functions. This building would be located adjacent to Union Station, north of Massachusetts Avenue, here on Capitol Hill.

In order to assure that this amendment poses no adverse cost impact on the Federal taxpayers, this amendment includes offsetting cuts totaling $2 million: A reduction in operations and maintenance for the courts of $1 million, plus a cut of $1 million for space and facilities for the courts.

Before outlining the specifics of the work that would be funded by S. 1706 and this amendment, I would like to discuss some of the background.

For quite some time, Congress has sought to redevelop Washington's Union Station. Prior to the creation of Amtrak, Congress enacted legislation to convert Union Station to a National Visitors Center. Tens of millions of dollars were spent to begin construction on a parking garage and the conversion of the station. Following a series of cost overruns and other problems, the project was abandoned and the structure closed.

In 1981, Congress passed the Union Station Redevelopment Act as Public Law 97-125. The concept of that law was to revive Union Station as a station for Amtrak, while attracting commercial development into the building.

As a part of Public Law 97-125, Congress included a provision allowing the Department of Transportation, which is in charge of the revival of Union Station, to obtain from the Architect of the Capitol the use of two squares—721 and 722—on the north side of Massachusetts Avenue. For the past decade, these two squares have been used as open, ground-level parking for Senate staff.

In that 1981 law, Congress took the position, which remains valid today, that development on these squares must occur in a manner that complements the revival of Union Station.

But because the Department of Transportation has not requested use of that land, control over those two squares remains somewhat uncertain. While the land continues to be a part of the Capitol Grounds, yet it is also subject to an option that has not been exercised.

When it became clear that both the Union Station Act and the master plan for Capitol Hill projected construction of some sort of Federal building on squares 721 and 722, discussions began to focus on the opportunity to locate there the Administrative Office of the U.S. Courts and related judicial activities.

The Administrative Office faces a severe housing problem. In this fiscal year, its 635 employees, along with another 122 persons assigned to the Federal Judicial Center, will be scattered among eight buildings in Washington, many of them several miles from the Supreme Court, to which they are responsible ultimately.

In July, the Committee on Environment and Public Works conducted a hearing on the options for squares 721 and 722. It is worth noting that each witness favored, to one degree or another, the use of the site for the Administrative Office. Three basic alternatives were presented:

The first would have authorized the Architect of the Capitol to spend $70.5 million in Federal money to build the building.

Second, there was the option, which still exists in the law, allowing the Department of Transportation to exercise its rights to develop the site for the Administrative Office, in connection with Union Station.

Third, a private developer suggested a public-private partnership, permitting private interests to develop and lease the property to the Administrative Office.

Each of these approaches contains opportunities and flaws. For example, I doubt that we can, or should, appropriate $70 million for another Federal building. I also doubt we should simply turn over the use of Capitol Grounds to a private developer. Nor is DOT likely to have the needed development skills.

In an effort to resolve this question, we developed what I consider a rational alternative, one that will move the project forward, while retaining the proper and effective degree of public control. This alternative is S. 1706, which has been reported by the Committee on Environment and Public Works and is now on the calendar.

This amendment provides $2 million to the Architect of the Capitol, then directs that he work with DOT's Union Station Redevelopment Corporation, to make a 10-month study to produce the following information for the Congress:

First, an assessment of the size of a building that would be suitable for this site, while meeting the needs of the Administrative Office and other potential uses. For example, the best proposal might be a building far larger than needed simply to accommodate the Administrative Office. Such a building could include restaurants, shops, and other offices. This would be in line with the goals of the Public Buildings Cooperative Use Act (Public Law 94-541).

Second, a national architectual competition on the building's design. Such a competition, as I see it, would involve selection of half a dozen or so leading architects, each of whom would be paid a sum, possibly $10,000 or $25,000, to develop a basic design. The building's ultimate design would be selected from these submissions, with work on the drawings to begin immediately, using much of the $2 million appropriated in this amendment. It is important that the design fit the magnificance of the setting next to Union Station.

Third, and, finally, an assessment, including solicitation of actual proposals, for financing the building or buildings. We should expect to receive plans for alternative financing that would lessen or eliminate any need for a direct Federal capital investment. While the study is undertaken by the Architect, in cooperation with DOT's Union Station agency, it is intended to be sufficiently flexible so that developers can bid at a later date to participate in the financing and construction.

This is a sound approach. But I must stress three points:

This is a cooperative venture, between the Architect and the DOT's Union Station Redevelopment Corporation.

This amendment is intended to assure that as much of the construction financing as possible comes from non-Federal sources.

This amendment is intended to meet the spirit of mixed use in the Public Buildings Cooperative Use Act, enhancing Union Station both visually and economically.

Mr. President, I move the adoption of the amendment.

Mr. President, I believe this legislation has been examined by the managers for the bill and that it is acceptable to them.

Mr. RUDMAN. Mr. President, the Senator from Vermont is correct. Let me simply state that this has been cleared on both sides. We have some concern about starting work even as small as this appropriation will be for yet another building up here on the Hill at this time in light of all the budgetary constraints, but we understand that there has been a great concern on the part of the U.S. Supreme Court about this issue. The Senator from Vermont has concern for it because of the position of the authorizing committee. I understand this amendment is being offered subject to authorization. I simply state that by accepting it we in no way indicate how we might be feeling about future appropriations at this time.

Mr. STAFFORD. Mr. President, the Senator from Vermont understands that. This is to consolidate the administrative office of the Federal court system. The Chief Justice has, on several occasions, indicated his desire that we get this done so the Federal court administrative offices can be in one place, instead of scattered all over the city of Washington.

Mr. HOLLINGS. Mr. President, this proposal has been presented by the Chief Justice and the administrative office of the Court over the last several years. We feel it should be done and join without objection on the amendment.

The PRESIDING OFFICER. The question is on agreeing to the amendment.

The amendment (No. 862) was agreed to.

Mr. STAFFORD. I move to reconsider the vote by which the amendment was agreed to.

Mr. RUDMAN. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

AMENDMENT NO. 863

Mr. HATFIELD. I send an amendment to the desk and ask for its immediate consideration. I ask unanimous consent that the committee amendments be temporarily laid aside for the purpose of considering this amendment.

The PRESIDING OFFICER. Without objection, it is so ordered.

The legislative clerk read as follows:

The Senator from Oregon [Mr. HATFIELD] proposes an amendment numbered 863.

On page 66 after line 17 insert:

"SEC. 503. Both the United States and Soviet Union, as signatories of the United Nations Declaration of Human Rights and the Helsinki Accords, are pledged to allow information to flow freely across their national boundaries;

Allowing information to flow freely across their national boundaries is in the best interest of the people of the United States and the Soviet Union, and is a necessary response to the times;

Increased communications between the United States and the Soviet Union reduces the risk that misunderstandings will cause conflict; and

The Director of the United States Information Agency, Charles Z. Wick, has extended to the Chief of International Information Department of the Soviet Union, Mr. Leonid M. Zamyatin, an invitation to participate in reciprocal exchanges using the medium of television: Now, therefore, be it

Declared by the Senate (the House of Representatives concurring), That the Congress, recognizing the significant potential for improving communications, enhancing mutual understanding, and aiding the free flow of information through the medium of television, supports the initiative of the Director of the United States Information Agency to

(1) Arrange for a high level official of the Soviet Union to appear on American television if the Soviet Union reciprocates by arranging for a high level official of the United States to appear for an equal time on Soviet television; and

(2) Plan for participation by the United States and the Soviet Union in a worldwide discussion using the WORLDNET international satellite television transmission network, and giving journalists an opportunity to ask uncensored questions of such officials."

Mr. HATFIELD. Mr. President, before I take up the amendment which I understand has been cleared on both sides, I should first of all like to say a word of commendation to the managers of the bill pending. Senator RUDMAN has taken on the role of acting chairman of this subcommittee, with the long-time expertise and leadership of the Senator from South Carolina, Mr. HOLLINGS, as the ranking member of the subcommittee.

This bill is like any other, but it still has uniquely difficult problems to begin with and they have moved this bill through the subcommittee, the committee, and now to the floor with remarkable, outstanding skill. I especially want to take this moment to commend them on this great performance of legislative responsibility. They have both served with great distinction in this role.

Mr. President, this amendment is a sense-of-the-Senate amendment. It will have no budgetary impact to the bill but merely expresses a view that the Soviet Union and the United States, should arrange for a joint television exchange involving the leadership of the two countries.

Specifically my amendment asks the United States Information Agency and their Soviet counterpart, the International Information Department, to arrange for a high-level United States official to appear on Soviet television and for a high-level Soviet official to appear on the United States sponsored Worldnet Satellite Television Network.

In recognition of the significant potential for improving communications between our two countries, recognizing also the upcoming summit in Geneva, it seems highly appropriate and timely for the Senate to express its interest in such an exchange.

Much has been said about the propaganda war between the Soviet Union and the United States, but I for one believe a reciprocal arrangement such as a television exchange will remove any manipulation, yet allow for a free and frank exchange of goals and ideology.

I offer thanks to my colleagues, Senator SIMON and Senator GRASSLEY, who have helped sponsor a similar resolution, Senate Concurrent Resolution 74 and I ask for the support of my other colleagues on this amendment I am offering today.

Mr. President, I merely add that I think there is no question that television is one of the most significant modes of communication, not only within our country but also between nations. I can recall when President Nixon appeared on Soviet television a number of years ago, it had tremendous impact at that time and I think probably solidified the whole policy of détente.

I say this merely represents the sense of the Senate. Charles Wick of the USIA has been proposing this to the Soviet Union and I think a sense-of-the-Senate amendment will strengthen his hand in proposing it.

Mr. RUDMAN. Mr. President, the Senator from Oregon has discussed this with both the ranking member and me. We not only agree with it but enthusiastically support it. I yield to my friend from South Carolina.

Mr. HOLLINGS. I thank the distinguished chairman of our full committee for his very generous remarks. We join in this wholeheartedly.

Mr. HATFIELD. I thank the Senator.

The PRESIDING OFFICER. The question is on agreeing to the amendment.

The amendment (No. 863) was agreed to.

Mr. HOLLINGS. I move to reconsider the vote.

Mr. RUDMAN. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

Mr. RUDMAN. Mr. President, will the Senator from Oregon yield for a moment?

Mr. HATFIELD. I am happy to yield.

Mr. RUDMAN. It is my understanding that the distinguished chairman of the Judiciary Committee has an amendment that will take just a few moments. I know the Senator from Oregon has another amendment which might take a bit longer. I inquire of the distinguished chairman of the Appropriations Committee whether we might deal with the amendment of the distinguished chairman of the Judiciary Committee first.

Mr. HATFIELD. Mr. President, I should be happy to yield to the chairman of the Judiciary Committee for the purpose of offering an amendment. I ask unanimous consent that I may not lose my right to the floor following his presentation.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. RUDMAN. Mr. President, if the Senator will yield to me for one moment, I ask unanimous consent that the pending committee amendment be laid aside in order to proceed to an amendment to be offered by the senior Senator from South Carolina.

The PRESIDING OFFICER. Without objection, it is so ordered.

The Senator from South Carolina is recognized.

AMENDMENT NO. 864

Mr. THURMOND. Mr. President, I rise to introduce an amendment to H.R. 2965.

The PRESIDING OFFICER. The clerk will state the amendment.

The bill clerk read as follows:

The Senator from South Carolina [Mr. THURMOND] proposes an amendment numbered 864.

On page 16, line 1, strike "$31,000,000" and insert in lieu thereof "$29,900,000"; on page 16, line 2, strike "$24,366,000" and insert in lieu thereof "$23,266,000"; and on page 66, after line 17, insert the following:

UNITED STATES SENTENCING COMMISSION

SALARIES AND EXPENSES

For the salaries and expenses necessary to carry out the provisions of chapter 58 of title 28, United States Code, $1,100,000, to remain available until expended.

Mr. THURMOND. Mr. President, this amendment to H.R. 2965 provides the $1.1 million necessary for the salaries and operation of the U.S. Sentencing Commission.

The Commission was created by the passage of the Comprehensive Crime Control Act in the 98th Congress. Its function is to redefine the Federal criminal justice sentencing procedures.

The original allocation of $2.3 million in funds to the Commission as part of the supplemental was limited to an estimated 6-month budget. The members of the Commission were recently confirmed and are now ready to begin their important work. H.R. 2965 provides no funds for the Commission's operation in fiscal year 1986. Accordingly, without my amendment, it is anticipated that there will not be sufficient funds for operation beyond May 1986.

The additional $1.1 million will permit the Commission to move forward in designated function, albeit on a modest budget.

In order to maintain our fiscal responsibility, I have offset my request for these funds with a corresponding decrease. It is never easy to propose such cuts. In this case, I have relied on the recommendation of the Department of Justice. I have been informed that the funds can be taken from the Community Relations Service with no negative impact on their projected program. This reduction has the approval of the Appropriations Committee.

I urge my colleagues to support this amendment. It is necessary to the important task of the U.S. Sentencing Commission and maintains the projected needs of the Community Relations Service.

Mr. President, what we are doing is providing the necessary funds for the Sentencing Commission but in order not to increase the deficit, we have taken away funds with the approval of the Justice Department from another section of the Justice Department.

I ask the approval of the amendment.

Mr. RUDMAN. Mr. President, I thank the distinguished chairman of the Judiciary Committee. The managers have considered the amendment and are ready to accept it. We are particularly pleased that the distinguished chairman of the Judiciary Committee has found an offsetting amount within the bill that has been cleared and is acceptable because we are very pleased that this bill will not be the subject of an amendment for an across-the-board cut by the Budget Committee, we understand, because we are within our targets both in outlays and, of course, budget authority.

So we are pleased the Senator from South Carolina has made our job easier.

I yield to my friend from South Carolina.

Mr. HOLLINGS. Mr. President, the U.S. Sentencing Committee is headed by our distinguished Judge Wilkins, of South Carolina.

The original request was $2,650,000. We have found that it can be reduced to $1,100,000, and with the offset from the Community Relations Service, we are delighted to join in the amendment of our distinguished colleague. I urge its adoption.

The PRESIDING OFFICER (Mr. ARMSTRONG). Is there further discussion of the amendment?

Mr. THURMOND. Mr. President, I ask unanimous consent that the Senator from Delaware [Mr. BIDEN], the ranking minority member of the Judiciary Committee, be added as a cosponsor of this amendment.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. THURMOND. I thank the able chairman of the subcommittee, the Senator from New Hampshire [Mr. RUDMAN], who is handling the bill this morning, for his fine cooperation and the able Senator from South Carolina for his splendid cooperation.

The PRESIDING OFFICER. The question is on agreeing to the amendment.

The amendment (No. 864) was agreed to.

Mr. THURMOND. Mr. President, I move to reconsider the vote by which the amendment was agreed to.

Mr. RUDMAN. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

LUXURY TRAVEL BY FOREIGN SERVICE PERSONNEL

Mr. HOLLINGS. Mr. President, on October 8 I introduced an amendment to this bill that would prohibit Foreign Service personnel, or any other Government officials from using approriated funds to take trips on the *Queen Elizabeth II* and the *Delta* and *Mississippi Queens*. As reported by Jack Anderson and others, an employee of the U.S. Information Agency had arranged for his family to return to Burlington, IA, on home leave from Montevideo, Uruguay, by way of 16 days on the *Delta Queen* up the Mississippi, from New Orleans to Burlington. The General Accounting Office has reported that 260 employees of the Department of State and the USIA—including 120 on the *Queen Elizabeth II*—booked taxpayer-paid trips aboard ships in fiscal years 1982 through 1984. The cost of the sea voyages was $556,232, more than $400,000 higher than airline tickets would have cost.

Needless to say, my amendment has prompted considerable concern at Foggy Bottom. In fact, my own inquiries have found that USIA was not the only agency funding trips up the Mississippi, as the State Department itself paid for two of its employees, Michael and Claudia Skol, to ride on the *Delta Queen* on the same trip that the USIA employee and his family took in July 1982. USIA has filed suit in Federal District Court for the District of Columbia to recover the $12,760 that the GAO has instructed the agency to recoup from the employee, only to be overturned by a decision of the Foreign Service Grievance Board. I am informed that State will expect their employees to make similar restitution if the court decides in favor of USIA.

Mr. President, on October 21, 1985, I received a letter from the Under Sec-

retary of State for Management, Ronald I. Spiers, informing me that:

The Department has changed its Foreign Service travel regulations to prohibit travel by ship at Government expense if the cost of such travel exceeds the cost of the authorized air travel for the same trip unless the traveler pays the difference. In that case, the traveler could also be charged annual leave for any travel time in excess of the time which it would have taken had the traveler used the authorized air travel.

Mr. Spiers goes on to say that the only exception to this rule would be when air transportation would be detrimental to the traveler's health.

Mr. President, I ask unanimous consent that Mr. Spiers' letter and the new travel regulation be printed in the RECORD at the conclusion of my remarks.

Since the Department has made the necessary change in the regulations to restrict travel by ship, it is no longer necessary to press my amendment. However, the Department, USIA, and the other agencies with personnel abroad, are on notice that I will closely monitor the exceptions granted for medical reasons. If there is any significant number, I will ask the GAO to review each and every one of them for medical sufficiency.

There being no objection, the letter was ordered to be printed in the RECORD, as follows:

UNDER SECRETARY OF STATE
FOR MANAGEMENT,
Washington, DC, October 21, 1985.

Hon. ERNEST F. HOLLINGS,
U.S. Senate.

DEAR SENATOR HOLLINGS: This is to inform you that the Department has changed its Foreign Service travel regulations to prohibit travel by ship at government expense if the cost of such travel exceeds the cost of the authorized air travel for the same trip unless the traveler pays the difference. In that case, the traveler would also be charged annual leave for any travel time in excess of the time which it would have taken had the traveler used the authorized air travel. The sole exception to this rule is if ship travel be authorized for medical reasons.

Sincerely yours,

RONALD I. SPIERS.

---

131 ROUTING OF TRAVEL

*131.1 MODES OF TRAVEL

a. Use of air transportation is encouraged.

b. Surface transportation or a combination of air and surface is authorized, subject to the provisions of section 131.1-*1* and 133.

c. Use of ship transportation is authorized when use of air transportation by the traveler would be detrimental to his or her health or well-being (see 133.2-3b).

d. Travel by ship is permitted, provided travel expenses (including per diem, incidental expenses, fare, and travel time) are limited to those which would accrue by authorized air travel. Leave is charged for excess travel time.

e. Ferry travel is authorized when expedient and necessary to the mission.

f. Travel by privately-owned vehicle is governed by section 145.*

131.1-1 Same except for cite.

The PRESIDING OFFICER. The Senator from Oregon.

Mr. RUDMAN. Mr. President, will the Senator from Oregon yield for one moment?

Mr. HATFIELD. Yes.

EXCEPTED COMMITTEE AMENDMENTS

Mr. RUDMAN. Mr. President, we now have a unanimous-consent request on the committee amendments which I would like to state.

Mr. President, I ask unanimous consent that the committee amendments, with the exception of the committee amendment on page 68, line 22, through page 69, line 24, be considered and agreed to en bloc and that the bill, as amended, be considered original text for the purpose of further amendments, with the understanding that no points of order shall be waivered thereon.

The PRESIDING OFFICER. Is there objection? The Chair hears none, and it is so ordered.

Mr. RUDMAN. I thank my friend, the distinguished chairman of the Appropriations Committee.

The PRESIDING OFFICER. The Senator from Oregon may proceed.

AMENDMENT NO. 865

(Purpose: To withhold funding of international organizations while the United States is not subject to the compulsory jurisdiction of the World Court)

Mr. HATFIELD. Mr. President, I send an amendment to the desk on behalf of myself, Senators MOYNIHAN, WEICKER, and SIMON and ask for its immediate consideration.

The PRESIDING OFFICER. The committee amendment must now be laid aside.

Mr. HATFIELD. Mr. President, I ask unanimous consent to temporarily set aside the committee amendment so that I might offer my amendment.

The PRESIDING OFFICER. Without objection, it is so ordered. The clerk will report.

The bill clerk read as follows:

The Senator from Oregon [Mr. HATFIELD], for himself, Mr. MOYNIHAN, Mr. WEICKER, and Mr. SIMON, proposes an amendment numbered 865.

Mr. HATFIELD. Mr. President, I ask unanimous consent that further reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

On page 34, line 20, before the period insert a colon and the following: *"Provided further,* That none of the funds appropriated under this heading may be made available while the United States is not subject to the compulsory jurisdiction of the International Court of Justice (as described in Article 36(2) of the Statute of the International Court of Justice and in the United States declaration thereto)".

Mr. HATFIELD. Mr. President, on behalf of my colleagues, Senators MOYNIHAN, SIMON, and WEICKER, I offer this amendment on the World Court today, and I suppose in some ways one might say it will not stir too much interest.

It has been rather interesting to observe in the last few weeks since the incident arose with which this amendment deals, that very few people in the press or elsewhere have really commented a great deal about it, and perhaps that is precisely why the administration, acting in the name of the President, acted the way it did and got away with the action that was consummated. I refer to the American foreign policy decision made by the President to withdraw from the compulsory jurisdiction of the International Court.

I view this as a grave decision with all kinds of perceptions from unconcerned and concerned people alike. I think it is somewhat the result of a dangerous ideological agenda, and that agenda holds that nothing should stand between the United States and the pursuit of its goals by whatever means it deems necessary. I need not cite many examples. There are some very obvious ones that involve overthrows of governments and covert activity and funding organizations to overthrow governments.

But I want to say, Mr. President, this withdrawal for the World Court does not represent an action that is derived from a Repubican agenda.

I want to use that term wisely and with care. I think when one looks at the history of the founding and the early support of the World Court, one cannot help but run into the extraordinary, outstanding work of Republican statesmen like Elihu Root, like Charles Evans Hughes, and Robert A. Taft. And even for those who are given a lesser standing in the Republican lexicon of names and leaders, it has the support of every Republican President since Warren G. Harding. I think it is remarkable when you call upon the name of Warren G. Harding to support a noble and purposeful cause, not in any way to demean the individual but from the ranking that he has received from most political experts on his status as President of the United States he does not rank amongst the top five on anybody's list. I think also we have to remember that a war was fought, World War II, for the principle embodied in the World Court. We sought to prove that sheer might does not equate with justice and that the rule of law is more than a definition of victory on a battlefield.

The International Court of Justice has served us well far more frequently than it has worked to our detriment. I think it is rather ironic as a further observation that an administration which took office the day the United States hostages were released from Iran would abandon its support for an institution which was so vital to the realization of that goal.

The World Court remains an important mechanism for forging world opinion in support of United States objectives, the most basic of all, the rule of law as against the rule of the jungle. Terrorism and other unique circumstances which confront the United States today should compel us to lend encouragement and patience to an international jurisprudence as the preferred method of resolving conflict and furthering justice. In my view, this action taken by the President was a step back into the jungle rather than a step forward into enlightenment. While perpetrators of terrorism are often faceless or difficult to identify, terrorism is also sanctioned and executed by governments. The International Court of Justice may be an imperfect means of combating terrorist governments but it remains one of the only means, short of armed force, with which to challenge those countries that refuse to play by the rules of the civilized world.

Let me quote from the words and wisdom of President Richard Nixon on this subject when he recently stated:

> We will only eliminate terrorism if we choke it off by drawing the dark curtain of international condemnation around its sponsors. * * * Unless they are willing to live peacefully in the community of nations, we cannot allow them any of the privileges of membership.

Mr. President, I believe that acceptance of the compulsory jurisdiction of the International Court of Justice is an important litmus test of a nation's willingness to meet the standards of that membership. Let me be very objective and say I share the administration's frustration over the use of the World Court as a propaganda forum, and that is what we will hear today from anyone who is interested enough to even discuss the subject.

But let me say, too, that the world is better served through exposure to our values than insulation from the propaganda designs of nations which fear freedom and which do not support or represent open societies. The only appropriate national posture given the current world situation is to advance the rule of international law. The other option is the jungle, and terrorism is the great weapon of the jungle. Instead, the world's greatest constitutional democracy has turned the clock of civilized international behavior back 40 years by denying the International Court of Justice the prestige its support brings to that institution.

Mr. President, international law was an inconvenience which stood between the United States and the forceful overthrow of the Sandinista regime in Nicaragua.

Whether it be on the national, local, or international level, the rule of law is not a matter of convenience. It does not lend itself to selective adherence and application. The law is useless when it is applied selectively. The law has to be applied in all instances across the board, and we are denying that kind of universal application by our action.

We would not submit to the test of international law in the case against Nicaragua because we were not assured of a favorable decision in advance. There is no difference between this approach and the approach Iran took during the hostage crisis. Fundamentally, it is the same kind of reaction—no difference whatsoever, even though we could always justify things when we do them and always find opportunity for condemnation when someone else does them.

Earlier this year, after we had refused to defend ourselves in the Nicaragua case, the New York Times, a newspaper with which I do not always agree, certainly put the issue most eloquently in this case when it said:

> At the borders where our laws stop and someone elses begin, there is a dangerous legal gap. Whatever its size the gap is a realm of anarchy (and) barbarity—*except* as nations voluntarily write contracts, or treaties and submit to a higher order. Nations aspiring to live less like beasts in the jungle hesitantly submit to the court and try, by the force of their example, to prove that rational argument and codes of conduct can, to some extent, become a substitute for international pilage, piracy, and murder. Until last week, the United States was one of this minority of nations. And being the most powerful beast in the jungle, it thinks it loses little by thus diminishing the World Court.

Mr. President, the most powerful beast in the jungle is not necessarily the most vicious or the most agile under all circumstances. It, too, can benefit from the protection of the law, probably when it leasts expects it.

We think we are denying countries which fear freedom a propaganda forum with which to challenge us. This is illogical. We are denying an institution which, however imperfect, holds out some promise of a future system by which nations can resolve their differences peacefully.

There is only one reason why the most powerful beast in the jungle would refuse to tangle in an international courtroom with a powerless and in some ways morally bankrupt small animal, and that reason is that, without violence, the beast will lose the battle.

The assumption, Mr. President, is that we can never afford to lose because our perceived power to work our will in the world will diminish. What is totally lost here is that the ability of the Qadhafis and the Khomeinis and the Pol Pots to work their will in world of lawlessness is enhanced. The ability of the Soviet Union to work its will in an environment of lawlessness is also enhanced.

The same country that just pulled out of the World Court was standing on the soapbox, not so long ago, expressing its disgust and indignation because the Soviet Union had just blown a commercial airliner out of the sky.

Mr. President, I do not entertain any illusions about the opportunity of this amendment to be adopted. This amendment would simply say, in effect, that we would fence the language of the appropriations bill dealing with international organizations until the United States reconsidered and accepted the jurisdiction of the International World Court. It is very simple and straightforward.

Mr. President, I have seen a copy of a letter sent to Congress and the chairman of the subcommittee, signed by William L. Ball III, Assistant Secretary for Legislative Intergovernmental Affairs. I ask unanimous consent that the letter be printed in the RECORD.

There being no objection, the letter was ordered to be printed in the RECORD, as follows:

U.S. DEPARTMENT OF STATE,
Washington, DC, October 23, 1985.

Hon. WARREN RUDMAN,
U.S. Senate.

DEAR SENATOR RUDMAN: It has come to my attention that an amendment may be introduced to H.R. 2965 which would have the effect of withholding our contributions to international organizations.

The amendment would prohibit the payment by the United States of its assessed contributions to international organizations of which it is a member, so long as the United States does not accept the compulsory jurisdiction of the International Court of Justice under Article 36(2) of the Court's Statute.

The Department of State opposes this amendment and would recommend the bill be vetoed if the amendment is included. The United States is obliged to pay its proportionate share of the regular budgets of organizations to which it belongs. Failure to pay such contributions would violate our legal obligations and could result in loss of our vote or exclusion from participation in the organization.

By contrast, the President's action in terminating our acceptance of compulsory jurisdiction, effective six months from October 7, is entirely consistent with international law, the terms of the U.S. acceptance itself, and his constitutional powers in respect of the conduct of foreign affairs.

The consequence of this amendment would be that the United States would be compelled to violate its international legal obligations as the price for having taken a completely legal step with respect to the Court.

This amendment would not reverse the President's action. It can only call into question our commitment to our legal obligations to the organizations that would be affected, and penalize those organizations financially for reasons entirely unrelated to them.

The Office of Management and Budget advises that from the standpoint of the Administration's program there is no objection to the submission of this report and that enactment of this amendment would not be in accord with the program of the President.

With best wishes,
Sincerely,

WILLIAM L. BALL III,
Assistant Secretary,
Legislative and Intergovernmental Affairs.

Mr. HATFIELD. Mr. President, the third paragraph of this letter reads:

The Department of State opposes this amendment and would recommend the bill be vetoed if the amendment is included. The United States is obliged to pay its proportionate share of the regular budgets of organizations to which it belongs. Failure to pay such contributions would violate our legal obligations and could result in loss of our vote or exclusion from participation in the organization.

Mr. President, if that is the sole reason why the administration is opposing this amendment, that can be answered and rebutted very easily.

Let me remind the Senate that our obligations are contractual and part of our whole concept of an order based upon law. They therefore carry a certain sanctity which we must always observe, whether it is contracts with parties or treaties. However, we have some 6 months to work out the arrangements that this kind of amendment, if adopted, would impose. Adopting this amendment in October 1985 would in no way forestall the responsibility and the performance of that responsibility to fulfill our contractual obligations to these international organizations in the meantime.

I hope that the least that could be said about this amendment is that it may focus a little public attention on the severity of the situation and the seriousness of the action taken by the administration, which has received so little response, so little comment. Therefore, I offer this amendment today for that particular purpose.

Mr. RUDMAN. Mr. President, I inquire of my friend, the chairman of the full committee—we have not had a chance to clear this—whether or not there might be an opportunity to obtain a time agreement on this amendment in order to move the bill along. Does the Senator have any views on what might be a reasonable time on this, if it could be cleared?

Mr. HATFIELD. I respond to the chairman of the subcommittee by saying I am in a somewhat difficult situation, in that the major cosponsor on the Democratic side, Mr. MOYNIHAN, is arriving back in the city from New York at 10:45.

I ask the Senator, in order to accommodate him, whether we could have an agreement to vote at a time certain. That would give us a little more flexibility for him to pursue other matters, or if Senators wish to speak on this amendment as they might be able to obtain the floor. Say, a time certain at 11:30.

Mr. RUDMAN. Let me respond to the distinguished chairman of the committee by saying that, No. 1, I hope that at some point during this discussion we might be able to dissuade the distinguished Senator from Oregon and the distinguished Senator from New York from bringing this to a rollcall vote. We would like the opportunity to discuss that. Failing that, we will have a vote.

I wonder if it might not be more efficient, if it is possible procedurally, to protect the rights of the Senator from Oregon, that, since the other principle cosponsor is not in the city, we temporarily lay this amendment aside, with the unanimous-consent agreement that it would immediately be the pending business.

The Senator from Rhode Island has an amendment which will take about 45 minutes to an hour. The Senator from New Hampshire, my senior colleague, has an amendment. We could start through those and have the Hatfield-Moynihan amendment reappear as the pending business at the conclusion.

Mr. HATFIELD. Mr. President, I would acquiesce to the request of the chairman by making this as the pending order of business and that upon the arrival of the cosponsor or others who may wish to speak that they would be given that privilege of raising this back for a few brief remarks.

I say to the chairman I do not know of any extended debate. There is no effort to delay the ultimate decision on this amendment. We want to expedite. I must leave here from this particular point at 12 noon anyway. I want to be here to either cast a vote or to make some ultimate decision on it.

I would say that we could dispose of this at 11:20 a.m. I would say that we do want to vote. I would eliminate that particular contingency. We do want a vote. We would like to be able to have a vote up or down on the amendment if that is possible to work out.

I think under the circumstances of protecting Senator MOYNIHAN and Senator SIMON, and Senator WEICKER, if we could agree to say a vote at 11:30 a.m. or 12 o'clock that would work. I want to give the Senator the flexibility to move ahead with these other amendments because as chairman of the full committee I want to get this bill off the floor.

Mr. RUDMAN. Let me respond to the Senator from Oregon, the chairman of the full committee, by suggesting that it might be more efficient then to do that by simply asking unanimous consent that that amendment be temporarily laid aside and that it be the pending business at the conclusion of the next amendment which I believe will be an amendment offered by the Senator from Rhode Island.

The PRESIDING OFFICER. If this amendment is laid aside the pending business will be the committee amendment.

Mr. HATFIELD. Mr. President. reserving the right to object, I understand it will be the pending business after each succeeding amendment will be offered by individual Senators such as the Senator from Rhode Island and the Senator from New Hampshire. Would that be the understanding?

Mr. RUDMAN. The Senator is correct. It is my understanding that the Senator from Rhode Island has an amendment that is going to take somewhere about 1 hour of time. There is going to be a vote on that amendment.

My unanimous-consent request, if I put it to the Chair, would be that when the Chafee amendment is disposed of the pending committee amendment then be laid aside which would then be the recurring business under the order and that we turn back to the Hatfield-Moynihan amendment.

Mr. HATFIELD. Mr. President, as I understand the schedule more clearly, let me say that if that is the case and the hour is, say, 11:20 a.m. or 11:30 a.m. and then we have a vote which now takes about a half hour, that would preclude any opportunity for me to have a chance to vote on this amendment by having to remove myself at 12 noon in order to catch a plane.

I am not asking the Senate to accommodate to my schedule but I see Senator SIMON here on the floor. He wishes to be heard. I would like to then provide whatever time may be necessary for others to speak on this amendment and continue on this amendment until we dispose of it.

Otherwise, I would be willing to have a vote at a time certain on the amendment which would then bring it down to an actual conclusion.

Mr. RUDMAN. The Senator from New Hampshire, the manager of the bill, is not sure he can offer that assurance because of the nature of the amendment that is pending. I have already had a number of Senators who have contacted me since the amendment was introduced saying that if there is going to be a vote, they may want to have an extended discussion on this because obviously, as the Senator from Oregon recognizes, this is not what would be called around here a noncontroversial amendment.

So I think we better just then proceed as we are proceeding and hopefully get to some resolution.

Mr. HATFIELD. Mr. President, I notice one of my chief cosponsors has arrived on the floor who wishes to be heard, I am sure, on this amendment which is now the pending order of business.

Mr. SIMON. Mr. President, I strongly support the amendment of my colleague from Oregon and my colleague from New York on this.

It just seems to me that the United States ought to be leading in the effort for international law and instead we have the appearance of lead-

ing in the effort in moving in reverse. There is no justification for that.

How did we get to this situation? Well, what happened was we did something in Nicaragua that I do not think any Member of this Senate would defend. It was a clear violation of international law putting those mines in the harbor at Nicaragua. And Nicaragua understandably took the United States to the World Court and we were embarrassed. All of us were embarrassed by it.

The President of the United States I think incorrectly decided we would not be present, we would not acknowledge the jurisdiction of the World Court in this regard.

It was a mistake. It was a bad mistake.

Now we are going to compound that mistake by saying we are going to withdraw from the jurisdiction of the World Court. We clearly should not be doing that.

There are any number of questions that are being raised by this and I would like to put into the RECORD an article that I wrote and let me acknowledge that Steve Smith of my staff was very helpful in this, which appeared in the New York Times and I ask unanimous consent to have that printed in the RECORD.

There being no objection, the letter was ordered to be printed in the RECORD, as follows:

REAGAN'S WORLD-COURT ERROR

(By Paul Simon)

WASHINGTON.—The worst decisions are made in anger. President Reagan's decision to withdraw from the compulsory jurisdiction of the World Court was a lamentable over-reaction to the impending negative ruling in the case of our clearly illegal mining of Nicaragua's harbors. The action may give us some fleeting satisfaction. But in the long term it will damage our foreign policy interests, undermine our legitimacy as a voice for morality and erode the rule of law in international relations.

When Congress ratified President Harry S. Truman's decision to participate in the World Court, it was with the clear intention that we should abide by the Court's compulsory jurisdiction. Since then, every President has strengthened that original commitment. They have done so because the United States has an interest in a political and diplomatic entity that seeks peaceful solutions to international disputes.

When Mr. Reagan withdrew the United States from the compulsory jurisdiction of the Court, he changed a longstanding American commitment—without notice or consultation depriving Congress of the opportunity to hold hearings on the potential implications of the withdrawal and ignoring Congress's institutional concern about such a drastic change in our posture. Nor does the decision bode well for our future effectiveness in other international forums such as the Inter-American Commission on Human Rights.

The Court has not yet ruled in the Nicaragua case, although all 16 judge's including the one from the United States, sided with Nicaragua's complaint on a preliminary issue. But even if one does not believe, as nearly everyone does, that the mining of Nicaraguan harbors was illegal, the United States need not have made a blanket withdrawal. We could have followed the example of Britain, India and other nations that have fashioned carefully crafted exceptions to the Court's jurisdiction.

Has the President stopped to consider the United States' long-term foreign policy interests? We have always conceived of ourselves as a nation more sinned against than sinning, and with much justification. That being the case, it behooves us to support an international forum where we can redress grievances against nations that refuse to abide by the norms that govern civilized states.

The Court's ruling against Iran during the hostage crisis, for example, enabled the United States to muster the global support for economic sanctions that were helpful in securing the release of the hostages. Under the International Court of Justice statute, a state can subject another state to compulsory jurisdiction only if the petitioner is itself subject to compulsory jurisdiction. Thus, if another Khomeini took hostages tomorrow, we would have lost access to an important international remedy. Not only idealism but also realism should lead us to oppose withdrawal.

Only 45 nations out of 157 have consented to abide by compulsory jurisdiction. But casting blame on others to excuse ourselves dodges some fundamental questions. Are we prepared to lead in respecting international rules, or will we join those, such as Soviet bloc nations, that refuse to subject themselves to international law and that too often respect international agreements solely for their own tactical purposes? Will we continue to speak for the rule of law in the world, or contribute to an atmosphere in which international disputes are resolved by violence?

The question of abiding by World Court jurisdiction goes beyond national self-interest to the issue of what kind of country we are and what kind of country we could become. Our adherence to the rule of law, and our belief in the value of truth in the marketplace of ideas, is what distinguishes the United States from totalitarian societies. Our feeling that we are a moral nation may lead us not to want to have our policies questioned by others. But withdrawing from the World Court jurisdiction contradicts the tradition and the values that are the source of our strength.

Mr. SIMON. Mr. President, under article 94, paragraph 1 of the United Nations Charter each member of the United Nations agrees to abide by the decision of the Court in a case in which it is a party.

In the Nicaragua case we withdrew. We were not even represented. The Court by and large, unlike the United Nations, has not been as volatile politically.

I am not suggesting that there have not been political considerations, that there are not weaknesses, there are not problems with the World Court. But the alternative to some kind of rule by law among nations is chaos among nations. And we had the ability to literally destroy the world in a matter of moments. For us to be moving in the wrong direction just does not make sense.

We are violating a treaty obligation, in my opinion, by withdrawing from the Nicaragua case.

All treaties are under the Constitution the supreme law of the land and I think you could argue—I am not saying it is a clear-cut case—that the President's action in withdrawing from the Nicaragua case was unconstitutional.

But, in any event, what we should not be doing is withdrawing from the World Court's jurisdiction.

I am old enough at the age of 56 and some of my colleagues here remember when the World Federalists were a booming group and it looked like we were going to be heading toward some kind of one world government, and then I remember when the Atlantic Union was the then-current phase when the Western European nations and the United States would form some kind of a union.

These things have not happened but the need for some self-restraint by nations continues and the need grows.

For us to simply pull out from the World Court just violates everything that I think we should stand for.

So I hope that we accept the amendment of the Senator from Oregon. I point out the composition of the Court, three judges from Africa, three from Latin America, three from Asia, one from the Middle East, five from the United States, Canada, and Western Europe, and two from Eastern Europe and the U.S.S.R. It is a fair balance.

I did not hear anyone on this floor criticize the World Court 5 years ago when it ruled in our favor in the Iran hostage case, nor in its recent rulings in the Gulf of Maine case.

We have used the Court in the past. We have praised the Court when it has ruled in favor of us. Now that the Court is likely to rule against us in the Nicaragua case, we are like the little boy who took the bat and said, "We want to pull out and move away."

Mr. President, I think it is important that the United States not say: "If we cannot have things our way, we are going to take our bat and ball and walk off the field."

We ought to continue our participation. We ought to continue giving the Court jurisdiction. I urge the adoption of the Hatfield amendment.

Mr. HOLLINGS. Mr. President, while we are trying to arrange——

Mr. SIMON. Will the Senator from South Carolina yield?

Mr. HOLLINGS. Yes.

The PRESIDING OFFICER. Has the Senator from Illinois yielded the floor?

Mr. SIMON. Yes.

The PRESIDING OFFICER. The Senator from Ohio is recognized.

ABORTION AMENDMENTS

Mr. METZENBAUM. Mr. President, I rise not to address myself to this amendment, but I came over here and left a hearing that I was conducting in order that I might make this statement on the floor. I do it not in connection with this amendment. I do it in connection with an amendment that has not as yet been offered.

But it is my understanding that there is an amendment about to be offered having to do with the subject that we do not deal with much around here; that is, the subject of abortion; that is, we do not deal with the subject of abortion much unless it happens to be the HHS bill, or the HUD bill or the Defense bill, or the Justice bill, or the foreign relations bill, or whatever. Every time I turn around in this body, I find that there is a new amendment, somebody has a new idea, a new concept about abortion.

Now we have a lot of laws on the books at the moment in connection with abortion and I am not on the floor insisting that they be changed although I think some should be. We have some Supreme Court decisions on the subject of abortion and they have spoken and that is in the courts.

But I am here to say publicly, without rancor, without excitement and certainly with a total lack of enthusiasm that I am prepared to spend as much time as necessary—and some might call that a filibuster—to keep any more new abortion amendments or laws being enacted.

When the whole world is crying for a solution of problems having to do with our economy, having to do with the whole confrontation with the Soviets, having to do so many more important problems, all we have time to do in the United States Senate is to debate the issue of abortion. And if that is what you want to do, then that is what I am going to give you an opportunity to do, whether it is on this bill or any other.

I have had it. No more amendments that go beyond the present law with respect to the subject of abortion. And if you want to offer them, fine with me. But then we ought to be prepared to enlighten the whole Nation as to why we are trying up this bill or some other bill: It is because we have got to add something new, something new on the subject of abortion or else somehow the Nation will not go on and do that which it has to do and Congress would have failed in its responsibilities.

Mr. RUDMAN. Will the Senator yield for a question?

Mr. METZENBAUM. I certainly will.

Mr. RUDMAN. I wish to just ask my friend from Ohio whether he is aware of the fact that there are two abortion-related amendments that are on the proposed list for this bill?

Mr. METZENBAUM. That there are two abortion-related amendments that are contemplated to be added or offered in connection with this bill, is that what the Senator from New Hampshire is saying?

Mr. RUDMAN. Yes.

Mr. METZENBAUM. I am aware of that.

Mr. RUDMAN. And is it my further understanding—I am asking this for the record because the Senator from South Carolina, Senator HOLLINGS, and I are charged with trying to get this bill through. If we are looking at some other scenario, we ought to know in the early—but I believe, if I understand the Senator correctly, what he is saying is this: That on the Legal Services abortion-related amendment and on the prison abortion-related amendment, it is his present intention not to allow votes to come on either of those amendments, is the Senator correct?

Mr. METZENBAUM. Mr. President, one thing about the Senator from New Hampshire is that he fully understands full well the intentions of the Senator from Ohio. He has stated it better than I could state it. That is 100 percent correct.

Mr. RUDMAN. I thank the Senator from Ohio, because we now at least know what stadium we are playing in.

Mr. METZENBAUM. Mr. President, I want to say that the line in the sand has been drawn. We have gone far enough.

Mr. HUMPHREY. Mr. President, a point of order.

The PRESIDING OFFICER. The Senator will state the point of order.

Mr. HUMPHREY. Mr. President, the debate is not germane to the pending business.

The PRESIDING OFFICER. The Senator is correct.

Mr. HUMPHREY. I would like to add that we would be willing to reserve our debate on abortion until those matters are pending.

Mr. METZENBAUM. Mr. President, I wish to point out that it was my understanding of the rules of the Senate that at this point in the parliamentary procedure there is no requirement that the debate be germane. We are not under any time limitation with respect to germaneness. I wish to inquire, what is the Senate rule that would even cause the Parliamentarian to so indicate. If the Chair is talking about the pastore rule——

The PRESIDING OFFICER. In response to the inquiry of the Senator, I would call attention to the provisions of rule XIX, paragraph (b), which requires that debate be germane during the first 3 hours of the calendar day.

Mr. METZENBAUM. But after 3 hours we can have this debate, is that it?

The PRESIDING OFFICER. The Senator is correct.

Mr. METZENBAUM. How many hours have we been on this bill so far?

The PRESIDING OFFICER. The Senator has had this measure under consideration for 50 minutes.

Mr. METZENBAUM. Since that is the rule, I will accept the rule. But I believe that my message has been adequately conveyed, with or without its germaneness, and, therefore, I yield the floor.

Mr. RUDMAN. Mr. President, what is the pending business before the U.S. Senate at this time?

The PRESIDING OFFICER. The pending business is the amendment No. 865 of the Senator from Oregon. Are you ready for the question?

Mr. RUDMAN. I do not believe we are ready for the question. It is my understanding that that is the pending business, and I understand that my friend from South Carolina is seeking recognition. I yield the floor.

Mr. HOLLINGS. Mr. President, pending the Senator from New York and others who are more erudite in this particular regard, with respect to my colleagues, the Senator from Oregon and the distinguished Senator from Illinois, Senator SIMON, I think this would be a bad, bad kind of initiative or amendment for this body to adopt. I say so advisedly because no one else is on the floor particularly right now to defend President Reagan and the United States Government's position with respect to Nicaragua and the World Court.

I have read, just in a cursory fashion, some of the articles. I think if you really want to understand this problem better, certainly better than I understand it, you should have a sense of the history of the World Court.

My best recollection, from what my study has shown, is the World Court, of course, is not a world court. Let us start at that particular point. It was intended to be a world court. It was intended to have compulsory jurisdiction. It was intended to really govern, but it never reached that particular preeminence. Rather, only 43 of the nation states ever came close to adopting the jurisdiction of the World Court. And with respect to the 43, there were certain caveats or preconditions of adoption, such as the Connolly amendment by the U.S. Government.

So that is No. 1. Let us not sanctify the World Court and jump all about on the floor of the U.S. Senate like we have got something like the U.S. Supreme Court or the court of appeals or the judicial system of the United States or the judicial system of the State of Illinois. We do not have that kind of body.

Yes; as the Senators from Illinois and Oregon are trying to point out, that is a worthy goal. No one is trying

to debunk or deride in any sense the idea of a world court.

But while we do not have that rule of law, which they talked like it is almost a Supreme Court decision. While we do not have that rule of law, we have to live in the real world. If we really had to take this amendment any more seriously—and I do not mean to say they do not take it seriously—but if we in the Senate are anywhere near about adopting such an amendment, then we will put another amendment on to the effect of ceasing the 727, or whatever was the number of that plane, but in any event, we just took over the Mediterranean for those who are worried about the rule of law. We had to seize an Egyptian airliner with those particular terrorists that killed Klinghoffer and terrorized the *Achille Lauro* and all of its passengers. We have all hailed that. If someone wants to put in a resolution and condemn President Reagan and the United States for having done it, let them bring forth that amendment. I happen to support that particular conduct in that living in the real world that we live in we have to act in the security interests of the United States. And we have learned the hard way with respect to terrorism that we must make it absolutely certain it does not pay.

Therefore, if President Mubarak of Egypt wants to come forth and bring another case in the World Court, I would expect the Senator from Illinois and the Senator from Oregon to be running around yelling, "whoopee for the World Court, and whoopee for terrorism." That is what we have going on in Nicaragua. I happen to have met with that fellow Ortega. I went over with Senator ZORINSKY, and Senator STONE and others and met with Ortega. We knew Somoza was a mistake and we wanted to give our friends in Nicaragua a chance for sovereignty. Ortega promised, he had Pastora and all the rest of the particular counselors at the time. He promised freedom of the press, he would quit harassing the Catholic Church; free elections; freedom of speech; all these things. He was just as democratic as I was. That is what he was trying to do. Well, we gave him $75 million, I think an additional $50 million, and none of the promises have come forth.

While we recognize I guess as a government, a conspiracy down in Nicaragua which we lose out on, just like Vietnam. They say it was not really our interest there. It was just a little civil war, and it did not affect any of the other countries. We have yet to find that same group, the best and the brightest who came running forward on Cambodia, and on Laos. When the dominoes did fall, we have not heard from them. They had lockjaw. We had the Genocide Convention people, incidentally the same crowd arguing against dominoes. We have not heard from the group of the best and the brightest; trying to protect the security interests. Yes, Nicaragua is not invading. No one is nonsensical. But I can tell you right now in the Western Hemisphere the security is in issue.

We have already learned from Cuba and Castro that Cuba is none other than a Soviet base. And they can export troops all around into Angola, Yemen, Ethiopia, and all around the world, and use it at will as long as they pay Castro. We have another sort of Castro on our hands. In Nicaragua, yes, we have taken action admittedly by our forces one way or the other, and I am not here to endorse the criticism of those forces wrapped in the garment of the austerity and the jurisdiction of the so-called World Court. This is not a treaty violation or one of those particular things that they talk about that is—I think they call it, with respect to the World Court itself you have to join in, as I understand it, the principle of consent. Without the principle of consent, in conscientious cases is the word, then the jurisdiction of the Court itself does not affix.

We never accepted it on that basis. The majority never accepted that basis. Nicaragua, that is a matter of dispute itself. They are just using the Court to embarrass the United States. While you get well-intentioned lawyers and well-intentioned Senators that want to all get mixed up in their zeal for the ultimate, which I would join in, yes, I would like to have, perhaps, someday a world court. But I am living in the real Court with these international outlaws, like the Soviets supporting its terrorism.

You cannot say a word about the Soviets now. You have to have an agreement. You have to put a happy smile on your face and be as clever as they are. They have a good actor, too. Now both countries have an actor. We can all enjoy Gorbachev and Reagan. It will be the best off-Broadway show that we will all witness for the next several years. We will watch those events. But we should not, in all seriousness, wrap ourselves in the jurisdiction that has not affixed, has not been adhered to, is not a world court and criticism of our Government's particular action desperate as it has been. It has been awfully difficult to get a consensus in the U.S. Congress on Nicaragua. If you want to show how tentative the consensus is, and how emotional it is, it was not until Ortega says, I am going to Russia, that then they all turned around over in the House of Representatives and voted the other way.

You cannot call that mature conduct. But that is the way they act. They act with the headlines and the press of the Washington press. That is the way we live in this day and age. We do not sit back.

I have had an opportunity, just fleetingly you might say, to wonder awhile with the President. This President has been harassed, besieged, and beleaguered every day from the body of the national Congress. Do this, do that, do not agree, agree, do this, be tougher, be softer, meet here, do this, and do that.

I guess if I had become the President, I would have to assign a wonderful artisan like the Senator from New Hampshire who seems to work both sides of the aisle, the conservative and the liberal bent. I would get me a WARREN RUDMAN and I would say, I will give you a staff, I will sit you over there, and watch that crowd every day because communications with them is almost impossible. I have to read it in the headlines every morning. Now they want to put in tomorrow morning's headlines "Reagan Embarrassed By Senate Vote On World Court Jurisdiction." I do not want to stand for that.

Somebody had better come here that knows this subject better, and get up and argue it until the Senator from New York can come and some of the others because I happen to think that President Reagan believes in international order. He believes in law and order. He is not an outlaw. He is not running around trying his dead-level best to disobey law and order. But he is trying to realistically act down a Nicaragua which is awfully tough. We cannot control the Contras. Around here, they act like when you give assistance to somebody, you control them. Heavens no, sir, we have learned that does not occur. But there are those around who think if a dollar goes to any country, we control the Government, the people, the mores, the culture, and the law. Not so.

And with respect to the terrorism that is engaged in there in the Mideast, in the seizure, now our seizure, yes. I guess it was extralegal when we downed the Egyptian airliner on Sicily. But please do not start to set precedent around here and say we like to seize those terrorists, but leave alone those terrorists down there in Nicaragua because I can tell you here and now that is what we have on our hands. I never have divided in my mind the fact that terrorists do not have uniforms. Yes. They do not have uniforms in the Midwest. They have to act according to where they think their security interests are. So it is not necessarily that terrorism is bad and uniformed soldiers in military actions are good. I can understand the conduct sometimes from time to time, but there it is. We live in this particular era. We have to act for the security interests of the United States and the best interests.

I think the President of the United States in this particular regard with

respect to the World Court certainly did not want to embarrass his country. There was no need to. We had not adhered to that jurisdiction. We had an option under the document, if you read it, not to adhere to it. The Senators who propose the amendment say, well, we should have. I disagree very strongly that we should have. I think the President of the United States has taken the proper conduct. This is not an action for necessarily the law review on the campuses of America.

They can argue otherwise as to what it should be, but they have never been elected to anything. They have never had to respond to anything.

I am glad to see the majority leader here trying to help us so, hopefully, we can kill this amendment.

Mr. RUDMAN. Mr. President, we were hoping to move along with some alacrity on this bill. With all due respect to airplanes, trains, fog, and whatever, this place is getting to run like Amtrak—never on time.

Mr. HOLLINGS. And broke.

Mr. RUDMAN. And broke. My friend from South Carolina is correct. Never on time and broke.

I want to say that I am about to get to the point where, unless people want to talk about this—too many people have worked too long and too hard on this bill than to just sit around and wait—I am going to move to have a vote on this and let the Senate express its will.

I am going to talk for a few minutes, and if we do not have action on this bill, then it will be time to vote.

I ask unanimous consent to have printed in the RECORD a letter dated October 23, signed by William Ball III, Assistant Secretary, Legislative and Intergovernmental Affairs, Department of State.

There being no objection, the letter was ordered to be printed in the RECORD, as follows:

U.S. DEPARTMENT OF STATE,
Washington, DC, October 23, 1985.

Hon. WARREN RUDMAN,
U.S. Senate.

DEAR SENATOR RUDMAN: It has come to my attention that an amendment may be introduced to H.R. 2965 which would have the effect of withholding our contributions to international organizations.

The amendment would prohibit the payment by the United States of its assessed contributions to international organizations of which it is a member, so long as the United States does not accept the compulsory jurisdiction of the International Court of Justice under Article 36(2) of the Court's Statute.

The Department of State opposes this amendment and would recommend the bill be vetoed if the amendment is included. The United States is obliged to pay its proportionate share of the regular budgets of organizations to which it belongs. Failure to pay such contributions would violate our legal obligations and could result in loss of our vote or exclusion from participation in the organization.

By contrast, the President's action in terminating our acceptance of compulsory jurisdiction, effective six months from October 7, is entirely consistent with international law, the terms of the U.S. acceptance itself, and his constitutional powers in respect of the conduct of foreign affairs.

The consequence of this amendment would be that the United States would be compelled to violate its international legal obligations as the price for having taken a completely legal step with respect to the Court.

This amendment would not reverse the President's action. It can only call into question our commitment to our legal obligations to the organizations that would be affected, and penalize those organizations financially for reasons entirely unrelated to them.

The Office of Management and Budget advises that from the standpoint of the Administration's program there is no objection to the submission of this report and that enactment of this amendment would not be in accord with the program of the President.

With best wishes,

Sincerely,

WILLIAM L. BALL III,
Assistant Secretary,
Legislative and Intergovernmental Affairs.

Mr. RUDMAN. I want to briefly refer to one of the things that this letter says, and quite correctly. It is that this amendment, of course, would not really do anything constructive. What it essentially will do is to put the United States in default of its obligations to support a number of international organizations, international organizations, I believe, that the very sponsors of this amendment support, and probably support more than the managers of this bill. The result will not be in any way to compel the President to do anything he does not want to. It will simply compel the Treasurer of the United States not to send checks to some people he ought to send checks to.

I do not think it is an amendment that is really offered by the sponsors with any great thoughts that it will accomplish what they wish to accomplish. It is a symbolic act.

With all due respect, I agree with my friend from South Carolina. The President of the United States will meet with the head of the Soviet Union in about 3 weeks, and with the situation in Nicaragua where they deny all rights to their citizens, it seems to this Senator that this is the wrong time and the wrong place for this amendment.

Mr. President, I do not see anyone here willing to speak on this.

I would say to my friend from Illinois I do not want to vote to table this amendment offered by the chairman of the full committee. I think it deserves an up or down vote. Frankly, I do not think we ought to wait much longer before we vote on it. We were hoping to have this bill finished by 12 o'clock.

Mr. INOUYE. Will the Senator yield for a question?

Mr. RUDMAN. Yes.

Mr. INOUYE. Does this proposal cover the international programs in the jurisdiction of the Foreign Operations Subcommittee?

Mr. RUDMAN. No. The Senator from Hawaii is the ranking member of that subcommittee.

Mr. President, I yield the floor.

Mr. DOLE. Mr. President, I hope we can have a vote on this. We are going to try to complete work around here sometime this year. We cannot do that if we are going to be frustrated every time somebody is on an airplane or train and will not be back until 2 or 3 o'clock in the afternoon. I would hope we would start voting. Everyone has been on notice that this bill would come up at 9 o'clock this morning. We are here to vote. We are not here to stall or protect somebody. We are going to have votes of one kind or another this morning. We might as well be voting on the amendment.

The PRESIDING OFFICER. The Senator from Illinois.

Mr. SIMON. Mr. President, I would like to respond briefly to my friend from South Carolina.

I do not pretend to be an expert. Our friend from New York, a cosponsor, Senator MOYNIHAN, knows a lot more about this than probably any Member of this body.

Despite the eloquence of my good friend from South Carolina, as eloquent as any Member of this body, the issue is not what kind of government is in Nicaragua. I am not in love with the Sandinistas any more than the Senator from South Carolina. They are not Boy Scouts.

The question is whether the United States, for the first time since the Court began, is going to say, "We are not going to permit any jurisdiction."

Every President, every Congress, Republican and Democratic, has accepted the jurisdiction of the Court. All of a sudden, because we got caught with our hands in the cookie jar, so to speak, which we should not have done, we are going to say we are going to pull out of the Court.

The Senator from South Carolina is correct in saying that this is not the same court as the Supreme Court or the court of appeals because there are no enforcement mechanisms. It is a voluntary thing. But should we be withdrawing from a voluntary court of law that this world has? Should we be leaning toward rule by law or moving in the other direction?

I think, clearly, we ought to be moving toward a world where we abide by laws, where there is self-restraint.

It is interesting that the Senator from South Carolina just used the word "boatjacking," I guess it is the most recent word used now, of this Italian liner. It is interesting because I think what we did was fully justified. I

join with the Senator from South Carolina in applauding the President's actions there.

What happened was a violation of internationally recognized law called piracy. Those four PLO people violated that international law.

We have come to an agreement that is international law, that there are certain things you do not do without having something happen. We frankly need more of that.

Concerning the question asked by the Senator from New Hampshire, what does the amendment do, he is absolutely correct. I want to support those international organizations. Senator HATFIELD wants to support those international organizations. Senator MOYNIHAN does.

But what we want to do is to send a message to the administration just pulling off and pulling out of the World Court is not the direction this Nation ought to go. It is a very simple message.

If you believe that we ought to be among the nations who voluntarily go along with the World Court, we ought to adopt the Hatfield amendment.

If you believe that we ought to just pull out and have chaos and no self-restraint on the part of nations, then let us defeat the amendment.

I think the Hatfield amendment makes good sense and I hope it will be adopted.

Mr. President, I ask for the yeas and nays on the amendment.

The PRESIDING OFFICER. Is there a sufficient second? There is a sufficient second.

The yeas and nays were ordered.

Mr. HOLLINGS. Mr. President, I ask unanimous consent to include an article from the New York Times dated January 19 on the withdrawal from the case before the World Court by our Department of State, where they point out much more clearly and positively with respect to the jurisdiction of the World Court.

Of course, where armed conflict is involved, the Court has no jurisdiction.

There being no objection, the article was ordered to be printed in the RECORD, as follows:

[From the New York Times, Jan. 19, 1985]

TEXT OF U.S. STATEMENT ON WITHDRAWAL FROM CASE BEFORE THE WORLD COURT

WASHINGTON, Jan. 18.—Following is the text of a statement made public today by the State Department and called "U.S. Withdrawal From the Proceedings Initiated by Nicaragua in the International Court of Justice":

The United States has consistently taken the position that the proceedings initiated by Nicaragua in the International Court of Justice are a misuse of the Court for political purposes and that the Court lacks jurisdiction and competence over such a case. The Court's decision of Nov. 26, 1984, finding that it has jurisdiction, is contrary to law and fact. With great reluctance, the United States has decided not to participate in further proceedings in this case.

U.S. POLICY IN CENTRAL AMERICA

United States policy in Central America has been to promote democracy, reform and freedom; to support economic development; to help provide a security shield against those—like Nicaragua, Cuba and the U.S.S.R.—who seek to spread tyranny by force, and to support dialog and negotiation both within and among the countries of the region. In providing a security shield, we have acted in the exercise of the inherent right of collective self-defense, enshrined in the United Nations Charter and the Rio Treaty. We have done so in defense of the vital national security interests of the United States and in support of the peace and security of the hemisphere.

Nicaragua's efforts to portray the conflict in Central America as a bilateral issue between itself and the United States cannot hide the obvious fact that the scope of the problem is far broader. In the security dimension, it involves a wide range of issues: Nicaragua's huge buildup of Soviet arms and Cuban advisers, its cross-border attacks and promotion of insurgency within various nations of the region, and the activities of indigenous opposition groups within Nicaragua. It is also clear that any effort to stop the fighting in the region would be fruitless unless it were part of a comprehensive approach to political settlement, regional security, economic reform and development, and the spread of democracy and human rights.

ROLE OF THE INTERNATIONAL COURT OF JUSTICE

The conflict in Central America, therefore, is not a narrow legal dispute; it is an inherently political problem that is not appropriate for judicial resolution. The conflict will be solved only by political and diplomatic means—not through a judicial tribunal. The International Court of Justice was never intended to resolve issues of collective security and self-defense and is patently unsuited for such a role. Unlike domestic courts, the World Court has jurisdiction only to the extent that nation-states have consented to it. When the United States accepted the Court's compulsory jurisdiction in 1946, it certainly never conceived of such a role for the Court in such controversies. Nicaragua's suit against the United States—which includes an absurd demand for hundreds of millions of dollars in reparation—is a blatant misuse of the Court for political and propaganda purposes.

As one of the foremost supporters of the International Court of Justice, the United States is one of only 44 of 159 member states of the United Nations that have accepted the Court's compulsory jurisdiction at all. Furthermore, the vast majority of these 44 states have attached to their acceptance reservations that substantially limits its scope. Along with the United Kingdom, the United States is one of only two permanent members of the U.N. Security Council that have accepted that jurisdiction. And of the 16 judges now claiming to sit in judgment on the United States in this case, 11 are from countries that do not accept the Court's compulsory jurisdiction.

Few if any other countries in the world would have appeared at all in a case such as this which they considered to be improperly brought. Nevertheless, out of its traditional respect for the rule of law, the United States has participated fully in the Court's proceedings thus far, to present its view that the Court does not have jurisdiction or competence in this case.

THE DECISION OF NOVEMBER 26

On Nov. 26, 1984, the Court decided—in spite of the overwhelming evidence before it—that it does have jurisdiction over Nicaragua's claims and that it will proceed to a full hearing on the merits of these claims.

This decision is erroneous as a matter of law and is based on a misreading and distortion of the evidence and precedent:

The Court chose to ignore the irrefutable evidence that Nicaragua itself never accepted the Court's compulsory jurisdiction. Allowing Nicaragua to sue where it could not be sued was a violation of the Court's basic principle of reciprocity, which necessarily underlies our own consent to the Court's compulsory jurisdiction. On this pivotal issue in the Nov. 26 decision—decided by a vote of 11-5—dissenting judges called the Court's judgment "untenable" and "astonishing" and described the U.S. position as "beyond doubt." We agree.

El Salvador sought to participate in the suit to argue that the Court was not the appropriate forum to address the Central Amercian conflict. El Salvador declared that it was under armed attack by Nicaragua and, in exercise of its inherent right of self-defense, had requested assistance from the United States. The Court rejected El Salvador's application summarily—without giving reasons and without even granting El Salvador a right and in disregard of the Court's own rules.

The Court's decision is a marked departure from its past, cautious approach to jurisdictional questions. The haste with which the Court proceeded to a judgment on these issues—noted in several of the separate and dissenting opinions—only adds to the impression that the Court is determined to find in favor of Nicaragua in this case.

For these reasons, we are forced to conclude that our continued participation in this case could not be justified.

In addition, much of the evidence that would establish Nicaragua's aggression against its neighbors is of a highly sensitive intelligence character. We will not risk U.S. national security by presenting such sensitive material in public or before a Court that includes two judges from Warsaw Pact nations. This problem only confirms the reality that such issues are not suited for the International Court of Justice.

LONGER TERM IMPLICATIONS OF THE COURT'S DECISION

The Court's decision raises a basic issue of sovereignty. The right of a state to defend itself or to participate in collective self-defense against aggression is an inherent sovereign right that cannot be compromised by an inappropriate proceeding before the World Court.

We are profoundly concerned also about the long-term implications for the Court itself. The decision of Nov. 26 represents an overreaching of the Court's limits, a departure from its tradition of judicial restraint and a risky venture into treacherous political waters. We have seen in the United Nations, in the last decade or more, how international organizations have become more and more politicized against the interests of the Western democracies. It would be a tragedy if these trends were to infect the International Court of Justice. We hope this will not happen, because a politicized Court would mean the end of the Court as a serious, respected institution. Such a result would do grievous harm to the goal of the rule of law.

These implications compel us to clarify our 1946 acceptance of the Court's compulsory jurisdiction. Important premises on which our initial acceptance was based now appear to be in doubt in this type of case. We are therefore taking steps to clarify our acceptance of the Court's compulsory jurisdiction in order to make explicit what we have understood from the beginning, namely that cases of this nature are not proper for adjudication by the Court.

We will continue to support the International Court of Justice where it acts within its competence—as, for example, where specific disputes are brought before it by special agreement of the parties. One such example is the recent case between the United States and Canada before a special five-member Chamber of the Court to delimit the maritime boundary in the Gulf of Maine area. Nonetheless, because of our commitment to the rule of law, we must declare our firm conviction that the course on which the Court may now be embarked could do enormous harm to it as an institution and to the cause of international law.

Mr. RUDMAN. Mr. President, I think we have given everyone the opportunity to speak who wants to speak. If there are no other Members seeking recognition and since the yeas and nays have been ordered, I would hope we could get to a vote fairly soon.

Mr. SIMON. Will the Senator yield?

Mr. RUDMAN. I am happy to yield.

Mr. SIMON. I understand fully what you are saying and what the majority leader is saying. I know Senator MOYNIHAN, whose plane is within 10 minutes of landing, wants to speak on this. If there is further business before this body that can be accomplished, I have no objection to moving ahead, but I would like to show that courtesy to our colleague.

Mr. RUDMAN. I will not say anything in response to that other than the fact that, looking at the weather outside, I daresay that a plane due at Washington at 11 o'clock this morning might get here the day before Thanksgiving.

I yield the floor.

CALL OF THE ROLL

The PRESIDING OFFICER. Who seeks recognition?

Mr. HOLLINGS. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. SIMON. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

Mr. RUDMAN. Mr. President, I object.

The PRESIDING OFFICER. The objection is heard.

The legislative clerk resumed the call of the roll and the following Senators entered and answered to their names.

[Quorum No. 19 Leg.]

Armstrong	Hatch	Rudman
Byrd	Heflin	Simon
D'Amato	Hollings	Simpson
Dole	Inouye	Thurmond
Grassley	Leahy	

The PRESIDING OFFICER (Mr. D'AMATO). A quorum is not present. The clerk will call the names of the absentees.

The legislative clerk resumed the call of the roll.

Mr. DOLE. Mr. President, I move that the Sergeant at Arms be instructed to request the attendance of absent Senators. I ask for the yeas and nays.

The PRESIDING OFFICER. Is there a sufficient second? There is a sufficient second.

The yeas and nays were ordered.

The PRESIDING OFFICER. The question is on agreeing to the motion of the Senator from Kansas. The yeas and nays were ordered, and the clerk will call the roll.

The legislative clerk called the roll.

Mr. SIMPSON. I announce that the Senator from Minnesota [Mr. BOSCHWITZ], the Senator from Alabama [Mr. DENTON], the Senator from Washington [Mr. EVANS], the Senator from Maryland [Mr. MATHIAS], the Senator from Indiana [Mr. QUAYLE] and the Senator from Alaska [Mr. STEVENS are necessarily absent.]

Mr. CRANSTON. I announce that the Senator from Connecticut [Mr. DODD], the Senator from Colorado [Mr. HART], the Senator from Montana [Mr. MELCHER] and the Senator from Mississippi [Mr. STENNIS] are necessarily absent.

I further announce that the Senator from New Jersey [Mr. BRADLEY] is absent on official business.

The PRESIDING OFFICER. Are there any other Senators in the Chamber who desire to vote?

The result was announced—yeas 85, nays 4, as follows:

[Rollcall Vote No. 248 Leg.]

YEAS—89

Abdnor	Gorton	Metzenbaum
Andrews	Gramm	Mitchell
Armstrong	Grassley	Moynihan
Baucus	Harkin	Murkowski
Bentsen	Hatch	Nickles
Biden	Hatfield	Nunn
Bingaman	Hawkins	Packwood
Boren	Hecht	Pell
Bumpers	Heflin	Pressler
Burdick	Heinz	Proxmire
Byrd	Helms	Pryor
Chafee	Hollings	Riegle
Chiles	Humphrey	Rockefeller
Cochran	Inouye	Roth
Cranston	Johnston	Rudman
D'Amato	Kassebaum	Sarbanes
Danforth	Kasten	Sasser
DeConcini	Kennedy	Simon
Dixon	Kerry	Simpson
Dole	Lautenberg	Specter
Domenici	Laxalt	Stafford
Durenberger	Leahy	Symms
Eagleton	Levin	Thurmond
East	Long	Trible
Exon	Lugar	Warner
Ford	Matsunaga	Wilson
Garn	Mattingly	Zorinsky
Glenn	McClure	
Gore	McConnell	

NAYS—4

Cohen	Wallop
Goldwater	Weicker

NOT VOTING—11

Boschwitz	Evans	Quayle
Bradley	Hart	Stennis
Denton	Mathias	Stevens
Dodd	Melcher	

So the motion was agreed to.

The PRESIDING OFFICER. With the addition of Senators voting who did not answer the quorum call, a quorum is now present.

COMMERCE, JUSTICE, AND STATE, THE JUDICIARY, AND RELATED AGENCIES APPROPRIATIONS, 1986

The Senate continued with the consideration of the bill.

AMENDMENT NO. 865

Mr. DOLE. Mr. President, the distinguished Senator from New York wanted 2 minutes yielded to him, which I now yield.

Mr. MOYNIHAN. I thank the distinguished majority leader.

The PRESIDING OFFICER. The Senator from New York is recognized.

Mr. MOYNIHAN. Mr. President, today, October 24, marks the 40th anniversary of the entry into force of the "Charter of the United Nations and Statute of the International Court of Justice." Even as we speak, the President of the United States is in New York City addressing the U.N. General Assembly on this occasion—an illustration, if you will, of how important Ronald Reagan considers that forum to be, the only place in the world where an American President can speak at one time to leaders and representatives of 159 nations.

Today is therefore an opportune time to recall the founding of that international body, and no less the high hopes that accompanied its first months and years.

The documents were drafted in San Francisco, and signed there on June 26, 1945. But, as agreed in article 110, they did not take effect until deposit of ratifications by the five permanent members of the Security Council and "a majority of the other signatory states."

Although the United States was not the first to ratify the Charter—El Salvador, Nicaragua, and New Zealand preceeded us—the United States was the first to deposit its ratification, on August 8, 1945. No doubt it helped that the United States was the repository of the instruments. On October 24, the fifth of the five permanent members—the U.S.S.R.—deposited its ratification with the Secretary of State and the Charter came into force.

The Statute of the International Court of Justice came into force at the same time; to join the United Nations was to join the World Court. The U.N.

Charter says as much. Article 92 states:

The Permanent Court of International Justice . . . forms an integral part of the present Charter.

Article 93 says:

All Members of the United Nations are ipso facto parties to the Statute of the International Court of Justice.

In the summer of 1946, the United States again led the way, becoming one of the very first members of the United Nations to declare that it would also accept the compulsory jurisdiction of the ICJ, and optional higher level of commitment to the rule of law in world affairs not automatically incurred with membership in the United Nations system.

On August 2, 1946, by near unanimous vote [60-2], the Senate gave its advice and consent to the acceptance by the United States of the compulsory jurisdiction "in all legal disputes" of the International Court of Justice, "in relation to any other state accepting the same obligation."

President Truman promulgated this declaration of August 14, and it was deposited with the Secretary General of the United Nations on August 26, 1946.

In moving the measure, Senator Wiley, for the Committee on Foreign Relations, noted that the aceptance of compulsory jurisdiction was "for a period of 5 years and thereafter until 6 months following notice of termination." He continued:

The provision for 6 months' notice of termination after the 5-year perod has the effect of a renunciation of any intention to withdraw our obligation in the face of a threatened law suit.

Yet, in April 1984, the present administration, anticipating a suit by Nicaragua, announced it would not accept the Court's authority in disputes involving Central America for 2 years. This was a clear violation of the letter and spirit of our original declaration. I so stated at the time.

I would have much preferred that the United States welcome the opportunity to meet Nicaragua in Court, and file our own counterclaims against what I regarded as egregious and persistent violations of international law by that nation, most especially in its interference with neighboring El Salvador.

For 3 years running, in my capacity as the vice chairman of the Senate Select Committee on Intelligence, I had brought intelligence authorization bills to the floor of the Senate, stating that American activity in Central America arose because of violations by Nicaragua. I said at the time that we would have a very great deal indeed to talk about in Court, especially if joined by El Salvador. But our Government decided not to participate in any further proceedings of the Court with respect to Nicaragua's suit, leaving the public record at The Hague to be constructed entirely by Nicaraguan representatives.

It was a further disappointment, therefore, though not a surprise, to learn 3 weeks ago that the administration had decided more formally to more thoroughly renounce the American acceptance of the compulsory jurisdication of the Court. While that announcement, on October 7, rendered moot some of the evasions of 18 months ago, I believe it is nevertheless a mistaken course of action.

Accordingly, I joined the distinguished chairman of the Appropriations Committee, Mr. HATFIELD, in sponsoring a concurrent resolution, Senate Concurrent Resolution 77, deploring that decision and reaffirming instead "support for the international rule of law."

It was our hope that the administation might at least choose to come to the Congress and discuss this. That remains our hope, although, speaking now for myself, I admit that the expectation that it be fulfilled is waning. I would say that, in the spirit of concern for law and respect for American commitments, the administration might request hearings by the Foreign Relations Committee in which we can consider where to go from here.

Not 40 years ago, it was the near-unanimous judgment of the Senate, of the American bar, and, as Senator Wiley stated, unanimously that of the witnesses that came before his committee—including, most particularly, of the American Bar Association and the American Society of International Law—that the United States should accept the compulsory jurisdiction of the Court via-a-vis any other national that did so.

We expected most would. We were wrong. This fact controls our present action, but need not preclude further initiative. We can still go to the world community and state that, if the perhaps-ideal world of law we envisioned in 1945 has not come to pass, is it not even so possible to salvage something of this great ideal of American statecraft? Such is to be found in the Constitution itself where Congress is specifically given power to define and punish "offenses against the law of nations."

In offering the pending amendment, Senator HATFIELD, Senator SIMON, and others who have joined as cosponsors, are stating in as emphatic terms as we know, our belief that the administration has made a mistake in abandoning the International Court of Justice.

It is especially sad that we should be obliged to consider this amendment on this the 40th anniversary of the entry into force of the United Nations—and the ICJ. I hope the President will be struck by the irony of this vote taking place on the day he is addressing the General Assembly of the United Nations, and will reconsider whether such forums, including the judicial forum provided by the International Court of Justice, might be worth preserving and strengthening.

I move the adoption of the amendment.

Mr. CHAFEE. Mr. President, I find that I must vote against this amendment with exception. The amendment we now consider would prohibit the payment by the United States of its assessed contributions to international organizations of which it is a member, as long as the United States does not accept the compulsory jurisdiction of the International Court of Justice under article 36(2) of the Court's statute.

On October 7, the President announced that the United States will no longer accept the notion of "compulsory jurisdiction" of member states to the International Court of Justice—the Court that the United States helped to found over 40 years ago.

The administration's action comes as the World Court is considering a case against the United States brought by Nicaragua. The Sandinista government charges that the United States illegally mined Nicaraguan harbors and is unlawfully directing the counterrevolutionary insurgency of the Contras.

By refusing to accept compulsory jursidiction, we have taken the position that we will use the Court only when it serves the interests of American Foreign Policy. Prof. Alfred Rubin, professor of international law at the Fletcher School of Law and Diplomacy says,

By pulling out in this manner we apply to the world the same standard as Soviet Union. We are accepting their model of the world.

The United States accepted compulsory jurisdiction in 1946. In the history of the Court, it has never decided against the United States. In fact, it was the decision of the Court that laid the basis for our claims against Iran, after the hostage incident. To withdraw from the Court as this time would serve little useful purpose for it is a viable international forum.

However, while I am troubled at the announcement of our position with respect to the Court, I believe this amendment goes too far. It calls for us to stop our payments to many international organizations that truly serve humanity, including the World Health Organization, the Food and Agriculture Organization, the International Civil Aviation Organization, the World Meteorological Organization, the Atomic Energy Agency, the International Telecommunications Union, the International Labour Organization, and the Organization of American States.

Beyond these organizations, the amendment would have severe repercussions on our own security: Our assessed contribution of $20 million that pays for our participation in NATO would also be prohibited.

Mr. President, while I am a supporter of the International Court of Justice, I find myself voting against this amendment. The basic reason is that it goes too far in pursuit of a worthy goal.

Mr. MITCHELL. Mr. President, I find myself facing the situation in which I must vote against a proposal whose purpose I endorse. I do so reluctantly, but I believe to do otherwise would be equally mistaken.

The amendment before us consists of two parts:

First, it requires the United States to accept the jurisdiction of the World Court in the current pending case brought by Nicaragua.

Second, it cuts off U.S. contributions to the United Nations and its agencies unless the administration reverses its current stance on World Court jurisdiction.

Now I understand that the premise of this amendment is that the administration is not going to use this opportunity to pull out of the United Nations. We are all aware that despite its rhetorical excesses, this administration has found and continues to find the United Nations a useful forum for a broad variety of foreign policy initiatives.

But the fact that the administration is disingenuous in using the United Nations while at the same time denouncing the United Nations is no reason for the Senate to adopt a similar stance.

I support the World Court. I believe our Nation was right in accepting the Court's jurisdiction 40 years ago. and I believe the administration was wrong in withdrawing the United States from that recognition this month.

Despite its many failings, I recognize that the United Nations does valuable work through its independent agencies and serves as a useful forum for international exchanges. So I do not wish to see our Nation lose its vote in the body.

For these reasons, I will vote against the pending amendment.

Mr. SPECTER. Mr. President, I am voting against the Hatfield amendment because I am opposed to freezing or cutting off funds for the international organizations as provided by that amendment. The position of the United States on the issue of submitting to the jurisdiction of the World Court is one which should be fully considered by the U.S. Senate. In my judgment, that cannot be accomplished in a hurried setting on an abbreviated debate on the Hatfield amendment on this appropriations bill.

The issue should be framed by appropriate legislation or an appropriate resolution with hearings by the Foreign Relations Committee so that the executive branch and all others may present their views. At this juncture since it is highly unlikely that the action of the Senate will alter the United States' position on the issue of submitting to the jurisdiction of the World Court, it is preferable to await the conclusion of the proceedings before the World Court before the U.S. Senate or the full Congress expresses a position so that we may do so after all of the facts are before us.

This issue cannot be dealt with adequately in this context at this time, and I therefore oppose the curtailment of funding as provided by the Hatfield amendment.

Mr. MATHIAS. Mr. President, the United States, as a great power, has a particular interest in the establishment and maintenance of the rule of law among nations.

We bear the responsibility for peace and stability in the world, but neither we nor any other nation has the power to preserve order by police action at all times and in every corner of the globe.

It is only through universal respect for the institutions and the principles that help to keep the peace that the United States can hope to do what it promised to do when it sponsored and supported the establishment of the World Court on October 24, 1945, exactly 40 years ago today.

Our country, which rightly prides itself on being the most vital democratic nation on Earth—a nation governed by the rule of law and the freely expressed views of its people—cannot turn its back on the leading international body dedicated to advancement of the rule of law.

Mrs. HAWKINS. Mr. President, I have serious objections to the proposition behind the Hatfield amendment that somehow the World Court is some great, objective, legal body that is paving the way for the millennium. Several weeks ago former U.S. Ambassador to the United Nations, Jeane J. Kirkpatrick, wrote a column which appeared in the Washington Post concerning the realities of the World Court. I commend that article to my colleagues and ask unanimous consent that it appear in the RECORD.

There being no objection, the article was ordered to be printed in the RECORD, as follows:

[From the Washington Post, Sept. 30, 1985]

NICARAGUA'S U.S. LAWYERS

(By Jeane J. Kirkpatrick)

At the Hague, Nicaragua's case against the United States' government continues to display some unusual characteristics.

It is the first time—old hands say—that lawyers and witnesses have opposed their own country in the World Court. The court, after all, deals with issues between governments, not persons. Heretofore, governments have relied on their own nationals to represent them and citizens have supported their governments. Now, Managua is accusing the United States of major violation of international law for organizing, funding and directing the anti-Sandinista forces (the contras), and for mining Nicaragua's ports.

To press its case against the United States government inside the International Court of Justice, the government of Nicaragua has retained an international team headed by Americans and has called American witnesses to support its case. This development is the more interesting because of the issues involved and because one of the Americans representing Nicaragua is Abram Chayes, a Harvard law professor who served as top legal adviser to the State Department during the Kennedy administration, and one of the American witnesses, David MacMichael, held a top-secret clearance as a contract employee of the CIA as recently as 1983. The other American witness is Michael J. Glennon, a professor of law at the University of Cincinnati.

The United States is refusing to participate in the proceedings on grounds that the issue before the court is not a narrow or technical legal question but U.S. policy toward Central America and more specifically toward Nicaragua. Such political questions are not deemed justiciable by United States courts and have heretofore not been seen as falling within the jurisdiction of the World Court. The issue, U.S. attorneys insisted, "is an inherently political problem that is not appropriate for judicial resolution." This gives the unprecedented role of the American lawyers and witnesses on the Nicaraguan team an additional political dimension. What are they doing there?

Prof. Glennon claims that he is "acting in the highest tradition of the American people" and that he had "a responsibility to make available relevant information in his possession." However, he does not explain how he acquired the responsibility or to whom it is owed.

It is possible that the attorneys believe that representing Nicaragua before the World Court is no different from representing an accused criminal before an American court. But it seems unlikely given the broadly political character of the issues involved.

It is also possible that the Americans' involvement on Nicaragua's team is simply one more affirmation of the American faith that political problems between nations can be settled by supranational judicial means. However, this too is unlikely.

Real naiveté is required to believe that the International Court is today a nonpolitical body. Its judges loosely "represent" the world's various political and regional groups. They are nominated by the U.N. Security Council and are elected by one of the world's most political bodies, the General Assembly of the United Nations. Fewer than one-third of the nations of the world accept the court's jurisdiction. Almost all of that one-third have filed reservations limiting jurisdiction. On non-technical questions, the court's views broadly reflect the politics of the General Assembly.

But if Chayes and his colleagues do not believe that the World Court can be counted on to function nonpolitically, what then are they doing?

I believe that they along with the Nicaraguan government are seeking to change U.S. policy and that they regard their appearance before the court as a legitimate act to that end. Chayes said as much when he

noted that U.S. policy toward the Sandinistas is "under continuous discussion" and that an "authoritative statement" by the court could affect the debate (The Washington Post, Sept. 8, 1985). What should the rest of us think of this form of political action?

We regard it as legitimate for Americans to represent a foreign government's interests in Washington, provided that they register as agents and otherwise obey our laws. But the Washington lobbyist for a foreign government seeks to influence American policy directly as it is being made, while counsel and witnesses for Nicaragua cooperate with a foreign government to undermine the legitimacy of existing U.S. government policies. They do this in the name of "higher" loyalties that presumably override a citizen's obligation to support decisions made through normal democratic processes. Glennon invokes these "highest tradition of the American people."

Does such a tradition exist?

We may be in the process of forging one. Traditionally, citizens of a democracy have a right to participate in making policy and an obligation to accept the resulting decision. Acceptable political behavior in a democracy has not featured collaboration with foreign powers in the policy process. However, the boundaries of acceptable political action and of dissent were stretched during the Vietnam's war by those who marched under the Viet Cong flag and worked on North Vietnam's behalf. Boundaries are being stretched again in the Hague. And elsewhere.

More and more actual and potential adversaries are invited into our political process—Hezbollah hijackers, Sandinista ministers. Soviet spokesmen whomever. We have put our foot firmly down on a slippery slope where distinctions between one's country and its adversaries, citizen and alien, loyalty and disloyalty fade and disappear. And any side is made to seem roughly equivalent to any other. It is all relative.

Or is it?

In the effort now under way at the Hague, the government of Nicaragua seeks to deprive the United States of control over important aspects of its foreign policy. It is curious that such a course would appeal to Americans.

Mr. THURMOND. Mr. President, I rise in opposition to the amendment proposed by my distinguished colleagues, Senator HATFIELD and Senator MOYNIHAN.

In 1946, the United States accepted the compulsory jurisdiction of the International Court of Justice. At that time, it was contemplated that most nations would do the same. However, fewer than one-third of the world's nations have accepted the compulsory jurisdiction of the court. The Soviet Union and its allies are among those nations which have never accepted compulsory jurisdiction.

The statute of the International Court of Justice specifically allows each nation to determine its relationship to the court. Furthermore, the statute expressly refers to the right of a nation to condition its acceptance of compulsory jurisdiction on the basis of reciprocity.

For too long, such reciprocity by the vast majority of nations has been lacking in the International Court. Nations, like the United States, which have accepted compulsory jurisdiction must defend the claims of others. However, our Nation cannot force other nations before the court to defend our claims against them.

I support the recent decision of the President regarding the jurisdiction of the International Court of Justice. That decision does not reduce our devotion to international law and the peaceful resolution of disputes. The use of the International Court of Justice for these laudable purposes should be continued. However, it is a matter of elemental fairness that if other nations have the opportunity of consensual jurisdiction, so should the United States.

The logic behind the President's decision does not deserve the sanctions which the authors of this amendment seek to impose. Therefore, I request that my colleagues join me in opposing this amendment.

Mr. DOLE. Mr. President, I understand the yeas and nays have been ordered on the amendment.

The PRESIDING OFFICER. Yes, they have.

Mr. DOMENICI. The question is on the amendment.

The PRESIDING OFFICER. If there be no further debate on the amendment, the question is on agreeing to the amendment of the Senator from Oregon.

On this question, the yeas and nays have been ordered, and the clerk will call the roll.

The legislative clerk called the roll.

Mr. SIMPSON. I announce that the Senator from Idaho [Mr. MCCLURE], the Senator from Alaska [Mr. MURKOWSKI], and the Senator from Idaho [Mr. SYMMS] are necessarily absent.

Mr. CRANSTON. I announce that the Senator from New Jersey [Mr. LAUTENBERG] is necessarily absent.

I further announce that the Senator from New Jersey [Mr. BRADLEY] is absent on official business.

The PRESIDING OFFICER. Are there any other Senators in the Chamber who desire to vote?

The result was announced—yeas 21, nays 74, as follows:

[Rollcall Vote No. 249 Leg.]

YEAS—21

Andrews	Harkin	Metzenbaum
Baucus	Hatfield	Moynihan
Burdick	Kennedy	Proxmire

Johnston	Pryor	Zorinsky
Kassebaum	Quayle	

NOT VOTING—5

Bradley	McClure	Symms
Lautenberg	Murkowski	

So the amendment (No. 865) was rejected.

Mr. DOLE. Mr. President, I move to reconsider the vote by which the amendment was rejected.

Mr. RUDMAN. Mr. President, I move to lay that motion on the table.

The motion to lay on the table was agreed to.

Mr. RUDMAN. Mr. President, I ask unanimous consent that the pending committee amendment be laid aside temporarily for the purpose of considering amendments which are going to be agreed to.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. RUDMAN. Mr. President, we have 6 minutes remaining and there are amendments that the committee has agreed to on both sides: One amendment by Senator WILSON, one by Senator HEFLIN, one by Senator CHILES, one by Senator PRESSLER, and one by Senator LUGAR. I have one amendment to offer on behalf of Senator DOMENICI.

If any of those Senators are present, I would like them to seek recognition now.

Mr. WILSON addressed the Chair.

The PRESIDING OFFICER. The Senator from California.

AMENDMENT NO. 866

Mr. WILSON. Mr. President, I send an amendment to the desk and ask for its immediate consideration.

The PRESIDING OFFICER. The clerk will report.

The assistant legislative clerk read as follows:

The Senator from California [Mr. WILSON] proposes an amendment numbered 866.

Mr. WILSON. Mr. President, I ask unanimous consent that further reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

On page 35, line 7 strike "$6,839,000" and insert in lieu thereof "$6,039,000"; on page 35, line 25 strike "$10,340,000" and insert in lieu thereof "$11,340,000"; on page 36, restore the matter stricken on line 10 through line 15, amended to change the appropriation on line 11 to "$1,200,000"; and on page

37, line 22 strike "$10,000,000" and insert in lieu thereof "$9,800,000"

Mr. WILSON. Mr. President, the amendment that I am offering today reimburses the city of San Diego for sewage treatment services it provides the Republic of Mexico under a treaty obligation of the United States. It is important to note that the chairman and I have worked to see that this amendment is revenue neutral.

Under the terms of a 20-year-old international agreement, the city of San Diego treats between 13 and 15 million gallons of Tijuana sewage daily. As a result, local ratepayers have been burdened with up to a $1.8 million annual cost for treating sewage from Mexico.

Mr. President, last year, the International Boundary and Water Commission budget included $1.8 million to reimburse San Diego for treating Mexican sewage. At the request of the IBWC, because of their efforts to negotiate with Mexico to secure funds to pay for San Diego treatment, a similar request was not made in the Senate this year. Despite these negotiations, the IBWC has been unable to secure a financial commitment from Mexico. Therefore, I am offering this amendment to reimburse San Diego for services it provides to a foreign country under a treaty obligation of the United States.

There has been significant progress on the Tijuana sewage situation in the last year. It is my hope that this will be the last time that a full appropriation for reimbursement will be required because Mexico is in the process of upgrading and improving Tijuana's sewage situation. The first phase of this project includes a 50-million-gallon-per-day treatment plant that will eliminate the need for daily San Diego treatment of Tijuana sewage. The project is on schedule and should be completed by the end of 1986.

Finally, I want to thank the committee for its assistance with this amendment. This situation and its inherent health hazard are important and serious concerns to me and my constituents and I appreciate the assistance the committee has provided, particularly my friend from New Hampshire [Mr. RUDMAN].

Mr. RUDMAN. Mr. President, the amendment has been cleared on this side.

Mr. CHAFEE. Mr. President, has the Public Works Committee been consulted on this? I believe this is an issue we have had before us in the past. I am not opposed to it, but I think that I prefer us to set this aside. We are coming back to this bill.

Mr. RUDMAN. This was cleared, the identical amount, 2 years ago. This is the last payment on it, I believe. However, we will be happy to lay the amendment aside.

Mr. CHAFEE. I would like to make sure that the chairman of that committee has a chance to know about it. I will try and call him right now.

Mr. RUDMAN. Mr. President, I believe the pending business will still be the Wilson amendment. I wonder if the Senator from California would withdraw his amendment for the time being.

Mr. WILSON. Yes, I will.

Subsequently, the following occurred:

Mr. WILSON. Mr. President, the problem raised by the distinguished Senator from Rhode Island has been dealt with. I thank the manager particularly for his very great cooperation.

Mr. RUDMAN. Mr. President, the amendment has been cleared on both sides.

The PRESIDING OFFICER. The question is on agreeing to the amendment of the Senator from California.

The amendment (No. 866) was agreed to.

Mr. RUDMAN. Mr. President, I move to reconsider the vote by which the amendment was agreed to.

Mr. BUMPERS. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

AMENDMENT NO. 867

Mr. CHILES. Mr. President, I send an amendment to the desk and ask for its immediate consideration.

The PRESIDING OFFICER. The clerk will report.

The assistant legislative clerk read as follows:

The Senator from Florida [Mr. CHILES], for himself and Mr. HEFLIN, proposes an amendment numbered 867.

Mr. CHILES. Mr. President, I ask unanimous consent that further reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

On page 8 at the end of line 6 insert:

In addition, $3,000,000 for payments under section 4(b) of the Commercial Fisheries Research and Development Act of 1964 for commercial fisheries failures and disruptions to be derived by transfer from the "Disaster loan fund, Small Business Administration".

Mr. CHILES. Mr. President, I join with the distinguished senior Senator from Alabama in offering an amendment to add $3 million for rehabilitation of oyster beds along the gulf coast. The oyster beds from Apalachicola Bay in Florida through Alabama were recently devastated by Hurricane Elena. Elena's strong currents and winds swept over shallow coastal waters where oysters spawn and dislodged productive oysters shells from the reefs. Surveys of some of Florida's most productive oyster beds have found them barren. This has caused an indefinite closing of many oyster areas and has resulted in widespread unemployment in the surrounding coastal communities. In fact, its estimated that as many as 4,000 people in Florida may be out of work as a direct result of closing the oyster fisheries. Both the National Marine Fisheries Service [NMFS] and Florida's Department of Natural Resources [DNR] have documented the devastation. What is needed now is the immediate rehabilitation of the oyster beds. As I understand, it is necessary to place new shell on hard bottom before the next spawning season in the summer of 1986. This will provide a surface on which oysters can attach. At best, the beds cannot reopen for 12 to 18 months beyond that spawning season. While this is an extended delay, restoration of the oyster beds is essential for the long-term economic health of the gulf coast areas.

But rehabilitation of these beds is not inexpensive. It is estimated $1.57 million will be needed in Florida and $1.5 million in Alabama. Rehabilitation authority exists under section 4(b) of Public Law 88-309 but no funds have been requested for fiscal year 1986. The amendment by the Senators from Alabama and Florida would make these funds available. Since surplus funds exist in the Small Business Administration's Disaster Loan Program, our amendment would transfer the required amount from this account to the section 4(b) account of Public Law 88-309. This would incur no new budget authority. I urge the Senate to adopt this amendment.

Mr. HEFLIN. Mr. President, I rise to offer an amendment along with the distinguished senior Senator from Florida to provide $3 million for the rehabilitation of oyster beds along the coast of Alabama and Florida which were destroyed by Hurricane Elena.

Mr. President, the oyster industry in Alabama and Florida suffered a serious blow at the hands of Hurricane Elena. Elena's strong winds and ferocious tides devastated Alabama's oyster reefs which are located in the southwestern coastal area of the gulf coast. More that 220 million oysters with an economic value of $48 million were lost due to the hurricane. Officials at the Alabama Department of Conservation and Natural Resources have informed me that it will take 1½ to 2 years to rehabilitate these resources.

The economic impact upon the population of south Mobile County will be felt throughout most segments of the local economy. There were more than 1,100 licensed fishermen, 47 oyster shucking houses and approximately 3,000 shuckers, cullers, transporters and other persons impacted by this loss. In the communities of Heron Bay, Alabama Port, Coden, Irvington,

and Bayou La Batre, almost every family is employed in some segment of the oyster industry. The income loss to these people for the next 1 to 2 years will no doubt result in a severe economic hardship.

Mr. President, immediate action must be taken. Rehabilitation must begin now if the oyster beds are to be ready for the next spawning season in the summer of 1986. It is estimated that just over $3 million will be needed to rehabilitate the oyster beds in Alabama and Florida. While authority exists under section 4(b) of Public Law 88-309 to provide aid in this situation, no funds have been requested for 1986. Our amendment would simply transfer funds from the Small Business Administration's Disaster Loan Program to this account, incurring no new budget authority. If we do not provide this needed assistance thousands of people along the gulf coast will continue to suffer Elena's wrath for years to come. I urge my colleagues to adopt this amendment.

Thank you, Mr. President.

Mr. RUDMAN. Mr. President, this amendment has been cleared by this subcommittee and the authorizing committee.

The PRESIDING OFFICER. Is there further debate? If not, the question is on agreeing to the amendment.

The amendment (No. 867) was agreed to.

Mr. RUDMAN. Mr. President, I move to reconsider the vote by which the amendment was agreed to.

Mr. CHILES. Mr. President, I move to lay that motion on the table.

The motion to lay on the table was agreed to.

AMENDMENT NO. 868

(Purpose: To require a report on the advisability of imposing economic boycotts against countries supporting or harboring international terrorists)

Mr. MURKOWSKI. Mr. President, I send an amendment to the desk and ask for its immediate consideration.

The PRESIDING OFFICER. The amendment will be stated.

The assistant legislative clerk read as follows:

The Senator from Alaska [Mr. MURKOWSKI] proposes an amendment numbered 868.

On page 69, after line 4, add the following:

SEC. 607. (a) Not later than January 15, 1986, the Secretary of State, in consultation with the Secretary of Commerce and the United States Trade Representative, shall prepare and transmit to the committee on Appropriations and the committee on Foreign Affairs of the House of Representatives and the Committee on Foreign Relations of the Senate a report which—

(1) assesses the advisability of imposing a boycott against any country that supports or harbors international terrorists;

(2) describes the diplomatic and economic consequences of imposing an economic boycott against such a country; and

(3) assesses the potential for gaining international or multilateral cooperation in imposing an economic boycott against such a country.

(b) For purposes of making the assessment required by subsection (a)(1), the Secretary of State shall consider the adequacy of existing laws imposing economic sanctions against a country described in such subsection.

(c) For purposes of this section, the term "economic boycott", with respect to a country, means a prohibition on imports and exports from such country and a termination of United States assistance for such country.

Mr. RUDMAN. Mr. President, if the Senator from Alaska will yield, I have cleared this request with the majority leader, however, I did not yet talk with the Democratic leader. I ask unanimous consent to extend the period for consideration of this matter by 10 minutes so that we might approve additional amendments before proceeding to the Jordan resolution. I put that in the form of a unanimous-consent request.

The PRESIDING OFFICER. Is there objection? Without objection, it is so ordered.

Mr. MURKOWSKI. Mr. President, this amendment has been cleared with both sides. It provides that the Secretary of State, in consultation with the Secretary of Commerce and the U.S. Trade Representative, shall prepare a report concerning the advisability of imposing a boycott against any country that supports or harbors international terrorists.

Before I briefly review this matter further, I would like to thank the floor managers of the bill, Senators RUDMAN and CHILES, for their cooperation in considering and accepting my proposal.

There is no need for me to spell out in exhaustive detail the challenge international terrorism poses to the United States, its allies and civilized peoples everywhere. We have just recently experienced, in the unjustified, cold-blooded murder of Leon Klinghoffer, the senseless tragedy and human cost of international terrorism. I sincerely regret to say that we are likely to experience more such tragedies if we are unable to devise an effective response to these terrorists and the governments that support their destructive activities.

It is clear that the President and the Congress are determined to take strong measures to combat international terrorism. Among those measures are economic sanctions involving restrictions or total cutoffs of U.S. trade and/or aid relations. For example, the Fiscal Year 1986-87 Foreign Assistance Authorization Act includes provisions which authorize the President to prohibit imports and exports of goods or technology to or from Libya, as well as United States imports of goods and services from any country which supports or harbors terrorists or terrorist organizations.

Congressional interest in using economic sanctions against terrorism was also reflected in legislation that was recently introduced by Senator BENTSEN, and which I have cosponsored, that would deny trade preferences, such as most-favored-nation status, to any country that supports international terrorism. These recent legislative initiatives are an addition to standing legislation included in such statutes as the Arms Control Export Act and the Export Administration Act.

The proposal I am making today is consistent with and encompasses these other initiatives to which I have made reference this morning. Moreover, this amendment and the report that it requires will provide this administration with an opportunity to review this issue of the use of economic sanctions and boycotts as a means of addressing the threat of international terrorism and present its conclusions to the Senate Foreign Relations and Appropriations Committees, as well as other committees of jurisdiction in the House and Senate. The report should then serve as standard reference to be considered in the future when legislation involving economic sanctions is proposed and debated.

Let me conclude by pointing out that I appreciate the limits of economic sanctions alone to rid us of the threat of terrorism. But I am convinced that such sanctions can extract a price from those that support and harbor international terrorists; and I am convinced that such measures, when used in concert with other foreign policy tools at the disposal of the President and his advisers, can contribute in a positive fashion to the objective of deterring terrorist acts.

Mr. President, I would be happy to answer any questions from my colleagues.

Mr. RUDMAN. Mr. President, as stated by the Senator from Alaska, the amendment was cleared on this side. It is my understanding it was cleared with the Democratic side as well.

Mr. CHILES. We have no problem, Mr. President.

The PRESIDING OFFICER. The question is on agreeing to the amendment.

The amendment (No. 868) was agreed to.

Mr. RUDMAN. Mr. President, I move to reconsider the vote by which the amendment was agreed to.

Mr. GRAMM. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

AMENDMENT NO. 869

Mr. LUGAR. Mr. President, I send an amendment to the desk and ask for its immediate consideration.

The PRESIDING OFFICER. The amendment will be stated.

The assistant legislative clerk read as follows:

The Senator from Indiana [Mr. LUGAR] for himself and Mr. SIMON proposes an amendment numbered 869.

On page 33, line 5 strike "$336,600,000" and insert in lieu thereof "$331,800,000" and on page 38, restore the matter stricken on line 1 through line 7, amended to appropriate "$4,800,000".

Mr. LUGAR. Mr. President, I have sent to the desk an amendment with two connected parts. One would restore funding for the Soviet-East European research program. The other would take an offsetting reduction from the State Department Foreign Buildings account.

Mr. RUDMAN. Mr. President, the Senator is correct. Furthermore, we have found an offset in the bill which has also been agreed to by both sides. As you know, we are attempting to keep the bill within outlay limits. This amendment is acceptable and it has been cleared on both sides.

Mr. BUMPERS. It has been cleared on this side, Mr. President.

The PRESIDING OFFICER. The question is on agreeing to the amendment.

The amendment (No. 869) was agreed to.

Mr. LUGAR. I move to reconsider the vote by which the amendment was agreed to.

Mr. BUMPERS. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

AMENDMENT NO. 870

Mr. PRESSLER. Mr. President, I send an amendment to the desk and ask for its immediate consideration.

The PRESIDING OFFICER. The amendment will be stated.

The assistant legislative clerk read as follows:

The Senator from South Dakota [Mr. PRESSLER] proposes an amendment numbered 870.

On page 7, line 6, after "expended," insert: of which $600,000 shall be for enhancements to the EROS Data Center in Sioux Falls, South Dakota.

Mr. PRESSLER. Mr. President, the purpose of this amendment is to establish a reception and processing capability at the EROS Data Center which would enable it to receive and process Advanced Very High Resolution Radiometer (AVHRR) data from polar orbiting meteorological satellites, and to make that data available to the land and Earth science communities in a timely, usable format.

Because of EROS' geographically central location in the United States, establishment of this capability at EROS would provide real time access for an area including the entire continental United States and large parts of Canada and Mexico. Much of the processing capabilities already exist at EROS. Its staff has extensive expertise in this area.

The existing AVHRR data reception and processing facilities operated by the National Oceanic and Atmospheric Administration (NOAA) are oriented to the supply of data for meteorological users. Demand for AVHRR data by land resource managers and Earth scientists is increasing, and there is a need to establish an improved interface with this user community. Users, especially those working in the Central and Western United States, cannot obtain digital data in a timely fashion and cannot obtain data that have been geometrically corrected and geographically referenced. Because of EROS' central location and its high quality staff, these problems will be corrected by this amendment.

Awareness, visibility, and use of AVHRR data within the land management and Earth sciences community will increase with an improved user interface provided by the EROS Data Center and with anticipated movements in polar orbiter sensor systems.

The new data will be used in a host of applications, including large area mapping, monitoring of irrigation water cosumption, agricultural production, fire detection, famine relief, land management, and monitoring large-scale disasters such as floods, earthquakes, volcanoes, and forest fires.

Mr. President, I want to emphasize that this amendment is not an add-on or an offset, but rather an earmark out of existing funds appropriated by this bill. This does not increase the budget authority or outlays of the bill. But I do want to make it very clear that, as the amendment states, these moneys will be used for enhancements at EROS. The intent of that language is to make certain that the existing functions at EROS are not adversely affected.

The $600,000 earmarked by this amendment is a relatively small portion of NOAA's affected budget, but would be a very substantial portion of EROS' budget. Whereas the $600,000 represents, I believe, approximately 0.05 percent of the total affected NOAA budget, it would be approximately 9 percent of the NOAA protion of EROS' budget. So I want to emphasize that this money is for the enhancement of EROS. It is for the prupose of establishing an AVHRR data reception and processing capability, and is not to have any impact or bearing on the Landsat data handling and processing or other NOAA activities at EROS.

Mr. RUDMAN. Mr. President, we certainly understand the Senator's concern, and agree with him. The purpose of the amendment clearly is to enhance the EROS Data Center, and should not be used to detract from existing or other future activities at the center.

Mr. PRESSLER. I thank the distinguished manager of the bill. With that understanding, I would like to go forward with the amendment.

I believe it has been agreed to on both sides.

Mr. RUDMAN. Mr. President, the Senator from South Dakota states the situation correctly. It is acceptable to this side.

Mr. BUMPERS. Mr. President, it is acceptable to the Democratic side.

The PRESIDING OFFICER. The question is on agreeing to the amendment.

The amendment (No. 870) was agreed to.

Mr. RUDMAN. I move to reconsider the vote by which the amendment was agreed to.

Mr. BUMPERS. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

AMENDMENT NO. 871

(Purpose: To waive copying fees of the Department of Justice regarding certain documents requested by the Birmingham Public Library of Birmingham, Alabama)

Mr. HEFLIN. Mr. President, I send an amendment to the desk and ask for its immediate consideration.

The PRESIDING OFFICER. The amendment will be stated.

The assistant legislative clerk read as follows:

The Senator from Alabama [Mr. HEFLIN] proposes an amendment numbered 871.

On page 31, after line 5, add the following new section:

SEC. 27. (a) Notwithstanding any other provision of law, the Department of Justice shall—

(1) make available to the Birmingham Public Library located in Birmingham, Alabama the twenty-five thousand seven hundred and eleven releasable pages of documents, requested by such Library on August 22, 1984, relating to files on Dr. Martin Luther King and racist hate groups; and

(2) waive the duplication fee of $2,571.10 for such documents.

(b) Nothing in the provisions of subsection (a) may be construed to affect any determination of the Department of Justice pursuant to section 552(a)(4)(A) of title 5, United States Code, relating to any other request for such documents.

BIRMINGHAM PUBLIC LIBRARY EXHIBIT

Mr. HEFLIN. Mr. President, the Birmingham Public Library would like to set up a permanent exhibit for the people of Birmingham as a remembrance of Martin Luther King's historic activities in Birmingham. Birmingham is very concerned that the ERA of racial strife be remembered, and that materials are available for study by present and future generations. To do this, the library needs a minimum of 25,711 pages of releasable FBI documents. The library is a nonprofit, public institution with extremely limited resources, and cannot afford the copying costs for these documents of $2,571. It is important that this period of Birmingham's history not be forgotten.

My amendment would waive the copying fees for the Birmingham Public Library for the documents they have requested. The documents are already prepackaged and available.

The Birmingham Public Library is a small one, and the need for remembering and studying the years of racial strife is great. This amendment will allow the Birmingham Public Library to provide a service to the citizens of Birmingham and to the entire State without exhausting already limited resources.

This amendment has been cleared on both sides.

Mr. RUDMAN. Mr. President, the amendment offered by the Senator from Alabama has been cleared on this side and I believe it has been cleared on the other side as well. I move its adoption.

Mr. BUMPERS. Mr. President, the amendment has been cleared on this side.

The PRESIDING OFFICER. The question is on agreeing to the amendment.

The amendment (No. 871) was agreed to.

Mr. HEFLIN. Mr. President, I move to reconsider the vote by which the amendment was agreed to.

Mr. RUDMAN. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

AMENDMENT NO. 872

(Purpose: To increase the allocation of funds of the United States Information Agency for a worldwide book program initiative)

Mr. LUGAR. Mr. President, I send an amendment to the desk and ask for its immediate consideration.

The PRESIDING OFFICER. The amendment will be stated.

The assistant legislative clerk read as follows:

The Senator from Indiana [Mr. LUGAR] proposes an amendment numbered 872.

On page 63, line 20, strike out "$2,000,000 shall be available" and insert in lieu thereof "$1,200,000 in addition to the base shall be available only".

Mr. LUGAR. Mr. President, there is general agreement that the increase for this program is merited. The amendment that I offer makes clear that the increased funding will actually go to increased programming and could not simply be used for the base programming already in existence.

It is my understanding it is acceptable to both sides.

Mr. RUDMAN. Mr. President, the Senator from Indiana is correct. It has been cleared on both sides.

The PRESIDING OFFICER. The question is on agreeing to the amendment.

The amendment (No. 872) was agreed to.

Mr. RUDMAN. I move to reconsider the vote by which the amendment was agreed to.

Mr. BUMPERS. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

AMENDMENT NO. 873

Mr. RUDMAN. Mr. President, I send an amendment to the desk on behalf of the Senator from New Mexico [Mr. DOMENICI] and ask for its immediate consideration.

The PRESIDING OFFICER (Mr. MURKOWSKI). The amendment will be stated.

The assistant legislative clerk read as follows:

The Senator from New Hampshire [Mr. RUDMAN], for Mr. DOMENICI, proposes an amendment numbered 873.

On page 12, line 5 after "$71,200,000" insert: ", of which $500,000 shall remain available until expended to reimburse private litigants for legal fees incurred in the United States v. Abousleman, the United States v. Bluewater-Toltec Irrigation District, and the State of New Mexico ex rel. Reynolds v. Aamodt water adjudication suits".

● Mr. DOMENICI. Mr. President, this amendment has no net budget impact. It simply provides $500,000 within funds made available to the Department of Justice to help pay legal fees for non-Indian litigants in three New Mexico water rights cases.

The House-passed fiscal year 1986 Commerce-State-Justice appropriation bill includes $500,000 for these purposes through the Legal Services Corporation, so if this amendment is adopted, it will need to be addressed by the conferees.

I urge my colleagues to support this amendment so that non-Indian litigants in three ongoing water rights cases will have equal access to justice.●

Mr. RUDMAN. Mr. President, the amendment has no net budget impact. It has been cleared on both sides.

Mr. BUMPERS. There is no objection here, Mr. President.

The PRESIDING OFFICER. The question is on agreeing to the amendment.

The amendment (No. 873) was agreed to.

Mr. RUDMAN. I move to reconsider the vote.

Mr. BUMPERS. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

UNDERCOVER OPERATIONS

Mr. MATHIAS. Mr. President, once again in the appropriations bill that is before us, the Congress grants to the Federal Bureau of Investigation and the Drug Enforcement Administration temporary exemptions from certain statutory strictures that impede the conduct of undercover operations. These exemptions are granted subject to conditions that echo those enacted in the appropriations bills for fiscal years 1984 and 1985. These conditions include reporting and financial audit requirements that should enable the appropriate committees of both Houses to maintain more effective oversight of undercover operations. I support these provisions, as I supported those included in the prior appropriations bills, as a reasonable temporary solution to the difficult problems posed by the explosion in the use of undercover operations by Federal law enforcement agencies.

However, it should be clear that these expedients cannot continue indefinitely. The challenges to effective oversight that are posed by the increasing use of undercover techniques will not go away. As we buy time through the enactment of temporary provisions in successive appropriations measures, we should redouble our efforts to enact realistic permanent legislation on Federal law enforcement undercover operations.

The undercover operation is a powerful weapon in the arsenal of modern law enforcement. Techniques of deception allow the authorities to bring to light conspiracies that would otherwise escape revelation. For the detection of consensual crimes—trafficking in contraband or stolen goods, giving and taking bribes, perversions of public trust—the undercover weapon often appears to be uniquely well suited.

But the use of undercover techniques also brings with it serious risks. More frequently than ever, the charge is heard that the undercover weapon has been misdirected or has misfired.

Any Senator who has followed the press accounts over the past few months is familiar with the concerns. Churches and synagogues are worried about law enforcement infiltration of their congregations. Honest businessmen caught in the wake of undercover "sting" operations claim financial losses. The recurring controversy over crimes committed by informants has bubbled to the surface again.

Mr. President, I am confident that there are aspects of the legislative control of undercover operations about which there is substantial agreement in both Houses of Congress. Building upon the work of the Select Committee on Undercover Operations, during the 97th Congress, the task before us now is to identify this common ground and enact these agreed-upon principles into law. In that way, we will place Federal law enforcement undercover operations on a more solid legal footing than they currently enjoy. We will also, by the enactment of permanent legislation, give Congress the tools to ensure that the powerful undercover weapon is used in a way that

protects our fundamental liberties, as well as the safety of our people.

THE NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION'S WORK IN THE CHESAPEAKE BAY

Mr. President, with the passage of the appropriations bill for the Departments of Commerce, Justice, State, the Judiciary, and Related Agencies for fiscal year 1986, we assure the continuation of the important work being performed to help save the Chesapeake Bay by the Department of Commerce's National Oceanic and Atmospheric Administration [NOAA]. Senators may be interested in some information about what NOAA is doing to help the bay by investigating the bay's living marine resources, including fish, shellfish and other organisms, and evaluating the effects of pollutants and oxygen depletion on these organisms.

Pollutants from various sources around Chesapeake Bay affect its sediments and water quality, which in turn affect its living resources. NOAA is primarily concerned with the status of fish and shellfish stocks and the influence of pollutants on these stocks. Last year, Congress appropriated $2 million, including half a million for the emergency striped bass study. NOAA's activities include identifying and acquiring existing fisheries data, improving fisheries statistics, observing the responses of bay organisms to pollutants, and evaluating oxygen depletion effects on bay organisms.

In May of this year, NOAA released its "Chesapeake Bay Study Plan," which assesses the scientific investigations needed to successfully clean up the bay. The plan was developed in cooperation with the Environmental Protection Agency's Chesapeake Bay Program through a series of NOAA, State, and academic workshops. Previously, the EPA in its own study had concluded that observed declines in important fish and shellfish probably reflected a combination of adverse impacts, including excessive nutrient enrichment and resultant deoxygenated bottom water, toxic substances in certain areas, and degradation of critical spawning and nursery habitats.

To help turn this situation around and enhance the understanding of the bay's fisheries, NOAA will be investigating short- and long-term environmental factors affecting commercial and recreational fish and shellfish, including both natural and man-induced fishery problems.

As part of this effort, NOAA formed the Chesapeake Bay Stock Assessment Committee with representatives from Maryland, Virginia, Pennsylvania and the District of Columbia, as well as from the U.S. Fish and Wildlife Service and NOAA. NOAA is helping to develop a baywide fishery assessment plan, implement that plan, and carry out assessments for critical bay species. To be examined are the effects of climate, fishing pressure, and pollution on the bay's living resources.

Investigations will be made to assess the status of young and adult fish populations of important species, such as striped bass, white perch, shad, river herring and others. Investigations will concentrate in the York, James, Patuxent, Potomac, and Choptank Rivers to determine the effects from overfishing, contaminants, and habitat degradation.

Of critical importance is the need to understand the relations between pollutants in the bay's plants and animals and the pollutants present in the bay's water and sediment. The EPA Chesapeake Bay Program confirmed that many areas of the bay are contaminated with toxic substances, including metals, synthetic organic compounds, and other chemicals, such as chlorine. The highest chemical concentrations were found close to sources, particularly urban and industrial areas in the upper bay and in reaches of major tributaries. While clear cause-and-effect relationships between environmental pollutant levels and plant and animal declines were demonstrated only in severely polluted areas, the presence of any toxic substance in major spawning or nursery areas is cause for concern.

The bay's deoxygenated bottom water is a critical problem and the oxygen depletion effects on the bay's aquatic organisms are very serious. A stationary oyster has no place to go if oxygen becomes depleted from its locality and many animals are unable to avoid the deoxygenated water before they are overcome and die.

To make matters worse, recent studies indicate that there may be a net increase in the duration and area affected by oxygen depletion. The summertime episodes have lasted longer recently than in previous years. A possible link exists between oxygen depletion and excess nutrients entering the bay's waters, but has not been positively demonstrated. Nevertheless, the evil triangle of low dissolved oxygen, sedimentation, and contaminants cause the loss of high-quality habitat needed for the survival of many of the bay's species.

When in July, my colleague, the Senator from Maryland [Mr. SARBANES]; the EPA Administrator, Lee Thomas; Secretary of the Interior, Donald Hodel; the Governors of Maryland and Virginia, and others toured the Chesapeake Bay, we saw firsthand the black, deoxygenated mud from the bay's bottom. It smelled like rotten eggs and was devoid of life. However, we need not accept this condition as inevitable, and NOAA, with other Federal and State agencies can make the difference.

NOAA will be monitoring habitat quality to assess the amount and the rate of habitat loss. Some items NOAA will be investigating will be oxygen depletion effects on fish and shellfish reproduction, disease resistance, feeding ability and other key survival factors. Also to be examined are effects from excess phosphorus and nitrogen nutrients. This information will be used to find answers to the bay's plaguing problems concerning oxygen depletion.

Finally, one of the less glamorous, but no less important NOAA aspects in restoring the bay, is improving fishery statistics. Unfortunately, we do not have an accurate statistical picture of the bay's fisheries. A complete understanding of the adverse effects of habitat changes affecting the bay's fisheries requires better statistical data than presently available. Such data are required to establish the historical use, trends, and benefits of the fisheries and to determine when a fishery starts to head downhill.

NOAA's fish and shellfish studies have provided useful data on fishery landing and on adult and juvenile fish populations, but there is need for additional information if adequate bay management is to be accomplished. Presently, bay fishery landing statistics generally do not reflect recreational catch, which has been significant for some species, such as striped bass. Additionally, landing statistics do not adequately indicate the variety of fishing gear, the number of days fished, or locations. Consequently, existing statistics are only general indications rather than actual measures of abundance, making the bay's fishery management difficult and the reasons for fishery declines obscure.

NOAA's work gets to the core of the bay's problem for better statistical analysis. NOAA, in conjunction with the States, will be filling the statistical gaps in existing data for commercial and recreational fisheries by providing linkages between existing Chesapeake Bay State statistics and those of the National Marine Fisheries Service. For example, in Maryland there will be trips to the field to gather on-site biological data, as well as trips to gather information from fish dealers and from recreational and commercial fishermen.

Work began by NOAA shows great promise in fulfilling many of the most pressing fishery needs for management information. This is a long-term effort and one that must be supported over the long haul. Together with the States and other Federal agencies, NOAA is moving forward to increase understanding of declines in the bay's important fisheries and to reverse those declines and manage the bay's resources for long-term benefits to the region and the Nation. I urge my colleagues to approve $1.7 million to sup-

port NOAA's continuing efforts in the Chesapeake Bay.

Mr. BIDEN. Mr. President, I support this amendment (No. 864) that will provide necessary funding for the Federal Sentencing Commission that we established last year when we passed the Comprehensive Crime Control Act of 1984.

The transfer of these funds will come from the Cuban and Haitian Reception, Processing and Care Program within the Community Relations Service at the Justice Department.

It is my understanding that this program's caseload has seen some reduction and that there are programs that have not yet begun, although funding has been provided since the beginning of the fiscal year. If this offset of funds becomes a problem for the Cuban and Haitian Program during the 1986 fiscal year I expect the Justice Department will make that known in the 1986 supplemental request.

A crucial provision of the Comprehensive Crime Control Act called for the creation of a "Sentencing Commission" that would have the responsibility of redefining the Federal criminal justice sentencing system. The seven-member Commission has the enormous task of drafting guidelines to be used by Federal judges when imposing sentences. The purpose of the guidelines are to establish a fairer and more equitable sentencing process that eliminates indiscriminate and inconsistent sentences. Past criminal sentences have been based largely on an outmoded rehabilitation model which we have come to realize has failed. Because our system lacks statutory guidance, judges have been left to apply their own subjective opinions of the purposes of sentencing. Unfortunately, this system has resulted in a lack of certainty in sentencing which is further exacerbated when the Parole Commission releases prisoners according to their own criteria, which might be different than that of the sentencing judge.

Mr. President, I need not go on explaining the importance of the Sentencing Commission's work. That was agreed to by this body last year when we all voted in favor of establishing the Commission.

Regrettably, the Commission is behind schedule. Ironically, the Commissioners were just confirmed last week, 1 entire year from enactment of the legislation providing for their creation. We now have the potential for another obstacle that could interfere with the Commission carrying out their work. There is currently no appropriation for the Sentencing Commission in this bill. This omission is probably the result of initial funding for the Commission being provided in the supplemental appropriation for fiscal year 1985 which was passed this summer. The supplemental provided $2.3 million for the Commission; however, that is only sufficient funding to carry them through the spring of 1986. At that point, unless new funds are made available, the Commission would have to shutdown.

The potential interruption of the Commission's work is something we must prevent. Not only would such an interruption usurp the laws passed by Congress last year which outline the Commission's responsibilities and expected work products, but the expectation of only a half year's funding will cause numerous administrative problems in hiring staff, leasing space and equipment, etc.

Our amendment simply provides the needed funds for the Commission to carry out its work through fiscal year 1986.

Mr. President, I have been working with Senators THURMOND and KENNEDY and many others to reform our Federal sentencing process. We were finally successful last year in passing unanimously the legislation necessary to begin this major reform effort.

It is time for the Commission to get down to the extremely difficult task Congress has instructed them to do. Therefore, I ask my colleagues to support this amendment so that the funds needed by the Commission will be available and their vitally important work will not be interrupted.

Mr. SPECTER. Mr. President, as the Senate considers the appropriations for the Department of Justice, I wish to address an issue of tremendous importance: Prison overcrowding.

On September 15, 1985, the Bureau of Justice Statistics reported that the population in the Nation's overcrowded prisons increased by 1,000 a week in the first half of 1985. The average State prison is operating at over 15 percent above capacity and the Nation's 46 Federal prisons are over 30 percent above capacity. A GAO study done at my request last year came up with equally disturbing statistics.

Convicted prisoners and pre-trial detainees are being prematurely released, by the tens of thousands, because there is no space for them in our prisons and jails. Courts have intervened in nearly 80 percent of the States' systems, and judges have admitted their reluctance to sentence criminals they would otherwise incarcerate because they know there is nowhere to put them.

Prison overcrowding has reached crisis proportions.

As a member of the State, Justice, Commerce Subcommittee of Appropriations and of the Judiciary Committee, I have pressed for Federal funds to assist in State and local prison expansion. Last year, in order to relieve overcrowding and substandard conditions at State and local correctional facilities, Congress authorized the Director of the Bureau of Justice Assistance to make grants to States, units of local government, and combinations of such units to assist in construction of correctional facilities, and in planning to relieve overcrowding and substandard conditions in correctional facilities.

The program was designed in close consulation with Justice Department officials and in negotiations with the House on the Justice Assistance Act of 1984, and was passed in both Houses without opposition. The authorizing legislation contains a funding cap of $25,000,000 for each of fiscal years 1984 through 1988. However, late enactment of the authorizing legislation precluded appropriation of funding for fiscal year 1984, the first year of the pilot program's limited 5-year life span.

I am deeply concerned that this essential and urgent program is not being funded. I believe a minimum of $25 million should be promptly appropriated, and that much more must ultimately be made available to State and local systems collapsing under the pressure of a burgeoning prison population. While I understand it is not possible to add these funds here today, I intend to continue to press for Federal assistance to State and local corrections until the Federal Government meets its responsibility in this essential aspect of our domestic defense.

If we are serious about having a criminal justice system that works, we cannot afford to ignore the growing crisis presented by grossly overcrowded prisons.

THE NATIONAL ENDOWMENT FOR DEMOCRACY

Mr. SPECTER. Mr. President, I would prefer that 1986 appropriation for the NED be funded at its full 1986 authorization level of $18.4 million. The $10 million Appropriations Committee recommendation represents a drop of $8.5 million from fiscal year 1985 funding and the limits the effectiveness of this important program.

This nonpartisan private nonprofit organization was established in 1983 and funded by Congress as a concrete conduit of our commitment to the development of democratic values and institutions around the world and to serve as a counter to Communist efforts to mold political processes to fit their goals.

It has been extremely productive already. In its first year, the endowment awarded grants to more than 20 private sector organizations to aid projects to reopen schools in central Afghanistan; provide financial and technical assistance to the democratic opposition in Poland; establish European citizen committees to gather and disseminate information about the human rights situation in Cuba to encourage pluralism and respect for human rights in that country; established a network of democratic opinion

leaders; and a number of projects to train local citizenry in developing nations to initiate and implement the effective political processes of a democracy. These are but a few of the worthwhile projects aided by these funds.

A key focus of the NED, of course, is the vital role of free trade unions in a democracy. The Free Trade Union Institute, with the help of a NED grant, has conducted a broad range of programs aimed at promoting the development of free and independent democratic trade unions. These efforts must be supported as the only truly effective counter to the Communist trade movement gaining a foothold in so many developing nations.

A second key focus is the U.S. Chamber of Commerce's efforts through CIPE [the Center for International Private Enterprise] in developing countries. These associations are providing education in free market economics and institutions, and in advocacy of free market enterprise. The development of independent business institutions is important as a means of fostering the development of democratic pluralism abroad.

I request that $18.4 million in funding be provided to maintain funding at, at least, 1985 levels. I, and I am sure many of my colleagues, do not want to risk a program with so many important benefits. When one compares this funding request for the advocacy of democracy to the necessary defense and intelligence appropriations to protect democracy, the $18.4 million seems like a very fiscally responsible investment indeed.

MISSING CHILDREN

Mr. SPECTER. Mr. President, the tragedy of missing and exploited children continues to plague our Nation. As many as 1.5 million children are reported missing each year. As chairman of the Senate Judiciary Subcommittee on Juvenile Justice and cochairman of the Senate children's caucus, I have spent considerable time studying this horrible problem and working to solve it.

To address the national tragedy of missing children, I joined in introducing the Missing Children's Assistance Act, which President Reagan signed into law on October 12, 1984. This act establishes a national clearinghouse for information on missing and exploited children, and a national toll-free hotline.

Mr. President, you may recall that over 80 Members of the Senate joined Senator HEINZ and I as signatories to a letter dated May 20, 1985, to the major television broadcasters, urging them to air pictures of missing children as part of their regular programing. I am pleased to report that the networks and broadcasting groups are responding positively; CBS, for example, advised us on July 3, 1985, that, beginning this fall, it will air on a regular basis the pictures and descriptions of missing children.

Many efforts are being made in the private sector to ensure that pictures of missing children reach the general public in increasing numbers. The Subcommittee on Juvenile Justice, which I chair, held a hearing on May 22, 1985, to consider the effectiveness of private efforts to find missing children. I commend these efforts, but firmly believe that much more needs to be done.

I am deeply concerned that the Missing Children's Assistance Act will receive only level funding in fiscal year 1986. I believe that a minimum of $10 million should be earmarked for missing children's assistance. However, recognizing the extreme constraints placed on us by the enormous Federal deficit, I shall not offer an amendment at this time, but hope that we will elevate this important matter in next year's agenda with an increased appropriation.

Mr. President, I believe that the funding in this bill for the Office of Juvenile Justice and Delinquency Prevention [OJJDP] is totally unsatisfactory. It is deceptive to claim that we are providing level funding for OJJDP by counting carryover funds not spent from last year's appropriation.

For a number of years, the administration has sought to eliminate funding for this important Office, and OJJDP has supported these efforts. Because Congress has repeatedly rejected this proposal, and continued to fund OJJDP at $70.282 million, the administration has sought to eliminate the Office's functions by having it not spend the appropriated funds. Early this year, the administration sought to sequester more than $12 million of OJJDP's fiscal year 1985 funds; in fact, about $7.9 million in OJJDP's funds apparently have been carried over because they were not spent although there was a need to utilize the full appropriation made last year.

The original agreement in the Appropriations Committee was to fund OJJDP at $70 million; the House figure is $70.282 million, which is level funding.

The bill would now effectively cut OJJDP's funding by more than 10 percent, to $62.1 million, based upon the fact that there are $7.9 million in carryover funds. This simply lets OJJDP achieve its goal of cutting back its efforts in the field of juvenile justice through its own dilatory actions.

While I think that funding in the reduced amount of $62.1 million is inadequate, I understand the realities of the situation and do not intend to offer an amendment at this time. I stress, however, that I am committed to providing true level funding for OJJDP. I urge my colleagues to yield to the House figure of $70.282 million at conference, and I pledge my own efforts at conference toward that end.

Mr. President, I ask unanimous consent that a series of letters I have received on this issue be printed in the RECORD.

There being no objection, the letters were ordered to be printed in the RECORD, as follows:

THE NATIONAL PTA,
Chicago, IL, October 17, 1985.

Hon. ARLEN SPECTER,
U.S. Senate, Hart Senate Office Building, Washington, DC.

DEAR SENATOR SPECTER: I am writing on behalf of the National Congress of Parents and Teachers (National PTA) in regard to Juvenile Justice appropriations, a priority concern of our association. It has come to our attention that the Senate Appropriations Committee cut the FY 1986 appropriation for the Office of Juvenile Justice and Delinquency Prevention (OJJDP) by nearly 12 percent, from the current level of $70.2 million to $62.1 million.

The National PTA urges you, as a chief advocate in the Senate for juvenile justice programs, to lead the effort during the House-Senate Conference on the Justice Department appropriation bill to maintain the $70.2 million appropriation for FY 1986 that was approved by the House of Representatives.

A reduction in the appropriation for OJJDP would have dire consequences for state and local juvenile justice programs. The action taken by the Senate Appropriations Committee sends a message to the states that the federal commitment to juvenile justice is withering. That message is coming at a time when states need maximum assistance to come into compliance with the jail removal mandates of the Juvenile Justice and Delinquency Prevention Act (JJDPA).

Further, efforts in states across the country to develop and implement innovative model programs (programs that would not be possible but for the JJDPA) would be severely hampered. Some programs would have to be eliminated; others will never get off the ground.

Under the Senate Appropriations Committee-passed reduction, states with the largest juvenile populations will bear the largest percentage cutback in formula grant allocations. But indeed, all programs in states receiving more than a $225,000 basic grant will suffer. Following are examples of how states will be affected by a cutback from $70.2 million to $62.1 million.

Pennsylvania would lose 13.7% of its formula grant allocation, approximately $248,690. Programs in Philadelphia would be jeopardized. For example, a proposed project using JJDPA funding to develop a Management Information System for tracking services to delinquent youth may not be funded. Other programs are likely to be discontinued, such as a new initiative to provide aftercare and intensive probation services to mentally retarded juvenile offenders and the Juvenile Law Center's alternative to detention program.

Other programs at risk across the state include day treatment, juvenile prostitution projects, an in-home detention program and a truancy reduction program which involves family members.

Connecticut, which would lose 8.5% of its state allocation, would have to cut back all existing programs and would be unable to

develop any new ones. Juvenile justice system capacity-building, truancy reduction efforts and an innovative program to ensure services for all youthful offenders regardless of the disposition of their cases or their past histories would be severely hampered by the loss of formula grant funds.

Oregon, which has been forced to cut back on state and county services because of distress in the state's basic industry, would lose 8% of its allocation and necessary status offender and chronic runaway services. Programs for serious offenders and for alternatives to jail would be in jeopardy.

Florida would lose 13% of its formula grant monies. Important deliquency prevention programs (currently receiving nearly $800,000 in formula grant funds) would be endangered—for example, a School Resource Project and community-based youth guidance programs. In addition, an innovative runaway and homeless youth program would be lost.

New Jersey would also lose nearly 13% of its formula grant funds and across-the-board cuts would have to be made endangering exemplary model programs currently funded. One such program at risk is truancy reduction in Camden, New Jersey high schools. In just one year of operation, this program has increased the average daily attendance rate from below 75% to more than 86%.

On the endangered species list would be New Jersey's adjudication and dispositional services programs in which the courts and community services work together for the rehabilitation of youthful offenders rather than sending them to correctional institutions. One such effort in Ocean County has an 80% success rate.

Also affected would be an innovative vocational education program, "Twilight Tech," for youths who were in correctional facilities and those on probation. This model program utilizes an existing vocational high school during the hours of 3 p.m. to 7 p.m. (after the regular student body has gone for the day and before evening programs begin). Also in jeopardy are substance and alcohol abuse programs that provide aftercare services to youths on parole.

California would lose nearly 15% of its state allocation, more than $595,000. California PTA members are deeply concerned about across-the-board cuts in currently funded programs. They are worried about California's exemplary juvenile justice initiatives such as the Status Offender Network in Santa Clara County which reflects the deinstitutionalization mandates of the JJDPA and provides alternative community-based counseling, emergency treatment, and has a small residential component for youngsters unable to return home immediately. They point to a dispositional alternative program in San Diego which is utilizing 400 different resources in community-based rehabilitation and counseling rather than secure detention; and the Lachein School, a social ecology model alternative school in Contra Costa County, which serves a three-county area and emphasizes involving family members in rehabilitating youth. Such programs and the youth they serve would suffer under the cuts.

Illinois, which would have its state allocation cut by nearly 14 percent, reports that across-the-board cuts in programs would have to be made.

Programs in Cook County (which includes the city of Chicago) focusing on serious offenders and on homeless youth would be big losers. This means reduction in efforts for such projects as Treatment Alternatives to Street Crime (also being implemented in Peoria County) and the Chicago Youth Services Project. Components of the latter include a Homboldt Park gang program and a transitional living program for teenage prostitutes in the Lakeview area.

Furthermore, jail removal efforts in rural areas of Illinois would be lost (50 percent of Illinois counties are rural).

In New York state, the cut of 14 percent in formula grant funds (approximately $410,000) would necessitate across the board reductions in programs administered by a variety of state agencies including the Department of Corrections, Division of Youth, Division of Substance Abuse Services, Probation Department, Council on Children and Families, Department of Social Services, and Office of Mental Health.

Local government juvenile justice efforts would also suffer as JJDPA funds provide the seed money for new innovative programs and start-up funds would not be available through any other source. The New York PTA reports that programs started with JJDPA funds are not only innovative and successful, they are also cost effective. One example is the $56,000 of JJDPA money that funds the Sullivan County Juvenile Intensive Supervision Program. This diversion program serving 35 youths has an 85 percent success rate. It would cost more than one year's worth of the federal funds to place even two youths in a detention facility in New York.

In Ohio, the PTA reports that the state allocation reduction of 13.7 percent would mean all current projects (both urban and rural) would have to be cut and new projects would not get funded at all.

Since local governments in Ohio provide a 50% match to the federal funds, the leveraging of non-federal resources would also be diminished (and it is my understanding that a very important element of the JJDPA is its leveraging of resources at the state and local levels).

The primary areas of focus in Ohio include Youth Victims Services, Abused Children, Crime Prevention, Alternatives to Institutionalization, and Serious Juvenile Offenders programs. The Toledo (Lucas County) Serious Violent Offender project is a typical example of how the state allocation cutback would impact individual programs. The Project currently receives approximately $90,000. But the funding reduction would result in a $30,000 loss to this project.

In Michigan, the PTA reports that under a 13% cutback in formula grant money, efforts would be hampered in the areas of delinquency prevention, jail removal (particularly in rural areas) and violent juvenile offenders programs. The cutback in dollars equals four grants of $50,000 to $60,000 each.

These are just a few examples of what National PTA is hearing from State PTAs. All across the country there is deep concern about the future of juvenile justice programs should the reduction in appropriation to $62.1 million become law.

PTA members are asking: "What has happened to federal commitment and leadership in the area of juvenile justice? Is Congress backing down on the incentives needed to accomplish the mandates and goals of the JJDPA? What rationale is there in requiring three-year comprehensive planning if Congress turns around and cuts assistance for program implementation? Do our elected leaders truly care about our youth and the reduction of delinquency? Does Congress really want to foster cost-effective programs?

PTA members have also questioned the rationale used by the Senate Appropriations Committee for their reduction in the OJJDP appropriation level. They have asked: "Isn't the carryover money already obligated? Does anyone really know whether there actually is $7.9 million still to be distributed, and how have the carryover funds been allocated? Moreover, they are questioning the true intent of Congress in rejecting the Administration's proposal to transfer the OJJDP carryover money to other agencies.

A few months ago Congress said that money was needed immediately by the states so they could progress in meeting JJDPA mandates. It certainly cannot be less important today for states to comply, and adequate services are necessary to do so.

For the past five years Congress has rejected Administration attempts to eliminate the historic role of the federal government in preventing delinquency, improving our juvenile justice system, reducing juvenile offenses and protecting youth. Last year Congress overwhelmingly reaffirmed the federal role in juvenile justice by reauthorizing the JJDPA. The Senate Appropriations Committee's cut in the OJJDP funding level is a total contradiction of these past efforts, and would erode the national resolve in this area. States will not be able to maintain current services under the JJDPA, and the stage would be set for even deeper cuts in the future. Where would it end? This action could likely mean the elimination of the juvenile justice program in a few short years. All the progress made to date would be lost; all the goals still to be achieved would be unattainable. Such a scenario cannot be allowed to be played out.

The members of the National PTA (now 5.6 million strong) have long considered juvenile justice a priority of our association. We have joined with many other youth advocacy groups in efforts to maintain the federal role.

Senator Specter, the National PTA has deeply appreciated your strong support for juvenile justice. We have always relied on your leadership in the Senate to maintain the federal program. We are counting on your leadership, once more—when the Senate and House Conference Committee on Justice Department Appropriations considers the FY 1986 appropriation for the OJJDP. We believe your advocacy of the $70.2 million level passed by the House is absolutely imperative if we are to maintain the current appropriation level.

The National PTA will gladly provide any assistance to you in this regard. Please feel free to have your staff contact Barbara Goldston-Hatfield in our Washington Governmental Relations Office (822-7878).

Thank you for your continuing support for our nation's youth and the programs that serve them, and for your consideration of the concerns of the National PTA.

Sincerely,

MILLIE WATERMAN,
Vice President for Legislative Activity.

AD HOC COALITION FOR JUVENILE JUSTICE AND DELINQUENCY PREVENTION,
Washington, DC, October 18, 1985.

Hon. ARLEN SPECTER,
Chairman, Senate Subcommittee on Juvenile Justice, Senate Office Building, Washington, DC.

DEAR SENATOR SPECTER: In your work with the conference committee on FY 86 appropriations for Commerce, Justice, and State, be assured of the strong support of many organizations participating in the Ad Hoc Coalition for funding of at least $70 million for the Juvenile Justice and Delinquency Prevention Act (JJDPA).

The enclosed letter, signed by 19 organizations and sent earlier this year to Rep. Neal Smith, indicates the range of this support. Other groups such as the American Bar Association's Juvenile Justice Project, American Legion, Boys Clubs of America, Child Welfare League of America, and National Council of Jewish Women also join in calling for JJDPA of at least $70 million.

The $7.9 million cut proposed by the Senate Appropriations Committee would seriously damage the states' efforts to meet the mandates of the Act. We estimate that close to $5 million of the cut would come from state allocations. 1986 is an especially critical year for the removal of youth from adults jails and lock-ups. Reducing the already minimal federal support would make progress in this area even more difficult.

We recognize that the Committee assumes a carryover of FY 85 funds to offset the loss of FY 86 funding. We have several concerns, however, in that regard:

That the carryover may not exist—certainly not at the level the Committee assumes—and that any such funds may be spent even as Congress deliberates the appropriation;

That carryover money designated for Special Emphasis or other sections of the Act would not be transferrable to Formula Grants for the states;

That the greatest loss, as indicated above, will come in the state allocations where the most direct benefits occur; and

That FY 86 funding below $70 million will inevitably work to keep appropriations in later years below this necessary minimum.

The estimated loss per state from a cut of this magnitude ($4.8 million of the $7.9 million reduction) appears on the enclosed chart. Because the money that reaches the states leverages far more in state, local, and private resources, the effect of such reductions would exceed these figures.

In your own Commonwealth of Pennsylvania, the lower appropriation would result in a cut of about 13.7%—down from $1,913,000 in FY 85 to $1,651,000 in FY 86—on top of almost 38.5% the state has lost since 1981. In Philadelphia, plans by police and judges to implement a Management Information System for tracking and serving delinquent youth would be threatened by the cut. The plan depends on JJDPA funding for two years and then calls for state funding. Efforts in aftercare and intensive probation would be cut back, especially a new initiative for mentally retarded offenders, which would likely be ended. Support of the Juvenile Law Center, which uses Formula Grant money to provide an alternative to the much-criticized juvenile detention center, would also be jeopardized.

Connecticut, with a potential reduction from $493,000 to $451,000, would be faced with cutting back truancy reduction efforts and a particularly successful local juvenile justice capacity-building initiative. Another likely target would be a program of "unconditional care of juveniles," which makes certain that a youth's disposition or history does not prevent him or her from receiving services. Connecticut has already lost 40% of its JJDPA funding since 1981.

Sources in Massachusetts indicate the state would likely implement across-the-board cuts, to cope with an 11.6% additional reduction. Also in Illinois, across-the-board cuts would be the probable result of the loss of another 13.8% in JJDPA funding. Cook County's services to status offenders and runaways would suffer, as would rural jail removal efforts in the state. Massachusetts' funding has already fallen from $1,521,000 in 1981 to $895,000 in 1985. Illinois has lost 37% since 1981.

In Oregon, funds under the Act have been used to shore up county-funded juvenile services, hard hit by the depressed timber economy. JJDPA cuts would especially affect community-based services, not only directly but through leveraged state dollars. Status offender and chronic runaway services would probably be the first programs cut, followed by serious offender programs and programs providing alternatives to jails. Oregon received only $460,000 in FY 85, down 31.5% (from $672,000) in FY 81. Another 7.8% reduction would be a significant loss.

Thirty-eight states stand to lose resources for juvenile justice and delinquency prevention.

Finally, the JJDPA appropriation—unlike that of most federal programs—must cover all expenses of the program, including the staff of the Office of Juvenile Justice and Delinquency Prevention. Again, $70 million has proved the minimum necessary to maintain a federal role and to maintain the momentum of state action.

We appreciate your efforts and hope this information is helpful in conference.

Sincerely,

DON MATHIS,
Co-Chair, Ad Hoc Coalition, National Network of Runaway and Youth Services, Inc.
SHARON MARTIN,
Co-Chair, Ad Hoc Coalition, YMCA of the USA.

Submitted to Senator Specter by the Ad Hoc Coalition for Juvenile Justice and Delinquency Prevention (October 21, 1985).

AD HOC COALITION FOR JUVENILE JUSTICE AND DELINQUENCY PREVENTION,
July 3, 1985.

Hon. NEAL SMITH,
Chairman, House Appropriations Subcommittee on Commerce, Justice, and State, Capitol Building, Washington, DC.

DEAR CONGRESSMAN SMITH: The Ad Hoc Coalition on Juvenile Justice and Delinquency Prevention appreciates your consistent leadership in restoring funding each year for juvenile justice and delinquency prevention in the face of annual Administration proposals to close off federal support in this area entirely.

The undersigned organizations which participate in the Coalition, however, are deeply concerned about the recent decision of the Appropriations Subcommittee to cut another 7% from the already minimal appropriation for the Office of Juvenile Justice and Delinquency Prevention and the state and national initiatives the funds are intended to support.

You are, of course, well aware of the funding history. What $100 million could help accomplish in FY 81 cannot be matched by $70 million in FY 85 or by $65 million in FY 86.

The work Congress envisioned in passing the Juvenile Justice and Delinquency Prevention Act and in subsequent amendments to the Act is not complete. State Advisory Group representatives and state Juvenile Justice Specialists have testified to the particular need in the coming year for incentives and assistance for states to come into compliance with the jail removal mandate. Despite a decade of progress, other aims of the Act also remain only partially fulfilled, including the development of community-based alternatives to detention, diversion from court systems, and the prevention of delinquency.

The reduction in effort proposed by the Subcommittee is particularly regrettable when the House-passed Budget Resolution provides not only for continuation of the current level, but also for an overdue increase for inflation. We hope you will reconsider the Subcommittee's decision.

Sincerely,

DON MATHIS,
Co-Chair.
SHARON MARTIN,
Co-Chair.

NATIONAL COALITION OF STATE JUVENILE JUSTICE ADVISORY GROUPS,
October 15, 1985.

Hon. ARLEN SPECTER,
Chairman, Subcommittee on Juvenile Justice, Hart Senate Office Building, Washington, DC.

DEAR SENATOR SPECTER: On behalf of the National Coalition of State Juvenile Justice Advisory Groups, I would like to thank you for your continued support for the Juvenile Justice and Delinquency Prevention Act and the funding which makes it possible to implement the Act. As you know, the Act has resulted in many improvements in the juvenile justice system and in services to juveniles.

States continue to work to meet the mandates of the Act, with much of their effort currently being directed to meeting the jail removal mandate. Removing juveniles from adult-serving jails and lockups requires the cooperation and commitment of state and county governments, as well as that from the Federal government. Continued support from Congress is absolutely essential if states are to be successful in their efforts to remove juveniles from jails. In 1981, the funding level for the Juvenile Justice Program was reduced from $100 million to $70 million. Congress has continued to appropriate $70 million for the program each year since then. However, there has been no increase for inflation during that period. The $70 million funding level is the absolute minimum necessary to maintain the program, although that level still does not provide the resources needed to fully implement the Act.

I hope that you will continue your strong support for the states' efforts to implement

the Act. Please let me know if I can be of any assistance to you in your effort to maintain this effective, necessary program.

Sincerely yours,

A.L. CARLISLE,
Chairman.

Mr. HOLLINGS. Mr. President, when this bill was before the House of Representatives on July 17, 1985, a reduction of $2,700,000 was made to the radio broadcasting to Cuba appropriation which supports the Radio Marti Program. The Chairman of the Advisory Board for Radio Broadcasting to Cuba, Jorge Mas, sent me a letter last week that destroys the arguments made in the other body about the number of staff and average salaries of Radio Marti. This is a good letter that includes a summary of the program costs for fiscal years 1984 and 1985, as well as the levels proposed for fiscal 1986.

The subcommittee approved full restoration of the amount requested for radio broadcasting to Cuba. Radio Marti went on the air May 20, 1985, with a full 14½ hours of daily programming. The cut approved by the other body would compel the firing of up to 30 percent of the existing staff as well as a lowering of the number and quality of broadcast hours.

I ask unanimous consent that Mr. Mas' letter and enclosure be printed in the CONGRESSIONAL RECORD at this point so that we may have this documentation readily at hand when we go to conference with the House managers to work out the final form of H.R. 2965.

There being no objection, the letter was ordered to be printed in the RECORD, as follows:

ADVISORY BOARD FOR RADIO BROADCASTING TO CUBA,
Washington, DC, October 16, 1985.

Hon. ERNEST HOLLINGS,
Ranking Minority Member, Subcommittee on Commerce, Justice, State and Judiciary, Russell Senate Office Building, Washington, DC.

DEAR SENATOR HOLLINGS: I am writing to express my regret over the voice vote cast by the House of Representatives on July 17, 1985 to cut funding for the Radio Marti Program from $11.2 million to $8.5 million. Therefore, I believe negotiators from the House Appropriations Committee should reaffirm their Committee's position when in conference with the Senate on the FY86 Continuing Resolution and FY86 State-Justice-Commerce Appropriation bills.

The argument of the amendment authors can be succinctly stated: "Radio Marti has too many staffers and average salaries are too high. Therefore, in times of budgetary stress, funding should be frozen at FY 85 levels to implement a "freeze".

Each of these points is incorrect. As the chart below shows, the operating plan for the Radio Marti Program establishes goals that are 17% to 47% more efficient than comparable organizations. Radio Free Europe/Radio Liberty, Inc. spends $1,376 per hour on staff time to put its shows on the air. And the Voice of America spends $1,730 per hour. However, the Radio Marti Program in FY 86 plans to spend only $1,164 per hour.

Even these comparisons understate the Radio Marti Program's planned staff efficiencies. Voice of America labor costs are held down because 24% of its employees are foreign nationals living abroad who receive, on average, only $13,952 in annual salary. Similarly, Radio Free Europe/Radio Liberty, Inc., has been able to moderate its labor costs because of the strong dollar. If the Radio Marti program also had access to "cheap labor", its employee costs per hour, already lower than the Voice or RFL/RE, would be even lower.

	Payroll costs	Annual hours broadcasts	Employee costs per hour
Organization:			
Voice of America	$99,578,972	57,553	$1,730
Radio Free Europe/Radio Liberty	77,476,000	56,314	1,376
Radio Marti Program	6,243,000	5,292	1,179

According to the House amendment authors, staff inefficiency should be a cause for cutting the Radio Marti Program's budget. Since the Program is, in fact, more efficient than comparable organizations their logic could be used to justify budget increases!

However, it would be wrong to justify an FY 86 appropriation of $11.2 million solely on the basis of impressive productivity.

The proper way to budget is to evaluate what is the minimum needed to produce a 14½ hours daily quality broadcast to the people of Cuba. When OMB performed this excise, they froze the Program's budget at $11.202 million. In calculating their "freeze" level, OMB included full-year operating funding for FY 86 and a 5% pay cut for all Radio Marti program staff. (Since Congress decided not to cut federal salaries by 5% but retain existing levels instead, another $231,000 is needed to "freeze" the Marti program at $11.432 million.) Higher full-year operating costs, of course, reflect the fact that Radio Marti did not go on the air until May 20, 1985 and with only a skeleton staff. It was for these reasons that the House and Senate Foreign Affairs Committees agreed to a $11.5 million FY86 authorizing ceiling.

A summary breakdown on Program costs by past fiscal year, and anticipated needs in FY86 is attached. These figures prove that any cut below the OMB "freeze" level will compel Program management to fire up to 30% of existing staff and to lower the number and quality of broadcast hours.

Sincerely,

JORGE MAS,
Chairman.

ADVISORY BOARD FOR RADIO BROADCASTING TO CUBA,
Washington, DC, October 16, 1985.

Mr. WARREN KANE,
Minority Staff Director, Appropriations Subcommittee on Commerce, Justice, State and Judiciary, Washington, DC.

DEAR MR. KANE: Jorge Mas requested that this summary justification of FY 86 funding of the Radio Marti Program at $11.5 million be sent to your personal attention. An identical letter has been sent to the Senator.

Please feel free to call me any time you have any questions concerning the Program. After working 5 years on Capitol Hill as a Senate Legislative Assistant and 2½ years as a Senate Legislative Director, I became the executive director to the Advisory board on Radio Broadcasting to Cuba. I am therefore familiar with the legislative history and current operating issues surrounding the Program.

Sincerely,

STUART SWEET,
Executive Director.

Mr. METZENBAUM. Mr. President, I rise in support of the Appropriations Committee amendment which expresses congressional disapproval for

the Justice Department's vertical restraints guidelines.

The committee language incorporates Senate Concurrent Resolution 56, which I cosponsored with the distinguished manager of the bill, Senator RUDMAN. I note that a similar resolution has been introduced in the House of Representatives by Congressman HAMILTON FISH, the ranking Republican on the House Judiciary Committee. This bipartisan support demonstrates a strong congressional rejection of the radical, anticonsumer views of the Reagan Justice Department.

If the Justice Department's views became law, there will be higher price markups, fewer discount stores, and a reduced opportunity for comparison shopping.

Therefore, I am pleased that Republicans and Democrats in both Houses are joining together in recognition that strong antitrust enforcement is an essential element of our free enterprise system. I note that this bipartisan coalition has been joined by the National Association of State Attorneys General, who have also condemned the guidelines on a bipartisan basis.

I am very disppointed that the administration has published these guidelines. The administration claims to be for free enterprise. But free enterprise doesn't just mean freedom from governmental regulations. Free enterprise also means free and open competition in the marketplace. These guidelines encourage private restraints of trade which limit free and open competition.

Some administration spokesmen have defended these guidelines as consistent with current judicial precedent as a worthwhile contribution to the marketplace of ideas concerning antitrust policy. Mr. Chairman, if these guidelines were a consumer product, the Justice Department could be sued for false adverstising.

The guidelines state, for example, that agreements among competing dealers to restrict competition are not per se illegal, as long as the dealers only sell one brand of a product. In other words, if a group of dealers selling only Chevrolets conspired to eliminate a discount Chevy dealer, their conspiracy would not be automatically illegal. Not only is this position shockingly anticonsumer, it directly contradicts the Supreme Court's decision in United States against General Motors Corp. holding such a conspiracy to be automatically illegal.

The guidelines are also deceptive in stating that they have no effect on the laws against resale price maintenance, which has been condemned both by the Supreme Court and Congress as per se illegal. Studies demonstratred that abolition of State fair trade laws which permitted resale price maintenance saved consumers $1.2 billion. But the fine print of the guidelines reveals that price fixing, which is combined with other restraints, will not be per se illegal. As a result, manufacturers will be able to artificially prop up retail prices with impunity.

Moreover, the guidelines state that the per se ban on resale price maintenance only applies to express agreements about specific prices. Yet, when I asked the Justice Department's witness at a committee hearing what judicial precedent supported his argument that the per se ban was so narrow, he could not find a single case.

Under the Department's guidelines, it will be much easier for manufacturers with highly desirable consumer products to force consumers to buy from one authorized dealer instead of comparison shopping for the best value. As far as the Department is concerned, Ford or Chrysler could designate one dealer for an entire metropolitan area without objection. Competition among dealers of the same brand is irrelevant, according to the Department. Ask any consumer who has recently purchased a car, or a television, or a stereo, whether intrabrand competition is irrelevant. In the real world, in contrast to the Department's fancy theories, consumers save millions of dollars each year from intrabrand competition. I totally agree with Donald Baker—President Nixon's antitrust chief—who recently wrote that the guidelines reflect "more the flavor of the seminar rooms at the University of Chicago than the historical jurisprudence of the Federal courts."

Because the Justice Department's views are so contrary to established judicial precedent and basic notions of free competition, I am confident that they will be rejected by the courts. This resolution will hopefully bolster the efforts of litigants seeking to retain traditional, proconsumer enforcement of the antitrust laws.

Mr. President, the administration claims that these vertical restraints only harm consumers in rare instances, usually, they argue, a restraint will help efficiently promote a consumer product. Thus, they claim the law permits vertical restraints unless they are being used by almost everyone in an industry. Neither the factual or legal record supports these arguments.

At the Judiciary Committee hearing on this issue, representatives of three national retailing organizations all testified that their efforts to cut prices on desirable consumer products were often hampered by vertical restraints. Why were these restrictions imposed? Because a manufacturer had some efficient way of marketing the product? No. Restrictions were often imposed based on pressure from competing high-priced retailers. Listen to the testimony of Monroe Milstein, president of Burlington Coat Factory:

> A manufacturer faced with coercion of large retailers could well use the guidelines to withdraw his lines from off-price retailers and then cause the consumers to pay high, full prices. * * * In my experience, my company has frequently been deprived of highly valuable branded merchandise because a full-price retailer has coerced the manufacturer not to sell to Burlington in certain areas.

The administration's contentions are also rejected by existing judicial precedent in the Sylvania case, the Supreme Court expressly called for a balancing, under the rule of reason, of the reduction of intrabrand competition against possible benefits to interbrand competition.

In sum, these guidelines are bad law and bad policy, and deserve congressional condemnation.

Mr. RUDMAN. Mr. President, I believe we have now worked through most of the noncontroversial amendments. It is my understanding that we now have two amendments, both involving the issue of abortion, which could be subject to extensive debate, if I understand this morning's conversation correctly. We will, however, attempt to work that out. There is also an amendment to be offered by the Senator from New Jersey [Mr. LAUTENBERG]. We probably shall have a vote on that with a fairly short debate.

In addition, the Senator from Rhode Island [Mr. CHAFEE] has an EDA amendment. I believe that if we can reach a settlement with respect to the two abortion amendments, we could finish this bill in 1½ hours. It is now 12:08. Under the previous unanimous-consent agreement, it is my understanding that we will now leave this bill and move to consideration of the Jordan arms sale resolution. Is the Senator from New Hampshire correct?

The PRESIDING OFFICER. The Senator is correct.

PROPOSED SALE OF ARMS TO JORDAN

The PRESIDING OFFICER. Under the previous order, the hour of 12:10 having arrived, the majority leader is recognized to offer the resolution.

Mr. LUGAR. Mr. President, on behalf of the majority leader and the distinguished minority leader, the ranking minority member of the Foreign Relations Committee [Mr. PELL] and myself, I send a joint resolution to the desk and ask for its immediate consideration.

The PRESIDING OFFICER. The resolution will be stated by title.

The assistant legislative clerk read as follows:

> A Senate joint resolution (S.J. Res. 228) proposing the sale of arms to Jordan.

Mr. LUGAR. Mr. President, I ask unanimous consent that these additional cosponsors be added: Mr. DENTON, Mr. TRIBLE, Mr. BOSCHWITZ,

Mr. PRESSLER, Mr. SARBANES, Mr. KENNEDY, Mr. KASTEN, Mrs. KASSEBAUM, Mr. EVANS, Mr. HEINZ, Mr. METZENBAUM, Mr. LAUTENBERG, Mr. WILSON, Mr. HEFLIN, Mr. JOHNSTON, and Mr. MURKOWSKI.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. LUGAR. Mr. President, a unanimous consent agreement was reached yesterday for 1 hour of debate equally divided in the usual form on this resolution; that no amendments be in order; that no motions to commit with instructions be in order; that the agreement be in the usual form. Under that procedure, the resolution has now been offered. I yield to the majority leader as much time as he may require for an initial statement on the resolution.

Mr. DOLE. Mr. President, I thank the distinguished chairman of the Foreign Relations Committee, and I am pleased to be joined by the distinguished minority leader, the chairman and ranking member of the Foreign Relations Committee, and a large number of other Senators, in cosponsoring a joint resolution dealing with arms sales to Jordan.

The resolution is simple. It says that, prior to March 1, 1986, no letter of offer for any sale to Jordan of advanced weapons systems included in the administration's notification of October 21 shall be valid unless "direct and meaningful peace negotiations between Israel and Jordan are underway."

This formulation has been carefully constructed to meet the needs of all the parties in the debate over this issue.

It should enjoy the support of the overwhelming majority of Senators, since it encompasses two ideas strongly felt in this Chamber: That direct negotiations between Jordan and Israel must be at the heart of any realistic effort to forge a regional peace and that such negotiations, if they take place, will do more than any arms sale to enhance the real security of both countries.

Passage of this resolution will also serve the administration's needs, and I'm pleased the administration has agreed to our action. Most important, our formulation preserves the President's strong hand as he deals with both Jordan and Israel, in an effort to get the peace process moving.

The resolution also reflects the admiration of many of us in the Senate for King Hussein's initiatives and the understanding we have of his legitimate need for an adequate defense against many of the radical forces which he confronts. For that reason, I especially regret the statement attributed to the King that our action today represents some kind of "blackmail." I hope the King didn't say that and doesn't believe it. For it's just not true. We are not trying to blackmail anyone. We are trying to take responsible actions to encourage negotiations for a true peace in the Middle East, which will be of more benefit to Jordan's security than anything else we can do.

The events of the past months—the President's diplomacy, the King's initiatives, the forward-looking speech of Israel Prime Minister Peres at the United Nations recently—all of these offer some new hope that a real breakthrough in the peace process is possible. But we are in a very sensitive period, where many threads must come together.

This resolution will keep open the window of opportunity for that process. It will preserve our options as we deal with this evolving situation. The resolution deserves our unanimous support.

The PRESIDING OFFICER. Who yields time?

Mr. LUGAR. Mr. President, I yield to the distinguished minority leader.

Mr. BYRD. I yield the time on my side to Mr. PELL.

Mr. DOLE. I yield the time on this side to the distingushed chairman of the committee.

Mr. LUGAR. Mr. President.

The PRESIDING OFFICER. Who yields time?

Mr. LUGAR. Mr. President, I ask unanimous consent to delete Senator CRANSTON'S name as a cosponsor of the resolution.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. LUGAR. Mr. President, I yield to myself 5 minutes.

Mr. President, the resolution now before the Senate is the work of many Senators who are deeply concerned about several issues. Each Senator involved is hopeful that the peace process may continue. Each Senator is most hopeful that the action that we take in the Senate will help the peace process. In my judgment, the resolution we now have before us offers a strong opportunity for the peace process to continue, for the excellent initiatives that have been manifested by Prime Minister Peres in his United Nations speech, by King Hussein in his important comments following that speech, and comments made by our President and Secretary of State offering their good offices for all of these processes to continue.

We faced a situation yesterday in which there were those who were fearful that a time period of 30 days might run out before the peace process could come to greater flower. Many Members felt that an arms sale to Jordan would be inadvisable until the peace process had resulted in face-to-face negotiations. We have relieved that difficulty by providing that consideration of the arms sale may extend over a period of 120 days. This will prevent an unfortunate adverse vote on a subject that could have ramifications with regard to the peace process and result in discouragement not only of our Government but of King Hussein, of the Israeli leadership and others who are deeply interested. It seems to me that the interests of all parties have been considered, and let me simply reiterate what I believe those interests to be.

First of all, the President of the United States has made a proposal that he wishes permission to sell arms to Jordan. That proposal is still with us. Those who are in favor of that proposal could simply let the clock tick but now that clock must go for a period of over 120 days to March 1, 1986. Those who are opposed to the sale would have had to take action within a 30-day period under the old situation. They now have until March 1 of next year to take adverse action if they would wish to do so. A motion of disapproval would be in order at any point along the line. But it is the general desire, I think, of most Members not to file that motion or to press it until it is clear that the peace process is not coming to fruition. Therefore, all interests are protected in that respect.

Finally, Mr. President, it seems to me important to say that there are incentives for the parties to get together. Clearly, the qualifying aspect of this resolution is that an arms sale could progress if face-to-face negotiations occur; negotiations that are substantive, meaningful; that deal with peace; that move away from a status of nonbelligerency between Jordan and Israel to a question of peace. I think most Members of the Senate would agree with Prime Minister Peres' comments to Senators the other day that we ought to look first toward peace and the end of hostilities, then toward arms, that Prime Minister Peres, at least speaking for himself, said he would not object to arms sales to Jordan if Jordan was not at war with Israel, if the belligerency issue was finally removed. That is the key factor.

Let me add once again this resolution takes away no rights of any Senator. A motion of disapproval could be filed immediately if that was the wish of Senators. I hope that will not occur, but that could occur. It could occur anytime during November or December if we were in session, or in January or February. But it seems to me that the disposition of most Senators is to withhold that motion of disapproval to give people more time, to let peace have a chance and to have an opportunity for direct negotiations, given some assurances by our Secretary of State that considerable movement is now afoot in the Middle East and possibilities for peace might come about. I

hope that the resolution might find nearly unanimous favor, if not a totally unanimous vote, as a signal of our interest in keeping vigilance but likewise our desire to try to enhance the peace process.

Mr. PELL addressed the Chair.

The PRESIDING OFFICER. The Senator from Rhode Island.

Mr. PELL. Mr. President, I am pleased to join my distinguished colleagues, the majority and minority leaders, and the chairman of the Committee on Foreign Relations in offering a resolution which would preclude the administration from going ahead with its proposed arms sales to Jordan before March 1, 1986.

If adopted, this resolution will give much needed time for Jordan and Israel to find a way to commence direct and meaningful peace negotiations.

Mr. President, I am convinced that, if the Congress were forced to act now, it would reject the proposed sales. I would agree with such a decision. At the same time, however, I have no doubt that there are many in this body and the House who would be very sympathetic to helping Jordan meet its genuine security needs if that nation becomes a true partner in the effort to achieve a just and comprehensive peace in the Middle East.

I believe that both Prime Minister Peres and King Hussein are genuinely interested in sitting down at the bargaining table. I hope that they will do so at the earliest possible date. Now is not the time to be debating and deciding upon a major arms sale to Jordan.

In the past, I have had severe reservations as to the wisdom of injecting massive weapons packages into the streaming cauldron of the Middle East. I have supported the provision of necessary arms to Egypt since it made peace with Israel and became engaged in the effort to work toward a just settlement.

Mr. President, in early summer, Congress adopted a provision I offered which stated it to be the policy of Congress not to provide any major arms sale until, and unless, Jordan has recognized Israel's right to exist, agreed to abide by U.N. Resolutions 242 and 338 and entered into direct peace negotiations with Israel. Those conditions were enacted in connection with the provision of $250 million in economic assistance for Jordan.

In recent weeks, we have witnessed yet another cycle of Middle East violence climaxed by the hijacking of a passenger ship on the open sea. These events and the continuing terrorist threat in that volatile region of the world only underscore the desperate need for peace between Israel and her Arab neighbors.

We abhor terrorists and we must not let them prevail. Unfortunately, they prosper in the absence of a comprehensive peace. Accordingly, it is imperative that we work with those striving for peace. Jordan is central to the possibility of that peace ever reaching fulfillment.

Mr. President, passage of this resolution will give time for the steps so urgently needed now in the Middle East to be taken. At the same time, it will preserve for the Congress the option to stop sales to Jordan if nothing happens.

Unfortunately, optimism about progress toward peace in the Middle East is seldom justified. Nonetheless, I am optimistic—I hope with justification—that passage of this resolution will prove a very wise move by leaving the way open for early progress toward peace through serious face-to-face negotiation and by providing a genuine incentive for success.

I hope no one will mistake our intent here. We intend to give time for success, but I and fully three-quarters of the Senate have indicated that Israel and Jordan must be at the bargaining table before a major arms sale may occur. It would be foolhardy to chance that the Congress will settle for anything less next year. No one should doubt our resolve in this matter.

Mr. CRANSTON. Mr. President, will the Senator yield me 3 or 4 minutes?

Mr. PELL. I yield 3 minutes to the Senator from California.

Mr. CRANSTON. Mr. President, the sale of advanced weapons to Jordan at this time would do just the opposite of what the Reagan administration says it wants: It would take away our leverage to help bring about a lasting peace in the Middle East. If America sells Jordan arms now just because Jordan is talking about peace, we will not be using our leverage wisely.

We have been down this path before.

In 1981, we conditioned the sale of AWACS to Saudi Arabia on the Saudis becoming a more constructive partner in the peace process. Since then, the Saudis have been bankrolling Syria and PLO terrorists, and we are still going to give the Saudis the planes.

I do not think it is smart to put ourselves in an analagous situation with Jordan—especially when you consider the contradictory statements which King Hussein is making about war and peace. I respect King Hussein greatly. He is striving, I am sure, for peace. But his remarks point out the need for us to remember that talk is cheap.

I have stated repeatedly that we need more from King Hussein than talk about peace talks. We need deeds. We need, as the pending resolution declares, direct and meaningful negotiations underway between Israel and Jordan. I believe we need more than that. We need to see actions for peace before we commit to arming Jordan.

Last week, at a meeting with members of the Senate Foreign Relations Committee, King Hussein, responding to a question asked by the distinguished chairman of the committee, Senator LUGAR, told us that the state of belligerency with Israel was over. But in today's New York Times, he says just the opposite. He says that a termination of the state of war can only occur after "a peace effort under the right auspices—an international conference dealing with all aspects of their problem, in particular, the Palestinian dimension and Palestinian rights."

The King's rhetoric before Congress says that the conditions for peace exist. But let us consider the current conditions that exist between Jordan and Israel:

There is no trade between those two nations.

There is no recognition of Israel's right to exist, and no peace treaty ending the Arab "holy war" against Israel.

There is the matter of the PLO—which Jordan protects as it commits crimes of terror against the people of Israel and others.

And there is the heavily armed border. When you are at the border between Israel and Jordan, as I have been, you cannot avoid thoughts about the foreboding presence of the PLO. I have walked through the line of fire of the machine guns lining the Jordanian side of the River Jordan, machine guns trained on the Allenby Bridge, the only open land route between Israel and Jordan.

These are hardly the conditions of peace. We must not consider any weapons sales to Jordan as long as there is not the reality of peace. We must wait for the King's deeds to match his words.

In conclusion, I will vote for the compromise resolution now before us because it gives King Hussein the opportunity to act for peace before we take any final action in the U.S. Senate banning an arms sale to Jordan.

The PRESIDING OFFICER. Who yields time?

Mr. PELL. Mr. President, I yield 3 minutes to the Senator from Ohio [Mr. METZENBAUM].

Mr. METZENBAUM. Mr. President, I rise to support this resolution, and in doing so, I rise also to commend the efforts of Senators KENNEDY, HEINZ, DOLE, CRANSTON, BOSCHWITZ, SPECTER, PELL, and others who were involved in bringing it about. I think it is the right solution for the problem that faces us.

We are faced with the fact that 74 Senators have joined, I being one of them, and indicated that we were prepared to act to stop the sale of arms to Jordan. There is not much question that if that matter had come to the floor, it would have passed.

However, as a consequence of a number of meetings, it appeared that there might be more merit to sending a message to the King of Jordan that the Senate does not look favorably upon the sale and that the Senate and Congress and the White House really are much interested in the parties getting together for direct negotiations.

We are not just saying that we are talking about getting together for direct negotiations, having a meeting, and saying "hello" and "goodbye." This resolution goes beyond that. It talks about the fact that those negotiations shall be underway; and "underway" means that the parties will actually be involved in meaningful peace negotiations between Israel and Jordan.

That, I think, is what all who are concerned about peace in the Middle East really want to see occur. We do not want just a meeting for the purpose of a meeting. We want the parties to get together and discuss their differences and, it is hoped, be able to resolve those differences.

Some have indicated concern by saying, "What if the date of March 1 arrives and nothing has transpired at that time?" Well, if 74 Senators could sign in the first instance, 74 Senators could sign in the second instance. We have the opportunity to act, if that be necessary.

The point is that by enacting this resolution, which I hope will pass unanimously, we are sending a message to the world and to Jordan and to Israel that we are very hopeful that they will engage in direct, meaningful negotiations and sit at the bargaining table and bring about a resolution of their differences. That, in my opinion, is the objective. I think it is achieved by this effort, and I do not think it would have come about had there not been 74 Senators who first joined together in connection with the Kennedy-Heinz proposal. I think we have moved in the right direction and have come up with the right solution, and I commend all those who have been in the leadership role in causing that to come about.

Mr. LUGAR. Mr. President, I ask unanimous consent that the names of Senator ABDOR, Senator MURKOWSKI, and Senator WARNER be added as cosponsors of this measure.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. LUGAR. Mr. President, I shall take 2 minutes at this point to try to respond to a question being asked by many Senators with respect to the March 1, 1986 date.

The question is, essentially, "What happens on March 1, 1986?" The answer is, simply, nothing, necessarily. But I think the point made by the distinguished Senator from Ohio was constructive, which is that prior to adoption of this resolution, the timeframe for a motion of disappoval was 30 days. That means that at the end of 30 days, the President would have been authorized to proceed with a letter of sale, unless the Congress acted otherwise.

The effect of this resolution is to move that 30 days all the way to March 1, 1986. It means that a motion of disapproval could be made any time during that period.

In other words, nothing necessarily happens on March 1, 1986. If it is the will of Congress to proceed with disapproval, that may occur at any point from now until March 1, at which time a sale would be possible or, if the Congress decides, additional action could be taken.

I make that point because no Senator is giving away any rights today. He can file for disapproval at any point throughout that period of time.

Many Senators felt they were constrained by having only a 30-day period and preferred not to act within that period, but might prefer to act at some other time in the event the peace process did not move along.

I make that point simply as an answer to a question that is being raised by many Senators with regard to this March 1, 1986, date.

Mr. METZENBAUM. Mr. President, will the Senator from Indiana yield for a question?

Mr. LUGAR. I am happy to yield to the Senator from Ohio.

Mr. METZENBAUM. The Senator from Indiana speaks about a motion of disapproval. The Senator from Ohio has some concerns which have been somewhat confirmed by the Parliamentarian as to whether or not the motion of disapproval is the necessary action in order to disapprove the action of the President in making the sale and that by reason of the Chadha decision having to do with the right of Congress to act in a matter of this kind or similar nature.

Is it not the fact that in this legislation which has the force of law and does not provide any basis for question as to its validity, in effect we really are taking a much more major step, a much more meaningful step, and we totally obviate any legal question that might otherwise arise?

Mr. LUGAR. It is my clear impression that we are doing that and that this has been a careful thought behind this resolution.

Mr. METZENBAUM. I thank the Senator from Indiana.

Mr. LUGAR. I yield to the distinguished Senator from Washington for 5 minutes.

The PRESIDING OFFICER. The Senator from Washington.

Mr. EVANS. Mr. President, I wish to speak not just on this question of delay or even on the question of the arms sale to Jordan. But rather I wish to speak in a broader context because I have been somewhat disturbed by the ways in which we have attempted, in recent months, to influence or carry out American foreign policy.

It seems to me we sometimes forget that American foreign policy should be guided by what I conclude to be the No. 1 principle. The No. 1 principle of American foreign policy should be is what do we do in the best interests of the United States?

What we do in the best interests of the United States does not always coincide with what may be seen as the best interest of Jordan or of Egypt, or of Israel, for that matter, or even for domestic organizations as well intentioned and as good as AIPAC.

It seems to me that American best interests in the Middle East are best served if we at least try to achieve three fundamental goals, perhaps more but at least three.

One, is to continue as we have since the birth of that nation: To supporting the security, the independence, and ultimately the ability to live in peace in the Middle East of our friend and ally, Israel.

Second, is to attempt to move toward stability in the Middle East: Stability among all nations that will aid in keeping at bay the rising tide of Moslem fundamentalism as it affects governments and as it potentially affects the stability of that part of the world.

Third, in our moment of energy complacency, let us not forget that we have gone through a period of minimum dependence on foreign oil, that we are slowly, inexorably now turning around. With the increased demand for petroleum products in this country, the beginning of decline in domestic products, we are going to be increasingly dependent on external sources and they will inevitably include sources from the Middle East.

These three interests, it seems to me, are paramount for America in the Middle East. The security of Israel, the stability among nations of that part of the world, and as a result the protection and the opportunity for continued supply of petroleum are in America's best interest.

I feel very strongly, as I suspect most of my colleagues do, that we were placed in a position that was uncomfortable for all of us where an immediate vote might be placed before us and an immediate vote which, in my opinion, would be a no-win vote. It would make no difference which way that vote went. We would not be achieving the real goals of American foreign policy in that part of the world. We would either drive away Arab States and give great encouragement to the cause of the radicals in that part of the world, or we would turn aside from our friend and ally Israel.

I think we also have to understand and recognize that whatever influence we try to apply on actions of other independent nations should be done with great care and with particular understanding. Every nation, every leader has a sense of pride, a sense of independence, and a natural reluctance to react directly to the demands or threats from others.

So we have to be careful, exceedingly careful, to use our great influence wisely and well, and I think in doing so we in this Congress and particularly in the Senate, where we have such an extraordinary responsibility for foreign policy, have to have some faith and develop even closer working relationships with this administration or any administration for that matter. Our best years of American foreign policy have always been those years in which foreign policy was both bipartisan and in partnership, Congress and the President.

The PRESIDING OFFICER. The Senator from Washington has used 5 minutes of his time.

Mr. EVANS. May I ask for 2 additional minutes?

Mr. LUGAR. Mr. President, I yield 2 additional minutes.

The PRESIDING OFFICER. The Senator yielded 2 additional minutes to the Senator from Washington.

Mr. EVANS. We must be careful in these coming months, between now and March 1, 1986, to analyze the progress toward peace negotiations in the Middle East, to lower our voices, to lower our voices in order to give the tenuous moves toward peace a chance.

Last, the ultimate conditions, if any, which we apply to this or any other proposal for the Middle East, must be capable of being met by those to whom the conditions are directed. I think it is perfectly appropriate to suggest that an end to a state of belligerency is something that could be done independently by Jordan, that the opening of talks could certainly be accomplished, that a successful selection of a Palestinian delegation could be accomplished. But it is not within the purview of any one nation to conclude a peace agreement, to sign one, to finish the act, and I think that that is an inappropriate condition.

Mr. President, I congratulate the chairman and the leaders who have worked together to bring us to this point. It is the best solution given the unhappy alternatives which were in front of us, and I desperately hope, along with my colleagues, that between now and March 1 of next year we will have moved and taken several steps toward initiation of the peace process in the Middle East.

The PRESIDING OFFICER. The Senator from Rhode Island.

Mr. PELL. Mr. President, I yield 3 minutes to the Senator from Connecticut.

Mr. DODD. I ask the distinguished chairman of the committee for 5 minutes.

Mr. LUGAR. I yield 5 minutes.

The PRESIDING OFFICER. The Senator from Connecticut.

Mr. DODD. Thank you, and I thank my distinguished chairman.

Mr. President, I will announce in advance what I want to do at the end of the 5 minutes so Senators will have some time to think about it.

I commend, first of all, those who have been responsible for putting together this particular language in this resolution. I have no objection whatsoever to the language that is before us.

The concern I have, and I realize procedurally I am under a constraint given the unanimous-consent request, is that I am concerned that we have not provided for an expedited procedure for this body to react if during this period of time it becomes quite obvious for whatever set of reasons that the peace process is not going to be capable of going forward and that is, given the volatility of the region we are talking about, a likelihood that cannot be dismissed.

The absence of some language here, which I will ask unanimous consent to offer, does not change one period or one comma in the resolution we are considering but adds a paragraph that says the following:

> Any joint resolution introduced on or after February 1, 1986, which states that the Congress objects to the proposed sales shall be considered in the Senate in accordance with the provisions of Section 601(b) of the International Security Assistance and Arms Export Control Act of 1976.

That would give us the opportunity to react.

My concern is, just as has been described by my colleagues, that we will not know or have any sense of what the President is thinking about on this matter until actually March 1, at which point the psychology changes dramatically in terms of this body reacting after the fact. I would like to give us that opportunity to react before, if we can, if, in fact, the situation is not proceeding well.

I have listened to the distinguished chairman of the committee suggest that he knows of no reason why anyone would object if things were going sour for a resolution of disapproval to be brought forward. If that is the case, then I hope there would be no objection to the unanimous-consent request that would simply add the language that would provide us that opportunity here since it does not change the substance at all of the proposition before us, but merely adds that guarantee that we would then be removing as a result of the adoption of this particular resolution.

I might add, as well, Mr. President, that I, for one, happen to have been supportive of the efforts of the chairman in trying to get an extension and, in fact, communicated to the Secretary of State, Mr. Shultz, myself, on October 16 requesting this matter not be brought up now but rather delayed until after the first of the year. So I am in total agreement with the substantive effort here.

My concern is the procedural hole or gap, if you will, that we have left ourselves here that I think that we may very well all regret.

So, for that reason, Mr. President, I ask unanimous consent to be able to offer a substitute joint resolution that includes all of the language in the resolution before us and adds the paragraph I just read.

The PRESIDING OFFICER. Is there objection?

Mr. LUGAR. I object.

The PRESIDING OFFICER. Objection is heard.

Mr. DODD. Mr. President, let me just say to my colleagues here—and I say this with great regret, because I really do approve of what is happening substantively—but, as a procedural matter, this is too important an issue, it seems to me, to leave without that kind of safeguard. I would say, with all due respect to my chairman, who I have deep personal fondness for and respect, that the objection, frankly, causes me concern. I do not know why there should be an objection to this. It is merely protecting the prerogatives of this body. We have adopted legislation in the past that has given us that opportunity. It is a matter of some judicial inquiry as to whether or not it is constitutional, but, nonetheless, this body has felt in the past that we ought to protect ourselves in arms sales by having the opportunity to express our disapproval of it.

This resolution denies us that opportunity, except to the extent we obviously include an appropriating process or submit all sorts of resolutions. But there is no guarantee it would be considered. Of course, one Senator here could filibuster such a proposal if it were to come and deny us that opportunity until after March 2.

As a result of that, as someone who prefers to have this kind of timeframe, I would reluctantly have to oppose this resolution.

The PRESIDING OFFICER. Who yields time?

Mr. LUGAR. Mr. President, I yield myself 2 minutes to respond to the distinguished Senator from Connecticut.

It is with regret that I object, but I do so to protect the interests of all Senators who are of the opinion, or at least they entered into this debate with the opinion, that there would not be amendments.

Presently, there is no expedited procedure for a motion of disapproval. This resolution supplants the 30-day motion of disapproval that we would

have voted on otherwise. There is no expedited effort there.

The Senator from Connecticut is correct, Senators have the privilege of filibustering or extending debate or employing parliamentary delays, or what have you. Many want to protect that. To change that situation in the course of this debate, and without notice to extend this resolution, is an important request, but one, in all honesty, which I feel I could not accede to, given the agreements we have reached with all parties.

I appreciate the problem. This is why I tried to respond earlier to suggest that what we have done is simply to push the period of consideration back from 30 days to March 1, 1986, so that there is a longer period in the event Senators wish to file the motion to disapprove and to get that into the normal course of debate.

Mr. DODD. Will the Senator yield?

Mr. LUGAR. I am happy to yield.

Mr. DODD. I appreciate the Senator's response to that. Does the Senator know of anyone who objects to the addition of this language?

Mr. LUGAR. The Senator does know of persons who do. I can be candid and say that one factor in going this route was the attempt to obtain consent from the Secretary of State and from the President, who indicated that, if this resolution comes to him in this form, he would sign it. That is an important point, because prior to that consent we did not know the President's views. Members, however, may speculate about vetoes, about overriding them and about the time sequence of that.

But, in the context of effective action, it seems to me that part of the agreement is the language in the resolution that was known, and this procedure, with all the options given to the parties, including the President, being protected, that lead me to object to changes at this point.

The PRESIDING OFFICER. The Senator has used 2 minutes.

Mr. LUGAR. I yield 2 minutes to the Senator from California.

Mr. WILSON. Mr. President, I commend those who have fashioned this legislation. I think it is a wise procedure. Hopefully, it is one that will produce a new leverage for peace in the Middle East.

If this sale, as proposed, were to come to a vote today, it would lose in this body. I think that there are those who are simply unwilling to proceed without having the opportunity for the kind of bilateral direct negotiations between Jordan and Israel that will lead to peace before we add to the total number of arms in that area. To put it as simply as possible, peace is likely to bring arms—arms of a kind that will be required to allow Jordan to defend itself, with its allies, against attack from radical Arab States, and that is the real threat to Jordan's security. Unhappily, history does not illustrate that arms coming first enhance the cause of peace.

I commend those who have fashioned this. I hope it will achieve the goal that all of us who support it seek for it, and that is the production of new leverage for peace in the Middle East. Jordan, I believe, is entitled to some assurance from those of us that are concerned about peace in the Middle East that we are concerned about her security, as well. I believe they are entitled to think that we will not stand idly by, as, indeed, we did not stand idly by when Israel was attacked by other radical Arab States in earlier times.

So, Mr. President, I again commend those that have fashioned this compromise. I hope that it does produce that leverage for peace in the Middle East.

Mr. PELL. Mr. President, I yield 3 minutes to the Senator from Massachusetts.

Mr. KENNEDY. Mr. President, I want to join others in commending the various Senators who have brought us to this particular place in addressing this issue, especially the Senator from Ohio, Senator METZENBAUM, Senator CRANSTON, Senator PELL, Senator HEINZ, Senator BOSCHWITZ, Senator KASTEN, Senator INOUYE, and our leader of the Foreign Relations Committee, Senator LUGAR, and the majority leader, Senator DOLE.

Two days ago, Senator HEINZ and I introduced a resolution with 74 Senate sponsors opposing the administration's plan, announced on Monday, to sell up to $2 billion in sophisticated fighter planes, missiles, and other advanced weapons to Jordan. As the broad support for our resolution demonstrates, there is overwhelming opposition in the Senate to any such arms sale at this time.

The administration's plan is irreparably flawed, because it puts the arms cart before the peace horse. We all hope that Jordan and Israel are on the verge of a historic breakthrough for peace between their nations. It is obvious that Israel is not the obstacle to peace in the Middle East. And we are also well aware of the difficulties that confront King Hussein of Jordan in deciding whether to go forward with direct and meaningful peace negotiations with Israel.

But at least until those negotiations are underway, this arms deal is premature. There is no justification for any weapons sale to Jordan or any other Arab nation that might endanger the security of Israel.

The present resolution achieves the full goal we sought in the resolution we introduced 2 days ago, and it deserves the full support of the Senate. By our action delaying—and denying—the sale for now, we offer a clear, continuing, and appropriate incentive to Jordan to make peace with Israel. The last thing we need is to provide a disincentive to the peace process, by giving the King an opportunity to take our weapons and run.

Let us pray that 4 months from now, with good fortune and courageous leadership, we will be offering a very different resolution—praising the historic decision by Jordan and Israel to begin negotiations for peace.

If not, then we stand ready in the Senate to renew our opposition to any policy and any sale that would escalate the arms race, not facilitate the peace process, in the Middle East.

The PRESIDING OFFICER. Who yields time?

Mr. LUGAR. Mr. President, I yield 5 minutes to the distinguished Senator from Minnesota.

Mr. BOSCHWITZ. I thank the Senator for yielding.

Mr. LUGAR. Mr. President, I believe 6 minutes remains; is that correct?

The PRESIDING OFFICER. The Senator is correct.

Mr. BOSCHWITZ. Mr. President, I commend my friend from Massachusetts, Senator KENNEDY, as well as Senator METZENBAUM, Senator SPECTER, the chairman and the ranking member of the committee for coming forward with this resolution.

I might say to my friend from Connecticut that it is not my interpretation at all that the Senate has waived any rights whatsoever. The Senate is not constrained to act to reject this arms sale within 30 days. It can reject this arms sale anytime prior to delivery.

I believe there is a critical message contained in the heart of this resolution. Congress has consistently expressed its view that major arms sales to nations at war with Israel should come only after those nations have agreed to make peace with Israel and are sitting down in direct, face-to-face negotiations with Israel toward that end. Arms should not be used as an incentive for such nations to be encourage to discuss peace, but as recognition of achievements in the peace process, as was the case with Egypt, where I think we very fully came forward in meeting our commitments that were made prior to the Camp David Accords.

From the time administration first began discussing the arms package to Jordan, Congress, in keeping with its policy, has consistently urged the Executive to postpone consideration of such sales until Jordan was sitting at the peace table with Israel.

Seventy-four Senators have clearly expressed their view that now is not the time to consider an arms package of such major proportions to Jordan. Rather than rejecting the sale outright, however, which the Senate

would have done if we had insisted, an agreement has been reached that would give the King and the Israelis more time to begin face-to-face negotiations.

Prime Minister Peres, in a bold and courageous speech before the U.S. General Assembly last week, went farther than any Israeli Prime Minister has ever gone toward meeting Jordanian conditions for peace talks. Now it is up to King Hussein to meet that challenge and sit down with Israel. The days of rhetoric are over. Concrete, courageous actions are now required by Jordon. Congress, through this resolution, is giving the process a chance to unfold.

Let me clarify if there are any ambiguities or questions pertaining to the language of the resolution. The resolution delays congressional action on the President's request for 120 days. The language of the resolution, according to my understanding, does not, in effect, approve the arms sale in any way but suspends judgment on the resolution of disapproval for the period specified. The Congress may, at any time during that period or after, pass legislation prohibiting such sales to Jordan.

If direct and meaningful peace negotiations between Israel and Jordan are not underway before March 1, I am certain that Congress will act promptly to ensure that such sales do not proceed.

It is important that this legislative history serve as the clear intent of the Senate regarding its interpretation. Let me assure the President that we, in the Congress, will express our view on these sales during this period extending to March 1, 1986—and after. Through this resolution, the Senate is simply delaying action on the formal notification request.

Mr. PELL. Mr. President, I yield to the Senator from California.

Mr. CRANSTON. Mr. President, I want to comment on a few matters that have come up during the debate.

First, as an habitual vote counter, I want to state my absolute conviction that if those of us who led the way had persisted and brought this matter to a vote within the 30-day period, we would have prevailed. The votes were here to deny proceeding with an arms sale to Jordan.

However, in the interest of comity between the two parties, between the Congress and the President, in the interest of peace and giving King Hussein an opportunity to follow through on his words about peace, we decided to work out the compromise that is now before the Senate and will soon be approved.

Second, on the matter brought up by the Senator from Connecticut, I would have liked to have seen his proposal adopted. I think it would have given us greater assurances about coming to a decision when and if we need to. But I totally understand the position of the chairman of the committee. I think he had no alternative, given the involvement and the terms of this agreement with the President, the Secretary of State, and many, many others.

My own view is that there was no certainty in any of the procedures that we were following. The original disapproval procedure had 30 days. The present procedure has 120 days.

Court decisions have created some doubt as to our capacities in this area.

However, I believe we have developed a spirit of comity on this matter. I feel confident that if those who are opposed to the Jordan sale under current conditions are still concerned in February, that the leadership in this body on the majority side will give us an opportunity to bring this matter to a vote. If we find obstacles to reaching a decision at that time, then, of course, we have a still better alternative and that is to deal with this matter on an appropriations measure. We can adopt, on a very important and significant appropriations measure, a provision stating that no funds can be spent by the U.S. Government in any way to complete the sale of arms to Jordan. We have that recourse, if we need it. I trust we will not have to.

The PRESIDING OFFICER. Who yields time?

Mr. PELL. Mr. President, I yield such time as may be required to the Senator from Connecticut.

Mr. DODD. I thank the Senator.

Mr. President, I ask unanimous consent that a copy of my joint resolution be printed at this point in the RECORD.

There being no objection, the joint resolution ordered to be printed in the RECORD, as follows:

S.J. RES. 228

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, that—

(1) Prior to March 1, 1986, no letter of offer shall be valid with respect to any of the proposed sales to Jordan of advanced weapons systems, including advanced aircraft and advanced air defense systems, that are described in the notification pursuant to section 36 (b) of the Arms Export Control Act submitted to the Congress on October 21, 1985, unless direct and meaningful peace negotiations between Israel and Jordan are underway.

(2) Any joint resolution introduced on or after February 1, 1986, which states that the Congress objects to the proposed sales shall be considered in the Senate in accordance with the provisions of section 601(b) of the International Security Assistance and Arms Export Control Act of 1976.

Mr. DODD. Mr. President, I ask unanimous consent that a letter I sent to Secretary Shultz on October 16, 1985, be printed at this point in the RECORD.

There being no objection, the letter was ordered to be printed in the RECORD, as follows:

OCTOBER 16, 1985.

Hon. GEORGE P. SHULTZ,
Secretary of State,
Washington, D.C.

DEAR MR. SECRETARY: Last week during your appearance before the Senate Committee on Foreign Relations, I strongly suggested that the Administration give serious consideration to deferring until the first of the year its formal request for the proposed $1.9 billion arms sales package to Jordan.

In view of the serious and tragic events of the past several days, I urge you to give this suggestion your immediate consideration. I do so because I am more convinced than ever that the formal submission of the Jordan arms package will only serve to heighten the Middle East controversy and to reduce the prospects for moving the peace process forward.

Accordingly, I want to reiterate my earlier suggestion and urge you to reassess the timing of this request. Hopefully, the recent developments in the Mediterranean region can be sorted out. Hopefully, they will not have a lasting impact on the peace process. And hopefully, the Administration's expectations for significant progress in bringing Jordan and Israel to the negotiating table before the end of the year can still be realized.

In my judgment all of these hopes, which I know you share, will be seriously jeopardized if the Administration pursues its original plans to submit the Jordan arms proposal on October 17th. Realistically, this proposal deserves to be set aside at least for the time being, in order to guard against any further damage to the peace process and to prospects for getting it back on the track.

I deeply appreciate your timely consideration of this suggestion.

Sincerely,

CHRISTOPHER J. DODD.

Mr. DODD. Mr. President, if I could, I would like to engage my distinguished chairman in a colloquy.

I have expressed my concern about what may happen as a procedural matter, and I appreciate the comments of the Senator from California. The problem with that, of course, is once the train has left and the President has made a decision, for the sake of discussion, that the peace process has not gone forward, and the President has decided in the national interest of the country to issue the letters and for whatever reason we are foreclosed by one or two Senators who want to disapprove of it, but it goes ahead, the process of going back is a far more difficult proposition than it is to dispose of or stop the sale before it occurs.

I think we can agree on that.

My concern would be whether or not the leadership could give this Senator some cause for relaxation by guaranteeing that if a resolution of disapproval is offered on or after February 1, 1986, that we would be guaranteed the opportunity prior to March 1, 1986, on or before March 1, 1986, to vote on that resolution of disapproval. Could that guarantee be given?

Mr. LUGAR. Let me respond to the Senator. I hope he will understand. I personally cannot give a guarantee on

behalf of the leadership in the majority or the minority. I hope the Senator will understand that I frankly do not know what the parliamentary situation is likely to be at that point.

I can assure the Senator in this way: I think the Senator from California has expressed the various obstacles that have been encountered by myself and others who were trying to draft this approach, but the votes for disapproval were here and that view could be expressed.

I would simply say that on that basis, on the basis of comity within our committee, on the basis of the appropriations process, that the will of the Senate is going to be heard and will be heard in a timely manner. But I cannot offer any further assurances.

Mr. DODD. Mr. President, I see the majority leader has arrived on the floor, the distinguished Senator from Kansas, and possibly I could engage the majority leader for 1 minute.

Mr. LUGAR. I am happy to yield to the majority leader.

Mr. DODD. If I might have the attention of the majority leader for a second, I posed a question relating to a substitute that I had hoped to be able to offer that would have guaranteed us an opportunity to vote on a resolution of disapproval prior to March 1, 1986. That unanimous-consent request was objected to, and I understand the reasons why. I wonder if the majority leader could give me and those of us who are concerned about whether or not we would have an opportunity to vote on this prior to March 1, a guarantee that should a resolution of disapproval be offered on or after February 1, 1986, we would have the opportunity in this body to vote on that resolution on or before March 1, 1986. Could such a guarantee be given?

Mr. DOLE. I can offer no guarantee, but I doubt there would be any problem. As far as I am concerned, we are going to be in the same situation then as we are today. There could be at some time an effort to postpone a final resolution of the arms sale issue for another 60 days or 90 days, depending on the status of the peace process. But I can say, as far as I am concerned, that I doubt there will be a problem.

My view is that we have a good resolution. Drafting was a cooperative effort with a number of Senators on each side of the aisle. The effect of the resolution in effect is to just move everything down the road 4 months without disturbing anything else or limiting any Senator's rights.

I am willing to assure the Senator personally that I am not going to stand in the way of anybody who wants to introduce a resolution of disapproval.

Mr. DODD. I thank the majority leader.

Mr. BOSCHWITZ. Will the Senator from Connecticut yield?

Mr. DODD. Certainly.

Mr. BOSCHWITZ. There were Senators on this side, Mr. President, who were concerned that the resolution was not specific enough in disallowing other people to rise at any time and offer resolutions of disapproval.

Mr. DODD. The resolution could be offered. Whether it would be considered is the issue.

Mr. BOSCHWITZ. In the event, once again, the peace process is bogged down and not moving forward, or some other events occur, 74 Senators will certainly get the attention of the Senate. However, we believe that we have expanded, rather than constrained or contracted, the rights of the Senate by virtue of this resolution. Furthermore, just as I felt it was unnecessary to specifically prevent people from offering resolutions of disapproval, so I think the Senator from Connecticut is unduly concerned about something that will not happen.

We have negotiated this in good faith with the majority leader, with the White House, and with the chairman of the Foreign Relations Committee. I know the Senator is and has been for many years interested in the entire subject of the Middle East. I think that the concerns of the Senator are without basis. I cannot foresee another Member of the Senate or the White House trying to prevent such a resolution from being properly debated and voted upon, in the event a member would try to do that. Certainly that would assure such a resolution from succeeding. And such a resolution can arise at any time prior to delivery.

Mr. DODD. Mr. President, if I may retain the floor, the point is obvious. The resolution could be offered. You could offer 100 today. That is not the point.

I would tell the Senator from the Minnesota I hope he is absolutely right and I am wrong. But I also say, as I stand here today, I have a sinking feeling I am right and he is wrong. Now, we will know on March 1. But I would like to think that we had at least covered ourselves in this body so that we might have an opportunity to express our will. I hope I am wrong. I mean that with all sincerity. I think we have left the barn door open and we will come to regret it.

Mr. BOSCHWITZ. Mr. President, the Senate can act on this at any time prior to delivery of the weapon system in the proposed package. I think we have expanded our rights and that we constrained the rights of the administration.

The PRESIDING OFFICER. Who yields time?

Mr. PELL addressed the Chair.

The PRESIDING OFFICER. The Senator from Rhode Island.

Mr. PELL. I think the Senator from Connecticut made a very good and very valid point. I think the majority leader gave us a very good assurance, a generous assurance. I think that point is pretty well covered.

Is there anybody else on our side who wants to speak?

Mr. LEVIN. Will the floor manager yield for a question on our time?

Mr. PELL. Certainly.

Mr. LEVIN. Can the Senator tell me whether or not the 30-day clock, which the law has, would ever, whatever weaknesses or questions that exist about it, will that 30-day clock begin to run again on March 1?

Mr. LUGAR. No, it would not. The clock would expire on March 1.

Mr. LEVIN. The clock will have expired by March 1. I think that is the point the Senator from Connecticut is making, that there are some things that we give up. It may be an imperfect clock because of Chadha, but it is a clock, and that clock would have run out by March 1. We all ought to be aware of that fact. I think the resolution is worthy of support, but there is a very critical problem with it that we are going to have to watch very, very carefully, and that is exactly the fact that the clock will no longer have any time on it by that time.

Mr. BOSCHWITZ. If the Senator will yield, my point is that it does not matter if the clock runs out. We can bring a resolution of disapproval to the floor at any time.

Mr. LEVIN. Except that clock has expedited procedures, does it not? It does not have any expedited procedures left on March 1. Those procedures may have gone down the tube in that Chadha ruled that the concurrent resolution to which it is connected went down the tube, but nonetheless you could offer a concurrent resolution of disapprovel and have expedited procedures, and then it would be a court decision as to whether or not that concurrent resolution in fact violated Chadha or not. Under this resolution, the clock runs out before March 1. There are no expedited procedures at all, as defective as they may be.

The PRESIDING OFFICER. The time of the Senator from Rhode Island has expired.

Mr. PACKWOOD. Mr. President, the administration's decision to hold off on the proposed $1.9 billion arms sale to Jordan should be lauded. Selling Jordan our most sophisticated weapons prior to their negotiating directly with Israel would have been a grave and costly mistake.

King Hussein has taken some initiatives recently, and I believe there is some hope that peace will prevail. I know that the King, like Prime Minister Peres, is a man of peace. However, arms sales have never induced peace in

the Middle East—a region which has suffered from perpetual war and unrest. King Hussein must back up his words with actions.

King Hussein met with Members of the House and Senate earlier this month, and told us that he recognizes the existence of Israel. He also agreed to negotiations with Israel under the auspices of an international conference. Although the U.S. Government has opposed the idea of an international conference because it invites the Soviets, the Syrians, and the PLO to place obstacles in the path toward peace, it is a start.

After years of bloodshed and constant tension, the possibility of peace between Israel and Jordan is much more than a dream. But it requires courageous steps.

I sincerely hope that King Hussein will use the next 4 months to take the necessary, irrevocable steps and engage in direct talks with Israel. When the late Egyptian President Anwar Sadat embarked upon his courageous journey to Jerusalem, he took that all-important step toward a peaceful resolution of the Middle East conflict. I am convinced that King Hussein wants peace just as much as Anwar Sadat did—all that he must do now is take the necessary steps.

I will support this resolution to delay the arms sale but let there be no doubt—if there is no movement in the peace process—if King Hussein continues to avoid direct negotiations with Israel—I will again join my colleagues in opposing this sale. As I have said many times in the past, I simply do not believe we should sell arms to countries in the Middle East that are not willing to make peace with Israel. Our interests—the interests of the United States—are served infinitely better by encouraging peace through negotiations than by contributing to instability in the region through another arms sale.

Mr. HEINZ. Mr. President, as a principle sponsor of Senate Joint Resolution 223, which would have prohibited the sale of advanced weapons to Jordan, I am pleased to join today as a cosponsor of this compromise, which halts the administration's current attempt to sell advanced weapons to Jordan.

This compromise would prohibit the President from proceeding with its proposed sale of weaponry to Jordan between now and March 1, 1986, unless direct and meaningful negotiations between Israel and Jordan begin before then. Most importantly, the compromise preserves the right of the Senate to oppose the sale after the March 1 date if direct negotiations between the two are not taking place.

In effect, the compromise achieves the objectives which 73 of my colleagues and I spelled out in cosponsoring Senate Joint Resolution 223.

In my view, the delay of this sale is vital to improving the prospects for peace in the region. The current flurry of diplomatic gestures between Israeli Prime Minister Peres and Jordan's King Hussein are cause for cautious optimism. To have proceeded with this sale at this time, however, would have been a serious threat to the delicate progress which has already been made.

It is my hope, Mr. President, that direct and meaningful negotiations between Israel and Jordan will begin promptly, and most certainly prior to the March 1, 1986, deadline which this compromise establishes.

I would like to thank the original sponsors on this bill, Senators KENNEDY, KASTEN, BOSCHWITZ, INOUYE, and CRANSTON for their efforts in halting this sale. In addition, the leadership of the distinguished chairman of the Foreign Relations Committee, Senator LUGAR, was vital in avoiding a confrontation on this issue and in crafting this compromise.

Mr. GLENN. Mr. President, I support the resolution delaying action on the proposed sale of arms to Jordan. To support an arms sale to Jordan now would surely be interpreted as suggesting that we are satisfied with the efforts that King Hussein has made toward holding direct, bilateral peace talks with Israel. Clearly this is not the case. I look upon the proposed 4-month delay as a welcome opportunity for Israel and Jordan to make a constructive move toward the peace table.

My position on the sale of arms to Jordan has been very clear. I believe that it is incumbent on the Arab nations—particularly Jordan—to move the peace process forward before I support an arms sale. To date, Jordan has not done this to my satisfaction.

Over the past months, however, statements by King Hussein have been encouraging. Recently, we have heard additional statements from the Middle East that give rise to renewed hope for the peace process. President Mubarak and King Hussein are meeting, and King Hussein has responded favorably—although cautiously—to Prime Minister Peres' recent remarks.

Mr. President, we have heard a lot of talk about peace; it is now time for action. To date, the hopeful words have not been matched by hopeful deeds. It is time for bold action by Jordan to break the current deadlock. I believe it would be foolish for the United States to jeopardize the potential for peace by premature arms sales to Jordan.

Mr. CHILES. Mr. President, I want to take just a minute to thank the leadership for its efforts to defer consideration of the pending arms sale to Jordan.

While I applaud King Hussein's efforts to advance the peace process, I am concerned that the King's insistence on an international conference including the Soviets, Syrians, and PLO, has effectively blocked any real progress in this area. Israel, on the other hand, has taken the first real steps to break the impasse. Let us wait and see if their efforts bear fruit.

One key factor in my own decision to oppose the arms sale was the uncertain funding arrangements for the sale.

Mr. President, this proposed sale represents a potential commitment to provide $2 billion in additional foreign assistance over the next 5 years. I do not believe that the budget can absorb this new commitment.

In my judgment, it does not advance American foreign policy interests for this administration to support major new foreign assistance programs, knowing that the Congress is unwilling to provide the necessary appropriations to fund these initiatives.

I hope that as the Senate considers this measure between now and March 1 of next year, the administration will seriously consider how Jordan will finance the purchase of these arms.

And, if they expect the United States to finance these arms sales, I hope they are prepared to inform the Congress of the additional funding requirements. Of course, in keeping with the Gramm-Rudman amendment, I expect the President will also be prepared to suggest which current activities he proposes to cut in order to finance this new initiative.

Mr. TRIBLE. Mr. President, I wish to express my support for this resolution postponing the time period for disapproval on arms sales to Jordan until March 1, 1986.

Let me say at the outset that were we to vote on the arms sale today, I would oppose it. The sale of these advanced weapons without tangible guarantees by Jordan would unacceptably jeopardize Israeli security. Moreover, at this time, the cause of peace is not served by the introduction of additional arms into the region.

All of us agree that the peace process must be our foremost concern and this is a critical time in that process. King Hussein has made a courageous effort to lay the groundwork for negotiations. He has worked diligently to build support in the Arab world and he has achieved substantial success. Prime Minister Peres remains eager to enter into direct negotiations.

Our action today will ensure that King Hussein's efforts at reconciliation will continue. By delaying action, we indicate to Hussein that should direct negotiations begin, our Nation will provide a full measure of support. We signal our intention to reward those who pursue the path of peace.

We must recognize that King Hussein's project stands as the best hope

for peace. A premature judgment by the Congress would undermine the cause of reconciliation.

Moreover, it would be unwise to repudiate the President. No one in Congress doubts President Reagan's commitment to the security of Israel or the peace process. The decent interval permitted by this resolution will enable the administration to maintain its role as intermediary, unencumbered by the onus of congressional disapproval.

Many obstacles remain, but those obstacles are not insurmountable, but overcoming them requires boldness, decisiveness and good will. Today's resolution encourages that risk taking.

The road to reconciliation will not be easy. Our action today acknowledges the extraordinary difficulties and eliminates a deadline which could become the death knell of the peace process. I urge my colleagues to support this resolution.

Mr. HART. Mr. President, passage of this resolution will be a major victory for all those who have urged the Reagan administration not to sell sophisticated weapons to Jordan until King Hussein agrees to negotiate directly with Israel.

As I have long argued, our efforts should focus on bringing Jordan to the negotiating table, not bringing arms to Jordan. Weapons are no substitute for diplomacy. In this case, I fear that they would forestall diplomacy.

King Hussein has helped to move the peace process forward to a limited extent. But postponing the arms sale is the only leverage the United States has to bring Jordan one step further. Unfortunately, King Hussein did not publicly announce his willingness to end the state of belligerency or enter into direct negotiations with Israel during his recent visit to the United States.

President Reagan has defined his goal as starting direct Israel-Arab negotiations before the end of this year. The resolution before us today gives the administration and the Jordanian Government time to pursue this course. This also strengthens U.S. flexibility and leverage in persuading Jordan to make concessions needed to break the current deadlock.

I urge my colleagues to support this resolution.

Mr. SPECTER. Mr. President, I want to express my strong support for this resolution which would bar an arms sale to Jordan until March 1, 1986, unless Israel and Jordan begin "direct and meaningful peace negotiations" before then.

Providing arms to Jordan before they make peace with Israel would focus attention on the instruments of war rather than on efforts to bring peace to the area. In the 1970's, the United States waited until after Egypt entered direct negotiations with Israel before supplying arms to the Egyptians. This is a basic principle that must also be applied to Jordan. Providing arms to Jordan at this time would reward them for not moving forward in the peace process.

This resolution will encourage the peace process to move forward in a positive direction. This resolution does not embarrass or rebuff King Hussein. But rather, it encourages King Hussein to move foreward. It encourages King Hussein to recognize Israel and to begin direct and meaningful negotiations.

This week, we may have seen the first step toward renewing the peace process. Prime Minister Peres of Israel, in his address to the U.N. General Assembly, and King Hussein's positive response, should be viewed in a most positive light.

In conclusion, I strongly believe that the only means to reach a peaceful settlement of the problems of the Middle East is through direct negotiations between Israel and Jordan.

Mrs. HAWKINS. Mr. President, I rise in support of this resolution to prohibit the sale of advanced warplanes and sophisticated air defense equipment to Jordan until March 1, 1986, unless King Hussein enters into direct and meaningful peace negotiations with Israel. The effect of the amendment is to extend the period in which Congress can consider this proposed arms sale from the standard 30 days, which in this case would expire on November 19, 1985, to March 1, 1986.

On Monday, October 21, 1985, the administration submitted to Congress its formal announcement of its intention to sell $1.9 billion worth of advanced weapons to Jordan. I joined 72 of my colleagues in immediately expressing opposition to this sale. This was no bolt out of the blue for the President. Several months ago, when word first began to circulate that the administration was considering such a sale, I joined at least 70 of my colleagues in writing to the President expressing our view that such a sale would be unwise and counterproductive. In spite of these clear signals of disapproval, the administration insisted in sending this proposed sale to the Senate. As a result, it should have surprised no one in the administration that this proposal would find substantial opposition here in the Senate.

The resolution that we are considering today is not the same as the one that was introduced to disapprove of the proposed sale to Jordan. This resolution, rather than rejecting the sale outright, prohibits the sale until March 1, 1986, unless Jordan and Israel begin direct peace talks. This resolution strikes at the heart of my opposition to the sale: Jordan has done nothing substantial to advance the cause of peace in the Middle East, and, in my view, has actually contributed to the tensions that have made the Middle East a powder keg. Under these circumstances, to reward Jordan with the sale of some of America's most sophisticated weaponry would be the height of folly. Rather, the consideration of an arms sale to Jordan should await positive actions on the part of Jordan to reinforce the peace efforts of the region. In this way, such a sale would at least serve to reinforce and reward the King for steps that are clearly in the interests of the United States and world peace. By refusing to wait until the King has taken these steps, I believe that we heighten the tension and contribute to the problems of the Middle East.

My reservation about this resolution is that it merely delays the possibility of the sale instead of rejecting it outright. I believe that under no circumstances, either now or in March, should we permit this sale unless Jordan has taken concrete steps to end the state of war with Israel and to enter into peace negotiations. I am supporting this resolution because of its timing. I am reluctant to hand the President a major foreign policy setback on the eve of the summit with General Secretary Gorbachev in Geneva. The President needs to enter these talks with as much support from the American people and the Congress as possible.

By passing this resolution, we prevent the sale; we avoid an embarrassing setback for the President; and we provide King Hussein with a clear-cut incentive to get his act together and take a more positive, active, and constructive role in the Middle East peace effort. And in the meantime, if by March there has been no substantial progress toward peace—and by this I mean deeds, not words—the Congress still has the opportunity to reject this proposed sale outright. Given the circumstances, I believe that this is the best course of action, but I would like to go on record as saying that if Jordan does not take positive action with regard to peace with Israel between now and March, that I plan to oppose the sale when it comes up again.

Mr. BINGAMAN. Mr. President, I rise in support of the resolution to delay the proposed sale of advanced weapons to Jordan until March 1, 1986, unless direct and meaningful peace negotiations between Israel and Jordan are underway.

We all want to see the Camp David peace process widened and have been disappointed by the unwillingness of other Arab countries to join Egypt in reaching a peaceful settlement with Israel. For the past 5 years, the United States, Israel, and Egypt have looked hopefully toward King Hussein as the next logical candidate to demonstrate

the statesmanship of the late Anwar Sadat and enter into direct negotiations with Israel. Unfortunately, those hopes remain to this day unfulfilled. King Hussein has occasionally appeared to edge toward the negotiating table, but then has backed off by raising unacceptable preconditions on such matters as PLO and Soviet participation in the talks.

I hope that in the coming months, the King will make the hard decision to sit down with Israel and engage in direct and meaningful negotiations with that government. If he does, then we should be wiling to demonstrate our support for that decision and for that negotiating process as we did in the case of Anwar Sadat and Egypt following President Sadat's visit to Jerusalem. In that instance, we did provide weapons to Egypt, including 50 F-5E air defense aircraft prior to the conclusion of the peace negotiation at Camp David.

But let me make clear that I reserve my opinion on the specific $1.9 billion arms package which the administration formally submitted to the Congress earlier this week. That package includes not F-5E's, but F-16 or F-20 aircraft and Improved Hawk and Stinger air defense missile systems. This weapons package is being justified on the basis of a Syrian threat to Jordan. Yet it would seem that the more immediate threat to Jordan once it entered peace negotiations with Israel would come from radical terrorist groups. An aid package to Jordan designed to meet that terrorist threat and to improve economic conditions for the Jordanian population would appear more likely to guarantee Jordan's internal stability, once the direct peace negotiations were underway, than the arms package sent to us by the administration. If direct talks were underway between Israel and Jordan, the external Syrian threat to Jordan would be deterred by the significant military capabilities Jordan already possesses and the likelihood of Israeli intervention to prevent Syria from setting up a hostile government along Israel's long eastern border to replace the Hussein government. I do not think that a Syrian military planner would make any assumption other than that he would have to deal with both Jordan and Israel, if the peace process were underway.

To conclude, Mr. President, I support the resolution before us. I think that it gives King Hussein a real incentive to get involved in direct negotiations with Israel. To have gone ahead and approved the sale of advanced weapons to Jordan before the King entered negotiations, as the administration proposed, would have had a negative effect on the prospects for peace and would have only eroded Israel's margin of security. If the King will now break with the Palestinian radicals and agree to sit down with Israel, I agree that we should provide him tangible support. But I remain extremely skeptical that the arms package proposed by the administration is the most appropriate means of showing that support. I reserve judgment on that until the direct negotiations we all hope for have commenced. Moreover, if such negotiations have not begun by March 1, 1986, I will support further delays in the proposed sale or outright disapproval of the sale depending on the situation at that time.

Mr. THURMOND. Mr. President, I have had a long history of support for the nation of Israel, and will continue to support the military security of Israel in the Middle East. However, I support this sale since I do not believe it will pose a threat to the security of Israel.

King Hussein is a man of honor. Therefore, I have no reason to doubt his commitment to peace with Israel. Nor do I question his nation's need for these arms.

Under the current circumstances, this resolution is the only alternative available to providing these arms to Jordan. In order to maintain the viability of this sale, I support the resolution.

Mr. McCONNELL. Mr. President, I will keep my remarks brief. Like my colleagues, I have a great deal of respect for King Hussein's apparent personal commitment to peace. In the face of Syrian threats to his life and his nation, he has cautiously edged forward in talking about peace with Israel. I am hopeful his interest will result in progress.

Senators DOLE, LUGAR, BYRD, and PELL have introduced a resolution which affords all of the parties an opportunity and time to demonstrate their commitment to peace. In delaying the decision to sell sophisticated weapons to Jordan, the resolution offers the incentive and reward to act. I support this resolution and the opportunity it offers.

However, I am strongly opposed to delivering arms before Jordan delivers on promises of peace. Under the present circumstances, if we approve the President's request, we are saying Jordan can stand still in the peace process and still benefit from American largesse. In the end, we lose our leverage.

At this point, I think it is critical we exercise this leverage. It's one thing for the King to say he is interested in negotiating a peace agreement, it is quite another to actually sit down and do it. Moreover, while the King may be interested in peace, we have all been repeatedly disappointed when his efforts fail to bring representatives of the Palestinians to the negotiating table. This frustration was experienced most recently by Great Britain when efforts were made to gain a commitment from the PLO to denounce terrorism and recognize Israel's right to exist.

Evidence of the PLO's sustained beligerency was tragically demonstrated during the recent hijacking of the *Achille Lauro*. All information points to the fact that Abu Abbas, a known Arafat loyalist, was intimately involved in the hijacking resulting in the brutal murder of Leon Klinghoffer. The PLO has not spoken of, nor demonstrated, an interest in peace.

There is one challenge: The Senate wants to see Jordan prove by performance it will negotiate a peace agreement with Israel. When these talks commence, I will reconsider my opposition to an arms sale. Unless these talks commence, I will make every effort to oppose a sale. Arms will not buy or build peace.

Mr. LEVIN. Mr. President, I want to join my colleagues in voicing my opposition to the administration's plan to sell sophisticated weapons to Jordan. The many reasons for opposing this proposed sale have already been described in detail by a number of other Senators. But I would like to reemphasize one of the most important arguments against carrying out such a sale at this time.

We must not forget that Jordan still refuses to negotiate directly with Israel. Despite that, there are many who believe that King Hussein is the best hope for the continuation of the peace process begun when Israel and Egypt signed the Camp David accords. But the King has seemed to moved a step backward from his earlier position on negotiations with Israel. In 1982, he was privately assuring the administration that he was on the verge of a decision to enter direct negotiations. But last month, during his visit to the United States, the King was saying that the PLO itself—not just individual Palestinians approved by Yasser Arafat—would have to be a party at the negotiating table. He was also telling the President that the Soviet Union would have to be a full participant as well, as part of an international conference. These positions do not indicate progress; they are a repetition of the same formulas espoused for years by the PLO, Syria, and the Soviet Union.

The President speaks of King Hussein's courageous pursuit of peace with Israel. As yet, I'm afraid I see little evidence of this courageous pursuit. Clearly, it will take courage for the King to negotiate with Israel face-to-face. He will have to do it in spite of pressure and opposition. It will take an act of courage such as that performed by Anwar Sadat 8 years ago. Eight years later, Egypt is at peace with Israel, and receives large amounts of military and economic assistance

from the United States. We should only reward genuine efforts at furthering peace in the Middle East. I hope Jordan will make such an effort in the next few months. As yet we haven't seen it.

Mr. KASTEN. Mr. President, as one of the original cosponsors of the disapproval resolution which was cosponsored by 73 Members of the Senate, I look upon this resolution now before the Senate as a good step toward possible peaceful solutions in the Middle East inasmuch as we will have more time to reason together on this issue, as well as giving more time to those in the region to talk. There is no question that the resolution will have overwhelming bipartisan support, and it is an action that has the consent and agreement of the administration.

Mr. President, this resolution will help avoid acrimonious debate and assure negative votes against arms sales to Jordan, and I believe that the chairman of the Foreign Relations Committee should be complimented for fashioning the resolution, and I compliment the administration for accepting it.

The passage of this resolution will send this message: The United States is not anxious to provide huge new arms sales in the Middle East until actual peace negotiations are in progress—it is that simple. It is somewhat unfortunate that we have had to go through this process inasmuch as I believe it was clear that this would be the result without first engaging in full consultations between the administration and Congress, and especially without developing a true consensus on the issue which the Secretary of State indicated last June that he wanted to develop before sending the package up to Congress. Obviously, that consensus is not developed. In fact the overwhelming consensus is in the opposite direction. However, I do not look upon this action as being a victory or defeat for any particular party, but as I said, rather a chance for us now to have serious discussions among all of the parties, and hopefully before the March 1 deadline, peace negotiations will be underway between Jordan and Israel.

Mr. BRADLEY. Mr. President, I am pleased to cosponsor this resolution postponing congressional action on arms sales to Jordan until March 1, 1986, at which time the President would have to resubmit his request for the sale and Congress then, as now, would have the right to reject it. I believe this outcome furthers the prospects for a serious peace process in the Middle East.

Had the request been before us today, I would have voted to disallow the sale of advanced weapons to Jordan, and indeed had already cosponsored a Senate resolution of disapproval.

For over a decade now, successive Presidents and Secretaries of State have contended that Arab States hostile to Israel could be enticed into the peace process through the sale of sophisticated U.S. weapons. However, in every case in which American arms sales were approved prior to direct, bilateral negotiations between an Arab State and Israel, the peace process either stalled or suffered setbacks.

For this reason, the right precedent for us to follow in approving or rejecting requests for arms sales is Egypt. It was only after Anwar Sadat went to Israel and Egypt agreed to direct negotiations that we agreed to supply Egypt with advanced aircraft. We should do everything in our power to encourage King Hussein to do likewise. Agreeing to arms sales in advance of such negotiations would thus be counterproductive.

In this regard, the developments of the last few days are encouraging. Mr. Peres has reaffirmed Israel's willingness to meet with a Jordanian or Jordanian-Palestinian delegation. And King Hussein has responded by calling Mr. Peres "a man of vision." In this climate, it would be foolhardy to inject the destabilizing factor of advanced weapons sales. Instead, we should be encouraging both nations to do everything in their power to pursue the course of peace.

That's what this resolution does. It encourages face-to-face discussions between Israel and Jordan. And it allows time for negotiations to take place. Finally, it preserves Congress' right to disallow arms sales should those negotiations fail to bear fruit. It therefore provides a compelling reason to move the process in a way that will be beneficial to all. For in the final analysis, no amount of arms can provide the security inherent in a just and lasting peace.

Mr. LAUTENBERG. Mr. President, I rise in support of this resolution to bar a U.S. arms sale to Jordan until March 1 unless direct and meaningful negotiations are underway between Israel and Jordan.

Mr. President, I was an original cosponsor of Senate Resolution 177, the resolution to bar the sale of advanced fighter aircraft and missiles to Jordan prior to the commencement of direct bilateral negotiations between Jordan and Israel. I continue to believe it would be unwise to make such a sale unless direct negotiations are occurring.

Now we have a different resolution before us. This resolution was crafted to prohibit the sale of weapons to Jordan until March 1, unless negotiations are underway. Its purpose is to give Jordan a window in which to move forward with the peace process, and a reason to do so, while assuring that Israel's security is protected. I am cosponsoring and voting for this resolution only because the Senate majority leader has indicated that the Senate would not be banned from considering a resolution of disapproval of the arms sale at a later time if the situation demands that we do so.

Under this resolution, Mr. President, King Hussein has until March 1 to come forward and negotiate with Prime Minister Peres while the possibility of the arms sale remains open. If he has not done so by then, I am committed to barring arms sales to Jordan. This carrot-and-stick approach buys time for the peace process to ripen, while giving King Hussein a chance to demonstrate if he is serious about moving forward.

I remain opposed to this arms sale so long as King Hussein's only contribution to the peace process is rhetoric.

Mr. President, I disagree profoundly with the administration's argument that this arms sale at this time will give King Hussein an incentive for peace. I believe an arms sale at this time will do just the opposite. It will reward King Hussein for not coming to the peace table. It will send a signal that as long as King Hussein keeps talking about peace, he need do no more.

While I welcome King Hussein's statement that Jordan is now prepared to negotiate with the Government of Israel promptly and directly under the terms of U.N. resolutions 224 and 338, from where I sit, the chairs at the peace table are still empty. In order for the peace process to move forward, King Hussein must make more dramatic moves toward peace, and take greater risks than he has. Providing him with arms now will remove his incentive to do so.

King Hussein justifies his request for advanced arms on the grounds that he needs additional protection against conventional attack if he is to risk making peace with Israel. The alleged "conventional military threat" comes principally from Syria. But, Mr. President, this alleged conventional threat from Syria has not prevented Jordan and Syria from recently agreeing on a common position on the Middle East peace process. And it has not prevented them from cooperating against Israel on the battlefield even when diplomatic tensions exist between them. While the administration says that the Jordanians need these weapons for defense against Syria, Syria supports the sale of arms to Jordan. So, to me, the proposed sale of arms to Jordan on the ground that Syria threatens Jordan does not make sense.

While Jordan's need for these weapons is not convincing, the military threat they would pose to Israel is real and demonstrable. Israel does not have enough soldiers to guard its long and vulnerable borders. Instead, it relies on a small standing army backed

by a large number of reservists. In the event of war, Israel's air force must protect the country while her reservists are mobilized. By providing Jordan with aircraft that can fly from Jordan to Jerusalem in less than 10 minutes, this arms sale would enable Jordan to drive a hole through Israel's air force defense. When the aircraft we propose to sell to Jordan is considered in conjunction with other Arab air forces, it poses an even greater threat. Jordan's combat aircraft would provide a high quality addition to total Arab air forces, which, excluding Egypt, exceed 2,100 planes.

In light of this military threat, there is no good reason to given weapons to Jordan when Jordan has given only lip service to the peace process. Israel is entitled to more than Jordan's promises that these weapons will not be used against her. Those promises have been made and broken before. And when Jordan breaks her word, Israel pays in blood.

We should not even consider arming Jordan until King Hussein sits face to face with Israel in bona fide negotiations. If King Hussein truly wants peace with Israel, he doesn't have to cross the Atlantic Ocean to meet with President Reagan. He only needs to cross the Jordan River to meet with Prime Minister Peres.

The prospect of the United States arming Israel's enemies not only threatens Israel militarily; it could cause irreparable damage to an already fragile economy. Building up Jordan's arsenals will require Israel to spend even more of her limited resources on defense. And Israel's economy, though recovering, is still in trouble.

Keeping Israel strong is in America's own national security interests. Israel is a valuable source of intelligence about the Middle East and Eastern Europe. And Israeli military experience yields critical information on how American and Soviet equipment performs in battle. Our alliance with Israel means America can count on the use of Israeli air bases and seaports in the event of a conflict in the region. Alone among the nations of the Middle East, Israel offers strategic value, military sophistication, political stability, and deep and abiding ties of emotion and tradition. We should not jeopardize the security of this valued ally without good reason. Thus far, I have heard none.

Weapons of war rarely promote the business of peace. Under present circumstances, they clearly do not. Until Israel and Jordan are engaged in negotiations, we should not go forward with this arms sale. I urge my colleagues to support this resolution, and to return in several months to disapprove this sale if no progress has been made in the interim.

Mr. KERRY. Will the chairman yield for one question?

Mr. LUGAR addressed the Chair.

The PRESIDING OFFICER. The Senator from Indiana is recognized.

Mr. LUGAR. I have a few seconds, and I will yield if I am able to get my point across. First of all, I ask unanimous consent that Senator DOMENICI and Senator STEVENS be added as cosponsors.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. LUGAR. Mr. President, let me respond quickly. There are no expedited procedures under the current situation. I think it is a mistake really to get into that discussion. We are not going to add them apparently before March 1, because I have objected. I would just say Senators retain all of their rights. The clock, instead of ticking until 30 days from now, will now tick until March 1, 1986, and motions of disapproval, as the majority leader has pointed out, will be honored.

Mr. KERRY. Will the chairman yield for a question?

Mr. LUGAR. I will be happy to yield.

Mr. KERRY. Mr. President, I would state very quickly that I share my colleague's concern about this, and that while the majority leader has expressed his willingness to join with us in guaranteeing that there will be no effort to prevent a resolution of disapproval should there be a turnaround immediately after the March 1 date, I would like to know from the chairman of the committee if it would be his intention to join with us in that effort at that time, and that he also would not stand in the way of such an action of disapproval?

Mr. LUGAR. Mr. President, let me respond respectfully that I do not know what the contingencies or hypothetical situations might be on March 1, 1986. As always, I will try to entertain the viewpoints of members of our committee, as we attempted to do yesterday and today, and try to bring about a situation that conforms as best as I can to their will. But I do not know what the situation will be then, and I do not want misconstrued an advance commitment.

Mr. KERRY. I would simply state my wholehearted opposition. Obviously, as the chairman knows, we have discussed this. I am willing to join in the effort to delay it, obviously, but certainly, as the Senator from Connecticut, I do not want to be prejudiced in our current position as a consequence of doing that.

Mr. LUGAR. Mr. President, I ask unanimous consent that Senator HAWKINS be added as a cosponsor.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. LUGAR. Mr. President, I ask for the yeas and nays.

The PRESIDING OFFICER. The yeas and nays have been ordered previously. All time has expired.

The question is on the engrossment and third reading of the joint resolution.

The joint resolution was ordered to be engrossed and to be read a third time.

The PRESIDING OFFICER. The question is now on agreeing to the joint resolution. The yeas and nays have been ordered. The clerk will call the roll.

The legislative clerk called the roll.

Mr. SIMPSON. I announce that the Senator from Oregon [Mr. HATFIELD] is necessarily absent.

Mr. CRANSTON. I announce that the Senator from New Jersey [Mr. BRADLEY] is absent on official business.

The result was announced—yeas 97, nays 1, as follows:

[Rollcall Vote No. 250 Leg.]

NOT VOTING—2

Bradley Hatfield

So the joint resolution (S.J. Res. 228) was agreed to, as follows:

S.J. RES. 228

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That prior to March 1, 1986, no letter of offer shall be valid with respect to any of the proposed sales to Jordan of advanced weapons systems, including advanced aircraft and advanced air defense systems, that are described in the notification pursuant to section 36(b) of the Arms Export Control Act submitted to the Congress on October 21, 1985, unless direct and meaningful peace negotiations between Israel and Jordan are underway.

Mr. DOLE. Mr. President, I move to reconsider the vote by which the resolution was agreed to.

Mr. LUGAR. Mr. President, I move to lay that motion on the table.

The motion to lay on the table was agreed to.

The PRESIDING OFFICER. The majority leader is recognized.

Mr. DOLE. Mr. President, I call for the regular order.

THE CONSOLIDATED OMNIBUS BUDGET RECONCILIATION ACT OF 1985

The PRESIDING OFFICER. The clerk will state the pending business by title.

The assistant legislative clerk read as follows:

A bill (S. 1730) to provide for reconciliation pursuant to section 2 of the first concurrent resolution on the budget for fiscal year 1986.

The Senate resumed consideration of S. 1730.

Mr. DOLE. Mr. President, could I indicate that there are 5 hours and 18 minutes remaining on the reconciliation bill. Of course, rollcall votes will not count against that time. I know there are a number of amendments, 22 amendments that the chairman of the Budget Committee is aware of, and there may be others.

So I suggest we have our work cut out for us for the remainder of the day. If we should finish fairly early in the evening, we will go back to the State, Commerce, and Justice Department appropriations bill. If not, we will resume work on that tomorrow morning.

We are trying to work out some arrangement on the farm bill that will permit us to take up a number of amendments tomorrow and Monday, if we can work it out so Senators will be here to offer the amendments. If there are votes required we could postpone those votes to accommodate some of our colleagues who would like to be observers in Geneva on Friday and Monday. If we cannot work it out, then we will have votes tomorrow and Monday.

So I have been discussing that with the distinguished minority leader and we have not yet made any agreement.

Mr. BYRD. Mr. President, will the distinguished majority leader yield?

Mr. DOLE. I yield.

Mr. BYRD. The distinguished majority leader has been very lenient in accommodating Senators on both sides of the aisle, who get to the Chamber after the 15 minutes allowed for the rollcall have expired.

Today he has called for the regular order on one or two occasions. He has a right to do that. I can understand his frustration when rollcalls consume 18 minutes, 25 minutes, 28 minutes, 30 minutes.

But Senators have become accustomed to the extension of that 15 minutes.

I would hope if the distinguished majority leader is going to call for the regular order, and he should do it—I do not challenge that, and I do not question the wisdom of it—but if he is going to do that, I would like for Senators on both sides to be put on notice now so that they will get here within the 15 minutes and not show up just a minute or two later and not be able to vote. I support shortening the rollcalls, but all Senators should be given advance notice that the regular order will be called for when the time is up from here on.

Mr. DOLE. I do not disagree with that. In fact, we have always—even today we let it go over 4 minutes each time, so it is really about 19 minutes and we had Senators pressing on the other side with planes to catch, witnesses waiting in the committee, and we were all waiting for Senators to show up to vote.

So, as the distinguished minority leader knows, it is not always just because you want to blow the whistle on someone. It is someone else pushing you to pull the plug.

Mr. CRANSTON. Mr. President, will the Senator yield?

Mr. DOLE. I am happy to yield.

Mr. CRANSTON. Mr. President, I applaud the efforts of the majority leader to get back to 15-minute rollcalls. We are wasting a tremendous amount of time on longer ones. I hope once the word is out we will stick to 15 minutes.

Mr. DOLE. I know as to my distinguished former friend from Minnesota, Senator BOSCHWITZ, we broke his perfect batting average today and it is very difficult.

So we do not do it with any intention to frustrate someone. But I think it is fair to say we are going to start trying to restrict these votes.

The Senator from Arizona, Senator GOLDWATER, told me a while ago we spent 2 weeks last year on rollcalls when you add up the time. About half that time was waiting for one person to come in.

Again there are going to be times when obviously we will have to make compensations but I think we all should be on notice because all of us would like to leave fairly early this year sometime. We are probably going to stick to that 15-minute rule.

Mr. DOMENICI. Mr. President, before I yield the floor, let me inform Senators that we are now on reconciliation. They heard the leader indicate that we have slightly over 5 hours. The time is about equally divided.

I am now aware of 22 amendments and they are coming in rather rapidly now that we are nearing the end of the 20 hours.

We also have the very difficult problem of the extraneous amendments, which has not been resolved. Everyone knows there are many of them. I do not yet know how this problem is going to be resolved.

Clearly we are going to have a lot of votes at the end of the process, but they will be stacked because there will be no time for debate remaining.

I urge Senators who have amendments to get them to us. Even though I already know of 22, we are going to try to accommodate as many Senators, on both sides, as possible. So if Senators have some amendments and wonder whether they are on the list, the list is right here. We will xerox it and make it available to more Senators. If Senators have additional amendments we would be pleased to try to accommodate them.

The PRESIDING OFFICER. The Senator from South Carolina is recognized.

AMENDMENT NO. 875

(Purpose: To achieve the objectives of the Multi-Fiber Arrangement, to promote the economic recovery of the U.S. textile and apparel industry and its workers, to reduce unemployment, and for other purposes)

Mr. HOLLINGS. Mr. President, on behalf of our distinguished colleague, Senator THURMOND, and myself, I send an amendment to the desk and ask for its immediate consideration.

The PRESIDING OFFICER. The amendment will be stated.

The legislative clerk read as follows:

The Senator from South Carolina [Mr. HOLLINGS], on behalf of Mr. THURMOND and himself, proposes an amendment numbered 875.

Mr. HOLLINGS. Mr. President, I ask unanimous consent that reading of the amendment be dispensed with.

Mr. EVANS. Mr. President, I object.

The PRESIDING OFFICER. Objection is heard.

The clerk will continue to read the amendment.

The legislative clerk resumed reading the amendment.

Mr. EVANS. Mr. President, I ask unanimous consent that further reading of the amendment be dispensed with.

The PRESIDING OFFICER. Is there objection? Hearing no objection, it is so ordered.

The amendment reads as follows:

At the appropirate place, insert the following:

TEXTILE AND APPAREL TRADE ENFORCEMENT

"SEC. 201. SHORT TITLE.

"This title may be cited as the 'Textile and Apparel Trade Enforcement Act of 1985'.

"SEC. 202. POLICY.

"The policy of this title is—

"(1) to prevent further disruption of the United States textiles and textile products markets, damage to United States textile and apparel manufacturers, and loss of jobs by United States workers by providing for orderly and nondisruptive growth of imports of textiles and textile products; and

"(2) to implement the objectives of the Multi-Fiber Arrangement by requiring the effective enforcement of import levels of textiles and textile products contemplated by the Multi-Fiber Arrangement.

"SEC. 203. FINDINGS.

"The Congress finds that—

"(1) the United States and most major textile producing countries are parties to the Multi-Fiber Arrangement, the purpose of which is to ensure the orderly growth of imports of textiles and textile products and to avoid disruption of the markets for textiles and textile products in importing nations;

"(2) the Multi-Fiber Arrangement, which first entered into force on January 1, 1974, and which was most recently extended in December 1981, through July 1986, contemplates a 6 per centum annual rate of growth for imports for most exporting countries and provides for a lower rate of growth for imports from significant exporting countries;

"(3) since 1980, the objective of orderly growth of imports of textiles and textile products for in the Multi-Fiber Arrangement has not been achieved; from 1981 through 1984 imports of textiles and textile products into the United States have grown at an annual rate of 19 percentum, far in excess of the 1 per centum growth rate of the United States market for textiles and textile products during the same period and far in excess of the annual rate of import growth of less than 2 per centum that prevailed during the period 1974 through 1980;

"(4) the disruptive surge in imports of textiles and textile products which occurred from 1981 through 1984 resulted from the failure of the United States to enforce adequately its rights under the Multi-Fiber Arrangement and to extend coverage of the Multi-Fiber Arrangement to imports made of competing fibers;

"(5) import growth of apparel products has substantially outstripped the growth of the domestic market so that import penetration of the domestic market has more than doubled in the last six years, reaching a level of 50 per centum in 1984;

"(6) based on a nationwide audit of major retail outlets, the import penetration of such major items of apparel as trousers, blouses, shirts, suits, skirts and sweaters exceeds 50 per centum of domestic consumption;

"(7) since the most recent extension of the Multi-Fiber Arrangement, certain exporting countries have sharply increased their exports of textiles and textile products made in whole or in part from fibers not subject to the Multi-Fiber Arrangement with the effect of circumventing restraints agreed to under the Arrangement; the increased imports of these textiles and textile products have caused disruption of the United States market for textiles and textile products and have seriously undercut the effectiveness of the Multi-Fiber Arrangement;

"(8) imports of textiles and textile products into the United States are predominantly the product of significant exporting countries, with five large exporting countries now accounting for more than 50 per centum of all imports of textiles and textile products;

"(9) the domination of import trade by producers in the significant producing countries has limited participation in the United States market by other producing countries, many of which share important trade and other national interests, and encourage mutually beneficial trade and investment, with the United States;

"(10) a change in United States textile trade policy to afford the smaller producing countries and countries in the Caribbean region a relatively greater share of imports of textiles and textile products would promote the national economic interests of the United States;

"(11) the textile and apparel trade deficit of the United States was more than $16,200,000,000 in 1984, an increase of 53 per centum over 1983, and accounted for 13 per centum of the Nation's overall merchandise trade deficit;

"(12) the current level of imports of textiles and textile products, ten billion square yard equivalents in 1984, represents over one million job opportunities lost to United States workers;

"(13) imported textiles and textile products now account for 38 per centum (the equivalent of three million two hundred thousand bales of cotton) of the annual cotton consumption in the United States; only one of five of the bale equivalents included in imported textiles and textile products is grown in the United States; the result of the massive increases in cotton textile and apparel imports has been a declining market share for, and a $1,000,000,000 loss to, domestic cotton producers in 1983 alone, which was only partially offset by Federal cotton program benefits; another result is that United States cotton producers, who are spending about $20,000,000 annually in research and promotion efforts, have built markets not for themselves but for foreign growers;

"(14) imports of wool products have doubled since 1980, creating major disruptions among domestic wool products producers and seriously depressing the price of United States produced raw wool; the Multi-Fiber Arrangement recognizes that imports of certain products, such as wool products, in certain countries, including the United States, pose particular problems for certain industries, such as, the wool products industries in those countries and import growth rates of 1 per centum or less have been permitted in such cases;

"(15) as a result of this increased penetration and the very limited growth of the domestic market, the United States companies producing textiles and textile products identical, or similar, to those imported have been seriously damaged, many of them have been forced out of business, many have closed plants or curtailed operations, workers in such companies have lost employment and have been otherwise materially and adversely affected, and serious hardship has been inflicted on hundreds of impacted communities causing a substantial reduction in economic activity and lost revenues to local governments;

"(16) the increase in imports and increased import penetration of the United States domestic market have occurred notwithstanding the fact that, through extensive modernization programs and investment in more modern equipment, productivity, as measured by output per man hour, in the textile mill products sector has increased in the last ten years at the average annual rate of 4.2 per centum and in the apparel sector at the average annual rate of 3.4 per centum; as compared with the lower productivity growth of all manufacturing in the same period of 1.9 per centum;

"(17) the factors described above are causing serious damage, or the actual threat thereof, to domestic producers of textiles and textile products; as a result, market disruption exists in the United States requiring the new measures established under this Act;

"(18) based on experience during the past ten years and on other factors, the growth of the United States market for textiles and textile products is unlikely to exceed an average annual rate of 1 per centum during the next several years;

"(19) if the rate of growth of imports of textiles and textile products into the United States that occurred since 1980 continues, plant closings will continue to accelerate, leaving the United States market with reduced domestic competition for imported products;

"(20) in order to avoid further market disruption and deterioration of the situation confronting the United States industry producing textiles and textile products, which is already seriously damaged, it is essential—

"(A) to require the establishment of import levels for textiles and textile products supplied by major producing countries that reflect—

"(i) the import level that would have occurred had imports from these countries grown since 1980 by the 6 per centum annual growth rate contemplated by the Multi-Fiber Arrangement, or 1 per centum in the case of wool products, or

"(ii) the actual import level resulting from restraints under a bilateral agreement with the United States providing for an annual import growth rate of less than 6 per centum, whichever is the lesser,

"(B) to require the establishment of import levels for textiles and textile products supplied by producing countries that reflect their 1984 import levels,

"(C) to require the establishment of import levels for textiles and textile products supplied by small producing countries that provide a significant increase in their market shares to meet their development needs and to permit future growth in such shares consistent with the Multi-Fiber Arrangement, and

"(D) to limit the future growth rate of imports of textiles and textile products into the United States to levels which reflect orderly growth as provided for in the Multi-Fiber Arrangement and the most recent Protocol extending the Multi-Fiber Arrangement;

"(21) the establishment of import levels, and limitation on future import growth to levels, that reflect effective enforcement of the Multi-Fiber Arrangement and that also reflect the expected growth rate of the United States market for textiles and textile products will fulfill announced policy objectives of the United States regarding trade in textiles and apparel;

"(22) as the Department of Defense has long recognized, a strong, viable and efficient domestic textiles and textile products industry is essential in order to avoid impairment of the national security of the United States;

"(23) the developments that have led to the sharp increase in imports of textiles and textile products since 1980 may not have been foreseeable; nevertheless, the rights of the United States under international agreements should have been invoked in order to prevent increased quantities of textiles and textile products from being imported under such conditions as to cause or threaten serious damage to domestic producers of textiles and textile products in the United States; and

"(24) the sharp increase in imports of textiles and textile products since 1980, and the effect of this increase on the United States textiles and apparel industry and its workers, constitutes exceptional circumstances within the meaning of the Milti-Fiber Arrangement and its Protocol.

"SEC. 204. DEFINITIONS.

"For purposes of this title—

"(1) The term "Textiles and textile products" includes, but is not limited to, all manmade fibers, tops, yarns, piece goods, made-up articles, apparel, and other textile manufactured products (which derive their chief characteristics from their textile components) made in whole or in part from any natural or manmade fiber, or blend thereof, that are classified under schedule 3, part 6 of schedule 6, part 1, 4, 5 (except subpart E), 7, or 13 of schedule 7, or part 1 of schedule 8 of the Tariff Schedules of the United States or part 1 of the Appendix to the Tariff Schedules of the United States;

"(2) The term "category" means, with respect to textiles and textile products that are the product of a country, each of the following—

"(A) each category of textiles and textile products identified by a three-digit textile category number in the Department of Commerce publication "Correlation: Textile and Apparel Categories with Tariff Schedules of the United States Annotated", dated January 1985 and, subsequently, in the first edition of such document that is revised to reflect the adoption by the United States of the Nomenclature Structure of the Harmonized System;

"(B) with respect to each country with which the United States has (i) an agreement on the date of enactment of this title limiting exports of textiles and textile products to the United States that includes specific limitations on subdivisions of a category described in subparagraph (A), or (ii) taken unilateral action to limit products entered under such a subdivision, each such subdivision;

"(C) a category consisting of the manmade fiber products classified under subpart E of part 1 of schedule 3 to the Tariff Schedules of the United States; and

"(D) each category consisting of each of the following products when, because of any fiber content, that product is not subject to the Multi-Fiber Arrangement:

"(i) yarn,

"(ii) fabric,

"(iii) apparel, and

"(iv) other textile products;

"(3) The term "import sensitive category" means—

"(A) a category (other than a category applicable to textiles and textile products that are a product of a country in the Caribbean region) for which the ratio of imports to domestic production, as reported in the Department of Commerce publication "U.S. Production, Imports and Import/Production Ratios for Cotton, Wool and Man-Made Fiber Textiles and Apparel", equals or exceeds 40.0 for the preceding calendar year; and

"(B) a category covering wool products;

"(4) The term "country" means a foreign country (other than Canada and the Member States of the European Economic Community as constituted on December 31, 1984), a foreign territory, an insular possession of the United States, or any other territory, possession, colony, trusteeship or political entity, whether affiliated with the United States or not, that is outside the customs territory of the United States;

"(5) The term "major producing country" means a country the annual aggregate quantity of textiles and textile products of which that entered under the categories referred to in paragraph (2)(A) during calendar year 1984 equalled or exceeded 10 percent of all textiles and textile products under such categories that entered from all countries and from Canada and the Member States of the European Economic Community during calendar year 1984;

"(6) The term "producing country" means a country (other than a major producing country and a country in the Carribean region) the annual aggregate quantity of textiles and textile products of which that entered under the categories referred to in paragraph (2)(A) during calendar year 1984 equalled or exceeded 1.25 per centum of all textiles and textile products under such categories that entered from all countries and from Canada and the Member States of the European Economic Community during calendar year 1984;

"(7) the term "small producing country" means a country other than a major producing country and a producing country;

"(8) The term "country in the Caribbean region" means Mexico and a country eligible for designation as a beneficiary country under section 212 of the Caribbean Basin Economic Recovery Act (19 U.S.C 2702);

"(9) The term "wool product" means an article containing over 17 per centum by weight of wool;

"(10) The term "cotton, wool and manmade fiber sweaters" means articles classified under categories 345, 445, 446, 645 or 646 as defined in the Department of Commerce publication "Correlation Textile and Apparel Categories with Tariff Schedules of the United States Annotated," dated January 1985;

"(11) The term "entered" means entered, or withdrawn from warehouse, for consumption in the customs territory of the United States;

"(12) The term "imported" means entered; and

"(13) The term "Multi-Fiber Arrangement" means the Arrangement Regarding International Trade in Textiles, as extended by the Protocol done at Geneva, December 22, 1981.

"SEC. 205. LIMITS ON TEXTILE AND APPAREL IMPORTS.

"(a) CALENDAR YEAR 1985.— Notwithstanding any other provision of law, the aggregate quantity of textiles and textile products classified under a category that is entered during calendar year 1985 shall not exceed—

"(1) in the case of textiles and textile products that are a product of a major producing country other than textile luggage and textile flat goods subject (as of the date of enactment of this Act) to a specific limitation under an agreement with a major producing country, the lesser of an amount equal to 101 per centum—

"(A) of the aggregate quantity of such products of such country classified under such category that would have entered during calendar year 1984 if the aggregate quantity of such products of such country classified under such category entered during calendar year 1980 had increased by 6 per centum annually, or 1 per centum annually in the case of a category covering a wool product, during calendar years 1981, 1982, 1983, and 1984, or

"(B) If the United States has an agreement with such country providing for an annual growth rate for such category of less than 6 per centum, of the aggregate quantity of such products of such country classified under such category that entered during calendar year 1984;

"(2) in the case of textile luggage and textile flat goods subject (as of the date of enactment of this Act) to specific limitation under an agreement with a major producing country, the specific limitation quantity in effect as of the date of enactment of the Act;

"(3) in the case of textiles and textile products that are a product of a producing country, an amount equal to the aggregate quantity of—

"(A) such products from such country classified under such category that entered during calendar year 1984, or

"(B) in the case of textile luggage and textile flat goods subject (as of the date of enactment of this Act) to specific limitation under an agreement with a producing country, the specific limitation quantity in effect as of the date of enactment of this Act;

"(4) in the case of textiles and textile products that are a product of a small producing country (other than cotton, wool, and man-made fiber sweaters described in paragraph (5)), an amount equal to the sum of—

"(A) the aggregate quantity of such products of such country classified under such category that entered during calendar year 1984, plus

"(B) an amount equal to—

"(i) 15 per centum of such quantity, in the case of a category that is not an import sensitive category, or

"(ii) 1 per centum of such quantity, in the case of a category that is an import sensitive category; and

"(5) in the case of cotton, wool and manmade fiber sweaters that are—

"(A) the product of substantial assembly operations in Guam from otherwise completed knit-to-shape component parts, an aggregate amount equal to 160,000 dozen; and

"(B) the product of substantial assembly operations in the Commonwealth of the Northern Mariana Islands from otherwise completed knit-to-shape component parts, an aggregate amount equal to 70,000 dozen.

"If application of paragraph (1) would result in the aggregate quantity of textiles and textile products of a major producing country classified under all categories permitted to enter during calendar year 1985 to be less than 70 per centum of the aggregate quantity of such products of such country that entered during calendar year 1984, then, notwithstanding paragraph (1), the aggregate quantity of textiles and textile products of such country that may be entered under each category during calendar year 1985 shall not be less than 40 per centum of the aggregate quantity of such products of such country that entered under such category during calendar year 1984.

"(b) GROWTH ADJUSTMENT.—For calendar years after 1985, the aggregate quantity of textiles and textile products classified under each category that may be entered during each such calendar year shall—

"(1) in the case of such products that are a product of a major producing country or of a producing country, be increased by an amount equal to 1 per centum of the aggregate quantity that could be entered under such category during the preceding calendar year; and

"(2) in the case of such products that are a product of a small producing country, be increased by an amount equal to—

"(A) in the case of a category (other than an import sensitive category), 6 per centum of the aggregate quantity that could be entered under that category during the preceding calendar year, and

"(B) in the case of an import sensitive category, 1 per centum of the aggregate quantity that could be entered under that category during the preceding calendar year.

"If the aggregate quantity that could be entered under a category for a calendar year after 1985 is reduced under section 210(b), than in the first calendar year in which there is no such reduction, this subsection shall be applied as if there had been no reduction under section 210(b) in previous calendar years.

"(c) MINIMUM QUANTITIES.—If, under subsection (a) or (b), the aggregate quantity of textiles and textile products of a country that may be entered during a calendar year under a category is—

"(1) less than one million square yard equivalents, in the case of a category covering yarn, fabric, made-ups, and miscellaneous products, other than wool products;

"(2) less than seven hundred thousand square yard equivalents, in the case of a category covering apparel, other than wool products apparel; or

"(3) less than one hundred thousand square yard equivalents, in the case of a category covering wool products,

"then, notwithstanding subsection (a) or (b), the aggregate quantity of textiles and textile products that may be entered from such country under such category during the calendar year shall be one million, seven hundred thousand, or one hundred thousand square yard equivalents, respectively. The amount prescribed in the preceding sentence shall be accorded growth subject to the provisions of subsection (b) beginning the first calendar year after the aggregate quantity of imports from such country under such category equals the minimum quantity prescribed under this subsection.

"(d) SPECIAL RULE.—For purposes of this section, if during any calendar year after 1984, the aggregate quantity of textiles and textile products that are the product of a small producing country, other than a country in the Caribbean region, and that are entered under the categories referred to in paragraph (2)(A) of section 204 equals or exceeds 1.25 per centum of all textiles and textile products entered under such categories from all countries and from Canada and the Member States of the European Economic Community during such calendar year, then such small producing country shall be considered to be a producing country for all succeeding calendar years.

"(e) ENFORCEMENT.—The Secretary of Commerce shall prescribe such regulations governing the entry, or withdrawal from warehouse, for consumption of textiles and textile products as may be necessary to carry out this title.

"SEC. 206. IMPORT LICENSING.

"In order to ensure the equitable and efficient administration of section 205 of this title, the Secretary of Commerce shall, within six months after the date of enactment of this title, establish and administer an import licensing system under which an importer of any textiles and textile products from any country and from Canada and the Member States of the European Economic Community, will be required to present an import permit as a condition of entry. The Secretary shall charge a fee for import licenses in such amount as may be necessary to cover the cost of administration of the system.

"SEC. 207. ANNUAL REPORT.

"Not later than March 15, 1986, and March 15 each calendar year thereafter, the President shall submit to the Congress a report on the administration of this title during the preceding calendar year. Such report shall include detailed information about the implementation and operation of the limitations established under section 205. All departments and agencies shall cooperate in preparation of this report, as requested by the President.

"SEC. 208. REVIEW.

"The Secretary of Commerce shall commence ten years after the date of enactment of this title a formal review of the operation of the Textile Import Control Program under the provisions of this title. The Secretary shall consult members and committees of Congress, representatives of the labor unions and the industries affected by the program, and appropriate government agencies. Within six months after the commencement of the study, the Secretary shall submit to Congress his findings as well as his recommendations for the future conduct of the program.

"SEC. 209. DUTY FREE ENTRY OF CERTAIN SWEATERS FROM GUAM AND THE NORTHERN MARIANAS.

"Subpart A of part 7, schedule 3 of the Tariff Schedules of the United States (19 U.S.C. 1202) is amended by adding at the end thereof the following new item:

"385.97	Cotton, wool and man-made fiber sweaters that are entitled to enter under the quotas established under section 205(a)(5) of the Textile and Apparel Trade Enforcement Act of 1985 or the increased quotas under section 205(b) of such Act that adjust the quotas under such section 205(a)(5) and that do not contain foreign materials to the value of more than 50 percent of their total value as this standard is applied pursuant to Headnote 3(a) of the General Headnotes and Rules of Interpretation.	Free

"SEC. 210. EFFECTIVE DATE.

"(a) IN GENERAL.—Subject to the provisions of subsection (b), the provisions of this title shall apply to textiles and textile products entered, or withdrawn from warehouse, for consumption on or after the date of enactment of this Act.

"(b) CALENDAR YEARS 1985 AND 1986.—The Secretary of Commerce shall determine, and publish in the Federal Register, the aggregate quantity, if any, of textiles and textile products that may be entered under section 205(a) or (c) of this title from each country under each category during the period beginning on the date of enactment of this title and ending December 31, 1985. Notwithstanding subsection (a), to the extent that the aggregate quantity of imports of textiles and textile products from a country under a category entered after December 31, 1984, and before the date of enactment of this title exceeds the quantity permitted entry for such country and such category during calendar year 1985 under subsection (a) or (c) of section 205, then the limit that would otherwise apply under section 205(b) for such category for such country for calendar year 1986 shall be reduced by the amount of such excess quantity. If such excess quantity exceeds the limit that would otherwise apply under section 205(b) for such category for such country for calendar year 1986, then the limit for such category and country for calendar years after 1986 shall be reduced until such excess is accounted for.

"TITLE III—FOOTWEAR

"SEC. 301. SHORT TITLE

"This title may be cited as the 'American Footwear Industry Recovery Act of 1985'.

"SEC. 302. FINDINGS AND PURPOSE.

"(a) The Congress finds that—

"(1) The domestic nonrubber footwear industry is important to the national economy, and footwear firms are vital to the economic health of small towns throughout the United States.

"(2) The domestic nonrubber footwear industry is highly labor intensive, and low capital requirements for entry into footwear production make it a primary target for industrializing on newly industrialized countries. As a consequence, footwear is produced in virtually every footwear consuming country in the world.

"(3) Tremendous competitive pressure has been created in the world footwear market in the last decade as a result of rapidly growing production and capacity in numerous developing and developed countries. This development has resulted in the widespread erection of tariff and nontariff barriers by foreign countries designed to protect their domestic footwear industries.

"(4) The United States has historically resisted the protectionist trends of other producing nations and has instead maintained a market distinguished by its accessibility. As a result, the United States market has become a focal point for world trade in nonrubber footwear.

"(5) The diversion of international trade to the United States market has resulted in serious injury to domestic producers as manifested by—

"(A) the loss of 155,000 footwear jobs since 1968,

"(B) a decline in domestic production and production capacity, and

"(C) the permanent closure of over 500 plants during the same period.

"(6) The serious injury to domestic producers poses a significant danger to the industry's supplier base as well.

"(7) The domestic nonrubber footwear producers have made a significant commitment to the future of the industry through substantial capital investment.

"(8) Since the termination of temporary import relief in 1981, capital investment in the domestic nonrubber footwear industry has declined as the industry struggled to battle the massive surge in imports which increased the percentage share of imported footwear in the United States market from 51 percent in 1981 to 77 percent in 1985.

"(9) Without the restriction of import levels, capital investment in this domestic industry will continue to decrease.

"(10) The domestic nonrubber footwear industry has thrice been judged by the International Trade Commission, as recently as May 1985, to be seriously injured by imports.

"(11) Since the termination of the two, four-year orderly marketing agreements in 1981, the harm to the domestic industry is even more critical than the serious injury which triggered the Commission's unanimous findings in 1976 and 1977.

"(12) The domestic nonrubber footwear industry has not been afforded adequate and appropriate relief from imports; therefore, the Congress concludes that—

"(A) the administrative process under sections 201, 202, and 203 of the Trade Act of 1974 has proven inadequate; and

"(B) in the absence of and effective remedy under such process, legislative relief is essential.

"(b)(1) It is the purpose of Congress in enacting this section to—

"(A) promote and expend the economic health of the United States nonrubber footwear industry,

"(B) preserve the jobs of American workers, and

"(C) prevent the further decline of this important domestic industry.

"(2) It is declared to be the policy of Congress that access to the United States market for foreign-produced nonrubber footwear should be on an equitable basis to ensure orderly trade in nonrubber footwear, reduce unfair trade in nonrubber footwear, and address United States balance-of-payments problems, or which footwear is the seventh largest component. In order to accomplish these objectives, it is deemed necessary and appropriate to limit imports of nonrubber footwear into the United States market.

"SEC. 303. DEFINITIONS.

"For purposes of this title—

"(1) The term 'entered' means entered, or withdrawn from warehouse, for consumption in the customs territory of the United States.

"(2) The term 'Secretary' means Secretary of Commerce.

"(3) The term 'nonrubber footwear' means the following categories of nonrubber footwear products, identified by reference to the following item numbers of the Tariff Schedules of the United States (as in effect on January 1, 1985): 700.05 through 700.45; 700.56; 700.72 through 700.83; and 700.95.

"(4) The term 'apparent domestic consumption' means, with respect to any 1-year period, the sum of imports plus domestic production less exports.

"SEC. 304. QUANTITATIVE LIMITATION ON NONRUBBER FOOTWEAR.

"(a)(1) During the 8-year period beginning on the date of enactment of this title, the aggregate number of pairs of nonrubber footwear which may be entered during any 1-year period shall not exceed 60 percent of the estimated apparent domestic consumption of nonrubber footwear for such period.

"(2) The quantitative limitation imposed by paragraph (1) for any 1-year period shall be distributed among the following categories of nonrubber footwear so that the aggregate number of pairs of nonrubber footwear in such category which may be entered during any 1-year period shall not exceed the quantity equal to—

"(A) in the case of nonrubber footwear with a customs value that does not exceed $1.25 per pair, 10 percent of apparent domestic consumption of nonrubber footwear for such period,

"(B) in the case of nonrubber footwear with a customs value that exceeds $1.25 per pair but does not exceed $2.50 per pair, 5.4 percent of apparent domestic consumption of nonrubber footwear for such period, and

"(C) in the case of nonrubber footwear with a customs value that exceeds $2.50 per pair, 44.6 percent of apparent domestic consumption of nonrubber footwear for such period.

"(b) Within sixty days after the effective date of this title, and on the first day of the fourth quarter of each 1 year period thereafter, the Secretary shall determine on the basis of the best information available, including his own or independent forecasts, the expected apparent domestic consumption of nonrubber footwear for, in the case of the initial determination, the remainder of the current 1 year period and in the case of the first day of the fourth quarter of each 1 year period thereafter, the next succeeding 1 year period. On each such date, the Secretary shall determine and publish in the Federal Register the allocation for the next succeeeding 1 year period of permissible imports of nonrubber footwear as required by this section.

"(c) On the first days of the first, second, and third quarters of each 1 year period, the Secretary shall revise the determinations of expected apparent domestic consumption made under subsection (b) for the current 1 year period on the basis of the best information then available and shall make such adjustments in the quantity of nonrubber footwear permitted to be imported under this section as indicated by the revision. All revisions and adjustments made under this subsection shall be published in the Federal Register.

"(d) If the revised determination of expected apparent domestic consumption published in the Federal Register under subsection (c) on the first day of the third quarter in any 1 year period for nonrubber footwear varies from the actual apparent domestic consumption of nonrubber footwear for such 1 year period, the Secretary shall publish in the Federal Register on the first day of the second quarter of such succeeding 1 year period a revision to the determination of expected apparent domestic consumption for such 1 year period made under subsection (c) of this section. The revision shall be in the amount of such variance and shall be in addition to any other revision that would be made on any such first day of the second quarter under subsection (c) of this section.

"(e)(1) The Secretary and the Secretary of the Treasury shall take such actions within their respective jurisdictions as may be necessary or appropriate to enforce the provisions of this section, including without limitation, the issuance of orders to customs officers to bar entry to merchandise if the entry of such merchandise would cause the limitations established under this section to be exceeded.

"(2)(A) The Secretary and the Secretary of the Treasury are each authorized to issue such implementing regulations, including the issuance of import licenses, as may be necessary or appropriate to effect the purposes of this section and to enforce the provisions of this section.

"(B) Before prescribing any regulations under subparagraph (A), the Secretary or the Secretary of the Treasury, as the case may be, shall—

"(i) consult with interested domestic parties,

"(ii) afford an opportunity for such parties to comment on the proposed regulations, and

"(iii) consider all such comments before prescribing final regulations.

"SEC. 305. COMPENSATION AUTHORITY.

"For purposes of section 123 of the Trade Act of 1974 (19 U.S.C. 2133), the imposition of the quantitative limitation under section 204 shall be treated as action taken under section 203 of the Trade Act of 1974 (19 U.S.C. 2253).".

Mr. HOLLINGS. Mr. President, so our colleagues will understand, we are not delaying rather we are trying to handle this important matter right on top of the table. It is my intent with this particular amendment to move for a waiver of the germaneness provisions under section 904(b) of the Budget Act at the appropriate time. I have talked with my distinguished colleague from Washington. We will have 30 minutes to debate the motion on either side, and thereafter there would be other amendments to my amendment. I hope that Senator THURMOND would be recognized because he has the real amendment we want to debate.

Mr. President, I would like to take 1 minute to explain why I am offering this amendment today.

Mr. President, the textile amendment I am offering today to the budget reconciliation legislation is the same as the one the Senate discussed at great length on October 2.

Mr. President, it is highly important that the Senate take immediate action on this bipartisan legislation so we can begin turning this trade problem around. We are now at the crisis stage, not only in textiles but in a whole range of industries. How much longer can we sit here in Washington and watch the erosion of this country's productive capacity—a $150 billion trade deficit and the loss of thousands of jobs each week?

We have a measure cosponsored by more than half the Members of the Senate and 300 Members of the House. Having been told by Senator DANFORTH that it would never get out of the Finance Committee, I filed it as an amendment on the compact of free association, the Micronesia compact. We considered it October 2, had a full debate on it, voted not to table it, and it was set aside for the time being.

So, because the Senate has already spent a considerable amount of floor time on this issue, I am offering the textile bill as an amendment to S. 1730 to ensure immediate consideration.

Mr. President, every day we fail to enact this legislation is another day of lost jobs and lost productivity. We have heard talk of quotas and free trade, and how we must stand pat against protectionism. But this measure is not protectionism, or tariffs, or quotas. This measure merely calls for the simple enforcement of our trade agreements.

Right now they are not being enforced. Further, the administration has not kept its commitment to hold import growth to the growth of the domestic market. If it had there would be no need for this legislation. But it has not. And in South Carolina alone we have lost 24,000 textile jobs.

But, as I said, this is not just an issue of textiles or South Carolina. We have got to start turning things around before this country becomes solely a consuming nation and not a producing one. It is going to take some reeducation about the productivity of the American worker, the mainte-

nance of our standard of living, and the truths of international trade.

Let us imagine for a moment that we are sitting in the board room of a large U.S. industrial corporation. We have been the leading manufacturer of our product for years—at least until now. The reason we are meeting is that our chief competitor has overtaken us. He used to work for us. We taught him how to produce, how to play the game. He is aggressive. He is a fighter. And now he has taken all of our techniques, improved upon them, and gone one up on us.

What do we do? Well, someone suggests that we get our act together and start competing—become more aggressive than this upstart competitor, beat him at his own game. But no, the board determines that we should not do that. "That would be unfair," it is decided. "He might get mad at us and retaliate."

Ridiculous? You bet it is. Is this the way corporate America does business? Of course not. When competition is the game, fairness is not an issue. Businesses compete, or die. Yet, sadly enough, this is how the American Government is doing business in the international marketplace. We're not competing. There is a fierce global competition out there, and our Government is just sitting on the sidelines while American industry is getting its hind quarters kicked.

If we are to faithfully and properly discharge our duties as Senators, then it is vitally important that we be able to separate myth from reality.

I know of no issue where the distinction is so crystal clear as it is in international trade.

What is the myth? The myth is that there is free enterprise on the world marketplace—that world trade is open and fair. This is not just a myth, it is a pipe dream.

There is no free enterprise on the world market, only government-to-government enterprise. The issue is not fairness or free trade, it is competitive trade. That is the reality. And anyone who refuses to recognize that reality is being fooled.

Nearly every one of our trading partners is taking strong measures to protect home markets from foreign imports. How free is free trade when Taiwan institutes 50-percent tariffs on textile imports? How free is it when American textile importers are required to obtain a license from the Korean Textile Association to do business in that country? And how free is free trade when countries such as India ban textile imports altogether?

And that is only talking about textiles. There are countless other examples. Just ask the businessmen in this country who have tried to sell their products overseas. You cannot get a license. There are endless regulations. There are high duties and tariffs.

American businessmen try to sell their aircraft in Brazil, and are met with strict licensing and a 60-percent duty. Yet in the United States, that same American company competes against imported aircraft from Brazil which aren't subject to any duties or import licensing restrictions.

Automobiles? A Congressional Research Service survey shows that 27 of 49 countries have adopted domestic content requirements. In Japan, it takes 4 months to get an American car off the dock and into the showroom. In France, it takes 1 year.

European governments now subsidize grain. Ten years ago, Europe was a net importer of the world's wheat. Last year, it exported 20 percent of the world's wheat.

The French are subsidizing wheat 25 percent, the Japanese are subsidizing rice 25 percent, and the Brazilians are subsidizing soybeans 25 percent. Earlier this year the People's Republic of China delivered corn in Los Angeles at 18 cents a bushel cheaper than Nebraska corn.

The Japanese are the masters of them all. Not too long ago, a U.S. vitamin-E exporter found that his product was suddenly reclassified from a food to a drug and could now only be sold through pharmacies. Japanese-manufactured vitamin-E, however, maintained its classification as a food. Moreover, the Japanese product was more expensive than the American vitamin-E. The Japanese Government cited a difference in the extraction methods between the two products as the reason for reclassification, which effectively barred the United States product from the Japanese market, but anyone else would tell you that any differences between the two were indistinguishable.

These countries are taking these measures not because they dislike us. They love us. They love our market. They love it because we keep it open to their industries while they shut their own markets to our industries. Good old Uncle Sam has become good old Uncle Sucker—he has forgotten how to compete. These trading partners of ours are doing right by themselves and they are benefiting from it. It is a fierce, competitive world out there, and to the victors belong the spoils.

I am not angry with the Japanese, the Brazilians, the Taiwanese, or any of our trading partners. I am not bashing any of them. I am trying to bash Washington. The Japanese did exactly what we wanted them to do after World War II. They looked to our example of productivity and they saw success. Over the years, their government instituted more and more protective trade measures, subsidies, and the like. What they now have is state-of-the-art protectionism, a model which other newly industrialized nations are emulating—government subsidies for research and development, trade barriers to protect developing industries, targeting foreign markets.

These practices have been used effectively against us for more than a decade. Only now, when Japanese robots are assembling foreign parts in American automobile plants, are we waking up to the danger. Only now, when dozens of newly industrializing nations are following Japan's lead, are we seeing the red flags. I should say, at least some of us are.

The most discouraging aspect of all this is the refusal on the part of the administration and some Members of this body to recognize that this Nation has a serious problem. Our trade deficit soars ever higher—$150 billion this year. We export our manufacturing jobs, 1½ million of them since 1981, and along with them we export our industrial muscle. These jobs are gone forever.

Years ago, the prevailing attitude was that semiskilled industries like textiles should go to developing nations. We in America would manufacture airplanes and computers. Today, airplanes are being manufactured in Europe—Pan Am just ordered 28 airbuses—and Japan now has 44 percent of our computer chip market. We are running out of things to make in this country. I know, they say "we'll be a service economy." That is what they told Great Britain at the end of World War II. "You'll be a nation of brains rather than brawn. Instead of producing products, you'll provide services." Now, sadly enough, England is a second-rate nation. They did not learn how to compete. And we are going the exact same route—to a service economy, taking in each other's wash and making hamburgers.

Yet when anyone here in Washington stands up for our productive capacity as a world power, he or she is sure to hear from a chorus of myna birds cackling "protectionism, protectionism, be fair, be fair." Well, the American people are sick and tired of watching their Nation sink ever lower toward Third World status while their leaders operate under a free trade policy that exists only in books. It must look to them like the Caine and the Bounty were in better hands.

When are we going to wake up and realize that the trade war began more than 20 years ago? When are we going to finally admit that there is no such thing as free trade on the global market? When are we going to look out for the standard of living in this country? And by "we" I mean the Government of the United States. The American people are ready. They are waiting for Government to follow.

I have had it up to here with those who will flaunt the word "protectionism" as if it were un-American to pro-

tect the highest standard of living in the world. Why has the word taken on such a perjorative meaning? We have the military to protect us from our enemies without. We have the FB to protect us from enemies within. We have unemployment compensation to protect us from the loss of our job, Social Security to protect us from the economic ravages of old age, safety laws to protect us from injury, environmental laws to protect the air we breathe, the water we drink. The paramount function of Government is the protection of its citizens.

So on one hand, we are forcing the manufacturers to assume the cost of maintaining this standard of living. Yet on the other hand, we are doing absolutely nothing to allow them to compete against industries from countries with a lower standard of living and thus lower operating costs. Our inaction and lack of reciprocity are what is driving American industries out of business. How can the textile manufacturer down in South Carolina—despite his tremendous mechanization and modernization—how can he compete with 18-cent-an-hour Shanghai labor?

Are we to lower our standard of living to 18 cents an hour to compete? Of course not. But that appears to be the only alternative offered by the "free traders."

Article I, section 8 of the U.S. Constitution states that Congress shall regulate commerce with foreign nations. Alexander Hamilton recommended protective tariffs in his "Report on Manufacturing" so the United States could develop an industrial base. That became the policy. In the 1930's, Cordell Hull fathered reciprocal free trade, emphasizing reciprocity for those who opened their markets to us and retaliation against those who did not. And the same Congress that provided this initiative also provided protective quotas for American agriculture. In 1935, we instituted the Export-Import Bank to subsidize our grain sales to Russia. And in 1955, President Eisenhower gave us oil import quotas to protect domestic oil producers.

These are the initiatives that the Japanese, and subsequently our other trading partners, have used as the foundation of their current policies. They have improved upon them to build a state-of-the-art model of protection.

America, in the meantime, has been going the other way. We have been playing by a different set of rules. We've been abandoning article I, section 8, and with it our birthright as a leading industrial nation. Sure, its a one-world international market. It is international competition. But industries in other countries are competing with their governments at their side. Our industries are at it alone.

I repeat, there is no such thing as free enterprise on the world market. It is government-to-government enterprise.

And the absolute shame of it all is to hear the economists and editorial writers tell us that it is all because deficits have created a strong dollar, or the American worker just isn't competitive enough, or the industries we are losing are outmoded, uncompetitive, and should go anyway. It's all a lot of hooey.

The deficits are part of the problem, but by no means are they the only part of it. The dollar has risen 40 or 50 percent against European currency, and for that reason we do not deal with Europe in this amendment. The problem there can only be dealt with by getting the deficits down, and God knows that is something I have been trying to accomplish for years.

But in Malaysia, the value of the dollar has risen 1.7 percent over a 4-year period. Textile imports from that country have gone up 227 percent.

In Thailand, the dollar has gone up 7.1 percent, but the increase in textile imports is 167 percent. Much of that, I might add, is in violation of our agreement.

Taiwan? The dollar is up 7.3 percent. Textile imports up 43 percent. No, the dollar is not the problem with these countries.

Nor is the problem our industries and our workers. The American industrial worker is still the most productive in the world. That is according to the Bureau of Labor Statistics. The problem is not with the American worker, it is with the American Government. The Japanese are pulling ahead because their Government is the most productive and the most competitive in the world. The U.S. Government is not producing and not competing.

The textile industry has invested $7.91 billion in modernization since 1980. Over the next 2 years it will be investing another $2 billion. It is the most competitive industry there is. But how can it effectively compete when the odds are so heavily stacked against it?

In August and September, I spent 5 weeks visiting 41 textile mills in South Carolina. I saw the research centers, the card rooms, the spinning, the weave rooms, the dye vats, the finished cloth, the finished garment, and the most modern styles.

Talk about productivity. I saw bales of cotton put on the ramp, and without the touch of a human hand go through the cards and then to the spinning machines. I saw open-end spinning machines "put up an end" instead of threading the machine by hand. I saw threads being joined by a jet of air. I saw modern looms with 550 picks. Today a worker punches a computer causing cloth to be dyed not just 20 or 30 shades of color, but 600 shades. The operator presses a button for a certain fabric, another button for a certain cut, and another for a certain style.

In the sewing operations, machines stamp pockets and collars and cuffs on the garments. I saw research equipment that rendered 42 decisions in 20 minutes, tests that formerly took 7 hours. Another machine takes a piece of fabric and prints out its components. In some plants, the air is cleaner inside than it is outdoors.

I saw an updated, modernized, automated industry that is setting the standard for productivity. But what we now have is an imbalanced situation. The textile industry is not looking for any special advantages of its own—only a chance to compete on a level field of play. The industry is not looking for quotas or tariffs—only a government that enforces the agreements and the laws that we already have on the books. Given a chance to compete, it can do the rest of the job itself.

The legislation I offer as an amendment is designed merely to bring about enforcement of the objectives of the Multi-Fiber Arrangement. Obviously, much more needs to be done if we are to stem the flow of imports and restore our productive capacity. There are a whole bunch of other laws already on the books designed to give our own industries a fair shake—countervailing duty, escape clause, and antidumping laws. What we lack is effective enforcement as part of an overall national trade policy.

There are 25 departments and agencies involved in trade. I have heard that there are some 300 bills filed to respond to individual trade problems. We really would not need any of these bills if we have some coordinated enforcement. The solution to this problem is coordination. We need a national trade council that will coordinate, orchestrate, and begin to enforce current law and any new laws that are passed.

And this is all I am asking for—enforcement. I recently read an article by Henry Kissinger in the Washington Post. His suggestion? Negotiate target trade balances with the Japanese. Negotiate! Mr. President, I am fed up with negotiations. We have already negotiated and we can continue to negotiate until we are blue in the face—but we are not going to accomplish anything if the agreements which result from these negotiations are not enforced. And that is precisely what is happening.

Sure, the Japanese will sit down and negotiate, just like they have in the past. They sit around and jawbone. They tell us how concerned and worried they are. But then they just continue to do what is required to keep

their competitive position and their ascendancy and predomination. Their Government continues to subsidize, finance, license, inspect—anything necessary to protect their markets while they invade ours.

Negotiate! I will tell you where negotiations have gotten us. In a recent study of our bilateral trade agreements and the Multi-Fiber Arrangement, the House Subcommittee on Commerce, Consumer, and Monetary Affairs found that some of our trading partners are skirting the agreements through transshipment. Transshipment is a practice under which one country which has reached its quota limit will ship its goods to the United States by way of another country which either does not have a quota or has not used its entire quota.

The subcommittee reports that this practice has now become widespread, and indicates that transshipment through Japan is the most extensive. Quoting the report: "A serious problem exists in transshipments of textiles and apparel from Republic of Korea through Japan. Because Japan has no quota and no visa system, control of these transshipments is especially difficult."

Have we tried to negotiate a solution? Yes, of course. The United States Customs Service supplied the Japanese with investigative documents. They held a meeting with MITI officials. But according to a Customs Service cable sent after the meeting, it was evident that "no one had even examined the documents." Furthermore, the cable stated, "It is felt the meeting was held simply for the sake of having a meeting, not for the sake of accomplishing anything."

Mr. President, the Japanese and our other trading partners are not going to abide by our trade agreements unless we enforce them. It is as simple as that.

It is high time we meet the competitive challenge accordingly. We cannot continue to stand idly by while American industries fall prey to the trading practices of foreign governments. Wake up. Free trade is a myth. The reality is competitive trade. The world market is government-to-government trade. We are in the fourth quarter of a trade war, and our Government has been sitting on the bench the entire game.

The American industrial worker is the most productive in the world. American industries are the most competitive. We have the human ingenuity, the scientific imagination, the industrial muscle, the financial resources, and the zeal to ensure our productive capacity and our economic leadership among nations. What we do not have is time. We need a government that is as hungry to compete as its citizenry. And we need that government now.

Mr. President, if we want to save some time—and I know all of us are under the pressure of time because there are only about 2 or 3 hours left on this budget legislation—then I would be ready to yield back my time on this amendment, so that I could move under section 904(b) for a waiver, and then we can debate that. Is that all right with the Senator from Washington and the Senator from New Mexico?

Mr. DOMENICI. Mr. President, clearly, this amendment does not belong on this bill. If we want to see a situation where a budget reconciliation bill is totally abused, this is the one. Why do I say that?

It is absolutely known that there are Senators who desire to filibuster this amendment. Now, I am not one who likes filibusters and I might indeed vote to close off debate on this if it was a free-standing amendment not offered under reconciliation. But I make the point that what we are doing here is saying to anybody who would want to filibuster this bill: "We are using the reconciliation process to tell you you cannot do that. You have 2 hours on amendments and 1 hour on amendments to amendments and then you are going to vote."

Now I think that is pretty drastic medicine, especially when it is known that this particular bill might have been filibustered by Senators who feel strongly about it.

The Budget Act of 1974, in a very careful way, set forth an exception to unlimited debate, for our work on budget resolutions and reconciliation bills.

So you will note shortly that they will want to move to make sure the germaneness rule of the Budget Act is waived so they can have it both ways. So they can add it to a reconciliation bill and make it subject to all of the time limitations of the Budget Act. In so doing, you eliminate the rights of those who want to filibuster. I do not really think it is a good way to do business.

I am not agreeing to anything at this point, because I may want to make the point of order and let them move for a waiver after I have done so. This would establish unequivocally that the manager of the bill and the chairman of the committee are clearly aware of the kind of mischief that is going to be perpetrated on the rules of the Senate here this afternoon if we let this amendment be added onto a reconciliation bill.

Mr. LONG. Will the Senator yield at that point?

The PRESIDING OFFICER. Who yields time?

Mr. DOMENICI. Mr. President, I believe I have time in opposition, do I not?

The PRESIDING OFFICER. The Senator is correct.

Mr. DOMENICI. I yield to those who are in opposition to the substance of the amendments. I am not as informed on the issues as my friend from Washington and I will yield to him shortly, but, in the meantime, the Senator from Louisiana wanted some time.

Mr. EVANS. Mr. President, will the Senator yield for a question?

Mr. DOMENICI. Of course.

Mr. EVANS. Will the Senator enlighten me as to precisely where we are? I thought I heard the Senator indicate he would want to make the point of order; is that correct? Are we at that point now?

Mr. DOMENICI. No, we are not.

Mr. EVANS. Or do we have to wait until a motion is actually made before we engage in appropriate debate on a motion to waive the Budget Act?

Mr. DOMENICI. We are debating the pending amendment at this point. As I understand it, I have control of 1 hour in opposition and, until I yield my time, a point of order cannot be made and a motion to waive the Budget Act cannot be made. But I am prepared to yield some of that time, because then we will debate the waiver itself in due course.

But, in the meantime, I wish to use a little bit of this time to make sure everybody understands the implications for the reconciliation process.

I yield to the distinguished Senator from Louisiana.

Mr. LONG. Mr. President, does that not present this situation: Although we have a rule that permits rather extended debate which can only be terminated by a 60-percent majority, it would be possible under this precedent for anyone who has a measure that runs into extended debate to simply come in with a waiver on the budget reconciliation bill and pass just anything that could muster a majority of the votes. That would deny those who would want to debate a matter in honest, good conscience, the opportunity to express their views and to explain to the Senate in detail why they thought it was a bad measure and should not be agreed to.

Mr. DOMENICI. The distinguished senior Senator from Lousisiana is absolutely right. I would even add to that, when he uses the words "extended debate," in this case we are talking about extreme limitations in debate, not extended.

Mr. LONG. There have been many cases where a measure might have something very unsound about it, and those opposing it debate at considerable length and eventually prevail with a majority vote.

But sometimes it needs time, many hours, 6 or 8 hours, or maybe several days to do this. But there have been many times in this Senate that an unsound proposal has been defeated be-

cause the opposition had time to convince the Senate that they were right about the matter. Would not this procedure deny them the opportunity to make their case?

Mr. DOMENICI. That is absolutely right. There is no question about it, in my opinion.

Mr. DANFORTH. Would the Senator yield?

Mr. DOMENICI. I yield 10 minutes to the Senator.

Mr. DANFORTH. Mr. President, it is my understanding, and I may be wrong on this, that the majority leader has stated that when we finish reconciliation we will be going back to the Micronesia bill, and that this amendment has been offered to the Micronesia bill.

If that is the case, if we are going to have a bill on the floor of the Senate that can be debated, that is open to serious consideration and meaningful amendment, it would seem to me that is the way to proceed.

That is not the case if it is put on reconciliation. If it is put on reconciliation, we have a very limited time to debate a very important piece of legislation.

I would hope that on both sides of the issues of textiles we could at least agree on the fact that this is a very important piece of legislation. This is not some small, little, miscellaneous tariff matter. This is not some minor trade issue.

This is a matter of major consequence to a lot of people and, in fact, to a lot of countries throughout the world.

We are asked to decide this in a matter of just a couple of hours.

Mr. President, just to give some example of what this bill gets us into, if we were to pass the textile bill we would, in one legislative stroke, be violating not only the General Agreement on Tariffs and Trade, but also the multifiber arrangement, which is the multilateral trade arrangement dealing with textiles and apparel; we would be violating some 32 bilateral agreements with other countries.

That is no small matter, to violate 32 different agreements in 1 piece of legislation.

We would be engaging in a major alteration of our relationship with the Peoples Republic of China.

Granted, the first version of the textile bill was more onerous with respect to China than is the second version. But we would not be able to judge that fact by the comments coming out of China. They have gone into orbit on this bill.

We decided a decade ago that we were going to have a major change in our relationship with China. We believed that a new relationship with China was of crucial importance to American foreign policy and of crucial importance to American trade policy. All kinds of business people and entrepreneurs went over to China to try to make deals with them—engineers, contractors, not to mention our agricultural sector, attempting to do business in China.

There is no doubt at all that if we pass this legislation we are engaged in a fundamental alteration of our relationships with the People's Republic of China.

How about other countries? Mexico? Everybody who has picked up a newspaper or turned on a TV set has heard about the great tragedy in Mexico. With all of their other problems, with all of their population problems and economic upheaval, they have had earthquakes destroying thousands of lives and billions of dollars' worth of property. Now this bill says that imports of textiles and apparel from poor Mexico, our neighbor to the south, will be cut by 50 percent below agreed levels.

Bangladesh. When you think of poverty in the world, you think of Bangladesh. A 66-percent cut in imports of one of the few things that Bangladesh can make. That is in one bill. Do we really want to do that? Have we really considered that? Or are we simply listening to the voice of some lobbyist who is writing down a bunch of numbers of legislation that we have not looked at.

I do not have the amendment in front of me. It has to be as thick as a book. But the consequences of doing this, Mr. President, we have not considered and cannot consider because we have only a few hours.

Just as an example, there is in the city of Bolivar, MO, a small community in southwest Missouri, a little factory and it is called the Teeter Floral Products Co. What they make are polyester floral displays. People put them on grave sites and so on. That company in Bolivar, MO, is the largest employer. They need polyester flowers. Under this bill, a quota would be imposed on polyester flowers that are not made in the United States. Nobody makes them. They cannot get them anywhere but from abroad.

Do we want, without amendment, without any chance to review and change the law, to just say, "I am sorry" to these 300 people in Bolivar, MO, "You are out of luck because we did not take the time to consider polyester flowers."

I do not think so.

Mr. President, we ought to have ample opportunity to debate the question of textiles. The majority leader has promised that it will come up again. This is not the last chance. But at least give us the opportunity to amend this bill on the floor of the Senate. Do not ram it through in this fashion.

Mr. DOMENICI. Mr. President, I will yield the floor in a moment, but I want Senators to know that the Senator from New Mexico in managing this bill, and managing the time in opposition to this amendment, has no intention of using up all the remaining time on the bill.

We still have 23 amendments. About 15 of the amendments are germane, and ought to be offered. I am not going to have lengthy debate on my side. I am going to yield to a few Senators who want to oppose this measure and a few who want to oppose the motion to waive the Budget Act, if that motion is made. But I am not going to use the remaining 2½ hours to debate this issue when everybody understands it.

The issue is whether the amendment should be considered at all, not its substance. If the issue was the substance of the amendment, we would not have enough time for debate.

I understand that the Senator from Washington wants to debate. Does he want to debate the procedure by which they are avoiding a filibuster or debate the substance?

Mr. EVANS. I would much rather have us move to the motion to waive the Budget Act which would get us into the issue which should be in front of us. I would like to speak to that motion. I think that is the appropriate place to start.

Mr. DOMENICI. I thank the Senator.

Mr. HOLLINGS addressed the Chair.

The PRESIDING OFFICER. The Senator from South Carolina.

Mr. HOLLINGS. Mr. President, I am pulled in two directions. I rather agree with the Senator from New Mexico. We should yield as much time as we possibly can and get on to the motion with respect to 904(b) of the Budget Act and, thereafter, get on to Senator THURMOND'S and my amendment with respect to textiles and debate it.

I must make a couple of comments because they debate it and then they say, "Let us debate it later."

That is out problem.

With respect to the Senator from Missouri he is the last to complain. He sits in the catbird seat as chairman of the Trade Subcommittee in Finance, and he has voted out S. 1404 on trade with Japan. We have had way more hearings, way more cosponsors, way more votes all year long. This is the end of October. The Senator from Missouri has informed this particular Senator, "Senator, you shall not get your bill out of the Finance Committee"!

Thereupon, with that in mind, I had to file the textile bill as an amendment to the Micronesia bill in July. Now he says that is a good idea. Well, I guess it is a good idea on the sum total of votes, but when you have to do that on another unrelated matter,

you find that the Senator from Idaho [Mr. MCCLURE], the chairman of the Energy Committee, and the Senator from Louisiana, the ranking member, cosponsors of this particular bill, say, "Oh, no, you are messing up Micronesia."

If you get to Micronesia, he said there is plenty of time. There is plenty of time. I know that Micronesia bill—Vice President Bush asked me to refrain from offering the textile bill on the Micronesia bill. I said, "You had better take it to the Republican cloakroom; the trouble is there with your group, not ours."

This bill relates to 34 bilateral agreements. I am, by necessity, shortening a good 2-hour speech. The Chinese say a picture is worth a thousand words. We do not have photography in the U.S. Senate Chamber so it shall appear in the RECORD that the Senator from South Carolina is now waving 34 bilateral agreements entered into formally with our trading partners. What we have asked for is the enforcement of these 34 agreements.

I can turn to the agreements as we get into this debate and tell about the violations. It is very interesting to me that the President and all the media now are saying that due to the overvalued dollar, and the deficit we have come to grief. I disagree, "Oh, no, no, we have been on this the past 30 years."

I testified before the Tariff Commission when Tom Dewey represented the Japanese Government. We worked out a seven-point program under President Kennedy. We worked out the Multi-Fiber Arrangement. It was not being enforced in the Carter-Mondale administration, so we had to do the same thing in 1978.

We took the floor one afternoon on Friday and kept the Senate in until Saturday at 6 o'clock, around the clock, day and night—all Friday, all Saturday, day and night, all Sunday. Then we got enforcement.

Now comes this administration and they appointed Mr. Baldrige, Secretary of Commerce. Now, there you are. On lumber, he reads the ITC decision and he cannot find any subsidized lumber coming out of Canada.

The President reads the shoe decision, unanimously decided upon by the International Trade Commission, saying you obey the law that they now want to reverently uphold. They cannot find any violations after the ITC has unanimously decided.

And with respect to textiles, we can go to these countries that the gentleman watches.

Secretary Baldrige is chairman of a task force to find out about violations. It is like delivering letters by way of a rabbit. I have the violations all up and down here.

He has tried to get the Senator from South Carolina to eat 28 million yards of overshipments from Thailand, before he would go and jump to China. He finally put on an embargo when I appeared—thank heavens for the media.

When I appeared on David Brinkley with these treaties, then we finally got a little enforcement.

But going right to the People's Republic of China, the distinguished Senator from Missouri says China has gone into orbit. He ought to see the employees in South Carolina, where they have gone. China has gone into orbit. The truth of the matter is that China has been violative with transshipments, exceeded quotas, mislabeling shipments.

You know, Mr. President, when you get into this debate, they tell us our business leaders ought to be more competitive, they have to learn the language. That is not our problem. It is just like this crowd that is running around here, the best and the brightest, who want to make tobacco illegal and want to legalize marijuana. Our problem is not learning the language. Our problem is they have learned our language.

You know what they will do? For example, China will knit a garment in downtown Shanghai send it to Italy, and put on a "Made in Italy" tag.

China has learned our language. Our problem is we have moved into a competitive world where their Government is on their side.

We have in the United States of America the most productive and competitive industrial worker in the world. Japan is No. 7. Please write that in your news columns. Give that to Hobart Rowen. For heaven's sake, this fellow does not know about international trade.

The Japanese worker is No. 7. The United States industrial worker is No. 1, the Netherlands is No. 2, and France is No. 3. We have the most productive and competitive industrial worker. We have the most productive and competitive management. They have spent $7.91 billion in 5 years to put in new machinery, to mechanize, computerize, and data process. What is not producing and not competing is the Government, this Department of Commerce, this administration. You know it and I know it.

We have moved into international competition. Let's look at the People's Republic of China. We gave them under the Senate version—480 million square yards more than in the House bill—I thought it was to please you. I have been misled.

I objected to this. You will find the House bill on the desk—480 million square yards less than my amendment. I said why give 480 million square yards to the People's Republic of China? For the very reason the Senator from Missouri said: We want to try to make friends. We are going to make friends out there. But 18 cents an hour labor? You see, we politicians sit around and say, you have to have a minimum wage, clean air, unemployment compensation, Social Security, safe place, safe machinery. Two Fridays ago, we put $8.5 billion on them to clean up toxic waste. In downtown Shanghai, they make this shirt for 18 cents an hour, but we want to make friends with them.

I gave them the 480 million yards and I have not gotten his friendship. He still opposes my bill. I do not know what to do with the People's Republic of China. I wanted to give it instead to this Western Hemisphere, to Central America, Latin America.

And, Senator, you are mistaken. In Mexico, they are trying to compare this bill to an earthquake. Mexico not only gets a 15-percent increase over the 1984 level, but a guaranteed 6-percent increase annually thereafter.

We are trying to get it out of the Pacific Rim and get it down to this Western Hemisphere so we can get the CBI and all these initiatives going. So you are mistaken about Mexico. If you pass that amendment on the desk in the next 2 minutes, 45 percent of domestic consumption will still be imported. You are not rolling back, you are enforcing the objectives of the Multi-Fiber Agreement. What you are doing is like when you catch Willie Sutton with $100 million stolen from the bank; you take that $100 million away from Willie Sutton, you do not roll it back. You try to get what has been illegally taken. Formally entered into signed agreements, that is all we have. We want enforcement within the objectives of the Multi-Fiber Arrangement. We are taking care of Mexico.

The Senator from Louisiana has spoken honestly and in good conscience. Now we have, I say to the Senator, a wonderful thing. We have computerization and if you walk up to that desk—I do not know how to punch it, to tell you the truth. But it was punched and this is what you get:

SUBJECT HEADING(S)

Congressional Budget, Reconciliation, Germaneness.

Congressional Budget, Waive Act by Resolution or Motion, Debate of Motion.

HEADNOTE(S)

It is permissible to move pursuant to section 904(b) of the Congressional Budget Act of 1974 (PL 93-344) to waive the requirement of germaneness of amendments offered to reconciliation bills.

During the consideration of a reconciliation bill, a motion to waive provisions of the Budget Act offered in response to a point of order is debatable for one hour under the act.

Mr. LONG. Mr. President, to save the time of the Senate, I ask unanimous consent that the Senator might raise the question of germaneness and that the Chair might rule on it without

prejudice to the Senators for or against the amendment on its merits at this time.

I did not put that in there. The computer put it in there. Mr. Long put it in there.

And so the Senator from Louisiana triggered this thing. I remember it well. I was chairman of the Budget Committee and opposed it. And guess who has now persuaded me? The distinguished Senator from New Mexico. After 5 years, he won me over. He voted with the distinguished Senator from Louisiana. He voted with Senator Bellmon.

It was the oil stripper wells, they wanted to get on there. They moved at that particular time. So what am I doing here this afternoon? I am standing prepared to make that motion under section 904(b) which says, No. 1, this is in accordance with the law. No. 2, it is in accordance with the precedent that the Senator set, but he thinks now that it does not favor his particular position on the matter; it is going to destroy Government. And, No. 3, it conforms with the spirit of 904(b) because that particular provision on germaneness realizes that every committee in the world can put up whatever they want.

Here is the budget legislation, a book of it. All nongermane provisions, just about, on reconciliation. I happen to be one of those who believes this is getting out of hand. I think we ought to amend that particular section. I think we ought to amend the budget section to have authorizing committee action before even any budget is reported. But at the present time a committee chairman can add any nongermane amendment to the budget legislation.

My rationale, I say to the Senator from Missouri, is I have a bigger committee. I am not a chairman. We Democrats tried our best. But we sure have a good committee. The Committee of Commerce has 17 members. We have a committee of 55 members tried and true. We have had votes. We have stuck together as cosponsors. We are determined to have these bilateral agreements enforced.

The only way we know to get attention and get a bill through is on this bill, because when we go to Micronesia they will suggest the continuing resolution. You go to the continuing resolution and they say, "No, go to reconciliation." You go to reconciliation and they say, "Just go. Just go."

The distinguished Senator from Missouri has said:

> I am on the Finance Committee. I am the chairman of that trade subcommittee and I say to the Senator he will not see that bill come out of our Finance Committee.

Now, the distinguished Senator from Missouri was nice enough to tell me on top of the table.

Mr. DANFORTH. Mr. President, if the Senator will yield, to clarify it, I think what I told him was that I was confident there were not enough votes in the Finance Committee to report out the textile bill. I was not indicating to the Senator from South Carolina I was somehow exercising some mysterious power to keep it from being reported out. It simply does not have the votes of the majority members of the Finance Committee.

Mr. HOLLINGS. I understand. It is not mysterious. I do not reflect in any way on the Senator for having that position. I perhaps would have that myself. At the same time, we are all Senators in the body. I am ready to yield back my time so we can go ahead, make the motion, and move fast; all of us want to get our Senators back to the World Series this afternoon. We would really like to argue the merits of this particular matter. We conferred with the majority leader. We conferred with the chairman of the Budget Committee. We conferred with the ranking member. I know their position. Their position was mine. But I have now been persuaded. They are the ones who set this precedent. I did not.

We already have a House bill we cannot get up off the desk. It has been sent to us by an overwhelming majority on the House side. So what we are engaged in is political maneuvering.

This is the only maneuvering room I have. We just cannot let the Third World imports flow unimpeded into the United States. Everybody talks about the Third World. We have a Third World in the United States. We have 32 million hungry, under the poverty level. They are mainly composed of women and minorities. And here I am with the finest initiative at the Federal level—to save an industry with 29 percent minorities, 67 percent women, and we are worried about the People's Republic of China having gone into orbit.

Not true at all. They put on the full-court press on Washington. I do not fault Japan or the People's Republic. Business is business. There is no such thing, never has been, never will be, as free trade. This Government was founded on the report on manufacturing by Alexander Hamilton. He set up tariffs. We had at that time 96 percent of our people working on the farm and 4 percent in the factory, and we had to develop an industrial capacity to become a nation. Now we have 4 percent on the farm and 96 percent in the factories and service industries. But that is what built us, the protective tariff system.

The Senator from North Carolina and I did not understand that in the Southland. We were rather illiterate on that particular score. Article I, section 8, of the Constitution says Congress shall regulate commerce, but the Senator and I were rather illiterate. In 1865 they taught us how to read. We lost that war. But along came Cordell Hull and he said, "reciprocal free trade."

Do not talk about Smoot-Hawley. It is a bad historical rap. I can show you, Mr. President, in the year of the crash, trade increased, but the crash did cause the receding of trade in 1930. But Cordell Hull came along and said, "Look, we are going to have reciprocity. If they don't reciprocate, we are going to retaliate." We put in protective quotas for agriculture under the Agriculture Adjustment Act. We had protection for oil.

We put in protective quotas for oil in 1955 to protect oil producers. I have not asked for any protective quotas, tariffs, subsidies, retraining. All I am trying to do is hold on to a basic industry found by John F. Kennedy to be second most important to our national security after steel.

The Senator from Maine can talk on shoes. Let me yield time right now.

But I can tell you, Mr. President, here and now, we are ready to make the motion. I am ready to yield back the time to my distinguished senior colleague. I yield to Senator THURMOND.

Mr. THURMOND addressed the Chair.

The PRESIDING OFFICER. The Senator from South Carolina.

Mr. THURMOND. I will just take a few minutes. I want to call attention of the Senate to the fact that this is not a State or regional problem. It is a national problem. There are 2 million people engaged in textiles and apparel in this country. There are 2 million more in related industries. One out of every 10 manufacturing jobs in this country is in textiles and apparel. This is a very important industry. It is so important that when we held hearings on the importance of various industries to our defense, it was brought out by the Defense Department that textiles rank second to steel in national defense. It has been predicted that if current trends continue, by 1990 we will not have any textile mills; they will all be closed.

Are we going to give up the textile/apparel field entirely? Are we going to permit foreign imports to continue to grow at increasing rates?

The commitment the President of the United States gave me when he was running in 1980 was that he would keep import growth in line with domestic market growth.

What has happened? Import growth now is 33 percent, domestic growth is 3 percent. So who is getting jobs in textiles? It is not Americans. They have lost jobs. In the last 5 years, we have lost 350,000 jobs. In my State alone we have lost 24,000 jobs. As I said, this is a national problem. Also, it is impor-

tant from the standpoint of eliminating our tremendous trade deficit. The 1984 trade deficit was $123 billion.

Sixteen-and-a-half billion dollars of this was because of imports of textiles, coming from other countries. That is, 13 percent of the entire trade deficit was caused by textile and apparel imports. Fifty percent of all the apparel and textiles used to make apparel that are sold in the United States today is imported. Think of that. Fifty percent comes from other countries. This is a serious problem.

It is argued that imports are advantageous to the consumer. I have heard that argument. Frankly, there is very little merit in it. I have some figures that demonstrate the falsity of that argument. The 1984 average retail price of men's and boys' clothing—domestic $6.68; imported $6.63. The consumer saved 5 cents. That is very little savings when you consider the thousands of American jobs that were lost.

How are we going to compete with some countries paying 15 cents an hour and other countries paying $2 an hour, while the American mills are paying $6, $8, and $10 an hour?

It is a question of whether you want to keep the jobs in America or send them abroad.

I have the greatest respect for the distinguished Senator from Missouri, the chairman of the International Trade Subcommittee. However, but we wanted to get this bill out of that committee and get it before the Senate. That has not proven possible. It has been a hard time getting it anywhere. As my distinguished colleague said, anytime you mention one bill they say, "Don't put it here." Well, we expect to put this bill on everything we can until we get results. Why? To help the American worker, to save American jobs. We have to do it to help our own people.

I believe in trade, but it must be fair trade.

Mr. President, I call the attention of the Senate to an article that appeared in the Los Angeles Times a few days ago, and I believe it also appeared in the Washington Post. It was published in a South Carolina newspaper and is entitled "U.S. Should Renounce Free Trade in Favor of Mercantilism."

I will read one paragraph; but first ask unanimous consent that this important article appear in the RECORD in its entirety at the conclusion of my remarks:

Because global influence and military strength depend on a strong economy, the United States should renounce free trade in favor of mercantilism: a policy that explicitly recognizes the need to place the nation's economic interests first in order to preserve its geopolitical power. No nation can be a great power without maintaining its basic industries, even if they are uncompetitive in the international economy.

Mr. President, it is important that we keep jobs in America. We want to trade with other countries; we want to help them; but they are taking over the entire market. The time has come to draw the line.

It is a question of whether you want to preserve jobs here or let them go overseas.

I am not going to take any more time. I think the question is simple, and everybody knows where they stand on this matter. I hope we can get this bill passed. It is a good bill, and it will be a good bill for the people of this country. I hope the Senate will see fit to pass it. I urge my colleagues to support it.

There being no objection, the article was ordered to be printed in the RECORD, as follows:

U.S. SHOULD RENOUNCE FREE TRADE IN FAVOR OF MERCANTILISM

(By Christopher Layne)

[Because global influence and military strength depend on a strong economy, the United States should renounce free trade in favor of mercantilism: a policy that explicitly recognizes the need to place the nation's economic interests first in order to preserve its geopolitical power. No nation can be a great power without maintaining its basic industries, even if they are uncompetitive in the international economy.]

Free trade is an attractive theory. But we live in a mercantilist world. Our chief economic competitors, Western Europe and Japan, erect tariff and non-tariff barriers to others' exports, subsidize their own export industries and control the export of their capital and technology. The developing industrial nations—Brazil, South Korea, Singapore, Taiwan—do the same. As America reaches industrial maturity, other nations are turning the multilateral free-trade system to our disadvantage. We should acknowledge those realities in our own economic policies.

As Johns Hopkins Professor David Calleo has observed, the postwar free-trade system flourished because "expanding prosperity . . . permitted a game with many winners and few losers." However, as "growth slowed, free trade was hurting more and more domestic interests everywhere, and the essentially mercantilist character of states was reasserting itself." Under such conditions, international economics diverges from the comparative-advantage, free model and begins to resemble a zero-sum game as governments become more conscious of the political and strategic ramifications of economic policy.

Free-traders justify their position by pointing out that under the doctrine of comparative advantage, everyone will gain something from international free trade. In strategic terms, however, the key question is not "Will everyone gain something?" but "Who gains the most?" It is the latter question that should guide Washington's international economic policy.

Viewed in historical perspective, the United States is at a juncture similar to Great Britain's at the turn of the century. The outward flow of British capital and technology, combined with the growth of tariff-protected competing industries in rival nations, enabled the United States, Germany and Japan to gain an ever-increasing economic and political advantage over England.

Although free trade actually undermined London's geopolitical interests, comparative advantage remained the intellectual basis of British trade policy. Few analysts, notably Joseph Chamberlain and J.A. Hobson, recognized that England could remain a great power only by adopting mercantilist policies that protected its domestic economy at the expense of its international economic commitments.

Chamberlain and Hobson were right: Commitment to a free-trade system that no longer advanced its interests was a critical factor in the collapse of British power.

For a nation suffering from political and economic decline, as America is, mercantilism is the most prudent economic strategy. Even those of us who believe in the theoretical superiority of free-market solutions must face the fact that the international economy is inherently mercantilistic and that, in a mercantilist world, free trade must end at the water's edge.

As Adam Smith said, "Defense is much more important than opulence." Thus, the thrust of our economic policy should be to maximize increase our power relative to that of other states. In this context national security is more important than economic efficiency.

Mercantilism does not mean that we no longer would have trade relations with the rest of the world. But America's approach to international economic policy must change. Trade should occur within a framework that enhances our fundamental national economic and security interests. International economic policy is too vital an instrument of statecraft, and the economy is too important as the essential foundation of national strength, to be left solely to private decision-making in a market context.

The fundamental objectives of a mercantilist policy are clear: to link American international economic policy to overall national-security policy, to preserve America's vital industries, to control domestic inflation, to discourage the outflow of capital and technology and encourage domestic savings and investment, and to minimize American dependence on markets and sources of raw materials over which our strategic control is tenuous.

America has reached a historical turning point. Rather than attempting to salvage the postwar free-trade system, we should focus instead on developing a new American international economic policy based on sound principles of political economy.

Mr. HOLLINGS. Mr. President, I yield 2 minutes to the distinguished Senator from Maine [Mr. MITCHELL].

The PRESIDING OFFICER (Mr. COHEN). The distinguished Senator from Maine is recognized.

Mr. MITCHELL. Mr. President, I thank the distinguished Senator from South Carolina for yielding. I will be very brief and not repeat what has been said.

I associate myself with the remarks made by both Senators from South Carolina. The distinguished Presiding Officer (Mr. COHEN) is my colleague from Maine, and I am authorized to say that I speak for him as well as myself at this time.

This measure deals not only with textiles but also with shoes. Whatever argument has been made with respect to the textile industry not pursuing

the legal procedures for relief from excessive imports, has no validity with respect to the shoe industry.

The shoe industry followed the rules. It brought an action. The International Trade Commission unanimously found injury, and by a vote of 4 to 1 recommended relief.

The distinguished Senator from Missouri, the chairman of the Trade Subcommittee, with whom I have the pleasure to serve, wrote an article in the Washington Post just yesterday which I ask unanimous consent to have printed in the RECORD at the conclusion of my remarks.

The PRESIDING OFFICER. Without objection, it is so ordered.

(See exhibit 1.)

Mr. MITCHELL. Mr. President, as the distinguished Senator from Missouri put it very well, "The shoe industry was wronged. It was played for a sucker. The laborious process before the ITC turned out to be a waste of time."

It is that total abdication of responsibility by the administration, not only for devising a trade policy but also for enforcing the trade laws of this country, that is so disturbing. We are the only Nation in the Western World which does not enforce the trade laws established within the framework of General Agreement on Tariffs and Trade that authorize relief from a surge of imports. The shoe industry has suffered a tremendous loss of market share to imports which have now captured 78 percent of the domestic market. The ITC unanimously agreed that the shoe industry was entitled to relief under section 201 of the Trade Act of 1974. It went through the long and expensive statutory process only to be rejected by the President. The shoe industry followed the rules and was played for a sucker.

For that reason, as well as the arguments advanced by the Senators from South Carolina, I believe this is an appropriate response to a very serious and critical situation. If an American industry suffers 78 percent import penetration and is not eligible for relief from imports under our trade laws, then I defy any Member of this body to define for me a circumstance in which our trade laws do have relevance and meaning. The fact is, of course, that they cannot and do not, under these circumstances.

Mr. President, I yield back whatever time remains to the Senator from South Carolina.

EXHIBIT 1

A RIP IN THE TRADE LAWS

(By John C. Danforth)

While the textile quota bill will pass both houses of Congress by substantial margins, much of the support for it is more embarrassed than enthusiastic. In the House, 28 cosponsors of the bill bailed out on the vote for final passage. Many Senate supporters concede that it is bad legislation, forced upon them by intense constituent pressures.

It is, indeed, a very bad bill. The best that can be said for the House version is that it would increase employment in the textile and apparel industries by about 4 percent, but it would do so at a cost to consumers of about $140,000 per job. Both bills would risk retaliation against $33 billion in U.S. exports, including farm commodities, aircraft and chemicals. Like much special-interest legislation, the bill is designed to favor a few people at the expense of everyone else.

Government can hardly be accused of turning a deaf ear to the textile and apparel industries. In fact, they have been the beneficiaries of the most elaborate and long-standing array of import protection enjoyed by an American industry. But the bill before Congress would go much further than any of the international agreements that protect the domestic textile industry.

Why, then, has it progressed as far as it has? Why has it passed the House and won the support, however embarrassed, of a clear majority of the Senate? The answer is that the executive branch, which should be the place to manage specific trade problems, is now closed to industries seeking import relief. When the executive branch is closed for business, Congress is the only place to turn, and the remedy Congress offers is quota legislation.

The president's decision in August to deny import relief to the shoe industry was a clear sign that the executive branch will no longer be a source of help for trade-damaged sectors of the economy. The president sees no distinction between import relief available under the General Agreement on Tariffs and Trade, if the proper legal process is followed, and import relief provided by Congress in violation of international agreements. To him, all forms of import relief, lawful or not, are equally abhorrent. All are branded "protectionist," and all are equally violative of his free-trade philosophy.

In fact, all forms of import relief are not the same. If proper standards are met, relief is expressly provided under Article XIX of GATT. The mechanism is legal, not political. It entails bringing a case before the U.S. International Trade Commission, proving economic injury as defined in the statute, securing a recommendation for relief from the commission, and securing relief in the form of tariffs, quotas or trade adjustment assistance from the president.

The shoe industry followed all the rules in bringing its case under the law. It did not try to throw its weight around in Congress. It did not ask for any special legislation. Instead, the shoe industry brought its complaint before the ITC, made a compelling argument for application of the law and won its case in a unanimous finding by the commission. Then, after expending unknown amounts of resources and energy before the ITC, it learned that all was for naught, that the president would give no relief at all.

The clear message from the White House is that if the shoe industry does not qualify for relief, no industry will qualify. If 78 percent import penetration in shoes is no basis for remedy, then textiles and apparel, with less than 25 percent import penetration, cannot hope to qualify. In effect, the president has blue-penciled Section 201 of the Trade Act out of the statute books.

For many years, the best shield against quota legislation has been a system of trade law that could deflect protectionist pressures toward generic solutions. The shoe industry believed it did not need special legislation. It had confidence that the basic laws were sufficient and that if it made a good case it would gain relief. The shoe industry was wrong. It was played for a sucker. The laborious process before the ITC turned out to be a waste of time.

The textile and apparel boys have the street smarts in dealing with government. Their method is to ignore the GATT, ignore existing law, ignore the ITC. They have used political muscle and have gone to Congress for help. Perhaps they will lose on a presidential veto. Perhaps this legislation, even if vetoed, will improve their position when the Multi-Fiber Agreement is renegotiated next year. Certainly they will end up better than the shoe people, who made the mistake of playing by the rules. So now the textile industry has its quota bill, and the shoe industry has gotten wise and has a quota bill of its own. Steel is not far behind.

What is truly astonishing is that the president has expressed astonishment at all the protectionist legislation.

Mr. DANFORTH. Mr. President, will the Senator from New Mexico yield 2 or 3 minutes?

Mr. DOMENICI. I suggest to my friend that there will be time in a couple of minutes on the issue, and I will yield to him. I would like to get on with the motion.

Mr. DANFORTH. I mean before we get to the motion.

Mr. DOMENICI. I yield 2 minutes to the Senator from Missouri.

Mr. DANFORTH. Mr. President, there is much to be said on the merits, and I am not going to debate the merits at this point. I hope we do not get to the merits of this matter on reconciliation. I hope we do not waive the rule of germaneness.

I have said to the senior Senator from South Carolina, and I will restate on the floor, that if this is attached to any other bill and there is a filibuster, I will vote for cloture. I do not like the idea of a textile bill; I am against it. I do not intend to slow it down by filibuster. I will vote for cloture. But that is not the issue before the Senate now.

The issue before the Senate right now should not be the merits of the textile bill but, rather, whether the textile bill is going to be taken up on reconciliation, whether the textile bill is going to be given the bum's rush through the Senate, whether the textile bill is going to be available to the Senate for only a matter of a few hours, with very limited possibility of debate and very limited possibility of amendment. That is the issue before the Senate now, not the merits, but whether this is the appropriate bill.

Mr. DOMENICI. Mr. President, on the amendment that is pending, I am prepared to yield back my time, if Senator HOLLINGS is ready to yield back his time.

Mr. HOLLINGS. Mr. President, on the pending amendment, in yielding back the time, I hope we can then move. The chairman obviously will

make a point of order. I am not trying to overrule a point of order. I am trying to get a ruling as to whether this is in conformance with 904(b). I am sure it must be, looking at the precedents.

So if we yield back the time, in all courtesy to the distinguished chairman, I will make the motion, we can get the yeas and nays, bring this to a close, and move from there.

Mr. DOMENICI. Mr. President, I understand what the Senator is going to do. We want a few minutes to argue that his motion should not be granted. That motion is debatable. Before he can make the motion, we have to yield back the time. If I then get recognized, I will make a point of order that the amendment is not germane.

The Senator has the right, under the act and the procedures, to make his motion.

Mr. HOLLINGS. That is the precedent set in 1980.

Mr. DOMENICI. I do not want to waste a lot of time. I do not want this to turn into a substantive argument over the amendment. I want Senators who have legitimate amendments to have a chance to offer them. I do not want to destroy an $86 billion deficit reduction package. That is my concern.

Mr. President, I yield back the remainder of my time, if the Senator yields back his.

Mr. HOLLINGS. I yield back the remainder of my time.

Mr. DOMENICI. Mr. President, I make a point of order that the pending amendment is not germane.

Mr. HOLLINGS. Mr. President, I move under section 904(b) of the Budget Act that title III the requirement for germaneness be waived.

The PRESIDING OFFICER. The motion is debatable for 1 hour.

Mr. HOLLINGS. I ask for the yeas and nays.

The PRESIDING OFFICER. Is there a sufficient second? There is a sufficient second.

The yeas and nays were ordered.

Mr. DOMENICI. Mr. President, a parliamentary inquiry.

The PRESIDING OFFICER. The Senator will state it.

Mr. DOMENICI. This motion is debatable and there is 1 hour on each side?

The PRESIDING OFFICER. One hour total equally divided.

Mr. DOMENICI. A half-hour on each side, after which time a motion to table is in order.

The PRESIDING OFFICER. The Senator is correct.

Mr. DOMENICI. And not before.

The PRESIDING OFFICER. The Senator is correct.

Mr. EVANS. A parliamentary inquiry.

The PRESIDING OFFICER. Who yields time for a parliamentary inquiry?

Mr. HOLLINGS. I yield time.

The PRESIDING OFFICER. The Senator will state it.

Mr. EVANS. My inquiry is I believe that the motion that was just made by the Senator from South Carolina must be placed in writing so we know precisely what would occur if that motion were to carry because the particular wording of that motion could have a great deal of influence on the debate which could occur and the amendment which might be made afterward.

The PRESIDING OFFICER. The Senator is correct. The motion must be submitted in writing.

Mr. HOLLINGS. All right.

Mr. DOMENICI. I suggest the absence of a quorum with the time to be charged equally.

Mr. BUMPERS. Will the Senator withhold that? Will the Senator be willing to yield me 5 minutes while he is trying to work out the difference?

Mr. DOMENICI. Does the Senator desire 5 minutes to debate the issue that is before us?

Mr. BUMPERS. Yes.

Mr. DOMENICI. I yielded all my time back.

Is the Senator in favor or opposed to the amendment?

Mr. BUMPERS. I support the Hollings amendment.

Mr. DOMENICI. I have no time to yield for those who support it. Perhaps the Senator from South Carolina does.

Mr. BUMPERS. Will the Senator from South Carolina yield me 4 or 5 minutes while he is working this out?

The PRESIDING OFFICER. The Senator has submitted his motion in writing.

The motion follows:

Pursuant to section 904(B) I move to waive the germaneness requirement of the Budget Act.

Mr. HOLLINGS. I have submitted it in writing.

Now we are onto the particular motion. I am delighted to yield 5 minutes to the Senator from Arkansas.

The PRESIDING OFFICER. The Senator is recognized.

Mr. BUMPERS. Mr. President, I simply want to make a record on this issue because I have been one who steadfastly resisted domestic content legislation and generally supported the President's position on trade. I did it, not for ideological reasons. I did it because I thought it was fair that it was helping us with our inflation problem, and because I thought all parties were complying until GATT and the Multi-Fiber Agreements.

But now the scales have been tilted to the point that complete and unbridled free trade is no longer an equitable proposition. And in addition, our agreements are being violated by our trading partners.

I never really realized just how inequitable our trade policy was until I investigated our problem with shoe imports. I never will forget when Senator PRYOR and I went over to make our case before the International Trade Commission in 1981. We were pleading with them to hold shoe imports to 50 percent of all the shoe sales in this country. Think about that; in 1981 50 percent of all the shoes in this country were being imported, and we said we do not want to cause the people who manufacture these shoes and send them to us any undue hardship—we want to trade with them—and we will not, if you will, draw the line now, and hold imports at 50 percent.

The International Trade Commission ruled against us. So the President never really had to make a determination on the issue.

In 1985, early this year, we went back to the International Trade Commission. In the period of time since we were there in 1981, shoe imports had increased from 50 to 75 percent. That was early this year. And the International Trade Commission finally agreed, on a unanimous vote, I believe, to support our position. We only asked that we should not permit more than 63 percent of all the shoes sold in this country be imports.

That is not discriminatory. That is not trying to do in the Third World. That is simply saying let us be reasonable about this because our shoe manufacturers will never be able to compete with $3- and $4-a-day wages.

The International Trade Commission ruled in our favor and the President overrode that decision or at least refused to accept that recommendation, and at this very moment shoe imports run 77 to 80 percent all shoes sold in this country.

In 1984, the biggest economic growth year in the history of this country since the post-World War II era, shoe manufacturing in this country declined 13 percent. This year, shoe manufacturing in the United States declined 22 percent.

As the Senator from South Carolina has said time and again, there is no education in the second kick of the mule. Maybe if we redefined national security & determined shoes necessary, we could get the Presidents attention. Manufacturing combat boots should be on the national security list.

We produce fewer shoes in this country right now than we did in 1921.

I realize that the textile and apparel industry has also been plagued by increasing foreign imports. Since 1981, textile import growth has averaged 19 percent annually—and last year imports soared 32 percent over 1983 levels.

I do not like to see Congress getting into this whole arena on an ad hoc basis. Today it is textiles and shoes and tomorrow it will be aluminum and next day it will be steel and next day it will be something else. Tht is not the way it should work.

But our trade policy is not working at all now and, in my opinion, Congress has no alternative but to at least get the President's attention and say to the President, "We are not asking for Smoot-Hawley protectionism. We are not asking for that kind of relief. We are saying give us a trade policy. I believe Congress will not let their issue die. The President can run, but he can not hide.

The PRESIDING OFFICER. The Senator's time has expired.

Who yields time?

Mr. DOMENICI. I yield up to 15 minutes to the distinguished Senator from Washington.

The PRESIDING OFFICER. The Senator from Washington is recognized.

Mr. EVANS. Mr. President, there will be some time presumably, if, in fact, this motion passes, to debate the merits of the issue, not enough, perhaps not enough opportunity to attempt to perfect the bill, but that is not what is before us. What is before us is a question of waiving the Budget Act and it is to that I will turn in just a moment.

But let me say, first, in answer to my distinguished colleagues who have spoken that this is not a question of China, or Korea, or Taiwan, or any other foreign nation compared to this Nation. It is a question of whether we are going to engage in a new civil war, a new civil war of East versus West instead of North versus South. In the first vote on this bill several weeks ago, all but five Senators west of the Mississippi voted against the bill, and all but five Senators east of the Mississippi voted for it.

It could very well be a question of whether we sacrifice an aerospace job in order to save a textile, job, whether we drive one more farmer into bankruptcy to preserve a seamstress.

I might say, in passing, that unemployment in South Carolina and North Carolina and the other States in this bill are substantially lower than unemployment in my own State of Washington, or Oregon, or California, or most of the States of the West.

But let me turn to what is really at stake. I have not been here long. But I came, as my colleagues know, in an unusual fashion. I had one of those rare opportunities to make a choice, to make a decision whether to accept an appointment of my Governor. I came here to the Senate because I respected its history and its tradition, and because I felt this was an unusual body, worth coming back here te represent my State and my country.

This fundamental question is not textile protectionism. The fundamental question is whether this Senate will retain its unique position as the only legislative body in the world devoted to unfettered and yes—even at times—extended debate, whether this body will continue to cherish the right of even a minority of one to express opinions, challenge majority opinion, to shape legislation, and to give colleagues a chance for a second thought.

The history of cloture I think is important to discuss. We have had 196 years of this Republic. Never in 196 years have we attempted in this body to strangle debate as we are going to do it today. There was no cloture rule at all until 1917. Our predecessors in the great debates of the mid-1840's leading up to the Civil War and many of the other great debates which have engaged this Senate did so without any limit whatsoever on debate.

In 1917, rule XXII was adopted. Two-thirds of those present and voting would be required to limit debate. In 1949, we reverted to two-thirds of the entire body. In 1959, we limited debate by two-thirds of those present and voting within 2 days of debate before a cloture vote and, in 1975, the present day cloture rule was adopted, three-fifths of the Senate except when we are engaged in a rules change.

Today we may well take the last step, the last step of majority rule; of majority rule where the rights of the minorities are going to be squashed.

Well, let me advise this Senate that if, indeed, this procedure is to be allowed, then it is time to throw the doors wide open. If 51 Senators choose, then we can add this bill or its successor as each year passes Grove City, without debate; line-item vote, without debate; nominations—for instance, the nomination to the Ambassadorship of the People's Republic of China, without debate; abortion; school prayer—you can add to the list better than I. Is that what we are going to do? Is that what this body is all about?

All that is spoken on the floor of the Senate becomes part of the RECORD. Hundreds of thousands of pages make up the history of this body. The rules of the Senate are important and so are the precedents. The Senate, in a very real sense, is history.

The way to discover the spirit and the importance of this body and of our concept of democracy lies in the pages of our Journal. Reading through the Journal holds out the key to recognizing the importance of this body's tradition of lengthy debate.

It is difficult to trace the roots of our tradition of free and open debate. It is impossible to select a single precedent that allows each Senator to be heard on any matter brought before the body. And yet, this right has been subject to some of the most eloquent speeches and debates on the floor of this Senate. Let me read from a few.

First, from Senator Robert LaFollette, March 8, 1917.

Mr. President, believing that I stand for democracy, for the liberties of the people of this country, for the perpetuation of our free institutions, I shall stand while I am a Member of this body against any cloture that denies free and unlimited debate. Sir, the moment that the majority imposes the restriction contained in the pending rule upon this body, that moment you will have dealt a blow to liberty, you will have broken down one of the greatest weapons against wrong and oppression that the Members of this body possess. This Senate is the only place in our system where, no matter what may be the organized power behind any measure to rush its consideration and to compel its adoption, there is a chance to be heard, where there is opportunity to speak at length, and where, if need be, under the Constitution of our country and the rules as they stand today, the constitutional right is reposed in a Member of this body to halt a Congress or a session on a piece of legislation which may undermine the liberties of the people and be in violation of the Constitution which Senators have sworn to support. When you take that power away from the Members of this body, you let loose in a democracy forces that in the end will be heard elsewhere, if not here.

I ask unanimous consent, Mr. President, that further statements of our distinguished colleague, Senator STENNIS, and from then Senator Lyndon Johnson be printed in the RECORD. And I would like to read briefly from a fourth one and ask unanimous consent that the entire statement be printed in the RECORD.

There being no objection, the statements were ordered to be printed in the RECORD, as follows:

SENATOR JOHN STENNIS—MARCH 7, 1975

Personnel can come and go, ideas and opinions and conclusions can vary, and will, but this body will never be the same parliamentary body again if this final step, this fateful step, is ever taken.

There is a yearning and a distinctive feel about coming to the U.S. Senate and it has been true for many, many, many decades, and I hope it will be true for a thousand years . . .

If we just make it a body now where the majority is going to control and can write the rules, or rewrite them, the majorities with all their virtues are impulsive at times, if we are going to make it into that kind of a body, we will take off something that has a great deal of attractiveness, a great many of the attractive features of being here.

I have a great respect for the House of Representatives . . . and I think no man could have a greater honor than to serve with fidelity . . . in the House of Representatives. But at the same time, many men who have served there want to come on over here.

Why is that? I could not describe why, but I believe a part of it is that the membership in this body just cannot be pushed around, and that is what it amounts to.

Perhaps those who have joined us lately have not yet had enough experience here to feel this quality that I am talking about, but wait until someone attempts to push them around, wait until they have experiences

where they see, except . . . they could have been pushed around and then they will get a better understanding of what I am trying to transmit to them, and in a very feeble way.

We call ourselves the deliberative body. That is a little more, I think a good deal more than a self-serving declaration, and that deliberative body, the fact that it is that kind of body, has had tremendous influence in public affairs.

As a young lawyer, in the 1930's, I remember what has become known as the attempt to pack the Supreme Court and I remember my first impulse to the argument was so smooth and so plain and all, I said that maybe it is my duty to consider that further. Under the circumstances, it had some attraction to it, maybe.

But anyway, as I started reading and reading and looking and relooking and getting into the mores of our system, instantly it became clearer and clearer and clearer to me that that would be an awfully bad step, a nagging precedent, and a body blow that would, in effect, destroy that body, restrict and restrain it so.

I came here later and understood from men who were here—I could call names but I will not—but many of them said, and some of these were in favor of President Roosevelt's recommendation, that without a question, without a question, it was the influence of rule XXII looming as a possible roadblock that made it known one could not rush the plan through.

I do not think there are many who have been here long that could avoid saying, admitting and agreeing, that this was a downgrading of the Senate, to go to the rule of majority of those present and voting could change the rule and make it possible to cut off debate on a bare majority vote.

SENATOR LYNDON JOHNSON—MARCH 9, 1949

If I should have the opportunity to send into the countries behind the iron curtain one freedom and only one, I know what my choice would be. I would send to those lands the very freedom we are attempting to disown here in the Senate. I would send to those nations the right of unlimited debate in their legislative chambers.

If we now, in haste and irritation, shut off this freedom, we shall be cutting off the most vital safeguard which minorities possess against the tyranny of momentary majorities. I do not want my name listed as one of those who took this freedom away from the world when the world most needed it.

SENATOR STROM THURMOND—MARCH 7, 1975

This motion would effectively give absolute rule to little more than a mere majority of Senators. A Senate majority does not necessarily represent a consensus of the people or of the States. Many times popular opinion on an issue does not develop until after prolonged discussion of the matter in the Senate has served to publicize the issue. In this sense, prolonged debate may prevent hasty majority action which would be out of harmony with genuine popular consensus; whereas simple majority cloture will not allow for a sober second thought of the American people.

Majority cloture in the Senate would destroy its deliberative function.

Mr. President, prolonged debate is not resorted to lightly or at the whim of a few Senators. To do so would destroy its effectiveness. It is only when an issue of vital importance is presented, that a minority of Senators, concerned with their roles as "ambassadors of the States," engage in extended debate in order that all viewpoints may be presented and all options considered.

If this resolution passes, it is then theoretically possible for the members of the majority party to close off debate on a highly partisan issue, thus effectively negating the rights of the minority. I wish to remind Members of the Senate that today's majority may be tomorrow's minority.

Mr. EVANS. From one of our colleagues who is engaged in this debate today, the senior Senator from South Carolina, STROM THURMOND:

This motion would effectively give absolute rule to little more than a mere majority of Senators. A Senate majority does not necessarily represent a consensus of the people or of the States. Many times popular opinion on an issue does not develop until after prolonged discussion of the matter in the Senate has served to publicize the issue. In this sense, prolonged debate may prevent hasty majority action which would be out of harmony with genuine popular consensus; whereas simple majority cloture will not allow for a sober second thought of the American people.

And I am glad my distinguished colleague from South Carolina has arrived to hear his words, so eloquently spoken years ago, read back.

Mr. President, prolonged debate is not resorted to lightly or at the whim of a few Senators.

And I can say to this body I have not engaged in prolonged debate very often.

To do so would destroy its effectiveness. It is only when an issue of vital importance is presented, that a minority of Senators, concerned with their roles as "ambassadors of the States," engage in extended debate in order that all viewpoints may be presented and all options considered.

Mr. President, let us return to the matter particularly before us. While many have strong feelings on both sides of the textile issue, there should be no disagreement about what we are debating at this moment. The issue at hand is whether or not the Senate should purposefully circumvent its own rules; whether it will decide today to allow the will of a simple majority to silence the voice of a strong opposition.

Should any simple majority, 51 Members, be allowed to silence all other Members on any matter before the body, possible destruction of the constutitionai role of the Senate as a body of deliberation would follow. We would, in my opinion, die as a unique body and take our place in a long and dismal line of ordinary Parliaments and Congresses.

We have a choice. Mr. President, we have three choices, in fact. If we turn down this motion to waive the Budget Act and destroy the Senate and its long tradition of debate, immediately after the conclusion of the reconcilation bill we do return to the Compact of Free Association on which this textile amendment is already attached. If that is insufficient, we have at the desk a House bill, already passed, which has a textile bill attached. And if no bill passes this Congress, we will shortly engage in the renegotiation of the Multi-Fiber Agreement and our agreements bilaterally with each nation. And I believe, and would join with my colleagues in believing, that these ought to be strengthened and changed and modified to better serve the needs and the problems of our Nation.

The alternative to that, to any of those three choices, is to destroy our heritage, wreck our committee process, divide this Senate, and hurt the comity which binds us together, all for a monetary advantage.

And I say for shame, for shame, if we waive these rules for no earthly purpose.

I urge—no, I plead with my colleagues to defeat this proposal. Let us finish reconciliation. In fact, let us finish reconciliation in two ways: On perserving the Senate as we would like it to be and on the reconciliation bill in front of us, and then turn next to the compact and debate the textile issue. It is an issue of major importance. It deserves to have adequate opportunity for amendment and perfection and it may well have support sufficient to pass. And if that is true, so be it. But that is the way in which we do our business. And, Mr. President, that is the way we ought to do our business.

The PRESIDING OFFICER. Who yields time?

Mr. DOMENICI. How much time does the Senator need?

Mr. LONG. Three minutes.

Mr. DOMENICI. I yield 3 minutes to the distinguished senior Senator from Louisiana.

The PRESIDING OFFICER. The Senator will suspend. The Senate is not in order.

The Senator from Louisiana.

Mr. LONG. Mr. President, in years gone by I have voted for the type of measure the Senator seeks to enact at this point.

I have supported the Senator on occasion when he has added measures of this sort to a Finance Committee bill, and I have gone to conference having voted for his amendment. I think the Senator knows that very well. In fact, on occasions the Senator thanked me for fighting harder than anybody on the conference in trying to get his amendment agreed to. I have no quarrel with the Senator on the merits of what he seeks to achieve here. I cosponsored the bill when it was introduced as a bill, and I even voted on this measure on the Micronesia bill.

But, Mr. President, I could not agree more with what the Senator from Washington has said here today. My first speech in the Senate was in favor

of free debate in the Senate. I was a member of the Rules Committee at that time, and served with the senior Member of the Senate, JOHN STENNIS. We fought at that time to preserve the right of free debate in the Senate. What I said then, and what JOHN STENNIS said at that point, still makes sense as far as the Senator from Louisiana is concerned.

In my judgment, if this tactic is to be permitted to succeed, then as long as this is available, any Senator has the option, if he has a simple majority, to deny other Members of this body an opportunity to make their case against a proposal. This is a way that one can bring a controversial proposal to a vote with only a modicum of consideration. That is totally contrary to the intent of the reconciliation process.

Yes, I heard the Senator cite the time when Senator Bellmon of Oklahoma offered an amendment dealing with stripper wells. Senator Bellmon asked appropriately, as he should have asked, for a waiver under the budget resolution to offer his amendment. I voted for it. Mr. President, that was not an attempt to deny others the right to debate the stripper well amendment. We had debated stripper wells many times, voted on it many times before, and we voted on it many times after that. But as much as I would like to see the Senators prevail in seeking consideration for the industries for which they speak, and they are entitled to consideration, I completely disapprove of this approach. And because I love this body and love this institution, Mr. President, I wish that the Senate would refuse to take this approach. It was never the intention when we voted to establish the reconciliation process that it should be used to deny Senators a right to free debate, to have their day in court to explain why they are for or against a measure, and make their arguments for an amendment. There is nothing so desperate about this textile matter that it cannot be considered in an orderly legislative fashion.

There are many measures that come from the Finance Committee on which I would be happy, as one of those who voted to report the bill, to support the Senator's amendment. If the Senator wants to offer his proposal on the trade bill that was reported by that committee, I would be glad to support his amendment. There will be all sorts of opportunities to offer this measure, and have it voted on in the orderly process, without prejudicing the rights of anybody in the Senate. But to agree to the procedure that is being sought here at this moment, knowing the Senators want to debate this matter in considerable length, and some perhaps might even want to filibuster, means that we will be setting a precedent that can be invoked time and again, and that really means the end of free debate in the Senate as we have known it.

I think, Mr. President, it is not necessary to do business that way. It would not be wise. I do not think it would justify using this means even to enact that measure.

So while on the merits I would like to see the Senator prevail on what he is trying to achieve, I thoroughly disapprove of this method, and I hope very much it will not be agreed to.

The PRESIDING OFFICER. Who yields time?

Mr. DOMENICI. I yield 3 minutes to Senator BAUCUS.

Mr. BAUCUS. Mr. President, let me state, so everyone knows, that I am opposed to the underlying amendment. I think if the textile act passes and becomes law, it will be a bill which we in this country will regret having adopted for a long, long time. I oppose the textile bill for many reasons. It violates the MFA. It will be extremely costly to American consumers—about $23 billion a year, or about $450 per family per year. It will begin us in a downward spiral of protectionism.

But these concerns are not what lead me to speak. I am rising to speak because I believe very deeply, and very sincerely that this is the wrong place to have the wrong bill at the wrong time. Every Senator knows it is highly improper to bring this textile bill up as an amendment to the reconciliation bill. We all know that privately. In the few years I have been here I have seen this body slide. We respect the rules of this body less and less. The Parliamentarian's ruling as to whether a motion is germane is now disregarded in the Senate. Senators seem not to care one whit about the rules. Senators now vote on rulings of the Chair— not according to the basic question of germaneness or on whether the issue should be in order but according to their own substantive preferences. I have seen us begin down the slippery slope just in the years I have been here. Soon we will get to the point where we have no rules at all. The Senate will then be absolute chaos, and it will be ruled by brute force, and brute majority will. The special protections for the minority will be gone. That is about where we are coming to right now.

So I stand firmly with my colleagues who argue that we should vote against addressing the textile bill at this time. There will be another time. This body operates on comity and on trust. If we work together we will find a way to bring the textile bill up, but we should not do so now because it is a violation of the rules.

The PRESIDING OFFICER. The Senator's time has expired.

The Chair would hope we would stay within the prescribed time limits.

Mr. HOLLINGS. Mr. President, I ask unanimous consent that an article entitled "Mexico Welcomes U.S. Textile Bill" be included in the RECORD at this time.

There being no objection, the article was ordered to be printed in the RECORD, as follows:

MEXICO WELCOMES U.S. TEXTILE BILL

(By Susan Jansen)

The Mexican textile industry looks favorably on last Thursday's decision by the U.S. House of Representatives to reduce sharply textile imports from 12 countries, mainly in Asia.

"If the legislation passes, we feel it would be advantageous for Mexico because we are considered with the Caribbean countries. And within possible negotiations of the Multi-Fiber Agreement (MFA), Mexico would not be subject to the same roll back," Max Grunstein, first vice-president of the National Chamber of the Textile Industry said this weekend.

Grunstein told The News Mexico would probably return to 1984 levels of export quotas to the United States, with the possibility of a 15 percent increase.

Some of the Mexican textile industry's problems would be alleviated if exports to the United States were boosted, said Grunstein, although he pointed out that Mexico could never reach the textile export levels of the Asian countries.

Increasing exports to the United States would be "an important relief at this moment" for the Mexican textile industry, he said.

The U.S. House of Representatives decision is a message to the White House that the United States needs a tougher trade policy to open up world markets, said House Speaker Thomas O'Neill, according to press reports after the decision. O'Neill said House supporters of the bill are "just sick and tired of being the lone free traders, the lone patsies of the world," stated the press reports.

If the U.S. House decision becomes law, it will cut severely imports from Hong Kong, China, Taiwan, South Korea, Japan, Pakistan, the Philippines, Thailand, Brazil, Singapore, Indonesia and India.

Grunstein agreed with charges from the United States that the MFA has been widely violated. Many countries export more than their quotas permit and manufacturers receive government help—"call it subsidies if you will," said Grunstein.

He also said many violations are in the form of "triangular trade," with the country of origin in dispute. For example, a country with a small quota, such as China, will sell textiles to a country with a large quota, such as Hong Kong, which in turn exports the material on its quota, said Grunstein.

"We feel the MFA should be revised and renegotiated, but it is a good vehicle for the integration of the world textile market," Grunstein said.

As for accusations of Mexico's violation of the MFA, Grunstein said that Mexico is a small exporter to the United States, and that Mexico has proved in the past—and is in the process of proving—that Mexican textile subsidies are "minimal if any."

One year ago, the United States fixed an 11 percent countervailing duty on Mexican textiles. Mexico fought the move and the duty was reduced to 3.7 percent, Grunstein said. "And we feel it will be reduced further."

He said this proves Mexican textiles are not subsidized and therefore are not subject to countervailing duties.

The Mexican textile industry "unfortunately has no lobby group in Washington," said Grunstein. Negotiations are carried out through the Chamber and the Secretariat of Trade and Industrial Development's international negotiations department.

He said textile negotiations between the two countries are a constant process.

Grunstein said representatives of the Mexican textile have been in contact with the American Textile Manufacturing Institute to convince them that Mexico does not present a problem to the United States. "We face the same problem, the Asian problem," said Grunstein.

The U.S. House of Representatives decision "has taken on an air of being anti-Asian," press reports cited Representative Sam Gibbons as saying.

Mr. HOLLINGS. I want to emphasize the information that has been given out. This bill has been compared to an earthquake. Now it is being compared to the end of the Senate. My colleagues know differently. I hope we can amend the reconciliation process. You are looking at the first chairman of the reconciliation conference, and we passed it.

In 1980 the Democratic majority had been defeated. I went to President Carter and said we could not leave a deficit in excess of the one we inherited from President Ford, around $66 billion. And the President asked how large would the deficit be. I said it could get up to $75 billion. I was frightened at the $75 billion deficit. He said, "What can I do?" I said, Mr. President, there's a funny word called reconciliation. If you leave us alone, we can get some cuts. I went to my friends, the Senator from Wisconsin, Gaylord Nelson, the Senator from Washington, Warren Magnuson, the Senator from Idaho, Frank Church, the Senator from South Dakota, George McGovern. I said look, we Democrats are going in the books as big spenders. You've got to help us. We brought up the reconciliation bill, they helped me, gave me the vote, and we cut back.

The deficit when President Carter left went back down to $58.7 billion rather than $66 billion. So let us not lecture about reconciliation and the process, after you have already argued it, and won your point on Micronesia. The only reason I went on Micronesia was because it was a "must" bill. Now I find out they could care less. Nobody would care much for Micronesia except the Senator from Montana, and a few others. They have amendments. All the other Senators have amendments. They are sitting around waiting to get that so-called very generous cloture just on an amendment so they can go the "Allen" route of 30 and 30 amendments—some 60 amendments. So the majority leader would then stand in the well, and say I cannot wait 60 hours to complete Micronesia. We have to get appropriations. We have to get the farm bill, and the rest of the calendar.

We have debated this all year long. This side of the aisle has special orders in the morning. We have already debated trade. Now the administration and the other side of the aisle has picked it up. Everyone has a trade bill. There is no question about unlimited debate. We argued this for almost 6 hours on the Micronesia Compact. What we have to do is move in accordance with the law. I did not like the law. I have stated so on the floor. I do not like it now. I have the same misgivings. But on the question of germaneness, the Senator from Washington, just raised the point of germaneness with his amendment on the corporate average fuel economy standards on an appropiations bill. I went along with him. This bill provides for a waiver of germaneness, not a point of order. It is a motion in accordance with the law and the precedents.

Some are worried about the future of the body. But they know differently. It is said this is the instrument that will break the camel's back, but look at the reconciliation bill. It has all kinds of things including trade adjustment assistance. These are not really germane, under the rules.

In any event, they put in what they want. You can get a tobacco bill, public corporations, anything you want. Open the book. There it is.

All of a sudden, this is the amendment.

When we go under the law, when we go under the precedent, when we go under the spirit of the act, when we are trying to get a measure ready to pass in both bodies, of course some are ready to pull the administration's coals out of the fire and keep threatening about the veto.

With respect to the comments of the distinguished Senator from Washington, this is not an East-West aerospace versus textile issue, farmers versus seamstress. I have a shirt from Oregon, they have a very viable textile and apparel industry on the west coast.

There has been a development over the years. The Senator from Washington has been talking about 20 years ago. I remember it well. We had one price for cotton. We had to fight to get it. After that particular debate in the early sixties, 25 years ago, it was like damming half of a river. We had to move to wool and man-made fibers. Now we have come down the line with respect to farmers.

I remember a question asked me a couple of years ago on radio station WHO, in Des Moines. They said, "Senator, you are from textiles. You want protection, protectionism. We farmers do not believe in protectionism."

The farmers are the ones who got protective quotas back in the early thirties. They got subsidies provided by the Export-Import Bank. I said we did not want that, we have the Multi-Fiber Agreement. Our agreements have been solemnly signed, dotted and with the T's crossed. We are not asking for tariffs. There are no tariffs in this bill with respect to textiles.

But I said, "You know, I just rounded the corner coming to this particular station in Des Moines and they had on one corner the tractors from Byelorussia, the U.S.S.R., and on the other corner was International Harvester going broke." I said, "You do not understand, but you have moved into international competition on farm equipment. If you want to pay those in International Harvester $1 an hour, with no Social Security, no unemployment, no clean air, no clean water, that will be fine. But you are in international competition on that equipment. More than that, we have just left Washington debating the Egyptian wheat contract and the Egyptians are beating us out with a 25-percent subsidy in wheat. Your wheat has moved into international competition."

True it is, that 18 years ago the European Economic Community was a net importer of the world's wheat and last year they exported 20 percent with subsidies.

We have come down the road and farmers will begin to stop, look and listen. The cotton farmers who were once worried, now support us. The National Cotton Council supports this particular bill.

The wool-growers began to realize that if you could not manufacture textiles in this country, they were not going to sell any wool.

If you want to talk about so-called free trade, we can later on in the debate. Here is a free trade document outlining the restrictions and prohibitions against our textile and apparel exports. They talk about free trade. It is compiled by the U.S. Department of Commerce and is entitled, "Foreign Regulations Affecting U.S. Textile and Apparel Exports, January 1985."

We will see how free it is. It is a 1-inch volume, 251 pages. I want you to look at that one.

So we have picked up the wool-growers and the cotton council.

Also, the American Agriculture Movement, the National Farmers Union, the National Farmers Organization have all endorsed this bill. It is not farmers against the seamstresses. It is the matter of asking one's government to compete.

Do not talk about ports and trade. We have a dynamic port operation that I have worked for years developing. I have traveled the countries of Latin America. Luther Hodges of North Carolina and I made the first trip to Europe, the first trips to Latin

America to promote international trade. We are proud of the 13 Japanese companies from which we solicited investments. We are not troubled whatever, Mr. President, by this kind of competition. We are troubled by our Government.

Hobart Rowen talks about bashing Japan. I am trying to bash Washington. I am not trying to bash Japan. I am trying to wake up our own crowd so we can have not just free trade, and fair trade, but competitive trade.

We are entitled to make this motion, bring this amendment under this particular rule, under the law. The law is there and if you want to change it, you have my vote on changing the law, but do not change the law on me when we come under the precedent set in 1980, where the distinguished chairman and the distinguished Senator from Louisiana and others voted the other way. Now that I want to use it the sky is falling, the Senate is going to end.

We have had too much debate already on this textile bill and this is our only chance.

Mr. President, my distinguished colleague, the chairman, the Senator from New Mexico, has advised me that the written motion is not in the appropriate language. Therefore, if I can amend the motion, I will have it read:

I move, in accordance with section 904 of the Budget Act to waive the provisions of title III of the act requiring germaneness of amendments with respect to the pending amendment.

The PRESIDING OFFICER (Mr. SYMMS). Is there objection?

Mr. DOMENICI. I reserve the right to object, Mr. President. I have no objection provided the modification in no way changes the time allowed on the motion, that it does alter the time allotment under the Budget Act.

The PRESIDING OFFICER. Are there objections?

Mr. EVANS. Reserving the right to object, a parliamentary inquiry. As the motion is now worded, would it allow even an amendment to the amendment, a perfecting amendment or a modification of the amendment as was proposed?

The PRESIDING OFFICER. There would still be the possibility of amendments to this motion at the end of the time.

Mr. EVANS. Amendments to this motion to waive the Budget Act?

The PRESIDING OFFICER. The Senator is correct.

Mr. EVANS. But as the motion is now written, if it were to be adopted, then what rights will there be subsequent to that for proposed amendments and amendments to those amendments?

The PRESIDING OFFICER. There would be no restriction on germaneness.

Mr. EVANS. Would there be any restriction on amendments thereto?

The PRESIDING OFFICER. There would be no restriction on amendments thereto or germaneness.

Is there objection?

Mr. DANFORTH. Reserving the right to object, Mr. President, may I inquire how much time is left on the reconciliation bill?

The PRESIDING OFFICER. One hour 22 minutes for Senator Domenici and 1 hour 38 minutes for Senator CHILES.

Mr. DANFORTH. So, Mr. President, that would be about 3 hours, is that correct, total, on the reconciliation bill?

The PRESIDING OFFICER. The Senator is correct.

Mr. DANFORTH. And that 3 hours would encompass everything we did with respect to textiles and any other amendment that we would have relating to textiles, of which there will be many.

The PRESIDING OFFICER. That is correct.

Mr. DANFORTH. And further, any other amendments to reconciliation? All of that would have to be encompassed within less than 3 hours; is that correct?

The PRESIDING OFFICER. The Senator is correct.

Mr. DANFORTH. I thank the Chair.

The PRESIDING OFFICER. Is there objection?

Mr. EVANS. Mr. President, reserving the right to object, I wish to ask a further question. I am not sure my question was responded to. Perhaps I did not pose it correctly, or perhaps did not understand the response. The wording now of this motion is: "I move to waive title III of the germaneness requirement of the Budget Act with respect to the pending amendment." Is that the current wording?

The PRESIDING OFFICER. The clerk will read the suggested modification.

The legislative clerk read as follows:

I move in accordance with section 904 of the Budget Act to waive the provisions of title III of the act requiring germaneness of amendments with respect to the pending amendment.

Mr. EVANS. Mr. President, may I ask what is the pending amendment?

The PRESIDING OFFICER. The pending amendment is No. 875 by the Senator from South Carolina.

Mr. EVANS. The senior Senator or the junior Senator?

The PRESIDING OFFICER. Both the junior and the senior Senators.

Mr. EVANS. It is my understanding that if this motion were to pass and a subsequent amendment were to be offered it would not be under this amendment.

The PRESIDING OFFICER. If the motion is so modified, that is correct.

Mr. EVANS. In other words, as I understand the Senator from South Carolina, this amendment was to be the first amendment and a shell amendment, and that he was to offer another amendment subsequent to getting a waiver. Yet the way this is worded, that waiver would not cover the subsequent amendment. Is that correct?

Mr. HOLLINGS. Not necessarily.

The PRESIDING OFFICER. That is correct.

Mr. HOLLINGS. A perfecting amendment would be covered, would it not, I ask the Chair?

The PRESIDING OFFICER. Only if it is germane.

Mr. DOMENICI. A parliamentary inquiry—germane to what?

The PRESIDING OFFICER. Either this amendment or the bill.

Mr. HOLLINGS. So it would be.

The PRESIDING OFFICER. Is there objection?

Mr. EVANS. Still reserving the right to object.

Mr. HOLLINGS. Mr. President, does it require unanimous consent? I would let the RECORD show that I made my motion just as it was read. He asked for it to be reduced in writing. It has been done. I do not know whether I have to get unanimous consent to give my writing up there. Let the RECORD show it. I would ask the reporter to read back my motion.

The PRESIDING OFFICER. It does require unanimous consent. The yeas and nays have been ordered on the motion. Therefore, the Senator has lost the right to modify.

Mr. HOLLINGS. Mr. President, I am not trying to modify. Let the clerk read exactly what I put in.

I said "In accordance with 904(b) I move to waive title III of the germaneness requirements of the Budget Act" on this motion.

I think I can definitely see what the Senator from Washington is concerned about and I was concerned about that; namely, that the next amendment by my distinguished senior colleague be germane. As I understand it, my senior colleague will submit an amendment, if and when recognized, and it will be germane to this and will not require that section 904 be waived if we obtain that particular waiver on this vote.

The PRESIDING OFFICER. Is there objection to the modification?

Mr. EVANS. Mr. President, may I ask one more question, then? Subsequent to the adoption of this modification, as long as the amendments are germane to the textile bill or the reconciliation bill, they will continue to be allowed and no rights are lost under this to offer amendments, especially to the pending amendment, the textile bill?

The PRESIDING OFFICER. This is correct.

Is there objection?

Mr. DOMENICI. Mr. President, reserving the right to object, and I have no objection at this point, this waiver will permit amendments to the amendment that is pending, if they are germane to it. Is that correct?

The PRESIDING OFFICER. Or to the bill.

Mr. DOMENICI. Or to the bill. And is it not correct that that germaneness test is the same as the germaneness test under reconciliation?

The PRESIDING OFFICER. That is correct.

Is there objection?

Hearing none, it is so ordered; the motion is so modified.

The motion as modified is as follows:

I move in accordance with Section 904 of the Budget Act, to waive the provisions of Title III of the Act requiring germaneness of amendments with respect to the pending amendment.

Mr. DOMENICI. Mr. President, how much time do I have left in opposition to the motion?

The PRESIDING OFFICER. The Senator from New Mexico has 9 minutes.

Mr. HOLLINGS. How much time has this side?

The PRESIDING OFFICER. The Senator from South Carolina has 12 minutes.

Mr. DOMENICI. On our side, could we use as little as possible? We are not going to have any time for what I now think are 32 amendments.

Mr. EVANS. Mr. President, let me add two items to the remarks I made earlier. Let me be very clear about it. There is simply no question. Let me reiterate what my chairman has just said.

It is my understanding that there are now 32 amendments pending on the reconciliation bill. I am absolutely positive, absolutely positive that we will take the remaining time—all of it or virtually all of it—on this textile amendment if, indeed, we waive germaneness. There have to be opportunities to offer appropriate amendments. Each amendment takes some time to discuss. If we are going to be rolled over, we are going to take the maximum amount of time to get rolled over. It means that all of those other 32 amendments will not have time to be heard and some of them are very important amendments and ought to be heard.

My second point, Mr. President, is that adding this proposal to the reconciliation bill, in my view, and I believe it is an accurate view, will almost certainly bring a Presidential veto.

All those who have proposals that are now in the reconciliation bill, all those who are concerned about our deficit and the very tough choices we have made to try to bring the deficit under control—I might add to my colleague from North Carolina, his tobacco support program and the pending amendment which relates to offshore oil leases and a number of proposals on Medicare and Medicaid—all will fall, all will fall if the President vetoes this bill, as he almost certainly will. He then very likely will send back to the Senate and to the House of Representatives a message saying "Why." That "why" will very likely list a number of things he would like out of the bill, and I think those of us who have an interest in proposals which have already been adopted or are in this bill ought to think very carefully about adding one more anchor which, in my view, is going to sink the ship.

Mr. DOMENICI. Mr. President, I yield myself 1 minute. I am then prepared, if Senator HOLLINGS is, to yield back the remainder of my time. I hope everybody understands that this reconciliation bill, which will save $86 billion over 3 years, is in jeopardy. If we are going to proceed to waive the Budget Act for this issue, there is not any question that we will place the reconciliation bill in jeopardy. But I am hopeful that after we take a couple of votes, the parties to this amendment will get an idea of where they stand on this legislation and it will have served that purpose.

It is my hope that we will not have to include this bill as part of reconciliation. I am hopeful that we can finish reconciliation tonight or tomorrow and get on with it. I am prepared to yield back the remainder of my time if the Senator is. I am prepared to move to table the amendment.

Mr. HOLLINGS Mr. President, the Senator from South Carolina has been as considerate as he can be. If you want to be considerate to the same extent, as is the Senator from South Carolina's desire, I would as soon have brought this up at the end of the bill and run through the votes. Some of our colleagues said, "Well, that would be rather arrogant; you wouldn't have any time to discuss the amendment. I said, "It's been debated in the halls and on the floor. Everybody is talking about it."

They have talked about it in both caucuses. They defeated it. We have already had a vote. We are not trying to roll over anyone by using all the time. The distinguished Senator has that right, and I understand it to be the case.

Simply put with respect to the President, he has already said through his Chief of Staff, Don Regan, given a list on tobacco, Medicare, and several other measures that he is prepared to veto. So we all know that without even this particular measure being on it. So this is not a measure that is going to cause a veto. This is a measure of serious consideration that has been tried at every angle. It is in accordance with the law. It is in accordance with the precedent set, and it is in accordance with the spirit of that particular precedent.

So unless there is someone else on our side who desires to speak, I am ready to yield back our time.

Mr. DOMENICI. I yield back my time.

Mr. HOLLINGS. I yield back my time.

Mr. DOMENICI. I move to table the pending motion and ask for the yeas and nays.

The PRESIDING OFFICER. Is there a sufficient second? There is a sufficient second.

The yeas and nays were ordered.

The PRESIDING OFFICER. The question is on agreeing to the motion to lay on the table the motion of the Senator from South Carolina [Mr. HOLLINGS].

The clerk will call the roll.

The legislative clerk called the roll.

Mr. STEVENS (When his name was called). On this vote I have a pair with the distinguished Senator from Missouri [Mr. EAGLETON]. If he were present and voting, he would vote "nay." If I were at liberty to vote, I would vote "yea." I therefore withhold my vote.

Mr. SIMPSON. I announce that the Senator from Oregon [Mr. HATFIELD], the Senator from New Hampshire [Mr. HUMPHREY], the Senator from Virginia [Mr. TRIBLE], and the Senator from Connecticut [Mr. WEICKER] are necessarily absent.

I further announce that, if present and voting, the Senator from Oregon [Mr. HATFIELD] would vote "yea."

Mr. CRANSTON. I announce that the Senator from Missouri [Mr. EAGLETON] is necessarily absent.

I further announce that the Senator from New Jersey [Mr. BRADLEY] is absent on official business.

The PRESIDING OFFICER. Are there any other Senators in the Chamber who desire to vote?

The result was announced—yeas 38, nays 55, as follows:

[Rollcall Vote No. 251 Leg.]

YEAS—38

Abdnor	Durenberger	Mathias
Andrews	Evans	Matsunaga
Armstrong	Exon	McClure
Baucus	Garn	Nickles
Bentsen	Goldwater	Packwood
Boren	Gorton	Pressler
Boschwitz	Gramm	Quayle
Chafee	Grassley	Simpson
Chiles	Hart	Stafford
Cranston	Hecht	Symms
Danforth	Kassebaum	Wallop
Dole	Long	Zorinsky
Domenici	Lugar	

NAYS—55

Biden	DeConcini	Harkin
Bingaman	Denton	Hatch
Bumpers	Dixon	Hawkins
Burdick	Dodd	Heflin
Byrd	East	Heinz
Cochran	Ford	Helms
Cohen	Glenn	Hollings
D'Amato	Gore	Inouye

Johnston	Metzenbaum	Rudman
Kasten	Mitchell	Sarbanes
Kennedy	Moynihan	Sasser
Kerry	Murkowski	Simon
Lautenberg	Nunn	Specter
Laxalt	Pell	Stennis
Leahy	Proxmire	Thurmond
Levin	Pryor	Warner
Mattingly	Riegle	Wilson
McConnell	Rockefeller	
Melcher	Roth	

PRESENT AND GIVING A LIVE PAIR, AS PREVIOUSLY RECORDED—1

Stevens, for.

NOT VOTING—6

Bradley	Hatfield	Trible
Eagleton	Humphrey	Weicker

So the motion to table was rejected.

Mr. HOLLINGS. Mr. President, I move to reconsider the vote by which the motion was rejected.

Mr. THURMOND. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

The PRESIDING OFFICER. The question now is on agreeing to the motion of the Senator from South Carolina to waive the Budget Act.

Mr. HOLLINGS. Mr. President, if I may move to withdraw the yeas and nays so we can save some time, I so ask unanimous consent.

The PRESIDING OFFICER. Without objection, it is so ordered.

Several Senators addressed the Chair.

The PRESIDING OFFICER. The question is on the motion of the Senator from South Carolina to waive the Budget Act.

(Putting the question.)

The PRESIDING OFFICER. The Chair is in doubt.

Mr. HOLLINGS. Mr. President, I ask for the yeas and nays then, if Senators want to do it.

I thought the leader wanted to save some time.

Mr. WEICKER. Let us go ahead and have the yeas and nays.

The PRESIDING OFFICER. Is there a sufficient second?

The yeas and nays were ordered.

Mr. DOLE. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the role.

The bill clerk proceeded to call the role.

Mr. WEICKER. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. WEICKER. Mr. President, I ask unanimous consent, and this will not affect the outcome of the vote, that the Senator from Virginia [Mr. TRIBLE] and myself be permitted to be recorded on the last vote.

We were waiting for a subway for 5 minutes from the Hart Building. We were in the building. We were unable to be here because there was no transportation.

I did not want to violate the rules of this body. And if I were out of the building—does the same hold true?

The PRESIDING OFFICER. The Chair will state it again. It is against the rules even to ask that question.

Mr. WEICKER. By unanimous consent?

The PRESIDING OFFICER. Even to ask unanimous consent for that question, to add names to a vote after it has been announced.

So the request is not in order.

Several Senators addressed the Chair.

Mr. DOLE. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The bill clerk proceeded to call the roll.

Mr. MATHIAS. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

The question is on agreeing to the motion of the Senator from South Carolina to waive the Budget Act.

On this question, the yeas and nays have been ordered, and the clerk will call the roll.

The bill clerk called the roll.

Mr. STEVENS. Mr. President, on this vote, I have a pair with the distinguished Senator from Missouri [Mr. EAGLETON]. If he were present and voting, he would vote "yea." If I were at liberty to vote, I would vote "nay." Therefore, I withhold my vote.

Mr. SIMPSON. I announce that the Senator from Oregon [Mr. HATFIELD] is necessarily absent.

I further announce that, if present and voting, the Senator from Oregon [Mr. HATFIELD] would vote "nay."

Mr. CRANSTON. I announce that the Senator from Missouri [Mr. EAGLETON] is necessarily absent.

I further announce that the Senator from New Jersey [Mr. BRADLEY] is absent on official business.

The PRESIDING OFFICER. Are there any other Senators in the Chamber wishing to vote?

The result was announced—yeas 57, nays 39, as follows:

[Rollcall Vote No. 252 Leg.]

YEAS—57

Biden	Heflin	Murkowski
Bingaman	Heinz	Nunn
Bumpers	Helms	Pell
Burdick	Hollings	Proxmire
Byrd	Inouye	Pryor
Cochran	Johnston	Riegle
Cohen	Kasten	Rockefeller
D'Amato	Kennedy	Roth
DeConcini	Kerry	Rudman
Denton	Lautenberg	Sarbanes
Dixon	Laxalt	Sasser
Dodd	Leahy	Simon
East	Levin	Specter
Ford	Mattingly	Stennis
Glenn	McConnell	Thurmond
Gore	Melcher	Trible
Harkin	Metzenbaum	Warner
Hatch	Mitchell	Weicker
Hawkins	Moynihan	Wilson

NAYS—39

Abdnor	Durenberger	Lugar
Andrews	Evans	Mathias
Armstrong	Exon	Matsunaga
Baucus	Garn	McClure
Bentsen	Goldwater	Nickles
Boren	Gorton	Packwood
Boschwitz	Gramm	Pressler
Chafee	Grassley	Quayle
Chiles	Hart	Simpson
Cranston	Hecht	Stafford
Danforth	Humphrey	Symms
Dole	Kassebaum	Wallop
Domenici	Long	Zorinsky

PRESENT AND GIVING A LIVE PAIR, AS PREVIOUSLY RECORDED—1

Stevens, against.

NOT VOTING—3

Bradley	Eagleton	Hatfield

So the motion was agreed to.

Mr. HOLLINGS. Mr. President, I move to reconsider the vote by which the motion to waive the Budget Act was agreed to.

Mr. DOLE. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

AMENDMENT NO. 876

(Purpose: To achieve the objectives of the Multi-Fiber Arrangement, to promote the economic recovery of the United States textile and apparel industry and its workers, to reduce unemployment, and for other purposes.)

Mr. THURMOND. Mr. President, I send an amendment to the desk and ask for its immediate consideration.

The PRESIDING OFFICER. The clerk will report.

The assistant legislative clerk read as follows:

The Senator from South Carolina [Mr. THURMOND] (for himself, Mr. HOLLINGS, Mr. MOYNIHAN, Mr. HELMS, Mr. HEFLIN, Mr. HEINZ, Mr. COHEN, Mr. WARNER, Mr. KENNEDY, Mr. MITCHELL, Mr. EAGLETON, Mr. SPECTER, Mr. EAST, Mr. COCHRAN, Mr. TRIBLE, Mr. DENTON, Mr. D'AMATO, Mr. SASSER, Mr. HATCH, Mr. PELL, Mr. MATTINGLY, Mr. ROCKEFELLER, Mrs. HAWKINS, Mr. GORE, Mr. DIXON, Mr. DODD, Mr. SIMON, Mr. FORD, Mr. DECONCINI, Mr. PRYOR, Mr. MATHIAS, Mr. LONG, Mr. LEAHY, Mr. METZENBAUM, Mr. RIEGLE, Mr. WEICKER, Mr. MCCONNELL, Mr. KASTEN, Mr. GLENN, Mr. BUMPERS, Mr. NUNN, and Mr. BYRD) proposes an amendment numbered 876.

Mr. THURMOND. Mr. President, I ask unanimous consent that further reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

Beginning on page 1 of the pending amendment strike all after line 3 and insert the following:

"This title may be cited as the 'Textile and Apparel Trade Enforcement Act of 1985'.

"SEC. 1202. POLICY.

"The policy of this title is—

"(1) to prevent further disruption of the United States textiles and textile products markets, damage to United States textile and apparel manufacturers, and loss of jobs by United States workers by providing for

orderly and nondisruptive growth of imports of textiles and textile products; and

"(2) to implement the objectives of the Multi-Fiber Arrangement by requiring the effective enforcement of import levels of textiles and textile products contemplated by the Multi-Fiber Arrangement.

"SEC. 1203. FINDINGS.

"The Congress finds that—

"(1) the United States and most major textile producing countries are parties to the Multi-Fiber Arrangement, the purpose of which is to ensure the orderly growth of imports of textiles and textile products and to avoid disruption of the markets for textiles and textile products in importing nations;

"(2) the Multi-Fiber Arrangement, which first entered into force on January 1, 1974, and which was most recently extended in December 1981, through July 1986, contemplates a 6 per centum annual rate of growth for imports for most exporting countries and provides for a lower rate of growth for imports from significant exporting countries;

"(3) since 1980, the objective of orderly growth of imports of textiles and textile products for in the Multi-Fiber Arrangement has not been achieved; from 1981 through 1984 imports of textiles and textile products into the United States have grown at an annual rate of 19 per centum, far in excess of the 1 per centum growth rate of the United States market for textiles and textile products during the same period and far in excess of the annual rate of import growth of less than 2 per centum that prevailed during the period 1974 through 1980;

"(4) the disruptive surge in imports of textiles and textile products which occurred from 1981 through 1984 resulted from the failure of the United States to enforce adequately its rights under the Multi-Fiber Arrangement and to extend coverage of the Multi-Fiber Arrangement to imports made of competing fibers;

"(5) import growth of apparel products has substantially outstripped the growth of the domestic market so that import penetration of the domestic market has more than doubled in the last six years, reaching a level of 50 per centum in 1984;

"(6) based on a nationwide audit of major retail outlets, the import penetration of such major items of apparel as trousers, blouses, shirts, suits, skirts and sweaters exceeds 50 per centum of domestic consumption;

"(7) since the most recent extension of the Multi-Fiber Arrangement, certain exporting countries have sharply increased their exports of textiles and textile products made in whole or in part from fibers not subject to the Multi-Fiber Arrangement with the effect of circumventing restraints agreed to under the Arrangement; the increased imports of these textiles and textile products have caused disruption of the United States market for textiles and textile products and have seriously undercut the effectiveness of the Multi-Fiber Arrangement;

"(8) imports of textiles and textile products into the United States are predominantly the product of significant exporting countries, with five large exporting countries now accounting for more than 50 per centum of all imports of textiles and textile products;

"(9) the domination of import trade by producers in the significant producing countries has limited participation in the United States market by other producing countries, many of which share important trade and other national interests, and encourage mutually beneficial trade and investment, with the United States;

"(10) a change in United States textile trade policy to afford the smaller producing countries and countries in the Caribbean region a relatively greater share of imports of textiles and textile products would promote the national economic interests of the United States;

"(11) the textile and apparel trade deficit of the United States was more than $16,200,000,000 in 1984, an increase of 53 per centum over 1983, and accounted for 13 per centum of the Nation's overall merchandise trade deficit;

"(12) the current level of imports of textiles and textile products, ten billion square yard equivalents in 1984, represents over one million job opportunities lost to United States workers;

"(13) imported textiles and textile products now account for 38 per centum (the equivalent of three million two hundred thousand bales of cotton) of the annual cotton consumption in the United States; only one of five of the bale equivalents included in imported textiles and textile products is grown in the United States; the result of the massive increases in cotton textile and apparel imports has been a declining market share for, and a $1,000,000,000 loss to, domestic cotton producers in 1983 alone, which was only partially offset by Federal cotton program benefits; another result is that United Stats cotton producers, who are spending about $20,000,000 annually in research and promotion efforts, have built markets not for themselves but for foreign growers;

"(14) imports of wool products have doubled since 1980, creating major disruptions among domestic wool products producers and seriously depressing the price of United States produced raw wool; the Multi-Fiber Arrangement recognizes that imports of certain products, such as wool products, in certain countries, including the United States, pose particular problems for certain industries, such as, the wool products industries in those countries and import growth rates of 1 per centum or less have been permitted in such cases;

"(15) as a result of this increased penetration and the very limited growth of the domestic market, the United States companies producing textiles and textile products identical, or similar, to those imported have been seriously damaged, many of them have been forced out of business, many have closed plants or curtailed operations, workers in such companies have lost employment and have been otherwise materially and adversely affected, and serious hardship has been inflicted on hundreds of impacted communities causing a substantial reduction in economic activity and lost revenues to local governments;

"(16) the increase in imports and increased import penetration of the United States domestic market have occurred notwithstanding the fact that, through extensive modernization programs and investment in more modern equipment, productivity, as measured by output per man hour, in the textile mill products sector has increased in the last ten years at the average annual rate of 4.2 per centum and in the apparel sector at the average annual rate of 3.4 per centum; as compared with the lower productivity growth of all manufacturing in the same period of 1.9 per centum;

"(17) the factors described above are causing serious damage, or the actual threat thereof, to domestic producers of textiles and textile products; as a result, market disruption exists in the United States requiring the new measures established under this Title;

"(18) based on experience during the past ten years and on other factors, the growth of the United States market for textiles and textile products is unlikely to exceed an average annual rate of 1 per centum during the next several years;

"(19) if the rate of growth of imports of textiles and textile products into the United States that occurred since 1980 continues, plant closings will continue to accelerate, leaving the United States market with reduced domestic competition for imported products;

"(20) in order to avoid further market disruption and deterioration of the situation confronting the United States industry producing textiles and textile products, which is already seriously damaged, it is essential—

"(A) to require the establishment of import levels for textiles and textile products supplied by major producing countries that reflect—

"(i) the import level that would have occurred had imports from these countries grown since 1980 by the 6 per centum annual growth rate contemplated by the Multi-Fiber Arrangement, or 1 per centum in the case of wool products, or

"(ii) the actual import level resulting from restraints under a bilateral agreement with the United States providing for an annual import growth rate of less than 6 per centum, whichever is the lesser,

"(B) to require the establishment of import levels for textiles and textile products supplied by producing countries that reflect their 1984 import levels,

"(C) to require the establishment of import levels for textiles and textile products supplied by small producing countries that provide a significant increase in their market shares to meet their development needs and to permit future growth in such shares consistent with the Multi-Fiber Arrangement, and

"(D) to limit the future growth rate of imports of textiles and textile products into the United States to levels which reflect orderly growth as provided for in the Multi-Fiber Arrangement and the most recent Protocol extending the Multi-Fiber Arrangement;

"(21) the establishment of import levels, and limitation on future import growth to levels, that reflect effective enforcement of the Multi-Fiber Arrangement and that also reflect the expected growth rate of the United States market for textiles and textile products will fulfill announced policy objectives of the United States regarding trade in textiles and apparel;

"(22) as the Department of Defense has long recognized, a strong, viable and efficient domestic textiles and textile products industry is essential in order to avoid impairment of the national security of the United States;

"(23) the developments that have led to the sharp increase in imports of textiles and textile products since 1980 may not have been foreseeable; nevertheless, the rights of the United States under international agreements should have been invoked in order to prevent increased quantities of textiles and textile products from being imported under such conditions as to cause or threaten serious damage to domestic producers of textiles and textile products in the United States; and

"(24) the sharp increase in imports of textiles and textile products since 1980, and the effect of this increase on the United States textiles and apparel industry and its workers, constitutes exceptional circumstances within the meaning of the Milti-Fiber Arrangement and its Protocol.

"SEC. 1204. DEFINITIONS.

"For purposes of this title—

"(1) The term "Textiles and textile products" includes, but is not limited to, all tops, yarns, piece goods, made-up articles, apparel, manmade fibers, and other textile manufactured products (which derive their chief characteristics from their textile components) made in whole or in part from any natural or manmade fiber, or blend thereof, that are classified under schedule 3, part 6 of schedule 6, part 1, 4, 5 (except subpart E), 7, or 13 of schedule 7, or part 1 of schedule 8 of the Tariff Schedules of the United States or part 1 of the Appendix to the Tariff Schedules of the United States;

"(2) The term "category" means, with respect to textiles and textile products that are the product of a country, each of the following—

"(A) each category of textiles and textile products identified by a three-digit textile category number in the Department of Commerce publication "Correlation: Textile and Apparel Categories with Tariff Schedules of the United States Annotated", dated January 1985 and, subsequently, in the first edition of such document that is revised to reflect the adoption by the United States of the Nomenclature Structure of the Harmonized System;

"(B) with respect to each country with which the United States has (i) an agreement on the date of enactment of this title limiting exports of textiles and textile products to the United States that includes specific limitations on subdivisions of a category described in subparagraph (A), or (ii) taken unilateral action to limit products entered under such a subdivision, each such subdivision;

"(C) a category consisting of the manmade fiber products classified under subpart E of part 1 of schedule 3 to the Tariff Schedules of the United States; and

"(D) each category consisting of each of the following products when, because of fiber content, that product is not subject to the Multi-Fiber Arrangement:

"(i) yarn,

"(ii) fabric,

"(iii) apparel, and

"(iv) other textile products;

"(3) The term "import sensitive category" means—

"(A) a category (other than a category applicable to textiles and textile products that are a product of a country in the Caribbean region) for which the ratio of imports to domestic production, as reported in the Department of Commerce publication "U.S. Production, Imports and Import/Production Ratios for Cotton, Wool and Man-Made Fiber Textiles and Apparel", equals or exceeds 40.0 for the preceding calendar year; and

"(B) a category covering wool products;

"(4) The term "country" means a foreign country (other than Canada and the Member States of the European Economic Community as constituted on December 31, 1984), a foreign territory, an insular possession of the United States, or any other territory, possession, colony, trusteeship or political entity, whether affiliated with the United States or not, that is outside the customs territory of the United States;

"(5) The term "major producing country" means a country the annual aggregate quantity of textiles and textile products of which that entered under the categories referred to in paragraph (2)(A) during calendar year 1984 equalled or exceeded 10 percent of all textiles and textile products under such categories that entered from all countries and from Canada and the Member States of the European Economic Community during calendar year 1984;

"(6) The term "producing country" means a country (other than a major producing country and a country in the Carribean region) the annual aggregate quantity of textiles and textile products of which that entered under the categories referred to in paragraph (2)(A) during calendar year 1984 equalled or exceeded 1.25 per centum of all textiles and textile products under such categories that entered from all countries and from Canada and the Member States of the European Economic Community during calendar year 1984;

"(7) the term "small producing country" means a country other than a major producing country and a producing country;

"(8) The term "country in the Caribbean region" means Mexico and a country eligible for designation as a beneficiary country under section 212 of the Caribbean Basin Economic Recovery Act (19 U.S.C 2702);

"(9) The term "wool product" means an article containing over 17 per centum by weight of wool;

"(10) The term "cotton, wool and manmade fiber sweaters" means articles classified under categories 345, 445, 446, 645 or 646 as defined in the Department of Commerce publication "Correlation Textile and Apparel Categories with Tariff Schedules of the United States Annotated," dated January 1985;

"(11) The term "entered" means entered, or withdrawn from warehouse, for consumption in the customs territory of the United States; and

"(12) The term "Multi-Fiber Arrangement" means the Arrangement Regarding International Trade in Textiles, as extended by the Protocol done at Geneva, December 22, 1981.

"SEC. 1205. LIMITS ON TEXTILE AND APPAREL IMPORTS.

"(a) CALENDAR YEAR 1985.— Notwithstanding any other provision of law, the aggregate quantity of textiles and textile products classified under a category that is entered during calendar year 1985 shall not exceed—

"(1) in the case of textiles and textile products that are a product of a major producing country, other than textile luggage and textile handbags, and textile flat goods subject (as of the date of enactment of this Title) to a specific limitation under an agreement with a major producing country, the lesser of an amount equal to 101 per centum—

"(A) of the aggregate quantity of such products of such country classified under such category that would have entered during calendar year 1984 if the aggregate quantity of such products of such country classified under such category entered during calendar year 1980 had increased by 6 per centum annually, or 1 per centum annually in the case of a category covering a wool product, during calendar years 1981, 1982, 1983, and 1984, or

"(B) If the United States has an agreement with such country providing for an annual growth rate for such category of less than 6 per centum, of the aggregate quantity of such products of such country classified under such category that entered during calendar year 1984;

"(2) in the case of textile luggage and textile handbags and textile flat goods subject (as of the date of enactment of this Title) to specific limitation under an agreement with a major producing country, the specific limitation quantity in effect as of the date of enactment of this Title;

"(3) in the case of textiles and textile products that are a product of a producing country, an amount equal to the aggregate quantity of—

"(A) such products from such country classified under such category that entered during calendar year 1984, or

"(B) in the case of textile luggage and textile handbags and textile flat goods subject (as of the date of enactment of this Title) to specific limitation under an agreement with a producing country, the specific limitation quantity in effect as of the date of enactment of this Title;

"(4) in the case of textiles and textile products that are a product of a small producing country (other than cotton, wool, and man-made fiber sweaters described in paragraph (5)), an amount equal to the sum of—

"(A) the aggregate quantity of such products of such country classified under such category that entered during calendar year 1984, plus

"(B) an amount equal to—

"(i) 15 per centum of such quantity, in the case of a category that is not an import sensitive category, or

"(ii) 1 per centum of such quantity, in the case of a category that is an import sensitive category; and

"(5) in the case of cotton, wool and manmade fiber sweaters that are—

"(A) the product of substantial assembly operations in Guam from otherwise completed knit-to-shape component parts, an aggregate amount equal to 160,000 dozen; and

"(B) the product of substantial assembly operations in the Commonwealth of the Northern Mariana Islands from otherwise completed knit-to-shape component parts, an aggregate amount equal to 70,000 dozen.

"If application of paragraph (1) would result in the aggregate quantity of textiles and textile products of a major producing country classified under all categories permitted to enter during calendar year 1985 to be less than 70 per centum of the aggregate quantity of such products of such country that entered during calendar year 1984, then, notwithstanding paragraph (1), the aggregate quantity of textiles and textile products of such country that may be entered under each category during calendar year 1985 shall not be less than 40 per centum of the aggregate quantity of such products of such country that entered under such category during calendar year 1984.

"(b) GROWTH ADJUSTMENT.—For calendar years after 1985, the aggregate quantity of textiles and textile products classified under each category that may be entered during each such calendar year shall—

"(1) in the case of such products that are a product of a major producing country or of a producing country, be increased by an amount equal to 1 per centum of the aggregate quantity that could be entered under such category during the preceding calendar year; and

"(2) in the case of such products that are a product of a small producing country, be increased by an amount equal to—

"(A) in the case of a category (other than an import sensitive category), 6 per centum of the aggregate quantity that could be entered under that category during the preceding calendar year, and

"(B) in the case of an import sensitive category, 1 per centum of the aggregate quantity that could be entered under that category during the preceding calendar year.

"If the aggregate quantity that could be entered under a category for a calendar year after 1985 is reduced under section 1210(b), than in the first calendar year in which there is no such reduction, this subsection shall be applied as if there had been no reduction under section 1210(b) in previous calendar years.

"(c) MINIMUM QUANTITIES.—If, under subsection (a) or (b), the aggregate quantity of textiles and textile products of a country that may be entered during a calendar year under a category is—

"(1) less than one million square yard equivalents, in the case of a category covering yarn, fabric, made-ups, and miscellaneous products, other than wool products;

"(2) less than seven hundred thousand square yard equivalents, in the case of a category covering apparel, other than wool products apparel; or

"(3) less than one hundred thousand square yard equivalents, in the case of a category covering wool products,

"then, notwithstanding subsection (a) or (b), the aggregate quantity of textiles and textile products that may be entered from such country under such category during the calendar year shall be one million, seven hundred thousand, or one hundred thousand square yard equivalents, respectively. The amount prescribed in the preceding sentence shall be accorded growth subject to the provisions of subsection (b) beginning the first calendar year after the aggregate quantity of imports from such country under such category equals the minimum quantity prescribed under this subsection.

"(d) SPECIAL RULE.—For purposes of this section, if during any calendar year after 1984, the aggregate quantity of textiles and textile products that are the product of a small producing country, other than a country in the Caribbean region, and that are entered under the categories referred to in paragraph (2)(A) of section 1204 equals or exceeds 1.25 per centum of all textiles and textile products entered under such categories from all countries and from Canada and the Member States of the European Economic Community during such calendar year, then such small producing country shall be considered to be a producing country for all succeeding calendar years.

"(e) ENFORCEMENT.—The Secretary of Commerce shall prescribe such regulations governing the entry, or withdrawal from warehouse, for consumption of textiles and textile products as may be necessary to carry out this title.

"SEC. 1206. IMPORT LICENSING.

"In order to ensure the equitable and efficient administration of section 1205 of this title, the Secretary of Commerce shall, within six months after the date of enactment of this title, establish and administer an import licensing system under which an importer of any textiles and textile products from any country and from Canada and the Member States of the European Economic Community, will be required to present an import permit as a condition of entry. The Secretary shall charge a fee for import licenses in such amount as may be necessary to cover the cost of administration of the system. The Secretary of the Treasury shall make all determinations regarding classification under the Tariff Schedules of the United States, appraisement, and valuation of products subject to licensing under this section.

"SEC. 1207. ANNUAL REPORT.

"Not later than March 15, 1986, and March 15 each calendar year thereafter, the President shall submit to the Congress a report on the administration of this title during the preceding calendar year. Such report shall include detailed information about the implementation and operation of the limitations established under section 1205. All departments and agencies shall cooperate in preparation of this report, as requested by the President.

"SEC. 1208. REVIEW.

"The Secretary of Commerce shall commence ten years after the date of enactment of this title a formal review of the operation of the Textile Import Control Program under the provisions of this title. The Secretary shall consult members and committees of Congress, representatives of the labor unions and the industries affected by the program, and appropriate government agencies. Within six months after the commencement of the study, the Secretary shall submit to Congress his findings as well as his recommendations for the future conduct of the program.

"SEC. 1209. DUTY FREE ENTRY OF CERTAIN SWEATERS FROM GUAM AND THE NORTHERN MARIANAS.

"Subpart A of part 7, schedule 3 of the Tariff Schedules of the United States (19 U.S.C. 1202) is amended by adding at the end thereof the following new item:

"'385.97	Cotton, wool and man-made fiber sweaters that are entitled to enter under the quotas established under section 205(a)(5) of the Textile and Apparel Trade Enforcement Act of 1985 or the increased quotas under section 205(b) of such Act that adjust the quotas under such section 205(a)(5) and that do not contain foreign materials to the value of more than 50 percent of their total value as this standard is applied pursuant to Headnote 3(a) of the General Headnotes and Rules of Interpretation.	Free

"SEC. 1210. EFFECTIVE DATE.

"(a) IN GENERAL.—Subject to the provisions of subsection (b), the provisions of this title shall apply to textiles and textile products entered, or withdrawn from warehouse, for consumption on or after the date of enactment of this Act.

"(b) CALENDAR YEARS 1985 AND 1986.—The Secretary of Commerce shall determine, and publish in the Federal Register, the aggregate quantity, if any, of textiles and textile products that may be entered under section 1205(a) or (c) of this title from each country under each category during the period beginning on the date of enactment of this title and ending December 31, 1985. Notwithstanding subsection (a), to the extent that the aggregate quantity of imports of textiles and textile products from a country under a category entered after December 31, 1984, and before the date of enactment of this title exceeds the quantity permitted entry for such country and such category during calendar year 1985 under subsection (a) or (c) of section 1205, then the limit that would otherwise apply under section 1205(b) or (c) for such category for such country for calendar year 1986 shall be reduced by the amount of such excess quantity. If such excess quantity exceeds the limit that would otherwise apply under section 1205(b) or (c) for such category for such country for calendar year 1986, then the limit for such category and country for calendar years after 1986 shall be reduced until such excess is accounted for.

"TITLE XIII—FOOTWEAR

"SEC. 1301. SHORT TITLE

"This title may be cited as the 'American Footwear Industry Recovery Act of 1985'.

"SEC. 1302. FINDINGS AND PURPOSE.

"(a) The Congress finds that—

"(1) The domestic nonrubber footwear industry is important to the national economy, and footwear firms are vital to the economic health of small towns throughout the United States.

"(2) The domestic nonrubber footwear industry is highly labor intensive, and low capital requirements for entry into footwear production make it a primary target for industrializing on newly industrialized countries. As a consequence, footwear is produced in virtually every footwear consuming country in the world.

"(3) Tremendous competitive pressure has been created in the world footwear market in the last decade as a result of rapidly growing production and capacity in numerous developing and developed countries. This development has resulted in the widespread erection of tariff and nontariff barriers by foreign countries designed to protect their domestic footwear industries.

"(4) The United States has historically resisted the protectionist trends of other producing nations and has instead maintained a market distinguished by its accessibility. As a result, the United States market has become a focal point for world trade in nonrubber footwear.

"(5) The diversion of international trade to the United States market has resulted in serious injury to domestic producers as manifested by—

"(A) the loss of 155,000 footwear jobs since 1968,

"(B) a decline in domestic production and production capacity, and

"(C) the permanent closure of over 500 plants during the same period.

"(6) The serious injury to domestic producers poses a significant danger to the industry's supplier base as well.

"(7) The domestic nonrubber footwear producers have made a significant commitment to the future of the industry through substantial capital investment.

"(8) Since the termination of temporary import relief in 1981, capital investment in the domestic nonrubber footwear industry has declined as the industry struggled to battle the massive surge in imports which increased the percentage share of imported footwear in the United States market from 51 percent in 1981 to 77 percent in 1985.

"(9) Without the restriction of import levels, capital investment in this domestic industry will continue to decrease.

"(10) The domestic nonrubber footwear industry has thrice been judged by the International Trade Commission, as recently as May 1985, to be seriously injured by imports.

"(11) Since the termination of the two, four-year orderly marketing agreements in 1981, the harm to the domestic industry is even more critical than the serious injury which triggered the Commission's unanimous findings in 1976 and 1977.

"(12) The domestic nonrubber footwear industry has not been afforded adequate

and appropriate relief from imports; therefore, the Congress concludes that—

"(A) the administrative process under sections 201, 202, and 203 of the Trade Act of 1974 has proven inadequate; and

"(B) in the absence of and effective remedy under such process, legislative relief is essential.

"(b)(1) It is the purpose of Congress in enacting this section to—

"(A) promote and expend the economic health of the United States nonrubber footwear industry,

"(B) preserve the jobs of American workers, and

"(C) prevent the further decline of this important domestic industry.

"(2) It is declared to be the policy of Congress that access to the United States market for foreign-produced nonrubber footwear should be on an equitable basis to ensure orderly trade in nonrubber footwear, reduce unfair trade in nonrubber footwear, and address United States balance-of-payments problems, or which footwear is the seventh largest component. In order to accomplish these objectives, it is deemed necessary and appropriate to limit imports of nonrubber footwear into the United States market.

"SEC. 1303. DEFINITIONS.

"For purposes of this title—

"(1) The term 'entered' means entered, or withdrawn from warehouse, for consumption in the customs territory of the United States.

"(2) The term 'Secretary' means Secretary of Commerce.

"(3) The term 'nonrubber footwear' means the following categories of nonrubber footwear products, identified by reference to the following item numbers of the Tariff Schedules of the United States (as in effect on January 1, 1985): 700.05 through 700.45; 700.56; 700.72 through 700.83; and 700.95.

"(4) The term 'apparent domestic consumption' means, with respect to any 1-year period, the sum of imports plus domestic production less exports.

"SEC. 1304. QUANTITATIVE LIMITATION ON NONRUBBER FOOTWEAR.

"(a)(1) During the 8-year period beginning on the date of enactment of this title, the aggregate number of pairs of nonrubber footwear which may be entered during any 1-year period shall not exceed 60 percent of the estimated apparent domestic consumption of nonrubber footwear for such period.

"(2) The quantitative limitation imposed by paragraph (1) for any 1-year period shall be distributed among the following categories of nonrubber footwear so that the aggregate number of pairs of nonrubber footwear in such category which may be entered during any 1-year period shall not exceed the quantity equal to—

"(A) in the case of nonrubber footwear with a customs value that does not exceed $1.25 per pair, 10 percent of apparent domestic consumption of nonrubber footwear for such period,

"(B) in the case of nonrubber footwear with a customs value that exceeds $1.25 per pair but does not exceed $2.50 per pair, 5.4 percent of apparent domestic consumption of nonrubber footwear for such period, and

"(C) in the case of nonrubber footwear with a customs value that exceeds $2.50 per pair, 44.6 percent of apparent domestic consumption of nonrubber footwear for such period.

"(b) Within sixty days after the effective date of this title, and on the first day of the fourth quarter of each 1 year period thereafter, the Secretary shall determine on the basis of the best information available, including his own or independent forecasts, the expected apparent domestic consumption of nonrubber footwear for, in the case of the initial determination, the remainder of the current 1 year period and in the case of the first day of the fourth quarter of each 1 year period thereafter, the next succeeding 1 year period. On each such date, the Secretary shall determine and publish in the Federal Register the allocation for the next succeeding 1 year period of permissible imports of nonrubber footwear as required by this section.

"(c) On the first days of the first, second, and third quarters of each 1 year period, the Secretary shall revise the determinations of expected apparent domestic consumption made under subsection (b) for the current 1 year period on the basis of the best information then available and shall make such adjustments in the quantity of nonrubber footwear permitted to be imported under this section as indicated by the revision. All revisions and adjustments made under this subsection shall be published in the Federal Register.

"(d) If the revised determination of expected apparent domestic consumption published in the Federal Register under subsection (c) on the first day of the third quarter in any 1 year period for nonrubber footwear varies from the actual apparent domestic consumption of nonrubber footwear for such 1 year period, the Secretary shall publish in the Federal Register on the first day of the second quarter of such succeeding 1 year period a revision to the determination of expected apparent domestic consumption for such 1 year period made under subsection (c) of this section. The revision shall be in the amount of such variance and shall be in addition to any other revision that would be made on any such first day of the second quarter under subsection (c) of this section.

"(e)(1) The Secretary and the Secretary of the Treasury shall take such actions within their respective jurisdictions as may be necessary or appropriate to enforce the provisions of this section, including without limitation, the issuance of orders to customs officers to bar entry to merchandise if the entry of such merchandise would cause the limitations established under this section to be exceeded.

"(2)(A) The Secretary and the Secretary of the Treasury are each authorized to issue such implementing regulations, including the issuance of import licenses, as may be necessary or appropriate to effect the purposes of this section and to enforce the provisions of this section.

"(B) Before prescribing any regulations under subparagraph (A), the Secretary or the Secretary of the Treasury, as the case may be, shall—

"(i) consult with interested domestic parties,

"(ii) afford an opportunity for such parties to comment on the proposed regulations, and

"(iii) consider all such comments before prescribing final regulations.

"SEC. 1305. COMPENSATION AUTHORITY.

"For purposes of section 123 of the Trade Act of 1974 (19 U.S.C. 2133), the imposition of the quantitative limitation under section 1304 shall be treated as action taken under section 203 of the Trade Act of 1974 (19 U.S.C. 2253).".

Mr. THURMOND. Mr. President, I ask for the yeas and nays.

The PRESIDING OFFICER. Is there a sufficient second? There is a sufficient second.

The yeas and nays were ordered.

Mr. THURMOND. Mr. President, how much time is allotted on each side?

The PRESIDING OFFICER. Thirty minutes is allotted to each side on the second-degree amendment.

Mr. THURMOND. Mr. President, we are willing to use only 10 minutes instead of 30 minutes if the other side agrees.

The PRESIDING OFFICER. Is the Senator putting that in the form of a unanimous-consent request?

Mr. THURMOND. I put it in the form of a unanimous-consent request.

Mr. DANFORTH. Mr. President, reserving the right to object, I wonder if the Senator from South Carolina can describe to the Senate what the second-degree amendment does?

Mr. THURMOND. It is similar to the amendment that was previously offered and includes only a few technical changes.

Mr. DANFORTH. Basically, the purpose is to shut out other amendments. Is that correct?

Mr. THURMOND. Basically, the purpose is to pass this textile amendment to save jobs for American workers. [Laughter.]

Mr. DANFORTH. I understand the Senator. I was just concerned and interested in what the tactic was. As I understand it, the purpose here is to have a second-degree amendment which is a perfecting amendment.

Mr. THURMOND. This is a perfecting amendment. That is correct.

Mr. DANFORTH. I thank the Senator.

The PRESIDING OFFICER. Is there objection?

Mr. GRAMM. Mr. President, reserving the right to object, I have no idea how many people want to speak in opposition to this amendment and to the bill before us. I have withheld speaking on it to see if we were going to override the rules of the Senate on germaneness as it related to the Budget Act. I think it is important that this bill be debated, and I unless I can get some assurance that I will have an opportunity to speak in opposition to what I consider to be raw protectionism against the interests of the American people, I object.

The PRESIDING OFFICER. Objection is heard.

The Senator from South Carolina has 30 minutes. The opposition to the amendment has 30 minutes.

The Senator from South Carolina is recognized.

Mr. THURMOND. Mr. President, I called attention earlier today to the article in the Los Angeles Times by Mr. Christopher Layne. I hope every

Senator on the floor will read this article.

Quoting again from that article:

As Johns Hopkins Professor David Calleo has observed, the postwar free-trade system flourished because "expanding prosperity . . . permitted a game with many winners and few losers." However, as "growth slowed, free trade was hurting more and more domestic interests everywhere, and the essentially mercantilist character of states was reasserting itself." Under such conditions, international economics diverges from the comparative-advantage, free model and begins to resemble a zero-sum game as governments become more conscious of the political and strategic ramifications of economic policy.

Free-traders justify their position by pointing out that under the doctrine of comparative advantage, everyone will gain something from international free trade. In strategic terms, however, the key question is not "Will everyone gain something?" but "Who gains the most?" It is the latter question that should guide Washington's international economic policy.

Viewed in historical perspective, the United States is at a juncture similar to Great Britain's at the turn of the century. The outward flow of British capital and technology, combined with the growth of tariff-protected competing industries in rival nations, enabled the United States, Germany and Japan to gain an ever-increasing economic and political advantage over England.

Although free trade actually undermined London's geopolitical interests, comparative advantage remained the intellectual basis of British trade policy. Few analysts, notably Joseph Chamberlain and J.A. Hobson, recognized that England could remain a great power only by adopting mercantilist policies that protected its domestic economy at the expense of its international economic commitments.

Chamberlain and Hobson were right: Commitment to a free-trade system that no longer advanced its interest was a critical factor in the collapse of British power.

For a nation suffering from political and economic decline, as America is, mercantilism is the most prudent economic strategy. Even those of us who believe in the theoretical superiority of free-market solutions must face the fact that the international economy is inherently mercantilistic and that, in a mercantilist world, free trade must end at the water's edge.

As Adam Smith said, "Defense is much more important than opulence." Thus, the thrust of our economic policy should be to maximize, increase our power relative to that of other states. In this context national security is more important than economic efficiency.

Mercantilism does not mean that we no longer would have trade relations with the rest of the world. But America's approach to international economic policy must change. Trade should occur within a framework that enhances our fundamental national economic and security interests. International economic policy is too vital an instrument of statecraft, and the economy is too important as the essential foundation of national strength, to be left solely to private decision-making in a market context.

The fundamental objectives of a mercantilist policy are clear: to link American international economic policy to overall national-security policy, to preserve America's vital industries.

That is what we are trying to do here.

to control domestic inflation,

That is what we are trying to do here.

to discourage the outflow of capital and technology and encourage domestic savings and investment

That is what we are trying to do here.

to minimize American dependence on markets and sources of raw materials over which our strategic control is tenuous.

And that is what we are trying to do here.

America has reached a historical turning point. Rather than attempting to salvage the postwar free-trade system, we should focus instead on developing a new American international economic policy based on sound principles of political economy.

Mr. President, this article is by Christopher Layne, who is an attorney and foreign policy expert from Los Angeles. He said it about as well as anyone can say it. The question is whether we are going to maintain the jobs for Americans or let them continue to go overseas.

Already, as I said earlier, half or more of the textile and apparel in this country is imported. We are depriving our own workers of the opportunity to work and in my judgment that is a great mistake.

Still, Mr. President, one out of every 10 manufacturing jobs in this country is in the textile and apparel industry. That is more jobs than automobiles and steel combined.

Mr. President, I am an agricultural supporter—I grew up on a farm and I am interested in the American farmer. Many of our farmers are having a tough time. This amendment would also help them. If import growth continues at current levels, cotton producers face the elimination of most of their domestic market in 4 years. Wool growers, whose production has dropped 75 percent since World War II, would also benefit from this legislation. By keeping textile and apparel manufacturing in this country we are also helping our American farmers.

This amendment merely limits somewhat the imports which have taken over more than half of the American markets, and which have destroyed millions of jobs here. By 1990 it is estimated that imports could destroy the entire textile apparel industry which, the Defense Department says, is second in importance to steel for national defense. We must not stand idly by and let our industry be wiped out.

Mr. President, I reserve the remainder of my time.

The PRESIDING OFFICER. Who yields time?

Mrs. KASSEBAUM. Mr. President, I yield time to the Senator from Texas.

The PRESIDING OFFICER. The Senator from Texas is recognized.

Mr. GRAMM. Mr. President, I rise in opposition to this bill because every argument made in favor of it is false. This bill would be counterproductive to America. It would lower employment. It would raise prices. It would discourage world economic growth and it would destroy the progress of the postwar era.

In the postwar era, America has broken away from a policy of protectionism. Under John Kennedy we negotiated a new trade system that has produced economic growth in the Western World. Since that time, there has been general agreement among Democrats and Republicans that protectionism was not in America's interest and though it might be in the political interest of one given party at any given time, we would leave that issue out of the public policy debate because it was not in America's interest.

But unlike historical protectionism, which simply argues the special interest, something we see on the floor of Congress every day, now protectionism is cloaked in new garb. Now, we are told, it is almost American to be protectionist, that we are protecting American jobs.

I will give some quotations that we hear over and over again:

We export not goods, but jobs today.

Every $1 billion in deficits in the U.S. trade balance represents 25 million jobs lost in the United States.

Current trade deficits we are told represent the export of 3.5 million jobs.

Where are those jobs going? Where are they leaving from? That is not to say that there are not industries affected by foreign trade. But what are the facts?

In the last 3 years, we have created 8 million new jobs in America. And look at the nations with a big trade surplus. What has happened in Japan? While unemployment in the United States has fallen every year for 3 years, unemployment in Japan has risen every year for 3 years. Their unemployment rate has risen by 13 percent in the last 3 years with a trade surplus.

The European Economic Community, where all these jobs are supposed to be going, has not created a job in a decade.

The truth is that the United States in the last 3 years has created more jobs than Europe and Japan have created in almost 2 decades.

We hear talk about the need to protect textiles. Well, let me remind you, Mr. President, that we are already protecting textiles.

Since 1981 we have had more than 300 quotas established on textile imports. Textiles are already the most protected products in America: An average of 22.3 percent in tariffs, very stiff quotas, as compared to very little in the way of quota protection for any

other industry, and an average of a 5-percent tariff for all manufacturers.

What about unemployment? We are hearing some Senators talk about unemployment and how they need our help.

Let us take the top five textile States in America.

North Carolina, the top textile State in America, had unemployment of 5.5 percent in the June 1985 spot estimate on unemployment.

Georgia had 7 percent; New York, 6.6 percent; South Carolina, 6.6 percent. Only Pennsylvania, with 9.1 percent, had a higher unemployment rate than the national average.

In fact, the top five textile States are among the lowest unemployment States in America.

The truth is that we are asking States that, on average, have higher unemployment than the textile States to pay higher prices for textile products in order to protect jobs in States that have lower unemployment than we do.

Why do we have a trade deficit? Why is the dollar "overvalued"? The value of the dollar is set by the supply and demand for dollars. We have a trade deficit because we have a massive inflow of capital. Why are people investing in the United States? They are investing in the United States because we have the highest real interest rates in the world. If you want to do something about that—and the Senate has—do something about the deficit, the real deficit, the deficit in the Federal budget. If we bring that deficit under control, that will bring interest rates and the value of the dollar down, and encourage exports.

What nations are targeted in this bill? Who are the villains here? The first villain is Hong Kong. That is an interesting villain. How many people have stood on this floor and said, "We want fair trade, free trade, but fair trade. These nations are cheating, they protect their markets against American goods."

Mr. President, there are many countries in the world you can point the finger at in that regard, but Hong Kong is not one of them. One of the hardest hit nations here in the repeal of a movement toward freer trade started by President Kennedy is Hong Kong, the only place on Earth that has no quotas and no tariffs, that has a free and open market, where we can sell any American goods in any amount without facing a quota or a tariff.

Why have they been singled out? Where is the unfair trade there? How is this anything but raw protectionism?

What is the second target? Korea. The real economic miracle of the postwar period. The Marshall Plan rebuilt Europe and rebuilt Japan, but they had been developed. We simply provided capital. They put their capital markets to work and they rebuilt their economy. But the American miracle in the postwar period, the one nation that we have developed into a modern economy, is Korea, the nation that spends more on national defense as a percentage of national income and GNP than we do. So we single them out and hit them in an industry where 35 percent of their jobs depend on textiles.

What is the third target? Taiwan. Interestingly enough, these protectionist bills related to textiles are aimed at not hitting China—Communist China—because they might retaliate as they did once before. So we hit Taiwan.

That we take a nation divided by political philosophies and leave the Communist part alone but zap the part that has modeled its very existence after America is an interesting paradox.

Mr. President, this is bad legislation. It has a special interest appeal. We have all gotten thousands of letters in support of it, we have all had lobbyists knock on our doors. But the truth is this bill will not solve our problems. Any progress we make with these quotas in reducing American demands for foreign goods will reduce the demand by Americans for foreign currencies, it will drive up the value of the dollar on the world market and discourage American exports in areas where we are competitive and encourage American imports in other areas. This bill cannot lower the trade deficit. All it can do is make people in this country pay more for textiles. It can trigger another trade war and the whole world will lose in the process.

It so happens my State is in the top 10 in textile production, but I do not believe that a bill that will be so bad for America and everything we stand for in the world and everything we have done in the postwar period can be good for Texas. If it is bad for America, it is going to be bad for Texas and that is
bill. That is why I shall work to see that the President vetoes this reconciliation bill if this bill is a part of it.

The PRESIDING OFFICER. Who yields time?

Mr. MOYNIHAN. Mr. President, I seek recognition.

Mr. THURMOND. Mr. President, how much time does the Senator want?

Mr. MOYNIHAN. Five minutes.

Mr. THURMOND. How much time do I have left, Mr. President?

The PRESIDING OFFICER. The Senator from South Carolina has 21 minutes, 13 seconds.

Mr. MITCHELL. Would the Senator from South Carolina yield to me?

Mr. THURMOND. I shall yield 5 minutes to the Senator from New York. I just wanted to make sure it could go around.

Mr. MOYNIHAN. Mr. President, the distinguished Senator from Texas has spoken inaccurately about the movement for freer trade that was started by John F. Kennedy. That, of course, was the Trade Expansion Act of 1962 and the Kennedy Round that followed.

May I, for the RECORD, say that at that time I was an Assistant Secretary of Labor and one of a group, a party of three persons, that was sent by President Kennedy to negotiate the Long-Term Cotton Textile Agreement. The negotiation and conclusion of that agreement was a condition for Congress approving the Trade Expansion Act and the Kennedy Round—which together with the Trade Act of 1974 and the Tokyo Round greatly transformed the world trading system exactly as the Senator from Texas has said. The President reached an understanding with the Congress at that time that with respect to textiles and apparel, the growth in imports had to be steady. There was no question of fixing any level—only that imports would grow at a steady rate. Most recently, the Multi-Fiber Agreement, which succeeded the Long-Term Cotton and Textile Agreement in 1973 and which was last renegotiated in 1981, provided generally that imports under quota be allowed to grow at 6 percent annually.

The distinguished Senator from Missouri, who is chairman of the Subcommittee on International Trade of our Committee on Finance, on which I serve, observed in the Washington Post yesterday that the problem with the present administration is that it cannot distinguish between protectionism and the rules of international trade. I think he is right.

I would like to repeat to the Senate that the beginnings of the modern era of expanding international trade was premised on an understanding that imports of textiles and apparel would be subject to some limitations. Had those limitations been enforced by the administration in the last 3 years, I do not think we would be on this floor with this legislation.

I do not welcome this kind of action. What the Senator from Texas said about Hong Kong not having trade barriers is correct: but Hong Kong was present in 1962 at the Long-Term Cotton Textile Agreement negotiations and agreed that their share of the market would grow, but would not grow at disruptive and finally annihilative rates. That is what is at issue here.

We ought not to have to do this. We ought not to have to do it on a reconciliation bill. But it is a consequence of an administration that the Senator from Missouri has very accurately said

cannot distinguish between enforcement of rules and plain-out protectionism.

Multilateral agreements to gradually increase the market share of foreign imports in textiles and apparel—first negotiated in 1962 and renegotiated several times since—are generous agreements and farsighted ones. They have to do, in my view, with the nature of the textile and apparel industry. If only we had kept to the process for limiting imports set forth in those agreements, had enforced them, we would not be here today. And in this Senator's case, it is with some considerable reluctance that I am here today.

Mr. President, I yield back such time as I have remaining.

Mr. DANFORTH. Mr. President, I wonder if we could have 1 minute on this side to respond to the Senator from New York?

Mrs. KASSEBAUM. Mr. President, I am glad to yield 1 minute.

Mr. DANFORTH. Mr. President, the argument is frequently made that this is a problem of enforcement and that if only the United States enforced international agreements, in this case the Multi-Fiber Agreement, we would not be in this situation, but the special legislation is necessary to make up for nonenforcement. I call to the Senator's attention a report made by the Congressional Budget Office. This is a staff working paper of September 1985 that was sent to me by Rudolph Penner in a letter dated September 25, 1985.

One of the things concluded in the letter is the following sentence:

> Moreover, despite recent rapid growth, total textile and apparel imports in 1984 were 18 percent of the level they would have reached if they had grown by 6 percent per year since 1972.

So we are only at 81 percent now of the maximum level that was permitted in the 1972 agreement.

Mr. MITCHELL addressed the Chair.

The PRESIDING OFFICER. Who yields time?

Mr. THURMOND. Mr. President, I yield 5 minutes to the distinguished Senator from Maine.

Mr. DOMENICI. Mr. President, I wonder if the distinguished Senator from Maine would permit me to speak for just 1 minute?

Mr. MITCHELL. Certainly, Mr. President.

Mr. THURMOND. Not charged to our time.

Mr. DOMENICI. Not yielded on the Senator's time.

Mrs. KASSEBAUM. I will be happy to yield 2 minutes to the Senator from New Mexico.

The PRESIDING OFFICER. The Senator from New Mexico.

Mr. DOMENICI. Mr. President, I am not going to speak on the substance of this legislation. I am simply going to tell the Senate how I feel, and I hope it has some relevancy to what happens.

For those who do not like the reconciliation process, I would like to remind them that this procedure has probably in a very healthy way saved more than $300 billion through changes made by committees in laws within their respective jurisdictions. What I am seeing is a bill containing at least 100 extraneous provisions, because there is no law that says they cannot be included in the bill.

For those who are worried about deficits of $180 billion and more, it would seem to me that we are about to see this process reach a breaking point. I would not be the least bit surprised if few people will want to use this process in the future even for legitimate purposes. Today we have a bill before us with scores of provisions that under the broadest interpretation should not have been in this bill and now we are about to adopt a far-reaching textile bill as an amendment.

I hope that everyone will understand that in the next few hours, and maybe for part of tomorrow, we have a responsibility to clean up this bill. I do not know how yet, but I hope everybody understands that we are not going to get anywhere if we pass this bill with all these extraneous provisions, a textile amendment, and maybe a Grove City amendment. We will have been here for a couple of weeks and have accomplished nothing. I urge everyone in their best conscience to be concerned as we try to do something about this. I yield the floor.

Mr DOLE. Mr. President, I wonder if somebody might yield me 2 minutes.

The PRESIDING OFFICER. Who yields time?

Mrs. KASSEBAUM. I will be happy to yield to the majority leader.

Mr. DOLE. I want to meet with the distinguished minority leader. As I said publicly before, I was going to support the textile bill but not on a reconciliation bill. I think what we are demonstrating here, if we need to, is that this whole process is about to come unglued. I have been advised by the White House that this is just another good reason to veto the reconciliation bill. Now, I understand Grove City is going to be the next amendment offered, then prayer in school, abortion, line item veto——

Mr. DOMENICI. Busing.

Mr. DOLE. Busing, anything else you cannot get cloture on—this is open season.

So the theory may be to load this bill up after the time has expired. Then we can have votes on all these great ideas, and then maybe recommit the bill to salvage what may be left. So it would be in the interest of good legislative process, if those who support the textile bill on some other amendment are willing, to sit down with me and the opponents of the textile bill to see if we cannot offer it on another bill—to avoid a filibuster. I think those who support the textile legislation might be willing to do that if those who oppose it are also willing. That would at least let us put textiles on a separate piece of legislation so we can preserve what is left of the reconciliation process.

The PRESIDING OFFICER (Mr. GORTON). Who yields time?

Mr. THURMOND. Mr. President, I yield 5 minutes to the distinguished Senator from Maine.

The PRESIDING OFFICER. The Senator from Maine.

Mr. MITCHELL. Mr. President, I thank the Senator from South Carolina.

I would like to return to the substance of the issue and respond specifically to the arguments advanced by the Senator from Texas a few moments ago in opposition to this legislation.

Using 1982 as the base period, the Senator said this legislation should be defeated because we have had a lot of job creation and a decline in unemployment since then. I would point out that 1982 was the depths of the worst recession in the past half century in this Nation, and that in fact the rate of job creation in this country during the last 5 years has been one of the slowest rates in modern American economic history. The Senator suggested, because 8 million jobs have been created in the 4-year period since 1982, that is a sign of economic success.

Well, by that standard, the 4 Carter years were a spectacular success, because from 1976 to 1980, 12 million jobs were created in this country. The decline in unemployment since 1982 has been caused almost exclusively by the fact that in 1982 the unemployment rate in this country was the highest it had been in over 40 years. From 1940 to 1981, unemployment in America never once reached 9 percent. Between 1981 and 1983, it exceeded 9 percent for 23 months and for half of that time was over 10 percent. So the fact that it has declined from 10 percent is no evidence of economic growth. It is a demonstration of the fact that we merely are in the upward turn of the business cycle and unemployment is still much too high. In the 1960's, unemployment in America averaged 4 percent, in the seventies 6 percent, and now in the eighties it will average 8 percent. That is not a record of success. That is a record of dismal failure in terms of unemployment.

Finally, I want to comment on the Senator's last point about Korea which he described as an American miracle, a miracle in the Far East he said, how they have succeeded. I commend to the Senator from Texas, I

commend to every Senator to take a look at this document—I am glad the Senator has returned to the room—a document published this year by the U.S. Department of Commerce entitled "Foreign Regulations Affecting U.S. Textile Apparel Exports." Twenty pages of it are consumed in describing in small print the limitations that Korea places on importation of textile products. Essentially, if American manufacturers of textiles want to sell in Korea, they must get a license. And from who do they have to get a license? The Korean Textile Manufacturers Association. That is, the very people who make the products in Korea with whom our manufacturers must compete have essentially the authority to veto any imports. If that is an example, of an American miracle in the Far East, then perhaps we ought to take a look at the 20 pages of minute restrictions on textile imports that Korea imposes on their country. The fact is this document lists several hundred pages of restrictions placed by countries all over the world.

We have a very serious problem occasioned by the total lack of a trade policy in this administration, aggravated by the failure to even enforce the laws that exist, the only Nation in the Western World which does not enforce those laws authorized by the General Agreements on Tariff and Trade to protect those American industries which are suffering from imports, and as a result millions of American jobs are being lost and they are not being replaced at a reasonable rate, as the rate of job creation in this country is now far slower than it has been in previous years.

This is not a good way to adopt trade policy; we must all acknowledge that, but it has been made necessary by the abject failure of this administration to develop, advocate, and implement a trade policy of any kind except for one principle, and that is to encourage imports into this country in every sector of the economy, in every type of product, because it is now the principal mechanism by which the administration hopes to maintain the fight against inflation. And as a consequence, millions of American jobs have been lost, are being lost and will continue to be lost until we take the kind of meaningful action that this bill proposes.

I comment finally on the shoe industry, which I spoke of earlier, which went through the legal process, which obtained a unanimous vote by the International Trade Committee of injury, in which foreign products have taken 78 percent of the domestic market.

The PRESIDING OFFICER. The time of the Senator from Maine has expired.

Mr. MITCHELL. I conclude by saying that I think we need this legislation because we do not have a policy by this administration.

Mr. THURMOND. Mr. President, I yield 1 minute to the Senator from Georgia.

Mr. MATTINGLY. I thank the distinguished senior Senator from South Carolina.

Mr. President, the chairman of the Budget Committee spoke with reference to the relevancy of amendments on the reconciliation bill. I think that this textile-footwear amendment is relevant to this reconciliation bill. I feel that the closer the textile-footwear amendment gets to the White House, the closer and the sooner we are going to have a trade policy in the United States.

It is very similar in purpose to the proposal put forth by the junior Senator from Texas, referring to Gramm-Rudman. The closer that comes to being law, the sooner we will get control of our Federal budget.

As the Senator from Maine just said, what we really need in this country is a trade policy, which we do not currently have.

The PRESIDING OFFICER. The time of the Senator has expired.

Mr. MATTINGLY. This amendment will force formulation of a trade policy, and the sooner we pass the amendment, the sooner it is on the way to the White House, and the sooner we will have action.

The PRESIDING OFFICER. Who yields time?

Mr. THURMOND. I yield myself 2 minutes.

Mr. President, I have great affection for the distinguished Senator from Texas, but he gave the impression that we were harming Taiwan to the benefit of the People's Republic of China. Let me make it clear that I yield to no one in my consideration for Taiwan. The Taiwanese are our good friends. Currently, Taiwan is sending in 1 billion 578 million square yard equivalents of textile products and People's Republic of China is sending in 990 million square yard equivalents. Taiwan is the largest textile/apparel importer into this country now and will continue to be under this amendment.

In 1995, for instance, imports from Taiwan will be allowed to increase to 1.220 billion, while the People's Republic of China will be allowed imports of 1.093 billion.

So we are not discriminating against Taiwan, compared to the Republic of China. Taiwan will remain ahead of them by a considerable margin.

The PRESIDING OFFICER. Who yields time?

Mr. EVANS addressed the Chair.

The PRESIDING OFFICER. Does the Senator from Missouri yield to the Senator from Washington?

Mr. DANFORTH. First, Mr. President, a parliamentary inquiry. How much time remains on the entire reconciliation bill?

The PRESIDING OFFICER. Two hours and 45 minutes.

Mr. DANFORTH. How would that be divided?

The PRESIDING OFFICER. On the present amendment——

Mr. DANFORTH. Not on the present amendment, but on the entire reconciliation bill, how much to a side?

The PRESIDING OFFICER. One hour and 12 minutes to the majority, and 1 hour and 28 minutes to the minority.

Mr. DANFORTH. Mr. President, I am prepared to yield time. I know that Senator EVANS wants to speak, and I am told that the occupant of the chair wants to speak. I also know that a number of Senators have amendments, not only on the subject of textiles, but also on other matters that should be in the reconciliation bill, or at least arguably should be in the reconciliation bill. So I urge Senators to be somewhat cautious in speaking for great lengths of time.

How much time would the Senator from Washington like?

Mr. EVANS. Four minutes.

Mr. DANFORTH. I yield 4 minutes to the Senator from Washington.

Mr. EVANS. Mr. President, I first comment to my friend from Missouri that I agree with him, with one major exception. We should have thought of that, and the Senator should have been a little more thoughtful before the last vote. If we had not added this bill onto the reconciliation bill, we would not be where we are; but I suspect that there a number of colleagues who have amendments which are important, which are germane, and which are necessary to offer—if, in fact, this amendment is going to remain as part of the reconciliation bill. Therefore, I suggest that it is highly unlikely that any time will be remaining for other amendments. I do not think that those who have opposed this textile measure should share any of the blame for that.

I point out to the Senator from Maine, who talked about records of recent administrations, that we had two referenda on the question of economic policies and American well being—one in 1980 and one in 1984. I think that would let the record stand better than anything he might argue.

Let me go through several simple and straightforward facts.

Fact No. 1: The textile industry, from 1980 to 1984, did have a job loss of about 100,000 people, but no loss whatsoever in production. That does not sound very much like losses to foreign people, losses to other countries. It sounds a lot like efficiency and better management and getting more out of the number of people who work in an industry. I might say that that

has gone on in a number of other industries in the United States.

Fact No. 2: We are already seeing a shrinkage in import from the countries which would be affected by this bill. So far in 1985, the imports from Taiwan are down by 10 percent. The imports generally from the countries covered are down. The imports are up by 40 percent or more from the countries of the European Economic Community and others which are not even covered by this bill.

With this protectionist measure, you would stick your finger in one dike while the whole dike is breached from the other side of the Atlantic.

Fact No. 3: Exports peaked in 1981. We have not really lost our ability to compete, lost our strength. It has occurred almost exclusively from the strength of the U.S. dollar, as we all know. It has affected the textile industry and has affected all industries in this country.

I think we took strong action just a few weeks ago with the Gramm-Rudman amendment, and the faster that becomes law and takes effect, the better we are going to be, and the better the textile industry and all other industries in this country are going to be.

Fact No. 4: No matter how they wiggle, no matter how they would suggest otherwise, the fact is that this amendment would abrogate 34 bilateral agreements of this Nation and the Multi-Fiber Agreement itself and the General Agreement on Tariffs and Trade. I think that is a pretty monstrous step for this country, which has always prided itself in living up to treaties, to take action so swiftly and unilaterally.

Fact No. 5: The penetration in terms of foreign imports into the United States currently is 27 percent for apparel, 22 percent for textiles—that comes from the textile industry's own figures—and that is nowhere near as high as a good many other relatively nonprotected industries in the United States.

Fact No. 6: The textile industry itself is already the most protected industry in the United States against foreign imports.

The PRESIDING OFFICER. The Senator has used the 4 minutes yielded.

Who yields time?

Mr. DANFORTH. Mr. President, I yield 4 minutes to the Senator from Montana.

Mr. BAUCUS. Mr. President, I rise in opposition to the textile amendment.

Some have argued that the textile bill is needed because the administration has no trade policy. I agree that the administration has no trade policy. But two wrongs do not make a right.

The proposal before us is bad trade policy. We may not have a trade policy today, but that is no reason to vote for this bill.

This proposal is bad policy for all the reasons my colleagues have already given. I will not spent time repeating the arguments.

I would, however, like to raise an issue which has not been mentioned. If this bill ever becomes law, who is going to bear the brunt of retaliation? It is going to be the American farmer.

All of us know the dismal plight of American agriculture today. Farm income has plummeted in the last several years. Land values have fallen over 15 percent in the last year alone. Agricultural exports—our strongest exports—have fallen dramatically. No relief is in sight for the American farmer.

This is not the place to discuss the causes of the farmers' plight. The bottom line is that American agriculture is today in the worst state since the depression; some will even say conditions are as bad or worse than during the depression years.

If this bill passes, life for the farmer will get worse.

Most of the countries affected by this bill are major purchasers of U.S. agricultural products, and we know that those countries will retaliate. Why? Let me just touch on some reasons.

First, all grains, wheat and feedgrains, are what the economists call fungible. That is, durum wheat is durum wheat. Grain is grain. Countries that today buy grain from the U.S. will go elsewhere. They can do so easily. There are other countries eager to step in and take our markets. Purchasing countries will take their business elsewhere.

They will do so in part because this bill violates the MFA. It violates bilateral agreements, and it violates the GATT. That is a good excuse for a country to go elsewhere.

Just put yourselves in the shoes of politicians and officials in those countries affected by this amendment. This proposal will cause unemployment, a loss of foreign exchange and a loss of wealth in textile producing countries. These are not wealthy nations. The people in those countries will be outraged, and it is not hard to imagine against whom they will turn their wrath? They will turn against the nation they see the cause of their problem, the United States of America. There will be tremendous political pressure in those countries to go elsewhere for agricultural products. China has already promised retaliation. The American farmer cannot take much more. Do not add this burden.

Let me conclude repeating: two wrongs do not make a right. We know the administration has no trade policy, but do not compound the problem by enacting bad trade policy. If this bill is enacted, we will all pay a very high price.

The PRESIDING OFFICER (Mr. EVANS). Who yields time?

Mr. DANFORTH. Mr. President I yield 3 minutes to the Senator from Washington and then 2 minutes to the Senator from Nebraska.

The PRESIDING OFFICER. The Senator from Washington is recognized.

Mr. GORTON. Mr. President, on the merits of this particular amendment, the distinguished occupant of the chair at the present time and my good friend from the State of Texas have already spoken so eloquently and so completely against. There is nothing that I can add to their case.

On the procedure, however, on the way in which this amendment has come before us, the very fact that we are debating this proposal at this point is a simple and unmitigated disaster. It is a matter of intense regret to me that the very senior Members of this body who have through their career in the Senate been most solicitous in protecting the rights of minorities to extended discussion of important issues before this country now propose to render the Senate literally a lawless body. They propose that the Senate be able to breach any of its rules no matter how ancient or how wise by a temporarily stampeded majority.

That loss of the comity owed by one Senator to another, that loss of the deliberate nature of this body is a disaster far greater than any possible gain from the passage of any bill before this Senate, even if that bill were a good one, which this is not.

This amendment will clearly destroy the attempt of the Senate of the United States to reduce the budget deficit. It is only through the reconciliation process that that deficit reduction can become a reality, and this bill, should this amendment be attached to it, will clearly and appropriately be vetoed. The proponents will gain nothing. The country will lose a great deal not only from this amendment but from the loss of reconciliation.

Mr. President, I state very sincerely the only proper course at this point in this debate is for the majority leader to come before the Senate and to take this bill down, to take it off the calendar for discussion by the Senate until such time as a rational and appropriate attitude in conformance with the rules relating to reconciliation bills is once again the course of action which the majority of Members of this body are willing to follow.

The PRESIDING OFFICER. Who yields time?

Mr. DANFORTH. Mr. President, I yield 2 minutes to the Senator from Nebraska.

Mr. HELMS. Mr. President, I am in control of the time.

The PRESIDING OFFICER. The Senator from North Carolina is controlling time for the proponents?

Mr. HELMS. That is correct.

The PRESIDING OFFICER. I ask the Senator from North Carolina to whom he yields time.

Mr. HELMS. I inquire how much time remains on either side.

The PRESIDING OFFICER. The time of the Senator from South Carolina is 8 minutes and 3 seconds; the time for the Senator from Missouri is 2 minutes, 24 seconds.

Mr. HELMS. Eight and two, approximately.

The PRESIDING OFFICER. That is correct.

Mr. HELMS. I thank the Chair.

Mr. President, I had not planned to get involved in the discussion today. This measure has been cussed and discussed for a long time around this place.

But when I hear what I consider to be outrageous statements about retaliation I have to ask who is going to retaliate? Is Taiwan going to retaliate? There is not a better friend of Taiwan in this Chamber than the Senator from North Carolina. Is Korea going to retaliate? There is not a better friend of Korea in this Chamber than the Senator from North Carolina.

Mr. President, I can tell you that this argument that we are going to have all this retaliation is not only nebulous, it is ridiculous.

Furthermore, I wonder if Senators who are making such comments about retaliation have even read the bill and if they know what it provides.

All this bill provides and requires is that our trading partners, friends, and otherwise, abide by the agreements they have signed.

We have had the anomaly all these years, Mr. President, where we have been abiding by the trade agreements and others say, "Well, you know, Uncle Sugar over there is not going to protest. We will overload. We will transship. We will do everything we want to."

Now, let us keep this argument on a reasonable, rational, and factual basis.

Retaliation is not reasonable because it is not going to happen. Taiwan and Korea need us a lot more than we need them, and I say that as a friend of Taiwan and Korea.

Mr. President, I am troubled to see that Senators who see the handwriting on the wall, who know what the vote count is, are all of a sudden saying, "We better draw this bill down."

I hope it will not be drawn down because there are 300,000 people out of jobs who are expecting and have a right to expect this Government of ours to insist that our trading partners abide by the trade agreements into which they entered.

I yield the floor.

Mr. FORD. Mr. President, I rise in support of this amendment and thank my distinguished colleagues from South Carolina, Senator THURMOND and Senator HOLLINGS, for working so diligently to get this important measure before the Senate. I was a cosponsor of the original bill, S. 680, and of the revised version which was offered as an amendment to the Micronesia bill, and I am pleased to be a cosponsor of this amendment offered today to the reconciliation bill. There are over 32,000 Kentucky workers who are impacted by our growing textile import problems, and it is time that the Senate was allowed to work its will on this measure.

The Textile and Apparel Trade Enforcement Act is the result of months of negotiations of a bipartisan coalition of textile, apparel, manmade fiber, and agriculture labor and industry leaders. Its purpose is simple: to put teeth in the Multi-Fiber Arrangement in an attempt to stop the export of American textile jobs overseas. As imports of textile and apparel products have soared, thousands of American workers have been displaced. Since 1980, imports of these products have grown at an annual rate of 19 percent, a figure far higher than envisioned under the MFA, and now account for 13 percent of the U.S. merchandise trade deficit. During the last 4 years, an estimated 300,000 American workers have lost their jobs as imports continue to rise unchecked. The Multi-Fiber Arrangement has simply proved insufficient to hold textile and apparel imports within negotiated limits, and this administration has repeatedly refused to provide relief for American industries which are being devastated by foreign imports. It is time for the Congress to act.

The State of Kentucky has a big stake in this debate. The textile and apparel industry employs more than 32,000 workers in 90 communities across my State. Many of these plants are located in small, rural communities and provide the main source of employment for the area. There are 38 cities in which this industry employs more than 300 workers, and 6 cities in which the textile and apparel industry provides jobs for over 1,000 people. Textiles and apparel make up the second largest manufacturing industry in Kentucky in terms of employment and provide security to many families who are primarily employed in farming and coal mining. Last year, this industry supported a payroll of $225 million in Kentucky.

As imports have risen dramatically in recent years, Kentucky has felt the effect as plants have closed across the State. Some of our communities have been able to respond, but many times they cannot replace all the jobs lost. When you have an industry that employs 750 workers in a town of 2,500, any loss of jobs severely impacts the entire community. This is the typical situation in my State.

Mr. President, I know that there are those who feel that this bill is not the answer, that it will drive up consumer prices on imported clothing which may have a domino effect on jobs in other industries. While I am concerned about such an effect, I do not believe that this amendment will lead to the widespread layoff of employees in the discount clothing industry. I firmly believe that we cannot continue to ship our American jobs overseas to areas which have lower labor costs due to depressed standards of living. Labor and management alike, in this Nation, have worked hard to eliminate sweatshop conditions and slave-labor wages in our textile and apparel industry, conditions which still exist in those countries which currently export these products to the United States. We should be proud of the accomplishments we have made in this direction, and should not turn back the clock on the progress we have made in raising the standard of living for these workers. To continue to allow imports from nations which support poor working conditions and low wages to come into this country unchecked, is contrary to all that we have worked for over the years. It is time to let our American workers know that we will not allow them to lose their jobs in order to support the depressed conditions of workers abroad.

I am grateful to my colleagues for pressing for action on this important legislation. The House has acted on this issue and it is time for the Senate to join with our colleagues in the other body in sending a message to this administration that it is time to take action to reduce the flow of textile and apparel imports and preserve jobs at home. This measure does not eliminate imports, it simply ensures that reasonable limits are placed on their growth rates. It is a responsible response to a growing problem, and I urge my colleagues to support this amendment.

Mr. SASSER. Mr. President, I am pleased to join with my colleagues today in offering legislation to come to grips with the truly devastating situation in the shoe and textile industries.

Like my colleagues, I was shocked and appalled at the insensitivity shown by the President in rejecting the advice of the International Trade Commission and refusing to grant import relief to the domestic footware industry.

If ever an example were needed of what constitutes serious injury due to imports, the nonrubber footwear industry provides it. Between 1968 and

1984, imports increased 233 percent. The net decline in the number of plants totaled 507, costing over 112,700 workers their jobs. Production has fallen to the lowest levels since the depression. Import penetration is now 77 percent.

The footwear industry followed the procedures laid down in our trade laws to prove injury—and they proved it to the satisfaction of every single Commissioner on the International Trade Commission. They also offered a comprehensive 5-year plan which the industry agreed to undertake during the quota period.

If the trade laws will not work for this industry, it is doubtful they will work for any industry.

When Congress wrote the trade laws it intended they be used. We did not intend them as a rhetorical statement whose practical application was to be avoided at all cost.

Far more is at stake there than the fate of a single industry. Frankly, we are dealing with the credibility of our entire system of trade law, with the viability of our most basic American industries, and with the future health of our national economy.

Since, the administration will not act, Congress must. This bill will provide the footwear industry with the stability and the time it needs to modernize its manufacturing and marketing processes. It provides for an 8-year quota period during which imports will be held to 60 percent of the U.S. domestic market. That is a far higher level of penetration than our trading partners allow in their domestic markets.

We simply must bring some relief to our domestic footwear industry. As I travel around my State, I continually see the effects of shoe imports on our citizens. Seven shoe facilities were closed in Tennessee last year. In these towns, shoe workers are already out of work or will be put out of work in the near future. I talk to individuals who have lost their jobs in the communities where they have lived and worked for years. They face the future with no prospects of new jobs. There were over 100 communities across the Nation who shared this devastating experience last year.

My own State of Tennessee is the fifth most important footwear producing State in the United States. The industry employs about 11,000 workers in 33 factories and generated in excess of $96 million in payroll dollars last year. We simply must preserve these businesses and these jobs for our citizens.

The footwear industry is the leading employer in 6 counties in Tennessee and is among the top 3 employers in another 14 counties. It is a significant industry in 28 counties. Twenty-four of these 28 counties have populations under 50,000. Sixteen of them have populations under 25,000.

These figures are more than mere statistics. They represent real people and real jobs. The closing of a shoe factory can be devastating to a local community. Many such facilities are located in rural areas. They are often the major employer in the area—areas which have few comparable jobs to which workers may transfer their skills. Many people are prevented by family obligations and ties from moving to a new area—especially when there is no guarantee that they will not face the same situation sometime down the road.

Mr. President, I am also pleased that we are addressing the situation in the textile and apparel industry. They are facing the same problems as the shoe industry.

Those of us who represent textile and apparel producing States have watched the growing import penetration with a rising sense of apprehension. Back in 1981 we thought we had a stable marketing mechanism. However, the Multi-Fiber Agreement that was supposed to ensure an orderly international market has never been enforced and textile and apparel imports have soared.

My own State of Tennessee ranks third in the textile and apparel industry. It employs over 94,000 people, with a payroll of $658 million. However, the textile and apparel industry in Tennessee is facing the same pressures from imports as is the rest of the industry. Last year, textile and apparel imports cost over 4,000 Tennesseans their jobs.

The legislation we are offering includes an assurance of stability for the textile industry. What it says is that we are going to enforce our trade agreements. We are going to make our trading partners adhere to the treaty they signed.

Mr. President, it is past time that some measure of relief is offered to our domestic shoe and textile industries, and I urge passage of the amendment.

Mr. TRIBLE. Mr. President, I rise in support of the amendment offered by the Senators from South Carolina.

Our textile industry is in peril. America's textile workers, among the world's most productive, are threatened with the loss of their livelihood. The reason for this is simple. America's textile workers have been the victims of predatory foreign competition which has the effect of eliminating our domestic textile industry.

Nowhere in the world are the textile and apparel markets really free. For 20 years a complex market-sharing pact—the Multi-Fibers Agreement—has regulated the rate of growth of textile imports to Western Europe and the United States. This agreement was undertaken a generation ago because a political decision was made by our Motion to avoid sending textile production entirely to the Third World.

Despite the Multi-Fibers Agreement, Third World textile production has soared. The Multi-Fibers limits have been overwhelmed by developing nations that have targeted textiles as a vehicle for economic development. Asian textile exporters like Korea and Taiwan, and that shining example of free trade, the PRC, not only subsidize the development of their textile industries but also protect their own textile markets against one another. You won't find a Korean shirt in Taiwan or vice versa.

Japan and the European Community, meanwhile, have dramatically limited their textile imports. The United States is the only nation with anything close to an open market in textile imports and we have become the dumping ground for textile and apparel products. Today we buy an astounding 60 percent of Third World textile imports.

Moreover, I would point out that the U.S. textile industry is not a turn of the century phenomenon. A visit to textile facilities in Virginia reveals state-of-the-art technology and productive workers. Nationally the textile industry has reinvested more than 80 percent of its retained earnings in modernization and has a productivity growth far in excess of the national average.

These are the realities of the world and the sky will not fall if the Congress acts to restrict imports. Rather, the Third World may stop overbuilding textile factories. The U.S. textile industry will get some breathing space and continue to automate. Our industry would not survive into the next century when smart capital will be more important in world trade than cheap labor.

So perhaps it's time to stop being quite so dogmatic about free trade. Our agricultural sector has long been a huge exception to the free trade regime. We limit imports of many crops and we have an elaborate system of price support. We also have the world's cheapest food.

The United States is no longer powerful enough to be the world's largest free trade zone while other nations, rich and poor, subsidize their industry, protect their markets, and engage in predatory pricing.

It's time to formulate a trade and currency and growth regime that responds to the realities of the international marketplace. Mr. President, I urge the adoption of this amendment.

Mr. MATHIAS. Mr. President, I am a cosponsor of the Textile and Trade Enforcement Act and have supported efforts of the footwear industry to gain import relief this past summer. I will, therefore, support the amend-

ment which the Senators from South Carolina have proposed. The difficulties facing the domestic textile and apparel industry and the domestic footwear industry must be recognized and dealt with. Too many hardworking Americans are being forced onto unemployment rolls because of a laissez-faire attitude toward trade policy. Industries are dying and, until now, our Government has been standing by to watch. It is high time action was taken.

I want to make clear, however, that I am disappointed that the Senate has voted to use the budget reconciliation legislation as the vehicle for this amendment. The use of this vehicle removes the trade issue from normal Senate deliberative procedures. It shields it under the wing of legislation which, under the Budget Act, is highly protected against amendments and on which debate is strickly limited. When we voted to waive the Budget Act's rules with respect to this matter, we opened a Pandora's box. We exposed ourselves to the potential of an unending flow of unrelated, inappropriate, and highly controversial amendments which have no place being debated under extremely tight time constraints. Clearly our trade policy is an important matter to be addressed, but this is the wrong place and the wrong time. Furthermore, our cavalier treatment of the rules applicable to budget legislation must cast doubt upon the sincerity of the Senate's recent passage of sweeping new rules to govern our efforts to reduce the deficit. Finally, on a purely practical level, the reconciliation legislation, which the President has already threatened to veto for reasons unrelated to this amendment, seems to be a peculiarly unattractive vehicle.

Mr. President, the Senate, the greatest deliberative body in the world, has taken a wrong turn. This complex legislation, which has not been reported by a Senate committee, and which could, in my view, be improved by amendments, can only be dealt with in the most fleeting way. I will support this amendment because I want the White House, our trading partners and the people of the textile and footwear industries to know how urgent this matter is. But I do so with reluctance and with a foreboding of the precedent we may have wrought for the future of this body.

PIGSKIN FOOTWEAR

Mr. LEVIN. The domestic footwear industry has been seriously hurt by foreign imports and I support the efforts made to curb those imports. I want to emphasize, however, that some parts of the footwear industry face competition in unique product areas which make them especially vulnerable to import competition, specifically, to pigskin footwear.

The evidence presented to me from the largest manufacturer of pigskin footwear headquartered in my State, but with factories in Missouri, Arkansas, Maine, Massachusetts, New Hampshire, and New York, leads me to the conclusion that pigskin footwear deserves special consideration due to the threat of future increases in pigskin imports.

I would like to make clear that I hope the Department of Commerce will address the serious problems created by imports of pigskin footwear in drawing up the regulations implementing this legislation.

Mr. COHEN. I would just like to lend my support to the points raised by the Senator from Michigan and agree that pigskin footwear will continue to be subject to injury from excessive foreign imports. I, too, urge the Commerce Department to give consideration to the special problems the footwear industry faces when implementing quotas set by this bill.

Mr. HOLLINGS. The concerns raised by the Senators from Michigan and Maine are valid and deserve our attention in this debate.

Mr. BINGAMAN. Mr. President, I rise to oppose the Hollings-Thurmond amendment, the Textile and Apparel Trade Enforcement Act of 1985.

This amendment is an inappropriate response to the profound trade problems facing the U.S. textile and apparel industry. By passing this amendment the Congress would be opening the door to further protectionist trade measures, thereby sending a wholly improper and destructive signal to our trading partners. We must remember the United States led the world in creating the General Agreement on Tariffs and Trade after World War II, calling for a policy of worldwide free trade. Since that time, successive administrations have consistently pursued the goal of liberalized trade working to reduce international trade barriers. It would be a disservice to our efforts to regain our competitive position and open foreign markets to our own goods if the United States were to begin erecting protectionist barriers at this time.

The amendment offered by the two distinguished Senators from South Carolina would limit and regulate the growth of textile imports into the United States from the different producing nations by a system of quotas. It also directs the Secretary of Commerce to establish an import licensing system for such imports. I recognize the damage that imports have done to our domestic textile and apparel industry and deplore the failure of the Reagan administration to deal with this problem through effective negotiations. Nevertheless, I have many concerns that lead me to oppose this amendment.

The legislation purports to "implement the objectives of the Multi-Fiber Arrangement (an existing trade agreement for textile and apparel trade)." However, it is, in fact, as I understand it, a serious and unilateral violation of the international obligations of the United States. Nothing in the Multi-Fiber Arrangement authorizes the United States unilaterally to roll back textile imports to 1982 levels. The amendment would establish permanent protection for the textile sector in violation of U.S. bilateral commitments.

Because the bill would cut back textile imports in violation of the GATT and the MFA, it invites foreign retaliation against American exports. The 12 major textile-producing nations targeted by this legislation imported $33 billion in U.S. goods last year, including large quantities of American soybeans, wheat, aircraft, cotton, and tobacco. The Council of Economic Advisors estimates that the bill could expose our exports to $4.9 billion in foreign retaliation. The loss of vital export markets would represent a serious and potentially irrevocable blow to America's hard-pressed farmers.

The amendment would also hurt many U.S. consumers. The Council of Economic Advisers has estimated that the amendment would cost consumers $14 billion per year at the wholesale level, $28 billion at the retail or $450 per family. This burden would fall disproportionately on low-income consumers. The Council of Economic Advisers analysis shows that each job saved by the bill would cost American consumers $140,000.

I would be one of the first in the Senate to speak in favor of protecting U.S. jobs, but this legislation is not the way to do it. We have serious trade problems in this country. We need a coherent trade policy, we must improve and enforce our trade remedy laws to combat unfair foreign trade, and we must do more to enhance exporting. I have tried to fashion legislation in each of these areas to address our near-$150 billion trade deficit and stop the loss of jobs.

While the bill assumes that subsidies are the sole cause of the economic difficulties of our domestic textile industry, the damage to the industry is not the result of Government subsidies or unfair practices by other nations—as is the case with some of our other hand-hit industries. The problem here is cheap labor abroad and the inability of our domestic industry to compete with production that takes advantage of that cheap labor. In passing this legislation we are confirming that the United States has lost a significant part of its international competitive position; that we can only react to trade policies that are not favorable to our own industries. A more positive

show of strength would be to pass provisions that empower our present trade remedies to focus on retooling our domestic industries and management policies.

Therefore, Mr. President, I oppose this legislation because it does not achieve any of these positive and necessary trade goals. I urge my colleagues to oppose its passage.

The PRESIDING OFFICER (Mr. GORTON). Who yields time?

Mr. HOLLINGS. Mr. President, will the distinguished Senator yield me 2 minutes?

Mr. THURMOND. Mr. President, I yield 2 minutes to the Senator from South Carolina.

Mr. HOLLINGS. Mr. President, quickly on a matter following up the distinguished Senator from North Carolina, I have in my hand an agreement with the American Institute of Taiwan. It was signed in November 1982 by Dr. Cyrus Ping of the Taiwan Government.

That is all we are asking for. What we are asking for is that this agreement be enforced that they particularly signed.

Now, I say to the Senator from Montana, they have already retaliated against agriculture. They did not have to wait for textiles. Business retaliates. It reciprocates. It deals. It does business.

Last year there was an order of 550,000 tons from the Soviet Union of our good, American wheat, and there was an order from the People's Republic of China of 250,000 tons, both canceled, both retaliated, not last year on account of a textile bill, but on account they could get it 23 percent cheaper in Argentina.

We politicians better wake up. We are living in international competition where you can produce anything anywhere and the governments of our competitors are a decisive factor in the trading equation or deal.

With respect to our Government, the best example of working out among government, business, and industry—at one time they were all running around on the Senate floor about picking winners and losers. I never did agree with that. But I always believe there should be a better working relationship among Government and labor and business, and we have that in the multifiber arrangement. It is the best example to give stability to jobs, stability to investment and stability to international trade.

Finally, with respect, of course, to the matter of the reconciliation bill, this is most appropriate, in that trade adjustment assistance is considered to be an important part, coming from the Finance Committee. What we are trying to do is save the moneys that will be paid out under the Trade Adjustment Assistance Act by saying we do not want assistance, we just want stability, some reliability for the most productive workers in the entire world, and that is the American textile workers.

So you do not have to say the bill ends and we are going to call it down and everything stops because we got our amendment.

The PRESIDING OFFICER. The Senator from South Carolina has utilized his time.

Mr. DANFORTH. Mr. President, I yield the remaining time on our side to the Senator from Nebraska.

Mr. EXON. Mr. President, I would like to ask the Senate to pause and consider what it is doing. I think that the procedure that we are working on here is not going to be the finest hour in the history of the U.S. Senate when we look on it. It makes a myth out of the traditional position that the U.S. Senate is the most deliberative body in the world. It is not now. It is not today. I think we are about ready to make a big mistake.

I would certainly add to that, Mr. President, that those who have attached this measure here have done it for one reason and one reason only: To stay away from the filibuster and fair and deliberate consideration. That is bad.

Mr. President, I sympathize with the textile people and I would be normally interested in giving them some help. But this is taking only one part of the disaster that we have in international trade today and saying, "Let us fix that and let the others stand alone."

In the Armed Services Subcommittee this morning, we heard of another terrible situation with regard to unfair international trade. It is with regard to the fact that we have all but eliminated the industry of making commercial ships in the United States. It is going to come to an end because we can make it cheaper in Singapore and Korea and other places. We are in for an economic disaster.

I do not believe that this one bill that affects textiles only is the ultimate answer. I simply say that we have no trade policy in the United States today, regardless of whose fault it is. But this is not going to be the salvation. Until we can step back and take an overall look at this, until we can see what it is adversely going to do to agriculture, until we can unite on a trade bill, I suggest, Mr. President, we are making a hasty and ill-advised mistake if we pass the legislation before us.

I reserve any time that we have remaining on this side of the issue.

The PRESIDING OFFICER (Mr. NICKLES). The Senator's time has expired. The Senator from South Carolina controls the remaining time.

Mr. THURMOND. How much time do I have remaining?

The PRESIDING OFFICER. The Senator has 2 minutes and 20 second remaining?

Mr. THURMOND. Mr. President, in closing, I just want to say that this bill is important to the economy of America. This bill is important to the defense of this Nation. This bill is important to the millions of people who have jobs in textiles and related industries—2 million in textiles and apparel and 2 million more in related jobs. Studies show that by 1990, unless something is done, we may not have any textile/apparel jobs left in this country. They will all be gone. This is a fair and just bill which we ought to pass. This bill merely limits import growth by seeking to limit the growth in imports to the growth of our domestic markets.

Mr. President, I hope the Senate will think over this matter carefully and vote to preserve jobs for the people here in America.

So far as the farming States are concerned, I want to say again that if import growth continues at the current level, the cotton producers face elimination of most of their domestic market in 4 years. The wool growers, whose production has dropped 75 percent since World War II, export almost no product at all, which leaves every imported item of wool fabric or apparel to be added to the negative trade balance.

As far as the consumer goes, the consumer is not benefiting here. I gave some figures here earlier today that showed on men's and boys' clothing, you save 5 cents on an item. Who makes the big profit? It is not the consumer. It is the retailer who is reaping the profits by buying cheap and selling at practically the same price as American goods.

So we are not helping the consumer by voting against this bill. It is better for the consumer if we vote for this, because consumer choice of quality goods would be limited if U.S. producers continue to go out of business.

Mr. President, the United States imports two-thirds of all textile/apparel products manufactured in developing countries while other industrial countries have refused to absorb their fair share. The only way we can provide for orderly, nondisruptive import growth is to pass this amendment. And the only way I see to get it into law is to put it on the pending bill.

The PRESIDING OFFICER. All time on the amendment has expired.

The question is on agreeing to the amendment of the Senator from South Carolina [Mr. THURMOND].

The yeas and nays have been ordered, and the clerk will call the roll.

The legislative clerk called the roll.

Mr. STEVENS. Mr. President, on this vote, I have a pair with the Senator from Missouri [Mr. EAGLETON]. If

he were present and voting, he would vote "aye." If I were at liberty to vote, I would vote "nay." Therefore, I withhold my vote.

Mr. SIMPSON. I announce that the Senator from Oregon [Mr. HATFIELD] is necessarily absent.

I further announce that, if present and voting, the Senator from Oregon [Mr. HATFIELD] would vote "nay".

Mr. CRANSTON. I announce that the Senator from Missouri [Mr. EAGLETON] and the Senator from Alabama [Mr. HEFLIN] are necessarily absent.

I further announce that, if present and voting, the Senator from Alabama [Mr. HEFLIN] would vote "yea".

The PRESIDING OFFICER. Are there any other Senators in the Chamber wishing to vote?

The result was announced—yeas 54, nays 42, as follows:

[Rollcall Vote No. 253 Leg.]

YEAS—54

Bentsen	Helms	Murkowski
Biden	Hollings	Nunn
Bumpers	Johnston	Pell
Byrd	Kasten	Proxmire
Cochran	Kennedy	Pryor
Cohen	Kerry	Riegle
D'Amato	Lautenberg	Rockefeller
DeConcini	Laxalt	Roth
Denton	Leahy	Rudman
Dixon	Levin	Sarbanes
Dodd	Long	Sasser
East	Mathias	Simon
Ford	Mattingly	Specter
Glenn	McConnell	Stennis
Gore	Melcher	Thurmond
Hatch	Metzenbaum	Trible
Hawkins	Mitchell	Warner
Heinz	Moynihan	Weicker

NAYS—42

Abdnor	Domenici	Kassebaum
Andrews	Durenberger	Lugar
Armstrong	Evans	Matsunaga
Baucus	Exon	McClure
Bingaman	Garn	Nickles
Boren	Goldwater	Packwood
Boschwitz	Gorton	Pressler
Bradley	Gramm	Quayle
Burdick	Grassley	Simpson
Chafee	Harkin	Stafford
Chiles	Hart	Symms
Cranston	Hecht	Wallop
Danforth	Humphrey	Wilson
Dole	Inouye	Zorinsky

PRESENT AND GIVING A LIVE PAIR, AS PREVIOUSLY RECORDED—1

Stevens, against.

NOT VOTING—3

Eagleton	Hatfield	Heflin

So the amendment (No. 876) was agreed to.

Mr. THURMOND. Mr. President, I move to reconsider the vote by which the amendment was agreed to.

Mr. HOLLINGS. Mr. President, I move to lay that motion on the table.

The motion to lay on the table was agreed to.

The PRESIDING OFFICER. The majority leader is recognized.

Mr. DOLE. Mr. President, I suggest the absence of a quorum, with the time not to be charged to either side.

The PRESIDING OFFICER. The clerk will call the role.

The bill clerk proceeded to call the roll.

Mr. HEFLIN. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Is there objection?

Mr. DOLE. I object for just a moment.

The PRESIDING OFFICER. The objection is heard.

The bill clerk resumed the call of the roll.

Mr. HEFLIN. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Is there objection?

Mr. DOMENICI. Reserving the right to object.

The PRESIDING OFFICER. The Senator may not reserve the right to object.

The Senator from Alabama.

Who yields time?

Mr. DOLE. Mr. President, I ask unanimous consent that the Senator may proceed for 1 minute.

The PRESIDING OFFICER. Without objection, it is so ordered.

ANNOUNCEMENT OF POSITION ON VOTE

Mr. HEFLIN. Mr. President, I missed that last vote. I happened to be in the doctor's office. I asked specifically if they had clocks and bells to notify that we were having a vote. They malfunctioned, they did not work. That is the reason I missed the vote. I would have voted "yea" if I had been present for the Thurmond-Hollings bill.

The PRESIDING OFFICER. The question is on agreeing to the amendment of the Senator from South Carolina.

Mr. DOLE. Mr. President, have the yeas and nays been ordered?

The PRESIDING OFFICER. The yeas and nays have not been ordered.

AMENDMENT NO. 877

(Purpose: To delay the application of the import quotas and to condition the application of the import quotas on injury determinations by the United States International Trade Commission)

Mr. DANFORTH. Mr. President, I send an amendment to the desk and ask for its immediate consideration.

The PRESIDING OFFICER. The clerk will state the amendment.

The bill clerk read as follows:

The Senator from Missouri [Mr. DANFORTH] proposes an amendment numbered 877 to Amendment No. 875.

Mr. DANFORTH. I ask unanimous consent that further reading of the amendment be dispensed with.

The PRESIDING OFFICER. Is there objection? Without objection, it is so ordered.

The amendment is as follows:

AMENDMENT NO. 877

At the end of the matter proposed to be inserted, add the following:

SEC. . (a) Notwithstanding any other provisions of this Act, any limitation imposed by this Act on the quantity of any textiles, textile products, or nonrubber footwear that may be entered, or nonrubber footware that may be entered, or withdrawn from warehouse, for consumption in the customs territory in the United States—

(1) shall not apply with respect to textiles and textile products before August 1, 1986,

(2) shall not apply after the first date on which the President provides—

(A) import relief under section 203 of the Trade Act of 1974 (19 U.S.C. 2253) that is substantially equivalent to the import relief recommended by the United States International Trade Commission under section 201(d)(A) of such Act in connection with an investigation conducted under section 201(b) of such Act (19 U.S.C. 2251) with respect to imports of textiles and textile products, and

(B) import relief under section 203 of such Act that is substantially equivalent to the import relief recommended by the United States International Trade Commission under section 201(d)(1)(A) of such Act on June 12, 1985, in connection with the investigation conducted under section 201(b) of such Act with respect to nonrubber footwear, and

(3) shall not apply with respect to textiles and textile products after the date on which the United States International Trade Commission makes a negative injury determination under section 201(b) of such Act with respect to imports of textiles and textile products.

The PRESIDING OFFICER. The Senator from Missouri.

Mr. DANFORTH. Mr. President, this amendment is easy to explain. It is designed to take care of two problems that are pointed out in the amendment that was offered by the two Senators from South Carolina. Those are the problems of our shoe industry and the problems of our textile industry.

The question is, if we are going to take care of the shoe people and the textile people, how do we do it? Do we do it by special legislation offered on the floor of the Senate, offered in a reconciliation bill with very little time to debate it and work on it, are we going to go down the road of special legislation protecting one industry after another, or, instead, is there another mechanism that already exists to take care of troubled industries?

The answer to that question is there is a mechanism which is presently in existence.

Mr. President, there is a mechanism that is already in place. It was written into the Trade Act back in 1976. It is section 201 of the Trade Act. It is specifically recognized under the General Agreement on Tariffs and Trade, article XIX of the GATT, which provides under certain circumstances for safeguard relief for industries which are impacted by imports.

Section 201 is on the books. Section 201 has worked in the past and section 201 should work now.

Why are we here now? Why do we have this great clamor for industry-specific protectionist legislation? Why do people suggest that we need quota

bills? The answer to those questions is that they have given up on the more generic relief that is available pursuant to international agreement in section 201. I think they have given up largely because the President, this past summer, denied relief for the shoe industry even though the shoe industry pressed its case before the International Trade Commission and, in fact, won the case and proved injury and got a recommendation for relief from the ITC.

The President turned down the shoe industry and therefore, the general view around the country, and I think it is the correct view, is that right now, section 201 of the Trade Act is a dead letter. it gets nowhere. It offers no hope for those who pursue it. It is a waste of time. Now, it is my view that there is an alternative to quota legislation and this is to revive section 201; that we do not need quota legislation and we should not have quota legislation provided we have section 201 of the Trade Act that works, and that is precisely what this amendment is designed to do.

This amendment provides that with respect to textiles the Thurmond-Hollings provision will go into effect, not immediately but on August 1. It will go into effect if nothing else is done. But if a section 201 case is brought, and it obviously would be if this amendment were passed, and if injury were found pursuant to the statute and relief were recommended by the ITC pursuant to the statute, then the President would have to provide relief that was substantially equivalent to what was recommended by the International Trade Commission.

And with respect to shoes where there already has been a section 201 case that has gone through the ITC, with respect to shoes the quota relief provided in this bill would not be provided if the President implemented section 201 and put in place substantially equivalent relief to that which was recommended by the ITC. In other words, Mr. President, the issue is very simple: can we reinvigorate the existing trade laws in a way that makes the existing trade laws credible? Can we utilize them again for the purpose for which they were designed or instead are we going to go down the road that we are pointed to by the amendment that was just passed? Are we going to go down the road to quota legislation?

I want the Senate to understand that if we move away from the General Agreement on Tariffs and Trade, if we move away from the 201 relief for which this amendment stands, then there is no end in sight for special legislation. If we say yes to every interest group that comes in the door, we cannot say no to the next one that comes in the door. And, believe me, there will be others. Shoes have come in already in this bill, steel will be next, and on and on and on. So, Mr. President, I think that the issue is whether Congress is going to be the forum for a politicized version of managing trade policy or, instead, whether we can deflect some of this pressure that is now on Congress for special legislation into a renewed version of section 201 of the Trade Act.

Mr. DOLE addressed the Chair.

The PRESIDING OFFICER. The majority leader.

Mr. DOLE. Mr. President, it occurs to me that we may have a problem on how we are going to dispose of the reconciliation bill without a lot of other amendments that would not be offered because of filibusters, cloture, whatever. We have been having a discussion between the distinguished minority leader, myself, the chairman of the Budget Committee, Senator DOMENICI, and the ranking member, Senator CHILES. We are not yet certain how to proceed, but it would seem to me that there should be some indication that this is not the way we intend to operate in the future. And so I ask unanimous consent that we temporarily set aside the pending amendment and the amendment to the amendment and that we might let the distinguished minority leader offer an amendment. It deals only with procedure, not with any amendment that is pending.

The PRESIDING OFFICER. Is there objection? Without objection, it is so ordered.

AMENDMENT NO. 878

Mr. BYRD. Mr. President, I send to the desk an amendment sponsored by myself, Mr. DOLE, Mr. CHILES, Mr. STEVENS, and Mr. DOMENICI.

The PRESIDING OFFICER. The clerk will report.

The bill clerk read as follows:

The Senator from West Virginia [Mr. BYRD], for himself, Mr. DOLE, Mr. CHILES, Mr. STEVENS, and Mr. DOMENICI, proposes an amendment numbered 878:

At the appropriate place add the following: When the Senate is considering a reconciliation bill upon a point of order being made and sustained by any Senator, any part of the bill not in the jurisdiction of the reporting committee or extraneous to the instructions given that committee shall be deemed stricken from the bill and may not be offered as a floor amendment. No motion to waive germaneness on reconciliation bills shall be agreed to unless supported by three-fifths of the Senators duly chosen and sworn, which super majority shall be required to successfully appeal the ruling of the Chair on these matters.

Mr. BYRD. Mr. President, the amendment speaks for itself. I would just say that we are in the process now of seeing, if we have not seen earlier, the Pandora's box which has been opened to the abuse of the reconciliation process. That process was never meant to be used as it is being used. There are 122 items in the reconciliation bill that are extraneous. Henceforth, if the majority on a committee should wish to include in reconciliation recommendations to the Budget Committee any measure, no matter how controversial, it can be brought to the Senate under an ironclad built-in time agreement that limits debate, plus time on amendments and motions, to no more than 20 hours.

It was never foreseen that the Budget Reform Act would be used in that way.

So if the budget reform process is going to be preserved, and more importantly if we are going to preserve the deliberative process in this U.S. Senate—which is the outstanding, unique element with respect to the U.S. Senate, action must be taken now to stop this abuse of the budget process.

Mr. HART. Will the minority leader yield for a question?

Mr. BYRD. May I just finish my thought and I will be happy to yield.

Mr. President, the Senate is a deliberative body, and the reconciliation process is not a deliberative process. It not a deliberative process. Such an extraordinary process, if abused, could destroy the Senate's deliberative nature. Senate committees are creatures of the Senate, and, as such, should not be in the position of dictating to the Senate as is being done here. By including materal not in their jurisdiction or matter which they choose not to report as separate legislation to avail themselves of the nondeliberative reconciliation process, Senate committees violate the compact which created both them and the reconciliation process.

There is a way, pursuant to section 904 of the Budget Act, to add extraneous material which the Senate decided only a few days ago to require a three-fifths vote to accomplish. That is what we did on the Gramm-Rudman package. As a matter of fact, that is about the only item in that package that I fully supported. The three-fifths vote was an improvement over the present requirement of a majority vote.

What the Senate was willing to deny to itself as a whole in the absence of a three-fifths vote, these committees, by being faithless to their instructions, are arrogating to themselves by votes of a mere handful of Senators—a majority of a committee quorum.

The Senate must protect itself from this attack by its own committees, and, if necessary, the reconciliation bill will be amended to the extent necessary to achieve a preponderance of nonreconciliation matters and thus return this bill to a nonprivileged status.

Under the Budget Reform Act, other committees are mandated to make recommendations to the Budget Committee—those committees make their recommendations to the Budget Committee, and the Budget Committee cannot

add to or subtract from those instructions. It cannot amend the instructions. It cannot take from those instructions. It cannot add its own. It merely is to perform an administrative function—and that is, to put all such recommendations into a single package which, when sent to the floor and taken up, is covered by an overall 20-hour time limit.

Normal cloture is but an infinite speck on the horizon as compared to this kind of cloture. Under normal cloture, we have 100 hours. Each Senator has 1 hour, theoretically. But under the restrictions of the Budget Act, 20 hours is all there is on a reconciliation bill.

We saw a moment ago how much time can be taken by one amendment. First there is the waiver. That is an hour. Then there is the amendment. That is 2 hours. Then there is an amendment to the amendment. That is another hour.

So, when all is boiled down, we have not only an abuse of the budget process by way of which other committees recommend to the Budget Committee any controversial bill they want—repeal of the Hobbs Act, acid rain, you name it—but also, when reconciliation comes to the floor, one or two Senators can offer an amendment, and consume at least 4 hours out of the 20 hours, if they want to take all the time that is available with regard to the waiver, the amendment, the amendment to the amendment, quorum calls, and so on.

So, Mr. President, I have offered this amendment, which is being cosponsored by the other Senators whose names have been stated, in order to correct this abuse in the future.

This provides that if a point of order is raised and upheld against extraneous matter in the reconciliation bill or matter that has been recommended by a committee whch does not have jurisdiction over the subject matter, then all such matter that is in the bill will fall and is not subject to being offered as a further amendment thereto.

Mr. DOLE. Mr. President, will the Senator from Colorado permit me to ask one question? Will the Senator from West Virginia yield for a question?

Mr. BYRD. I yield.

Mr. DOLE. We discussed this in the Senator's office, and I think that for the record it sould be stated that there is nothing in this amendment, if adopted, which would affect the pending amendment of any other amendments to be offered to this reconciliation bill. Is that correct?

Mr. BYRD. The Senator is correct.

Mr. DOLE. We are talking about a bill we will have before us next year. It will not affect any appeal from the ruling of the Chair or waiver or motion with reference to the bill before us at this time.

Mr. BYRD. The Senator is correct. The amendment is prospective in nature only.

Mr. HART. Mr. President, will the Senator yield for a question?

Mr. BYRD. I yield.

Mr. HART. The minority leader suggests that procedural changes contained in this would affect only the reconciliation bill, or would it alter in any material way the rules and procedures of the Senate itself?

Mr. BYRD. No, it does not. It does not change the Senate rules, and, therefore, would not require, for example, a two-thirds vote for cloture.

Mr. HART. Does the Senator's amendment set any precedent with regard to the procedures or rules of the Senate that might be used to substantially change those rules?

Mr. BYRD. It does not. It does not affect the Standing Rules of the Senate and does not open any way whereby it might in the future affect the Senate rules or bring about further standing rules change. Any such changes in the future would have to be dealt with on an ad hoc basis by the Senate itself.

Mr. HART. I thank the minority leader.

Mr. McCLURE. Mr. President, will the Senator yield for a question?

Mr. BYRD. I yield.

Mr. McCLURE. First, I want to make a very brief comment.

Whether or not it is a rules change—and I think the Senator from Colorado is right in asking the question—I certainly would not raise any question at that time. But I would like to reserve at least to make plain that I am not certain that I agree with that interpretation, because I think there is a serious question as to whether it affects the procedures of the Senate and how we accomplish that by statutory change.

I think the Senator from West Virginia would be the first to agree that we need to be cautious when we get into that area.

My question is this: Under the existing practice, a point of order being raised as to germaneness is not ruled upon by the Chair. Immediately then a motion is made to suspend the provision, pursuant to the Budget Act. It is my understanding, as this amendment was explained, that this amendment would change that practice and require a ruling by the Chair, to be followed by a motion. Am I correct?

Mr. BYRD. At the present time, no point of order at all may be made against extraneous matter such as I hold in my hand—six pages of extraneous matter contained in this reconciliation bill. No point of order can be made against 122 extraneous items already in the bill. A point of order can only be made against an amendment from the floor. But my amendment would allow a point of order to be made against extraneous matter that is in a reconciliation bill as brought to the Senate by the Budget Committee.

Mr. McCLURE. Mr. President, if the Senator will yield further, a little earlier when the point of order was made against the Hollings-Thurmond amendment, the Chair did not rule on that point of order.

Mr. DOMENICI. Mr. President, will the Senator yield?

Mr. McCLURE. We proceeded immediately to the motion by the Senator from South Carolina, pursuant to the Budget Act, to suspend the requirement for germaneness.

My question is whether this will change that practice, because it seems to me that we are now suggesting—I understood the Senator to say in his explanation of the amendment—that following the ruling by the Chair, it would then require a vote, if it was ruled by the Chair. That would be different from the practice we followed a few short hours ago.

Mr. DOMENICI. Mr. President, will the distinguished minority leader yield?

Mr. BYRD. I yield.

Mr. DOMENICI. I say to the Senator from Idaho that under the Budget Act, the Chair would have ruled on my point of order, but before the Chair could rule, the motion to waive was made. This is to be contrasted with the way it is done on appropriations bills, where the Chair submits questions of germaneness to the Senate.

Mr. McCLURE. That may be what was done earlier, but it was not done earlier today.

As a matter of fact, this Senator made an inquiry about whether or not the Chair should rule and was advised that the Chair does not rule, under the Budget Act waiver procedure.

Mr. DOMENICI. The germaneness.

Mr. McCLURE. The germaneness question.

I understood the Senator from West Virginia to say in the explanation of this amendment that there would be a ruling of the Chair, to be followed by the motion. All I am trying to get very clearly stated is whether or not my understanding of the explanation is correct, that it would contemplate a ruling, to be followed by the motion.

Mr. BYRD. Yes, it would contemplate such a ruling and it would only apply to the extraneous matter that is already in the bill which is reported to the Senate by the Budget Committee.

Mr. McCLURE. If the Senator will yield further, it is not his intention to apply this same process to an amendment that might be offered on the floor?

Mr. BYRD. That is correct. The amendment which was offered deals

51-059 O-87-16 (Pt. 21)

only with extraneous matter in the bill as it is brought to the floor.

Take, for example, the amendment that has just been set aside. The Senators, Mr. HOLLINGS and Mr. THURMOND, came in through the front door. They were forthright. They used the present rule, played everything right on top of the table, and they moved to waive. That is within the present rule.

But I am dealing with matters that are sent to the floor in the bill. It may be we would want at some point to deal with motions that are offered on the floor.

We have 122 extraneous matters here that are in this bill. Some may be controversial; some may not be.

Mr. McCLURE. Mr. President, will the Senator yield further?

Mr. BYRD. Yes.

Mr. McCLURE. I thank the Senator for the explanation.

Let me say I will support the amendment. But I am a little puzzled as to why we would make it the process more restrictive on committee actions than we would make it upon individual Senators who would come to the floor. It seems to me that if there is abuse here, and there very well may be, and I hope the Senate will note that the Committee on Energy and Natural Resources did not do anything of this nature, although certainly it crossed the minds of individual Members, that it may be more competent for a committee after deliberation and a vote of the committee to bring matters of this nature to the floor than it is for an individual Member to come to the floor and offer an amendment.

This amendment would make it more restrictive on the committee process than it would upon the individual Member.

Mr. BYRD. Yes, it would.

Mr. McCLURE. While I support the amendment, I hope we will look at the other end of it also and suggest that still we might desire to say that the committee has perhaps a process that is better and, therefore, more worth of protection than is the individual amendment that might be offered by an individual Senator.

Mr. BYRD. The distinguished Senator makes a good point, except as I said a moment ago, no point of order may currently be made against the extraneous matter already in the bill as it is reported from the committee.

If the Senator wishes to take advantage of the waiver provision in the present Budget Reform Act as it is written, he may do so. A point of order can be made as to germaneness of a floor amendment but such language already in the bill is protected against points of order.

So Senators can protect themselves on this floor. Under the present situation the Senate will vote, and a majority will decide. Senators may move to waive the germaneness requirement, or they may make a point of order as to the nongermaneness of an amendment that is offered from the floor.

But with regard to extraneous matters already in the bill as it comes to the floor, no point of order can be made. The protections that are available for the Senate to utilize under the budget reform process when an amendment is called up from the floor are not when available when extraneous matters are brought to the floor in the reconciliation bill. My amendment will extend those protections to cover matter put into the bill at the committee level.

Mr. JOHNSTON. Mr. President, will the Senator yield for a question?

Mr. BYRD. I yield.

Mr. JOHNSTON. I say I support very strongly what the Senator is trying to do, but for purpose of setting the legislative record, I would like to get an understanding what happens in some instances.

First of all, according to the amendment when a matter is not within the jurisdiction of the committee or is extraneous to the instructions, that matter shall be deemed stricken from the bill. Now the question is: Where you have a whole provision, some of which is germane and some of which is not, does the Parliamentarian go through that and excise those sentences or clauses or subsections which are nongermane or extraneous and leave the rest, or does he excise the entire section as to which there is offending language?

Mr. BYRD. I am not sure I can answer that question with respect to what the Parliamentarian will do.

It might depend upon whether or not the language is divisible. I do not know. Perhaps the distinguished Senator would want to address his question to the Chair on this particular question.

Mr. JOHNSTON. When it says, "Any part of a bill not in the jurisdiction of the committee," I am just wondering what the intent of the authors is with respect to "any part of a bill." Does it mean the entire portion of the bill reported by a committee, or just as the offending extraneous or nongermane language?

Mr. BYRD. If it is any part of the bill that is not within the jurisdiction of the reporting committee, it would fall. If it is not within the jurisdiction of the——

Mr. JOHNSTON. When you say "part," if you have, let us say, a 30-page section of legislation as to which there is one subsection that is not germane, would you simply knock out the subsection or would you take the whole 30-page section?

Mr. BYRD. I think the Senator may be confusing—let me say this: the Senator is talking about germaneness?

Mr. JOHNSTON. The Senator is correct.

Mr. BYRD. And also talking about legislation that has been reported by a committee which does not have jurisdiction over the subject matter. So there are two different things.

The language, I think, would explain the answer. Any part of the bill not in the jurisdiction of the reporting committee, whether it is germane or not, any part that is not within the jurisdiction of the reporting committee, would fall.

Mr. JOHNSTON. For example, we usually put a severability clause in legislation which means that if any section of the bill is declared unconstitutional by the Court, then the rest of the bill does not fall.

I am asking, I guess, whether you intend for there to be, in effect, a severability clause here, or whether the whole section as to which there is any offending language falls.

Mr. BYRD. I say any part of the bill that is not within the jurisdiction of the reporting committee would fall.

Mr. JOHNSTON. You can take out that part and in effect rewrite the bill by striking sentences, clauses, subsections.

Mr. BYRD. That are not within the jurisdiction of the reporting committee.

Mr. JOHNSTON. All right.

My next question is this: Your amendment states: No motion to waive germaneness shall be agreed upon unless supported by three-fifths of the Senators."

Now, you do not have a statement as to waiving extraneousness. What happens in the event language is ruled extraneousness? Can such a ruling be waived and, if so, by what vote?

Mr. BYRD. If it is extraneous, it comes out.

Mr. JOHNSTON. And it cannot be waived even by three-fifths?

Mr. BYRD. No. The three-fifths applies to the vote of the Senate to overrule the ruling of the Chair on a point of order.

(Mr. MATTINGLY assumed the chair.)

Mr. BYRD. It would take three-fifths to override the Chair. If the Chair sustains the point of order, an appeal from the ruling of the Chair would require a three-fifths vote.

Mr. JOHNSTON. As to extraneousness, as well as germaneness? The amendment speaks in terms of motions to waive germaneness, but you also mean extraneousness, as well; is that correct?

Mr. BYRD. That is right. If the point of order is made and is sustained that there is matter in a given reconciliation bill that was reported by another committee rather than the committee which has jurisdiction under rule XXV of the Senate Standing Rules, then that would fall.

Mr. JOHNSTON. It can or cannot be waived by three-fifths? Can the point of order as to extraneousness be waived, and if so, by what vote?

Mr. BYRD. The three-fifths vote applies to the overruling of the Chair on the point of order that has been made.

Mr. JOHNSTON. On germaneness and extraneousness?

Mr. BYRD. That is right. It would be a point of order made and the Chair rules on the point of order. If the Chair rules the point of order is well taken, then it would take 60 votes of the Senate, the same as in the case of cloture, to overrule that Chair.

Mr. JOHNSTON. My final question has to do with the meaning of the word "extraneous" and what your intention is as to how that is interpreted. Frequently, in fact, usually directions are given by the Budget Committee in the very broadest of terms, and the authorizing committees report legislation which is detailed and which, in one sense, might contain matter that is extraneous. It might be germane to the instructions, but extraneous in the sense that it is not specifically called for within the four corners of the instructions from the Budget Committee to the authorizing committee. Could the Senator tell me what he means by "extraneous" in this context of that question?

Mr. BYRD. I beg the Senator's pardon. I was distracted and, I must say, I should have been listening to the able Senator.

Mr. JOHNSTON. If I may repeat it. The question is as to the meaning of the word "extraneous," as used in this amendment. It says matters shall be stricken from the bill if they are extraneous to the instructions given by the Budget Committee.

Now, as I said, instructions by the Budget Committee are generally very, very general in terms. They will usually say: "Save so much money in budget authority, so much in outlays." They may, as in the case of our amendment on the Outer Continental Shelf, give a formula for the division of revenues in escrow, But they, in general terms, are very general instructions.

Now, authorizing committees frequently, in fact, usually report back detailed legislation which will meet the targets of those instructions, but contain a lot of other matters germane to that committee and perhaps germane to the instructions. But the question is: What is the meaning of the word "extraneous"? Do you mean that it must be contained within the four corners of the instructions from the Budget Committee, or may the Budget Committee supplement those instructions by filling out the spirit of the instructions within the jurisdiction of that committee and all within the germaneness rule, if the Senator understands the question?

Mr. BYRD. The word "extraneous" here would be interpreted in the future just as it is presently being interpreted. And I understand that, at the present time, "extraneous," in the context, is determined by whether or not the language contributes to reducing the deficit and balancing the budget; otherwise, it is extraneous. So the same interpretation that is now given to the word "extraneous" would continue to be given.

Mr. JOHNSTON. So, for example, a committee would be able to go beyond the instructions and save more money?

Mr. BYRD. Well, if such language does not serve to balance the budget or to reduce the deficit, the language would be extraneous—then it would be up to the Chair to determine whether or not the point of order is well taken.

Mr. JOHNSTON. I thank the distinguished minority leader.

I see the distinguished chairman of the Budget Committee may have a comment on this question.

Mr. DOMENICI. Will the distinguished minority leader yield?

Mr. BYRD. Yes.

Mr. DOMENICI. First, let me ask the distinguished minority leader a question and then I would like to comment on what I think has developed and evolved as a definition of "extraneous material."

As I read the amendment, I say to the distinguished minority leader, the second part of this amendment—"No motion to waive germaneness on reconciliation bills shall be agreed to unless,"—I understand that this applies to an amendment offered on the floor by a Senator. Is the Senator from New Mexico correct?

Mr. BYRD. The Senator is correct and I was incorrect.

Mr. McCLURE. Will the Senator yield on that point? I read the language the same way the Senator from New Mexico reads it. I appreciate what the Senator from West Virginia has said, because I think it strengthens and makes more uniform the application and, therefore, is an even better amendment. I am thankful for the clarification on that matter.

Mr. BYRD. The Senator is correct. That sentence was added by me just a few minutes prior to my calling up of the amendment. The Senator is correct.

Mr. DOMENICI. Mr. President, I wish to ask one further question of the principal sponsor and drafter of the amendment, the distinguished minority leader. I wonder if he intended to include in the second part of the amendment, "no motion to waive germaneness." I wonder if he wanted that to be just germaneness, whereas before, when we were speaking of striking what a committee sent us, the Senator used two descriptions: he used germaneness and he used extraneous. It appears to me he might want, in the second part, "no motion to waive germaneness or extraneousness," and then provide for the supermajority. Otherwise, you make extraneous material subject to a point of order, but the point of order could be waived by a simple majority.

Mr. BYRD. Mr. President, the distinguished Senator from New Mexico makes an excellent point. I agree with him and think it should be so strengthened and I modify my amendment so to accomplish that purpose.

Mr. DOMENICI. Mr. President, will the distinguished minority leader permit me to respond to what "extraneousness" means thus far in its evolution in the Senate? Let me suggest that, going back to 1981, we have evolved these four definitions, and I believe they are used by minority and majority members of the committee now. I would just read them quickly:

One, provisions that have no direct effect on spending and which are not essential to achieving the savings.

Two, provisions which increase spending and are not so closely related to saving provisions that they cannot be separated.

Three, provisions which extend authorizations without saving money, and which are not so closely related to saving provisions that they cannot be separated.

Four, provisions which invade another committee's jurisdiction, whether or not they save money.

And I am not saying that is all inclusive, but, up to this point, that is what we have been using. That is what we used in developing this list of 129 that the distinguished minority leader has called to the Senate's attention.

The PRESIDING OFFICER. The minority leader has a right to modify his amendment. If he will send it to the desk, the amendment will be so modified.

The amendment, No. 878, as modified, reads as follows:

At the appropriate place add the following:

When the Senate is considering a reconciliation bill, upon a point of order being made by any Senator and sustained, any part of the bill not in the jurisdiction of the reporting committee or extraneous to the instructions given that committee shall be deemed stricken from the bill and may not be offered as a floor amendment. No motion to waive germaneness on reconciliation bills shall be agreed to unless supported by three-fifths of the Senators duly chosen and sworn, which supermajority shall be required to successfully appeal the ruling of the Chair on these matters which include the points of order on extraneous matters and matter not properly reported from a committee.

Mr. JOHNSTON. Will the Senator from West Virginia yield for just one more question?

Mr. BYRD. Yes.

Mr. JOHNSTON. I am sorry I had not read initially that the motion to

waive germaneness could be agreed to unless approved by three-fifths of the Senators. I did not originally read that to mean only as to an amendment offered. But I understand that. I guess it is the Parliamentarian who would automatically strike from the bill that which is not germane or extraneous.

My question is, Can you appeal the ruling of the Chair, make a point of order, that a matter is not extraneous, or is germane, have the Chair rule against you and then reverse that on a simple majority vote, and overruling the ruling of the Chair? Or do you mean for that also to be three-fifths?

Mr. BYRD. Would the Senator ask that question again?

Mr. JOHNSTON. The Parliamentarian strikes from the bill a matter which is extraneous or which is nongermane. I am interested in the matter, and I make a point of order that the matter is not extraneous or is germane to the bill. The Parliamentarian, the Chair, rules against me. I appeal the ruling of the Chair. Can we thereby overturn the Chair by simple minority vote?

Mr. BYRD. No.

Mr. JOHNSTON. Can you challenge the ruling of the Chair at all? If so, how?

Mr. BYRD. The Senator can appeal the ruling of the Chair.

Mr. JOHNSTON. Appeal the ruling of the Chair, but what vote would that require?

Mr. BYRD. Three-fifths.

Mr. JOHNSTON. I think in view of the earlier answer that this motion to waive germaneness applies only to amendments offered on the floor—it would apply to both—and committee action?

Mr. BYRD. Yes.

Mr. JOHNSTON. The automatic ruling out as well as an amendment offered on the floor?

Mr. BYRD. That is correct.

Mr. DOMENICI. I think the distinguished sponsor had answered previously that the supermajority requirement for a waiver applied only to committee reported language, but when we exchanged views here, he clearly indicated that it applies to waivers of the germaneness requirement or the extraneous language point of order or appeals to rulings of the Chair.

Mr. JOHNSTON. I wonder if this language is specific enough to apply to an appeal from the ruling of the Chair. It speaks in terms of a motion to waive germaneness of reconciliation. I think it might be rewritten a bit to make that clear.

Mr. BYRD. Mr. President, that is the intent of the sponsor. If I need to modify it to make it clear, I will do so.

Mr. McCLURE. Will the Senator yield?

Mr. BYRD. Yes.

Mr. McCLURE. I think the Senator from Louisiana has raised perhaps a good point because we have interchangeably talked here of the opportunity of a Member who does not like a ruling of the Chair being able to appeal the ruling of the Chair, and we have not clearly distinguished that from the opportunity to make a motion to suspend pursuant to the Budget Act. Maybe the answer to that question is to make certain that either an appeal from the ruling of the Chair or a motion with respect to germaneness should have to have a three-fifths vote.

I think that would make it clear because in our practice here earlier today it was not an appeal from the ruling of the Chair. As a matter of fact, it was not even a ruling of the Chair. But I think the Senator is very clear in his explanation that it is intended to cover both. Perhaps we ought to make a further statement in the amendment to make certain that it states that.

Mr. DOMENICI addressed the Chair.

The PRESIDING OFFICER. The Senator from New Mexico.

Mr. DOMENICI. Will the Senator yield to me?

Mr. BYRD. Mr. President, may I say that also in respect to—I think I should say this for the record—regarding extraneous items that are now in the measure, I have an amendment which would strike the 122 extraneous items in the measure, and I may ask for a division. I am not committing myself at this point to demanding a division. If that should be done, however—and it could be done by someone other than me. The distinguished Senator from Arkansas, for instance, who is for the moment visiting with the distinguished Senator from Mississippi, could demand a division—that would mean there would be a separate vote, not necessarily a rollcall, a separate vote on each of the 122 or 123 extraneous items, and once we run out the 20 hours, we could have vote after vote after vote. I hope Senators will think about that.

I say this in the hope that we can work our way out of this morass without resorting to such a drastic move.

I yield the floor.

Mr. DOMENICI addressed the Chair.

The PRESIDING OFFICER. The Senator from New Mexico.

Mr. DOMENICI. Mr. President, I want to compliment the distinguished minority leader for the amendment. I think we have a suggestion for a further modification. We will talk with the Senator from Louisiana. We are working on it. I think there are a couple of words we ought to add.

Mr. BYRD. Will the distinguished Senator yield?

Mr. DOMENICI. Indeed.

Mr. BYRD. Mr. President, I ask unanimous consent that I may retain my right to modify this amendment in the event someone else should ask for the yeas and nays. I ask that I may retain that right.

The PRESIDING OFFICER. Is there objection? Without objection, it is so ordered.

Mr. DOMENICI. Mr. President, as I was saying, I commend the distinguished minority leader. Frankly, as the chairman of the Budget Committee, I am aware of how beneficial reconciliation can be to deficit reduction. But I am also totally aware of what can happen when we choose to use this kind of process to basically get around the Rules of the Senate as to limiting debate. Clearly, unlimited debate is a prerogative of the Senate that is greatly modified under this process.

I have grown to understand that this institution, while it has a lot of shortcomings, has some qualities that are rather exceptional. One of those is the fact it is an extremely free institution, that we are free to offer amendments, that we are free to take as much time as this U.S. Senate will let us to debate, and have those issues thoroughly understood both here and across this country.

I do not like to see committees put amendments on reconciliation that they have not been able to pass for years, or in the process of doing reconciliation just add untold numbers of amendments in order to be immune from unlimited debate.

So I compliment the Senator, and I hope we will adopt his amendment here tonight.

I want to remind everyone that we only have 1½ hours left. We still have the pending amendment on textiles that has not been completed. We have at least 22 amendments that are germane, and people ought to have a chance to offer and debate them. They are serious and substantive.

We have 129 extraneous provisions that the distinguished minority leader has just indicated he might move to strike which will give us an opportunity to vote maybe 129 times if somebody decides to divide the amendment.

Frankly, I am charged with producing in the near future, with the help of the majority and minority leader, a bill. I believe we ought to do that. I do not think we ought to throw away the good provisions of this bill because Senators wish to put everything that has been lingering for all year long on this bill. I will do my very best, subject to the leaders' direction, to try to get something worked out that makes sense. I hope those who have amendments will understand that we are going to need to cut their time immensely.

I hope those who have produced the 129 extraneous amendments that are now in this bill will seriously consider

whether they want to resist motions to strike or not. Conversely—those who want to get rid of some of them—I hope they will seriously consider whether they really want to put us to a vote on a motion to strike or not.

I think we can put all of that together sometime in the not too distant future. But for now, I hope we will adopt the Byrd amendment, and at least we will not find ourselves in this condition again on a reconciliation bill.

Mr. EVANS addressed the Chair.

The PRESIDING OFFICER. The Senator from Washington.

Mr. EVANS. Mr. President, I commend the majority and minority leaders, and the chairman and ranking member of the Budget Committee for what they are attempting to do. I think it represents a major step forward in correcting an evil we fell into today which is being well recognized. I listened to the questions asked of the minority leader during the course of the recent discussion. I believe that I had some of the same questions.

I believe they have been answered. As I understand the language, and the minority leader, if I could have his attention for a moment, can correct me if I am in error, do I understand correctly that the proposal made, if it had been in the law prior to today, would have meant that the textile bill as proposed would have been ruled out of order from this proposal?

Mr. BYRD. If a point of order were made against that bill with respect to germaneness and if the point of order were upheld, then it would take a three-fifths vote to overrule the Chair, under my amendment.

Mr. EVANS. That is my understanding. I understand that sustained means as sustained by the Parliamentarian.

Let us understand the terms. I should have said the Presiding Officer rather than the Parliamentarian, when I referred to being sustained.

Mr. BYRD. The point of order as ruled on by the Chair, if the point of order is sustained, then it would take a three-fifths vote to overrule the Chair. The phrase "and sustained," as I had written it earlier was a misplaced phrase and should go at the end of the line.

Mr. EVANS. I thank the minority leader.

Let me add briefly that this is a splendid move forward. If there had been any real progress made today, perhaps this is the best progress we have made for the long-term future of the Senate.

I would suggest just one thing. Because of what we have already done and because of the rather increasingly bleak outlook for the reconciliation bill itself, if and when it ever gets to the White House, I would suggest to the minority leader and the majority leader that perhaps it would be worthwhile to immediately introduce this and carry it through as rapidly as we can as a freestanding or separate proposal in order that we ensure that it be sustained——

The PRESIDING OFFICER. Let there be order in the Chamber.

Mr. EVANS. That it be sustained and continue to be a rule.

Mr. BYRD. The distinguished Senator had made a fine point which has been discussed with the distinguished majority leader and the manager of the bill. I am sure the distinguished majority leader will respond on his own to such a proposal.

The amendment (No. 878), as further modified, is as follows:

At the appropriate place add the following: "When the Senate is considering a reconciliation bill, upon a point of order being made by any Senator, and sustained, any part of the bill not in the jurisdiction of the reporting committee or extraneous to the instructions given that committee shall be deemed stricken from the bill and may not be offered as a floor amendment. This provision may be waived by three-fifths of the Senators duly chosen and sworn. No motion to waive germaneness on reconciliation bills shall be agreed to unless supported by three-fifths of the Senators duly chosen and sworn, which super majority shall be required to successfully appeal the ruling of the Chair on these matters which include the points of order on extraneous matters and matter not properly reported by a committee."

Mr. DOLE. Mr. President, I want to thank my colleague. I think the debate we have had on this amendment has been very helpful. As I look at the votes today, if it had been in effect now, this amendment would not be pending and that would be an improvement on the reconciliation bill. It was never intended as the answer for every amendment whether it is the Hobbs Act, abortion, prayer in school, or anything else. Ordinarily, you just wait for the reconciliation bill to come up every year and put anything on reconciliation. Obviously, that was not the purpose of the Budget Act.

I certainly commend the distinguished majority leader and others who have been working on this throughout the day.

I will say this: It would be my hope that we could pass the Byrd amendment with a substantial, if not unanimous vote. It would then be my intent to move on to the State, Commerce, Justice appropriations bill tonight and complete action on that. In other words, take this bill down and see if we can put it back together somehow. I have discussed this with the distinguished chairmen of the Budget Committee and the distinguished ranking member, and the minority leader in his office. I know a number of second-degree amendments will be offered to the pending amendment. That will take a long, long time. Plus, there are 30-some other amendments. We have about 1 hour 20 minutes left to deal with all those amendments. It might be better if we follow that course of action.

If this amendment is approved, it would be my intention to move back to the State, Justice, Commerce appropriations bill. We believe we can complete action on that bill, I am advised by the managers, in an hour or an hour and a half. At that time I would have an announcement for the remainder of the evening, tomorrow, and Monday. We are working on an arrangement that might be helpful to a number of our colleagues.

Mr. DOMENICI. Will the majority leader yield for a question?

Mr. DOLE. I am happy to yield.

Mr. DOMENICI. I understand from talking with the majority leader, the minority leader, and Senator CHILES that after we have adopted the Byrd amendment, and I hope we do, then we will have just a little over 1 hour left. As I understand it, the majority leader intends to try to help us work this out. But, if not, he will bring the bill back at the earliest possible time and we will have 1 hour to vote on 32 amendments. If anybody wants to move to strike each and every extraneous provision we will have 129 of those votes.

Mr. DOLE. I think there could be 155 rollcall votes. That would be a good day to be in town.

[Laughter.]

Mr. DOMENICI. I thank the majority leader.

Mr. THURMOND. Mr. President, I have no objection to the plan which has been suggested. However, there is only one more vote needed on this amendment. That is to vote on the Thurmond-Hollings amendment to the Hollings-Thurmond amendment so it will be complete.

Mr. DANFORTH. Mr. President, a parliamentary inquiry. What is the situation with respect to the reconciliation bill and the amendment pending to it?

The PRESIDING OFFICER. The amendment by the Senator from West Virginia is pending.

Mr. DANFORTH. And what was laid aside that would automatically recur if the Byrd amendment is agreed to?

The PRESIDING OFFICER. The amendment of the Senator from Missouri who offered an amendment to the Senator from South Carolina.

Mr. HOLLINGS. Mr. President, I have a question with respect to the amendment on textiles. The majority leader is now joining me. In fact, as chairman I opposed this particular question. I opposed it when the distinguished Senator from Oregon, chairman of the Commerce Committee, came in first with all the communications bill. So having opposed and opposed and opposed, I have finally been persuaded. But mind you me, I think

it is an excellent initiative. I join in supporting it. I hope we can, though, not get into what they said they did not want to do, namely filibuster, with amendment upon amendment upon amendment upon amendment. They said what they wanted was a fair vote and a discussion. I hope we can get back tomorrow morning the first thing, or whenever, so that we can vote on those particular amendments. We are ready to stand and vote on those amendments.

Mr. DOLE. The rules provide for anyone to offer an amendment. We are just trying to tighten up the rules a bit. There is no attempt to criticize those who have used this process. It is perfectly proper. Some of us wish we had thought of something before. Maybe we can put the wheat bill into this. We plant a lot of wheat in Kansas.

There are many opportunities which have passed us by because we did not think of it, as the Senator from South Carolina.

Mr. HOLLINGS. It was the Finance Committee that brought in the adjustment assistance. Rather than saving money, when we went to reconciliation that cost us money. Our amendment on textiles saves money, not to be expended.

And this particular amendment that everyone now is talking about, in a peripheral sense, the initiative now supposed to be corrected is not the case. If we could correct in the original instance the extraneous matters, you would not have us coming forward trying to save the Government money with this textile amendment.

Mr. DOLE. I think the Senator's amendment has substantial merit.

Mr. THURMOND. Mr. President, will the distinguished majority leader or minority leader yield?

Mr. DOLE. I yield.

Mr. THURMOND. I would like the record to show that as I understand it, the Byrd amendment would not apply to any amendments put in now.

Mr. DOLE. Right, Mr. President, the horse is already out of the barn. But next year it would.

Mr. THURMOND. I am in favor of it, then, if that is the case.

Mr. President, I now move to table the Danforth amendment.

Mr. HOLLINGS. Or the Byrd amendment.

The PRESIDING OFFICER. The Senator's motion is not in order.

Mr. DOLE. Mr. President, let me suggest the absence of a quorum, not charged to either side or against the bill.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. DOMENICI. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Who yields time?

Mr. DOMENICI. I yield back any time I had on the amendment.

Mr. BYRD. I do the same, Mr. President.

I ask for the yeas and nays.

The PRESIDING OFFICER. Is there a sufficient second? There is a sufficient second.

The yeas and nays were ordered.

The PRESIDING OFFICER. The question is on agreeing to the amendment of the Senator from West Virginia.

The yeas and nays have been ordered. The clerk will call the roll.

The assistant legislative clerk called the roll.

Mr. SIMPSON. I announce that the Senator from Oregon [Mr. HATFIELD] is necessarily absent.

Mr. CRANSTON. I announce that the Senator from Missouri [Mr. EAGLETON], the Senator from Illinois [Mr. SIMON] and the Senator from Mississippi [Mr. STENNIS] are necessarily absent.

The PRESIDING OFFICER. [Mr. GRAMM]. Are there any other Senators in the Chamber desiring to vote?

The result was announced—yeas 96, nays 0—as follows:

[Rollcall Vote No. 254 Leg.]

YEAS—96

Abdnor	Glenn	McConnell
Andrews	Goldwater	Melcher
Armstrong	Gore	Metzenbaum
Baucus	Gorton	Mitchell
Bentsen	Gramm	Moynihan
Biden	Grassley	Murkowski
Bingaman	Harkin	Nickles
Boren	Hart	Nunn
Boschwitz	Hatch	Packwood
Bradley	Hawkins	Pell
Bumpers	Hecht	Pressler
Burdick	Heflin	Proxmire
Byrd	Heinz	Pryor
Chafee	Helms	Quayle
Chiles	Hollings	Riegle
Cochran	Humphrey	Rockefeller
Cohen	Inouye	Roth
Cranston	Johnston	Rudman
D'Amato	Kassebaum	Sarbanes
Danforth	Kasten	Sasser
DeConcini	Kennedy	Simpson
Denton	Kerry	Specter
Dixon	Lautenberg	Stafford
Dodd	Laxalt	Stevens
Dole	Leahy	Symms
Domenici	Levin	Thurmond
Durenberger	Long	Trible
East	Lugar	Wallop
Evans	Mathias	Warner
Exon	Matsunaga	Weicker
Ford	Mattingly	Wilson
Garn	McClure	Zorinsky

NOT VOTING—4

Eagleton	Simon
Hatfield	Stennis

So the amendment (No. 878) as further modified, was agreed to.

Mr. DOLE. Mr. President, I move to reconsider the vote by which the amendment was agreed to.

Mr. CHILES. I move to lay that motion on the table.

ERISA

Mr. GORTON. Mr. President, 50 years ago this body enacted the Federal old-age, survivors, and disability insurance system—a system that has come to be known as Social Security. The Social Security Program established a partnership among the Federal Government, workers and businesses of our Nation with the goal of providing a stable retirement system for American workers and their survivors. It became clear by 1974, however, that our efforts could not stop with Social Security insurance. Business failures threatened the private pension plans that workers relied upon to supplement their Social Security retirement income. Congress reacted by providing for the Pension Benefit Guarantee Corporation [PBGC] in the Employee Retirement Income Security Act. This new partnership effort now guarantees the retirement benefits of 29 million Americans, or approximately 40 percent of the employees in the private sector.

It is ironic that the agency created by Congress to ensure that company retirement plans are fully funded, is itself seriously underfunded. The Pension Benefit Guarantee Corporation estimates that it will have a deficit for its single employer program of $721 million by the end of 1986. Further, given the unfunded pension liabilities of corporate giants such as Wheeling-Pittsburgh Steel, it seems certain that this deficit will continue to grow.

The underfunded accounts of the Pension Benefit Guarantee Corporation now are affecting not only the private pension system, but the level of Federal indebtedness as well. Since early 1985, the Corporation has had a negative cash-flow that has required borrowing from the Treasury. Without reform, the agency will have to increase its borrowings, an action that will aggravate the Federal deficit problem.

Mr. President, I believe that we must renew the partnership we established with businesses and workers 50 years ago, and strengthen our commitment to providing stable sources of retirement income to working Americans. In these times when we are faced with making the difficult choices needed to reduce the Federal deficit, it is all the more important to take actions that guarantee a secure pension process. I strongly endorse the amendments to the Employee Retirement Income Security Act offered by the Committee on Finance and the Committee on Labor and Human Resources, and urge my colleagues to join me with their support.

Mr. CHAFEE. Mr. President, I would like to take this opportunity to clarify with the Senator from South Carolina a point which makes it clear that the textile amendment which we have just adopted in no way applies to imported toys. It is my understanding that goods otherwise classifiable under sub-

part E, part 5, schedule 7 entering under schedule 8 or the appendix to the Tariff Schedules of the United States would not be covered by the provisions of this bill.

Mr. THURMOND. Yes. The Senator is correct.

Mr. LAUTENBERG. Mr. President, S. 1730, the reconciliation bill, contains a Superfund tax title that is identical to the tax title in the Superfund Improvement Act. I support the Superfund tax title, while I would prefer a higher revenue level. This tax title extends Federal taxing authority to generate revenues for the existing program. Existing authority expired on September 30. The tax title continues the existing tax on crude oil and certain chemical feedstocks and adds a new excise tax. Together, these taxes would raise approximately $7.5 billion for financing the Superfund Program over the next 5 years.

Mr. President, this program is of vital importance to New Jersey and many other States. It should be reauthorized as soon as possible. The fund from which the program is financed has been exhausted of all but emergency funds. Obligations for new expenditures have been frozen at 57 sites across the country, including 11 in New Jersey.

Three committees reviewed the Superfund reauthorization legislation before full Senate consideration, including the Environment and Public Works Committee of which I am a member. I am pleased that the Senate approved a bill that raises a reliable source of funds for Superfund and makes programmatic improvements to the Superfund Program. The bill was approved by a vote of 86 to 13 on September 26. The Senate is now awaiting action by the House of Representatives, which has made important progress over the last few weeks.

It is my understanding that the intent of the leadership of the Finance Committee and the Environment and Public Works Committee is that Congress reauthorize both the tax title and the programmatic title of the statute, and that the inclusion of the tax title in reconciliation is not a substitute for approval of comprehensive Superfund legislation.

Mr. PACKWOOD. Mr. President, this is correct. While the Finance Committee does not have jurisdiction over the programmatic title of Superfund, the committee expects the tax title to be complemented by programmatic amendments to Superfund.

Mr. LONG. Mr. President, I concur with the chairman of the committee. This is not a substitute for the overall Superfund legislation.

Mr. STAFFORD. Mr. President, I support the Superfund tax provisions in the reconciliation bill, which are the same provisions as contained in title II of the Superfund reauthorization. It is certainly the intent of the Environment and Public Works Committee that the tax title of Superfund be complemented with amendments to title 1, the programmatic title of Superfund. The House of Representatives has moved Superfund reauthorization legislation through all committees with jurisdiction now, and floor consideration of the Superfund reauthorization is expected shortly. It is my hope that the Senate and the House will proceed to conference as quickly as possible after the House approves its bill, and that the conference will act expeditiously to send a bill to the President for his signature. It is the committee's intent to have a comprehensive reauthorization of Superfund. We do not regard the Superfund tax title by itself, as contained in the reconciliation bill, as adequately addressing the need for an improved Superfund program.

Mr. BENTSEN. Mr. President, that is my understanding as well. The Environment and Public Works Committee spent many long hours in hearings and in markups considering the Superfund reauthorization. The committee approved a number of important amendments to title 1 of the act, including a number of amendments that were offered by the Senator from New Jersey. I commend him for raising this point and initiating this colloquy. I agree with the chairman of the Environment and Public Works Committee and the Senator from New Jersey that the inclusion of the tax in reconciliation is not meant in any way to jeopardize amendments to title 1 made by the Environment and Public Works Committee and by the full Senate during floor consideration of S. 51. It is, therefore, imperative that the House approve a comprehensive Superfund reauthorization bill, and make it possible for the Senate and the House to meet in conference as soon as possible, and certainly before we adjourn this year.

Mr. LAUTENBERG. Mr. President, I appreciate the reassurances offered by the distinguished leadership of the Finance Committee and the Environment and Public Works Committee, and the opportunity to express my concern that there be a comprehensive reauthorization of the program, not simply an extension of the Superfund tax title. During consideration of the Superfund reauthorization bill, I offered several important amendments, in committee and in the full Senate, including chemical inventory and community right to know provisions, emergency preparedness provisions, and other amendments that address issues related to Superfund site cleanup. The first order of business should be the approval of the Superfund reauthorization in the House and the initiation of the Senate-House conference on these and other amendments. I thank the leadership of the two committees for their assurances of support for improvements to the Superfund program and for approval of a comprehensive reauthorization bill.

Mr. HOLLINGS. Several of our colleagues have expressed concern regarding the intent of section 1205 of the amendment pertaining to import licensing. Am I correct in my understanding that the intent of section 1205 of the Textile and Apparel Trade Enforcement amendment dealing with import licensing is to establish a licensing system in order to assist in administering the limits set in the legislation?

Mr. THURMOND. That is correct, the licensing provision in the bill is intended to assist in implementing the other provisions of the bill but is not in itself the limiting authority. Import licensing is intended to do several things. First, it will provide the administering authorities with accurate up-to-date information on what import flows will be in future periods. This will be very helpful since there have been delays in collecting data on exports once they arrived in the United States. Second, the import licensing system will be very effective in reducing quota fraud. There will have to be matching documentation whereby the import license must correspond exactly to the export license from the producing country. This should reduce attempts at transshipment, misidentification and other types of quota fraud. Third, an import licensing system should completely eliminate overshipments. The present system is plagued by overshipments of quotas due to lack of precise control by the producing countries. An import licensing system should eliminate overshipments completely because an import license would not be granted once a quota is filled.

Mr. HOLLINGS. Is the import licensing system intended to provide continued access for small importers as well as large importers?

Mr. THURMOND. Yes; it is intended that an import licensing system be administered in an equitable and effective fashion by the Secretary of Commerce. While the legislation does not spell out exactly how import licenses are to be administered, nonetheless, it is intended that the licenses should be administered in a way that is fair and equitable and does not disadvantage small importers by providing larger importers with most or all of the import licenses. One approach might be to allocate licenses based on historical shares with some set aside for new market importers. Another way may be to allocate a portion on a first-come, first-served basis with another portion dedicated to small importers. This would be up to the administrating authority but I believe the intent

of this provision is clear. Import licenses are to assist in administering the system without unfairly rewarding large importers at the expense of small importers. Also, the intent of this provision is to charge only a nominal fee to importers for this service which will cover the licensing system's administrative expenses.

Mr. DURENBERGER. Mr. President, the Committee on Armed Services has reported a provision to the Congress as part of its budget reconciliation package that has broad implications for Federal health policy and the Medicare Program. The committee proposes to implement a new prospective payment system for hospitals based on Medicare's diagnosis related groups [DRG's] for its Civilian Health and Medical Program of the Uniformed Services [CHAMPUS]. This provision would amend title XVIII of the Social Security Act to require hospitals that participate in Medicare to accept the CHAMPUS DRG rate as payment in full. Currently, CHAMPUS pays charges for the hospitalization of its subscribers.

The costs of the CHAMPUS Program have increased by nearly 70 percent between 1980 and 1984—from $710 million to more than $1.2 billion. The Committee on Armed Services developed the DRG payment system for CHAMPUS in good faith to help bring the costs of the program under control. The committee sees the tremendous contribution the DRG payment system has made to Medicare and wants to replicate Medicare's success story.

Last year, the committee proposed using DRG's for CHAMPUS and using Medicare as the leverage to get hospitals to accept the CHAMPUS rates in the Omnibus Defense Authorization Act of 1985. At that time, the majority leader in his capacity at the time as chairman of the Finance Committee and myself, as chairman of the Health Subcommittee, voiced concern over the proposal. Despite the committee's good intentions we felt that their proposal, the same one we are considering today, used the Medicare Program inappropriately to leverage hospitals to accept CHAMPUS DRG's and that the cause of Medicare DRG's for CHAMPUS was problematic. The Senate passed an amendment to the defense authorization bill which called for a feasibility study of CHAMPUS DRG's.

I advocated a study over action last year because of a number of concerns I had about going ahead with an untested program. I still have those same concerns. First, basing CHAMPUS payments for inpatient services on Medicare's new prospective payment system for hospitals was designed exclusively for Medicare beneficiaries. Medicare's payment amounts reflect the historical cost of services provided to a beneficiary population whose hospital costs are significantly different from those of CHAMPUS beneficiaries. Medicare currently covers 27 million elderly—age 65 years and older—and 3 million disabled persons.

CHAMPUS, on the other hand, covers some 6 million beneficiaries of all age groups, from the very young to the very old. The differences in the costs of providing hospital care to the elderly and disabled population is very different from the services provided to CHAMPUS patients. In fact, nationally, the average length of a hospital stay for most DRG categories for patients over age 65 is almost 4 days longer than for patients under age 65. It is these differences that should be closely examined before extending the Medicare's new prospective payment system to the CHAMPUS Program.

Second, requiring hospitals who participate in Medicare to not only provide services to CHAMPUS beneficiaries but to accept as payment in full, an amount of payment based on a system which was designed for a Medicare population is unfair, and may be overly regulatory and administratively burdensome. If CHAMPUS chooses to develop a prospective pricing system it should be based on its own experience—and not that of Medicare. And it should stand on its own two feet. Hospitals should be free to negotiate rates and CHAMPUS must continue to seek the best policy for its beneficiaries. Putting it bluntly, it is wrong to hold a $70 billion program like Medicare, hostage for a $1 billion program like CHAMPUS which has a different set of beneficiaries and objectives. CHAMPUS must make its way in the marketplace as comparable private sector plans.

The report required by my amendment to the Omnibus Defense Authorization Act of 1985 was due March 1, 1985. And it was at that time that the Medicare/CHAMPUS link would be discussed, analyzed and further legislation considered. The Congress received no report in March. And, all of a sudden we see the Medicare/CHAMPUS linkage in the Armed Services Committee's reconciliation package. I understand that the Committee's package includes a proposal to delay the submission date of the HHS/DOD study until December 1, 1985, and to mandate the adoption of their CHAMPUS provisions described above, effective October 1, 1987.

Mr. President, it was the intent of Congress to study this issue before proceeding along the approach described by the Armed Services Committee. I feel strongly that the Congress should not proceed with the committee's proposal before a thorough examination and analysis of the effects on the entire health care system of a CHAMPUS/Medicare link is completed.

I would like to pose a few questions to my colleague from California, chairman of the Manpower and Personnel Subcommittee of the Armed Services Committee, to clarify the Committee's intent on their CHAMPUS proposal.

Is it the committee's intent that the implementation of the CHAMPUS linkage to Medicare not proceed until the report mandated by the committee's provisions on the CHAMPUS payment system is received on December 1, 1985, by the Armed Services Committee and the Finance Committee and the committees have the opportunity next spring to conduct hearings on your committee's Medicare/CHAMPUS proposal?

Mr. WILSON. Yes, the committee's provision which would link Medicare and CHAMPUS would not go into effect until October 1, 1986. The report from the Department of Defense and the Department of Health and Human Services would be required by December 1, 1985. Inasmuch as the committee provision is a legislative proposal of the administration, I can imagine no reason why that report cannot be forwarded on time, especially since a similar report has previously been required. This will give our committee and the Finance Committee a full 9 months to hold whatever hearings they believe are needed on the issue of this linkage.

I must say to my colleague from Minnesota I understand some of his concerns, especially those concerning whether the DRG system developed for CHAMPUS should only be modeled after, as opposed to being identical to, the one used by Medicare. That, of course, is a matter solely within the jurisdiction of the Armed Services Committee. However, I do not share his view that CHAMPUS must make its way in the marketplace like a private-sector plan. Neither CHAMPUS nor Medicare is a private-sector plan—both are Federal programs providing reimbursement for health care. I believe the Federal Government as a whole should obtain the best prices possible for all that care.

Mr. DURENBERGER. In addition, is it the chairman's intent to include members of the Finance Committee on the Armed Services conference committee to work out the Medicare/CHAMPUS provisions in this bill?

Mr. WILSON. Yes, the chairman and the ranking members of both the Finance Committee and the Armed Services Committee have agreed to ask for Finance Committee members to participate with Armed Services Committee members in the conference on these provisions.

Mr. DURENBERGER. I thank the Senator for clarifying the committee's intent on the Medicare/CHAMPUS proposal.

THE CIVILIAN AGENCY MULTIYEAR CONTRACTING ACT OF 1985

Mr. COHEN. Mr. President, the Senate has included as part of S. 1730, the Consolidated Omnibus Budget Reconciliation Act of 1985, a section that authorizes civilian procuring agencies to enter into multiyear contracts, not to exceed 5 years, when it is determined to be in the Government's best interest. This section incorporates the language of S. 678, the Civilian Agency Multiyear Contracting Act of 1985, which I introduced along with Senators LEVIN and DANFORTH on March 18 of this year. S. 678, moreover, is identical to a bill I sponsored last year, S. 2300, which the Senate passed unanimously.

The genesis of this proposal dates back to the Commission on Government Procurement. In 1972, the Commission reported to Congress that the advantages of multiyear contracting exceed the disadvantages, and recommended that this procurement method should be used, when appropriate, on a governmentwide basis. The General Accounting Office agreed in a 1978 report, entitled "Federal Agencies Should Be Given Multiyear Contracting Authority for Supplies and Services," and recommended that legislation should be enacted to provide this authority. The Office of Federal Procurement Policy also endorsed the concept of governmentwide multiyear contracting in its February 1982 proposal for a uniform Federal procurement system, as did the Grace Commission in its June 1983 report on procurement. Finally, a similar proposal to extend multiyear contracting authority to the civilian agencies was included as part of the administration's management reform initiatives that were recently submitted to Congress.

The Governmental Affairs Subcommittee on Oversight of Government Management, which I chair, held a hearing last year on S. 2300 and again considered the proposal this past January in its review of the Grace Commission's procurement recommendations.

Under present law, multiyear contracting may be used only when no-year or multiyear funds are available or, in the case of 1-year funds, when multiyear contracting is specifically authorized by statute. The Department of Defense has such statutory contract authority and has used it effectively. Civilian procuring agencies, however, generally do not have multiyear contracting authority and are consequently precluded by fiscal law restrictions—such as the Anti-Deficiency Act—from entering into contractual agreements requiring obligations in excess or in advance of appropriations.

The Civilian Agency Multiyear Contracting Act, as passed by the Senate last year and included in the reconciliation package this year, would authorize civilian procuring agencies to contract on a multiyear basis, provided the following criteria are met.

First, appropriations must be available for the first year of the multiyear contract and there must be a reasonable expectation that, during the remaining years the contract is in effect, additional funding will be requested.

Second, the agency head awarding the multiyear contract must determine that the contract will serve the best interests of the Government by reducing costs; achieving economies in administration, performance, and operation; increasing quality of performance by or service from the contractor; or encouraging effective competition.

Third, during the proposed contract period, there will be a continuing need for the property or services, and this minimum need is expected to remain substantially unchanged.

Fourth, the specifications for the property or services being procured are expected to be reasonably stable.

Fifth, the use of such contracting method will not inhibit small business participation.

The objective of these selection criteria is to ensure that multiyear contracting will be used judiciously and to safeguard against any possible abuse. These criteria, which in some respects are more stringent than the criteria in title 10 governing the Defense Department's multiyear contracting authority, are designed to limit the use of multiyear contracting for civilian agencies to only those circumstances when there is great potential for benefits and less potential for cancellation.

In my judgment, multiyear contracting is especially appropriate for civilian agencies, considering the nature of their procurements. Civilian agencies anticipate using multiyear contracting for standard services, such as trash removal, and for certain commercial items, such as typewriters. These recurring, common-use goods and services, for which there will always be a need, are not technologically sophisticated, involve no research and development, and consequently do not entail the risks inherent in multiyear contracting for major weapons systems. It is highly unlikely, therefore, that the civilian agencies will ever incur significant cancellation costs. The bottom line is that civilian agencies will obtain benefits from multiyear contracting, similar to those experienced by the Defense Department, but without assuming as great a risk.

The primary benefits of extending multiyear contracting authority Governmentwide are reduced costs, improved quality, and increased competition.

Multiyear contracting, used appropriately, provides significant reductions in the cost of procurement resulting from lower contract prices as well as lower administrative expenses.

According to estimates by the Office of Federal Procurement Policy [OFPP], based on data used within the Defense Department, approximately 15 to 20 percent of civilian agency procurement costs could be saved when multiyear contracting is used. The Grace Commission estimated that savings of $1.8 billion could be realized annually through the expanded use of multiyear contracting, which includes savings by the Defense Department, as well. Officials from the General Services Administration [GSA] testified last year that the GSA alone could save up to $200 million annually through multiyear contracting. Finally, the Congressional Budget Office has estimated that this section would produce savings exceeding $500 million in the next 2 fiscal years.

These cost savings result from increased competition, economies of scale, improved contractor productivity, or a contractor's ability to amortize nonrecurring startup costs. Annual contracts frequently involve startup costs which must be recovered during the year. This has a direct impact on the price of property or services offered to the Government. Under a multiyear contract, such nonrecurring costs could be prorated over the life of the contract, thus reducing the unit cost of the work performed and consequently the price offered to the Government.

In some cases, multiyear contracting would allow agencies to take advantage of greater price discounts. For example, GSA analyzed the pricing practices of a major automated data processing [ADP] equipment vendor and found that the vendor's prices varied significantly based on its customer's ability to commit for multiple-year leases of equipment. Those customers—all commercial—who would commit to a 5-year lease were granted discounts ranging from 62 to 75 percent of the 1-year rates. The maximum volume discounts given to those customers who could only commit to a single year was 5 percent of the 1-year rate. In effect, customers such as the Government who leased equipment for several years, but who could only contractually commit themselves to a lease of 1 year, have paid as much in 2 years as other customers pay in 5 years.

Administrative costs to the Government could also be reduced. For annual contracts, agencies expend a significant amount of time and money to accomplish a variety of contract formation functions, including market research, preparation of solicitations, evaluation of offers, negotiation of prices, terms and conditions, and technical analyses. Agencies could reduce their cost of doing business if these ad-

ministrative activities were performed on other than an annual schedule.

In addition to savings in contract prices and administrative costs, the second benefit of multiyear contracting is that the quality of performance and service from contractors is likely to improve. The GAO found in its 1978 report that multiyear contracting can improve contractor performance and service by reducing the uncertainly of continued Government business, providing continuity in the delivery to recurring supply and service needs, and enabling the contractor to maintain a stable, well-trained work force.

Many contracts, particularly those for the provision of services, experience a "learning curve" phenomenon where a new contractor's performance improves steadily as its workers gain experience with the peculiarities of the Government's work requirements. When annual contracts are required and successive contracts are awarded to different firms, the impact of the initial stages of the performance "learning curve" is felt each year. With multiyear contracts, this impact is felt only in the initial year of the contract. Subsequent years should experience a sustained level of quality performance.

The third and perhaps most important benefit in multiyear contracting, which contributes to reduced costs and improved quality, is increased competition in contracting.

Many companies are often unwilling or unable to make significant capital investments for 1 year contracts, because it is difficult to recoup such investments and be price competitive. Multiyear contracts would make such undertakings more attractive by providing longer periods of assured business in which to recoup capital investments, thereby encouraging more companies to compete for the contract.

An example of an annual procurement which would have been competitive had it been awarded on a multiyear basis involves a GSA contract for converting waste into fuel. The GSA received proposals from firms indicating an interest in contracting with GSA to collect trash from Federal buildings, convert it into refuse-derived fuel, and sell it back to GSA for burning in Federal heating plants. GSA's contracting authority for such a service contract, however, is currently limited to a 1-year period. Considering the large front-end investment that would be required for a contractor to acquire the necessary equipment and facilities, potential contractors were unwilling to make such an investment for a 1-year contract. According to GSA, if multiyear contract authority were enacted, GSA would be able to contract competitively for conversion of waste to fuel, with anticipated savings in cost and energy resources.

Small businesses, in particular, stand to benefit substantially from multiyear contracting. According to the Commission on Government Procurement's report:

> Authorizing all executive agencies to enter into multiyear contracts with annual appropriations will permit small firms to become more competitive for contracts requiring substantial start-up costs and capital outlays. Usually such expenditures are more budensome to small than to big business. The ability to amortize such costs over longer periods should be helpful for small firms in competing for service and support contracts.
